NOTES TO SCHEDULE OF INVESTMENTS

1. SIGNIFICANT ACCOUNTING POLICIES. The Taiwan Fund, Inc. (the "Fund"), a Delaware corporation, is registered under the Investment Company Act of 1940, as amended (the "Act"), as a diversified closed-end management investment company. The Fund concentrates its investments in the securities listed on the Taiwan Stock Exchange. Because of this concentration, the Fund may be subject to additional risks resulting from future political or economic conditions in Taiwan and the possible imposition of adverse governmental laws of currency exchange restrictions affecting Taiwan.

Events or transactions occurring after period end through the date this report was issued have been evaluated by management in the preparation of the financial statements. The following summarizes the significant accounting policies followed by the Fund in the preparation of its financial statements in conformity with U.S. generally accepted accounting principles.

SECURITY VALUATION. All securities, including those traded over-the-counter, for which market quotations are readily available are valued at the last sales price prior to the time of determination of the Fund's net asset value per share or, if there were no sales on such date, at the closing price quoted for such securities (but if bid and asked quotations are available, at the mean between the last current bid and asked prices, rather than such quoted closing price). In certain instances where the price determined above may not represent fair market value, the value is determined in such manner as the Board of Directors may prescribe. Foreign securities may be valued at fair value according to procedures approved by the Board of Directors if the closing price is not reflective of current market values due to trading or events occurring in the valuation time of the Fund. In addition, substantial changes in values in the U.S. markets subsequent to the close of a foreign market may also affect the values of securities traded in the foreign market. Short-term investments, having a maturity of 60 days or less are valued at amortized cost, which approximates market value, with accrued interest or discount earned included in interest receivable.

Financial Accounting Standards Board ("FASB") Accounting Standards Codification No. 820, Fair Value Measurements ("ASC 820"), requires disclosure surrounding the various inputs that are used in determining the value of each Fund's investments. These inputs are summarized into the three broad levels listed below. ASC 820 established a three-tier hierarchy that prioritizes the inputs to valuation techniques giving the highest priority to readily available unadjusted quoted prices in active markets (Level 1 inputs) and the lowest priority to unobservable inputs (Level 3 inputs) when market prices are not readily available or reliable. Inputs refer broadly to the assumptions that market participants would use in pricing the asset or liability and may be observable or unobservable. Observable inputs are inputs that reflect the assumptions market participants would use in pricing the asset or liability developed based

Edgar Filing: TAIWAN FUND INC - Form N-Q

on market data obtained from sources independent of the reporting entity. Unobservable inputs are inputs that reflect the reporting entity's own assumptions about the factors market participants would use in pricing the asset or liability, and would be based on the best information available.

The three-tier hierarchy of inputs is summarized in the three broad levels listed below.

- Level 1 - quoted prices in active markets for identical investments
- Level 2 - prices determined using other significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, etc.)
- Level 3 - prices determined using significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments)

These inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

The following is a summary of the inputs used as of May 31, 2010 in valuing the Fund's asset and liabilities carried at value:

INVESTMENTS IN SECURITIES	LEVEL 1	LEVEL 2	LEVEL 3	TOTAL
Common Stocks	\$265,612,666	\$--	\$--	\$265,612,666
TOTAL	\$265,612,666	\$--	\$--	\$265,612,666

In January 2010, the Financial Accounting Standards Board issued Accounting Standards Update No. 2010-06, "Improving Disclosures about Fair Value Measurements" ("ASU 2010-06"). ASU 2010-06 requires new disclosures regarding transfers in and out of Levels 1 and 2 effective for interim and annual reporting periods beginning after December 15, 2009. For the period ended May 31, 2010, there were no transfers between Levels 1 and 2. ASU 2010-06 will also require additional details regarding Level 3 transaction activity effective for interim and annual periods beginning after December 15, 2010. Management is currently evaluating the effect that this additional requirement will have on the Fund's financial statements.

FOREIGN CURRENCY TRANSLATION. The financial accounting records of the Fund are maintained in U.S. dollars. Investment securities, other assets and liabilities denominated in a foreign currency are translated into U.S. dollars at the current exchange rate. Purchases and sales of securities, income receipts and expense payments are translated into U.S. dollars at the exchange rate on the dates of the transactions.

Reported net realized gains and losses on foreign currency transactions represent net gains and losses from disposition of foreign currencies, currency gains and losses realized between the trade dates and settlement dates of security transactions, and the difference between the amount of net investment income accrued and the U.S. dollar amount actually received. The effects of changes in foreign currency exchange rates on investments in securities are not segregated in the Statement of Operations within the Fund's Annual Report and/or

Edgar Filing: TAIWAN FUND INC - Form N-Q

Semi-Annual Report from the effects of changes in market prices of those securities, but are included in realized and unrealized gain or loss on investments in securities.

2. AFFILIATED PARTIES AND TRANSACTIONS. An affiliate is a company in which the Fund holds 5% or more of the voting securities. Transactions with such companies during the six months ended May 31, 2010 were as follows:

Issuer	Value on September 1, 2009	Balance of Shares Held on September 1, 2009	Purchases	Sales	Balance of Shares Held on May 31, 2010	Value May 31,
Hon Hai Precision Industry Co., Ltd.	\$13,829,282	4,101,005	\$717,551	\$1,243,715	4,000,005	\$15,893
Taiwan Semiconductor Manufacturing Co., Ltd.	20,143,855	11,200,426	--	--	11,200,426	20,569
	<u>\$33,973,137</u>	<u>15,301,431</u>	<u>\$717,551</u>	<u>\$1,243,715</u>	<u>15,200,431</u>	<u>\$36,462</u>

3. TAX BASIS OF INVESTMENTS. Cost of investments for federal income tax purposes is substantially the same as for financial statement purposes. At May 31, 2010, aggregate gross unrealized appreciation for all securities for which there was an excess of value over financial reporting cost was \$51,838,361 and aggregate gross unrealized depreciation for all securities for which there was an excess of financial reporting cost over value was \$5,034,417 and net appreciation for financial reporting purposes was \$46,803,944. At May 31, 2010, aggregate cost for financial reporting purposes was \$218,808,722.

4. SUBSEQUENT EVENTS. The annual meeting of the stockholders of the Fund, was held on April 26, 2010 during which the stockholders of the Fund considered the following three proposals: i) Proposal 1: the election of Bing Shen, Harvey Chang, Christina Liu, Joe O. Rogers, Michael F. Holland, M. Christopher Canavan, Jr. and Anthony Kai Yiu Lo to the Board of Directors; ii) Proposal 2: the approval of the Investment Advisory and Management Agreement between the Fund and Martin Currie Inc.; and iii) Proposal 3: the approval of an amendment to the Fund's Restated Certificate of Incorporation increasing the number of authorized shares of Common Stock from 20,000,000 to 100,000,000. Proposal 1 and Proposal 2 were approved by stockholders. Due to insufficient votes, the annual meeting of stockholders, with regard to Proposal 3, was adjourned. Proposal 3 was considered by the stockholders at the adjourned sessions of the annual stockholders meeting held on May 6, 2010, May 13, 2010, May 20, 2010 and May 27, 2010 and was approved at the adjourned session held on June 15, 2010.

ITEM 2. CONTROLS AND PROCEDURES

- (a) The registrant's principal executive and principal financial officers have concluded that the registrant's disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940, as amended (the "1940 Act") (17 CFR 270.30a-3(c))) are effective, as of a date within 90 days of the filing date of this Form N-Q that includes the disclosure required by this paragraph, based on their evaluation of the
