**UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
WASHINGTON, D.C. 20549
FORM 10-Q**

**QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES
EXCHANGE ACT OF 1934**

For the Quarterly Period Ended October 31, 2009

Commission File Number 0-23248

SigmaTron International, Inc.

(Exact Name of Registrant, as Specified in its Charter)

Delaware

36-3918470

(State or other Jurisdiction of Incorporation or
Organization)

(I.R.S. Employer
Identification Number)

2201 Landmeier Road, Elk Grove Village, Illinois

60007

(Address of Principal Executive Offices)

(Zip Code)

Registrant's Telephone Number, Including Area Code: (847) 956-8000
No Change

(Former Name, Former Address, and Former Fiscal Year, if Changed Since Last Report)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See definition of "accelerated filer", "large accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer Non-accelerated filer Smaller reporting company
(Do not check if a smaller reporting company)

Indicate by check mark whether the registrant is a shell company (as defined by Rule 12b-2 of the Exchange Act) Yes No

On December 15, 2009, there were 3,822,556 shares of the Registrant's Common Stock outstanding.

Table of Contents**Notes to Consolidated Financial Statements**

(Unaudited)

October 31, 2009

Note A Basis of Presentation

The accompanying unaudited consolidated financial statements of SigmaTron International, Inc. (SigmaTron), wholly-owned subsidiaries Standard Components de Mexico S.A., and AbleMex, S.A. de C.V., SigmaTron International Trading Co. and its wholly-owned foreign enterprise Wujiang SigmaTron Electronics Co. Ltd. (SigmaTron China) and its procurement branch SigmaTron Taiwan (collectively, the Company) have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X.

Accordingly, the consolidated financial statements do not include all of the information and footnotes required by accounting principles generally accepted in the United States of America for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring adjustments) considered necessary for a fair presentation have been included. The Company has evaluated subsequent events through December 15, 2009, which is the date the financial statements were issued. Operating results for the three and six month periods ended October 31, 2009 are not necessarily indicative of the results that may be expected for the year ending April 30, 2010. For further information, refer to the consolidated financial statements and footnotes thereto included in the Company s Annual Report on Form 10-K for the year ended April 30, 2009.

Note B Inventories

The components of inventory consist of the following:

	October 31, 2009	April 30, 2009
Finished products	\$ 8,533,339	\$ 11,644,129
Work-in-process	1,776,689	2,391,559
Raw materials	20,882,797	22,194,867
	\$ 31,192,825	\$ 36,230,555

Table of Contents**Note C Earnings Per Share**

The following table sets forth the computation of basic and diluted earnings per share:

	Three Months Ended		Six Months Ended	
	October 31, 2009	October 31, 2008	October 31, 2009	October 31, 2008
Net income	\$ 517,298	\$ 1,505,316	\$ 114,823	\$ 2,084,640
Weighted-average shares				
Basic	3,822,556	3,822,556	3,822,556	3,822,556
Effect of dilutive stock options	28,839	52,087	16,540	56,974
Diluted	3,851,395	3,874,643	3,839,096	3,879,530
Basic earnings per share	\$ 0.14	\$ 0.39	\$ 0.03	\$ 0.55
Diluted earnings per share	\$ 0.13	\$ 0.39	\$ 0.02	\$ 0.54

Options to purchase 503,707 shares of common stock were outstanding at October 31, 2009 and 2008.

Note D Financing Transactions:

The Company has a revolving credit facility with Bank of America under which the Company may borrow up to the lesser of: (i) \$32 million; or (ii) an amount equal to the sum of 85% of the eligible receivable borrowing base and the lesser of \$16 million or 50% of the eligible inventory borrowing base. The revolving credit facility expires on September 30, 2010.

The Company was in compliance with the required financial covenants as of July 31, 2009. Historically, the Company has renegotiated its financial covenants for the current fiscal year during the first quarter of that fiscal year. The existing financial covenants remain in place until a new agreement has been reached. However as of October 31, 2009 a new agreement had not been reached. Effective October 31, 2009 the Company was in violation of a financial covenant. The financial covenant violation affected the revolving credit facility, term loan, mortgage and leases. Also, the term of the agreement has not been negotiated with Bank of America beyond September 30, 2010, which resulted in all of the outstanding debt being reclassified as short term debt. Bank of America has provided a Forbearance on the violation until January 8, 2010 to allow the Company to transition to Wells Fargo/HSBC Trade Bank.

