Name of each Exchange on which registered

None  Not Applicable   
**Securities for which there is a reporting obligation pursuant to Section 15(d) of the Act**  
Not Applicable   
(Title of class)

Indicate the number of outstanding shares of each of the issuer's classes of capital or common stock as of the close of the period covered by the annual report.

53,351,498 Equity Shares.

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act.

Yes  No

If this report is an annual or transition report, indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934.

Yes  No

Note: Checking the box above will not relieve any registrant required to file reports pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934 from their obligations under those Sections.

Indicate by check mark whether the Registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

Yes  No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data file required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files).

Yes  No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer  **Accelerated filer**  Non-accelerated filer  Smaller reporting company   
(Do not check if a smaller reporting company)

Indicate by check mark which basis of accounting the registrant has used to prepare the financial statements included in this filing:

US GAAP  **International Financial Reporting Standards as issued by the International Accounting Standard Board**  Other

If this is an annual report, indicate by check mark whether the registrant is a shell Company (as defined in Rule 12b-2 of the Exchange Act):

Yes  No

Unless the context otherwise requires, references in this annual report to we, us, the Company, Sify or Sa Infoway are to Sify Technologies Limited, a limited liability Company organized under the laws of the Republic of India. References to U.S. or the United States are to the United States of America, its territories and its possessions. References to India are to the Republic of India. In January 2003, we changed the name of our Company from Satyam Infoway Limited to Sify Limited. In October 2007, we again changed our name from Sify Limited to Sify Technologies Limited. *Sify*, *SifyMax.in*, *Sify e-ports* and *Sify online* are trademarks used by us for which we have already obtained registration certificates in India. All other trademarks or trade names used in this Annual Report on Form 20F are the property of their respective owners. In this Annual Report on Form 20F, references to \$, Dollars or U.S. dollars are to the legal currency of the United States, and references to Rs., rupees or Indian rupees are to the legal currency of India. References to a particular fiscal year are to our fiscal year ended March 31 of such year.

For your convenience, this Annual Report on Form 20-F contains translations of some Indian rupee amounts into U.S. dollars which should not be construed as a representation that those Indian rupee or U.S. dollar amounts could have been, or could be, converted into U.S. dollars or Indian rupees, as the case may be, at any particular rate, the rate stated below, or at all. Except as otherwise stated in this Annual Report on Form 20-F, all translations from Indian rupees to U.S. dollars contained in this Annual Report have been based on the reference rate in the City of Mumbai on March 31, 2010 for cable transfers in Indian rupees as published by the Reserve Bank of India (RBI) which was Rs.45.14 per \$1.00.

Our financial statements are presented in Indian rupees and prepared in accordance with International Financial Reporting Standards as issued by the International Accounts Standards Board, or IFRS. In this Annual Report, any discrepancies in any table between totals and the sums of the amounts listed are due to rounding.

Information contained in our websites, including our corporate website, [www.sifycorp.com](http://www.sifycorp.com), is not part of this Annual Report on Form 20F.

**Forward-Looking Statements**

This Annual Report on Form 20-F contains forward-looking statements , as defined in Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, that are based on our current expectations, assumptions, estimates and projections about our Company, our industry, economic conditions in the markets in which we operate, and certain other matters. Generally, these forward-looking statements can be identified by the use of forward-looking terminology such as anticipate , believe , estimate , expect , intend , will seek , should and similar expressions. Those statements include, among other things, the discussions of our business strategy and expectations concerning our market position, future operations, margins, profitability, liquidity and capital resources. These statements are subject to known and unknown risks, uncertainties and other factors, which may cause actual results or outcomes to differ materially from those implied by the forward-looking statements. Important factors that may cause actual results or outcomes to differ from those implied by the forward-looking statements include, but are not limited to, those discussed in the Risk Factors section in this Annual Report on Form 20-F. In light of these and other uncertainties, you should not conclude that the results or outcomes referred to in any of the forward-looking statements will be achieved. All forward-looking statements included in this Annual Report on Form 20-F are based on information available to us on the date hereof, and we do not undertake to update these forward-looking statements to reflect future events or circumstances.

**Notes**

- The convenience translation to U.S. Dollars was performed at the reference rate in the City of Mumbai for cable transfers as published by Reserve Bank of India on March 31, 2010

of Rs.45.14 per \$1.00, which should not be construed as a representation that those Indian rupee or U.S. dollar amounts could have been, or could be, converted into U.S. dollars or Indian rupees, as the case may be, at this rate or at all.

2. Reference to shares and per share amounts refer to our equity shares. Our outstanding equity shares include equity shares held by a depository underlying our ADSs. Effective September 24, 2002, one ADS represented one equity share.

**Table of Contents****Exchange Rates**

Our functional currency is the Indian rupee. The exchange rate between the rupee and the U.S. dollar has changed substantially in recent years and may fluctuate substantially in the future. Our exchange rate risk primarily arises from our foreign currency revenues, receivables and payables.

The following table sets forth the high and low exchange rates for the previous six months and is based on the reference rate in the City of Mumbai on business days during the period for cable transfers in Indian rupees as published by the Reserve Bank of India (RBI).

<b>Month</b>	<b>High Rs.</b>	<b>Low Rs.</b>
August 2010	47.09	45.95
July 2010	47.33	46.46
June 2010	47.28	45.64
May 2010	47.57	44.56
April 2010	44.73	44.33
March 2010	46.02	44.94

The following table sets forth, for the fiscal years indicated, information concerning the number of Indian rupees for which one U.S. dollar could be exchanged based on the reference rate in the City of Mumbai on business days during the period for cable transfers in Indian rupees as published by the Reserve Bank of India (RBI). The column titled Average in the table below is the average of the last business day of each month during the year.

<b>Fiscal Year Ended March 31</b>	<b>Period end Rs.</b>	<b>Average Rs.</b>	<b>High Rs.</b>	<b>Low Rs.</b>
2010	45.14	47.36	50.53	44.94
2009	50.95	45.91	52.06	39.89
2008	40.02	40.13	43.05	38.48
2007	43.10	45.12	46.83	42.78

On November 23, 2010, the reference rate in the City of Mumbai for cable transfers in Indian rupees as published by RBI was Rs. 45.61.

**Capitalization and indebtedness**

Not applicable.

**Reasons for the offer and use of proceeds**

Not applicable.

**Table of Contents****Risk Factors**

This Annual Report contains forward-looking statements that involve risks and uncertainties. Our actual results could differ materially from those anticipated in these forward-looking statements as a result of certain factors, including those set forth in the following risk factors and elsewhere in this Annual Report on Form 20F.

**Risks Related to our Company and Industry*****We may incur losses in the future and we may not achieve or maintain profitability.***

We have earned a net profit of Rs.26.82 million (\$ 0.59 million) for the year ended March 31, 2010 with an accumulated deficit of Rs.13,087 million (\$289.92million) as at March 31, 2010. We may in the future incur additional net losses and suffer negative operating cash flows. We expect to increase our expenditures as we continue to expand our services, promote our brand, and invest in the expansion of our infrastructure. We have incurred and in the future may incur expenses in connection with investments in data centers and infrastructure. Accordingly, we will need to generate significant additional revenues in order to become profitable. Our business model is not yet proven in the consumer space, and we cannot assure you that we will improve our profitability or that we will not incur operating losses in the future. If we are unable to improve our profitability, we will be unable to build a sustainable business. In this event, the price of our ADSs and the value of your investment may decline.

***Our profits may be impacted consequent to the withdrawal of incentive for exports availed under the Serve from India Scheme on account of changes in Indian Government policy.***

The Government of India has introduced the Served from India Scheme (the Scheme ) in order to accelerate growth in export of services so as to create a powerful and unique Served from India brand, instantly recognized and respected world over.

Under the Scheme, all service providers (the exporter of various services) are entitled to a customs duty credit called Duty credit scrip at 10% of the foreign exchange earned during the financial year. A service provider will be eligible for such duty credit scrip only on satisfaction of two conditions: (a) the service provider should export services; and (b) the service provider should earn foreign exchange. This duty credit may be used for settling the customs duty payable to the Government of India on the import of any capital goods including spares, office equipment and professional equipment, office furniture and consumables, provided it is part of their main line of business.

The new Foreign Trade (2009-2014) policy announced by The Commerce Ministry on August 27, 2009 has explicitly excluded the telecom Sector, which is the sector in which we operate, from the purview of Served From India Scheme (SFIS). As a result of this new policy document, we will not be eligible for the export incentive on Foreign Exchange earnings from all existing business streams other than E-learning and Infrastructure management services prospectively.

The loss of credits from the above scheme may adversely impact the financial condition and operating results. Effective August 2009, this benefit has been withdrawn for our exports under ILD/NLD license, which has adversely affected our results of operations.

***The global economic environment, increased pricing pressure and decreased utilization rates could negatively impact our revenues and operating results.***

Spending on technology products and services in most parts of the world has been rising for the past several years. However, there was a decline in the growth rate of global IT purchases due to the economic slowdown and we believe the market may not recover until 2012.

With regard to the domestic Indian economy, though the economy has improved shown good improvement during 2009-10 which reflected in positive business sentiments, pricing and competition continue to be under pressure. Lead times for orders or contracts have becomes much longer, as we have credit periods. This factors have affected the growth in demand for our broadband services.

Overseas economic performance also has a bearing on our Infrastructure and e-Learning businesses. The NLD/ILD business and eLearning may be affected in terms of prices and growth. Currency fluctuations will also lead to variations in revenue.

**Table of Contents**

Reductions in IT spending and extended credit terms arising from or related to the economic slowdown, and any resulting pricing pressures, reduction in billing rates, increased credit risk may adversely impact our revenues, gross profits, operating margins and results of operations.

***Currency fluctuations may affect the results or our operations or the value of our ADSs.***

The exchange rate between the rupee and the U.S. dollar has changed significantly in recent years and may continue to fluctuate substantially in the future.

We use derivative financial instruments, such as foreign exchange forward and option contracts, to mitigate the risk of changes in foreign exchange rates on accounts receivable and payable and forecast cash flows denominated in US dollar. As of March 31, 2010, we had outstanding option contracts of \$1.50 million. We may not purchase derivative instruments in a sufficient amount to adequately insulate ourselves from foreign currency exchange risks, and over the past year, we have incurred significant losses as a result of exchange rate fluctuations that have not been offset in full by our hedging strategy.

For the year ended March 31, 2010, we recognized a gain of Rs.6.99 million ( \$0.15 million) on our forward and option contracts and Rs.25.96 million (\$0.51 million) on foreign exchange translations. If foreign exchange currency markets continue to be volatile, such fluctuations in foreign currency exchange rates could materially and adversely affect our results of operations in future periods. Also, the volatility in the foreign currency markets may make it difficult to hedge our foreign currency exposures effectively and make them expensive.

Further, the policies of the Reserve Bank of India may change from time to time which may limit our ability to hedge our foreign currency exposures adequately. In addition, a high-level committee appointed by the Reserve Bank of India had recommended that India move to increased capital account convertibility over next few years, and proposed a framework for such increased convertibility. Full or increased capital account convertibility, if introduced, could result in increased volatility in the fluctuations of exchange rates between the rupee and US dollar. Our US customers may leave us exposed to fluctuation in revenues based on currency fluctuations.

***We may encounter legal confrontations as the Information Technology Act 2000 lacks specificity as to issues on online processes and/or Internet.***

We believe that the Information Technology Act of 2000 (the Information Act ), an Indian regulation, does not address all areas of online processes or the Internet. The regulations regarding the operation of cyber cafes are not well defined, and vary from state to state, often dependent upon the discretion of local law enforcement authorities who may not have adequate knowledge on the service. Despite our constant efforts in educating our cybercafe franchisees not to use unlicensed software, some franchisees may continue to use unlicensed software without our knowledge, and therefore may violate the Information Act. Such events may negatively affect our reputation, and violations of the Information Act may result in litigation or cause us to incur legal costs, which may adversely affect our business and results of operations.

***Intense competition in our businesses could prevent us from improving our profitability and we may be required to further modify the rates we charge for our services in response to new pricing models introduced by new and existing competition which would significantly affect our revenues.***

Our corporate network/data services compete with well-established companies, including Bharti Airtel, Tata Communications Limited or TCL, Reliance Infocomm, HCL Infinet, Tata Teleservices, Tulip Telecom Limited and the government-owned telecom companies, Bharat Sanchar Nigam Limited or BSNL, Mahanagar Telephone Nigam Limited or MTNL.

A significant number of competitors have entered India's Internet service provider industry. The large players, especially the state run telecommunication companies, may enjoy significant competitive advantages over us, including greater financial resources, which could allow them to charge prices that are lower than ours in order to attract subscribers. These factors have resulted in periods of significant reduction in actual average selling prices for consumer Internet Service Provider, or ISP, services. We expect the market for Internet access and other connectivity services to remain extremely price competitive. Increased competition may result in operating losses, loss of market share and diminished value in our services, as well as different pricing, service or marketing decisions. In addition, competition may generally cause us to incur unanticipated costs associated with research and product development. Additionally, we believe that our ability to compete also depends in part on factors outside our control, such as the

availability of skilled employees in India, the price at which our competitors offer comparable services, and the extent of our competitors' responsiveness to their clients' needs. We cannot assure you that we will be able to successfully compete against current and future competitors.

**Table of Contents**

***Margin squeeze may affect the results or our operations.***

Our margins have been shrinking recently due to competitive pricing pressure. Competition will continue to increase with the entry of new competitors into the enterprise service category. However, these competitors generally will prefer to operate with a few global customers wishing to do business in India. They may attract customers for managed hosting services with their capability of superior network and competitive pricing. We expect the market for such services to remain extremely price competitive. Increased competition may result in the reduction of profit margin which would impact our results of operations.

***Procuring power at lower costs for data centers by the competitors may put us at a disadvantage in terms of pricing for our data center operations.***

The single largest operating cost in data centers is electrical power, and if a competitor were to have a source of power at a significantly lower cost, it could be a disadvantage to us. While all data centres are now located in proximity to, or at the edge of major urban centers such as Mumbai, inexpensive land and labor allow companies to locate new data centres in remote locations. We may neither be in a position to develop high cost data centers at remote locations where power is cheap nor procure power at cheaper rates for our data centres. If our competitors procure power at lower cost, they may have an advantage over us with respect to pricing. Our inability to offer competitive pricing may result in loss of customers and will impact our business and result of operations.

***We have added a number of new lines of business in the past years, including the operation and licensing of public Internet cafés, as well as the provision of broadband services, security services, e-learning software development services, managed network services and infrastructure management services. It is therefore difficult to evaluate our historical results of operations.***

The risks we face in developing Internet service market include our inability to:

- continue to develop and upgrade our technology;
- maintain and develop strategic relationships with business partners;
- offer compelling online services and content;

We cannot assure you that we will successfully address the risks or difficulties described above. Failure to do so could lead to an inability to attract and retain corporate customers for our network/data services and subscribers for our Internet access services as well as the loss of advertising revenues.

***Despite the our best efforts to optimize costs, our future operating results could fluctuate in part because our expenses are relatively fixed in the short term while future revenues are uncertain, and any adverse fluctuations could negatively impact the price of our ADSs.***

Our revenues, expenses and operating results have varied in the past and may fluctuate significantly in the future due to a number of factors, many of which are outside our control. A significant portion of our investment and cost base is relatively fixed in the short term. Our revenues for the foreseeable future will depend on many factors, including the following:

the range of corporate network/data services provided by us and the usage thereof by our customers;

the number of subscribers to our ISP services and the prevailing prices charged.

advertising revenue generated by our online portal services.

the timing and nature of any agreements we enter into with strategic partners of our corporate network/data services division;

**Table of Contents**

services, products or pricing policies introduced by our competitors;

capital expenditure and other costs relating to our operations;

the timing and nature of our marketing efforts;

our ability to successfully integrate operations and technologies from any acquisitions, joint ventures or other business combinations or investments;

the introduction of alternative technologies; and

technical difficulties or system failures affecting the telecommunication infrastructure in India, the Internet generally or the operation of our websites.

We plan to continue to expand and invest in network infrastructure. Many of our expenses are relatively fixed in the short-term. We cannot assure you that our revenues will increase in proportion to the increase in our expenses. We may be unable to adjust spending quickly enough to offset any unexpected revenues shortfall. This could lead to a shortfall in revenues in relation to our expenses and adversely affect our revenue and operating results.

You should not rely on yearly comparisons of our results of operations as indicators of future performance and operating results may be below the expectations of public market analysts and investors. In this event, the price of our ADSs may decline.

***Security breaches could damage our reputation or result in liability to us.***

Our facilities and infrastructure must remain secure, and be perceived by our corporate and consumer customers to be secure, because we retain confidential customer information in our database. Despite the implementation of security measures, our infrastructure may be vulnerable to physical break-ins, computer hacking, computer viruses, programming errors or similar disruptive problems beyond our control. If a person circumvents our security measures, he or she could jeopardize the security of confidential information stored on our systems, misappropriate proprietary information or cause interruptions to our operations. We may be required to make significant additional investments and efforts to protect against or remedy security breaches. Unauthorized disclosure of sensitive or confidential client and customer data, whether through breach of our computer systems, systems failure or otherwise, could damage our reputation and adversely affect our business and results of operations.

The security services that we offer in connection with our business customers' networks cannot assure complete protection from computer viruses, break-ins and other disruptive problems. Although we attempt to contractually limit our liability in such instances, the occurrence of these problems could result in claims against us or liability on our part. These claims, regardless of their ultimate outcome, could result in costly litigation and could damage our reputation and hinder our ability to attract and retain customers for our service offerings.

***We face a competitive labor market for skilled personnel and therefore are highly dependent on our existing key personnel and on our ability to hire additional skilled employees.***

Our success depends upon the continued service of our key personnel including our senior management team, including our Chairman, Raju Vegesna. Each of our employees may voluntarily terminate his or her employment with us. We do not carry key person life insurance on any of our personnel. Our success also depends on our ability to attract and retain additional highly qualified technical, marketing and sales personnel. The labor market for skilled employees in India is extremely competitive, and the process of hiring employees with the necessary skills is time consuming and requires the diversion of significant resources. We may not be able to continue to retain or integrate existing personnel or identify and hire additional personnel in the future. The loss of the services of key personnel or the inability to attract additional qualified personnel, could disrupt the implementation of our business strategy, upon which the success of our business depends.

***The failure to keep our technical knowledge confidential could erode our competitive advantage.***

Our technical know-how is not protected by intellectual property rights such as patents, and is principally protected by maintaining its confidentiality. We rely on trade secrets, confidentiality agreements and other contractual

arrangements. As a result, we cannot be certain that our know-how will remain confidential in the long run. Employment contracts with certain of our employees who have special technical knowledge about our products or our business contain a general obligation to keep all such knowledge confidential. In addition to the confidentiality provisions, these employment agreements typically contain non-competition clauses.

**Table of Contents**

If either the confidentiality provisions or the non-competition clauses are unenforceable, we may not be able to maintain the confidentiality of our know-how. In the event that confidential technical information or know-how about our products or business becomes available to third parties or to the public, our competitive advantage over other companies in the wireless based IP/VPN industry could be harmed which could have a material adverse effect on our current business, future prospects, financial condition and results of operations.

***If we fail to maintain an effective system of internal control over financial reporting, we may not be able to accurately report our financial results or prevent or detect fraud. As a result, current and potential investors could lose confidence in our financial reporting, which could harm our business and have an adverse effect on our stock price.***

During the year ended March 31, 2010, the controls over the accounting evaluation of certain revenue transactions relating to the purchase of products for onward sales in the Systems Integration business failed. Certain transactions which otherwise qualified for being accounted on a net basis were reported on a gross basis as revenues and cost of goods sold. The root cause of the error was the result of a failure in the operating effectiveness of an internal control relating to carrying out an independent accounting review of the trading transactions of the System Integration business. Whilst, the potential for error existed and the control deficiency remained unremediated as at March 31, 2010, the errors identified were corrected prior to the finalization of the March 31, 2010 annual consolidated financial statements. Due to the existence of this control deficiency, management concluded that there was a reasonable possibility that a material misstatement of the company's annual financial statements may not have been prevented or detected on a timely basis.

Because of the material weakness described above, management has concluded that the Company did not maintain effective internal control over financial reporting as on March 31, 2010, based on criteria established in *Internal Control - Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission. It is possible that in the future, material weaknesses could be identified in our internal controls over financial reporting and we could be required to further implement remedial measures. If we fail to maintain effective disclosure controls and procedures or internal control over financial reporting, we could lose investor confidence in the accuracy and completeness of our financial reports, which could have a material adverse effect on our stock price.

***Compliance with new and changing corporate governance and public disclosure requirements adds uncertainty to our compliance policies and increases our costs of compliance.***

Changing laws, regulations and standards relating to accounting, corporate governance and public disclosure, including the Sarbanes-Oxley Act of 2002, new SEC regulations and Nasdaq Global Market rules are creating uncertainty for companies like ours. These new or changed laws, regulations and standards may lack specificity and are subject to varying interpretations. Their application in practice may evolve over time as new guidance is provided by regulatory and governing bodies. This could result in continuing uncertainty regarding compliance matters and higher costs of compliance as a result of ongoing revisions to such governance standards.

In particular, compliance with Section 404 of the Sarbanes-Oxley Act of 2002 and the related regulations regarding our required assessment of our internal control over financial reporting requires the commitment of significant financial and managerial resources and external auditor's independent assessment of the internal control over financial reporting.

It is also possible that laws in India may be made more stringent with respect to standards of accounting, auditing, public disclosure and corporate governance. We are committed to maintaining high standards of corporate governance and public disclosure, and our efforts to comply with evolving laws, regulations and standards in this regard have resulted in, and are likely to continue to result in, increased general and administrative expenses and a diversion of management time and attention from revenue-generating activities to compliance activities.

In addition, it may become more expensive and/or more difficult for us to obtain director and officer liability insurance. Further, our board members, Chief Executive Officer, and Chief Financial Officer could face an increased risk of personal liability in connection with their performance of duties and our SEC reporting obligations. As a result, we may face difficulties attracting and retaining qualified board members and executive officers, which could harm our business. If we fail to comply with new or changed laws or regulations, our business and reputation may be harmed.

**Table of Contents*****We may inadvertently fail to comply with local laws of other countries in connection with the negotiation and execution of operational agreements.***

As part of our international business, we may negotiate with and enter into contracts with strategic partners, clients, suppliers, employees and other third parties in various countries. We may inadvertently fail to comply with their laws may result in lawsuits or penalties, which could adversely affect our business or results of operations.

***If there is an adverse outcome resulting in cash payout in excess of the insurance coverage in the class action litigation that has been filed against us, it will impact our financial condition.***

A class action suit was filed in the United States District Court for the Southern District of New York by a purported class of purchasers of Sify's ADS against the Company, certain of its officers and directors and several of the underwriters involved in the Company's initial public offering of American Depository Receipts. The complaint alleges that the underwriters in the Company's IPO solicited and received undisclosed commissions from, and entered into undisclosed arrangements with, certain investors who purchased Sify's ADSs in the IPO and the aftermarket. The complaint also alleges that Sify violated the United States Federal Securities laws by failing to disclose in the IPO prospectus that the underwriters had engaged in these allegedly undisclosed arrangements. This case is defended by SIFY and more than 300 issuers who went public between 1998 and 2000. The plaintiffs announced a proposed settlement between all parties, including the Group and its former officers and directors. Any direct financial impact of the proposed settlement is expected to be borne by the Company's insurers. On June 12, 2009, the Federal District Court granted preliminary approval of the proposed settlement. On September 10, 2009, the Federal District Court held the fairness hearing for final approval of the settlement. At the hearing it was noted that out of the seven million people who were sent notices of the settlement, only 140 people objected. The objectors had five main arguments: (1) the class definition is overbroad and does not exclude individuals who participated in the scheme; (2) the requested attorney's fees are excessive; (3) the awards requested by the lead plaintiffs are excessive; (4) the settlement amount is insufficient and thus the recovery to class members is too small; and (5) the notice is insufficient, in part because it does not disclose the amounts requested by individual lead plaintiffs. On October 6, 2009, the District Court issued an order granting class certification and final approval of the settlement. Several individuals or groups of individuals have filed petitions to appeal and/or notices of appeal with the United States Court of Appeals for the Second Circuit. The Second Circuit Court of Appeals has not yet addressed any of the pending petitions to appeal or notices of appeal. Therefore, the District Court's order granting class certification and final approval of the settlement remains subject to appellate review by the Second Circuit Court of Appeals. As per the Company's Counsel there can be no assurance that the District Court's approval will not be overturned by the Second Circuit Court of Appeals. Any direct financial impact of the preliminary approved settlement is expected to be borne by the Company's insurers. The Group believes, the maximum exposure under this settlement is approximately U.S.\$ 338,983.05, an amount which the Group believes is fully recoverable from the Group's insurer. If the settlement in an outcome necessitating a larger award and our insurance does not cover such payment, it may affect our results of operations.

Please see the section entitled "Legal Proceedings" in this annual report for more information on the litigation.

***Our financial results are impacted by the financial results of entities that we do not control.***

We have a significant, non-controlling minority interest in MF Global Sify Securities India Private Limited (formerly known as Man Financial Sify Securities India Private Limited) that is accounted for under IFRS using the equity method of accounting. Under this method, we generally are obligated to report as a share of profit of equity accounted investee a pro rata portion of the net income after tax of any such Company in our statement of operations even though we do not control the other Company, subject to limitations in the case of losses that exceed our cost of investment. Thus, our reported results of operations can be significantly increased or decreased depending on the results of MF Global Sify Securities India Private Limited or other companies in which we may make similar investments even though we may have only a limited ability to influence these activities.

***Our inter-city network is leased from other service providers and is dependent on their quality and availability.***

We have provided inter-city connectivity for our wireless-based IP/VPN business through lease arrangements rather than through capital investment in assets for connectivity business. Our ability to offer high quality telecommunications services depends, to a large extent, on the quality of the networks maintained by other operators, and their continued availability, neither of which is under our control. However, the abundance of supply of inter-city

connectivity provides us with the ability of switching to companies offering better services. Although we always use more than one service provider where required, there can be no assurance that this dependence on external parties would not affect our network availability.

**Table of Contents**

***The legal system in India does not protect intellectual property rights to the same extent as the legal system of the United States, and we may be unsuccessful in protecting our intellectual property rights.***

Our intellectual property rights are important to our business. We rely on a combination of copyright and trademark laws, trade secrets, confidentiality procedures and contractual provisions to protect our intellectual property.

Our efforts to protect our intellectual property may not be adequate. We hold no patents, and our competitors may independently develop similar technology or duplicate our services. Unauthorized parties may infringe upon or misappropriate our services or proprietary information. In addition, the laws of India do not protect proprietary rights to the same extent as laws in the United States, and the global nature of the Internet makes it difficult to control the ultimate destination of our services. For example, the legal processes to protect service marks in India are not as effective as those in place in the United States. The misappropriation or duplication of our intellectual property could disrupt our ongoing business, distract our management and employees, reduce our revenues and increase our expenses. In the future, litigation may be necessary to enforce our intellectual property rights or to determine the validity and scope of the proprietary rights of others. Any such litigation could be time-consuming and costly.

We could be subject to intellectual property infringement claims as the number of our competitors grows and the content and functionality of our websites or other service offerings overlap with competitive offerings. Our defenses against these claims, even if not meritorious, could be expensive and divert management's attention from operating our Company. If we become liable to third parties for infringing their intellectual property rights, we could be required to pay a substantial damage award and forced to develop non-infringing technology, obtain a license or cease selling the applications that contain the infringing technology. We may be unable to develop non-infringing technology or obtain a license on commercially reasonable terms, or at all.

***Our current infrastructure and its scalability may not accommodate increased use while maintaining acceptable overall performance.***

Currently, only a relatively limited number of customers use our corporate network, our Internet service provider services and our Internet portal. We must continue to add to our network infrastructure to accommodate additional users, increasing transaction volumes and changing customer requirements. We may not be able to project accurately the rate or timing of increases, if any, in the use of our websites or upgrade our systems and infrastructure to accommodate such increases. Our systems may not accommodate increased use while maintaining acceptable overall performance. Service lapses could cause our users to use the online services of our competitors, and numerous customer defections may adversely affect our results of operations.

***Our increasing work with governmental agencies may expose us to additional risks.***

We are increasingly bidding for work with governments and governmental agencies for data centers. Projects involving governments or governmental agencies carry various risks inherent in the government contracting process, including the following:

Such projects may be subject to a higher risk of reduction in scope or termination than other contracts due to political and economic factors such as changes in government, pending elections or the reduction in, or absence of, adequate funding;

Terms and conditions of government contracts tend to be more onerous than other contracts and may include, among other things, extensive rights of audit, more punitive service level penalties and other restrictive covenants. Also, the terms of such contracts are often subject to change due to political and economic factors;

Government contracts are often subject to more extensive scrutiny and publicity than other contracts. Any negative publicity related to such contracts, regardless of the accuracy of such publicity, may adversely affect our business or reputation;

Participation in government contracts could subject us to stricter regulatory requirements, which may increase our cost of compliance; and

Such projects may involve multiple parties in the delivery of services and require greater project management efforts on our part. Any failure in this regard may adversely impact our performance.

**Table of Contents**

***We do not plan to pay dividends in the foreseeable future.***

We have not paid cash dividends to date because of the accumulated losses in the previous years. We may not pay a cash dividend in the near future in anticipation of meeting the fund requirements for facilitating future expansion plans of the Company. Investors seeking cash dividend should not purchase our ADS.

**Risks Related to the ADSs and Our Trading Market**

***The interests of our significant shareholder, Mr Raju Vegesna, our Chairman and Chief Executive Officer may differ from your interests.***

Effective as of October 30, 2010, upon the consummation of the private placement to an entity controlled by Mr Raju Vegesna, our Chief Executive Officer and Chairman of the Board of Directors of the company, Mr Raju Vegesna beneficially owns approximately 86.4% of our outstanding equity capital. Mr P.S.Raju serves on our Board of Directors as a nominee of Infinity Capital Ventures, LP, an entity controlled by Mr Raju Vegesna. As a result, Mr Raju Vegesna will be able to exercise control over many matters requiring approval by our Board of Directors and / or shareholders, including the election of directors and approval of significant corporate transactions, such as a sale of our company. Under India law, a simple majority is sufficient to control all shareholder action except for those items, which require approval by a special resolution. If a special resolution is required, the number of votes cast in favour of the resolution must not be less than three times the number of votes cast against it. Examples of actions that require a special resolution include:

altering our Articles of Association;

issuing additional shares of capital stock, except for pro rata issuances to existing shareholders;

commencing any new line of business; and

commencing a liquidation.

The proposed issue of shares on private placement to the promoter group would result in significant increase in the combined shareholding of the promoter group, with which the matters requiring special resolutions can also be approved.

Circumstances may arise in which the interests of Mr Raju Vegesna, could conflict with the interests of our other shareholders or holders of our ADSs. Infinity Capital or Infinity Satcom could delay or prevent a change of control of our Company even if a transaction of that sort would be beneficial to our other shareholders, including the holders of our ADSs.

***An investor in our ADSs may not be able to exercise preemptive rights for additional shares and may thereby suffer dilution of such investor's equity interest in us.***

Under the Companies Act, 1956, or the Indian Companies Act, a Company incorporated in India must offer its holders of equity shares preemptive rights to subscribe and pay for a proportionate number of shares to maintain their existing ownership percentages prior to the issuance of any new equity shares, unless such preemptive rights have been waived by three-fourths of the shares voting on the resolution to waive such rights.

Holders of ADSs may be unable to exercise preemptive rights for equity shares underlying ADSs unless a registration statement under the Securities Act of 1933, as amended, or the Securities Act, is effective with respect to such rights or an exemption from the registration requirements of the Securities Act is available. To the extent that holders of ADSs are unable to exercise preemptive rights granted in respect of the equity shares represented by their ADSs, their proportional interests in us would be reduced.

***ADS holders may be restricted in their ability to exercise voting rights.***

At our request, the Depository will mail to holders of our ADSs any notice of shareholders meeting received from us together with information explaining how to instruct the Depository to exercise the voting rights of the securities represented by ADSs. If the Depository receives voting instructions from a holder of our ADSs in time, relating to matters that have been forwarded to such holder, it will endeavor to vote the securities represented by such holder's ADSs in accordance with such voting instructions. However, the ability of the Depository to carry out voting instructions may be limited by practical and legal limitations and the terms of the securities on deposit. We cannot

assure that the holders of our ADSs will receive voting materials in time to enable such holders to return voting instructions to the Depository. Securities for which no voting instructions have been received will not be eligible to vote.

**Table of Contents**

Under Indian law, subject to the presence in person at a shareholder meeting of persons holding equity shares representing a quorum, all resolutions proposed to be approved at that meeting are voted on by a show of hands unless a shareholder present in person and holding at least 10% of the total voting power or on which an aggregate sum of not less than Rs.50,000 has been paid-up, at the meeting demands that a poll be taken. Equity shares not represented in person at the meeting, including equity shares underlying ADSs for which a holder has provided voting instructions to the Depository, are not counted in a vote by show of hands. As a result, only in the event that a shareholder present at the meeting demands that a poll be taken will the votes of ADS holders be counted. Securities for which no voting instructions have been received will not be voted on a poll. Accordingly, you may not be able to participate in all offerings, transactions or votes that are made available to holders of our equity shares.

As a foreign private issuer, we are not subject to the SEC's proxy rules, which regulate the form and content of solicitations by United States-based issuers of proxies from their shareholders. To date, our practice has been to provide advance notice to our ADS holders of all shareholder meetings and to solicit their vote on such matters through the Depository, and we expect to continue this practice. The form of notice and proxy statement that we have been using does not include all of the information that would be provided under the SEC's proxy rules.

***The market price of our ADSs has been and may continue to be highly volatile.***

The market price of our ADSs has fluctuated widely and may continue to do so. Many factors could cause the market price of our ADSs to rise and fall. Some of these factors include:

- perception of the level of political and economic stability in India;
- actual or anticipated variations in our quarterly operating results;
- announcement of technological innovations;
- conditions or trends in the corporate network/data services, Internet and electronic commerce industries;
- the competitive and pricing environment for corporate network/data services and Internet access services in India and the related cost and availability of bandwidth;
- the perceived attractiveness of investment in Indian companies;
- acquisitions and alliances by us or others in the industry;
- changes in estimates of our performance or recommendations by financial analysts;
- market conditions in the industry and the economy as a whole;
- introduction of new services by us or our competitors;
- changes in the market valuations of other Internet service companies;
- announcements by us or our competitors of significant acquisitions, strategic partnerships, joint ventures or capital commitments;
- our failure to integrate successfully our operations with those of any acquired companies;
- additions or departures of key personnel; and
- other events or factors, many of which are beyond our control.

**Table of Contents**

The financial markets in the United States and other countries have experienced significant price and volume fluctuations, and the market prices of technology companies, particularly Internet-related companies, have been and continue to be extremely volatile with negative sentiment prevailing. Volatility in the price of our ADSs may be caused by factors outside of our control and may be unrelated or disproportionate to our operating results. In the past, following periods of volatility in the market price of a public Company's securities, securities class action litigation has often been instituted against that Company. Such litigation could result in substantial costs and a diversion of our management's attention and resources.

***We may not be able to maintain our NASDAQ Global Market listing due to non filing and/or late filing of periodic reports.***

The Company has not filed its Form 20-F for the fiscal year ended March 31, 2010 before the due date of October 15, 2010 and therefore did not comply with Nasdaq Listing Rule 5250(c)(1) for continued listing. Consequent to this, the Company has received a Delinquency Letter dated October 18, 2010 from NASDAQ directing the Company to submit a plan to regain compliance before December 17, 2010. However, as the Company is filing the Form 20-F before that date, there is no requirement to submit the plan to NASDAQ.

In the event of non filing and/or late filing of periodic reports in future, the Company may become a delinquent issuer and may be compelled to submit a plan to regain compliance to the satisfaction of NASDAQ supporting our request for an exception to timely filing.

If we fail to regain compliance prior to the expiration of a Nasdaq Staff exception or if Nasdaq Staff does not accept our plan of compliance, our stocks may be delisted in NASDAQ and the trading of our stocks may be moved to Over the Counter Bulletin Board (OTCBB) and Pink Sheets operated by Pink OTC markets.

Delisting may result in loss of reputation and violation of covenants contained in our equity or debt agreements.

***An active or liquid market for the ADSs is not assured.***

We cannot predict that an active, liquid public trading market for our ADSs will continue to exist. Although ADS holders are entitled to withdraw the equity shares underlying the ADSs from the Depository at any time, there is no public market for our equity shares in India or the United States. The loss of liquidity could increase the price volatility of our ADSs.

***The future sales of securities by us or our Company or existing shareholders may reduce the price of our ADSs.***

Any significant sales of our equity shares or ADSs or a perception that such sales may occur might reduce the price of our ADSs and make it more difficult for us to sell equity securities in the future at a time and at a price that we deem appropriate. We may issue additional equity shares to raise capital and to fund acquisitions and investments, and the parties to any such future transactions could also decide to sell them.

***The current capital and credit market conditions may adversely affect our access to capital, the cost of capital, and ability to execute our business plan.***

Access to capital markets is critical to our ability to operate. We may require additional financing in the future for the development of our business. Declines and uncertainties in the global capital markets over the past year have severely restricted raising new capital and have affected companies' ability to continue to expand or fund new projects. If these economic conditions continue or become worse, our future cost of equity or debt capital and access to the capital markets could be adversely affected. Our ability to obtain future financing will depend on, among other things, our financial condition and results of operations as well as the condition of the capital markets or other credit markets at the time we seek financing. In addition, an inability to access the capital markets on favorable terms due to our low stock price, or upon our delisting from the Nasdaq Global Select Market if we fail to satisfy a listing requirement, could affect our ability to execute our business plan as scheduled.

We can give no assurance as to the availability of such additional capital or, if available, whether it would be on terms acceptable to us. In addition, we may continue to seek capital through the public or private sale of securities, if market conditions are favorable for doing so. If we are successful in raising additional funds through the issuance of equity securities, stockholders will likely experience substantial dilution. If we are unable to enter into the necessary financing arrangements or sufficient funds are not available on acceptable terms when required, either due to market fluctuations or regulations imposed by the Indian governmental authorities, we may not have sufficient liquidity and our business may be adversely affected.

**Table of Contents**

***Restriction by the Government of India to issue further ADRs may badly affect our ability to access to fresh capital for funding our ongoing and future expansion plans.***

The Ministry of Finance, Government of India has mandated that unlisted Indian Companies who had accessed ADRs in the US markets have to list their shares within three years from the year of making profit and are not permitted to make any further issue of ADRs until such issuer lists in the domestic exchanges. These regulatory requirements may seriously affect our ability to raise further capital for funding the ongoing and future expansion plans of the company.