In October 2009 the Company decided to conduct a strategic review of its financing arrangements to determine the best long-term alternatives. As part of the review process, the Company contacted five potential new banks and asked them to review the Company's financial position and to submit proposals on possible financing alternatives. The Company received viable proposals from four of the five as well as a proposal from Bank of America. Based on an evaluation of all the proposals, the Company has decided to reduce the overall size of its revolving credit facility to \$25 million and to pursue the proposal from Wells Fargo/HSBC Trade Bank. The reduction in the line will reduce the Company's overall credit facility cost as there is currently no need for the excess capacity due to a reduction in business activity. The Company is in the process of negotiating documents and undergoing the field audit with Wells Fargo/HSBC Trade Bank. The senior secured revolving credit facility would have a term of two years and a borrowing limit of \$25 million. On December 10, 2009 the Company received a Commitment Letter from Wells Fargo/HSBC Trade Bank. The Company

Table of Contents

anticipates it will finalize the transaction by December 31, 2009. The Company has discussed its decision with Bank of America and they have provided a forbearance on the financial covenant violation until January 8, 2010 to allow the Company to transition to Wells Fargo/HSBC Trade Bank. The Company will continue to operate under the same terms with Bank of America during the transition period. Bank of America has expressed its interest in continuing its relationship with the Company and if for any reason the Company is unable to complete the transaction with Wells Fargo/HSBC Trade Bank it will revisit the relationship with a view to continuing it under revised terms. The Company believes that going forward it will have financing from either Bank of America or another bank. The Company has a term loan with Bank of America with an outstanding balance at October 31, 2009 of \$1,500,000, with quarterly principal payments of \$250,000 due each quarter through the quarter ending June 30, 2011 and interest payable monthly throughout the term of the loan. The Company anticipates it will repay this debt using proceeds from the senior secured revolving credit facility from Wells Fargo/HSBC Trade Bank.

On November 19, 2003, the Company purchased the property that serves as the Company's corporate headquarters and its Midwestern manufacturing facility. The Company executed a note and mortgage with Bank of America in the amount of \$3,600,000. The note bears a fixed interest rate of 5.59% per year and is payable in sixty monthly installments. A final payment of approximately \$2,115,000 is due on or before April 30, 2013. The outstanding balances were \$2,591,313 and \$2,731,562 at October 31, 2009 and October 31, 2008, respectively. The Company anticipates it will initially repay this debt using the proceeds from the senior secured revolving credit facility from Wells Fargo/HSBC Trade Bank and the Company plans to enter into a mortgage agreement with Wells Fargo/HSBC Trade Bank in the third quarter of fiscal 2010 to re-finance the property.

The Company has various capital leases with Bank of America in the amount of \$1,417,093 at October 31, 2009. The Company anticipates it will enter into a loan with Wells Fargo/HSBC Trade Bank by December 31, 2009 to repay this debt.

As of October 31, 2009, \$14,897,291 was outstanding under the revolving credit facility with Bank of America. There was approximately \$8.7 million of unused availability under the revolving credit facility as of October 31, 2009. At October 31, 2009 the long term portion of debt related to the Bank of America revolving credit facility, mortgage and leases in the amount of \$15,397,291, \$2,451,063 and \$857,798, respectively, were reclassified to short term debt.

Note E Critical Accounting Policies:

Management Estimates and Uncertainties The preparation of consolidated financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Significant estimates made in preparing the consolidated financial statements include depreciation and amortization periods, the allowance for doubtful accounts, reserves for inventory and valuation of long-lived assets. Actual results could materially differ from these estimates.

Revenue Recognition Revenues from sales of the Company's electronic manufacturing services business are recognized when the product is shipped to the customer. In general, it is the Company's policy to recognize revenue and related costs when the order has been shipped from our facilities, which is also the same point that title passes under the terms of the purchase order except for consignment inventory. Consignment inventory is shipped from the Company to an independent

Table of Contents

warehouse for storage or shipped directly to the customer and stored in a segregated part of the customer's own facility. Upon the customer's request for inventory, the consignment inventory is shipped to the customer if the inventory was stored off-site or transferred from the segregated part of the customer's facility for consumption, or use, by the customer. The Company recognizes revenue upon such transfer. The Company from time to time may ship an order from its facilities which is also the same point that title passes under the terms of the purchase order and invoice the customer at the end of the calendar month. This is done only in special circumstances to accommodate a specific customer. The Company does not earn a fee for storing the consignment inventory. The Company generally provides a 90 day warranty for workmanship only and does not have any installation, acceptance or sales incentives, although the Company has negotiated longer warranty terms in certain instances. The Company assembles and tests assemblies based on customers' specifications. Historically, the amount of returns for workmanship issues has been de minimis under the Company's standard or extended warranties.