***We may be required to list our Equity Shares on an Indian stock exchange. If we were to list our Equity Shares on an Indian stock exchange, conditions in the Indian securities market may require compliance with new and changing regulations framed by Securities Exchange Board of India, listing requirements of stock exchange, corporate governance, accounting and public disclosure requirements which might add uncertainty to our compliance policies and increases our costs of compliance***

The Ministry of Finance of the Government of India ( MoF ) issued a press release dated March 31, 2006, making amendments to the Issue of Foreign Currency Convertible Bonds and Ordinary Shares (through Depository Receipt Mechanism) Scheme 1993 ( the Scheme ). The amendments included a statement that unlisted Companies which had accessed FCCBs, ADR/GDRs in terms of guidelines of May 22, 1998 and are not making profit, be permitted to comply with listing condition on the domestic stock exchanges within three years of having started making profit. Further, the press release states that no fresh issues of FCCBs, ADR/GDRs by such companies will be permitted without listing first in the domestic exchanges

We may be required by the Government of India to list on a local Indian stock exchange. We may not be able to comply with any timeline for listing and other standards imposed on us, and we are uncertain as to the consequences to us of any non-compliance. If we were to list our equity shares on an Indian stock exchange, we have to comply with changing laws, regulations and standards relating to accounting, corporate governance and public disclosure, including the SEBI rules and regulations and stock exchange listing requirements which may create uncertainty for companies like ours. These new or changed laws, regulations and standards may lack specificity and are subject to varying interpretations. Their application in practice may evolve over time as new guidance is provided by regulatory and governing bodies. This could result in continuing uncertainty regarding compliance matters and higher costs of compliance as a result of ongoing revisions to such governance standards.

It is also possible that laws in India may be made more stringent with respect to standards of accounting, auditing, public disclosure and corporate governance. We are committed to maintaining high standards of corporate governance and public disclosure, and our efforts to comply with evolving laws, regulations and standards in this regard have resulted in, and are likely to continue to result in, increased general and administrative expenses and a diversion of management time and attention from revenue-generating activities to compliance activities.

**Risks Related to Investments in Indian Companies**

We are incorporated in India, and a significant majority of our assets and employees are located in India. Consequently, our financial performance and the market price of our ADSs will be affected by changes in exchange rates, interest rates, Government of India policies, including taxation policies, as well as political, social and economic developments affecting India.

***Changes in the policies of the Government of India could delay the further liberalization of the Indian economy and adversely affect economic conditions in India generally, which could impact our business and prospects.***

Since 1991, successive Indian governments have pursued policies of economic liberalization, including significantly relaxing restrictions on the private sector. Nevertheless, the role of the central and state governments in the Indian economy as producers, consumers and regulators has remained significant. The rate of economic liberalization could change, and specific laws and policies affecting technology and telecom companies, foreign investment, exchange rate regime and other matters affecting investment in our securities could change as well. A significant change in India's economic liberalization and deregulation policies could adversely affect business and economic conditions in India generally, and our business in particular.

***Regional conflicts in South Asia could adversely affect the Indian economy, disrupt our operations and cause our business to suffer.***

South Asia has, from time to time, experienced instances of civil unrest and hostilities among neighboring countries, including between India and Pakistan. In recent months, Pakistan has been experiencing significant instability and this has heightened the risks of conflict in South Asia. Military activity or terrorist attacks in the future could influence the Indian economy by disrupting communications and making travel more difficult and such political tensions could create a greater perception that investments in Indian companies involve higher degrees of risk. This, in turn, could have a material adverse effect on the market for securities of Indian companies, including our equity shares and our ADSs, and the market for our services.

**Table of Contents*****Terrorist attacks or a war could adversely affect our business, results of operations and financial condition.***

Terrorist attacks, such as the attacks of July 25, 2008 in Bangalore, the attacks of November 26 to 29, 2008 in Mumbai and other acts of violence have the potential to affect us or our clients. In addition, such attacks may destabilize the economic and political situation in India. Furthermore, such attacks could cause a disruption in the delivery of our services to our clients, and could have a negative impact on our business, personnel, assets and results of operations, and could cause our clients or potential clients to choose other vendors for the services we provide. Terrorist threats, attacks or war could make travel more difficult, may disrupt our ability to provide services to our clients and could delay, postpone or cancel our clients' decisions to use our services.

***The markets in which we operate are subject to the risk of earthquakes, floods and other natural disasters.***

Some of the regions that we operate in are prone to earthquakes, flooding and other natural disasters. In the event that any of our business centers are affected by any such disasters, we may sustain damage to our operations and properties, suffer significant financial losses and be unable to complete our client engagements in a timely manner, if at all. Further, in the event of a natural disaster, we may also incur costs in redeploying personnel and property. In addition, if there is a major earthquake, flood or other natural disaster in any of the locations in which our significant customers are located, we face the risk that our customers may incur losses, or sustained business interruption and/or loss which may materially impair their ability to continue their purchase of products or services from us. A major earthquake, flood or other natural disaster in the markets in which we operate could have a material adverse effect on our business, financial condition, results of operations and cash flows. However, we have reasonable insurance coverage for the loss or damage of the properties and business interruption.

***We are subject to foreign investment restrictions under Indian law that limit our ability to attract foreign investors which, together with the lack of a public market for our equity shares, may adversely impact the value of our ADSs.***

Currently, there is no public trading market for our equity shares in India or elsewhere nor can we assure you that we will take steps to develop one. Our equity securities are only traded on Nasdaq through the ADSs as described in this report. Under prior Indian laws and regulations, our Depository could not accept deposits of outstanding equity shares and issue ADRs evidencing ADSs representing such equity shares without prior approval of the Government of India. The Reserve Bank of India has announced fungibility regulations permitting, under limited circumstances, the conversion of ADSs to equity shares and the reconversion of equity shares to ADSs provided that the actual number of ADSs outstanding after such reconversion is not greater than the original number of ADSs outstanding. If you elect to surrender your ADSs and receive equity shares, you will not be able to trade those equity shares on any securities market and, under present law, likely will not be permitted to reconvert those equity shares to ADSs.

If in the future a market for our equity shares is established in India or another market outside of the United States, those shares may trade at a discount or premium to the ADSs. Under current Indian regulations and practice, the approval of the Reserve Bank of India is not required for the sale of equity shares underlying ADSs by a non-resident Indian to a resident India as well as for renunciation of rights to a resident of India, unless the sale of equity shares underlying the ADSs is through a recognized stock exchange or in connection with the offer made under the regulations regarding takeovers. Since exchange controls still exist in India, the Reserve Bank of India will approve the price at which the equity shares are transferred based on a specified formula, and a higher price per share may not be permitted. Holders who seek to convert the rupee proceeds from a sale of equity shares in India into foreign currency and repatriate that foreign currency from India will have to obtain Reserve Bank of India approval for each transaction. We cannot assure you that any required approval from the Reserve Bank of India or any other government agency can be obtained.

***The Government of India may change its regulation of our business or the terms of our license to provide Internet access services, Voice over Internet Protocol (VoIP) and VPN services without our consent, and any such change could decrease our revenues and/or increase our costs, which would adversely affect our operating results.***

Our business is highly regulated as per extant telecom policy of the Government of India (the "GOI"). Our ISP license issued in the year 1998 runs for a term of 15 years. If we are unable to renew the ISP license for any reason, we will not be able to carry on the said business beyond license term, which may adversely affect our business or results of operations.

The GOI has right to revoke, terminate or suspend or take over entire operations for reasons such as national security or similar reasons without compensation to us. In view of increasing cyber threats and attacks, the GOI may require telecom licensees (including ISPs) at their costs to provide monitoring facility across its network, and facilities for capture and retention of data in terms of traffic flow, usage details, etc. This would result in significant increase in costs and possible lesser usage due to perceived invasion of privacy by customers.

**Table of Contents**

Certain government departments have been making queries whether use of Session Initiation Protocol, or SIP, terminal to make calls to phones abroad is permissible within ISP license. We believe that such overseas phone calls are permitted, since, SIP terminal is a computer as defined in Information Technology Act, 2000. We may have to make a significant investment as capital outlay in SIP terminals to make it a PC-equivalent, if the government authorities issue regulations governing SIP usage contrary to our beliefs, which would have a material effect on our results of operations.

***In the event that the Government of India or the government of another country changes its tax policies in a manner that is adverse to us, our tax expense may materially increase, reducing our profitability.***

The statutory corporate income tax rate in India was 30% during fiscal 2009 and was subject to a 10% surcharge, 2% education cess and 1% secondary and higher education cess, resulting in an effective tax rate of 33.99%. For fiscal year 2010, the statutory corporate income tax rate is still 30% and subject to a 7.50% surcharge and 2% education cess and 1% secondary and higher education cess resulting in an effective tax rate of 33.2175%. We cannot assure you that the surcharge will be in effect for a limited period of time or that additional surcharges will not be implemented by the Government of India. Although currently there are no material pending or threatened claims against us for taxes, such claims may be asserted against us in the future. Defending these claims would be expensive, time consuming and may divert our management's attention and resources from operating our Company

**Risks Related to the Internet Market in India**

Our success will depend in large part on the increased use of the Internet by consumers and businesses in India. However, our ability to exploit the Internet service provider and other data service markets in India is inhibited by a number of factors. If India's limited Internet usage does not grow substantially, our business may not succeed.

***The success of our business depends on the acceptance of the Internet in India, which may be slowed or halted by high bandwidth costs and other technical obstacles in India.***

Bandwidth, the measurement of the volume of data capable of being transported in a communications system in a given amount of time, remains very expensive in India, especially when compared to many countries where bandwidth penetration is quite high. Although prices for international and domestic leased lines were substantially reduced recently, they are still high due to, among other things, capacity constraints and lack of competition. If the cost of bandwidth is not further reduced, or increases significantly, our business and results of operations will be adversely affected.

***We may fail to exploit the market for WiMax services because of lack of access to spectrum.***

The ability to provide fast and easy connectivity across cities will be a competitive advantage in future as more companies look to provide connectivity to their offices. WiMax, or wireless digital communications, gains significance for ubiquitous connectivity in cities, which will enable fast connectivity in the last mile to the service provider's network. However, we are currently not able to participate in the spectrum auction for WiMax, given the high prices.

The Department of Telecommunications, or DoT, has auctioned and allocated Broadband Wireless Access ( BWA ) spectrum to three operators per circle, which may limit the competition and competitive advantage for the consumer. This may put us at a disadvantage in the future, compared to other service providers from the telecom sector, who are able to obtain spectrum for BWA services.

***We may be compelled to surrender the Spectrum that was allotted to us earlier.***

The Government of India has asked the Company to surrender 2.3GHz range of spectrum allotted to us in 2003 and the same was auctioned as BWA spectrum. The Government also has asked the company to make payment for 3.3GHz spectrum from the date of allotment or to surrender the same. The other range of spectrum that we won, 5.7 GHz is also close to capacity utilization and will need to be augmented in future. Enterprise connectivity will need licensed bands of spectrum for assured quality and security, so the non-availability of spectrum is a risk to our business and results of operations. In the event of the surrender of the spectrum 2.3 GHz and 3.3 GHz, it may hamper our future plans for expansion of services may be adversely affected, and there are no assurances that we will be able to obtain additional replacement spectrum.

**Table of Contents*****We may lose our broadband services to retail segment to competitors, and we do not control the delivery of broadband services to the homes of our customers.***

Our broadband business depends upon Cable Television Operators (CTOs) for delivery of services. This has proved difficult, leaving large areas uncovered and open to the competition representing a significant opportunity loss. In future, as competitors launch WiMax services, they will have extensive connectivity and will be able to offer broadband services everywhere without constraints. This will severely curb our ability to compete and may adversely affect our business and results of operations.

The future of broadband services to home may revolve around WiMax wireless capability. Since WiMax capability is to be brought under the 3G spectrum in the near future, we may not be able to compete with our larger, more well-financed competitors, and such competitors may gain market share and our customers may terminate their engagements with us. Our brand's perception therefore, is directly impacted by an external party over whom we have little or no control in the matter of service delivery, and our customers may attribute usage problems to us rather than their CTOs.

***Our connectivity business may stagnate with a declining contribution.***

In the connectivity business, as the volume scales, the unit price is continually reduced. Every year when annual contracts come up for review, customers contract for more bandwidth or more links at a lower overall unit price. This is offset somewhat by lower bandwidth costs, which we negotiate with our service providers. This impacts us in two ways: first, despite an increase in sales volume, we may not see a commensurate rise in revenues; and secondly, margins in our business are continually shrinking. Therefore, our revenue from our connectivity business may stagnate with declining bandwidth costs.

***We may not be able to retain and acquire customers for our data centers.***

In the field of Internet data center services, competition from data center operators may attract customers away from us or make it more difficult for us to attract new customers. Other companies in the data center business such as Reliance, IBM and AT&T may become strong competitors of ours, and if they are successful in the market, it could be difficult for us to retain and/or acquire customers. Furthermore, once customers cease using our services and choose another service provider, it may be difficult for us to reacquire them in future, or may require substantial costs to reacquire such customers, and we despite such customer acquisition spending, we may be unsuccessful in retaining such customers.

In order to improve our competitiveness, we are developing data centers at NOIDA- Delhi. If we are unable to attract adequate customers to these centers, we will not be able to achieve the revenues initially anticipated, which could have an adverse effect on our future results of operations and financial condition.

***Our datacenters may not be competitive enough in terms of green features.***

We may fail to convert our existing Datacenters and/or build new Datacenters under the LEED (Leadership in Energy and Environmental Design) Commercial Interior (CI) programme of United States Green Building Council (USGBC). LEED certification is an internationally recognized programme and is considered one of the highest standards for energy efficient constructions. The datacenter uses several green features such as site ecology, water conservation, smart energy meters and equipments, reduction of CO2 emissions, high recycle content, effective waste management and eco-friendly interiors. Increased demand for green datacenter may hamper our marketing of our existing datacenters that are not LEED certified.

***We may lose relevance and revenues if we do not position our business models in line with current and future technology trends.***

Technology trends allow new business models that could replace current lines of business unless we are aware of them and positioning ourselves to take advantage of the transition. Two examples are Software as a Service and Cloud Computing. The former enables smaller companies to use software from a service provider on a subscription basis rather than having to buy it for themselves effectively moving this from a capital expenditure item to become an operating expenditure. The second enables hosting on a widely distributed and shared model, which will exclude the need for companies to contract data centre services. Unless we are able to adopt and deploy these advances in technology and infrastructure, we may lose our competitive position in the marketplace, which would adversely affect our revenues and may lead to increased customer attrition, as our customers switch to providers that utilize such

information technology infrastructure.

**Table of Contents**

***We may fail to augment our skills and capability to best manage our services over Internet Protocol and data networks.***

We have been able to build a reputation and maintain our lead because of our expertise and capability with the delivery and management of services over Internet Protocol and data networks. As the competition builds up their capability and experience, if we do not augment our skills and capabilities to keep our qualitative lead over them, we are at the risk of losing market share. Infrastructure such as networks are considered by customers as a commodity, and the only differential that we offer is our ability to manage and monitor services over them in a superior manner.

***It may not be possible for us to retain our brand equity if we do not resort to huge investments for brand development.***

Our competitors offering similar services are all large telecom companies who make substantial investments in building their brand image across their services. Conversely, we are focused on IT infrastructure services over data telecom networks and we believe that we enjoy the reputation of a specialist in these services. However, if we do not build up awareness as well as our brand and reputation over time, the sheer weight of investments in brand development by the larger telecommunication providers will dilute our brand recognitions and competitive advantages.

***We may not meet the selection criteria set for high value contracts by the Governments.***

As we participate in bidding for large Government of India contracts, as well as business from large corporations, we increasingly come under scrutiny for the net assets value of our balance sheet as well as lack of profitability. Unless we increase capacity quickly and become profitable, we could be excluded from major government projects because we fail to meet their selection criteria.

***The success of our business depends on the development of our capability.***

As we offer our enterprise application services to an increasing base of large corporations, we run the risk of not being able to meet their needs for scaling and sophistication in future if we do not build the capacity to develop applications software to meet with future needs. We may not have adequate resources to develop our capability as a result of emerging sophistication required for such services. The failure to develop such resources may adversely affect our business and results of operations.

***We may fail to offer end-to-end managed services to sustain our position.***

The telecommunications market is evolving towards service providers who offer end-to-end managed services that include managing everything down to desktops. If we are to continue to lead the market, we need to extend our library of services to ensure that our portfolio of services helps graduate the market to managed services where we can maintain leadership. It may be difficult for us to offer end-to-end managed services to sustain our leadership in managed services without significant capital expenditures which expenses would adversely affect our cash position and results of operations.

***We may not get repeat corporate orders to optimize the capacity utilisation.***

As we expand the network to small cities and towns, there is an operational cost involved in both the establishment and operation of these nodes. While the expansion is facilitated by a corporate order, we have to subsequently get additional business for capacity utilization in these nodes to make them profitable. If we are not able to do this rapidly by scaling up the business through these towns, we run the risk of overcapacity on the network in new areas, which results in a higher cost structure and margins.

***Absence of policy support will hamper Internet and Data Services.***

We have, and continue to be, subject to Indian regulations regarding the VPN license requirements, including the percentage of foreign holdings to offer VPN services as well the need for NLD/ILD licenses to offer VPN services and carrier voice services. The growth and development data and internet sector is dependent on a policy support of Department of Telecommunications Regulatory changes, as well the as continuing lack of policy initiatives to vitalize the data and Internet sector continue to be a risk.

We cannot influence enabling policies that facilitate the growth and development of data and Internet connectivity in India. The absence of policy support for internet and data services may hamper the growth of such services in future.

**Table of Contents**

***Constant improvement of technology standards/ skills and evolving tools and applications are essential to sustain our position in Remote management of IT infrastructure.***

We are relatively unknown outside India, and in comparison to other established IT players which have a large base of customers. If we are not able to constantly upgrade our technology standards and skills, and if we are unable to scale for critical mass in the near term, our competitive position would be adversely affected.

Management of IT infrastructure is dependent on sophisticated tools and applications to remotely monitor the IT infrastructure and assets of customers. If we are unable to retain our competitive advantages in terms of the evolving tools & applications, or the maturity of our processes, we may lose customers and be at a competitive disadvantage compared with our larger competitors.

***The continued recession in the United States affects sales of our e-Learning and IMS services.***

The continued economic recession and uncertainty in the United States may cause reduced demand for our eLearning products, as our customers may reduce their training budgets and programming. Additionally, we may not be able to acquire new customers due to the poor economy. A prolonged period of reduced customer demand for our eLearning services may adversely affect our business and results of operations.

***Emergence of Enterprise Software Suites may hamper our growth in eLearning stream.***

The emergence of competitors such as Oracle, IBM, SAP, SumTotal and SABA offering enterprise software suites for eLearning for large organizations to develop their own learning programs could be a threat to our business in future. We may lose our business to our competitors, and if we are unable to acquire new customers or retain our existing customers, our revenues and results of operations may suffer.

***The success of our strategy depends on our ability to keep pace with technological changes.***

Our future success depends, in part, upon our ability to use leading technologies effectively, to continue to develop our technical expertise, to enhance our existing services and to develop or otherwise acquire new services that meet changing customer requirements. The markets for our service are characterized by rapidly changing technology, evolving industry standards, emerging competition and frequent introduction of new services. We may not successfully identify new opportunities, develop and bring new services to market in a timely manner.

***We may not be able to grow our business if online advertising in our markets does not expand.***

Our business strategy depends on the anticipated growth of online advertising in our markets and the growth of our revenues depends on increased revenues generated by online advertising. Online advertising is an evolving business and our ability to generate advertising revenues will (among others) depend on:

- our ability to attract and retain advertisers at profitable rates in light of intense competition;
- our ability to generate and continue to grow a large community of users with demographics attractive to advertisers;
- advertisers' acceptance of the Internet as an effective and sustainable medium;
- the effectiveness of our advertising delivery, tracking and reporting systems; and
- our ability to adapt, including technologically, to new forms of Internet advertising

Different pricing models are used to sell online advertising, and it is difficult to predict which, if any, of the models will emerge as the industry standard. This makes it difficult to project our future advertising rates and revenues. A reduction in traffic on our website may cause new advertisers not to enter into contracts with us and could cause existing advertisers not to renew their contractual arrangements with us, each of which, in turn, would reduce our potential advertising revenues. Additionally, any development of Internet software that blocks advertisements before they appear on a user's screen may hinder the growth of online advertising and could materially and adversely affect our ability to grow our online advertising revenues and our business. Also, a slowdown in economic growth, and in particular a slowdown in the growth of companies that advertise on the Internet, may result in a reduction in our advertising revenues.

Our contracts with advertising customers do not commit them to continue to provide us with a specific volume of business and can typically be terminated by them with or without cause, with little or no advance notice and without penalty. Additionally, our contracts with advertising customers are usually limited to a specific project and/or for a specific time period and not any future work. There are also a number of factors, other than our performance, which are not within our control, that could cause the loss of advertising customers. Early termination of material contracts

or non-renewal of an expired material contract could have a material adverse effect on our business and our future financial performance

**Table of Contents**

***If we do not continue to develop and offer compelling content, products and services, our ability to attract new customers or maintain the engagement of our existing consumers could be adversely affected.***

In order to increase advertising revenues, we need to continue to increase the number of users of our sports, recipes and entertainment video contents through our websites. In order to attract consumers and generate increased engagement on our website portals, we believe we must offer compelling content, products and services. If we are not able to attract and keep new users in a constantly evolving user base, we are likely to lose page views, and advertisers may reduce or cease publishing advertisements in our websites. It is important for us to provide necessary contents through our websites to attract more users. However, acquiring, developing and offering new content, products and services, as well as new functionality, features and enhanced performance of our existing content, products and services, may require significant costs and time to develop. In addition, consumer tastes are difficult to predict and subject to rapid change.

As a result of increased competition, it will be difficult for us to attract new users if we do not provide dynamic content to attract website visitors and attract new advertisers. If we are unable to increase our website views and advertising revenues, our results of operations will be affected. Even if we successfully develop and offer compelling content, products and services, we may not be able to attract new consumers and maintain or increase our existing customers' use of our products and services.

***The viability of Cyber café services depends on the success of the franchisees to generate or sustain adequate profitability.***

The cyber café chain is a franchised model whose success depends on the success of the franchisees. In the last two years, operating costs have increased steeply, particularly rent for retail premises, eroding the margins of franchisees and making the business unattractive. We may be unable to modify or develop a business model that will provide additional revenues from these cafés to ensure continued profitability of the cyber cafes.

***Our cybercafés may not fetch premium prices due to competition from unorganized sector.***

Users view cyber cafés for Internet access as a utility, and are unwilling to pay for a premium service. Most of our competition for cybercafe customers is from the unorganized sector with low rates that have become the industry norm. Our premium pricing of products/services offered through cybercafés is viewed as being more expensive. In view of the lower pricing prevailing in the market, we may lose revenue from cybercafés and our profitability may be impacted.

***Heightened security concerns for cybercafés issued by the governments will discourage franchisees to operate such cybercafés.***

The government's rules and regulations for operating cyber cafes have become more and more stringent in the face of rising terrorism and the use of emails to threaten key government officials and others. In addition, state level regulations differ in levels of compliance required of both the café operator and users. This is discouraging franchisees from entering the business and users for the risk of being harassed for using such facilities. This may lead to a decrease of cybercafés and may impact our revenues and result of operations

***The expected growth for broadband services to retail segment may come down.***

As the economy slows down and the consumer confidence erodes, the sale of personal computers has dropped significantly during the previous [two] year[s]. We believe that a reduction in consumer confidence and the sale of consumer goods is likely to result in a drop in demand for broadband services until the cycle is reversed, as consumers delay or reduce their discretionary spending and personal computer usage. If this trend continues, reduced broadband usage may impact our revenue and result of operations. The market penetration rates of personal computers and online access in India are far lower than such rates in the United States. Alternate methods of obtaining access to the Internet, such as satellite internet and wireless internet are steadily becoming popular in metro centers and slowly replacing the wire line internet. There can be no assurance that the number or penetration rate of personal computers in India will increase rapidly. This may impact our ability to increase our revenue and may affect our results of operations.

**Table of Contents**

***Our pricing for broadband services to retail segment may not be competitive.***

Service providers such as BSNL are frequently reducing rates so the Average Revenue Per User (ARPU) is constantly coming down. We have to continually respond with promotions and value added services to compete with such service providers. If we are unable to compete on pricing terms with our competitors, we may lose customers and fail to attract new customers, which may adversely impact our revenue and results of operations.

***The high cost of accessing the Internet in India limits our pool of potential customers and restricts the amount of revenues that our Internet access services division might generate.***

The growth of our consumer services is limited by the cost to Indian consumers of obtaining the hardware, software and communications links necessary to connect to the Internet in India. If the costs required to access the Internet do not significantly decrease, most of India's population will not be able to afford to use our services. Any long term absence of affordability to access internet at reasonable cost may adversely affect our business and results of operations.

***The success of our business depends on the acceptance and growth of electronic commerce in India, which is uncertain, and, to a large extent, beyond our control.***

Many of our existing and proposed services are designed to facilitate electronic commerce in India. The e-commerce in India is at a very early stage as compared to western world. The market potential for e-commerce is yet to be exploited. Demand and market acceptance for these services by businesses and consumers, therefore, are still remain uncertain. Many Indian businesses have deferred purchasing Internet access and deploying electronic commerce initiatives for the following reasons:

inconsistent quality of service;

the need to deal with multiple and frequently incompatible vendors;

inadequate legal infrastructure relating to electronic commerce in India;

a lack of security of commercial data, such as credit card numbers; and

very few Indian companies accepting credit card numbers over the Internet.

If usage of the Internet in India does not increase substantially and the legal infrastructure and network infrastructure in India are not developed further, we may not realize any benefits from our investment in the development of electronic commerce services.

**Risks Related to the Internet**

***We are now subject to quality of service (QOS) guidelines issued by TRAI. Failure to comply with one or more guidelines may expose us into fines/penalties.***

TRAI has issued the following guidelines to the ISPs for improving the quality of service:

All Internet service providers shall provide adequate information to subscribers regarding Internet/broadband services being offered and marketed by them.

All Internet service providers shall provide information regarding contention ratios or the number of users competing for the same bandwidth, adopted by them to provide Internet/broadband service in their tariff plans submitted to TRAI, manual of practice, call centers and on their websites

All Internet service providers shall quarterly publish contention ratio for different Internet/broadband services on their website to facilitate subscribers to take informed decision.

All Internet service providers must use the contention ratios better than specified ratios for different services to ensure sufficient bandwidth for providing good quality of service to their subscribers.

In the event of our failure to comply with one or more of the above guidelines, we may expose ourselves to fines / penalties.

**Table of Contents**

Fixing up a contention ratio, may put standalone ISPs, like ours, at a disadvantage as cost of delivery of Internet bandwidth may increase. Telecom companies offering similar internet services are tempted to offer significantly lower prices and incentives as they own the last mile and at the same time by bundling telephony along with Internet enhance their otherwise idle last mile. Under such circumstances, it will be very difficult for us to compete with big Telcos which can offer broadband services by cross subsidising with voice/other services.

In the event of our failure to comply with one or more of the above guidelines, we may expose ourselves to fines/penalties

***We may be liable to third parties for information retrieved from the Internet.***

We could become liable if confidential information is disclosed inappropriately on or through our websites. Others could also sue us for the content and services that are accessible from our websites through links to other websites or through content and materials that may be posted by our users in chat rooms or bulletin boards. The laws in India relating to the liability of companies which provide Internet services, like ours, for activities of their users, are still relatively unclear. Investigating and defending these claims is expensive, even if they do not result in liability. However, we have an insurance cover to protect us against some of these claims as per our Professional Indemnity Policy. Further, our business is based on establishing our network as a trustworthy and dependable provider of information and services and allegations of impropriety, even if unfounded, could damage our reputation, disrupt our ongoing business, distract our management and employees, reduce our revenues and increase our expenses.

***Our business may not be compatible with delivery methods of Internet access services developed in the future.***

We face the risk that fundamental changes may occur in the delivery of Internet access services. Currently, Internet services are accessed primarily by computers and are delivered by modems using telephone lines. As the Internet is becoming accessible by cellular telephones, personal data assistants, television set-top boxes and other consumer electronic devices, and becomes deliverable through other means involving digital subscriber lines, coaxial cable or wireless transmission mediums, we will have to develop new technology or modify our existing technology to accommodate these developments. Our pursuit of these technological advances, whether directly through internal development or by third-party license, may require substantial time and expense. We may be unable to adapt our Internet service business to alternate delivery means and new technologies may not be available to us at all. We provide wireless connectivity on the 5.7 GHz spectrum allotted to us by the Wireless Planning Commission. The spectrum allocation may be inconsistent with industry standards. The current capacity may be insufficient to offer a breadth of services. The Government may issue instructions to release the spectrum that we hold. High cost of spectrum acquisition may be inconsistent with our revenue and cost models. We may not keep up with the pace of change that takes place in wireless technologies. The launch of DTH (Direct to Home) relay by service providers such as Tata Teleservices, Reliance, Dishnet and Sun TV may weaken the presence of Cable TV Operators (CTOs) in providing connectivity to homes through cables. Due to such competition, we may lose business from the CTOs for providing internet services through cables.

***Our service offerings may not be compatible with industry standards developed in the future.***

Our ability to compete successfully depends upon the continued compatibility and inter-operability of our services with products and architectures offered by various vendors. Although we intend to support emerging standards in the market for Internet access, industry standards may not be established and, if they become established, we may not be able to conform to these new standards in a timely fashion or maintain a competitive position in the market. The announcement or introduction of new services by us or our competitors and any change in industry standards could cause customers to deter or cancel purchases of existing services.

**Item 4. Information on the Company****History and Development**

We were incorporated on December 12, 1995 in Andhra Pradesh, India as Satyam Infoway Private Limited, a Company under the Indian Companies Act, 1956 to develop and offer connectivity-based corporate services in India. Until December 2002, we were a majority-owned subsidiary of Satyam Computer Services Limited, an Indian information technology services Company traded on the New York Stock Exchange and the principal Indian stock exchanges. We changed our name from Satyam Infoway Limited to Sify Limited in January 2003 and from Sify Limited to Sify Technology Limited in October 2007. We completed our initial public offering of ADSs in the United

States in October 1999. We listed our ADS on the Nasdaq Global Market on October 19, 1999. In February 2000, we completed our secondary offering of ADS in the United States.

**Table of Contents**

Sify Software Limited (Formerly Sify Networks Private Limited), Sify Technologies (Singapore) Pte. Ltd., and Sify International Inc. are our wholly owned and controlled subsidiaries.

The address of our principal executive office is Tidel Park, 2nd Floor, 4, Rajiv Gandhi Salai, Taramani, Chennai 600 113 India, and our telephone number is 91-44-2254-0770. Our Agent for Investors Relations in the United States is Graling Global, phone +1-646-284-9400. Our website address is [www.sifycorp.com](http://www.sifycorp.com) and the information contained in our website does not constitute a part of this Annual Report.

From December 1995 through 1997, we focused on the development and testing of our private data network. In 1997, we began forming strategic partnerships with a number of leading technology and electronic commerce companies, including UUNet Technologies, in order to broaden our service offerings to our corporate customers. In March 1998, we obtained network certification for conformity with Indian and international network operating standards from the Technical Evaluation Committee of India. In April 1998, we began offering private network services to businesses in India. Our initial services included electronic data interchange, e-mail and other messaging services, virtual private networks and related customer support.

We started development of [www.sify.com](http://www.sify.com), our online portal, and other related content sites for news, travel, finance, health and shopping with the goal of offering a comprehensive suite of websites offering content specifically tailored to Indian interests worldwide.

On November 6, 1998, the Indian government opened the Internet service provider (ISP) market to private participation. Capitalizing on our existing private data network, we launched our Internet service provider business, *SifyOnline* (formerly known as *SatyamOnline*), on November 22, 1998 and became the first private national Internet service provider in India. We began offering *SifyOnline* Internet access and related services to India's consumer market as a complement to the network services offered to our business customers. Our *SifyOnline* service was the first in India to offer ready-to-use CD-ROMs enabling online registration and immediate usage.

In March 2000, we launched our network of public Internet cafés called *iways* to cater to the needs of Indians who do not have access to the Internet. In September 2000, we commenced our hosting services from our Tier-I data center at Vashi, Mumbai to provide co-location and managed services to our clients. In June 2001, we obtained permission to provide wireless connectivity on the 5.7 GHz spectrum from the Wireless Planning Commission. This enabled us to convert all our *iways* from Integrated Services Digital Network, or ISDN, connectivity on the last mile to wireless connectivity. This technology also enabled us to commence our high-speed/broadband access to homes, which began in March 2003. To enable quicker access to homes, we developed a model of partnering with Cable Television Operators, or CTOs, who already interface with households for providing cable television facilities to millions of households in India.

In April 2002, ISPs were permitted to provide restricted VoIP limited to outbound calls to International destinations and personal computer to personal computer calls in India. We started providing this service through our network of cybercafés, and later on through VoIP booths located in large commercial areas and corporate office complexes across major cities in India.

From the time we launched our corporate services in 1997, we have continually upgraded our technology to provide data services to corporate clients. We were the first Internet service provider in India to make our entire network IP-based and subsequently Multi Protocol Label Switching (MPLS)-enabled, which permitted us to continue to grow our corporate customer base. As of March 31, 2010, we provide data connectivity services to more than 2,587 corporate clients in industries ranging from information technology, manufacturing, banking and financial services industry, pharmaceuticals, retail distribution and the government.

*Initial Public Offering and Subsequent Financing Transactions*

In October 1999, we completed our initial public offering on the Nasdaq National Market and issued 4,801,250 ADSs at a price of \$18.00 per ADS. We received proceeds of approximately \$79.2 million, net of underwriting discounts, commissions and other offering costs. In connection with our initial public offering, we received the benefit of exemptions from the Nasdaq corporate governance rules relating to shareholder meeting quorum, solicitation of proxies and shareholder approval for issue of shares other than in a public offering under Nasdaq Rules 4350(f), 4350(g) and 4350(i)(1)(D), respectively. We will continue to avail of the exemptions from the Nasdaq corporate governance rules.

In February 2000, we completed a secondary offering and issued 467,175 ADSs at a price of \$320.00 per ADS. We received proceeds of approximately \$141.2 million, net of underwriting discounts, commissions and other costs.

**Table of Contents**

In October 2002, we agreed to sell an aggregate of 7,558,140 ADSs to SAIF for consideration of \$13.0 million and to sell an aggregate of 2,034,883 equity shares to VentureTech for consideration of \$3.5 million. This transaction was approved by our shareholders at our Extraordinary General Meeting held on December 9, 2002. In December 2002, we completed the sale of the ADSs to SAIF and the sale of 2,034,883 equity shares to VentureTech. In April 2003, we sold an additional 1,017,442 equity shares to VentureTech. In July 2003, we sold an additional 1,017,441 ADSs to an affiliate of Venture Tech.

On November 10, 2005, Infinity Capital Ventures, LP ( Infinity Capital ) acquired 11,182,600 ADS of our Company from Satyam Computer Services Limited ( Satyam ) for US \$5.60 per share in cash through a Sponsored ADR Programme arranged by the Company. The total purchase price for the Satyam shares was approximately US \$62.6 million.

In a separate transaction, also on November 10, 2005, Infinity Capital entered into a Subscription Agreement with us pursuant to which, upon the terms and subject to the conditions set forth therein, Infinity Capital agreed to purchase from us approximately 6.7 million newly-issued equity shares or ADSs at a purchase price of US \$5.60 per share in cash. The total purchase price for the newly issued shares was approximately US \$37.5 million. This transaction was approved by our shareholders at our Extraordinary General Meeting held on December 23, 2005. In January 2006, we completed the transaction. Also on November 10, 2005, Sify, Infinity Capital and Mr. Raju Vegesna entered into a Standstill Agreement pursuant to which, upon the terms and subject to the conditions set forth therein, Infinity Capital agreed not to purchase more than 45% of our fully diluted equity. The Board of Directors waived the above clause in the standstill agreement passed through a Board resolution dated January 22, 2008.

In connection with the transactions, Mr. Raju Vegesna of Infinity Capital was appointed as the Chairman of our Board of Directors. We also appointed Mr. P. S. Raju as the second nominee of Infinity Capital to our Board of Directors.

On March 24, 2008, the Company entered into a Subscription Agreement with Infinity Satcom Universal Private Limited (Infinity Satcom Universal), a private limited Company in India which is controlled by Ananda Raju Vegesna and brother of Raju Vegesna, Chairman and Managing Director, for issuance of 12,817,000 Equity Shares of the Company with face value of Rs.10/- per share at a premium of Rs.165/-. It was approved by the Company's shareholders at the Extraordinary General Meeting held on, March 17, 2008.

On March 24, 2008, we received a sum of Rs 112.14 million (comprising of Rs 12.81 million towards face value and Rs 99.33 million towards securities premium). Subsequently, Infinity Satcom Universal communicated to the Company that they would focus their attention on the business of Sify Communication Limited (erstwhile subsidiary) and hence shall not contribute the balance money towards the subscription of 12,817,000 Equity Shares on call. On August 29, 2008, the Board of Directors, forfeited the shares allotted and the application monies collected (Rs. 112.14 million including sums towards capital and premium).

On October 30, 2010, we consummated the issuance and sale of 125,000,000 of our equity shares in a private placement with our promoter group, including an entity affiliated with our Chairman and Chief Executive Officer, Mr Raju Vegesna. See note 42 in the notes to the financial statements in this Annual Report on Form 20-F.

*Acquisition of Minority Interest in Subsidiary*

In January 2008, our Board of Directors of Sify approved the merger of our subsidiary, Sify Communications Limited with our Company. The Boards of each of Sify and Sify Comm determined that a merger would produce cost savings efficiencies and, as a combined entity, benefit all shareholders. The Board then submitted the proposed merger to the shareholders and to the High Court of Madras for approval. In August 2008, while approval for the merger was pending, the Indian government proposed new regulations regarding the delivery of internet services and was expected to announce changes to the policy governing the spectrum for the delivery of wireless data. The Board reviewed these regulatory changes and determined that it would be in the best interest of each Company to remain as separate entities, as opposed to combining the entities as contemplated by the proposed merger. The Company submitted a petition to the High Court of Madras to withdraw the merger, and such petition was approved.