Inventories Inventories are valued at the lower of cost or market. Cost is determined by the first-in, first-out method. The Company establishes inventory reserves for valuation, shrinkage, and excess and obsolete inventory. The Company records provisions for inventory shrinkage based on historical experience to account for unmeasured usage or loss. Actual results differing from these estimates could significantly affect the Company's inventories and cost of products sold. The Company records provisions for excess and obsolete inventories for the difference between the cost of inventory and its estimated realizable value based on assumptions about future product demand and market conditions. Actual product demand or market conditions could be different than that projected by management.

Impairment of Long-Lived Assets The Company reviews long-lived assets including amortizable intangible assets for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. An asset is considered impaired if its carrying amount exceeds the future undiscounted net cash flow the asset is expected to generate. If such asset is considered to be impaired, the impairment to be recognized is measured by the amount by which the carrying amount of the asset exceeds its fair market value.

New Accounting Standards:

In September 2006, the Financial Accounting Standards Board (FASB) issued Accounting Standards Codification (ASC or the Codification) 820-10 (Fair Value Measurements and Disclosures (formerly SFAS 157, Fair Value Measurements), which defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles and expands disclosures about fair value measurements. In November 2007, the FASB agreed to a one-year deferral of the effective date of ASC 820-10 for all non-financial assets and liabilities, except those that are recognized or disclosed at fair value in the financial statements on a recurring basis. There was no significant impact from adoption of ASC 820-10 for non-financial assets and liabilities on the Company's financial statements.

In December 2007, the FASB issued ASC 805-10 Business Combinations (formerly SFAS 141R, Business Combinations). This Statement retains the fundamental requirements in ASC 805-10 that the acquisition method of accounting (formerly referred to as purchase method) is to be used for all business combinations and that an acquirer is identified for each business combination. This Statement defines the acquirer as the entity that obtains control of one or more businesses in the business combination and establishes the acquisition date as of the date that the acquirer achieves control. This Statement requires an acquirer to recognize the assets acquired, the liabilities assumed, and any noncontrolling interest in the acquiree at the acquisition date, measured at their fair values. This Statement requires the acquirer to recognize acquisition-related costs and restructuring costs separately from the business combination as period expense. This Statement is effective for business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after December 15, 2008. The Company will implement ASC 805-10 for any future business combinations.

Table of Contents

In December 2007, the FASB issued ASC 810-10 Consolidation (formerly SFAS 160, Noncontrolling Interest in Consolidated Financial Statements, an amendment of Accounting Research Bulletin No. 51), which establishes accounting reporting standards for ownership interests in subsidiaries held by parties other than the parent, the amount of consolidated net income attributable to the parent and to the noncontrolling interest, changes in a parent's ownership interest, and the valuation of retained noncontrolling equity investments when a subsidiary is deconsolidated. ASC 810-10 also establishes disclosure requirements that clearly identify and distinguish between the interests of the parent and the interests of the noncontrolling owners. ASC 810-10 is effective for fiscal years beginning after December 15, 2008. There was no significant impact from adoption of ASC 810-10 on the Company's consolidated results of operations and financial condition.

In May 2009, the FASB issued ASC 855-10 Subsequent Events (formerly SFAS 165, Subsequent Events), which establishes standards of accounting for and disclosure of events that occur after the balance sheet date but before financial statements are issued or are available to be issued. ASC 855-10 is effective for interim and annual periods ending after June 15, 2009. The Company adopted the provisions of ASC 855-10 in the first quarter of fiscal 2010, in accordance with the effective date.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