In October 2008, the Company again evaluated the feasibility of a merger between Sify and Sify Comm and the Board of Directors of the Company at their meeting held on November 24, 2008 approved the merger of Sify Comm with retrospective effect from April 1, 2008, subject to approval by the Shareholders, the Honourable High Court and other statutory authorities. The Board considered the deterioration of the Indian and global economy, and its effect on the

Company's performance during the first half of fiscal 2009 as well as the impact of a prolonged economic downturn on the Company during the third and fourth 2009 fiscal quarters. The Board evaluated these issues and determined that a combined entity would provide cost savings and increased cash flow, and strengthen the Company's ability to borrow additional funds, if necessary. Accordingly, the Board of Sify determined that the merger should again proceed and sought shareholder approval, and submitted the merger to the High Court of Madras for approval. The Honourable High Court approved the merger on 26th June, 2009. In connection with such merger the Company has issued 10.53 million equity shares to Infinity Satcom Universal Private Limited, a 26% stake holder in the erstwhile Sify Communications Limited prior to merger.

**Table of Contents**

On July 15, 2009, Infinity Satcom Universal Private Limited has acquired 4,000,000 shares of the Company from Infinity Capital LP, USA in a private transaction. Infinity Capital now owns approximately 26.06% and Infinity Satcom Universal Private Limited owns approximately 27.24% of outstanding shares.

*Principal Capital Expenditures*

In fiscal 2010, 2009 and 2008, we spent Rs 979.74 million, Rs.1336.16 million and Rs.879.33 million respectively, on capital expenditures. As of March 31, 2010, we had contractual commitments of approximately Rs.215.46 million for capital expenditure towards the acquisition of property, plant and equipment. These commitments included approximately Rs.30.55 million in domestic purchases and Rs.184.91 million in imports and overseas commitments for products and spares. All our capital expenditures were financed out of cash generated from operations and the funds raised from banks.

*Investment Strategy*

In evaluating investment opportunities, we consider important factors, such as strategic fit, competitive advantage and financial benefit, through a formal net present value evaluation.

*Sify Software Limited (formerly Sify Networks Private Limited)*

In March 2004, we acquired E Alcatraz Consulting Private Limited, a Company engaged in the business of providing security services to corporate customers, for a consideration of Rs.32.7 million.

The Company did not have operations during the last three years. During October 2009, Sify Technologies transferred eLearning, Software Development and other related businesses, which are non-telecom businesses, to the subsidiary Company for a consideration of Rs.450 million, which was discharged by way of issue of 4.5 million ordinary shares in Sify Software Limited. Consequently, the name of the Company was changed to Sify Software Limited in order to reflect the activities relating to Software Development business.

*Globe Travels, USA.*

In April 2006, we acquired Globe Travels, USA engaged in the business of selling online airline tickets in the U.S. with a special focus on the U.S.-India sector along with its Indian outfit for a consideration of USD \$2.50 million, apart from 125,000 stock options and some conditional earn out payments. We believe this acquisition marks Sify's entry into the online travel business, particularly e-ticketing.

Consequent to impairment testing for goodwill and intangibles, the Company has recorded Rs. 62,469 (USD \$1.38 million) impairment charge towards goodwill and other intangibles during 2008-09 and 2009-10. This is primarily on account of the decline in business travels due to the global economic environment.

*India World Communication Limited*

India World Communications Limited filed an application with the Registrar of Companies, Tamil Nadu in 2008 for the winding up of its business under section 560 of the Indian Companies Act, 1956. The Registrar had struck off its name from the register. Hence, India World Communications Limited ceased to exist from the date of order of the ROC.

*Sify International Inc*

Sify International Inc incorporated in the United States of America (US) is a wholly owned subsidiary of Sify. Sify International has not had any operations during the last five years.

**Table of Contents****Business Overview**

We are one of the largest integrated Internet, network and electronic commerce services companies in India, offering end-to-end solutions with a comprehensive range of services delivered over a common Internet backbone infrastructure. Our services enable our business and consumer customers to communicate, transmit and share information, access online content and conduct business remotely using our private data network or the Internet. Our Internet and network services include the following:

*Corporate Network/Data Services.* We offer end-to-end network, hosting, application and security services that provide our corporate customers with comprehensive Internet and private network access. Our services enable our corporate customers to offer a full range of business-to-business and electronic commerce related services. We provide NLD (National Long Distance) and ILD (International Long Distance) services through our network. We carry voice traffic, both national and international, using the IP back-bone and deliver voice traffic to Direct Inter-connect Operators. We also provide managed infrastructure services and managed security services in all aspects of infrastructure services, network security and hosting, with digital certificates based authentication service and VPN solutions. We have launched system integration service during the year 2009-10. We are the first service provider in India to be ISO 9001:2000 certified in network operations, data center operations and customer relationship management.

*Internet Access Services.* We offer public Internet access to consumers through a retail chain of e-ports (formerly *ipay*) cybercafés. We also have agreements with certain cable television operators through which we offer Internet access through cable. As of March 31, 2010, we had approximately 0.3 million retail Internet access subscribers.

*Online Portal Services.* We operate online portals, such as [www.sify.com](http://www.sify.com), [www.samachar.com](http://www.samachar.com) and [www.sifymax.in](http://www.sifymax.in), that function as principal entry points and gateway for accessing the Internet by providing useful web-related services and links. We also offer related content sites specifically tailored to Indian interests worldwide.

*Others.* We facilitate web based learning for various organizations by digitizing and uploading content to facilitate the same. We also provide remote infrastructure management services such as Data center management, Network management, Security management and Desktop management to support the clients from offshore command centers, on a 24 x 7 x 365 basis.

We began providing corporate network/data services to businesses in April 1998, and as of March 31, 2010 we had more than 2,587 corporate customers located principally in India. We launched our Internet service provider business in November 1998, becoming the first private Internet service provider to begin service after the Indian government opened the market to private competition. We also operate online portals, [www.sify.com](http://www.sify.com), [www.sifymax.in](http://www.sifymax.in), [www.samachar.com](http://www.samachar.com), and related content sites specifically tailored for Indian interests worldwide. *Sify.com* is one of India's leading portals with services in areas such as news, travel, finance, health and shopping in addition to e-mail, chat and search. *SifyMax.in* is a broadband portal offering live streaming and on demand video and audio content, news clips, TV reality shows and highlights of cricket matches.

We are providing NLD (National Long Distance) and ILD (International Long Distance) services through our network from August 2008. We have made tie-ups with international and domestic carriers to carry their traffic into India. We carry voice traffic, both national and international, using the IP back-bone and deliver voice traffic to direct inter-connect operators.

During the year, following the merger of Sify Communications Limited with the Company, we obtained the approval of Department of Telecommunications for the transfer of NLD / ILD licences from Sify Communications to us. We currently operate a large national private data network in India. Our network utilizes Internet protocol, which is an Internet industry standard for tracking Internet addresses, routing outgoing messages and recognizing incoming messages. In February 2002, we became the first Indian Company to be certified ISO 9001:2000 for network services, data center operations and customer relationship management. The ISO 9001:2000 certification from Det Norske Veritas (DNV), Netherlands under the RvA accreditation scheme provides recognition for self-defined benchmarks against international companies with respect to facilities, metrics, processes and practices. In fiscal year 2003, our Enterprise Solutions division was also certified ISO 9001:2000 for provisioning of corporate VPN's, Internet

bandwidth, VoIP, and integrated security solutions including pre-sales, sales, order processing and project management.

As of March 31, 2010, we operated 607 points of presence serving more than 550 towns and cities across India. Points of presence are telecommunications facilities located in a particular market which allow our customers to connect to the Internet through a local telephone call. Although our Internet service provider license permits us to establish and maintain our own direct connection to the international Internet, we no longer maintain satellite gateways. We provide international bandwidth by leasing capacity from large telcos.

We continue to seek to be the premier integrated Internet, network and electronic commerce solutions provider to businesses and consumers in India. We believe that demand for our services is significant in India and growing rapidly as businesses and consumers seek alternatives to the communications services offered by telecom providers that were formerly controlled by the Government of India. We intend to continue to focus on providing superior network performance and high levels of customer service and technical support to increase our customer base and maximize customer satisfaction.

## **Table of Contents**

### **Industry Overview**

*Development of the Internet.* We believe that the large and increasing number of home and office computers linked to the Internet, advances in network design, increased availability of Internet-based software and applications, the emergence of useful content and electronic commerce technologies, and convenient, fast and inexpensive Internet access will continue to drive Internet growth and usage in the near future.

*Special Communications Needs of Businesses.* As the Internet is now easily available and more reliable, businesses are increasingly utilizing the Internet for functions critical to their core business strategies, such as sales and marketing, customer service and project coordination. The Internet presents a compelling profit opportunity for businesses by enabling them to reduce operating costs, access valuable information and reach new markets. To maintain a significant presence on the Internet, businesses typically purchase Internet access services and establish a website. Internet access provides a Company with its basic gateway to the Internet, allowing it to transfer e-mail, access information and connect with employees, customers and suppliers. A website provides a Company with a tangible identity and an interactive presence on the Internet. Many corporations are also converting their legacy information systems and databases to web-enabled systems.

*The Opportunity in India.* The resulting internet service remains inferior to service in developed countries. At the same time, however, the Indian economy continues to modernize and expand, particularly in sectors such as software development that are dependent on a reliable communications network. The growth of these industries is leading to an increasing base of personal computers and wired and wireless homes and businesses in India with a resulting increased demand for Internet services. We believe these trends, which mirror those in more mature economies, will continue to develop in India.

We believe that the ability to exploit the Internet service provider and other data service markets in India is currently inhibited by the government policies and regulatory controls on the provision of Internet based services. Generally, bandwidth remains very expensive in India, despite falling prices for international and domestic leased lines and the recent emergence of private players, and liberalization measures have brought an increase in supply and a consequent downtrend in prices respectively. Ceilings for bandwidth prices are set by the DoT and the Telecom Regulatory Authority of India, or TRAI, plays the advisory role to the DoT.

Absence of policy support for Internet is hurting India's strategic objectives. Most government targets for Internet and broadband access remain unmet. ISPs face more restrictions than they faced at inception. ISPs face considerably tougher licensing terms. The visionary decision to make all ISP licenses free has now been changed to include hefty fees for virtual private networks (VPN) and Internet telephony. IPTV services are being closed to ISPs. Spectrum charges and procedures are more unfavourable now than before.

We expect the growth in personal computers and Internet users to increase the demand for Internet content directed towards domestic Indian consumers as well as the amount of electronic commerce in India.

We believe that private market participants historically have not been able to exploit the market opportunities in India because the regulatory environment in India largely prevented any competition with the national government-controlled telecom providers. Until November 1998, the only Internet service provider permitted in India was Tata Teleservices, which began providing Internet access on August 15, 1995. On November 6, 1998, the government opened the Indian Internet service provider market to private competition and granted Internet service provider licenses. The licensees include cable television operators and joint ventures between local companies and large international telecom providers. Internet service provider licenses are granted for 15 years, with only nominal license fees. Currently, pricing of Internet service is not regulated by the Government of India, although it has the power to do so through policy directives. However, the interconnection charges between service providers are regulated by the TRAI.

### **Sify Business Model**

We believe that the growth of the Internet and other network services in India has been inhibited by relatively high costs for certain market segments and poor user experiences caused by an inadequate telecommunications infrastructure and slow network connection speeds. We are committed to expanding and enhancing our private network backbone and to providing high quality technical support to attract users to our services. We believe that our services provide our customers with the ability to exchange information, communicate and transact business over the

Internet with speed, efficiency, reliability and security superior to other Internet service providers.

## **Table of Contents**

Key advantages of the Sify business model include:

*End-to-end network solutions for business customers.* We provide our business customers with a comprehensive range of Internet, connectivity, security and consulting, hosting and managed service solutions complemented by a broad base of web-based business applications. Our corporate services range from dedicated Internet access, virtual private networks, security, web implementation, electronic commerce solutions and web hosting. Our end-to-end solutions enable our corporate customers to address their networking and data communication needs efficiently without having to assemble products and services from different value-added resellers, Internet service providers and information technology firms.

*National private Internet protocol network backbone and Wireless delivery on the last mile.* We operate a large national Internet protocol data network in India. As of March 31, 2010, we owned and operated 607 points of presence serving more than 550 towns and cities across India. Our network provides the platform to deliver Internet access and the backbone to provide a full range of corporate network/data services to consumers. A significant portion of our last mile delivery for corporates, and almost the entire iway cybercafé network and hi-speed / broadband delivery to homes, is on the wireless mode, thereby enabling us to implement and deliver superior services compared to the wire line medium.

*Internet content and electronic commerce websites customized for the Indian market.* We view the Indian market as a series of specific market segments with unique cultural and topical interests, rather than an extension of a homogeneous, worldwide Internet market. We have assembled a team of India-based employees familiar with the local culture, language and business environments in our markets to develop Internet content and electronic commerce websites tailored for the Indian market. We regularly incorporate new and original third-party content suited to our local and regional audiences to enhance our customers' online experience and to attract new users both within India and abroad. As a result of our local market knowledge, we are able to place contents in our websites which will attract more users to our websites and to create brand awareness for our SifyOnline access service.

*Managed Infrastructure services and Managed Security Services.* We have customer engagements in all aspects of infrastructure services, networks security and hosting, with digital certificates based authentication service. We have experience in providing information assurance and compliance certification in accordance with frameworks such as Committee of Sponsoring Organizations of the Treadway Commission (COSO) / Control Objectives for Information and related Technology (COBIT). We believe that our managed infrastructure and security services utilise our experience and skill sets to provide constant value to our customers, better service levels and reduced costs. We constantly look at ways to efficiently manage customer assets remotely thus providing focused superior service at lower cost.

## **Strategy**

Our goal is to become the premier integrated Internet, network and electronic commerce solutions provider to businesses and consumers in India. Our principal business strategies to accomplish this objective are discussed below:

*Invest in the continued enhancement and expansion of our network infrastructure to support customer growth, enter into new markets and accommodate increased customer usage.* We intend to continue to increase the capacity and geographic reach of our network in order to support subscriber growth, enter new markets and accommodate increased customer usage. We are committed to using proven technologies and equipment and to providing superior network performance. We have deployed asynchronous transfer mode, or ATM, switches on nine points of presence along our network. The rest of our network is based on Internet Protocol, or IP, and we are the first Indian service provider to have made our network Multi Protocol Label Switching (MPLS) compliant. As of March 31, 2010, we have acquired adequate capacity of bandwidth lines, all from major telecommunications companies, which ensures that there is an assured supply of bandwidth service being provided to Sify's customers without any disruptions. We have also leased intercity links from multiple suppliers including BSNL, Bharti, Reliance and Power Grid corporation, such that each one of our nodes is accessible from at least two

other nodes, if not by two long distance operators. We believe that as the size and capacity of our network infrastructure grows, its structure and national coverage will create economies of scale. Being vendor neutral, we are able to procure bandwidth in a cost effective manner. Over the past five years we have designed and built four data centers in Mumbai, Chennai, Bangalore and Airoli. We intend to invest in additional data centers, and are currently building a data center at Noida near New Delhi.

**Table of Contents**

*Increase penetration in our existing markets by expanding awareness of the Sify brand name to capitalize on our first mover advantage in India.* We intend to capitalize on our first-to-market advantage in India to establish national service and a brand name in advance of other private competitors. As of March 31, 2010, we had approximately 0.3 million retail Internet subscribers and 1,227 operative cybercafés, of which 6 were owned by us and 1,221 were franchised. Approximately 99% of these e-ports are on broadband, which provides the user with significantly faster access speeds. Our marketing strategy includes print and radio advertising, direct mailing campaigns targeting personal computer owners and operating cybercafés. We are also actively promoting our broadband services to homes through cable television operators. As of March 31, 2010, we have more than 1,967 cable television operators across 203 cities in India. We believe that increased focus by GOI on delivery of broadband services, availability of broadband content, reduced cost of personal computers coupled with increased purchasing capacity of the middle class in India will drive this business forward in the future. We are also continuously working on better alternative technologies to overcome the last mile challenges and to offer superior connectivity to homes.

*Expand our services with new technologies to enable our customers to use the Internet more effectively.* We continually seek to expand the breadth of our service offerings with new technologies. Our cybercafés prominently display the Sify and SifyOnline brands and offer a full range of our Internet connectivity services. We have previously introduced a number of other services, including VoIP, video conferencing, e-mail designed for regional Indian dialects, a user customized portal site and micro-payments.

*Provide more value added services by leveraging on the rapid growth of wireless Internet and mobile services in India and strengthen our Internet portal with more content tailored to Indian interests worldwide.* Our portals [www.sify.com](http://www.sify.com) and [www.samachar.com](http://www.samachar.com), function as initial gateways to the Internet, the user's starting point for web browsing and other Internet services, for our consumer Internet service provider subscribers and cybercafé users. We believe that our portals are media rich and user friendly, and the portals are interactive websites offering hyperlinks to a wide variety of websites and services, including our own websites. Our websites cater to a variety of Indian interests within and outside of India. To achieve our goal of developing the premier Internet portal focused on the Indian market, we intend to continue to expand and improve the quality of [www.sify.com](http://www.sify.com), and are developing additional content oriented towards topical and cultural interests of Indians worldwide.

*Expand our customer distribution channels through strategic alliances to take advantage of the sales and marketing capabilities of our strategic partners.* We intend to continue to expand our customer acquisition channels, for both our consumer Internet access and corporate network/data services. We have arrangements with leading personal computer manufacturers to bundle our SifyOnline Internet access service with the sale of their personal computers in India.

*Pursue selective strategic investments, alliances and acquisitions to expand our customer base, increase utilization of our network and add new technologies to our service mix.* We believe that our growth can be supplemented by selective acquisitions of complementary businesses. We may seek to expand our market presence in our corporate network business through the acquisition of web hosting, data center, web implementation and/or systems integration companies serving India, the United States or other markets. We will also consider acquisitions of Internet service providers that have a significant or growing customer base in our current or targeted markets.

*Expand into international markets for providing managed network services.* Our network and application level support can be provided remotely with a minimum of on-site presence. We are seeking to provide these services to international markets. The tools utilized to provide these services were developed in-house on Linux/open source platforms, and we plan to upgrade these tools in the future to meet customer requirements. We expect our expertise in network management, to enable us to perform these services to international customers at lower costs. We also intend to provide managed security solutions, including monitoring and vulnerability assessment, in addition to managed firewall and intrusion detection services.

*Superior end-user performance and customer support.* We believe that we provide a high level of customer service, network performance and technical support to maximize customer satisfaction. A significant number of our employees are engaged in our customer service or technical support departments, which operate 24-hours-a-day, seven-days-a-week. Our network engineers continually monitor network traffic and congestion points to deliver high quality consistent network performance. Our backend processes are ISO 9001:2000 compliant for network operations, data center operations and customer care. Our strategy of providing superior network performance and customer service is designed to result in significant customer growth from referrals and industry recognition.

## **Table of Contents**

### **Service Offerings**

*Corporate network/data services.* Our corporate network/data services division addresses the network, security and application services needs of Indian enterprises by leveraging our national Tier 1 IP network infrastructure. The services include a comprehensive range of Internet protocol based Virtual Private Network, or IPVPN, offerings, including intranets, extranets and remote access applications to both small and large corporate customers. There is a strong focus on industry verticals such as IT/ITES (IT enabled services), banking and financial services industry (BFSI), government, manufacturing, pharmaceutical and FMCG. We were the first service provider in India to provide MPLS-enabled IPVPNs on its entire network. We have entered into a strategic partnership with leading Telcos for providing last mile connectivity to customers. Our entire network is MPLS enabled with built in redundancy with world class design and service standards.

SecureConnect is our comprehensive offering of secure, reliable and scalable IPVPN solutions that meet both mission-critical data networking and converged voice, video and data connectivity needs. It offers a variety of intranet and extranet configurations for connecting offices, remote sites, traveling employees and business partners, whether in India or abroad. Our platform of services includes:

SiteConnect which offers site-to-site managed MPLS-enabled IPVPN solutions for securely connecting regional and large branch offices within India to the corporate Intranet.

GlobalSite Connect, an international site-to-site managed MPLS-enabled IPVPN solution, is used for securely connecting international branch offices to the corporate offices. It provides connectivity anywhere in the world through Sify's alliances and partnerships with global overseas service providers such as Global Crossing (GC), Asia Net.Com (ANC), and PCCW Global to name a few.

ExpressConnect, which offers a premium range of high-performance Internet bandwidth solutions for connecting regional offices, branch offices and remote locations to the corporate network. These solutions complement our SiteConnect range of MPLS enabled IPVPN solutions, provide high-speed bandwidth in those situations where basic connectivity and cost are the top concerns.

RoamConnect, is our national and international remote access VPN, which is used for securely connecting employees, while they are traveling, to the corporate intranet. RoamConnect features single number access to SifyNet from anywhere in the country and provides access from anywhere in the world through Sify's alliances with overseas service providers such as Verizon, IPASS and Fiberlink.

PartnerConnect is our remote access VPN offering, for providing secure and restricted dial-up access to business partners such as dealers, distributors and suppliers to the corporate extranet.

In February 2002, we became the first Indian Company to be certified ISO 9001:2000 for network services, data center operations and customer relationship management. The ISO 9001:2000 certification from Det Norske Veritas (DNV), Netherlands under the RvA accreditation scheme provides recognition for self-defined benchmarks against international companies with respect to facilities, metrics, processes and practices. Our corporate network/data services were also certified 9000:2001 compliant for pre-sales, sales, project management and backend operations in September 2003.

We also offer a suite of security solutions, including security design, audit, procurement and integration. Our enterprise solutions portfolio includes a range of application services, such as enterprise class e-mail platforms, audio and video conferencing solutions and business web services. Contracts for these services are negotiated on an individual basis to provide specifically tailored network/data services to each customer.

*Application Services.* We offer value-added services to organisations such as website design, development, content management, search engine optimisation, hosting and management services, including domain name management, secure socket layer (SSL) certificate for websites, and server space in required operating system and database. We provide state of the art messaging and collaboration services and solutions such as e-mail servers, LAN mail solutions, anti-spam appliances, bulk mail services, instant messaging, and also offer solutions and services to enable data & access security over the Internet. We also offer web-applications such as online merchandising with on-line payment

gateways, sales force automation, supply chain management, intranet and extranets, workflow engine and knowledge management systems. We also provide infrastructure-based services on demand, including on-line testing engine and network management. On-line testing services include test management software, required servers and proctored examination facilities at Sify's e-port cybercafés. On-line exam engine offered allows a secure and flexible way of conducting examinations involving a wide range of question patterns.

**Table of Contents**

*System integration, Security and Assurance Services.* During the last fiscal year, we have launched system integration services to offer DC built and infrastructure sizing and supply. We offer a comprehensive suite of security solutions including security design, procurement and integration services for infrastructure security, vulnerability assessment and penetration testing. Implementation services include implementation of security products, such as firewalls, intrusion detection systems, content security, authentication tools and VPN services. We also provide assurance services covering Information systems(IS) Audit, Risk Assessment, and Business Continuity/Disaster Recovery Planning.

*Data Centers.* We operate India's first level 4 Internet Data Centers (IDC) two of which are located in Mumbai (Bombay), one each at Chennai (Madras) and Bangalore, which are designed to act as reliable, secure and scalable facilities to host mission-critical applications. We offer co-location services which allow customers to bring in their own rack-mountable servers and house them in shared racks, or they could hire complete racks, and even rent secure cages at the hosting facility as per their application requirements. We also offer a wide variety of managed hosting services, such as storage, back-up and restoration, performance monitoring and reporting hardware and software procurement and configuration, network configuration as well as spares and replacement. Our Fort Knox platform for security management of hosted servers offers Service Level Agreement (SLA)-based security services to protect servers. Our Infrastructure Data Management Services (IDMS) service provides specific services related to building data centers, leveraging on our proven expertise to build world-class infrastructure.

*Cloud service.* We launched recently on-demand hosting (cloud) services to end-customers with strategic a tieup with global partner. We have joined the global program, designed for service-providers who offer on-demand cloud services giving them the option to rent software licenses on a monthly pay as you go basis. This model is aimed at helping Indian companies, both large and small, to safely tap computing capacity inside and outside their firewalls to help ensure quality of service for any application they want to run, internally or as a service.

*On Demand Storage.* We have recently launched innovative SLA driven utility-based On-Demand storage service to manage the complete lifecycle of enterprise information, from its inception to its final disposal. The fully managed, utility based, On-Demand, scalable storage platform is powered by global major in Data Systems. Sify's On-Demand storage service reduces the complexities of deploying and managing multiple storage tiers, and lowers operational costs by automating management with flexible need based pricing.

*Digital Certification.* In technical collaboration with Verisign, a leading provider of Internet trust services, we formed a subsidiary, Sify Communications Limited, to provide managed digital certificate-based authentication services in India. Sify Communications Limited was the principal affiliate of Verisign in India and was a member of Verisign's Global Affiliate Network. Sify Communications Limited was accredited as the first Certifying Authority for issuance of Certificate for Digital Signature by the Ministry of Information Technology, Government of India. Sify Communications Limited has merged with Sify Technologies Limited during the period under review. Consequent upon the merger, Sify Technologies Limited now provides digital certificate-based authentication services which were provided by its erstwhile subsidiary, Sify Communications Limited.

*Remote Management Services.* This service provides continuous proactive management and support of customer operating systems, applications and database layers through deploying specialized monitoring tools and infrastructure experts to ensure that our customers' infrastructure is performing optimally.

Our corporate network/data services division accounted for approximately 64%, 70% and 80% of our revenues in fiscal years 2008, 2009 and 2010 respectively. We believe that corporate services will continue to be the largest part of our business for the immediate future.

*VOIP Services.* We offer a comprehensive VoIP services covering Managed Voice for Enterprises particularly in IT/ITES segment to meet their international business communications. As part of the service, our Hosted dialer platform is also provided to enable BPOs to use this infrastructure as a service.

*ILD Voice & hubbing,* During the year 2008, we have launched Voice NLD/ILD services under the Telecom licence. We provide high quality voice origination and termination services with interconnects directly with both mobile and fixed line operators in India. Currently we handle millions of minutes of global voice traffic for our enterprise and retail customers. Our MPLS enable packet-switched network deploys a carrier class soft switch with redundancy to provide routing, as well as control, in real time. We have established strategic tie up with many global carriers. Our

voice services has grown well over the last two years and we have established credibility and repute. During the year 2009-10, based on the experience of voice services and success in the ILD India termination business, we have introduced Hubbing to support the whole voice business.

**Table of Contents**

*Internet Access Services.* We offer public Internet access to consumers through a retail chain of e-ports (formerly *iway*) cybercafés. We also have agreements with certain cable television operators through which we offer Internet access through cable. As of March 31, 2010, we had approximately 0.3 million retail Internet access subscribers.

Our Internet access services for retail consumers include high-speed/broadband access to homes over cable, public Internet access from our network of e-ports (formerly *iway* cybercafés) and VoIP. Currently, we have also started offering the premium broadband connection, branded Platinum to the SOHO market segment and wireless service to homes at select cities.

*Public Internet Access.* We provide public Internet access to the large segment of the Indian population that does not own a personal computer through our network of e-ports (formerly *iway* cybercafés). Sify operates these *iway* cybercafés on a franchisee model. As of March 31, 2010, we had 1227 operational e-ports (formerly *iways*) in 253 towns and cities.

In connection with our franchised e-ports (formerly *iways*), we grant each franchisee a non-exclusive license to operate the cybercafé using our logo, brand and trade names. We enter into an agreement with the franchisee establishing the rights and obligations of each party. In connection with the establishment of a franchised e-port (formerly *iway*), we receive an initial franchise fee that covers the following upfront services rendered by our Company:

The cybercafés e-ports are owned and operated by the franchisees. The franchisee procures the retail space, invests in furniture, interior decor, personal computers, point of sale signage and employs/trains the staff. The franchisee is responsible for the maintenance of the premises and interface with customers. We provide the complete back-end support, including bandwidth, the authentication/usage engine and the billing/collection system. The prices to be charged to the customers and the services that can be rendered are controlled by Sify. On average, these e-ports (formerly *iways*) have about seven personal computers and operate in an area of about 250 square feet. All e-ports operate on a prepaid subscription model, and the end customer has the ability to browse from any of the e-ports using the roaming facility that Sify provides. The billing system allows us the option of charging different prices based on the services used, time of usage and the place of use. More than 99% of these cafés are connected through the wireless mode, on the 5.7 GHz or the 2.4 GHz spectrum, with a subscriber unit placed on the top of the building and connected to an access point in a tower that is within a 5 kilometre radius from this location. We believe the e-ports offer a superior browsing experience compared to other internet cafés that operate on either a leased line or an ISDN facility. Today, e-ports are being used for a multitude of services including VoIP, online examination centres, online games, e-distribution points and value added services such as IRCTC (an online passenger reservation site) and utility payments.

*Sify e-port.* The *iways* cyber café chain is re-branded as *sify e-port*. Sify e-port is today the largest chain of branded retail outlets in the country, empowering every user to reap the benefit of internet and its applications. As of March 31, 2010, we had approximately 1227 operational e-ports. We have launched a model of *e-port Xpress* with a single PC with value added services as a kiosk chain offering services like travel ticket booking, bill payment, mobile recharge and e-commerce transactions in addition to internet browsing, chat, email and gaming.

*Voice over Internet Protocol.* VoIP can be used in India for making International calls. We have leveraged on our extensive network of e-ports to offer VoIP. As of March 31, 2010, more than 540 of the e-ports had the capability to provide VoIP. We provide these services through standalone VoIP booths at various strategic locations in major cities. We use MPLS enabled technology that ensures voice clarity.

*VoIP for home:* In addition to offering VoIP services through e-ports and VoIP booths, we provide VoIP services for all home users. This product is called *Sifytalk* and is a PC 2 Phone prepaid product. By using the prepaid pack, the user will be able to make international calls from his PC to any international destinations. The user can use *sifytalk* by connecting to any broadband connection.

*Broadband/High Speed Internet to Home:* We believe that our Broadband Business Model, over the past few years, has emerged as the most unique and cost-efficient model for scaling up broadband across the country. It leverages our brand, marketing and technical abilities of Sify as an ISP and the strengths of cable operators in having right of way and the network required to connect customers at a marginal cost. Apart from the innovative night unlimited products, we have also launched a set of unique Double your speeds in night products. We believe that appealing price points

and optimum value has been the key of all our offers.

*Broadband Internet for SOHO / SMB Category:* We at Sify understand the changes in requirements for different set of customers. The Small Office Home broadband Office (SOHO) segment which is large and continuously growing in India, has requirements which are different from the regular retail customers. our platinum broadband connection included a bundle of services which includes domain names, e mail Ids, static IP and a website builder along with wireless connectivity.

**Table of Contents**

We believe that the combination of cable to homes through cable operator and wireless services will enable us to successfully operate as a broadband operator. We believe that our primary biggest strength as a broadband operator lies in our marketing. We have built our reputation through our focused and targeted investment and business development strategy. Due to our relations with cable operators, we can utilize our substantial network available to provide our service on cable networks.

We have recently introduced Direct Renewal Facility, which allows our broadband subscriber to renew his connection at anytime of the day or night from the comfort of his home. Users whose validity has expired or pack amount is not available can login and re-charge their account. The subscriber gets full freedom to recharge according to the needs, convenience and at any time of the day-the recharge amount can be paid conveniently within three days from the time of recharge. Based on Voice over Internet Protocol, this facility will be available to our Broadband subscribers as a Closed User Group service.

Our Internet access services division accounted for approximately 26 %, 18 % and 11 % of our revenues in fiscal years 2008, 2009 and 2010 respectively.

*Internet Access Services.* BSNL, MTNL the leading PSU Telecom brands together hold about 70% of the broadband subscribers in India. We expect the market for broadband Internet services to grow more rapidly in the future due to additional telecom providers emerging as competitors. We expect the market for consumer Internet access to remain extremely price competitive as late market entrants attempt to acquire customers.

There is no single significant competitor in the cybercafé space. Currently, the market is highly fragmented and dominated by individual entrepreneurs who own Internet cafés, with a few personal computers connected to the Internet through a leased line or ISDN line. With considerably lower overheads, these individuals are able to offer Internet access at lower rates. We compete by offering faster browsing speeds, improved overall ambience at our e-ports, convenient billing systems and a host of value added services ranging from entertainment and travel to utility payments.

*Online Portal Services.* We operate online portals, such as [www.sify.com](http://www.sify.com), [www.samachar.com](http://www.samachar.com), that function as principal entry points and gateway for accessing the Internet by providing useful web-related services and links. We also offer related content sites specifically tailored to Indian interests worldwide.

Sify.com provides a gateway to the Internet by offering communication and search tools such as email, chat, travel, online portfolio management and channels for personal finance, astrology, lifestyle, shopping, movies, sports and news.

The finance channel of Sify <http://sify.com/finance/> covers the entire spectrum of equity markets, business news, insurance, mutual funds, loans, SME news and a host of paid and free financial services. The sports channel <http://sify.com/sports/> covers the entire gamut of Indian and international sports with special focus on cricket. Comscore has recently acknowledged Sify Sports as the fastest growing sports site (horizontal) in India with 345% growth YOY.

We also host WWE updates as a standalone service <http://wwe.sify.com/> for users.

The food channel [www.bawarchi.com](http://www.bawarchi.com) focuses on Indian recipes and cooking and is especially popular among non-resident Indians (NRIs) audiences with over 90% of its content being user generated

Our NRI news portal, [www.samachar.com](http://www.samachar.com), focuses on Indian news and allows NRIs to stay connected to India by aggregating news from across all popular newspapers and other news portals. This portal provides a range of news in English and five Indian languages. Apart from Samachar we have another India targeted news channel <http://sify.com/news/> which offers national and international general, political and offbeat news.

The online shopping mall <http://shopping.sify.com/>, stocks products from India's leading brands and products. We believe that it offers competitive prices and a secure and convenient method of payment. Users can buy using their credit or debit card, pay cash on delivery or send a check.

Movies channel on Sify <http://sify.com/movies/> is one of the key channels which offer updates from Bollywood/ Hollywood and all regional film industries. The content includes movie reviews, industry news, video galleries, photo galleries, downloads (photos) etc.

Games channel of Sify <http://games.sify.com/> offers multiple scoring non scoring games. Games include cricketing games, racing games, football specific games etc.

**Table of Contents**

Our online portal services division accounted for approximately 4%, 3%, and 2 % respectively, of our revenues in fiscal years 2008, 2009 and 2010 respectively. The decrease in revenue from portal services is on account of drop in corporate orders and value added services.

**Corporate Customers**

We have established a diversified base of corporate customers in a variety of data intensive industries, including information technology enabled services (ITES), banking financial services and Insurance (BFSI), publishing, retail, pharmaceuticals and manufacturing. Our corporate customer base has grown to over 2,587 customers. The increased scope of the services we offer, particularly the provision of broadband services to our existing customers and International IPVPN services along with the increased reach of our network, has increased our market base.

**Customer Service and Technical Support**

We believe that excellent customer support is critical to our success in attracting and retaining subscribers. We currently provide customer service and technical support via a local telephone call in most of the cities in which we have a point of presence. Our web-based help desk and MIS system provide online information to our clients. Subscribers can also e-mail their questions directly to a customer service and technical support address at our Company. Our customer service and technical support staff handles all questions regarding a subscriber's account and the provision of our services and is available 24-hours-a-day, seven-days-a-week.

**Sales and Marketing**

*Corporate Offerings.* The principal focus of our sales and marketing staff is to acquire new customers and maintain cordial relationship with the existing corporate customers. We seek to penetrate this market through trade publication ads, industry trade shows and seminars for the benefit of industry associations and potential customers. As of March 31, 2010, we had 505 employees dedicated to sales and marketing exclusively for our corporate offerings.

*Consumer Offerings.* A key element of our business strategy is to increase our brand awareness and market penetration among consumers through a number of means including an expanded advertising campaign focused primarily on print advertising, direct mail and free software to consumers who become subscribers.

To increase Internet access and use of our websites by personal computer buyers, we have entered into arrangements with leading personal computer manufacturers to have our Internet access software bundled with their computers sold in India.

**Technology and Network Infrastructure**

We operate a national IP / MPLS data network with 607 points of presence serving more than 550 cities and towns across India. We operate our network facilities and customer service operations, which gives us greater control over the utilization and quality of our network. We have designed and built our network using advanced technologies and equipment which will enable us to continue to expand the geographic range of our network, integrate improved data processing technologies and enhance speed and capacity with little or no disruption to our customers.

Services Offered: We offer the following services to our Enterprise and consumer customers using our network.

- Internet access services,
- IP/ MPLS Virtual private networks,
- Internet based Voice services

*Geographic Coverage.* Through our national network of points of presence, our business and consumer customers are able to access their application through our network in India via our wireless local loop, local leased lines or a local phone call on dial-up or through our cybercafé chain. We have 607 points of presence, or POPs. These points of presence, or primary nodes, reside at the core of a larger Internet protocol network with a Star and meshed topology architecture. Each point of presence contains data communications equipment housed in a secure facility owned, leased or operated on an infrastructure co-location basis by our Company. The last mile connecting to the customer can be a leased line, ISDN or point-to-multipoint radio link in the 5.7, 2.5 or 3.3 gigahertz range which we have licensed from the Wireless Planning Commission. We also use 2.4 ghz radios, which do not require an operating license, in some locations. Our larger corporate customers access the point of presence directly through leased lines or wireless links.

**Table of Contents**

*Network Architecture.* We ensure network reliability through several methods and have invested in proven technologies. We use Cisco routers to route traffic between nodes interconnected using a high speed interface. Most of our applications and network verification servers are manufactured by IBM, Sun and Hewlett-Packard.

The primary nodes on the backbone network are connected by multiple high-speed fiber optic lines that we lease from long distance operators. The secondary nodes are connected by lower speed leased lines. A number of nodes are accessible from at least two other nodes, if not, by two long distance operators, allowing us to reroute traffic in the event of failure on one route. We reduce our exposure to failures on the local loop by usually locating our points of presence within range of service providers switching equipment and purchasing connectivity from multiple providers. To further maximize our network uptime, we are almost completely connected on fiber optic cables to the switching points of our service providers from our POPs.

In addition to a fundamental emphasis on reliability and security, our network design philosophy has focused on compatibility, interoperability, scalability and quality of service. We use Internet protocol with Multi Protocol Label Switching, or MPLS, to transmit data, thus ensuring that our network is completely interoperable with other networks and systems and that we may port any application onto our network. The modular design of our network is fully scalable, allowing us to expand without changing the network design or architecture, thus ensuring little or no service disruption.

*Network Operations Center.* We maintain a network operation center located in Chennai (Madras) and a backup secondary facility in Mumbai (Bombay). The Chennai facility houses our central network servers as well as our network staff which monitors network traffic, service quality and equipment at all our points of presence to ensure a reliable Internet service. These operation centers are staffed 24-hours-a-day, seven-days-a-week. We have backup power generators and software and hardware systems designed to prevent network downtime in the event of system failures. In the future, we may add additional facilities to supplement or add redundancy to our current network monitoring capability.