In addition to historical financial information, this discussion of the business of SigmaTron International, Inc., its wholly-owned subsidiaries Standard Components de Mexico S.A., and AbleMex S.A. de C.V., SigmaTron International Trading Co. and its wholly-owned foreign enterprise Wujiang SigmaTron Electronics Co., Ltd. (SigmaTron China) and its procurement branch SigmaTron Taiwan (collectively the Company) and other Items in this Quarterly Report on Form 10-Q contain forward-looking statements concerning the Company's business or results of operations. Words such as continue, anticipate, will, expect, believe, plan, and similar expressions identify forward-looking statements. These forward-looking statements are based on the current expectations of the Company. Because these forward-looking statements involve risks and uncertainties, the Company's plans, actions and actual results could differ materially. Such statements should be evaluated in the context of the risks and uncertainties inherent in the Company's business including the Company's continued dependence on certain significant customers; the continued market acceptance of products and services offered by the Company and its customers; pricing pressures from our customers, suppliers and the market; the activities of competitors, some of which may have greater financial or other resources than the Company; the variability of our operating results; the results of long-lived assets impairment testing; the variability of our customers' requirements; the availability and cost of necessary components and materials; the ability of the Company and our customers to keep current with technological changes within our industries; regulatory compliance; the continued availability and sufficiency of our credit arrangements; changes in U.S., Mexican, Chinese or Taiwanese regulations affecting the Company's business; the current turmoil in the global economy and financial markets; the stability of the U.S., Mexican, Chinese and Taiwanese economic systems, labor and political conditions; currency exchange fluctuations; and the ability of the Company to manage its growth. These and other factors which may affect the Company's future business and results of operations are identified throughout the Company's Annual Report on Form 10-K and as risk factors and may be detailed from time to time in the Company's filings with the Securities and Exchange Commission. These statements speak as of the date of such filings, and the Company undertakes no obligation to update such statements in light of future events or otherwise unless otherwise required by law.

Table of Contents

Overview:

The Company operates in one business segment as an independent provider of electronic manufacturing services (EMS), which includes printed circuit board assemblies and completely assembled (box-build) electronic products. In connection with the production of assembled products, the Company also provides services to its customers, including (1) automatic and manual assembly and testing of products; (2) material sourcing and procurement; (3) design, manufacturing and test engineering support; (4) warehousing and shipment services; and (5) assistance in obtaining product approval from governmental and other regulatory bodies. The Company provides these manufacturing services through an international network of facilities located in the United States, Mexico, China and Taiwan.

The Company relies on numerous third-party suppliers for components used in the Company's production process. Certain of these components are available only from single sources or a limited number of suppliers. In addition, a customer's specifications may require the Company to obtain components from a single source or a small number of suppliers. The loss of any such suppliers could have a material impact on the Company's results of operations, and the Company may be required to operate at a cost disadvantage compared to competitors who have greater direct buying power from suppliers. The Company does not enter into purchase agreements with major or single-source suppliers. The Company believes that ad-hoc negotiations with its suppliers provides flexibility, given that the Company's orders are based on the needs of its customers, which constantly change.

Sales can be a misleading indicator of the Company's financial performance. Sales levels can vary considerably among customers and products depending on the type of services (consignment and turnkey) rendered by the Company and the demand by customers. Consignment orders require the Company to perform manufacturing services on components and other materials supplied by a customer, and the Company charges only for its labor, overhead and manufacturing costs, plus a profit. In the case of turnkey orders, the Company provides, in addition to manufacturing services, the components and other materials used in assembly. Turnkey contracts, in general, have a higher dollar volume of sales for each given assembly, owing to inclusion of the cost of components and other materials in net sales and cost of goods sold. Variations in the number of turnkey orders compared to consignment orders can lead to significant fluctuations in the Company's revenue levels. However, the Company does not believe that such variations are a meaningful indicator of the Company's gross margins. Consignment orders accounted for less than 5% of the Company's revenues for the six months ended October 31, 2009 and 2008.

In the past, the timing and rescheduling of orders have caused the Company to experience significant quarterly fluctuations in its revenues and earnings, and the Company expects such fluctuations to continue. The uncertainty associated with the worldwide economy in general, and the United States' economy specifically, makes forecasting difficult. Generally speaking, the markets of all of the Company's customers are expected to remain volatile. The Company believes sales have bottomed out and are starting to recover. Demand remains volatile and unpredictable.

Table of Contents**Results of Operations:****Net Sales**

Net sales decreased for the three month period ended October 31, 2009 to \$30,564,267 from \$41,132,728 for the three month period ended October 31, 2008. Net sales decreased for the six months ended October 31, 2009 to \$56,894,321 from \$79,610,846 for the same period in the prior fiscal year. Sales volume decreased for the three and six month periods ended October 31, 2009 as compared to the same period in the prior year in the fitness, consumer electronics, appliance, telecommunications, semiconductor equipment and life sciences marketplaces. The decrease in sales for these marketplaces was partially offset by an increase in sales in the gaming marketplace. The decrease in revenue for the three and six month periods ended October 31, 2009 is a result of our customers' decreased demand for product based on their forecasts, which we believe is attributable to the global economic slowdown.

Gross Profit

Gross profit decreased during the three month period ended October 31, 2009 to \$3,283,296 or 10.7% of net sales, compared to \$5,911,379 or 14.4% of net sales for the same period in the prior fiscal year. Gross profit decreased for the six month period ended October 31, 2009 to \$5,543,149 or 9.7% of net sales, compared to \$10,560,577 or 13.3% of net sales for the same period in the prior fiscal year. The decrease in gross margin in total dollars and as a percent of sales for the three and six month periods ended October 31, 2009 compared to the prior periods is due to decreased revenue levels and decreased plant capacity utilization.

The Company has reduced its worldwide headcount, through attrition and lay-offs. Further, the Company implemented salary reductions for all non-union U.S. employees beginning February 2009. The Company lowered its cost structure during fiscal year 2009 based on customers' demands for product. The soft demand resulted in layoffs at the Hayward, California and Tijuana, Mexico locations and work week hour reductions at its Hayward, California, Acuna, Mexico and Elk Grove Village, Illinois facilities. In the second half of the quarter ended October 31, 2009 the Company experienced an increase in demand for product and resumed operating near-full work weeks at its Hayward, California, Acuna, Mexico and Elk Grove Village, Illinois operations. There can be no assurance that sales levels and gross margins will not decrease in future quarters. Pricing pressures continue at all locations.

Selling and Administrative Expenses

Selling and administrative expenses decreased to \$2,368,409 or 7.8% of net sales for the three month period ended October 31, 2009 compared to \$3,469,956 or 8.4% of net sales in the same period last year. Selling and administration expenses decreased to \$4,945,250 or 8.7% of net sales for the six month period ended October 31, 2009 compared to \$6,662,459 or 8.4% of net sales in the same period in the prior fiscal year. The decrease in total dollars for the three and six month periods ended October 31, 2009, was approximately \$824,000 and \$1,200,000, respectively, and is primarily due to a decrease in bonus expense, accounting, IT, and office salaries, accounting fees and amortization expense. The decrease in total dollars for the six months ended October 31, 2009 was partially offset by an increase in legal fees and insurance expense of \$20,000 compared to the same period in the prior fiscal year.

Interest Expense

Interest expense for bank debt and capital lease obligations for the three month period ended October 31, 2009 was \$191,307 compared to \$485,864 for the same period in the prior year. Interest expense for the six month period ended October 31, 2009 was \$435,403 compared to \$1,007,475 for the same

Table of Contents

period in the prior year. These changes were attributable to the Company's decreased borrowings under its revolving credit facility, term loan and capital leases, and lower interest rates. Interest expense for future quarters in fiscal year 2010 may increase if interest rates or borrowings increase during fiscal year 2010.

Taxes

The income tax expense from operations was \$303,723 for the three month period ended October 31, 2009 compared to \$565,073 for the same period in the prior fiscal year. Income tax expense from operations was \$67,417 for the six month period ended October 31, 2009 compared to \$963,652 for the same period in the prior fiscal period. The effective tax rate for the six month period ended October 31, 2009 was 37% compared to 31.6% for the same period in the prior fiscal year.

Net Income

Net income from operations decreased to \$517,298 for the three month period ended October 31, 2009 compared to \$1,505,316 for the same period in the prior year. Net income from operations decreased to \$114,823 for the six months ended October 31, 2009 compared to \$2,084,640 in the same period last year. Basic and diluted earnings per share for the second fiscal quarter of 2010 were \$0.14 and \$0.13, respectively, compared to basic and diluted earnings per share of \$0.39 for the same period in the prior year. Basic and diluted earnings per share for the six months ended October 31, 2009 were \$0.03 and \$0.02, respectively, compared to basic and diluted earnings per share of \$0.55 and \$0.54, respectively, for the same period in the prior year.

Liquidity and Capital Resources:

Operating Activities.