*Data Centre Infrastructure.* We operate four level 3 Internet Data Centres, two in Mumbai, one each at Chennai and Bangalore. We offer managed hosting, security and infrastructure management services from these facilities. These data centres are completely integrated with our IP / MPLS network which provides seamless connectivity for our customers from their premise to their applications hosted in the data centers. The data centers conform to the Level 3 standards to cater to the security consideration of our customer servers.

**Competition**

*General.* We face competition in each of our markets and expect that this competition will intensify as the markets in India for corporate network/data services, Internet access services and online content develop and expand. We compete primarily on the basis of service, reliability and customer support. Price and ease of use are also competitive factors.

*Corporate Network/Data Services.* Our competitors for many private network services include government services companies that have built and operate their own private data networks. For Internet access, our main competitors are Bharti Televentures, Reliance Infocomm and Tata Teleservices, and our main competitors for domestic VPN includes terrestrial network providers, such as Bharti, Reliance and Tata Indicom, and satellite communications agencies, such as Bharti BT (which recently bought Comsat Max) and HCL Comnet. For international MPLS VPN, our main competition is from MCI, AT&T and Bharti BT.

*Internet Access Services.* BSNL & MTNL, the leading PSU Telecom brands together hold about 70% of the broadband subscribers in India. The land phone penetration is used to build on the base for broadband connections. While the dial-up segment will grow, we expect the market for broadband Internet services to grow more rapidly in the future due to additional telecom providers emerging as competitors. We expect the market for consumer Internet access to remain extremely price competitive as late market entrants attempt to acquire customers.

There is no single significant competitor in the cybercafé space. Currently, the market is highly fragmented and dominated by individual entrepreneurs who own Internet cafés, with a few personal computers connected to the Internet through a leased line or ISDN line. With considerably lower overheads, these individuals are able to offer Internet access at lower rates. We compete by offering faster browsing speeds, improved overall ambience at our e-ports, convenient billing systems and a host of value added services ranging from entertainment and travel to utility

payments.

## **Table of Contents**

*Online Portal Services.* There are several other companies in India that have developed websites, including rediff.com. Our major competitors include In.com, Google, Indiatimes.com and Yahoo.co.in. All the above mentioned portals are competing for a share of the online services market in India, which is dominated by online advertising, mobile telephone short code revenues and e-commerce. We are the leaders in the online market. However, we lag behind our competitors in mobile telephony short code and e-commerce services.

Most of our online portal competitors enjoy the following advantages:

Larger production and technical staff;

Greater name recognition and larger marketing budgets and resources; and

Substantially greater financial, technical and other resources.

To be competitive, we must constantly innovate and introduce new services to the market quickly. We also need to keep pace with rapidly changing technology in this area. Increased competition could result in loss of market share, reduced prices or reduced margins, any of which could adversely affect our business.

### **Intellectual Property**

Our intellectual property rights are important to our business. We rely on a combination of copyright and trademark laws, trade secrets, confidentiality procedures and contractual provisions to protect our intellectual property. We have filed approximately 200 trademark and service mark applications in India for registering our product and service offerings.

Our efforts to protect our intellectual property may not be adequate. We hold no patents, and our competitors may independently develop similar technology or duplicate our services. Unauthorized parties may infringe upon or misappropriate our services or proprietary information. In addition, the laws of India do not protect proprietary rights to the same extent as laws in the United States, and the global nature of the Internet makes it difficult to control the ultimate destination of our services. For example, the legal processes to protect service marks in India are not as effective as those in place in the United States. The misappropriation or duplication of our intellectual property could disrupt our ongoing business, distract our management and employees, reduce our revenues and increase our expenses. In the future, litigation may be necessary to enforce our intellectual property rights or to determine the validity and scope of the proprietary rights of others. Any such litigation could be time-consuming and costly.

We could be subject to intellectual property infringement claims as the number of our competitors grows and the content and functionality of our websites or other service offerings overlap with competitive offerings. Defending against these claims, even if not meritorious, could be expensive and divert management's attention from operating our Company. If we become liable to third parties for infringing their intellectual property rights, we could be required to pay a substantial damage award and forced to develop non-infringing technology, obtain a license or cease selling the applications that contain the infringing technology. We may be unable to develop non-infringing technology or obtain a license on commercially reasonable terms, or at all.

We also rely on a variety of technologies that are licensed from third parties. We use software developed by these and other companies to perform key functions. These third-party licenses may not be available to us on commercially reasonable terms in the future. The loss of any of these licenses could delay the introduction of software enhancements, interactive tools and other features until equivalent technology could be licensed or developed. Any such delays could materially adversely affect our business, results of operations and financial condition.

### **Government Regulation**

Our business is subject to comprehensive regulation by the Ministry of Communications through the Telecom Commission and the DoT, pursuant to the provisions of the Indian Telegraph Act of 1885, or Telegraph Act, the India Wireless Telegraphy Act, 1933, or Wireless Act, the Information Technology Act, 2000 or IT Act and the terms of our Internet service provider license issued by the DoT under which we operate. Pursuant to the Telegraph Act, the provision of any telecommunications services in India requires a license from the Government of India, obtained through the DoT. While the Telegraph Act sets the legal framework for regulation of the telecommunications sector and the Wireless Act regulates the possession of wireless telegraphy equipment, much of the supervision and regulation of our Company is implemented more informally through the general administrative powers of the DoT,

including those reserved to the DoT and other governmental agencies under our license.

In March 1997, the Government of India established the TRAI, an independent regulatory authority, under the provisions of the Telecom Regulatory Authority of India Act. The TRAI is an autonomous body consisting of a chairperson and at least two and not more than four members.

## **Table of Contents**

Under the Telecom Regulatory Authority of India Act, the functions of the TRAI are to:

make recommendations on (i) the need and timing for the introduction of new service providers, (ii) the terms and conditions of licenses granted to service providers, (iii) the revocation of licenses for non-compliance, (iv) measures to facilitate competition and promote efficiency in the operation of telecommunications services so as to facilitate growth in such services, (v) technological improvements in the services provided by service providers, (vi) the type of equipment to be used by service providers, (vii) measures for the development of telecommunications technology and the telecommunications industry and (viii) the efficient management of the available spectrum;

discharge the following functions: (i) ensure compliance of the terms and conditions of licenses, (ii) fix the terms and conditions of interconnectivity between service providers, (iii) ensure technical compatibility and effective interconnection between service providers, (iv) regulate revenue sharing arrangements between service providers, (v) establish standards of quality of service, (vi) establish time periods for providing local and long distance telecommunications circuits between service providers, (vii) maintain and keep for public inspection a register of interconnect agreements and (viii) ensure effective compliance of universal service obligations;

levy fees and other charges at such rates and in respect of such services as may be determined by regulation; and

perform such other functions as may be entrusted to it by the Government of India or as may be necessary to carry out the provisions of the Telecom Regulatory Authority of India Act.

The TRAI also has the authority to, from time to time, set the rates at which domestic and international telecommunications services are provided in India. The TRAI does not have authority to grant licenses to service providers or renew licenses, functions that remain with the DOT. The TRAI, however, has the following powers:

to call on service providers to furnish information relating to their operations;

to appoint persons to make official inquiries;

to inspect the books of service providers; and

to issue directives to service providers to ensure their proper functioning.

Failure to follow TRAI directives may lead to the imposition of fines. Decisions of the TRAI may be appealed to the Telecom Disputes Settlement and Appellate Tribunal.

In December 2004, the Government of India through DOT imposed new requirements on Internet Service Providers wishing to offer Internet Protocol Virtual Private Network (IP-VPN) services. Consequently, we applied for permission to offer IP-VPN services, and the DOT, Government of India issued a letter of intent to us on December 30, 2004 regarding amendment of our existing ISP license to include provision of IP-VPN services. In January 2005, we paid a Rs.100 million onetime entry fee and submitted a financial bank guarantee of Rs.10 million as required by the letter of intent.

On November 10, 2005, the GOI issued guidelines for obtaining National Long Distance ( NLD ) and International Long Distance ( ILD ) licenses including the terms and conditions for the licenses. These guidelines eliminated the IP-VPN license, entitling the Company to a full refund of the Rs.100 million entry fee, and permitting existing IP-VPN license holders to migrate to the NLD and ILD service licenses effective January 1, 2006.

As the NLD and ILD licenses were under the regime of Department of Telecommunications, the notification of the GOI dated 7 November 2005 was required to be complied with to obtain NLD and ILD licenses. The primary condition set out in the notification among other conditions was that, the total composite foreign holding by the applicant should not exceed 74 %. Given that the foreign shareholding in Sify was higher than the aforesaid threshold limit, Sify Communications Limited (erstwhile subsidiary) decided to obtain the NLD and ILD licenses in its name and made necessary applications in this regard. To facilitate this, Sify divested its stake in Sify Communications Limited (erstwhile subsidiary) to the extent of 26% of its holding in Sify Communications Limited (erstwhile subsidiary), or 4.680 million shares, to Infinity Satcom Universal Private Limited, a related party, for a sale consideration of Rs.139,810 during the quarter ended December 31, 2005. Infinity Satcom Universal, a Company incorporated under the laws of India, is owned by Ananda Raju Vegesna, who is the brother of Raju Vegesna, Chairman of Sify's Board of Directors and the principal of Infinity Capital Ventures, LP ( Infinity Capital ).

**Table of Contents**

On November 21, 2006, Sify Communications Limited (erstwhile subsidiary) executed two License Agreements with GOI, for NLD and ILD services respectively, which enabled Sify Communications Limited (erstwhile subsidiary) to provide IP-VPN services. Accordingly, the Company transferred its IP VPN business to Sify Communications Limited (erstwhile subsidiary) effective November 22, 2006 and the latter commenced the said services on the same day. Sify Communications Limited (erstwhile subsidiary) also furnished bank guarantees for Rs.200,000 each for NLD and ILD licenses to GOI. These licenses are valid for an initial period of 20 years and can be renewed for another 10 years at one time, upon request of the licensee made during the 19th year of license.

Pursuant to the shareholders approval at the meeting held on 12th February, 2009 which was convened as per the Orders of the Honorable High Court of Judicature at Madras (Court) and its Order in Company Petition Nos.30 and 31 of 2009 on 26th June 2009 sanctioning the Amalgamation Scheme, the assets and liabilities of Sify Communications Limited, whose principal business was providing IP-VPN services, corporate / individuals and consultancy services to companies / Firms intending to set-up security systems for e-commerce transactions, were transferred to and vested in the Company with effect from the appointed date viz. 1st April 2008 in accordance with the Amalgamation Scheme so sanctioned. Effective upon the merger, NLD and ILD licenses of Sify Communications Limited (erstwhile subsidiary) have been transferred to the Company to provide IP-VPN services. Consequent to merger, Infinity Capital and Infinity Satcom Universal Private Limited hold 26.06% and 27.24% of outstanding equity shares respectively. This has resulted in resident share holding of 27.24% post merger.

**Organizational Structure**

We are not part of any group. A list of subsidiaries and relevant information about them is provided in Exhibit 8.1 to this Annual Report on Form 20-F.

**Property, Plant and Equipment**

We own approximately 100,000 square feet corporate headquarters located in Chennai (Madras), India and an approximately 20,000 square feet regional office in Mumbai (Bombay). We have leased approximately 3,500 square feet network operations center in Chennai, a 27,000 square feet data center in Vashi, Mumbai, 95,250 square feet data center in Airoli and 46,600 square feet in Bangalore Data Centre. Our Chennai facility houses our central network servers as well as our network staff which monitors network traffic, service quality and equipment at all our points of presence, or POPs, to ensure a reliable Internet service. We have POPs in 550 towns/cities across India. Most of our POPs are staffed 24-hours-a-day, seven-days-a-week. Our POPs average approximately 750 square feet at each location. We have backup power generators and software and hardware systems designed to prevent network downtime in the event of system failures. In the future, we may add additional facilities to supplement or add redundancy to our current network monitoring capability. Our property, plant and equipment is pledged towards obtaining loans / working capital facilities from banks.

**Item 4A. Unresolved Staff Comments**

None.

**Item 5. Operating and Financial Review and Prospects**

The financial statements of the Company included in this Annual Report on Form 20-F have been prepared in accordance with International Financial Reporting Standards as issued by International Accounting Standards Board. The information set forth in Operating and Financial Review and Prospects is also for the Company's three recent fiscal years. The discussion, analysis and information presented in this section should be read in conjunction with our financial statements included herein and the notes thereto.

**Operating Results**

This information is set forth under the caption entitled "Management's Discussion and Analysis of Financial Condition and Results of Operations" below. Further, information relating to any governmental, economic policies or other factors which have materially affected, or could materially affect, directly or indirectly, the company's operations is set forth under the caption entitled "Risk Factors" above.

**Overview**

We are a leading Internet service provider engaged in Internet, Networking and e-Commerce services. We provide integrated end-to-end solutions for both corporates and consumers, with a range of products and services delivered over a common Internet backbone infrastructure, such as, Internet, connectivity, security and consulting, hosting and managed service solutions; Internet access services to homes and through cyber cafés; online portal services and content offerings; web services, mass market products, e-learning software and infrastructure management services. Our clients rely on our solutions/products to enhance their business performance and/or secure their information systems.

Our professionals deliver high quality solutions by leveraging our delivery model through which we divide projects into components that we execute simultaneously at client sites and at our development centers in India. We seek to optimize our cost structure by maintaining the flexibility to execute project components where it is most cost effective. Our sales, marketing and business development teams are organized to focus on specific regions and market segments and this helps us to customize our service offerings to our clients' needs. Our primary markets are India and to a limited extent in the US. We serve clients in financial services, manufacturing, telecommunications, retail, utilities, logistics and other industries.

*Corporate network/data services*

The demand for services / products of our corporate network/data services division has reduced during fiscal 2009 due to the economic slowdown. The second half of the fiscal year witnessed some recovery in the demand for product and services. We have launched our NLD/ILD voice services in August 2008 and this stream has the potential to provide a sizable momentum to our business. The opening of our new data centre in Mumbai (Airoli) has facilitated us to enhance our position in the market. The bandwidth cost has reduced substantially during the period under review on account of market conditions. The reduction in bandwidth prices in India has led us to revise bandwidth rates to our connectivity clients during the fiscal year and this trend is likely to continue in future. On account of prevailing market conditions, we experienced excessive pressure from our Corporate clients for price reduction in the current fiscal. Certain of our Hosting services clients may opt out for total outsourcing arrangements to reduce their operating costs and if this happens, our business may be affected. The reduced IT spending by our corporate clients exists over the last 12 to 18 months and as impacted our revenues.

*Internet access services*

Broadband business has been impacted due to severe competition from the existing operators. The customer base is reducing on account of competition. We have reduced our prices for our products and will continue to reduce further to reflect the prevailing prices.

There are changes in the regulatory environment. The Indian Government has introduced stringent KYC (Know Your Customer) norms on cybercafé users. The overall number of Cybercafés has declined in India due to regulatory norms, higher rental costs for the cybercafés run by the franchisees and the migration of cybercafe users to Home Broadband.

*Online portal services and content offerings*

Advertising revenues continued to decrease due to lower spending by corporate clients and increased competition, despite an improvement in general market conditions.

**Table of Contents**

*Other services-Infrastructure Management Services*

Market opportunity for remote infrastructure management services is growing. We wish to capitalize this trend by evaluating our pricing and engagement models.

*Other services-eLearning Services*

As the business environment continues to be challenging in the international markets, there will be pricing pressures on pricing from customers and increased competition. We have introduced a learning infrastructure proposition on a services model. While the underlying need for eLearning products and services remains strong, there will be cutbacks and pressure on customer learning budgets. Our key customers have experienced contraction in their business due to global economic slowdown and there is positive signs for recovery. To compensate the business loss from such customers, we are adopting a new strategy of expanding our client base through new verticals, segments and geographies, while improving cost efficiency with business process knowledge management.

There are numerous risks and challenges affecting the business. These risks and challenges are discussed in detail in the section entitled *Risk Factors* and elsewhere in this Annual Report on Form 20-F.

As of March 31, 2010, we had 1,885 employees, as compared to approximately 2,279 employees as at March 31, 2009.

**Revenues**

*Corporate network/data services*

Our corporate network/data services revenues primarily include revenue from NLD/ILD services, sale of hardware and software purchased from third party vendors, connectivity services revenue and, to a lesser extent, revenues from the installation of the connectivity link and other ancillary services, such as e-mail, document management and domain registration. Generally, these elements are sold as a package consisting of all or some of the elements. We sell hardware and software purchased from third party vendors to our high value corporate clients. Our connectivity services include IPVPN services, Internet connectivity, last mile connectivity (predominantly through wireless), messaging services, security services and web hosting for businesses. We provide these services for a fixed period of time at a fixed rate regardless of usage, with the rate for the services determined based on the type of service provided, scope of the engagement and the Service Level Agreement, or SLA. Our web hosting service revenues are primarily generated from co-location services and connectivity services. Our security services revenues include revenue from consulting services, vulnerability assessment and penetration testing. We provide NLD (National Long Distance) and ILD (International Long Distance) services and carry voice traffic for Inter-connect Operators. Revenue is recognized based upon metered call units of voice traffic terminated on our network.

*Internet access services*

Internet access services revenues are generated from the Internet connectivity we provide to our retail customers through public access and home access services. Home access services are provided through broadband connectivity, which is provided through arrangements with CTOs. Our public access services are provided through franchised and company-owned cybercafés. Additionally, we generate revenue by providing Internet telephony services, allowing customers to make international telephone calls over the Internet. Our new launches include wireless connectivity to home customers at select cities and to small offices (SOHO).

*Online portal services and content offerings*

Online portal services revenues include advertising revenues from the various channels of our Internet portal, [www.sify.com](http://www.sify.com). We enter into contracts with customers to serve advertisements in the portal, and we are paid on the basis of impressions, click-throughs or leads. Revenues also accrue from commissions earned on products and services rendered through [www.sifymall.com](http://www.sifymall.com), and also from value-added services that are rendered using our mobile telephone short code, 54545.

*Other services*

Other services include revenue from Infrastructure management services and e-learning. We remotely manage customer Infrastructure and network overseas under Infrastructure management services. We develop and upload content for e-learning to facilitate web-based learning in various organizations. We provide e-learning services on time-and-materials or on a fixed-price basis.

**Table of Contents**

In Note 34 to our Consolidated Financial Statements in this Annual Report on Form 20-F, we provide supplemental segment data, which provides separate revenue and operating income (loss) information for each of these business segments. This information is available in Item 18 – Financial Statements of this Annual Report on Form 20-F and is incorporated herein by reference.

**Expenses****Cost of goods sold and services rendered***Corporate network/data services*

Cost of goods sold and services rendered for the corporate network/data services division consists of telecommunications costs necessary to provide services, customer support costs, and cost of goods in respect of communication hardware and security services sold, the cost of providing network operations, the cost of voice termination for voice and VoIP services and other direct costs. Telecommunications costs include the costs of international bandwidth procured from TELCOs and are required for access to the Internet, providing local telephone lines to our points of presence, the costs of using third-party networks pursuant to service agreements, leased line costs and costs towards spectrum fees payable to the Wireless Planning Commission or WPC for provision of spectrum to enable connectivity to be provided on the wireless mode for the last mile. Other costs include cost incurred towards our Annual Maintenance Contract (AMC), the cost of installation in connectivity business, the costs incurred in providing Hosting services, and the Document Management Services (DMS) costs for application services. In addition, the Government of India has imposed an annual license fee of 6% of the adjusted gross revenue generated from IP-VPN services and Voice services under the NLD/ILD license

*Internet access services*

Cost of goods sold and services rendered for the internet access services division consists of primarily recurring telecommunications costs necessary to provide service to subscribers, the cost of goods sold and services rendered include commission paid to franchisees and cable television operators, voice termination charges for VoIP services. The Government of India imposed an annual license fee of 6% of the adjusted gross revenue from the provision of VoIP services.

*Online portal services and content offerings*

Cost of goods sold and services rendered for the online portal services and content offerings includes the cost of procuring and managing content for the websites and cost of ringtones downloaded by using our mobile telephone short code 54545, the cost of procuring merchandise for e-commerce sales and the cost of bandwidth used for online portal services.

*Selling, general and administrative expenses*

Selling, general and administrative expenses consists of salaries and commissions for sales and marketing personnel, salaries and related costs for executive, financial and administrative personnel, sales, marketing, advertising and other brand building costs, travel costs, and occupancy and overhead costs.

*Depreciation and amortization*

We depreciate our tangible assets on a straight-line basis over the useful life of assets, ranging from two to eight years and, in the case of buildings, 28 years.

*Impairment*

The carrying amounts of the Group's non-financial assets, other than inventories and deferred tax assets are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated. For goodwill, the recoverable amount is estimated each year at 31 December.

**Table of Contents**

The recoverable amount of an asset or cash-generating unit is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For the purpose of impairment testing, assets that cannot be tested individually are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or groups of assets (the cash-generating unit). The goodwill acquired in a business combination, for the purpose of impairment testing, is allocated to cash-generating units that are expected to benefit from the synergies of the combination. Corporate assets for the purpose of impairment testing are allocated to the cash generating units on a reasonable and consistent basis.

An impairment loss is recognized if the carrying amount of an asset or its cash-generating unit exceeds its estimated recoverable amount. Impairment losses are recognized in profit or loss. Impairment losses recognized in respect of cash-generating units are allocated first to reduce the carrying amount of any goodwill allocated to the units and then to reduce the carrying amount of the other assets in the unit or group of units on a *pro rata basis*.

*Inventories*

Inventories comprising traded hardware and software are measured at the lower of cost (determined using first-in first-out principle) and net realizable value. Net realizable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and selling expenses.

*Deferred tax*

Deferred tax is recognised using the balance sheet method, providing for temporary differences between the carrying amount of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is not recognised for the following temporary differences: the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss, and differences relating to investments in subsidiaries and associates to the extent that it is probable that they will not reverse in the foreseeable future. In addition, deferred tax is not recognised for taxable temporary differences arising on the initial recognition of goodwill, as the same is not deductible for tax purposes. Deferred tax is measured at the tax rates that are expected to be applied to temporary differences when they reverse, based on the laws that have been enacted or substantively enacted by the reporting date. Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realized simultaneously.

Deferred taxation arising on investments in subsidiaries and associates is recognised except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred taxation arising on the temporary differences arising out of undistributed earnings of the equity method accounted investee is recorded based on the management's intention. If the intention is to realise the undistributed earnings through sale, deferred tax is measured at the capital gains tax rates that are expected to be applied to temporary differences when they reverse. However, when the intention is to realise the undistributed earnings through dividend, the Group's share of the income and expenses of the equity method accounted investee is recorded in the statement of income, after considering any taxes on dividend payable by the equity method accounted investee and no deferred tax is set up in the Group's books as the tax liability is not with the group.

*Stock compensation expense*

A total of 5.73 million equity shares are reserved for issuance under our Associate Stock Option Plans (ASOPs). Our ASOP 2007 was adopted at the Eleventh Annual General Meeting held on September 24, 2007. As of March 31, 2010, we had outstanding an aggregate of 1,078,800, options (net of 93,616 options forfeited by employees) under our ASOP with a weighted average exercise price equal to approximately Rs.149.21 (\$3.31) per equity share. The unamortized stock compensation expense related to these grants amounted to Rs 28.43 million as of March 31, 2010.

**Table of Contents****Results of Operations**

The following table sets forth certain financial information as a percentage of revenues:

	2010	Fiscal	2008
	%	2009	%
		%	%
Revenues	100	100	100
Cost of goods sold and services rendered	61.05	58.64	56.92
Other income/(expense)	1.96	1.44	0.76
Selling, general and administrative expenses	36.99	45.65	40.53
Depreciation and amortization expenses	9.79	8.34	6.57
Impairment loss on intangibles including goodwill	0.70	0.25	
Income from legal settlement	8.36		
Profit /(loss) from operating activities	1.79	(11.19)	(3.26)
Finance income	0.42	1.99	2.69
Finance expenses	(4.38)	(4.08)	(0.96)
Net finance income/(Loss)	(3.96)	(2.09)	1.53
Share of profit of equity accounted investee	1.36	1.04	3.01
Profit before tax	(0.81)	(12.24)	1.48
Income tax (expense)/ benefit	1.21	(1.57)	(1.06)
Net profit/(loss) for the year	0.40	(13.81)	0.42

**Results of year ended March 31, 2010 compared to year ended March 31, 2009**

*Revenues.* We recognized Rs.6,710.19 million (\$148.65 million) in revenues for the year ended March 31, 2010, as compared to Rs.6,162.16 million for the year ended March 31, 2009, representing an increase of Rs.548.02 million (\$12.14 million), or 8.89 %.

The revenues generated by our corporate network/data services businesses increased by Rs.1030.06 million (\$22.82 million), or 23.93 %, from Rs.4,305.21 million for the year ended March 31, 2009 to Rs.5,335.27 million (US\$ 118.19 million) for the year ended March 31, 2010. The increase is attributable to increases in (i) Voice revenues of Rs.615.40 million (\$13.63 million) due to increase in ILD services, (ii) Hosting services revenues of Rs.262.74 million (\$5.82 million) as a result of new contracts for new capacities created. (iii) S I revenues of Rs.448.55 million (\$9.94 million) primarily due to launch SI services comprising of DC Build services, sizing and supply of hardware to customers (iv) Application services revenues of Rs.50.11 million (\$ 1.11 million) due to increase in services like web services, Mail management, and online exams. The above increase is offset by a decrease of (i) connectivity revenues of Rs.316.88 million (\$7.02 million) due to decrease in realization on account of bandwidth price reduction, competition (ii) Digital certification services revenues of Rs.23.86 million (\$0.53 million) due to loss of customers and (iii) other services revenues of Rs.6.01 million (\$0.13 million).

Revenue from Consumer One services comprising of Internet Access services and Online Portal services, has decreased by Rs 460.74 million (\$10.21 million) or 35.29 % from Rs 1,305.51 million for the year ended March 31, 2009 to Rs 844.77 million (\$ 18.71 million) for the year ended March 31, 2010. This is caused by a drop of Rs 414.27 million (\$9.18 million) or 36.72 % in the revenue from our Internet Access services and by Rs.46.47 million (\$1.03 million) or 26.21 % in revenue from Portal services.

Our Internet Access services accounted for Rs.713.93 million (\$15.82 million) of revenues for the year ended March 31, 2010, as compared to Rs. 1,128.20 million for the year ended March 31, 2009, representing a decrease of Rs.414.27 million (\$9.18 million), or 36.72%. Such decrease is primarily on account of (i) decrease of Rs.245.21 million (\$5.43 million) in broadband services revenues due to decrease in subscribers of the high speed Internet access to homes decreased by 35.59 % during the year, from 165,000 as of March 31, 2009 to 106,000 as of March 31, 2010 (ii) decrease of Rs.134.23 million (\$2.97 million) in cybercafé revenues due to closure of active cybercafés caused by unexpected rent increases in the recent years incurred by the franchisees for cybercafe premises, during the course of the year, the number of active cybercafés decreased from 1791 to 1,227 as of March 31, 2010

(iii) decrease of Rs.26.5 million (\$0.59 million) in voice revenues due to price reductions offered to our customers to retain the existing customers and/or attract new customers to combat competition and (iv) decrease of Rs.8.32 million (\$ 0.18 million) from Internet Access other services.

**Table of Contents**

Our Online portal and content offerings division accounted for Rs.130.84 million (\$2.90 million) of revenues for the year ended March 31, 2010, as compared to Rs. 177.31 million for the year ended March 31, 2009, representing a decrease of Rs.46.47 million (\$1.03 million), or 26.21%. This decrease was on account of (i) a drop by Rs.24.70 million (\$0.55 million) caused by a conscious reduction in corporate orders and (ii) a decrease of Rs.23.30 million (\$0.52 million) in revenues from advertisement. The above decrease is partially offset by increase of Rs.1.53 million(\$0.03 million) in revenues from travel services.

Corporate orders operate with small profit margins and large number of orders are required. Due to the slowdown in the economic environment, the margins on some of the orders were becoming unattractive. Management opted out of such orders resulting in lower volumes. The revenue from corporate orders decreased by Rs 24.70 million (\$0.55 million) as compared to the previous year and did not have a material effect on the Company's revenues.

Revenues from our other businesses decreased by Rs.21.29 million (\$0.47 million) to Rs 530.15 million (\$11.74 million) for the year ended March 31, 2010 from Rs 551.44 million or 3.86 % for the year ended March 31, 2009. This is driven by Rs 43.92 million (\$0.97 million) or 17.91 % increase in the revenue from our IMS services and Rs.65.21 million (\$ 1.44 million) or 21.30 % decrease in the revenue from our E-learning services. The increase in IMS services is on account of new customer and increased engagement from the existing customers. The decrease in e learning is on account of deferred decisions on projects by U.S based customers.

*Other income.* Other income was Rs.131.79 million (\$2.92 million) for the year ended March 31, 2010, compared to Rs. 89.10 million for the year ended March 31,2009, representing an increase of Rs.42.69 million (\$0.95 million) or 47.9% mainly on account of increase in income derived from duty credit entitlements under the Served from India Scheme (issued by the Government of India) in respect of the foreign exchange earnings from export of services. Increase in duty credit entitlement is primarily on account of increase in export revenues during the current year as compared to the previous year ended March 31, 2009.

*Income from legal settlement.* During the year, the Company received Rs 561,120 (US\$ 12.43 million) in connection with settlement of legal matters. The said receipt has been recorded as income from legal settlement in the consolidated statement of income during the year ended March 31, 2010.

*Cost of goods sold and services rendered.* Cost of goods sold and services rendered was Rs.4,096.54 million (\$90.57 million) for the year ended March 31, 2010, compared to Rs. 3613.35 million for the year ended March 31, 2009, representing an increase of Rs.483.19 million (\$10.70 million), or 13.37%. This increase was due to (i) a Rs.603.39 million (\$13.37 million) increase in carrier cost and interconnect charges payable to carriers, (ii) a Rs.356.60 million (\$7.90 million) increase in Cost of hardware purchase These increases have been partly offset by a (i) decrease of Rs.265.40 million (\$ 5.88 million) in bandwidth costs, (ii) a Rs.177.74 million (\$3.94million) decrease in revenue share paid to Franchisees, CTO's and TRAI, (iii) a Rs.64.6 million (\$1.43 million) decrease in directly attributable personnel costs to the technology division, and (iv) a increase of Rs.30.57 million (\$ 0.68 million) in other costs.

The cost of goods sold and services rendered by our corporate network / data services increased by Rs. 912.32 million (\$20.21 million) from Rs.2,321.84 million for the year ended March 31,2009 to Rs 3,234.15 million (\$71.65 million) for the year ended March 31, 2010, representing an increase of 39.29 %, on account of (i) increase of Rs.606.50 million (\$13.44 million) in carrier cost and interconnect charges due to increase in volume of minutes, (ii) increase of Rs.378.13 million(\$8.37 million) in the cost of hardware due to increase in System Integration business, (iii) increase of Rs.48.40 million(\$1.07 million) in other direct costs. These increases have been offset by a decrease of (i) Rs. 122.12 million (\$2.70 million) in bandwidth costs due to price reduction. (ii) Rs.15.29 million(\$0.34 million) in the revenue share paid to TRAI (iii) Rs.12.24 million(\$0.27 million) in the revenue share payable to alliance partner on account of reduced engagement.

The cost of goods sold and services rendered by our Internet Access services decreased to Rs.569.12 million for the year ended March 31,2010 (\$12.60 million) from Rs.969.64 million for the year ended March 31, 2009, representing a decrease of Rs.400.83 million(\$8.88 million) or 41.31 %. The decreases is on account of (i) Rs.150.64 million(\$3.34 million) in the cost of revenue share paid to CTOs and franchisees due to reduction in engagement, (ii) Rs.1.85 million(\$0.04 million) in the cost of revenue share payable to TRAI on account of reduction in revenue (iii) Rs.9.18 million(\$0.20 million) in the Voice termination costs due to a drop in the Voice minutes, (v)

Rs.100.13 million (\$2.22 million) on account of appropriate sizing in technology man power, (vi) Rs.131.18 million(\$2.90 million) in bandwidth cost and (vii) Rs.3.69 million (0.08 million) in other costs. (viii) Rs.3.85 million(\$0.09 million) in cost of goods sold.

**Table of Contents**

The cost of goods sold and services rendered by our portal business decreased by Rs.20.62 million(\$0.45 million) from Rs.73.16 million for the year ended March 31, 2009 to Rs.52.69 million (\$1.17 million) for the year ended March 31, 2010, representing a decrease 28.19 %, due to a decrease of (i) Rs.16.20 million(\$0.36 million) in due to reduction in corporate orders, (ii) Rs.6.14 million (\$0.14 million) on account of reduction in cost of payment gateways, (iv) Rs.6.00 million(0.13 million) reduction in bandwidth cost (v) Rs.4.59 million (\$0.10 million) on account of reduction in technology man power. The above decrease is is partially offset by an increase of Rs.3.12 million(\$0.07 million) in the content costs.

The cost of goods sold and services rendered by our e-learning and IMS services decreased by Rs.8.02 million(\$0.18 million) from Rs.248.67 million for the year ended March 31,2009 to Rs.240.65 million(\$5.33 million) for the year ended March 31, 2010, representing a decrease of 3.22 %. The decrease on account of reduction in direct cost of Rs.19.67 million(\$0.44 million) on account of decrease in other direct costs. The above decrease is offset by an increase of Rs.11.65million(\$0.26 million) on account of additional employees are deployed in projects.

*Selling, general and administrative expenses:* Selling, general and administrative expenses were Rs.2,482.41 million (\$54.99 million) for the year ended March 31, 2010, compared to Rs. 2,813.42 million for the year ended March 31, 2009, representing a decrease of Rs. 331.01 million (\$7.33 million) or 11.77%. The decrease is primarily on account of decrease in (a) manpower costs by Rs. 242.52 million(\$45.14 million) due to manpower right sizing (b) facilities and other indirect expenses by Rs. 39.08 million(\$0.86 million) due to optimization and integration of offices (c) marketing and selling expenses by Rs 125.76 million(\$2.78 million) on account of cost effective marketing activities (d) legal and professional expenses by Rs 68.67 million(\$1.52 million) due to reduction in legal costs (e) Rs.234.95 million(\$5.21 million) in other costs including travel, contract payments and other indirect costs. These increase is partially offset by an increase of (i) Operating costs by Rs. 196.42 million(\$4.35 million) on account of an expansion to more locations, New Data Center facilities created in Mumbai (ii) Rs.11.95 million(\$0.26 million) foreign exchange loss on account of rupee depreciation,(iii) Rs.37.64 million (\$0.83 million) in provision for doubtful debts against doubtful debtors.

*Depreciation and Amortization expenses:* Depreciation and amortization expenses were Rs.656.78 million(\$14.55 million) for the year ended March 31,2010, compared to Rs.498.87 million for the year ended March 31,2009, representing an increase of Rs.157.91 million (\$3.50 million), or (31.65%). The increase is attributable to an increase of Rs.151.08 million (\$3.34 million) in depreciation due to addition of fixed assets as well as an increase of Rs.20 million (\$0.46 million) in amortization expense due to addition of system software.

*Impairment loss:* In May 2006, the Group acquired travel business for a consideration of US\$ 2.5 million (Rs. 112,220) in cash along with an option to purchase 125,000 shares of Sify Technologies Limited and certain earn out payments aggregating to USD 0.5 million (Rs. 22,444). The assets acquired consist of system software, customer contracts and goodwill which collectively were considered as a cash generating unit (CGU) by management. The said business operates from India and United States.

During the year ended March 31, 2010, triggered by certain adverse market conditions such as decrease in revenue and increase in the cost of services, and other technological matters, the Group tested the carrying value of the above business for impairment. The recoverable amount of these intangibles including goodwill were determined based on the higher of the value in use (using discounted cash flow approach) and fair value less cost to sell. Fair value less cost to sell, being the higher of the two was determined as the recoverable amount of the CGU. Based on this assessment, the carrying value of the CGU was higher than its recoverable amount and as a result of the above, the group has recorded an impairment of the above intangibles including goodwill amounting to Rs 47,269 (US\$ 987) and adjusted the carrying value of these intangibles accordingly. The above impairment relates to online portal services segment.

Fair value less cost to sell was determined by discounting the future cash flows generated from the continuing use of the unit and was based on the following key assumptions:

Cash flows were projected based on a 5 year business plan. Cash flows were arrived at as an excess of revenue over the related costs for the same period after giving due effect to non-cash charges and finance charges, if applicable, together with changes in working capital.

Management believes that this forecast period is justified due to the long term nature of the travel business.

The projected revenue growth included in the cash flow projections was 10% during the projected period. Management believes that this growth percentage was reasonable and is in line with the average trend of the industry.

The projected increase in cost was 5% for call center cost and 10% for administrative costs.

A pre-tax discount rate of 22.26% was applied in determining the recoverable amount of the cash generating unit.

The discount rate was estimated based on an industry average weighted average cost of capital.

In view of the expected long term market conditions, a terminal year end growth rate of 2% is estimated.

**Table of Contents**

The values assigned to the key assumptions represent management's assessment of future trends in the industry and are based on both external sources and internal sources.

*Net finance income.* The net finance expenses was Rs.265.88 million (\$5.89 million) for the year ended March 31, 2010, compared to an expense of Rs.129.10 million for the year ended March 31, 2009, representing an increase of Rs.136.78 million (\$3.03 million), or (106.00 %). The finance income was Rs.27.99 million (\$0.62 million) for the year ended March 31, 2010, compared to Rs.122.57 million for the year ended March 31, 2008, representing a decrease of Rs.94.58 million (\$2.10 million) caused by closure of bank deposits. The finance expense was Rs.293.87 million (\$6.51 million) for the year ended March 31, 2010, compared to Rs.251.66 million for the year ended March 31, 2009, representing an increase of Rs.42.21 million (\$0.94 million) caused by an increase in interest and bank charges on account of increased borrowings, and renewal / additional fund based working capital facilities and non-fund based limits.

*Share of profit of investment in associate.* The share of profit of investment in associate was Rs.91.14 million (\$2.01 million) for the year ended March 31, 2010, compared to Rs.64.09 million for the year ended March 31, 2009, representing an increase of Rs. 27.05 million (\$0.60 million), or 42%. The increase was due to better financial performance of MF Global Sify Securities India Private Limited during the year.

*Income tax expense.* The income tax benefit was Rs.81.48 million (\$1.81 million) for the year ended March 31, 2010, compared to expense of Rs. 97.05 million for the year ended March 31, 2009 due to merger of Sify Communications Limited (erstwhile subsidiary) with the company.

*Profit.* The net profit for fiscal 2010 is Rs.26.81 million (\$0.59 million) compared to a net loss of Rs.851.63 million for fiscal 2009 and is attributable to (i) an decrease of Rs.331.01 million (\$7.33 million) in selling, general and administrative expenses, (ii) an increase of Rs. 189.99 million (\$4.21 million) in depreciation/amortization/impairment expenses, (iii) a increase of Rs.136.78 million (\$3.03 million) from net finance expenses, (iv) a increase of Rs.27.05 million (\$0.60 million) from the share of profit of equity accounted investee, (v) Income tax credit of Rs 81.48 million (\$1.81 million) due to merger of Sify Communication Limited as against an income tax expenses of Rs. 97.05 million during the previous year and (vi) one time legal settlement of Rs 561.12 million (\$12.43 million).

**Results of year ended March 31, 2009 compared to year ended March 31, 2008**

*Revenues.* We recognized Rs.6,162.16 million in revenues for the year ended March 31, 2009, as compared to Rs.6,006.22 million for the year ended March 31, 2008, representing an increase of Rs.155.94 million or 2.59 %.

The revenues generated by our corporate network/data services businesses increased by Rs.483.10 million or 12.64 %, from Rs.3,822.11 million for the year ended March 31, 2008 to Rs.4,305.21 million for the year ended March 31, 2009. The increase is attributable to increases in (i) Voice services revenues of Rs.247.26 million due to new business, (ii) Hosting services revenues of Rs.137.50 million as a result of acquisition of new contracts and capacities sold from new data center, (iii) connectivity revenues of Rs.119.53 million due to increase in the sales from new and existing customers, including, (iv) Application services revenues of Rs.41.13 million primarily due to increased focus in DMS business, (v) Digital certification services revenues of Rs.14.33 million due to addition of new clients and renewal of repeat orders from the existing clients and (vi) other services revenues of Rs.3.06 million. The above increase is offset by a decrease in revenues from Hardware/Software sales of Rs.79.71 million caused by absence of bundled contract orders during the year under review.

Revenue from Consumer One services comprising of Internet Access services and Online Portal services, has decreased by Rs 450.48 million or 25.62 % from Rs 1,755.99 million for the year ended March 31, 2008 to Rs 1,305.51 million for the year ended March 31, 2009. This is caused by a drop of Rs 417.04 million or 26.99 % in the revenue from our Internet Access services and by Rs.33.44 million or 15.87 % in revenue from Portal services.

Our Internet Access services accounted for Rs.1,128.18 million of revenues for the year ended March 31, 2009, as compared to Rs.1,545.23 million for the year ended March 31, 2008, representing a decrease of Rs.417.04 million or 26.99%. Such decrease is primarily on account of (i) decrease of Rs.163.25 million in broadband services revenues due to decrease in subscribers (ii) decrease of Rs.190.48 million in cybercafe revenues due to closure of active cybercafés caused by unexpected rent increases in the current year incurred by the franchisees for cybercafe premises and economic slow down, (iii) decrease of Rs.49.70 million in voice revenues due to price reductions offered to our customers to retain the existing customers and/or attract new customers to combat competition and (iv) decrease of

Rs.13.61million from Internet Access other services.

**Table of Contents**

During the course of the year, the number of active cybercafés decreased from 2,165 to 1,791 as of March 31, 2009. The subscribers of the high speed Internet access to homes decreased by 24.65 % during the year, from 218,000 as of March 31, 2008 to 165,000 as of March 31, 2009. The cybercafés are owned and operated by the franchisees. The franchisee procures the retail space, invests in furniture, interior decor, personal computers, point of sale signage and employs/trains the staff. The franchisee is responsible for the maintenance of the premises and interface with customers. Sify provides the complete back-end support, including bandwidth, the authentication / usage engine and the billing / collection system. Sify has discretion in establishing prices and determines the service specifications. Sify also reserves the right to make any change, alteration, modification in the services, business exploitation model, revenue generation, models, charges, policies, specifications etc at its sole discretion and the same is binding on the franchisee. Under the terms of the agreement, Sify is required to pay a commission at approximately 70% of the revenue generated by the franchisees from internet usage at cybercafés. The revenue earned from internet usage at cybercafés is recognized based on usage by the customer on a gross basis with the corresponding commission being recorded as an expense. The aforesaid revenue recognition policy is based on the principles set out in IAS 18 Revenue .

Our Online portal and content offerings division accounted for Rs.177.33 million of revenues for the year ended March 31, 2009, as compared to Rs.210.77 million for the year ended March 31, 2008, representing a decrease of Rs.33.44 million or 15.87%. This decrease was on account of (i) a drop by Rs.26.44 million caused by reduction in corporate orders and (ii) a decrease of Rs.7.00 million in revenues from travel services caused by depressed aviation market for air traffic between US and India as well as on account of increased competition from the existing operators. Corporate orders operate with small profit margins and large number of orders are required. Due to the slowdown in the economic environment, the margins on some of the orders were becoming unattractive. Management opted out of such orders resulting in lower volumes. The revenue from corporate orders decreased by Rs 26.44 million as compared to the previous year and did not have a material effect on the Company's revenues.

Revenues from our other businesses increased by Rs.123.33 million from Rs 428.12 million for the year ended March 31, 2008 to Rs 551.45 million or 28.81 % for the year ended March 31, 2009. This is driven by Rs 74.14 million or 43.34 % increase in the revenue from our IMS services and Rs.49.19 million or 19.14 % increase in the revenue from our E-learning services. These increases are attributed to new projects and high volume of the business from the existing customers.

*Other income.* Other income was Rs.89.10 million for the year ended March 31, 2009, compared to Rs.46.15 million for the year ended March 31,2008, representing an increase of Rs.42.95 million or 93.06%. Other income primarily comprises of income derived from duty credit entitlements under the Served from India Scheme (issued by the Government of India) in respect of the foreign exchange earnings from export of services. Increase in duty credit entitlement is primarily on account of increase in export revenues during the current year as compared to the previous year ended March 31, 2008.

*Cost of goods sold and services rendered.* Cost of goods sold and services rendered was Rs.3,613.35 million for the year ended March 31, 2009, compared to Rs. 3,419.12 million for the year ended March 31, 2008, representing an increase of Rs.194.23 million or 5.68%. This increase was due to (i) a Rs.156.78 million increase in bandwidth costs, (ii) a Rs.180.66 million increase in directly attributable personnel costs to the technology, (iii) a Rs.11.06 million increase in revenue share paid to TRAI. These increases have been partly offset by a decrease of Rs.154.27 million in other costs.

The cost of goods sold and services rendered by our corporate network / data services increased by Rs.258.91 million from Rs.2,062.92 million for the year ended March 31,2008 to Rs.2,321.83 million for the year ended March 31, 2009, representing an increase of 12.55 %, on account of (i) increase of Rs.156.92 million in carrier cost and interconnect charges due to increase in volume of business (ii) increase of Rs. 75.50 million in bandwidth costs due to increase in usage, (iii) increase of Rs.126.22 million in the employee cost due to increase in the number of employees deployed for domestic projects,(iv) increase of Rs.16.55 million in the revenue share paid to TRAI,(v) increase of Rs.44.12 million in the cost of software due to proportional increase in the sales of Sify secure, (vi) increase of Rs.11.01 million in the cost of hardware due to proportional increase in the sales of application services, (vii) increase of Rs.10.65 million in the royalty amount paid to Verisign due to increase in business and (viii) increase of Rs.2.75

million in the cost of site development. These increases have been offset by a decrease of (a) Rs. 119.42 million in the cost of hardware purchased for connectivity business due to slump in the business, (b) Rs.32.07 million in the cost of safedox ( a tool to secure data) purchased due to reduced market requirements, (c) Rs.18.51 million in the revenue share paid to Power Grid Corporation of India Limited (PGCIL) due to reduction in the business (d) Rs.2.72 million in the cost of hardware incurred towards hosting business and (e) Rs. 12.09 million from others.

The cost of goods sold and services rendered for our corporate Internet Access services decreased from Rs.1,038.10 million for the year ended March 31,2008 to Rs.969.64 million for the year ended March 31, 2009, representing a decrease of Rs.68.46 million or 6.59 %, due to a decrease of (i) Rs.162.93 million in the cost of revenue share paid to CTOs due to reduction in business from Cable Television Operators (CTOs), (ii) Rs.3.16 million in the cost of revenue share paid to TRAI on account of reduction in the volume of business, (iii) Rs.15.22 million in the line maintenance charges due to reduction in tele-centers for whom Line Maintenance Charges are paid for the connection and maintenance of last mile, (iv) Rs.12.74 million in the Voice termination costs due to a drop in the Voice revenues, and (v) Rs.7.24 million in the revenue share paid to Games business due to drop in Gaming revenue. These decreases have been offset by an increase of (a) Rs.57.43 million in the technology man power resources, (b) Rs.72.31 million in bandwidth cost and (c) Rs.3.09 million in other costs.

**Table of Contents**

The cost of goods sold and services rendered for our portal business decreased by Rs.47.84 million from Rs.121.00 million for the year ended March 31, 2008 to Rs.73.16 million for the year ended March 31, 2009, representing a decrease 39.53 %, due to a decrease of (i) Rs.18.45 million in cost of vouchers sold on account of a drop in corporate orders, (ii) Rs.25.04 million in the content costs due to contents sourced at lower costs from various sources (iii) Rs.0.68 million in the cost of payment gateways due to processing of lesser number of transactions caused by business reduction, (iv) Rs.0.68 million in bandwidth cost due to reduction in business and (v) Rs.2.99 million in man power resources.

The cost of goods sold and services rendered for other services increased by Rs.51.62 million from Rs.197.10 million for the year ended March 31,2008 to Rs.248.72 million for the year ended March 31, 2009, representing an increase 26.16 %, due to increase of (i) Rs.42.39 million in cost of direct associates due to additional employees deployed for project in IMS revenue stream,(ii) Rs.12.31 million in cost of direct associates due to additional employees deployed for e-learning projects. This increase has been impacted by a decrease of Rs.3.08 million in other costs.

*Selling, general and administrative expenses:* Selling, general and administrative expenses were Rs.2,813.42 million for the year ended March 31, 2009, compared to Rs.2,434.72 million for the year ended March 31, 2008, representing an increase of Rs. 378.70 million or 15.55%. The increase is primarily on account of increase in (a) manpower costs by Rs. 178.26 million due to annual wage increases given to the employees (b) facilities and other indirect expenses by Rs. 131.06 million due to increase in number of offices and increase in rent and maintenance charges for the existing offices, (c) Operating costs by Rs. 124.43 million on account of an increase in the size of operations in Network and DC services (d) marketing expenses by Rs 76.49 million on account of enlarged marketing efforts undertaken in connection with brand logo change and (e) Rs.28.74 million in other costs. This increase is partially offset by a reduction of (i) Rs.36.00 million in legal expenses, (ii) Rs.5.67 million in selling expenses, (iii) Rs.23.62 million in contracts payments, (iv) Rs.54.33 million foreign exchange loss on account of covering of forward contracts caused by significant rupee depreciation, (v) Rs.40.65 million in provision for doubtful debts.

*Depreciation and Amortization expenses:* Depreciation and amortization expenses were Rs.498.87 million for the year ended March 31,2009, compared to Rs.394.34 million for the year ended March 31,2008, representing an increase of Rs.104.53 million or (26.50%). The increase is attributable to an increase of Rs.97.00 million in depreciation due to addition of fixed assets as well as an increase of Rs.7.53 million in amortization expense due to addition of system software.

*Impairment loss:* The Company has performed impairment test with respect to goodwill relating to Globe Travels business consequent to which, a Rs. 15.20 million impairment charge was recorded during the year.

*Net finance income.* The net finance loss was Rs.129.09 million for the year ended March 31, 2009, compared to an income of Rs.104.10 million for the year ended March 31, 2008, representing a decrease of Rs.233.19 million or (224.00 %). The finance income was Rs.122.57 million for the year ended March 31, 2009, compared to Rs.161.78 million for the year ended March 31,2008, representing a decrease of Rs.39.21 million caused by a decrease in the interest income on bank deposits on account of closure for such deposits. The finance expense was Rs.251.66 million for the year ended March 31, 2009, compared to Rs.57.68 million for the year ended March 31, 2008, representing an increase of Rs.193.98 million caused by an increase Rs.193.56 million in bank charges or interest on account of increased borrowings, including demand loans against the deposits, fund based working capital facilities and non-fund based limits and a decrease of Rs.0.42 million in interest paid towards finance leases.

*Share of profit of investment in associate.* The share of profit of investment in associate was Rs.64.09 million for the year ended March 31, 2009, compared to Rs.181.12 million for the year ended March 31,2008, representing a decrease of Rs. 117.03 million or 64.61%. The decrease was due to poor financial performance of MF Global Sify Securities India Private Limited caused by sluggish stock market conditions.

*Income tax expense.* The income tax expense was Rs.97.05 million for the year ended March 31, 2009, compared to Rs. 63.97 million for the year ended March 31, 2008. The income tax expense represents the current tax and utilization of deferred tax assets created in respect of the carry forward business loss of Sify Communications Limited (erstwhile subsidiary) relating to previous years. This utilization was due to the taxable profits earned by the erstwhile subsidiary during the year.

**Table of Contents****Foreign Exchange Fluctuations and Forwards**

We enter into foreign exchange derivative contracts to mitigate the risk of changes in foreign exchange rates on cash flows denominated in U.S. dollars. We enter into forward contracts where the counter party is a bank. These contracts generally mature between one to six months. These contracts do not qualify for hedge accounting under IFRS. Foreign exchange contracts are marked to market as at the balance sheet date and recognized in the consolidated income statement.

**Liquidity and capital resources**

The following table summarizes our statements of cash flows for the periods presented:

	<b>2010</b>	<b>2009</b>	<b>2008</b>	<b>2010</b>
	Rs. in 000	Rs. in 000	Rs. in 000	US \$ in 000
Profit / (loss) before tax	26,813	(851,633)	25,446	595
Other adjustments for non-cash items	952,486	856,486	298,076	21,101
Income taxes paid	(164,455)	(108,560)	(168,426)	(3,643)
Net decrease (increase) in working capital	(55,042)	(258,173)	(1,058,940)	(1,221)
Net cash from / (used in) operating activities	759,802	(371,556)	(839,869)	16,832
Net cash from / (used in) investing activities	(896,683)	(1,174,156)	(756,300)	(19,864)
Net cash from / (used in) financing activities	(354,486)	968,797	(585,200)	(7,853)
Effect of exchange rate changes on cash and cash equivalents	(2,934)	945	(98)	(65)
Net increase / (decrease) in cash and cash equivalents	(491,367)	(576,920)	(2,181,369)	(10,885)

Our growth has been financed largely by cash generated from operations and bank borrowings and, to a lesser extent, from the proceeds from the issuance of equity.

As of March 31, 2010, we had a cash and cash equivalents of Rs.(181.58) million (\$4.02 million), including a negative working capital of Rs.30.79 million (\$0.68 million), cash and bank balances of Rs.878.70 million (\$19.47 million), and bank borrowings of Rs.1,402.27 million (\$31.07 million). Based on the projected cash flows, capital infusion by promoters, available lines of credit including fresh sanction of term loan, we will have sufficient resources to meet capital expenditure needs and working capital requirements over the course of the next 12 months. The capital infusion of Rs. 4,000 million (\$ 88.63 million) will take place in tranches over a period as per company's fund requirement. The Company obtained the approval of shareholders for this infusion at its annual general meeting held on September 27, 2010. See note 42 in the notes to the financial statements included with this Annual Report on Form 20-F.

Our principal sources of liquidity are our borrowings from banks. Our cash and cash equivalents comprise of cash and bank deposits. The restricted cash balance Rs.360.91 million (\$ 8 million) primarily represents fixed deposits pledged for availing bank borrowings.

Our external sources of credit include facilities sanctioned to us by Indian banks. We have working capital facilities in the form of short term loans, cash credit and overdraft facilities of an aggregate of Rs. 800 million ( \$ 17.72 million) which has been fully utilized as at March 31, 2010. Further, we were provided non-funded limits of Rs.1350.00 million (\$ 29.91 million) (primarily in the form of bank guarantees and letters of credit) out of which Rs.213.00 million (\$ 4.72 million) remained unutilized as of the reporting date. Our ongoing working capital requirements are significantly affected by the profitability of our operations and we continue to periodically evaluate existing and new sources of liquidity and financing.

We are taking all steps to improve the cash position to meet our currently known requirements at least over the next twelve months. In light of the highly dynamic nature of our business, however, we cannot assure you that our capital requirements and sources will not change significantly in the future.

**Table of Contents**

Net cash generated from operating activities for the year ended March 31, 2010 was Rs.759.80 million (\$16.83 million). This is mainly attributable to one time legal settlement amounting to Rs.561.12 million (\$12.4 million), increase in trade and other receivables by Rs.585.80 million (\$12.98 million), decrease in inventories by Rs.17.60 million (\$0.39 million), increase in other assets by Rs.64.11 million (\$1.42 million), Increase in trade and other payables by Rs.517.48 million (\$11.46 million), decrease in employee benefits by Rs.3.98 million (\$0.88 million) and increase in deferred revenue by Rs 63.72 million (\$1.41 million).

Net cash used in operating activities for the year ended March 31, 2009 was Rs.371.55 million. This is mainly attributable to Increase in trade and other receivables by Rs.314.35 million, increase in inventories by Rs.1.33 million (\$0.02 million), decrease in other assets by Rs.224.62 million, decrease in trade and other payables by Rs.171.26 million, increase in employee benefits by Rs.17.70 million and decrease in deferred revenue by Rs13.55 million.

Net cash used in operating activities during fiscal year 2008 was Rs.839.87 million. This is primarily attributable to increase in trade and other receivables by Rs.678.05 million on account of increase in corporate taxes paid by Rs. 168.43 million, deposit of Rs.550.00 million paid towards Special Economic Zone (SEZ) land and increase in trade and other payables by Rs. 460.21 millions.

Net cash used in investing activities for the year ended March 31, 2010 was Rs.896.68 million (\$19.86 million) primarily on account of purchase of routers, modems, ports, servers, other capital equipments for our ongoing expansion plans. and advance payments towards undersea cable arrangement with EIG.

Net cash used in investing activities for the year ended March 31, 2009 was Rs.1,174.16 million (\$23.05 million) primarily on account of purchase of routers, modems, ports, servers and other capital equipments for 2009 was Rs.1,170.8 million (\$22.98 million).

Net cash used in investing activities during fiscal year 2008 was Rs. 756.30 million, primarily as a result of expenditure on network equipment, servers, base stations and wireless equipments in connection with the expansion of our network of Rs.849.09 million and purchase of intangible assets of software licenses of Rs 30.24 million, partly offset on account of finance income of Rs. 121.16 million.

Net cash used by financing activities for fiscal year 2010 was Rs.354.49 million (\$7.85 million) mainly on account of servicing of borrowings from banks and increase in payment on account of lease financing of capital and other purchases.

Net cash provided by financing activities for fiscal year 2009 was Rs.968.80 million (\$19.01 million) on account of increase in borrowings from banks.

Cash used in financing activities for fiscal year 2008 was Rs.585.2 million, which consisted of net proceeds from issuance of common stock of Rs.116.81 million, and were offset by net repayment of borrowings from bank by Rs. 643.58 million.

During the year ended March 31, 2010, due to recurring losses, the Group tested the carrying value of the long lived assets in accordance with the guidance provided by IAS 36 *Impairment of Assets*. The recoverable amount of group of assets was determined based on the value in use (using discounted cash flow approach). The Group also determined fair value less cost to sell as an additional test to identify any possible impairment charges. In testing for impairment of long lived assets, the Group determined the recoverable value using value-in-use method and fair value less cost to sale as prescribed by IAS 36. The Group estimated value in use based on present value of estimated future cash flows expected to arise from the continuing use of assets. The Group estimated fair value less cost to sale based on net realizable value of assets and also through discounted cash flow method. Valuation of a cash generating unit is judgmental in nature and involves the use of significant estimates and assumptions which the Group believes to be reasonable but that are unpredictable and inherently uncertain and accordingly, actual results may differ from these estimates. These estimates and assumptions include revenue growth rates, risk-adjusted discount rates, future economic and market conditions. Based on this assessment, the recoverable value of the unit exceeded its carrying value.

**Capital expenditure**

We incurred Rs.980 million (\$ 21.71 million) towards capital expenditure for the year ended March 31, 2010. We anticipate incurring further expenditure in the third and fourth quarter of the current fiscal for about Rs. 900 million

mainly on data centers and payment for under sea cable arrangement, This will be funded out of term loan sanctioned by our banker, capital infusion from promoter group and through lease financing by strategic vendors.

**Research and development**

The Company does not have research and development activities and has also not undertaken any sponsored research and development activities.

**Table of Contents****Trends**

The information is set forth under the caption Management's Discussion and Analysis of Financial Condition and Results of Operations included under item 5 Operating and Financial review and Prospects .

**Off-balance sheet arrangements**

We have not entered into any off-balance sheet arrangements as defined by SEC Final Rule 67 (FR-67), Disclosure in Management's Discussion and Analysis about Off-Balance Sheet Arrangements and Aggregate Contractual Obligations .

**Contractual obligations**

Set forth below are our contractual obligations as of March 31, 2010:

Contractual Obligations	Payments due by period (Rs 000s)				More than 5 years
	Total	Less than 1 year	1-3 years	3-5 years	
Long Term Debt Obligations	449,424		396,169	53,255	
Short Term Borrowings	952,846	952,846			
Finance Lease Obligations	201,317	46,086	101,284	53,947	
Non-cancellable Operating Lease obligations	1,608,509	119,871	197,404	210,486	1,080,748
Proposed Lease Obligations	2,423,554	22,850	251,400	269,408	1,879,896
Europe India Gateway Obligations	184,908	184,908			
Purchase Obligations	30,552	30,552			
<b>Total</b>	<b>5,851,110</b>	<b>1,357,113</b>	<b>946,257</b>	<b>587,096</b>	<b>2,960,644</b>

**Recent Accounting Pronouncements****(i) Standards early adopted by the Company**

*IFRS 3 (Revised), Business Combinations*, as amended, is applicable for annual periods beginning on or after July 1, 2009. This standard was early adopted by the Group as at April 1, 2009. Business Combinations consummated after April 1, 2009 will be recorded under this standard. IFRS 3 (Revised) primarily requires the acquisition-related costs to be recognized as period expenses in accordance with the relevant IFRS. Costs incurred to issue debt or equity securities are required to be recognized in accordance with IAS 39. Consideration, after this amendment, will include fair values of all interests previously held by the acquirer. Re-measurement of such interests to fair value would be carried out through net profit in the statement of comprehensive income. Contingent consideration is required to be recognized at fair value even if not deemed probable of payment at the date of acquisition.

IFRS 3 (Revised) provides an explicit option on a transaction-by-transaction basis, to measure any Non-controlling interest (NCI) in the entity acquired at fair value of their proportion of identifiable assets and liabilities or at full fair value. The first method will result in a marginal difference in the measurement of goodwill from the existing IFRS 3; however the second approach will require recording goodwill on NCI as well as on the acquired controlling interest. Upon consummating a business in future, the company is likely to adopt the first method for measuring NCI.

IAS 27, as amended, is applicable for annual periods beginning on or after July 1, 2009. Earlier adoption is permitted provided IFRS 3 (Revised) is also early adopted. This standard was early adopted by the Company as at April 1, 2009. It requires a mandatory adoption of economic entity model which treats all providers of equity capital as shareholders of the entity. Consequently, a partial disposal of interest in a subsidiary in which the parent company retains control does not result in a gain or loss but in an increase or decrease in

equity. Additionally purchase of some or all of the non-controlling interests is treated as treasury transaction and accounted for in equity and a partial disposal of interest in a subsidiary in which the parent company loses control triggers recognition of gain or loss on the entire interest. A gain or loss is recognized on the portion that has been disposed off and a further holding gain is recognized on the interest retained, being the difference between the fair value and carrying value of the interest retained. This Standard requires an entity to attribute their share of net profit / loss and reserves to the non-controlling interests even if this results in the non-controlling interests having a deficit balance. Consistent with the provisions of IFRS 3 (Revised), the Group accounted for its acquisition of 26% non-controlling interest in Sify Communications Limited on June 26, 2009 as an equity transaction. Also refer note 40.

**Table of Contents****(ii) Recently adopted accounting pronouncements**

The Company adopted *IAS 1 (revised), Presentation of Financial Statements*, effective April 1, 2009. The revision aims to improve users' ability to analyze and compare the information given in financial statements. IAS 1 sets overall requirements for the presentation of financial statements, guidelines for their structure and minimum requirements for their content. The revisions include non-mandatory changes in the titles of some of the financial statements to reflect their function more clearly (for example, the balance sheet is renamed as statement of financial position). The revised IAS 1 resulted in consequential amendments to other standards and interpretations. The Group has applied revised *IAS 1 Presentation of Financial Statements (2007)*, which has become effective as of April 1, 2009. As a result, the Group presents in the consolidated statement of changes in equity all owner changes in equity, whereas all non-owner changes in equity are presented in the consolidated statement of comprehensive income. Furthermore, the Group has included two statements to display all items of income and expense recognized during the period i.e., a Statement of Income and a Statement of Comprehensive Income. Comparative information has been re-presented so that it also is in conformity with the revised standard. Since the change in accounting policy only impacts presentation aspects, there is no impact on earnings/ loss per share.

*IFRIC 18 Transfer of assets from customers* defines the treatment for property, plant and equipment transferred by customers to companies or for cash received to be invested in property, plant and equipment that must be used to either connect the customer to a network or to provide the customer with ongoing access to a supply of goods or services or to both. The item of property, plant and equipment is to be initially recognized by the Company at fair value with a corresponding credit to revenue. If an ongoing service is identified as a part of the agreement, the period over which revenue will be recognized for that service would be determined by the terms of the agreement with the customer. If the period is not clearly defined, then revenue should be recognized over a period no longer than the useful life of the transferred asset used to provide the ongoing service. This interpretation is applicable prospectively to transfers of assets from customers received on or after July 1, 2009. The Company has adopted this interpretation prospectively for all assets transferred after July 1, 2009. There has been no impact on the Group's consolidated financial statements as a result of the adoption of this interpretation.

In March 2009, the Amendments to IFRS 7 *Financial Instruments disclosure*, amended certain disclosure requirements in the standard. As a result, entities are required to classify fair value measurements for financial instruments measured at fair value in the statement of financial position, using a three level fair value hierarchy that reflects the significance of inputs used in the measurements. In addition, the amendments enhance disclosure requirements on the nature and extent of liquidity risks to which an entity is exposed. The Amendments to IFRS 7 apply for annual periods beginning on or after January 1, 2009 and provides an exception in the first year of application for providing comparative information.

**(iii) New standards and interpretations not yet adopted**

A number of new standards, amendments to standards and interpretations are not yet effective for the year ended 31 March 2010, and have not been applied in preparing these consolidated financial statements:

**Improvements to IFRS-** In April 2009, the IASB issued *Improvements to IFRSs* a collection of amendments to twelve International Financial Reporting Standards as part of its program of annual improvements to its standards, which is intended to make necessary, but non-urgent, amendments to standards that will not be included as part of another major project. The latest amendments were included in exposure drafts of proposed amendments to IFRS published in October 2007, August 2008, and January 2009. The amendments resulting from this standard mainly have effective dates for annual periods beginning on or after January 1, 2010, although entities are permitted to adopt them earlier. In May 2010 the IASB issued *Improvements to IFRS 2010*, which comprises 11 amendments to 7 standards. Effective dates, early application and transitional requirements are addressed on a standard-by-standard basis. The majority of the amendments will be effective January 1, 2011. The Company is evaluating the impact, these amendments will have on the Group's consolidated financial statements.

**Table of Contents**

In November 2009, the IASB issued IFRS 9, *Financial instruments*, to introduce certain new requirements for classifying and measuring financial assets. IFRS 9 divides all financial assets that are currently in the scope of IAS 39 into two classifications – those measured at amortized cost and those measured at fair value. The standard along with proposed expansion of IFRS 9 for classifying and measuring financial liabilities, de-recognition of financial instruments, impairment, and hedge accounting will be applicable from the year 2013, although entities are permitted to adopt earlier. The Company is evaluating the impact which this new standard will have on the Group's financial statements.

In November 2009, the IASB issued IFRIC 19, *Extinguishing Financial Liabilities with Equity Instruments*; to introduce requirements when an entity renegotiates the terms of a financial liability with its creditor and the creditor agrees to accept the entity's shares and other equity instruments to settle the financial liability fully or partially. This interpretation is effective from annual periods beginning on or after July 1, 2010.

In October 2009, the IASB issued *Classification of Rights Issue – Amendment to IAS 32 Financial Instruments: Presentation* with an effective date of February, 2010.

In November 2009, the IASB revised *IAS 24 Related Party Disclosures* with an effective date of January, 2010.

In November 2009, the IASB issued *Prepayments of a Minimum Funding Requirement – Amendments to IFRIC 14 :IAS19 – the Limit on a Defined Benefit Asset, Minimum Funding Requirement and their Interaction*, with an effective date of January 1, 2011.

**Critical Accounting Policies**

Our accounting policies affecting our financial condition and results of operations are more fully described in Note 3 to our Consolidated Financial Statements included in Item 18 of this Annual Report on Form 20-F. Certain of our accounting policies require the application of judgment by management in selecting appropriate assumptions for calculating financial estimates, which inherently contain some degree of uncertainty. Management bases its estimates on historical experience and various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the reported carrying values of assets and liabilities and the reported amounts of revenues and expenses that may not be readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions.

We believe the following are the critical accounting policies and related judgments and estimates used in the preparation of its Consolidated Financial Statements. Management has discussed the application of these critical accounting estimates with our Board of Directors and Audit Committee.

*Revenue Recognition*

Various streams of revenue are described below:

- Corporate network/data services, which provides Internet, connectivity, security and consulting, hosting, voice and managed service solutions;
- Internet access services, from homes and through cybercafes;
- Online portal services and content offerings; and
- Other services such as development of e-learning software

Revenue from the sale of goods is measured at the fair value of the consideration received or receivable, net of returns, trade discounts and volume rebates. Revenue is recognised when the significant risks and rewards of ownership have been transferred to the buyer, recovery of the consideration is probable, the associated costs and possible return of goods can be estimated reliably, there is no continuing management involvement with the goods, and the amount of revenue can be measured reliably. Transfers of risks and rewards vary depending on the individual terms of the contract of sale.

**Table of Contents**

Revenue from services rendered is recognized in the consolidated income statement in proportion to the stage of completion of the transaction at the reporting date. Revenue is recognized when the following conditions are met:

- the amount of revenue can be measured reliably;
- it is probable that the economic benefits will flow to the seller;
- the stage of completion at the balance sheet date can be measured reliably; and
- the costs incurred, or to be incurred, in respect of the transaction can be measured reliably.

The revenue recognition in respect of the various streams of revenue is described below:

**(i) Corporate network/data services**

Corporate network service revenues primarily include NLD/ILD connectivity services and sale of hardware and software (purchased from third party vendors), and to a lesser extent, installation of a connectivity link, and other ancillary services such as e-mail and domain registration. Generally these elements are sold as a package consisting all or some of the elements. In these cases the Group applies the recognition criteria to the separately identifiable components of a single transaction in order to reflect the substance of the transaction with different revenue allocations for each component. These multiple element arrangements are recognised as separable elements because each element constitutes a separate earnings process, each element has a fair value that is reliable, verifiable and objectively determinable, and the undelivered element is not essential to functionality of the delivered elements. In this arrangement involving delivery of multiple elements, the units of accounting are determined based on whether the delivered items have a value to the customer on a stand alone basis, whether there is objective and reliable evidence of fair value of the undelivered elements and if the arrangement includes a general right of return relative to the delivered item, whether delivery or performance of the undelivered item(s) is considered probable and substantially in the control of the Group. The arrangement consideration is allocated to the units of accounting based on their relative fair values. Revenue on delivered items is recognised when the revenue recognition criteria applicable to that unit of accounting are met.

The Group provides connectivity for a fixed period of time at a fixed rate regardless of usage. Connectivity is the last element that is provided in the case of a bundled contract. The connectivity charges are the same when sold alone or as part of a package. The revenue attributable to connectivity services is recognised ratably over the period of the contract. The hardware and software are standard products that are freely traded in and purchased from the market, have standard specifications and are not otherwise customized for the specific needs of a customer. The software sold by the Group is off-the-shelf software, such as antivirus utilities and firewalls. The fair value for the hardware and software is available from the market. The revenue attributable to hardware/software is recognised on delivery. Trading transactions relating to standard hardware and software and involving arrangement of purchases from suppliers and sales to customers are reported on gross basis or on net basis, by carrying out a fact-specific evaluation of whether or not all significant risks and rewards of ownership or property in the goods are transferred. In circumstances where there is multi element arrangement that includes both hardware/software sales and last mile connectivity services, revenue from sale of hardware/software is recognised only upon completion of the services relating to last mile connectivity. Installation consists of commissioning of the last mile connectivity to the customer premises either through the Group's wireless mode of broadband delivery or through the carrier exchange. However, once commissioned this last mile connectivity can be used by the customer to access any other service provider. When the customer has such last mile connectivity, the Group does not charge any installation fee. Due to the short duration, the revenue attributable to the installation of the link is recognised on completion of the installation work. Revenue from ancillary services such as e-mail and domain registration are recognised over the period such facilities are provided. All revenues are shown exclusive of sales tax and service tax.

Web hosting service revenues primarily include co-location services and connectivity services. On occasions, the Group also sells related hardware/software to its web hosting customers. At all times, such hardware and software belongs to the customer. This hardware as well as software are purchased from outside vendors and are freely traded in the market. The Group treats each element as a separate component of the arrangement which have separate earnings process. The value of the hosting service is determined based on fair value from similar services provided separately by the Group. When hardware and/or software is also included with hosting services and sold as a package, the revenue is allocated to the respective element based on their relative fair values. Revenue from hosting services is

recognised over the period during which the service is provided.

The Group remotely manages the Information Technology infrastructure of global enterprises from India. The contracts are on time and material basis. Revenue in relation to time is measured as the agreed rate per unit of time multiplied by the units of time expended. The element of revenue related to materials is measured in accordance with the terms of the contract.

We provide NLD (National Long Distance) and ILD (International Long Distance) services through company's network. We carry voice traffic, both national and international, using the IP back-bone and delivers voice traffic to Direct Inter-connect Operators. Revenue is recognised based upon metered call units of voice traffic terminated on our network.

**Table of Contents**

During the year ended March 31 2010, we started generating revenues from construction contracts. Contract revenue includes the initial amount agreed in the contract plus any variations in contract work, claims and incentive payments, to the extent that it is probable that they will result in revenue and can be measured reliably. As soon as the outcome of a construction contract can be estimated reliably, contract revenue is recognised in profit or loss in proportion to the stage of completion of the contract. Contract expenses are recognised as incurred unless they create an asset related to future contract activity. The stage of completion is assessed by reference to the cost incurred till date to the total estimated costs. When the outcome of a construction contract cannot be estimated reliably, contract revenue is recognised only to the extent of contract costs incurred that are likely to be recoverable. An expected loss on a contract is recognised immediately in profit or loss.

**(ii) Internet access services**

Internet access services include Internet access at homes and businesses through dial-up or cable operator and internet access through a network of cybercafés. It also includes revenues from Voice over Internet Protocol ( VoIP ) or Internet telephony.

Dial-up Internet access is sold to customers either for a specified number of hours or for an unlimited usage within a specified period of time. Customers purchase user accounts or top-ups that enable them to access the Internet for a specified quantum of usage or for a specified period of time all within a contracted period. The amount received from customers on the sale of these user accounts or top-ups are not refundable. The revenue from sale of user accounts or top-ups is measured based on usage (where access is for a specified quantum of usage) or based on the time of usage (where access is for a specified period of time) by the customer. Any unused hours at the end of the contracted period are recognised as revenue.

VoIP services are mainly provided through Internet Telephony Booths at e-ports (formerly iway s) cybercafés and to a smaller extent through Cable TV operators, (CTOs). The user purchases the packs that enable them to use the Internet telephone facility through CTOs and revenue is recognised on the basis of usage by the customer. The customers use Internet telephony facilities at the iway cybercafés and make the payment to the extent of usage of the facility.

Internet access at homes and businesses through cable networks is provided through a franchised network of cable operators in India. Customers buy user accounts for a specified usage or volume of data transfer or for a specified period of time all within a contracted period. Revenues are recognised on actual usage by customer (where access is for a specified quantum of usage) and based on time (where access is for a specified period of time). Any unused hours at the end of the contracted period are recognised as revenue.

In the case of franchised cybercafé operators, the Group enters into an agreement with the franchisee that establishes the rights and obligations of each party and grants each franchisee a non-exclusive license to operate the cybercafé using the Group s logo, brand and trade names. The cybercafés are owned and operated by the franchisees. The franchisee procures the retail space, invests in furniture, interior decor, PCs, and point of sale signage and employs and trains the franchisee staff. The franchisee is responsible for the maintenance of the premises and interface with customers. The Group provides the complete backend support, including bandwidth, the authentication/usage engine and the billing and collection system.

In the case of franchised cable network operators and franchised cybercafé operators, the Group enters into a standard arrangement with franchisees that provides for the payment to the Company, of an initial non-refundable franchisee fee in consideration for establishing the franchisee relationship and providing certain initial services. The fee covers the following upfront services rendered by the Group:

- conducting a market survey and deciding on the best location for the cybercafé or cable head end;
- installing the broadband receiver equipment on the roof top of the cybercafé or the cable head end and connecting it to one of Sify s broadcasting towers;
- obtaining the regulatory approvals for clearance of the site for wireless transmission at the allotted frequency range;
- installing the wiring from the receiver unit to the individual PCs in the cybercafé or the transmitting equipment in the cable head end;
- assisting in obtaining facilities, including computers and interiors for the cybercafés; and

providing the operations manual with instructions and guidelines for running the cybercafé or distributing Internet access through cable network.

The initial franchisee fee revenue is recognised as revenue when all of the obligations required of the Group has been substantially accomplished or provided. Internet access revenue and Internet telephony revenues are recognised based on usage by the customer.

**Table of Contents****(iii) Online portal services**

The Group enters into contracts with customers to serve advertisements in its portal and the Group is paid on the basis of impressions, click-throughs or leads and in each case the revenue is recognised based on actual impressions/click-throughs/leads delivered. Revenue from advertisements displayed on portals is recognised ratably over the period of contract

In the case of electronic commerce transactions, there are no performance obligations or minimum guarantees. The Group acts in the capacity of an agent rather than as the principal for these transactions, and the revenue recognised on a net basis is the amount of the commission earned by the Group.