Cash flow provided by operating activities was \$6,620,024 for the six months ended October 31, 2009, compared to \$656,168 for the same period in the prior year. During the first six months of fiscal year 2010, cash flow provided by operating activities was a result of net income, the non-cash effect of depreciation and amortization, a decrease in inventory and an increase in accounts payable. Net cash provided by operations was partially offset by an increase in accounts receivable. The change in accounts payable and accounts receivable is due to timing of payments in the ordinary course of business. The decrease in inventory was the result of our customers' decreased demand for product based on their forecasts, which we believe is attributable to the global economic slowdown.

Cash flow provided by operating activities was \$656,168 for the six months ended October 31, 2008. During the first six months of fiscal year 2009, cash flow provided by operating activities was a result of net income, the non-cash effect of depreciation and amortization and a decrease in accounts receivables. The decrease in accounts receivables was a result of the timing of cash receipts from a significant customer. Cash flow provided by operating activities was partially offset by a decrease in accounts payable and an increase in inventories. The decrease in accounts payable is due to timing of payments to vendors in the ordinary course of business. The Company's inventories increased by \$1,583,258. The primary reasons for the increase in inventories was the startup of new programs with new and existing customers and customers delaying deliveries of existing orders.

Investing Activities.

During the first six months of fiscal year 2010, the Company purchased approximately \$1,200,000 in machinery and equipment to be used in the ordinary course of business. Approximately \$440,000 of the purchases is a financed licensing agreement for software through a note payable. The Company

Table of Contents

expects to make additional machinery and equipment purchases of approximately \$1,000,000 during the balance of fiscal year 2010. During the first six months of fiscal year 2009, the Company purchased approximately \$956,000 in machinery and equipment in the ordinary course of business. Approximately \$360,000 of the equipment purchases in the first six months of fiscal year 2009 was financed with a lease agreement.

Financing Transactions.

The Company has a revolving credit facility with Bank of America under which the Company may borrow up to the lesser of: (i) \$32 million; or (ii) an amount equal to the sum of 85% of the eligible receivable borrowing base and the lesser of \$16 million or 50% of the eligible inventory borrowing base. The revolving credit facility expires on September 30, 2010.

The Company was in compliance with the required financial covenants as of July 31, 2009. Historically, the Company has renegotiated its financial covenants for the current fiscal year during the first quarter of that fiscal year. The existing financial covenants remain in place until a new agreement has been reached. However as of October 31, 2009 a new agreement had not been reached. Effective October 31, 2009 the Company was in violation of a financial covenant. The financial covenant violation affected the revolving credit facility, term loan, mortgage and leases. Also, the term of the agreement has not been negotiated with Bank of America beyond September 30, 2010, which resulted in all of the outstanding debt being reclassified as short term debt. Bank of America has provided a Forbearance on the violation until January 8, 2010 to allow the Company to transition to Wells Fargo/HSBC Trade Bank.

In October 2009 the Company decided to conduct a strategic review of its financing arrangements to determine the best long-term alternatives. As part of the review process, the Company contacted five potential new banks and asked them to review the Company's financial position and to submit proposals on possible financing alternatives. The Company received viable proposals from four of the five as well as a proposal from Bank of America. Based on an evaluation of all the proposals, the Company has decided to reduce the overall size of its revolving credit facility to \$25 million and to pursue the proposal from Wells Fargo/HSBC Trade Bank. The reduction in the line will reduce the Company's overall credit facility cost as there is currently no need for the excess capacity due to a reduction in business activity. The Company is in the process of negotiating documents and undergoing the field audit with Wells Fargo/HSBC Trade Bank. The senior secured revolving credit facility would have a term of two years and a borrowing limit of \$25 million. On December 10, 2009 the Company received a Commitment Letter from Wells Fargo/HSBC Trade Bank. The Company anticipates it will finalize the transaction by December 31, 2009. The Company has discussed its decision with Bank of America and they have provided a forbearance on the financial covenant violation until January 8, 2010 to allow the Company to transition to Wells Fargo/HSBC Trade Bank. The Company will continue to operate under the same terms with Bank of America during the transition period. Bank of America has expressed its interest in continuing its relationship with the Company and if for any reason the Company is unable to complete the transaction with Wells Fargo/HSBC Trade Bank it will revisit the relationship with a view to continuing it under revised terms. The Company believes that going forward it will have financing from either Bank of America or another bank.

The Company has a term loan with Bank of America with an outstanding balance at October 31, 2009 of \$1,500,000, with quarterly principal payments of \$250,000 due each quarter through the quarter ending June 30, 2011 and interest payable monthly throughout the term of the loan. The Company anticipates it will repay this debt using proceeds from the senior secured revolving credit facility from Wells Fargo/HSBC Trade Bank.

Table of Contents

On November 19, 2003, the Company purchased the property that serves as the Company's corporate headquarters and its Midwestern manufacturing facility. The Company executed a note and mortgage with Bank of America in the amount of \$3,600,000. The note bears a fixed interest rate of 5.59% per year and is payable in sixty monthly installments. A final payment of approximately \$2,115,000 is due on or before April 30, 2013. The outstanding balances were \$2,591,313 and \$2,731,562 at October 31, 2009 and October 31, 2008, respectively. The Company anticipates it will initially repay this debt using the proceeds from the senior secured revolving credit facility from Wells Fargo/HSBC Trade Bank and the Company plans to enter into a mortgage agreement with Wells Fargo/HSBC Trade Bank in the third quarter of fiscal 2010 to re-finance the property.

The Company has various capital leases with Bank of America in the amount of \$1,417,093 at October 31, 2009. The Company anticipates it will enter into a loan with Wells Fargo/HSBC Trade Bank by December 31, 2009 to repay this debt.

As of October 31, 2009, \$14,897,291 was outstanding under the revolving credit facility with Bank of America. There was approximately \$8.7 million of unused availability under the revolving credit facility as of October 31, 2009. At October 31, 2009 the long term portion of debt related to the Bank of America revolving credit facility, mortgage and leases in the amount of \$15,397,291, \$2,451,063 and \$857,798, respectively, were reclassified to short term debt. Cash used in financing activities was \$4,923,833 for the second quarter ended October 31, 2009, compared to \$704,103 for the same period in the prior fiscal year. Cash used in financing activities was primarily the result of net payments made to reduce the balance outstanding under the Company's revolving credit facility by \$3,849,405. Cash used in financing activities of \$1,074,428 was used for payments under the Company's lease agreements, term loan, and building mortgage obligations.

The Company anticipates its new credit facilities, cash flow from operations and leasing resources will be adequate to meet its working capital requirements and capital expenditures, if any, for the balance of fiscal year 2010. There is no assurance that the Company will be able to retain its credit agreements in the future. In the event the business grows rapidly, the current economic climate continues for an extended period or the Company considers an acquisition, additional financing resources could be necessary in the current or future fiscal years. There is no assurance that the Company will be able to obtain equity or debt financing at acceptable terms in the future.

The Company provides funds for salaries, wages, overhead and capital expenditure items as necessary to operate its wholly-owned Mexican and Chinese subsidiaries and the Taiwan procurement branch. The Company provides funding in U.S. dollars, which are exchanged for Pesos, Renminbi, and New Taiwan dollars as needed. The fluctuation of currencies from time to time, without an equal or greater increase in inflation, could have a material impact on the financial results of the Company. The impact of currency fluctuation for the six months ended October 31, 2009, resulted in a loss of approximately \$146,000. During the first six months of fiscal year 2010, the Company's U.S. operations paid approximately \$6,100,000 to its foreign subsidiaries for services provided.

Off-balance Sheet Transactions:

The Company has no off-balance sheet transactions.

Table of Contents

Contractual Obligations and Commercial Commitments:

As a smaller reporting company, as defined in Rule 12b-2 of the Securities Exchange Act of 1934, we are not required to provide the information required by this item.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

As a smaller reporting company, as defined in Rule 12b-2 of the Securities Exchange Act of 1934, we are not required to provide the information required by this item.

Item 4. Controls and Procedures.

Our management, including our President and Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) as of April 30, 2009. Our disclosure controls and procedures are designed to ensure that information required to be disclosed by the Company in the reports filed by the Company under the Securities Exchange Act of 1934 (the Exchange Act) is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms and that such information is accumulated and communicated to our management, including our President and Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure. Based on this evaluation, our President and Chief Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures were effective as of October 31, 2009.

There has been no change in our internal control over financial reporting during the quarter ended October 31, 2009, that has materially affected or is reasonably likely to materially affect, our internal control over financial reporting.

PART II OTHER INFORMATION

Item 1. Legal Proceedings.

As of October 31, 2009, the Company was not a party to any material legal proceedings.