In the case of value-added services that are rendered using Sify's mobile telephone short code 54545, are recognised upon delivery of the content/ring tones to the end subscriber and confirmation by the mobile phone service provider.

**(iv) Other services**

The Group provides e-learning software development services to facilitate web-based learning in various organizations. These customized services vary in size from customer to customer and relate to computer based and web based training in accordance with the customer specification. These services include information presentation, structured content delivery, content digitization and simulation based training. These services are generally provided on a fixed price basis. Revenue under such contracts is recognised when the outcome of the transaction can be estimated reliably by reference to the stage of completion of transaction at the reporting date. The stage of completion being determined based on the actual time spent to the total estimated time.

*Accounting Estimates*

While preparing financial statements we make estimates and assumptions that affect the reported amount of assets, liabilities, disclosure of contingent liabilities at the date of financial statements and the reported amount of revenues and expenses for the reporting period.

Our estimate of liability relating to pending litigation is based on currently available facts and our assessment of the probability of an unfavorable outcome. Considering the uncertainties about the ultimate outcome and the amount of losses, we re-assess our estimates as additional information becomes available. Such revisions in our estimates could materially impact our results of operations and our financial position. Management believes that the estimates used in the preparation of the Consolidated Financial Statements are prudent and reasonable. The actual results could differ from these estimates.

*Allowance for accounts receivable*

The receivables primarily constitute dues from corporate connectivity and portals related customers. We maintain allowances for doubtful accounts receivable for estimated losses resulting from the inability of our customers to make contractually agreed payments. We also make allowances for a specific account receivables if the facts and circumstances indicate that such account receivable is unlikely to be collected.

We estimate the amount of uncollectible receivables each period and establish an allowance for uncollectible amounts. The amount of the allowance is based on the age of unpaid amounts, information about the creditworthiness of customers, current economic trends and other relevant information. The assessments reflect management's best assumptions and estimates. Significant management judgment is involved in estimating these factors, and they include inherent uncertainties. Management periodically evaluates and updates the estimates based on the conditions that influence these factors. The variability of these factors depends on a number of conditions, including uncertainty about future events, and thus our accounting estimates may change from period to period. Estimates of uncollectible amounts are revised each period, and changes are recorded in the period they become known.

*Business Combinations, Goodwill and Intangible Assets*

Business combinations are accounted for using IFRS 3 (Revised), Business Combinations. IFRS 3 requires the identifiable intangible assets and contingent consideration to be fair valued in order to ascertain the net fair value of identifiable assets, liabilities and contingent liabilities of the acquiree. Significant estimates are required to be made in determining the value of contingent consideration and intangible assets. These valuation are conducted by independent valuation experts.

**Table of Contents**

Business combinations have been accounted for using the acquisition method under the provisions of IFRS 3(Revised). The cost of acquisition is measured at the fair of the assets transferred, equity instruments issued and liabilities incurred or assumed at the date of acquisition. The cost of acquisition also includes the fair value of any contingent consideration. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured initially at their fair value on the date of acquisition.

Transactions costs that the group incurs in connection with a business combination such as finder's fees, legal fees, due diligence fees, and other professional and consulting fees are expenses as incurred.

We amortize intangible assets on straight line basis over their respective individual estimated useful lives. Our estimates of the useful lives of identified intangible assets are based on a number of factors including the effects of obsolescence, demand, competition, and other economic factors (such as the stability of the industry, and known technological advances), and the level of maintenance expenditures required to obtain the expected future cash flows from the asset.

*Estimated Useful Lives of Property, Plant And Equipment*

In accordance with IAS 16, *Property, Plant and Equipment*, we estimate the useful lives of plant and equipment in order to determine the amount of depreciation expense to be recorded during any reporting period. If technological changes were to occur more rapidly than anticipated or in a different form than anticipated, the useful lives assigned to these assets may need to be shortened, resulting in the recognition of increased depreciation expense in future periods. Likewise, if the anticipated technological or other changes occur more slowly than expected, the useful lives could be extended. This could result in a reduction of depreciation expense in future periods.

*Impairment**Financial assets:*

A financial asset is assessed at each reporting date to determine whether there is any objective evidence that a financial asset or group of financial assets is impaired. A financial asset is considered to be impaired and impairment losses are recognized if objective evidence indicates that one or more events such as a loss event, the significant financial difficulty of the issuer, a breach of contract, the disappearance of an active market, which have had a negative effect on the estimated future cash flows of that asset. The remaining financial assets are assessed collectively in groups that share similar credit risk characteristics.

*Financial assets measured at amortized cost:*

An impairment loss in respect of a financial asset measured at amortised cost is calculated as the difference between its carrying amount, and the present value of the estimated future cash flows discounted at the original effective interest rate.

*Available-for-sale financial assets:*

Significant or prolonged decline in the fair value of the security below its cost and the disappearance of an active trading market for the security are objective evidence that the security is impaired. An impairment loss in respect of an available-for-sale financial asset is calculated by reference to its fair value. The cumulative loss that was recognized in the equity is transferred to the income statement upon impairment.

*Loans and receivables:*

Impairment loss in respect of loans and receivables measured at amortized cost are calculated as the difference between their carrying amount, and the present value of the estimated future cash flows discounted at the original effective interest rate. Such impairment loss is recognized in the income statement.

**Table of Contents***Reversal of impairment loss:*

An impairment loss is reversed if the reversal can be related objectively to an event occurring after the impairment loss was recognized. For financial assets measured at amortised cost and available-for-sale financial assets that are debt securities, the reversal is recognized in profit or loss. For available-for-sale financial assets that are equity securities, the reversal is recognized in other comprehensive income and presented within equity.

*Non-financial assets:*

The carrying amounts of the Group's non-financial assets, other than inventories and deferred tax assets are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated. For goodwill, the recoverable amount is estimated each year at 31 December.

The recoverable amount of an asset or cash-generating unit is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For the purpose of impairment testing, assets that cannot be tested individually are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or groups of assets (the cash-generating unit). The goodwill acquired in a business combination, for the purpose of impairment testing, is allocated to cash-generating units that are expected to benefit from the synergies of the combination. Corporate assets for the purpose of impairment testing are allocated to the cash generating units on a reasonable and consistent basis.

An impairment loss is recognized if the carrying amount of an asset or its cash-generating unit exceeds its estimated recoverable amount. Impairment losses are recognized in profit or loss. Impairment losses recognized in respect of cash-generating units are allocated first to reduce the carrying amount of any goodwill allocated to the units and then to reduce the carrying amount of the other assets in the unit or group of units on a *pro rata basis*.

*Reversal of impairment loss:*

An impairment loss in respect of goodwill is not reversed. In respect of other assets, impairment losses recognized in prior periods are assessed at each reporting date for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment loss had been recognized.

*Income taxes:*

Income tax expense comprises current and deferred tax. Income tax expense is recognized in profit or loss except to the extent that it relates to items recognized directly in equity, in which case it is recognized in other comprehensive income.

Current tax is the expected tax payable on the taxable income for the year, using tax rates enacted or substantively enacted at the reporting date.

Deferred tax is recognized using the balance sheet method, providing for temporary differences between the carrying amount of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is not recognized for the following temporary differences: the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss, and differences relating to investments in subsidiaries and associates to the extent that it is probable that they will not reverse in the foreseeable future. In addition, deferred tax is not recognized for taxable temporary differences arising on the initial recognition of goodwill, as the same is not deductible for tax purposes. Deferred tax is measured at the tax rates that are expected to be applied to temporary differences when they reverse, based on the laws that have been enacted or substantively enacted by the reporting date. Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realized simultaneously.

A deferred tax asset is recognized to the extent that it is probable that future taxable profits will be available against which the temporary difference can be utilized. Deferred tax assets are reviewed at each reporting date and are

reduced to the extent that it is no longer probable that the related tax benefit will be realized.

**Table of Contents**

Deferred taxation arising on investments in subsidiaries and associates is recognised except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred taxation arising on the temporary differences arising out of undistributed earnings of the equity method accounted investee is recorded based on the management's intention. If the intention is to realise the undistributed earnings through sale, deferred tax is measured at the capital gains tax rates that are expected to be applied to temporary differences when they reverse. However, when the intention is to realise the undistributed earnings through dividend, the Group's share of the income and expenses of the equity method accounted investee is recorded in the statement of income, after considering any taxes on dividend payable by the equity method accounted investee and no deferred tax is set up in the Group's books as the tax liability is not with the group.

**Item 6. Directors, Senior Management and Employees****Directors and Executive Officers**

The following table sets forth the name, age and position of each director and senior management executive officer of our Company as of March 31, 2010:

<b>Name</b>	<b>Age</b>	<b>Designation</b>
Raju Vegesna	50	Chairman, CEO and Managing Director
Ananda Raju Vegesna	50	Executive Director
C B Mouli (1)	63	Director, Chairman & Financial Expert of Audit Committee
S K Rao (1) (2) (3)	66	Director
T H Chowdary (2) (3)	78	Director & Chairman of Compensation & Nominating Committees
P S Raju (2)	56	Director
S R Sukumara (1) (2) (3)	65	Director
M P Vijay Kumar	40	Chief Financial Officer
C V S Suri	50	Chief Operating Officer
Pijush Kanti Das	56	President Corporate Affairs
P J Nath	48	Executive President Enterprise Solutions
Natesh Mani	50	President Consumer Infrastructure Business
Baskar R Sayyaparaju	43	President International Business
Aravind Mathur (4)	46	Chief Architect Global Infrastructure Services
Venkata Rao Mallineni	42	Head Portals and Consumer Marketing
Pranesh Babu	44	Chief Technology Officer
C R Rao	50	Vice President Head HR & Administration
David Appasamy (4)	52	Chief Communications Officer
Ajith K N (4)	41	Head HR

(1) Member of the Audit Committee.

(2) Member of the Compensation Committee.

(3) Member of the Nominating Committee.

(4) Resigned as of June 30, 2010.

Raju Vegesna, Chairman, CEO and Managing Director, has been served as a Director of our Company since November 2005. He was appointed as the Chief Executive Officer and Managing Director of the Company effective July 18, 2006. Mr. Vegesna is a Silicon Valley entrepreneur who founded several leading edge technology companies, including Server Works Corporation, acquired by Broadcom in 2001. After that acquisition, and he had a brief stint with Broadcom. He holds a BS in Electrical Engineering from the University of Bangalore and holds an MS in Computer Engineering from Wayne State University, USA, and holds several patents in Microprocessor and Multiprocessor technology. He is also a Director of Server Engines LLC, Nulife Corp, USA., Raju Vegesna Infotech & Industries Private Limited and Server Engines (India) Private Limited.

Mr Ananda Raju Vegesna, brother of Mr Raju Vegesna, Chairman and Managing Director, has served as an Executive Director of our Company since June 2007. He is the Managing Director of M/s Infinity Satcom Universal Private Limited and a Director of M/s Raju Vegesna Infotech & Industries Limited and Server Engines India (Private) Limited.

C.B. Mouli has served as a Director of our Company since July 2005. Mr. Mouli is a member of the Institute of Chartered Accountants of India and also holds a Bachelor of Law Degree. Mr Mouli, a partner of C.B. Mouli & Associates, a Chartered Accountants firm and he is currently the Chairman of the Audit Committee of GVK Jaipur Kishangarh Expressway Limited, an infrastructure Company. He is a Director of Taj GVK Hotels & Resorts Limited, GVK Jaipur Kishangarh Expressway Limited, Ammana Bio Pharma Limited, Ammana Equity Fund Private Limited and ATC Beverages Private Limited.

**Table of Contents**

S.K. Rao has served as a Director of our Company since July 2005. Mr Rao, currently is the Director General, Administrative Staff College of India, Hyderabad. Mr Rao previously worked at the Commonwealth Secretariat in London in various diplomatic capacities. He also acted as the Consultant for the United Nations and represented the Commonwealth Secretariat as an Observer at the meetings of the UN General Assembly. Mr. Rao holds a MA and a Ph.D in Economics from Trinity College, Cambridge, U.K.

T.H. Chowdary has served as a Director of our Company since February 1996. Dr. Chowdary retired as the Chief Executive Officer of Tata Teleservices. He has held key positions in the ITU, Intelsat and other international telecommunications organizations during the course of his career, and was involved in the establishment of the Centre for Telecommunications Management Studies (CTMS) at Hyderabad. Dr. Chowdary is also a director in Softsol India Limited and Tera Software Limited.

P. S. Raju has served as a Director of our Company since February 2006. Mr P S Raju is a member of the Institute of Chartered Accountants of India. Mr Raju is an independent practising Chartered Accountant. He is also a Director of Server Engines (India) Private Limited, Surya Shakti Agro Tech Private Limited and Moven Minerals & Metals Private Limited.

Mr S R Sukumara has served as a Director of our Company since January 2007. Prior to joining the Company, Mr. Sukumara was the Director General of Police with the Indian Police Service and served 36 years in the Police Department. Presently, he is practicing as a Consultant.

M P Vijay Kumar has served as Chief Financial Officer since October 2007 and has over 15 years of experience in corporate audits, financial/management consulting, legal advisory services, management audit and investment banking. He is Chartered Accountant and a Fellow Member of the Institute of Chartered Accountants of India, Fellow Member of the Institute of Company Secretaries of India, Associate member of the Institute of Cost and Works Accountants of India and the Bharathidasan Institute of Management.

service delivery and engineering.

**Table of Contents**

C R Rao has served as Vice President – Head HR & Administration since March 2009. He is a Graduate in Commerce and Law and also holds an MBA. He comes with an overall experience of 21 years with around 16 years of rich experience in Strategic Planning and Operations Management. Prior to joining the Sify, he was with GSA Lufthansa as Vice President, responsible for Tamil Nadu and Andhra Pradesh. His key responsibilities included Strategic Planning, Business Development, Sales and Marketing for the Cargo division.

We believe Infinity Capital Ventures, LP beneficially owned 26.06 % of our equity shares as of March 31, 2010. This shareholder is a party to the Subscription Agreement dated November 10, 2005 with our Company. The Subscription Agreement provides that, among other things, the Company shall appoint Mr Raju Vegesna as the Chairman of the Board of Directors, Infinity Capital shall also nominate another person to the Board of Directors and for so long as Infinity Capital continues to own at least 10% of the Company's outstanding Equity Shares, the Company shall not enter into any agreement pursuant to which it would provide a third party with registration rights for Company securities, without the consent of Infinity Capital. In November 2005, Mr Raju Vegesna, a nominee of Infinity Capital Ventures, LP, was appointed as Chairman of our Board of Directors. In February 2006, the Company also appointed Mr. P S Raju as the second nominee of Infinity Capital to the Board of Directors.

We believe Infinity Satcom Universal Private Limited beneficially owned 27.23% of our equity shares as of March 31, 2010. Mr Ananda Raju Vegesna, Executive Director of the Company and brother of Mr Raju Vegesna, is the Managing Director of Infinity Satcom and beneficially owned majority shares of Infinity Satcom.

**Director Compensation**

Our Articles of Association provide that each of our directors may receive a sitting fee not exceeding the maximum limits prescribed under the provisions of the Indian Companies Act, 1956. Accordingly, our Directors, other than the Chairman and the Managing Director, have been receiving Rs.20,000 for each Board and Committee meeting attended by them, effective October 2005. Mr Raju Vegesna, who is our Chairman, CEO and Managing Director, does not receive any compensation for his service on our Board of Directors. Similarly, Mr Ananda Raju Vegesna, who is employed as our Executive Director, also does not receive any compensation for his service on our Board of Directors. Directors are reimbursed for travel and out-of-pocket expenses in connection with their attendance at Board and Committee meetings. T. H. Chowdary, a Director of our Company, has been receiving Rs.20,000 per month effective February 1, 2004 for the technical services rendered by him to us, after obtaining requisite Governmental permission for the same.

**Officer Compensation**

The following table sets forth all compensation paid by us during the fiscal year ended March 31, 2010 to our executive officers

Name	Summary Compensation Table (Rs. Million)	
	Salary	Bonus
C V S Suri	1.01	
Bhaskar R Sayyaparaju	6.20	
M P Vijay Kumar	6.34	
P J Nath	6.99	
Natesh Mani	3.19	
Pijush Kanti Das	3.40	0.60
Venkat Rao Mallineni	3.52	
Pranesh Babu K	3.35	0.72
C R Rao	3.14	
Arvind Mathur	7.66	
David Appasamy	2.99	0.32
Ajith K N	2.80	0.22

During the fiscal year ended 31March 2010, 30,000 stock options to purchase equity shares were granted to Mr Natesh Mani President Consumer Infrastructure Business. The exercise price of the options granted was Rs.98.24 and the options expire on October 22, 2014.

**Table of Contents**

As per the service contracts entered into with the employees (including executive officers), the Company provides the following retirement benefits: (a) Provident fund contributions and (b) Gratuity.

Provident fund contribution is a defined contribution plan governed by a statute in India. Under this, both employer and employee make monthly contributions (determined in relation to the basic salary of the respective employees) to a fund administered by the Government of India.

Gratuity is a defined benefit retirement plan covering all employees and provides for lump sum payment to employees at retirement or termination (computed based on the respective employees last drawn basic salary and years of employment with the Company). Liability for gratuity is accrued based on an actuarial valuation on an overall Company basis.

The Directors (who are not executive officers) are not entitled for any remuneration including any pension, retirement or similar benefit schemes.

The details of our contribution to provident fund in respect of the executive officers are set out below:

Name	Rs. in million
C V S Suri	0.08
Bhaskar R Sayyaparaju	0.30
M P Vijay Kumar	0.33
P J Nath	0.33
Natesh Mani	0.17
Pijush Kanti Das	0.17
Venkat Rao Mallineni	0.17
Pranesh Babu K	0.15
C R Rao	0.18
Arvind Mathur	0.28
David Appasamy	0.14
Ajith K N	0.13

Gratuity expense is determined at an overall Company level based on an actuarial valuation performed by an independent actuary. Thus, the cost for the year ended March 31, 2010 in respect of gratuity and compensated absences towards executive officers of the Company was not separately determined. Gratuity cost relating to such executive officers is not estimated to be material.

We make bonus payments to employees including executive officers upon satisfactory achievement of the following two performance criteria.

(i) Performance of the Company: Represents bonus payable on achievement of overall revenue and net profit targets for the Company. These performance targets were not achieved for the year ended March 31, 2010 and no bonus was paid under this category.

(ii) Performance of the individual: Represents bonus payable on achievement of the individual's Key Responsibility Areas (KRA) and Key Performance Indicators (KPI). These KRAs and KPIs vary in relation to each employee including executive officers and include both financial and non-financial parameters.

We have provided for Rs.26 million (\$0.58 million) towards bonus payable for the year ended March 31, 2010 to employees including executive officers who have achieved the KRAs and KPIs.

## **Table of Contents**

### **Board Composition**

Our Articles of Association set the minimum number of directors at three and the maximum number of directors at twelve. We currently have seven directors. The Indian Companies Act and our Articles of Association require the following:

- at least two-thirds of our directors shall be subject to re-election by our shareholders; and
- at least one-third of our directors who are subject to re-election shall be up for re-election at each annual meeting of our shareholders.

On July 15, 2005, we appointed Messrs. S.K. Rao and C.B. Mouli as independent Directors of the Board to comply with the applicable Nasdaq rules.

Mr S R Sukumara was appointed as an independent Director effective January 22, 2007. Dr T H Chowdary is also an independent director of the Board.

Each of these Directors (Messrs S.K.Rao, C.B.Mouli, S R Sukumara, T H Chowdary) continue to remain independent in accordance with Nasdaq rules.

Infinity Capital Ventures, LP, acquired the entire holding from Satyam Computer Services. In addition, in terms of the Subscription Agreement dated November 10, 2005 executed by the Company with them, they have acquired an additional 6,720,260 shares of the Company on a private transaction. At the conclusion of this transaction, their ownership in the Company was at 42%. Messrs. Raju Vegesna and P.S. Raju are the nominees of Infinity Capital Ventures, LP. Infinity Capital Ventures, LP's holding of 42% has been reduced to 26.06% consequent to the transfer of shares of 4.00 million shares on a private transaction to Infinity Satcom Universal Limited as well as allotment of 10.53 million shares to Infinity Satcom Universal Private Limited towards purchase consideration on the merger of erstwhile Sify Communication Limited in which Infinity Satcom Private Limited was a minority share holder with Sify Technologies.

The terms of Messrs. C B Mouli and P S Raju expired at our Annual General Meeting held on September 27, 2010 and being eligible, they offered themselves for reappointment. The shareholders have reappointed them for their next tenure.

The Company has service contracts with Mr. Raju Vegesna, Chief Executive Officer and Managing Director and Mr. Ananda Raju Vegesna, Executive Director. The Company does not have any service contract with any other Director of the Board of Directors. The service contracts with Mr. Raju Vegesna and Mr. Ananda Raju Vegesna do not provide for any benefits either during or upon termination of employment

### **Board Committees**

Details relating to Audit, Compensation and Nominating Committees of our board are provided below:

#### **Audit Committee**

Our Audit Committee is comprised of three independent directors, as determined under applicable Nasdaq rules. They are:

- Mr C B Mouli;
- Dr S K Rao; and
- Mr S R Sukumara

The primary objective of the audit committee is to monitor and provide effective supervision of our financial reporting process with a view towards ensuring accurate, timely and proper disclosures and the transparency, integrity and quality of financial reporting. Our audit committee oversees the work carried out in the financial reporting process by our management, including the internal auditors and the independent auditor and reviews the processes and safeguards employed by each. In addition, our audit committee has the responsibility of oversight and supervision over our system of internal control over financial reporting, audit process, and process for monitoring the compliance with related laws and regulations. The audit committee recommends to our Board the appointment of our independent registered auditors and approves the scope of both audit and non-audit services. All members of the Audit Committee meet the independence and majority of them meet financial literacy requirements as defined by applicable Nasdaq and SEC rules.

The Audit Committee held five meetings in person during fiscal 2010.

The Audit Committee has adopted a charter and it is reviewed annually.

**Table of Contents**

**Compensation Committee**

Our Compensation Committee consists entirely of non-executive, independent directors as determined under applicable Nasdaq rules, and consists of:

Dr T H Chowdary;

Dr S K Rao;

Mr S R Sukumara; and

Mr P S Raju

The Compensation Committee of the Board of Directors determines the salaries, benefits and stock option grants for our employees, consultants, directors and other individuals compensated by our Company. The Compensation Committee also administers our compensation plans.

The Compensation Committee held four meetings in person during fiscal 2010.

The Compensation Committee has adopted a charter and reviewed annually.

**Nominating Committee**

The Nominating Committee of the board consists exclusively of the following non-executive, independent directors as determined under applicable Nasdaq rules:

Dr T H Chowdary;

Dr S K Rao; and

Mr S R Sukumara

The purpose of our Nominations Committee is to oversee our nomination process for our top level management and specifically to identify, screen and review individuals qualified to serve as our Executive Directors, Non Executive Directors and Independent Directors consistent with criteria approved by our board and to recommend, for approval by our board, nominees for election at our annual general meeting of shareholders.

No meetings were held during the year 2009-10 as there was no requirement.

The Nominations Committee has adopted a charter.

**Employees**

As of March 31, 2010, we had 1,885 employees, compared with 2,279 as of March 31, 2009. Of our current employees, 134 are administrative, 364 form our sales and marketing staffs, 63 are in product and content development, 1280 are dedicated to technology and technical support, and 44 are in business process and customer care. None of our employees are represented by a union. We believe that our relationship with our employees is good.

**Stock Ownership**

The following table sets forth information with respect to the beneficial ownership of our equity shares as of September 30, 2010 by each director and our senior management executives. Beneficial ownership is determined in accordance with the rules of the SEC and includes voting and investment power with respect to equity shares. Unless otherwise indicated, the persons named in the table have sole voting and sole investment control with respect to all equity shares beneficially owned.

**Table of Contents**

<b>Beneficial Owner</b>	<b>Equity Shares Beneficially Owned</b>	
	<b>Number</b>	<b>Percent</b>
Raju Vegesna *	13,902,860	26.06%
T. H. Chowdary		
C B Mouli		
P S Raju		
S K Rao		
S R Sukumara		
Ananda Raju Vegesna	14,530,000	27.24%

\* In addition to the above, Mr Raju Vegesna beneficially owns 578,191 shares through his Family Trust, as a Co Trustee and has voting power. Including this, Raju Vegesna beneficially holds 27.14% of the issued capital of the Company. M/s T H Chowdary, C B Mouli, P S Raju, S K Rao and S R Sukumara do not hold any shares in the Company.

Other than the above, none of the executive officers of the Company hold any shares in the Company.

**Employee Stock Option Plan**

We have an Associate Stock Option Plan, or ASOP, which provides for the grant of options to employees of our Company. The ASOP 2007 was approved by our Board of Directors and our shareholders in September 2007 and 2,000,000 shares were reserved for issuance under the plan. This was in addition to the earlier ASOP Plans of 2000, 2002 and 2005. A total of 5.73 million equity shares are currently reserved for issuance under our ASOP Plans. As of March 31, 2010, we had outstanding an aggregate of 1,078,800 options (net of 93,636 options forfeited by employees ) under our ASOP Plans with a weighted average exercise price equal to approximately Rs.149.21 (\$3.31) per equity share.

The ASOP Plans are administered by the Compensation Committee of our Board of Directors. On the recommendation of the Compensation Committee, we issue option letters to identified employees, with the right to convert the issued options into our equity shares at the rates indicated in the options. The consideration for transfer of

the options is Rs.1 per option to be paid by the employee before transfer of the options.

An employee holding options may apply for exercise of the options on a date specified therein which is referred to as the conversion date. The options are not transferable by an employee. The options lapse in the event of cessation of employment due to reasons of non-performance or otherwise. The equity shares transferred to the employee after conversion from options is the absolute property of the employee and will be held by the employee.

#### **Item 7. Major Shareholders and Related Party Transactions**

##### **Principal Shareholders**

The following table sets forth information with respect to the beneficial ownership of our equity shares as of September 30, 2010 by each person or group of affiliated persons who is known by us based on our review of public filings to beneficially own 5% or more of our equity shares. The table gives effect to equity shares issuable within sixty days upon the exercise of all options and other rights beneficially owned by the indicated shareholders on that date. Beneficial ownership is determined in accordance with the rules of the SEC and includes voting and investment power with respect to equity shares. Unless otherwise indicated, the persons named in the table have sole voting and sole investment control with respect to all equity shares beneficially owned. The information below is based on a review of filings made by such persons with the SEC.

Mr Raju Vegesna, the Co-Trustee of the Vegesna Family Trust, which is the owner of Infinity Capital Venture Management LLC, which is the general partner of Infinity Capital Ventures, LP, exercise voting control and dispositive power over the equity shares owned by Infinity Capital Ventures, LP. Mr Raju Vegesna, CEO and MD of our Company, is affiliated with Infinity Capital Ventures, LP.

Infinity Satcom Universal Private Limited is owned and controlled by Mr Ananda Raju Vegesna, Executive Director of the Company and the brother of Mr Raju Vegesna, Chairman and Managing Director of the Company. Mr Ananda Raju Vegesna is the Managing Director of the Infinity Satcom Universal Private Limited.

**Table of Contents**

<b>Beneficial Owner</b>	<b>Equity Shares Beneficially owned</b>	
	<b>Number</b>	<b>Percent</b>
Infinity Capital Ventures, LP, 11601 Wilshire Boulevard, Suite 1900, Los Angeles, CA 90025	13,902,860	26.06
Vegesna Family Trust, LP, 11601 Wilshire Boulevard, Suite 1900, Los Angeles, CA, 90025	578,191	1.08
Infinity Satcom Universal Private Limited, Visakhapatnam	14,530,000	27.24

**Details of significant change in the percentage ownership held by the major shareholders:**

<b>Name of the shareholder</b>	<b>2007-08</b>		<b>2008-09</b>		<b>2009-10</b>	
	No. of shares	%	No. of shares	%	No. of shares	%

Vegesna Family Trust, USA	578,191	1.35	578,191	1.35	578,191	1.08
Infinity Satcom Universal Private Limited *					14,530,000	27.24

The Company has not issued any shares having differential voting rights and hence the Company's major shareholders do not have differential voting rights.

**United States Shareholders**

As of March 31, 2010, 38,820,846 of our ADSs were held in the United States and we had approximately 17,108 shareholders in the United States. Each ADS represents one equity share.

**Host country Shareholders**

As on March 31, 2010, 14,530,652 of our equity shares were held in India and we had 21 shareholders of record in India. Each equity share has a par value of Rs.10/- each.

**Control of Registrant**

Based on our review of filings made with the SEC, we believe Infinity Capital Ventures, LP beneficially owned 26.06% of our equity shares as of March 31, 2010. This shareholder is a party to the Subscription Agreement dated November 10, 2005 with our Company. The Subscription Agreement provides that, among other things, the Company shall appoint Mr Raju Vegesna as the Chairman of the Board of Directors, Infinity Capital shall also nominate another person to the Board of Directors and for so long as Infinity Capital continues to own at least 10% of the Company's outstanding Equity Shares, the Company shall not enter into any agreement pursuant to which it would provide a third party with registration rights for Company securities, without the consent of Infinity Capital. In November 2005, Mr Raju Vegesna, a nominee of Infinity Capital Ventures, LP, was appointed as Chairman of our Board of Directors. In February 2006, the Company also appointed Mr. P S Raju as the second nominee of Infinity Capital to the Board of Directors.

Infinity Satcom Universal Private Limited, India also beneficially owned 27.24% of our equity shares as of March 31, 2010. Mr Ananda Raju Vegesna, brother of Mr Raju Vegesna controls Infinity Satcom and serves as the Executive Director of the Company.

These shareholders are presently able to exercise control over many matters requiring approval by our shareholders, including the election of directors and approval of significant corporate transactions. Under Indian law, a simple majority is sufficient to control all shareholder actions except for those items, which require approval by a special resolution. If a special resolution is required, the number of votes cast in favor of the resolution must be not less than three times the number of votes cast against it. Examples of actions that require a special resolution include:

- altering our Articles of Association;
- issuing additional shares of capital stock, except for *pro rata* issuances to existing shareholders;
- commencing any new line of business; and

commencing a liquidation.

**Table of Contents**

Circumstances may arise in which the interests of Infinity Capital Ventures, LP or Infinity Satcom Universal Private Limited or a subsequent purchaser of their shares could conflict with the interest of our other shareholders or holders of our ADSs. These shareholders could prevent or delay a change in control of our Company even if a transaction of that sort would be beneficial to our other shareholders, including the holders of our ADSs.

On October 30, 2010, we consummated the issuance and sale of 125,000,000 of our equity shares in a private placement with our promoter group, including an entity affiliated with our Chairman and Chief Executive Officer, Mr Raju Vegesna. See note 42 in the notes to the financial statements in this Annual Report on Form 20-F.

**Forfeiture of equity shares issued in a private placement**

During the year ended March 31, 2008, Sify proposed a scheme of amalgamation to merge Sify Communications Limited (erstwhile subsidiary) with the Company and made applications to the appropriate authorities in India for approval of the proposed scheme of amalgamation with a to take over the IP-VPN services from Sify Communications Limited (erstwhile subsidiary) upon the consummation of the merger. Under the provisions of the local telecom regulations, a Company engaged in the business of providing IP-VPN services was required to maintain Indian shareholding at least 26% of the total paid up share capital of the Company. In order to maintain the Indian shareholding at 26% in Sify consequent to the approval of the proposed scheme of amalgamation, Sify and Infinity Satcom Universal, an Indian entity (the Purchaser) entered into a Subscription Agreement (effective March 24, 2008), whereby the Company agreed to sell, and Infinity agreed to purchase, 12,817,000 equity shares of the Company (herein after referred to as the Share Purchase ), at a per share purchase price of USD \$4.46/ per share (referred to as the Purchased Shares ), equivalent to Rs. 175/- per share in Indian Rupees.

In connection with the private placement of shares to Infinity Satcom Universal, the independent directors of the Board of the Directors waived the provision of the Standstill Agreement dated November 10, 2005 prohibiting Infinity Capital Ventures, Raju Vegesna and any Affiliate from acquiring additional shares of the Company. Each of Messrs. Raju Vegesna and Ananda Raju Vegesna abstained from voting on the waiver.

The Company received a sum of Rs.112,149 (comprising of Rs.12,817 towards face value and Rs.99,332 towards securities premium) and called up a sum of Rs.448,595 (comprising of Rs.25,634 towards face value and Rs.422,961 towards securities premium). Subsequent to fiscal 2008, the Company withdrew its applications made to appropriate authorities for the approval of the proposed scheme of amalgamation with Sify Communications Limited (erstwhile subsidiary). Consequent upon the withdrawal of the merger, Infinity Satcom Universal communicated to Sify that they would not contribute to calls already made and any balance monies which would become payable under the Subscription Agreement. Hence, the Board of Directors forfeited the shares allotted and the monies collected (Rs. 112,149 including sums towards capital and premium) at the meeting held on August 29,2008.

**Sale of shares in a private transaction**

Pursuant to a Share Purchase Agreement dated May 31, 2009 between Infinity Capital Venture Management and Infinity Satcom Universal Private Limited, a Company owned and controlled by Ananda Raju Vegesna, Executive Director of the Company and brother of Raju Vegesna, CEO & MD of the Company, Raju Vegesna has sold 4,000,000 Equity Shares of Rs.10/- each of the Company to Infinity Satcom for a consideration of USD 3,000,000 in a private transaction.

**Merger of Sify Communications Limited with Sify Technologies Limited**

In November 2008, the Board of Directors of Sify Technologies Limited and Sify Communications limited decided to merge Sify Communications with Sify Technologies in view of the benefits accruing due to synergy of combined operations, availing of tax benefits, maximizing the utilisation of the infrastructural facilities, human, financial and other resources etc. Based on a petition for the Scheme of Amalgamation filed with the High Court of Madras, India, the Court has approved the Scheme vide its order dated 26<sup>th</sup> June, 2009. Consequent upon the consummation of merger, the Company has taken over the assets and liabilities of Sify Communications (erstwhile subsidiary) and Sify Communications ceased to exist and got dissolved without winding up.

As per the Scheme, Sify Technologies has issued and allotted 10,530,000 Equity Shares of Rs.10/- each to Infinity Satcom, the only outside shareholder, towards the consideration for the assets and liabilities taken over by the Company.

**Table of Contents**

**Issuance of Equity Shares on private placement:**

On October 30, 2010, we consummated the issuance and sale of 125,000,000 of our equity shares in a private placement with our promoter group, including an entity affiliated with our Chairman and Chief Executive Officer, Mr Raju Vegesna. See note 42 in the notes to the financial statements in this Annual Report on Form 20-F.

The proceeds from the proposed issue will be utilised for working capital, ongoing capital expenditure and future expansion plans of the Company.

**Related Party Transactions**

The related parties where control / significant influence exists are subsidiaries and associates. Key management personnel are those persons having authority and responsibility for planning, directing and controlling the activities of the entity, directly or indirectly, including any director whether executive or otherwise.

In addition to the transactions described above regarding Mr. Raju Vegesna and Mr. Ananda Raju Vegesna, we engaged in the following transaction with an entity affiliated with Mr. Raju Vegesna.

VALS Developers Private Limited ( VALS ) is owned and controlled by Raju Vegesna Infotech & Industries Private Limited, in which Mr. Raju Vegesna, our principal share holder and Chief Executive Officer, is holding 94.66% equity in his personal capacity. During the year ended March 31, 2009, Sify entered into a memorandum of understanding with VALS Developers Private Limited to obtain land and building which is in the process of being constructed on a long term lease. The lease agreement, when final and executed, is expected to have an initial non-cancellable term of 5 years, with a further option for Sify to renew or cancel the lease for the incremental five year terms. In connection with this memorandum of understanding, Sify has paid a security deposit of Rs.125,700 and advance rental of Rs.157,125 to VALS. The security deposit will be refunded at the end of lease term and the advance rental would be adjusted over 15 months from the commencement of lease term. It is customary in India that whenever a premises is taken up on lease for commercial purpose, a rental advance is paid in multiple months of rent (e.g.) 10 months of rent, which shall be refunded at the time of vacating the premises without any interest.

The Company has entered into a lease agreement with Ms Radhika Vegesna, Daughter of Mr Anand Raju Vegesna, Executive Director of the company, to lease the premises owned by her for a period of three years effective June 1, 2010 on a rent of Rs.255,760 per month and payment of refundable security deposit of Rs.2,557,600. This arrangement will be automatically renewed for a further period of two blocks of three years with all the terms remaining unchanged.

**Loans to employees**

We provide salary advances to our employees in India who are not executive officers or directors. The annual rate of interest for these loans is 0 %. As of March 31, 2010, there were no loan outstanding from any employees.

**Item 8. Financial Information**

**Financial Statements**

We have elected to provide financial statements pursuant to Item 18 of Form 20-F. No significant change has occurred since the date of our annual financial statements for fiscal 2009.

**Table of Contents****Legal Proceedings**

a) The Group and certain of its officers and directors are named as defendants in a securities class action lawsuit filed in the United States District Court for the Southern District of New York. This action, which is captioned *In re Satyam Infoway Ltd. Initial Public Offering Securities Litigation*, also names several of the underwriters involved in Sify's initial public offering of American Depositary Shares as defendants. This class action is brought on behalf of a purported class of purchasers of Sify's ADSs from the time of Sify's Initial Public Offering (IPO) in October 1999 through December 2000. The central allegation in this action is that the underwriters in Sify's IPO solicited and received undisclosed commissions from, and entered into undisclosed arrangements with, certain investors who purchased Sify's ADSs in the IPO and the aftermarket. The complaint also alleges that Sify violated the United States Federal Securities laws by failing to disclose in the IPO prospectus that the underwriters had engaged in these allegedly undisclosed arrangements. More than 300 issuers have been named in similar lawsuits.

In July 2002, an omnibus motion to dismiss all complaints against issuers and individual defendants affiliated with issuers was filed by the entire group of issuer defendants in these similar actions. In October 2002, the cases against the Company's executive officers who were named as defendants in this action were dismissed without prejudice. In February 2003, the court in this action issued its decision on defendants' omnibus motion to dismiss. This decision denied the motion to dismiss the Section 11 claim as to the Company and virtually all of the other issuer defendants. The decision also denied the motion to dismiss the Section 10(b) claim as to numerous issuer defendants, including the Company. On June 26, 2003, the plaintiffs in the consolidated IPO class action lawsuits currently pending against Sify and over 300 other issuers who went public between 1998 and 2000, announced a proposed settlement with Sify and the other issuer defendants. The proposed settlement provided that the insurers of all settling issuers would guarantee that the plaintiffs recover \$1 billion from non-settling defendants, including the investment banks who acted as underwriters in those offerings. In the event that the plaintiffs did not recover \$1 billion, the insurers for the settling issuers would make up the difference. This proposed settlement was terminated on June 25, 2007, following the ruling by the United States Court of Appeals for the Second Circuit on December 5, 2006, reversing the District Court's granting of class certification.