From time to time the Company is involved in legal proceedings, claims or investigations that are incidental to the conduct of the Company's business. In future periods, the Company could be subjected to charges to earnings if any of these matters is resolved on unfavorable terms. However, although the ultimate outcome of any legal matter cannot be predicted with certainty, based on present information, including management's assessment of the merits of any particular claim, the Company does not expect that these legal proceedings or claims will have any material adverse impact on its future consolidated financial position or results of operations.

Item 1A. Risk Factors.

The information presented below includes any material changes to the description of the risk factors affecting our business as previously disclosed in Item 1A. to Part 1 of our Annual Report on Form 10-K for the fiscal year ended April 30, 2009.

Table of Contents

The Company's business could be adversely affected by worldwide economic conditions.

The current negative worldwide economic conditions could adversely affect the Company's business and/or operating results by:

reduced sales,

increased operating costs,

customers' inability to accurately forecast orders,

increased inventory carrying costs,

increased risk of uncollectible customer accounts receivable and unpaid customer inventory obligations,

limiting the Company's access to affordable financing.

Sales:

If the current worldwide economic downturn continues, many of the Company's customers may further delay or reduce their orders. In addition, many of the Company's customers may rely on credit financing in order to operate their businesses. If the negative conditions in the global credit markets reduce our customers' access to credit, orders may decrease, which could result in lower revenue.

Operating Costs:

If the Company's suppliers have difficulty obtaining credit required to finance their businesses, they may become unable to continue to manufacture, or supply the components used to manufacture, our customers' products. These disruptions could decrease the Company's revenue and increase operating costs, which could adversely affect the Company's results of operations and financial condition.

Inventory Carrying Costs:

The negative worldwide economic conditions and market instability make it increasingly difficult for the Company's customers to accurately forecast future order trends. This condition could result in customers pushing back their product order acceptance schedules, which could result in increased inventory carrying costs. The increased carrying costs could have a negative impact on the Company's financial results.

Uncollectible Accounts:

The Company could suffer significant losses if a customer is unable to pay its accounts receivable or if the customer is unable to pay for its inventory procured by the Company on its behalf. An increase in uncollectible accounts receivable or customers' inability to pay the Company for inventory obligations would have a negative impact on the Company's financial results.

Access to Credit:

If credit markets continue to tighten, the Company's bank could be unwilling to continue to extend credit to the Company at the current level of the credit facility, if at all. The Company's ability to finance its operations could be negatively affected in such an event. (See page 14, *Financing Transaction*).

Table of Contents**Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.**

None.

Item 3. Defaults Upon Senior Securities.

None.

Item 4. Submission of Matters to a Vote of Security Holders.

On September 18, 2009, the Company held its 2009 Annual Meeting of Stockholders. Proxies for the meeting were solicited pursuant to Section 14(a) of the Securities Exchange Act of 1934 and Regulation 14A thereunder for the purpose of (i) electing one Class I Director to hold office until the 2012 Annual Meeting of Stockholders and (ii) ratifying the selection of BDO Seidman, LLP as registered public accountants of the Company. Each holder of common stock was entitled to one vote for each share held on the record date.

The following individual was elected as a Class I Director to hold office until the 2012 Annual Meeting of Stockholders: Thomas W. Rieck. The number of shares cast for, against and abstained with respect to the nominee were as follows:

Nominee	For	Against	Abstain
Thomas W. Rieck	2,741,504	24,148	0

There were no broker non-votes with respect to the election of directors. The following persons are directors of the Company whose current term extends beyond the 2009 Annual Meeting of Stockholders: John P. Chen, Gary R. Fairhead, Dilip S. Vyas and Carl A. Zemenick. There was no solicitation in opposition to management's nominees for directors.

The stockholders voted to approve the ratification of the selection of BDO Seidman, LLP as registered public accountants for the Company for the fiscal year ending April 30, 2010. A total of 2,743,062 shares were cast for such ratification, 9,986 shares were opposed and 12,604 shares abstained.

Franklin D. Sove did not stand for re-election when his term as a Class I Director expired at the 2009 Annual Meeting of Stockholders. Mr. Sove's decision not to stand for re-election was based solely upon his decision to retire and was not the result of a disagreement with management regarding the Company's operations, policies, practices or otherwise. The Board of Directors decided to reduce the number of directors from six members to five members, divided into three classes with staggered three-year terms, and therefore, did not fill the vacancy left by the departure of Mr. Sove.

Item 5. Other Information.

None.

Item 6. Exhibits.