On August 14, 2007, the plaintiffs filed Amended Master Allegations. On September 27, 2007, the Plaintiffs filed a Motion for Class Certification. Defendants filed a Motion to Dismiss the focus cases on November 9, 2007. On March 26, 2008, the Court ruled on the Motion to Dismiss, holding that the plaintiffs had adequately pleaded their Section 10(b) claims against the Issuer Defendants and the Underwriter Defendants in the focus cases. As to the Section 11 claim, the Court dismissed the claims brought by those plaintiffs who sold their securities for a price in excess of the initial offering price, on the grounds that they could not show cognizable damages, and by those who purchased outside the previously certified class period, on the grounds that those claims were time barred. This ruling, while not binding on the Company's case, provides guidance to all of the parties involved in this litigation. On October 2, 2008, plaintiffs requested that the class certification motion in the focus cases be withdrawn without prejudice. On October 10, 2008, the Court signed an order granting that request. On April 2, 2009, the parties lodged with the Court a motion for preliminary approval of a proposed settlement between all parties, including the Company and its former officers and directors. The proposed settlement provides the plaintiffs with \$586 million in recoveries from all defendants. Under the proposed settlement, the Issuer Defendants collectively would be responsible for \$100 million, which would be paid by the Issuers' insurers, on behalf of the Issuer Defendants and their officers and directors.

Accordingly, any direct financial impact of the proposed settlement is expected to be borne by the Company's insurers. On June 12, 2009, the Federal District Court granted preliminary approval of the proposed settlement. On October 6, 2009, the District Court issued an order granting final approval of the settlement. Subsequent to the final approval of Settlement agreement by the District court, there are several notices of appeal filed. Most were filed by the same parties that objected to the settlement in front of the District Court. These will likely be consolidated into a single appeal and briefing schedule will be provided shortly. Any direct financial impact of the preliminary approved settlement is expected to be borne by the Company's insurers. The Company believes, the maximum exposure under this settlement is approximately US\$ 338,983, an amount which the Company believes is fully recoverable from the Company's insurer.

(b) During the year,

On October 12, 2009, Department of Telecommunications ( DOT ) raised a demand on Sify Technologies for INR 14 million after correcting the arithmetical error in the Assessment letter issued by the DoT.

On February 26, 2010 DOT raised a demand on Sify Communications (erstwhile subsidiary merged with Sify Technologies Limited) for INR 26 million.

## **Table of Contents**

These demands were primarily alleged that Sify has not paid license fee on the following;

Certain items of income have been considered by DOT as licensed activities for payment of licensee fee as the information was not available to DOT.

Certain items like other income, interest on deposits, gain on foreign exchange fluctuation, profit on sale of assets, provision written back has been considered by DOT as income eligible for licensed activities as against the Company's claim that they are not liable for license fee.

The Company has responded to the above said demand notices stating that the above demands are not tenable as the demands were not in accordance with the Telecom Disputes Settlement & Appellate Tribunal ( TDSAT ) Order which has clarified in its Order that the items of income which are liable for license fee and items of income on which license fees are not liable to be paid. However the TDSAT Order has been challenged in Supreme Court by DoT and Associations of service providers and finality would be arrived only after the decision of the Court. The Company currently pays license fee in accordance with the TDSAT Order and Sify believes that it has adequate legal defenses for these demands and the ultimate outcome of these actions will not have a material adverse effect on Sify.

(ii) During the year, in November 2009, the Company received a demand notice pertaining to the allocation of spectrum in the 3.3-3.4 GHz frequency, from DoT, demanding INR 345 million towards spectrum charges payable from the date of issue of allocation letter for 170 Base Stations. As per the notice, in case no payment is received within 15 days from the date of issue of the notice, then it would be presumed that the Company is no longer interested for the frequency assignments in 3.3-3.4 GHz band.

Whilst the Company received allotment letter for Spectrum in *3.3 GHz band (3303.5/3353.5 MHz)* (Total 12 MHz) the Company had neither started any operations in this frequency band nor had applied for any Operating License from DoT/ Wireless Planning Commission (WPC). Sify believes that the obligation to make payment will arise only after obtaining the operating license from DoT/WPC. Sify also believes that it has adequate legal defenses for these demands, as the Company has not yet obtained any operative license, hence such demand is not tenable. Nevertheless, the Company has as a commitment to hold and use the spectrum in the above band has paid INR 11.56 million towards 40 Base Stations and has surrendered the remaining 130 Base Stations. The Company believes that the ultimate outcome of these actions will not have a material adverse effect on Sify.

c) The Group is party to additional legal actions arising in the ordinary course of business. Based on the available information, as at March 31, 2010, Sify believes that it has adequate legal defences for these actions and that the ultimate outcome of these actions will not have a material adverse effect on Sify. However in the event of adverse judgement in all these cases, the maximum financial exposure would be Rs 9,051 (March 31, 2009: Rs 9,200)

### **Dividends**

We have not declared or paid any cash dividends on our equity shares since inception and do not expect to pay any cash dividends for the foreseeable future. We currently intend to retain future earnings, if any, to finance the expansion of our business. Investors seeking cash dividends should not purchase our ADSs.

Under Indian law, a corporation may pay dividends upon a recommendation by its Board of Directors and approval by a majority of its shareholders. Any future cash dividends on our equity shares represented by ADSs will be paid to the depository in rupees and will generally be converted into dollars by the depository and distributed to holders of ADSs, net of the depository's fees and expenses.

### **Item 9. The Offer and Listing**

#### **Trading Markets**

There is no public market for our equity shares in India, the United States or any other market. Our ADSs evidenced by American Depository Receipts, or ADRs, are traded in the United States only on the Nasdaq Global Market. Each ADS represents one equity share. The ADRs evidencing ADSs were issued by our depository, Citibank, N.A., pursuant to a Deposit Agreement.

**Table of Contents****Price History**

Our ADSs commenced trading on the Nasdaq Market on October 19, 1999. The tables below set forth, for the periods indicated, high and low trading prices for our ADSs in United States dollars:

***Prior Fiscal Years***

<b>Fiscal year ended</b>	<b>High \$</b>	<b>Low \$</b>
March 31, 2010	1.76	1.59
March 31, 2009	5.30	0.42
March 31, 2008	10.47	4.00
March 31, 2007	14.78	7.43
March 31, 2006	14.58	3.81

***Quarters of Prior Fiscal Years***

<b>Fiscal year ended March 31, 2009</b>	<b>High \$</b>	<b>Low \$</b>
First Quarter	5.41	3.73
Second Quarter	3.89	1.60
Third Quarter	2.05	0.42
Fourth Quarter	1.82	0.48

<b>Fiscal year ended March 31, 2010</b>	<b>High \$</b>	<b>Low \$</b>
First Quarter	1.74	1.66
Second Quarter	2.26	2.17
Third Quarter	1.75	1.70
Fourth Quarter	1.76	1.59

***Most recent six months***

<b>Month</b>	<b>High Rs.</b>	<b>Low Rs.</b>

July 2010	1.50	1.30
June 2010	1.35	1.30
May 2010	1.44	1.38
April 2010	1.69	1.66
March 2010	1.76	1.59

**Item 10. Additional Information**

Our authorized share capital is Rs. 610,000,000 shares, divided into 61,000,000 Equity Shares, having a par value Rs.10 per share. As of March 31, 2010, 53,351,498 Equity Shares were issued, outstanding and fully paid, compared to 42,820,082 Equity Shares as of March 31, 2009. During the fiscal year ended March 31, 2010, the Company had issued 10,530,000 equity shares, par value Rs.10 per share to Infinity Satcom Universal Private Limited towards the consideration for the assets and liabilities taken over by the Company consequent to the merger of Sify Communications Limited with the Company and 1,416 equity shares, par value Rs.10 per share to an employee in respect of the exercise of the grants under Associate Stock Option Plan.

The equity shares are our only class of share capital. Some of the share capital is represented by American Depository Shares issued by our Company in accordance with applicable laws and regulations. Our Articles of Association and

the Indian Companies Act permit us to issue classes of securities in addition to the equity shares. For the purposes of this annual report, shareholder means a shareholder who is registered as a member in the register of members of our Company. The term shareholders and ADSs holders have the same meaning in this annual report since the Indian Companies Act only defines a shareholder.

**Table of Contents**

A total of 5.73 million equity shares are reserved for issuance under our Associate Stock Option Plans (ASOPs). As of March 31, 2010, we had outstanding an aggregate of 1,078,800, options (net of 93,616 options forfeited by employees) under our ASOP with a weighted average exercise price equal to approximately Rs.149.21 (\$3.31) per equity share. The unamortized stock compensation expense related to these grants amounted to Rs 28.43 million as of March 31, 2010.

During the fiscal year ended March 31, 2004, Venture Tech, who had subscribed for the shares of our Company in terms of an Investor Rights Agreement, sold 2,017,641 shares reducing their holding from 15.9% to 10.1% and SAIF sold 4,750,000 shares reducing their holding from 21.6% to 8%.

During the fiscal year ended March 31, 2005, Venture Tech sold an additional 783,326 shares reducing their holding from 10.1% to 7.7% and SAIF sold an additional 800,000 shares reducing their holding from 8% to 5.68%.

At the Extraordinary General Meeting of our shareholders held on December 23, 2005, the shareholders had approved by a Special Resolution the issue and allotment of 4.97 million equity shares of the par value of Rs.10/- per share at such price as may be determined to the public in India as the initial public offer to comply with the statutory requirement of domestic listing of the shares of our Company, as and when announced by the Government of India.

During the fiscal year ended March 31, 2006, Venture Tech sold the remaining 2,750,000 shares of our Company and SAIF sold the remaining 2,008,140 shares of our Company. Satyam Computer Services had divested their entire holding of 11,182,600 shares in the Company to Infinity Capital Ventures, LP through a sponsored ADS programme arranged by us. Further, Infinity Capital, pursuant to the Subscription Agreement dated November 10, 2005 acquired another 6,720,260 shares of the Company in a private transaction. On conclusion of this transaction, the issued and outstanding share capital of our Company was 42,389,514 equity shares, with a par value of Rs.10/- per share.

During the fiscal year ended March 31, 2008, Infinity Satcom Universal Private Limited has entered into a Subscription Agreement for the subscription of 12,817,000 additional equity shares of the Company with par value of Rs.10/- per share at a premium of Rs 165/- per share.

On March 24, 2008, the Company received a sum of Rs 112.14 million (comprising of Rs 12.81 towards face value and Rs 99.33 million towards securities premium / share premium). Subsequently, Infinity Satcom Universal communicated to the Company vide their letter dated August 27, 2008 that consequent to the merger petition of Sify Communications Limited amalgamating with Sify Technologies Limited has been withdrawn from the High Court of Madras, that they would focus their attention on the business of Sify Communication Limited and hence shall not contribute the balance money towards the subscription of 12,817,000 Equity Shares on call. On August 29, 2008, the Board of Directors, forfeited the shares allotted and the application monies collected (Rs. 112.14 million including sums towards capital and premium).

Pursuant to a Share Purchase Agreement dated May 31, 2009 between Raju Vegesna and Infinity Satcom Universal Private Limited, a Company owned and controlled by Ananda Raju Vegesna, Executive Director of the Company and brother of Raju Vegesna, CEO & MD of the Company, Raju Vegesna has sold 4,000,000 Equity Shares of Rs.10/- each of the Company to Infinity Satcom for a consideration of USD 3,000,000 in a private transaction.

In November 2008, the Board of Directors of Sify Technologies Limited and Sify Communications limited decided to merge Sify Communications with Sify Technologies. Based on a petition for the Scheme of Amalgamation filed with the High Court of Madras, India, the Court has approved the Scheme vide its order dated June 26, 2009. Consequent upon the consummation of merger, the Company has taken over the assets and liabilities of Sify Communications (erstwhile subsidiary) and has issued and allotted 10,530,000 Equity Shares of Rs.10/- each to Infinity Satcom, the only outside shareholder, towards the consideration for the assets and liabilities taken over by the Company.

**Memorandum and Articles of Association**

Set forth below is the material information concerning our share capital and a brief summary of the material provisions of our Articles of Association, Memorandum of Association and the Indian Companies Act, all as currently in effect. The following description of our equity shares and the material provisions of our Articles of Association and Memorandum of Association does not purport to be complete and is qualified in its entirety by our Articles of Association and Memorandum of Association that are incorporated by reference to this Annual Report on Form 20-F.

**Table of Contents**

Our Articles of Association provide that the minimum number of directors shall be 3 and the maximum number of directors shall be 12. Currently, we have 7 directors. Our Articles of Association provide that at least two-thirds of our directors shall be subject to re-election by our shareholders; and, at least one-third of our directors who are subject to re-election shall be up for re-election at each Annual General Meeting of the shareholders.

Our Articles of Association do not require that our directors have to hold shares of our Company in order to serve on our board of directors.

Our Articles of Association provide that any director who has a personal interest in a transaction must disclose such interest, must abstain from voting on such a transaction and may not be counted for the purposes of determining whether a quorum is present at the meeting. Such director's interest in any such transaction shall be reported at the next meeting of shareholders. The remuneration payable to our directors may be fixed by the board of directors in accordance with provisions prescribed by the Government of India. Our Articles of Association provide that our board of directors may generally borrow or secure the payment of any sum of money for our business purposes, provided, however, where any amounts are to be borrowed, that when combined with any already outstanding debt, exceed the aggregate of our paid-up capital and free reserves, we cannot borrow such amounts without the consent of our shareholders.

**Objectives of Memorandum of Association**

The following is a summary of our Objects as set forth in Section 3 of our Memorandum of Association:

1. To develop and provide Internet service, Internet Telephony, Infrastructure based services, Virtual Private Network and other related data, voice and video services, wide area communication network, value added services on the network, lease or other transfers of network, software, peripherals and related products, and to provide marketing services.

merchandise, software, data information etc., in India and abroad.

**Table of Contents**

*Board of Directors*

In terms of the provisions of the Articles of Association of the Company and the Indian Companies Act, 1956:

- (a) no director of the Company can vote on a proposal, arrangement or contract in which he is materially interested;
- (b) the directors of the Company cannot vote on a proposal in the absence of an independent quorum for compensation to themselves or their body;
- (c) each of our directors is entitled to receive a sitting fee not exceeding Rs.20,000 for every meeting of the Board of Directors and each meeting of a Committee of the Board of Directors, as well as all traveling and out-of-pocket expenses incurred in attending such meetings;
- (d) the directors are empowered to borrow moneys through board meetings up to the prescribed limit and beyond that with the approval of the shareholders through a General Meeting;
- (e) retirement of directors are determined by rotation and not based on age limit; and
- (f) no director is required to hold any qualification shares.

**For additional information, please see Item 6. Director, Senior Management and Employees - Board Composition, -Board Committees and -Director Compensation, and -Officer Compensation of this Annual Report on Form 20-F.**

*Dividends*

Under the Indian Companies Act, unless our Board of Directors recommends the payment of a dividend which is then declared by our shareholders in a general meeting, we may not declare a dividend. However, the board is not obliged to recommend a dividend. Similarly, under our Articles of Association and the Indian Companies Act, although the shareholders may, at the annual general meeting, approve a dividend in an amount less than that recommended by the Board of Directors, they cannot increase the amount of the dividend. In India, dividends generally are declared as a percentage of the par value of a Company's equity shares. The dividend recommended by the Board of Directors, and thereafter declared by the shareholders in general meeting and subject to the limitations described above, is required to be distributed and paid to shareholders in proportion to the paid up value of their shares within 30 days of the declaration by the shareholders at the annual general meeting. Pursuant to our Articles, our Board of Directors has the discretion to declare and pay interim dividends without shareholder approval. Under the Indian Companies Act, dividends can only be paid in cash to the registered shareholder, the shareholder's order or the shareholder's banker's order, at a record date fixed on or prior to the date of the Annual General Meeting. We must inform the stock exchanges on which our equity shares and ADSs are listed on the record date for determining the shareholders who are entitled to receive dividends.

The Indian Companies Act provides that any dividends that remain unpaid or unclaimed after the 30-day period from the date of declaration of a dividend are to be transferred to a special bank account opened by the Company at an approved bank. We have to transfer any dividends that remain unclaimed for seven years from the date of the transfer to an Investor Education and Protection Fund established by the Government of India under the provisions of the Indian Companies Act. After the transfer to this fund, such unclaimed dividends may not be claimed.

With respect to equity shares issued during a particular fiscal year (including any equity shares underlying ADSs issued to the depository), cash dividends declared and paid for such fiscal year generally will be prorated from the date of issuance to the end of such fiscal year.

Under the Indian Companies Act, dividends may be paid out of profits of a Company in the year in which the dividend is declared or out of the undistributed profits of previous fiscal years after providing for depreciation. Before declaring a dividend greater than 10% of the par value of its equity shares, a Company is required under the Indian Companies Act to transfer to its reserves a minimum percentage of its profits for that year, ranging from 2.5% to 10% depending upon the dividend percentage to be declared in such year.

**Table of Contents**

The Indian Companies Act further provides that, in the event of an inadequacy or absence of profits in any year, a dividend may be declared for such year out of the Company's accumulated profits that has been transferred to its reserves, subject to the following conditions:

- the rate of dividend to be declared may not exceed 10% of its paid up capital or the average of the rate at which dividends were declared by the Company in the prior five years, whichever is less;
- the total amount to be drawn from the accumulated profits earned in the previous years and transferred to the reserves may not exceed an amount equivalent to 10% of its paid up capital and free reserves, and the amount so drawn is to be used first to set off the losses incurred in the fiscal year before any dividends in respect of preference or equity shares are declared; and
- the balance of reserves after withdrawals shall not fall below 15% of its paid up capital.

*Voting Rights*

At any general meeting, voting is by show of hands unless a poll is demanded by a shareholder or shareholders present in person or by proxy holding at least 10% of the total shares entitled to vote on the resolution or by those holding shares with an aggregate paid up capital of at least Rs.50,000. Upon a show of hands, every shareholder entitled to vote and present in person has one vote and, on a poll, every shareholder entitled to vote and present in person or by proxy has voting rights in proportion to the paid up capital held by such shareholders. The Chairperson has a casting vote in the case of any tie.

Any shareholder of the Company entitled to attend and vote at a meeting of the Company may appoint a proxy. The instrument appointing a proxy must be delivered to us at least 48 hours prior to the meeting. Unless the articles of association otherwise provide, a proxy may not vote except on a poll. A corporate shareholder may appoint an authorized representative who can vote on behalf of the shareholder, both upon a show of hands and upon a poll. An authorized representative is also entitled to appoint a proxy.

Ordinary resolutions may be passed by simple majority of those present and voting at any general meeting for which the required period of notice has been given. However, specified resolutions such as amendments to our Articles and the Memorandum of Association, commencement of a new line of business, the waiver of preemptive rights for the issuance of any new shares and a reduction of share capital, require that votes cast in favor of the resolution (whether by show of hands or on a poll) are not less than three times the number of votes, if any, cast against the resolution by members so entitled and voting. As per the Indian Companies Act, unless the articles of association of a Company provide for all directors to retire at every annual general meeting, not less than two-third of the directors of a public Company must retire by rotation, while the remaining one-third may remain on the board until they resign or are removed. Our Articles of Association require two thirds of our Directors to retire by rotation. One-third of the directors who are subject to retirement by rotation must retire at each Annual General Meeting. Further, the Indian Companies Act requires certain resolutions such as those listed below to be voted on only by a postal ballot:

- amendments of the memorandum of association to alter the objects of the Company and to change the registered office of the Company under section 146 of the Indian Companies Act;
- the issuance of shares with differential rights with respect to voting, dividend or other provisions of the Indian Companies Act;
- the sale of the whole or substantially the whole of an undertaking or facilities of the Company;
- providing loans, extending guarantees or providing a security in excess of the limits allowed under Section 372A of the Indian Companies Act;
- varying the rights of the holders of any class of shares or debentures;
- the election of a director by minority shareholders; and
- the buyback of shares.

*Bonus Shares*

In addition to permitting dividends to be paid out of current or retained earnings as described above, the Indian Companies Act permits us to distribute an amount transferred from the reserve or surplus in our profit and loss account to our shareholders in the form of bonus shares, which are similar to a stock dividend. The Indian Companies Act also permits the issuance of bonus shares from a share premium account. Bonus shares are distributed to shareholders in the proportion recommended by the Board. Shareholders of record on a fixed record date are entitled

to receive such bonus shares.

**Table of Contents**

*Consolidation and Subdivision of Shares*

The Indian Companies Act permits a Company to split or combine the par value of its shares, provided such split or combination is not made in fractions. Shareholders of record on a fixed record date are entitled to receive the split or combination.

*Preemptive Rights and Issue of Additional Shares*

The Indian Companies Act gives shareholders the right to subscribe for new shares in proportion to their respective existing shareholdings unless otherwise determined by a special resolution passed by a General Meeting of the shareholders. Under the Indian Companies Act, in the event of an issuance of securities, subject to the limitations set forth above, a Company must first offer the new shares to the shareholders on a fixed record date. The offer must include: (i) the right, exercisable by the shareholders of record, to renounce the shares offered in favor of any other person; and (ii) the number of shares offered and the period of the offer, which may not be less than 15 days from the date of offer. If the offer is not accepted it is deemed to have been declined and thereafter the board of directors is authorized under the Indian Companies Act to distribute any new shares not purchased by the preemptive rights holders in the manner that it deems most beneficial to the Company.

*Annual General Meetings of Shareholders*

We must convene an annual general meeting of shareholders each year within 15 months of the previous annual general meeting or within six months of the end of previous fiscal year, whichever is earlier and may convene an extraordinary general meeting of shareholders when necessary or at the request of a shareholder or shareholders holding at least 10% of our paid up capital carrying voting rights. In certain circumstances a three month extension may be granted by the Registrar of Companies to hold the Annual General Meeting. The Annual General Meeting of the shareholders is generally convened by our Company Secretary pursuant to a resolution of the board of directors. In addition, the Board may convene an Extraordinary General Meeting of shareholders when necessary or at the request of a shareholder or shareholders holding at least 10% of our paid up capital carrying voting rights. Written notice setting out the agenda of any meeting must be given at least 21 days prior to the date of the General Meeting to the shareholders of record, excluding the days of mailing and date of the meeting. Shareholders who are registered as shareholders on the date of the General Meeting are entitled to attend or vote at such meeting. The Annual General Meeting of shareholders must be held at our registered office or at such other place within the city in which the registered office is located, and meetings other than the Annual General Meeting may be held at any other place if so determined by the board of directors.

Our Articles provide that a quorum for a general meeting is the presence of at least five shareholders in person.

*2010 Annual General Meeting*

Our Annual General Meeting for the fiscal year 2010 was held on September 27, 2010 at the registered office of our Company, 2nd Floor, Tidel Park, 4 Rajiv Gandhi Salai, Taramani, Chennai 600 113, India.

At the Annual General Meeting, the shareholders have approved the following items:

- Adopted of audited financials for the year ended March 31, 2010 as per Indian GAAP.
- Reappointment of Messers CB Mouli and PS Raju as directors.
- Appointment of M/s CKS Associates as statutory auditors in the place of M/s B S R & Co.
- Reappointment of Mr Anand Raju Vegesna as executive director.
- Enhancement of borrowing powers of the company.
- Authority to create security on the assets of the company.
- Enhancement of authorised share capital.
- Issue of further shares to the promoters group.

**Table of Contents**

*Limitations on the Rights to Own Securities*

The limitations on the rights to own securities of Indian companies, including the rights of non-resident or foreign shareholders to hold securities, are discussed in the section entitled *Ownership Restrictions* below.

*Register of Shareholders; Record Dates; Transfer of Shares*

We maintain a register of shareholders as required under the Indian Companies Act, 1956. For the purpose of determining the shares entitled to annual dividends, the register is closed for a specified period prior to the annual general meeting. The date on which this period begins is the record date.

To determine which shareholders are entitled to specified shareholder rights such as dividend, we may close the register of shareholders. The Indian Companies Act requires us to give at least seven days prior notice to the public before such closure. We may not close the register of shareholders for more than thirty consecutive days, and in no event for more than forty-five days in a year.

Following the introduction of the Depositories Act, 1996, and the repeal of Section 22A of the Securities Contracts (Regulation) Act, 1956, which enabled companies to refuse to register transfers of shares in some circumstances, the equity shares of a public Company are freely transferable, subject only to the provisions of Section 111A of the Indian Companies Act and the listing agreement entered into between the Company and relevant stock exchange on which the shares of the Company are listed. Since we are a public Company under Indian law, the provisions of Section 111A will apply to us. Our Articles currently contain provisions, that give our directors discretion to refuse to register a transfer of shares in some circumstances. According to our Articles, our directors are required to exercise this right in the best interests of our Company. While our directors are not required to provide a reason for any such refusal in writing, they must give notice of the refusal to the transferee within two months after receipt of the application for registration of transfer by our Company. In accordance with the provisions of Section 111A(2) of the Indian Companies Act, our directors may exercise this discretion if they have sufficient cause to do so. If our directors refuse to register a transfer of shares, the shareholder wishing to transfer his, her or its shares may file a civil suit or an appeal with the Company Law Board or CLB/Tribunal.

Pursuant to Section 111A(3), if a transfer of shares contravenes any of the provisions of the Indian Companies Act and Securities and Exchange Board of India Act, 1992 or the regulations issued there under or the Sick Industrial Companies (Special Provisions) Act, 1985 or any other Indian laws, the CLB/Tribunal may, on application made by the relevant Company, a depository incorporated in India, an investor, a participant, or the Securities and Exchange Board of India or other parties, direct the rectification of the register, record of members and/or beneficial owners. Pursuant to Section 111A(4), the CLB/Tribunal may, in its discretion, issue an interim order suspending the voting rights attached to the relevant shares before making or completing its investigation into the alleged contravention. Notwithstanding such investigation, the rights of a shareholder to transfer the shares will not be restricted.

Under the Indian Companies Act, unless the shares of a Company are held in a dematerialized form, a transfer of shares is effected by an instrument of transfer in the form prescribed by the Indian Companies Act and the rules there under together with delivery of the share certificates. Our transfer agent is Citibank, N.A. Mumbai branch.

*Disclosure of Ownership Interest*

Section 187C of the Indian Companies Act requires holders of record who do not hold beneficial interests in shares of Indian companies to declare to the Company certain details, including the nature of the holder's interest and details of the beneficial owner. Any person who fails to make the required declaration within 30 days may be liable for a fine of up to Rs. 1,000 for each day the declaration is not made. Any charge, promissory note or other collateral agreement created, executed or entered into with respect to any share by the ostensible owner thereof, or any hypothecation by the ostensible owner of any share, pursuant to which a declaration is required to be made under Section 187C, shall not be enforceable by the beneficial owner or any person claiming through the beneficial owner if such declaration is not made. Failure to comply with Section 187C will not affect the obligation of the Company to register a transfer of shares or to pay any dividends to the registered holder of any shares pursuant to which such declaration has not been made.

*Audit and Annual Report*

Under the Indian Companies Act, a Company must file its annual report with the Registrar of Companies within 7 months from the close of the accounting year or within 30 days from the date of the Annual General Meeting, whichever is earlier. At least 21 days before the annual general meeting of shareholders excluding the days of mailing

and receipt, we must distribute to our shareholders a detailed version of our audited balance sheet, profit and loss account and cash flow statement and the related reports of the Board and the auditors, together with a notice convening the annual general meeting. These materials are also generally made available at our corporate website, *www.sifycorp.com*. Under the Indian Companies Act, we must file the balance sheet and annual profit and loss account presented to the shareholders within 30 days of the conclusion of the annual general meeting with the Registrar of Companies in Tamil Nadu, India, which is the state in which our registered office is located. We must also file an annual return containing a list of our shareholders and other information within 60 days of the conclusion of the meeting.

**Table of Contents**

*Company Acquisition of Equity Shares*

A Company may, under some circumstances, acquire its own equity shares without seeking the approval of the High Court. However, a Company would have to extinguish the shares it has so acquired within the prescribed time period. Generally, a Company is not permitted to acquire its own shares for treasury operations. An acquisition by a Company of its own shares (without having to obtain the approval of the High Court) must comply with prescribed rules, regulations and conditions as laid down in the Indian Companies Act and the Securities and Exchange Board of India (Buy-back of Securities) Regulations, 1998, or Buy-back Regulations.

Any ADS holder may participate in a Company's purchase of its own shares by withdrawing his or her ADSs from the depository facility, acquiring equity shares upon the withdrawal and then selling those shares back to the Company.

There can be no assurance that equity shares offered by an ADS investor in any buyback of shares by us will be accepted by us. The regulatory approvals required for ADS holders to participate in a buyback are not entirely clear. ADS investors are advised to consult their legal advisors for advice prior to participating in any buyback by us, including advice related to any related regulatory approvals and tax issues.

*Liquidation Rights*

Subject to the rights of creditors, employees and the holders of any shares entitled by their terms to preferential repayment over the equity shares and taxes, if any, as may be prescribed under the Indian Companies Act, in the event of our winding-up the holders of the equity shares are entitled to be repaid the amounts of paid up capital or credited as paid up on those equity shares. All surplus assets after payments due to the holders of any preference shares at the commencement of the winding-up shall be paid to holders of equity shares in proportion to their shareholdings.

*Redemption of Equity Shares*

Under the Indian Companies Act, equity shares are not redeemable.

*Discriminatory Provisions in Articles*

There are no provisions in our Articles of Association discriminating against any existing or prospective holder of such securities as a result of such shareholder owning a substantial number of shares.

*Alteration of Shareholder Rights*

Under the Indian Companies Act, and subject to the provisions of the articles of association of a Company, the rights of any class of shareholders can be altered or varied (i) with the consent in writing of the holders of not less than three-fourths of the issued shares of that class; or (ii) by special resolution passed at a separate meeting of the holders of the issued shares of that class. In the absence of any such provision in the articles, such alteration or variation is permitted as long as it is not prohibited by the agreement governing the issuance of the shares of that class.

Under the Indian Companies Act, the articles of association may be altered by a special resolution of the shareholders

*Provisions on Changes in Capital*

Our authorized capital can be altered by an ordinary resolution of the shareholders in a General Meeting. The additional issue of shares is subject to the preemptive rights of the shareholders. In addition, a Company may increase its share capital, consolidate its share capital into shares of larger face value than its existing shares or sub-divide its shares by reducing their par value, subject to an ordinary resolution of the shareholders in a General Meeting.

## **Table of Contents**

### **Material Contracts**

See the agreements listed in Item 7, Major Shareholders and Related Party Transactions regarding our material contracts involving certain of our officers and directors.

### **Exchange Controls**

#### *General*

The subscription, purchase and sale of shares of an Indian Company by Person Resident outside India (non-residents) are governed by various Indian laws regulating the transfer or issue of Securities by the Company to non-residents. These regulations have been progressively relaxed in recent years. Set forth below is a summary of various forms of investment, and the regulations applicable to each, including the requirements under Indian law applicable to the issuance of ADSs.

#### *Foreign Direct Investment*

Foreign Direct Investment (FDI) in India is governed by the FDI Policy announced by the Government of India and the provisions of the Foreign Exchange Management Act (FEMA), 1999. Reserve Bank has issued Notification No. FEMA 20 /2000-RB dated May 3, 2000 which contains the Regulations in this regard. This Notification has been amended from time to time. The various amendments are compiled every year in Master Circulars. In terms of Master Circular issued in July 1, 2009, FDI is freely permitted in almost all sectors. Under the FDI Scheme, investments can be made by non-residents in the shares / convertible debentures / preference shares of an Indian Company, through two routes; the Automatic Route and the Government Route. Under the Automatic Route, the foreign investor or the Indian Company does not require any approval from the Reserve Bank or Government of India (RBI) for the investment. Under the Government Route, prior approval of the Government of India, Ministry of Finance, Foreign Investment Promotion Board (FIPB) is required. The details of FDI are contained in the policy and procedures in respect of FDI in India are available in the Manual on Investing in India Foreign Direct Investment, Policy & Procedures .

In terms of Master Circular issued in July 2009, in most manufacturing / service sectors do not require prior approval of the FIPB, or the RBI, if the activity of the investee-Company fulfill the conditions prescribed for Automatic Route. These conditions include certain eligibility norms, pricing requirements, subscription in foreign exchange, compliance with the Takeover Code (as described below), and ownership restrictions based on the nature of the foreign investor (as described below). Purchases by foreign investors of ADSs are treated as direct foreign investment in the equity issued by Indian companies for such offerings. Foreign investment up to 74 % of our share capital is currently permitted in our industry (telecom industry).

#### *Subsequent Transfers*

Restrictions for subsequent transfers of shares of Indian companies between residents and non-residents were relaxed significantly as of October 2004. As a result, for a transfer between a resident and a non-resident of securities of an Indian Company in the Telecom sector, such as ours, no prior approval of either the RBI or the Government of India is required, as long as the terms and conditions set out in A.P. (DIR Series) Circular No. 16 of October 4, 2004 is complied with. These conditions / procedure include compliance with pricing guidelines, Consent letters from the Transaction Parties, applicability of regulatory requirements such as FDI and the Takeover Code, filing Form FC TRS with Authorised Dealers (authorized bankers) with relevant enclosures and so on.

Transfers of shares or convertible debenture, by way of sale or gift, between two non-residents are not subject to RBI approvals or pricing restrictions, provided the buying non-residents do not have investment in similar business / collaboration / commercial arrangements in India. If the buying non-residents have similar investment / collaboration / commercial arrangements in India, prior Government Approval is required for such transaction.

#### *Issue of shares by Indian companies under ADR / GDR*

i) Depository Receipts (DRs) are negotiable securities issued outside India by a Depository bank, on behalf of an Indian Company, which represent the local Rupee denominated equity shares of the Company held as deposit by a Custodian bank in India. DRs are traded on Stock Exchanges in the US, Singapore, Luxembourg, etc. DRs listed and traded in the US markets are known as American Depository Receipts (ADRs) and those listed and traded elsewhere are known as Global Depository Receipts (GDRs). In the Indian context, DRs are treated as Foreign Direct Investment (FDI).

**Table of Contents**

ii) Indian companies can raise foreign currency resources abroad through the issue of ADRs/GDRs, in accordance with the Scheme for issue of Foreign Currency Convertible Bonds and Ordinary Shares (Through Depository Receipt Mechanism) Scheme, 1993 and guidelines issued by the Government of India thereunder from time to time.

iii) A Company can issue ADRs / GDRs if it is eligible to issue shares to persons resident outside India (non-resident) under the FDI Scheme. However, an Indian listed Company, which is not eligible to raise funds from the Indian Capital Market including a Company which has been restrained from accessing the securities market by the Securities and Exchange Board of India (SEBI) will not be eligible to issue ADRs/GDRs.

iv) Unlisted companies, which have not yet accessed the ADR/GDR route for raising capital in the international market, would require prior or simultaneous listing in the domestic market, while seeking to issue such overseas instruments. Unlisted companies, which have already issued ADRs/GDRs in the international market, have to list in the domestic market within three years of having started making profit. Further, they are prohibited to issue further ADRs/GDRs till the listing in the domestic market is completed.

*Takeover Code*

Upon conversion of ADSs into equity shares, a holder of ADSs will be subject to the Takeover Code as prescribed by the Security Exchange Commission of India.

***Fungibility of ADSs***

A limited two-way fungibility scheme has been put in place by the Government of India for ADRs / GDRs. Under this Scheme, a stock broker in India, registered with SEBI, can purchase shares of an Indian Company from the market for conversion into ADRs/GDRs based on instructions received from overseas investors. Re-issuance of ADRs / GDRs would be permitted to the extent of ADRs / GDRs which have been redeemed into underlying shares and sold in the Indian market.

Currently, there is no public trading market for our equity shares in India or elsewhere nor can we assure you that we will take steps to develop one. Our equity securities are only traded on Nasdaq through the ADSs as described in this report. Under prior Indian laws and regulations, our Depository could not accept deposits of outstanding equity shares and issue ADRs evidencing ADSs representing such equity shares without prior approval of the Government of India. The Reserve Bank of India has announced fungibility regulations permitting, under limited circumstances, the conversion of ADSs to equity shares and the reconversion of equity shares to ADSs provided that the actual number of ADSs outstanding after such reconversion is not greater than the original number of ADSs outstanding. If you elect to surrender your ADSs and receive equity shares, you will not be able to trade those equity shares on any securities market and, under present law, likely will not be permitted to reconvert those equity shares to ADSs.

If in the future a market for our equity shares is established in India or another market outside of the United States, those shares may trade at a discount or premium to the ADSs. Under current Indian regulations and practice, the approval of the Reserve Bank of India is not required for the sale of equity shares underlying ADSs by a non-resident India to a resident India as well as for renunciation of rights to a resident of India, unless the sale of equity shares underlying the ADSs is through a recognized stock exchange or in connection with the offer made under the regulations regarding takeovers. The shareholders who intend transferring their equity shares shall comply with the procedural requirements set out under the head *subsequent transfers* above.

***Transfer of ADSs and Surrender of ADSs***

A person resident outside India may transfer the ADSs held in Indian companies to another person resident outside India without any permission. An ADS holder is permitted to surrender the ADSs held by him in an Indian Company and to receive the underlying equity shares under the terms of the Deposit Agreement. Under Indian regulations, the re-deposit of these equity shares with the Depository for ADSs may not be permitted.

***Government of India Approvals***

Pursuant to the RBI's regulations relating to sponsored ADS offerings, an issuer in India can sponsor the issue of ADSs through an overseas depository against underlying equity shares accepted from holders of its equity shares in India. The guidelines specify, among other conditions, that:

- the ADSs must be offered at a price determined by the lead manager of such offering;
- all equity holders may participate;
- the issuer must obtain special shareholder approval; and

the proceeds must be repatriated to India within one month of the closure of the issue.

**Table of Contents*****Ownership Restrictions***

The Securities and Exchange Board of India and Reserve Bank of India regulate Portfolio Investments in Indian Companies by Foreign Institutional Investors and Non-Resident Indians, both of which we refer to as foreign portfolio investors. The Reserve Bank of India issued a circular in August 1998 stating that foreign institutional investors in aggregate may hold no more than 30% of the equity shares of an Indian Company and non-resident Indians and overseas corporate bodies in aggregate may hold no more than 10% of the shares of an Indian Company through portfolio investments. Under current Indian Law, the aggregate of the investment by the Foreign Institutional Investors can't be more than 24% of the equity share capital of an Indian Company, and the aggregate of the investment by the Non-Resident Indians can't be more than 10% of the equity share capital of an Indian Company through Portfolio Investments. The 24% and 10% limit referred above may be increased to 49% and 24% respectively on passing of a Special Resolution by the Shareholders to that effect. Moreover, no single Foreign Institutional Investor may hold more than 10% of the shares of an Indian Company and no single Non-Resident Indian may hold more than 5% of the shares of an Indian Company.

Foreign institutional investors are urged to consult with their Indian legal and tax advisers about the relationship between the foreign institutional investor regulations and the ADSs and any equity shares withdrawn upon surrender of ADSs.

Under the Securities and Exchange Board of India (Substantial Acquisition of Shares and Takeovers) Regulations, 1997, Every purchaser who acquires (directly or indirectly) of more than 5% of the equity share capital at any point of time (the aggregate of the existing shares and the newly acquired shares) of a Listed Public Indian Company, is required to notify the Company with in four days of such acquisition or receipt of allotment information and the Company in turn is required to notify all the stock exchanges on which the shares of the Company are listed with seven days.

Any purchaser whose proposed acquisition entitled him to hold 15% (the aggregate of the existing shares and the newly acquired shares) or more of such shares or a change in control of the Company, either by himself or with others acting in concert is required to make annual disclosures of the purchaser's holdings in the Company and to make an Open Offer to the other Shareholders offering to purchase at least 20% of all the outstanding shares of the Company at a minimum offer price as determined pursuant to the provisions of the regulations. A purchaser who holds between 15% and 75% of a Company's shares cannot acquire additional shares or voting rights that would entitle the purchaser to exercise an additional 5% of the voting rights in any 12 month period unless such purchaser makes a public announcement offering to acquire an additional 20% of the Company's shares. Upon conversion of ADSs into equity shares, an ADS holder will be subject to the Takeover Code. The Takeover Code does not apply to purchases involving the acquisition of shares (i) by allotment in a public and rights issue, (ii) pursuant to an underwriting agreement, (iii) by registered stockbrokers in the ordinary course of business on behalf of customers, (iv) in unlisted companies, (v) pursuant to a scheme of reconstruction or amalgamation or (vi) pursuant to a scheme under Section 18 of the Sick Industrial Companies (Special Provisions) Act, 1985. The Takeover Code does not apply to purchases in the ordinary course of business by public financial institutions either on their own account or as a pledgee. In addition, the Takeover Code does not apply to the purchase of ADSs so long as they are not converted into equity shares. However, since we are an unlisted Company, the provisions of the new regulations will not apply to us. If our shares are listed on an Indian stock exchange in the future, the new regulations will apply to the holders of our ADSs.

Open market purchases of securities of Indian companies in India by foreign direct investors or investments by non-resident Indians and foreign institutional investors above the ownership levels set forth above require Government of India approval on a case-by-case basis.

***Voting Rights of Deposited Equity Shares Represented by ADSs***

Holders of ADSs generally have the right under the deposit agreement to instruct the depository bank to exercise the voting rights for the equity shares represented by the related ADSs. At our request, the depository bank will mail to the holders of ADSs any notice of shareholders' meeting received from us together with information explaining how to instruct the depository bank to exercise the voting rights of the securities represented by ADSs.

If the depository bank timely receives voting instructions from a holder of ADSs, it will endeavor to vote the securities represented by the holder's ADSs in accordance with such voting instructions. In the event that voting takes place by a show of hands, the depository bank will cause the custodian to vote all deposited securities in accordance

with the instructions received by holders of a majority of the ADSs for which the depository bank receives voting instructions.

**Table of Contents**

Please note that the ability of the depository bank to carry out voting instructions may be limited by practical and legal limitations and the terms of the securities on deposit. We cannot assure you that ADS holders will receive voting materials in time to enable them to return voting instructions to the depository bank in a timely manner. Securities for which no voting instructions have been received will not be voted except as discussed above.

As a foreign private issuer, we are not subject to the SEC's proxy rules, which regulate the form and content of solicitations by United States-based issuers of proxies from their shareholders. To date, our practice has been to provide advance notice to our ADS holders of all shareholder meetings and to solicit their vote on such matters, through the depository, and we expect to continue this practice. The form of notice and proxy statement that we have been using does not include all of the information that would be provided under the SEC's proxy rules.

Under Indian law, the ADS holders have the right to vote on any general meetings either by show of hands or by poll only on becoming the Shareholder of the Company by converting the ADS into equity shares of the Company.

**Taxation***Indian Taxation*

*General.* The following relates to the principal Indian tax consequences for holders of ADSs and equity shares received upon withdrawal of such equity shares who are not resident in India, whether of Indian origin or not. We refer to these persons as non-resident holders. The following summary is based on the law and practices of the Income-tax Act, 1961, or Income-tax Act including the special tax regime contained in Sections 115AC and 115ACA of the Income-tax Act read with the Issue of Foreign Currency Convertible Bonds and Ordinary Shares (through Depository Receipt Mechanism) Scheme, 1993 or the Scheme, as amended. The Income-tax Act is amended every year by the Finance Act of the relevant year. Some or all of the tax consequences of Sections 115AC and 115ACA may be amended or changed by future amendments to the Income-tax Act

This section is not intended to constitute a complete analysis of the individual tax consequences to non-resident holders under Indian law for the acquisition, ownership and sale of ADSs and equity shares. Personal tax consequences of an investment may vary for non-resident holders in various circumstances, and potential investors should therefore consult their own tax advisers on the tax consequences of such acquisition, ownership and sale, including specifically the tax consequences under the law of the jurisdiction of their residence and any tax treaty between India and their country of residence.

*Residence.*

For purposes of the Income-tax Act, an individual is considered to be a resident of India during any fiscal year if he or she is in India in that year for a period or periods amounting to at least 182 days; or at least 60 days and, within the four preceding years has been in India for a period or periods amounting to at least 365 days.

The period of 60 days referred to above shall be read as 182 days (i) in case of a citizen of India who leaves India in a previous year for the purposes of employment outside of India or (ii) in the case of a citizen of India or a person of Indian origin living abroad who visits India or (iii) a member of crew of Indian ship.

*Taxation of Distributions.* The Finance Act, 2003 has inserted with effect from April 1, 2003, dividend income from domestic Company will be exempt from tax in the hands of shareholders as the domestic companies will be liable to pay a dividend distribution tax at the rate of 16.995 % inclusive of applicable surcharge and education cess. The Finance Act, 2008 introduced Section 115 O (1A) effective April 1, 2008 under which a domestic Company, subject to certain conditions, can set off the dividend income received from its subsidiary from the amount of dividend income declared by it to its shareholders and would therefore be liable to dividend distribution tax only on the balance dividend after such set-off. Any distributions of additional ADSs or equity shares to resident or non-resident holders will not be subject to Indian tax. Similarly, the acquisition by a non-resident holder of equity shares upon redemption of ADSs will not constitute a taxable event for Indian income tax purposes as it is not regarded as transfer under sec 47(xa) of the Indian Income tax laws. Such acquisition will, however, give rise to a stamp duty as described below under Stamp Duty and Transfer Tax.

**Table of Contents**

*Minimum Alternate Tax.* The Indian Government had introduced Section 115JA to the Income Tax Act which came into effect in April 1, 1997, to bring certain zero tax companies under the ambit of a Minimum Alternative Tax, or MAT. If the taxable income of a Company computed under this Act, in respect of a previous year was less than 30% of its book profits, the total income of such Company chargeable to tax for the relevant previous year shall be deemed to be an amount equal to 30% of such book profits. Effective April 1, 2001, Finance Act, 2000 introduced Section 115JB, pursuant to which the income of companies eligible for tax holiday under sections 10A or 10AA of the Act was exempted from MAT. The amount of income to which any of the provisions of section 10A or section 10AA apply, was reduced from the book profit for the purposes of calculation of income tax payable under the aforesaid section. The Finance Act, 2007 included income eligible for deductions under sections 10A and 10B of the Act in the computation of book profits for the levy of MAT. The rate of MAT for domestic companies, effective April 1, 2007, was 11.33% (inclusive of applicable surcharge and education cess) and levied on its book profits. The Income tax Act provides that the MAT paid by the companies can be adjusted against its tax liability under the normal provisions of the India Income tax laws but limited to the extent that is over and above the tax computed under MAT provisions over the next seven years which is being increased to 10 years by the Finance (No 2) Act 2009. The Finance Act (No 2) 2009 has increased the rate of MAT to 16.995% (inclusive of applicable surcharge and education cess) and increased the number of years to 10 years to carry forward the MAT credit. The rate was further increased to 19.93% by the Finance Act 2010.

*Fringe Benefits Tax.* The Finance Act, 2007 imposed a Fringe Benefits Tax, or FBT in respect of any specified security or sweat equity shares allotted or transferred, directly or indirectly, by a Company free of cost or at concessional rate to its current or former employees. The FBT is applicable for all options granted under a Company's stock option plan, where such option is exercised on or after April 1, 2007. The value of fringe benefit is the fair market value, or FMV, of the specified security or share as on the date of vesting of the option with the employee as reduced by the amount actually paid by, or recovered from the employee in respect of such security or share. The value of the fringe benefit is subject to FBT at the rate of 33.99%, inclusive of applicable surcharge and education cess. The Finance Act, 2007 introduced a new section 115WKA in the Income Tax Act enabling an employer to recover FBT payable in respect of specified securities or sweat equity shares from its employees. The Finance Act, 2008 introduced a new section 115WKB, effective April 1, 2008, which provides that FBT paid by the employer and subsequently recovered from the employee shall be deemed to be tax paid by the employee in relation to the value of fringe benefits provided to him. However, the employee is not entitled to any refund of such deemed payment of tax and shall not be entitled to any claim of credit against any other tax liability. The Ministry of Finance has abolished the FBT from fiscal 2009- 2010 onwards.

*Taxation of Capital Gains.* Any gain realized on the sale of ADSs by a non-resident holder to any non-resident outside India is not subject to Indian capital gains tax as it is not regarded as transfer by virtue of section 47(viia) of Indian Income tax laws which is prerequisite for taxing as capital gains.

Since our ADS offerings were approved by the Government of India under the Issue of Foreign Currency Convertible Bonds and Ordinary Shares Scheme, non-resident holders of the ADSs have the benefit of tax concessions available under Section 115AC. As a result, gains realized on the sale of ADSs will not be subject to Indian taxation. The effect of the Scheme in the context of Section 115AC is unclear as to whether such tax treatment is available to a non-resident who acquires equity shares outside India from a non-resident holder of equity shares after receipt of the equity shares upon surrender of the ADSs. If concessional tax treatment is not available, gains realized on the sale of such equity shares will be subject to customary Indian taxation on capital gains as discussed below. The Issue of Foreign Currency Convertible Bonds and Ordinary Shares Scheme provides that if the equity shares are sold on a recognized stock exchange in India against payment in Indian rupees, they will no longer be eligible for such concessional tax treatment.

Subject to any relief provided pursuant to an applicable tax treaty, any gain realized on the sale of equity shares to an Indian resident or inside India generally will be subject to Indian capital gains tax. However, the acquisition by non-resident holders of equity shares in exchange for ADSs will not be subject to Indian capital gains tax. When the sale of equity shares is liable to capital gain tax the cost of acquisition for computing the tax is taken as the original cost of acquisition of the ADSs by virtue of the section 49(2A) of the Indian Income tax laws. Therefore, the original

cost of acquisition of the ADSs may be treated as the cost of acquisition for the purposes of determining the capital gains tax. According to the Issue of Foreign Currency Convertible Bonds and Ordinary Shares Scheme, a non-resident holder's holding period for purposes of determining the applicable Indian capital gains tax rate in respect of equity shares received in exchange for ADSs commences on the date of the notice of the redemption by the depository to the custodian. The India-U.S. Treaty does not provide an exemption from the imposition of Indian capital gains tax.

Under Section 115AC, taxable gain realized in respect of equity shares held for more than 12 months, or long-term gain, is subject to tax at the rate of 10.30%. Taxable gain realized in respect of equity shares held for 12 months or less, or short-term gain, is subject to tax at variable rates with a maximum rate of 41.20%. The actual rate of tax on short-term gain depends on a number of factors, including the country of residence of the non-resident holder and the type of income chargeable in India.

*Withholding Tax on Capital Gains.* Any taxable gain realized by a non-resident on the sale of ADSs or equity shares is to be withheld at the source by the buyer. However, as per the provisions of Section 196D(2) of the Income Tax Act, no withholding tax is required to be deducted from any income by way of capital gains arising to Foreign Institutional Investors as defined in Section 115AD of the Income Tax Act on the transfer of securities defined in Section 115AD of the Income Tax Act.

**Table of Contents**

*Buy-back of Securities.* Indian companies are not subject to any tax on the buy-back of their shares. However, the shareholders will be taxed on any resulting gains. We would be required to deduct tax at source according to the capital gains tax liability of a non-resident shareholder

*Stamp Duty and Transfer Tax.* Upon issuance of the equity shares underlying our ADSs, we are required to pay a stamp duty of 0.1% of the aggregate value of the shares issued, provided that the issue of dematerialized shares is not subject to Indian stamp duty. A transfer of ADSs is not subject to Indian stamp duty. However, upon the acquisition of equity shares from the depository in exchange for ADSs, the non-resident holder will be liable for Indian stamp duty at the rate of 0.25% of the market value of the equity shares on the redemption date. Similarly upon a sale of shares in physical form, stamp duty at the rate of 0.25% of the market value of the equity shares on the trade date is payable, although customarily such duty is borne by the purchaser. Our equity shares, if and when issued and traded in dematerialized form, are not subject to Indian stamp duty.

*Wealth Tax.* The holding of the ADSs in the hands of non-resident holders and the holding of the underlying equity shares by the depository as a fiduciary will be exempt from Indian wealth tax. Non-resident holders are advised to consult their own tax advisers in this context.

*Gift Tax and Estate Duty.* Indian gift tax was abolished in October 1998. In India, there is no estate duty law. As a result, no estate duty would be applicable in India. Non-resident holders are advised to consult their own tax advisors in this context. However, gift receipt by non-relatives or firms or closely held companies would be taxed as income in the hands of the recipient under the Income tax Act. Yet, gifts between non-residents (being transfers outside India) would not get taxed in India.

*Service Tax.* Brokerage or commission paid to stock brokers in connection with the sale or purchase of shares is subject to a service tax of 10.30%. The stock broker is responsible for collecting the service tax from the shareholder and paying it to the relevant authority

**Income Tax Matters**

The statutory corporate income tax rate and the surcharge thereon are subject to change in line with the changes announced in the Union Budget each year. For fiscal year 2009, the corporate income tax rate was 30%, subject to a surcharge of 10% and education cess of 2% and 1% secondary and higher education cess, resulting in an effective tax rate of 33.99%. For fiscal year 2010 also, the corporate income tax rate is 30%, subject to a surcharge of 7.50% and education cess of 2 % and 1% secondary and higher education cess, resulting in an effective tax rate of 33.2175%. We cannot assure you that the current income tax rate will remain unchanged in the future. We also cannot assure you that the surcharge will be in effect for a limited period of time or that additional surcharges will not be levied by the Government of India. Until April 1, 2002, dividends declared, distributed or paid by an Indian corporation were subject to a dividend tax of 10.2%, including the applicable surcharge for fiscal 2002, of the total amount of the dividend declared, distributed or paid. This tax is not paid by shareholders nor is it a withholding requirement, but rather it is a direct tax payable by the corporation before distribution of a dividend. Effective April 1, 2002, Indian companies were no longer to be taxed on declared dividends. The Finance Act, 2003 proposed that after April 1, 2003, dividend income will be exempt from tax for shareholders and that domestic companies will be liable to pay a dividend distribution tax at the rate of 12.5% plus a surcharge and education cess at the time of the distribution. The Finance Act 2007 has increased the rate of dividend distribution tax to 15% plus applicable surcharge and education cess resulting in an effective rate of 16.995%.

*Material United States Federal Tax Consequences*

The following is a summary of the material U.S. federal income and estate tax consequences that may be relevant with respect to the acquisition, ownership and disposition of equity shares or ADSs and is for general information only. This summary addresses the U.S. federal income and estate tax considerations of holders that are U.S. holders. U.S. holders are beneficial holders of equity shares or ADSs who are citizens or residents of the United States, or corporations (or other entities treated as corporations for U.S. federal tax purposes) created in or under the laws of the United States or any political subdivision thereof or therein, estates, the income of which is subject to U.S. federal income taxation regardless of its source, and trusts for which a U.S. court exercises primary supervision and a U.S. person has the authority to control all substantial decisions or that has a valid election under applicable U.S. Treasury regulation to be treated as a U.S. person. This summary is limited to U.S. holders who will hold equity shares or ADSs

as capital assets for U.S. federal income tax purposes generally, for investment. In addition, this summary is limited to U.S. holders who are not resident in India for purposes of the Convention Between the Government of the United States of America and the Government of the Republic of India for the Avoidance of Double Taxation and the Prevention of Fiscal Evasion With Respect to Taxes on Income. If a partnership, including any entity treated as a partnership for U.S. federal income tax purposes, holds the equity shares or ADSs, the tax treatment of a partner will generally depend upon the status of the partner and upon the activities of the partnership. A partner in a partnership holding equity shares or ADSs should consult his, her or its own tax advisor.

**Table of Contents**

This summary does not address tax considerations applicable to holders that may be subject to special tax rules, such as banks, insurance companies, financial institutions, dealers in securities or currencies, tax-exempt entities, persons that will hold equity shares or ADSs as a position in a straddle or as part of a hedging or conversion transaction for tax purposes, persons that have a functional currency other than the U.S. dollar or holders of 10% or more, by voting power or value, of the shares of our Company. This summary is based on the tax laws of the United States as in effect on the date of this Annual Report on Form 20-F and on United States Treasury Regulations in effect or, in some cases, proposed, as of the date of this Annual Report on Form 20-F, as well as judicial and administrative interpretations thereof available on or before such date, and is based in part on the assumption that each obligation in the deposit agreement and any related agreement will be performed in accordance with its terms. All of the foregoing are subject to change, which change could apply retroactively and could affect the tax consequences described below.

**EACH PROSPECTIVE INVESTOR SHOULD CONSULT HIS, HER OR ITS OWN TAX ADVISOR WITH RESPECT TO THE U.S. FEDERAL, STATE, LOCAL AND NON-U.S. TAX CONSEQUENCES OF ACQUIRING, OWNING OR DISPOSING OF EQUITY SHARES OR ADSs**

*Ownership of ADSs.* For U.S. federal income tax purposes, holders of ADSs will be treated as the holders of equity shares represented by such ADSs

*Dividends.* The gross amount of any distributions of cash or property with respect to ADSs or equity shares (before reduction for any Indian withholding taxes) generally will be included in income by a U.S. holder as foreign source dividend income at the time of receipt, which in the case of a U.S. holder of ADSs generally should be the date of receipt by the Depository, to the extent such distributions are made from the current or accumulated earnings and profits (as determined under U.S. federal income tax principles), of our Company. Such dividends will not be eligible for the dividends received deduction generally allowed to corporate U.S. holders. To the extent, if any, that the amount of any distribution by our Company exceeds our Company's current and accumulated earnings and profits (as determined under U.S. federal income tax principles) such excess will be treated first as a tax-free return of capital to the extent of the U.S. holder's tax basis in the equity shares or ADSs, and thereafter as capital gain.

Subject to certain limitations, dividends paid to non-corporate U.S. holders, including individuals, may be eligible for a reduced rate of taxation if we are deemed to be a qualified foreign corporation for United States federal income tax purposes. A qualified foreign corporation includes a foreign corporation if (1) its shares (or, according to legislative history, its ADSs) are readily tradable on an established securities market in the United States or (2) it is eligible for the benefits under a comprehensive income tax treaty with the United States. In addition, a corporation is not a qualified foreign corporation if it is a passive foreign investment Company (as discussed below). The ADSs are traded on the Nasdaq Global Market. Due to the absence of specific statutory provisions addressing ADSs, however, there can be no assurance that we are a qualified foreign corporation solely as a result of our listing on Nasdaq Global Market. Nonetheless, we may be eligible for benefits under the comprehensive income tax treaty between India and the United States. The reduced rate of taxation will not apply to dividends received in taxable years beginning after December 31, 2010. Each U.S. holder should consult its own tax advisor regarding the treatment of dividends and such holder's eligibility for a reduced rate of taxation.

Subject to certain conditions and limitations, any Indian withholding tax imposed upon distributions paid to a U.S. holder with respect to ADSs or equity shares should be eligible for credit against the U.S. holder's federal income tax liability. Alternatively, a U.S. holder may claim a deduction for such amount, but only for a year in which a U.S. holder does not claim a credit with respect to any foreign income taxes. The overall limitation on foreign taxes eligible for credit is calculated separately with respect to specific classes of income. For this purpose, distributions on ADSs or ordinary shares generally will be passive category income or general category income for purposes of computing the United States foreign tax credit allowable to a U.S. holder.

If dividends are paid in Indian rupees, the amount of the dividend distribution included in the income of a U.S. holder will be in the U.S. dollar value of the payments made in Indian rupees, determined at a spot exchange rate between Indian rupees and U.S. dollars applicable to the date such dividend is included in the income of the U.S. holder, regardless of whether the payment is in fact converted into U.S. dollars. Generally, gain or loss, if any, resulting from currency exchange fluctuations during the period from the date the dividend is paid to the date such payment is converted into U.S. dollars will be treated as U.S. source ordinary income or loss

**Table of Contents**

*Sale or Exchange of Equity shares or ADSs.* A U.S. holder generally will recognize gain or loss on the sale or exchange of equity shares or ADSs equal to the difference between the U.S. dollar value of the amount realized and the U.S. holder's tax basis, determined in U.S. dollars, in the equity shares or ADSs. Subject to special rules described below governing passive foreign investment companies, such gain or loss will be capital gain or loss, and will be long-term capital gain or loss if the equity shares or ADSs were held for more than one year. Gain or loss, if any, recognized by a U.S. holder generally will be treated as U.S. source gain or loss for U.S. foreign tax credit limitation purposes. The deductibility of capital losses may be subject to limitation.

*Estate Taxes.* An individual shareholder who is a citizen or resident of the United States for U.S. federal estate tax purposes will have the value of the equity shares or ADSs owned by such holder included in his or her gross estate for U.S. federal estate tax purposes. An individual holder who actually pays Indian estate tax with respect to the equity shares will, however, be entitled to credit the amount of such tax against his or her U.S. federal estate tax liability, subject to a number of conditions and limitations.

*Passive Foreign Investment Company.* A non-U.S. corporation will be classified as a passive foreign investment Company for U.S. federal income tax purposes if either:

- 75% or more of its gross income for the taxable year is passive income; or
- on a quarterly average for the taxable year by value (or, if it is not a publicly traded corporation and so elects, by adjusted basis) 50% or more of its assets produce or are held for the production of passive income.

For the purposes of this test, such non-U.S. corporation will be treated as owning its proportionate share of the assets and earning its proportionate share of the income of any other corporation in which it owns, directly or indirectly, 25% or more (by value) of the stock.

We do not believe that we satisfy either of the tests for passive foreign investment Company status. Since this determination is made on an annual basis, however, no assurance can be given that we will not be considered a passive foreign investment Company in future taxable years. If we were to be a passive foreign investment Company for any taxable year, U.S. holders would be required to either:

- pay an interest charge together with tax calculated at maximum ordinary income rates on excess distributions (as that term is defined in relevant provisions of the U.S. tax laws), and on any gain on a sale or other disposition of equity shares or ADSs;
- if a qualified electing fund election is made (as that term is defined in relevant provisions of the U.S. tax laws), include in their taxable income their pro rata share of undistributed amounts of our income; or
- if the equity shares are marketable (as that term is defined in relevant provisions of the U.S. tax laws), and a mark-to-market election is made, mark-to-market the equity shares each taxable year and recognize ordinary gain and, to the extent of prior ordinary gain, ordinary loss for the increase or decrease in market value for such taxable year.

If a U.S. holder holds equity shares or ADSs in any year in which we are a passive foreign investment Company, that U.S. holder will be required to file Internal Revenue Service Form 8621 (or similar such form) regarding distributions received on equity shares or ADSs and any gain realized on the disposition of equity shares or ADSs.

*Backup Withholding Tax and Information Reporting Requirements.* Dividends paid, if any, on equity shares of ADSs to a holder who is not an exempt recipient, may be subject to information reporting and, unless a U.S. holder either furnishes its taxpayer identification number or otherwise establishes an exemption, may also be subject to U.S. backup withholding tax. In addition, information reporting will apply to payments of proceeds from the sale, exchange, redemption or other disposition of equity shares or ADSs by a paying agent, including a broker, within the United States to a U.S. holder, other than an exempt recipient. An exempt recipient includes a corporation. In addition, a paying agent within the United States will be required to backup withhold 28% of any payments of the proceeds from the sale or redemption of equity shares or ADSs within the United States to a holder, other than an exempt recipient, if such holder fails to furnish its correct taxpayer identification number or otherwise fails to comply with such backup withholding requirements. Backup withholding is not an additional tax and may be refunded (or credited against the U.S. holder's U.S. federal income tax liability, if any), provided that certain required information is furnished to the IRS. The information reporting requirements may apply regardless of whether withholding is required.

## **Table of Contents**

The above summary is not intended to constitute a complete analysis of all tax consequences relating to ownership of equity shares or ADSs. You should consult your own tax advisor concerning the tax consequences of your particular situation.

### *Documents on Display*

This report and other information filed or to be filed by us can be inspected and copied at the public reference facilities maintained by the SEC at 100 F Street, N.E., Washington, D.C. 20549. Copies of these materials can also be obtained from the Public Reference Section of the SEC, 100 F Street, NE., Washington, DC 20549, at prescribed rates. Additionally, all of our publicly filed SEC reports are available at the SEC's website, [www.sec.gov](http://www.sec.gov), which contains all the public filings and other information regarding registrants that make electronic filings with the SEC using its EDGAR system.

Additionally, documents referred to in this Form 20-F may be inspected at our corporate offices which are located at Tidel Park, No. 4, Rajiv Gandhi Salai, Taramani, Chennai, 600 113 India.

## **Item 11. Quantitative and Qualitative Disclosures About Market Risk**

### *General*

Market risk is the risk of loss of future earnings, to fair values or to future cash flows that may result from a change in the price of a financial instrument. The value of a financial instrument may change as a result of changes in the interest rates, foreign currency exchange rates, commodity prices, equity prices and other market changes that affect market risk sensitive instruments. Market risk is attributable to all market risk sensitive financial instruments including investments, foreign currency receivables, payables and debt. Our exposure to market risk is a function of our investment and borrowing activities and our revenue generating activities in foreign currency. The objective of market risk management is to avoid excessive exposure of our earnings and equity to loss.

### *Risk Management Procedures*

We manage market risk through a corporate treasury department, which evaluates and exercises independent control over the entire process of market risk management. Our corporate treasury department recommends risk management objectives and policies which are approved by senior management and our Audit Committee. The activities of this department include management of cash resources, implementing hedging strategies for foreign currency exposures, borrowing strategies, and ensuring compliance with market risk limits and policies on a daily basis.

Refer to note 37 of the notes to consolidated financial statements to this Annual Report on Form 20-F for further analysis and exposure arising out of credit risk, liquidity risk and currency risk.

## **Item 12. Description of Securities Other Than Equity Securities**

### Item 12(d). American Depositary Shares

Citibank, N.A. (the Depository) serves as the depository for our ADSs, pursuant to that certain Deposit Agreement by and between the Company and the Depository, dated as October 18, 1999, as amended from time to time. ADS holders are required to pay various fees to the Depository and the Depository may refuse to provide any service for which a fee is assessed until the applicable fee has been paid. For purposes of this section, Shares means the Company's equity shares.

The fees and charges payable by holders of our ADSs include the following:

- (i) a fee not in excess of US \$5.00 per 100 ADSs is charged for each issuance of ADS upon deposit of Shares, excluding certain issuances described below;
- (ii) a fee not in excess of US \$5.00 per 100 ADSs is charged for each surrender of ADSs, property and cash in exchange for the underlying deposited securities;
- (iii) a fee not in excess of US \$2.00 per 100 ADSs for each distribution of cash dividend or other cash distribution pursuant to the deposit agreement;
- (iv) a fee not in excess of US \$2.00 per 100 ADSs for the distribution of ADSs pursuant to stock dividends or other free distributions or an exercise of rights; and

- (v) a fee not in excess of \$5.00 per 100 ADSs for depositary services.

**Table of Contents**

Additionally, under the terms of our deposit agreement, the depositary is entitled to charge each registered holder, beneficial owner, persons depositing Shares and person surrendering ADS for cancellation and for the purpose of withdrawing deposited securities the following:

- (i) taxes (including applicable interest and penalties) and other governmental charges;
- (ii) such registration fees as may from time to time be in effect for the registration of shares or other deposited securities on the share register and applicable to transfers of shares or other deposited securities to or from the name of the custodian, the Depositary or any nominees upon the making of deposits and withdrawals, respectively;
- (iii) such cable, telex and facsimile transmission and delivery expenses as are expressly provided in the Deposit Agreement to be at the expense of the person depositing shares or holders and beneficial owners of ADSs;
- (iv) the expenses and charges incurred by the Depositary in the conversion of foreign currency;
- (v) such fees and expenses as are incurred by the Depositary in connection with compliance with exchange control regulations and other regulatory requirements applicable to shares, deposited securities, ADSs and ADRs; and
- (vi) the fees and expenses incurred by the Depositary in connection with the delivery of deposited securities.

If any tax or other governmental charge is payable by the holders and/or beneficial owners of ADSs to the depositary, the depositary, the custodian or the Company may withhold or deduct from any distributions made in respect of deposited securities and may sell for the account of the holder and/or beneficial owner any or all of the deposited securities and apply such distributions and sale proceeds in payment of such taxes (including applicable interest and penalties) or charges, with the holder and the beneficial owner thereof remaining fully liable for any deficiency.

**Direct and Indirect Payments by the Depositary to Sify**

Pursuant to the Deposit Agreement with Citibank, we received the following payments from Citibank during the fiscal year ended March 31, 2010 in connection with our ADS Program:

<i><b>Fee</b></i>	<i><b>Amount in \$USD</b></i>
Broker Fee	52,837.95
Call Charges	767.05
Fee for material related to our Extraordinary General Meeting	3,342.62
Internet, telephone and mail charges	380.26
Notice mailing	904.59
Printing and mailing	14,136.86
Processing Fees	26,759.90
Processing Fees for Annual meeting	24,406.54
Text Conversion charges	900.00
Balance credit available	147.08
<b>Total amount received</b>	<b>124,582.85</b>

**PART II****Item 13. Defaults, Dividend Arrearages and Delinquencies**

Not applicable.

**Item 14. Material Modifications to the Rights of Security Holders and Use of Proceeds**

None

**Table of Contents****Item 15. Controls and procedures***Disclosure Controls and Procedures*

As of the end of the period covered by this Annual Report on Form 20-F, our management, with the participation of our Chief Executive Officer and Chief Financial Officer, has carried out an evaluation of the effectiveness of our disclosure controls and procedures. The term *disclosure controls and procedures* means controls and other procedures that are designed to ensure that information required to be disclosed in the reports we file or submit under the Securities Exchange Act of 1934, as amended, or the Exchange Act, is recorded, processed, summarized and reported, within the time periods specified in the rules and forms of the SEC. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by us in our reports that we file or submit under the Exchange Act is accumulated and communicated to management, including our chief executive officer and chief financial officer, as appropriate to allow timely decisions regarding our required disclosure. In designing and evaluating our disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well conceived and operated, can only provide reasonable assurance that the objectives of the disclosure controls and procedures are met.

Based on their evaluation as of March 31, 2010, our Chief Executive Officer and Chief Financial Officer have concluded that our disclosure controls and procedures as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended, or the Exchange Act, are not effective as a result of a material weakness in internal control over financial reporting.

*Management's annual report on internal control over financial reporting*

- 1) Our management is responsible for establishing and maintaining adequate internal control over financial reporting as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act. Our internal control over financial reporting is a process to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with International Financial Reporting Standards, as issued by the International Accounting Standards Board. Our internal control over financial reporting includes those policies and procedures that:
  - pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of our assets.
  - provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with applicable accounting principles, and that our receipts and expenditures are being made only in accordance with authorizations of our management and directors; and
  - provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of our assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

- 2) Management assessed the effectiveness of our internal control over financial reporting as of March 31, 2010.

A material weakness is a control deficiency, or combination of control deficiencies, that results in more than a remote likelihood that a material misstatement of the annual or interim financial statements will not be prevented or detected. Management identified the following material weakness in internal control over financial reporting as of March 31, 2010:

During the year ended March 31, 2010, the controls over the accounting evaluation of certain revenue transactions relating to the purchase of products for onward sales in the Systems Integration business failed. Certain transactions which otherwise qualified for being accounted on a net basis were reported on a gross basis as revenues and cost of goods sold. The root cause of the error was the result of a failure in the operating effectiveness of an internal control relating to carrying out an independent accounting review of the trading transactions of the System Integration business. Whilst, the potential for error existed and the control deficiency remained unremediated as at March 31, 2010, the errors identified were corrected prior to the finalization of the March 31, 2010 annual consolidated financial

statements. Due to the existence of this control deficiency, management concluded that there was a reasonable possibility that a material misstatement of the company's annual financial statements could not have been prevented or detected on a timely basis.

**Table of Contents**

Because of the material weakness described above, management has concluded that the Company did not maintain effective internal control over financial reporting as on March 31, 2010, based on criteria established in *Internal Control - Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission.

3) Our independent registered public accounting firm, KPMG, has audited the consolidated financial statements included in this Annual Report on Form 20-F, and as part of their audit, has issued their report, included herein, on the effectiveness of our internal control over financial reporting as of March 31, 2010 wherein it is indicated that the Company had a material weakness in internal controls relating to the failure of a control intended to carry out an accounting evaluation of certain transactions relating to the purchase of goods for onward sales.

In order to remediate the material weakness described above, during the months of August and September 2010, the Company:

- introduced specific policies to ensure that all transactions relating to purchase of products for onward sales in the System Integration business are subject to a fact specific accounting evaluation to enforce operating effectiveness.

- augment the IFRS expertise in our accounting team by imparting specific training to evaluate the trading transactions from a Gross Versus Net reporting.

- performed an accounting evaluation of all the transactions of purchase of products for onward sales in the Systems and noted that the accounting controls surrounding appropriateness of the Gross versus Net reporting are operating effectively.

**Table of Contents**

**Report of Independent Registered Public Accounting Firm**

The Board of Directors and Stockholders

Sify Technologies Limited

We have audited Sify Technologies Limited's (the Company) internal control over financial reporting as of March 31, 2010, based on criteria established in *Internal Control - Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). The Company's management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Management's Annual Report on Internal Control Over Financial Reporting. Our responsibility is to express an opinion on the Company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audit also included performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

A material weakness is a deficiency, or combination of deficiencies, in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of the company's annual or interim financial statements will not be prevented or detected on a timely basis. A material weakness related to controls over the accounting evaluation of certain revenue transactions relating to the purchase of products for onward sales has been identified and included in management's assessment included as part of Item 15 Controls and Procedures. We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated statements of financial position as of March 31, 2010 and 2009, and the related consolidated statements of income, comprehensive income, changes in equity and cash flows for each of the years in the three-year period ended March 31, 2010 of the Company. This material weakness was considered in determining the nature, timing and extent of audit tests applied in our audit of the 2010 consolidated financial statements and this report does not affect our report dated November 30, 2010 which expressed an unqualified opinion on those consolidated financial statements.

In our opinion, because of the effect of the aforementioned material weakness on the achievement of the objectives of the control criteria, the Company has not maintained effective internal control over financial reporting as of March 31, 2010 based on criteria established in *Internal Control - Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission.

We do not express an opinion or any other form of assurance on management's statements referring to corrective actions taken after March 31, 2010, relative to the aforementioned material weakness in internal control over financial reporting.

KPMG  
Chennai, India  
November 30, 2010

**Table of Contents****Changes in internal control over financial reporting**

During the period covered by this Annual Report on Form 20-F, there were no changes in our internal control over financial reporting that have materially affected or are reasonably likely to materially affect our internal control over financial reporting.

**Item 16A. Audit Committee financial expert**

Mr. C. B. Mouli, a member of our audit committee, has been deemed independent per the applicable SEC and NASDAQ rules. The Board of Directors has determined that Mr Mouli qualifies as an Audit Committee Financial Expert as defined by the applicable rules of the SEC and satisfies the requirements for audit committee financial expert.

**Item 16B. Code of Ethics**

The Company has adopted a Code of Conduct and Conflict of Interest Policy that is applicable to all employees. The text of the policy was filed as an Exhibit under Item 19 to the Annual Report for the year ended March 31, 2005. This policy is available on our corporate website [www.sifycorp.com](http://www.sifycorp.com).

We have also adopted a written Code of Ethics, as defined in Item 406 of Regulation S-K, applicable to our principal executive officer, principal financial officer, principal accounting officer and all officers working in our finance, accounting, treasury, tax, legal, purchase, investor relations functions, disclosure committee members, and senior management, as well as members of the audit committee and the board of directors. This policy is available in our [www.sifycorp.com](http://www.sifycorp.com). We will post any amendments to, or waivers from, our Code of Ethics at that location on our website.

Our Audit Committee has also adopted a Whistleblower Policy wherein it has established procedures for receiving, retaining and treating complaints received, and procedures for the confidential, anonymous submission by employees of complaints regarding questionable accounting or auditing matters, conduct which results in a violation of law by Sify or in a substantial mismanagement of Company resources. Under this policy, our employees are encouraged to report questionable accounting matters, any reporting of fraudulent financial information to our shareholders, the government or the financial markets any conduct that results in a violation of law by Sify to our management (on an anonymous basis, if employees so desire). Under this policy, we have prohibited discrimination, retaliation or harassment of any kind against any employee who, based on the employee's reasonable belief that such conduct or practices have occurred or are occurring, reports that information or participates in an investigation.

**Item 16C. Principal Accountant Fees and Services**

The following table sets forth for the fiscal years indicated the fees paid to our principal accountant and its associated entities for various services provided us in these periods.

<b>Type of Service</b>	<b>Fiscal year ended</b>	
	<b>march 31, 2010</b>	<b>march 31, 2009</b>
(a) Audit Fees	Rs.12.45 million	Rs.11.00 million
(b) Audit Related Fees	Nil	Nil
(c) Tax Fees	Nil	Nil
(d) All Other Fees	Nil	Nil

Our Audit Committee requires pre-approval of all audit and permissible non-audit services to be performed for the Company by its independent auditors, subject to the de-minimis exception for non-audit services described in Section 10A(i)(1)(B) of the Securities Exchange act of 1934.

**Table of Contents**

**Item 16D. Exemptions from the Listing Standards for Audit Committees**

We have not sought any exemption from the listing standards for audit committees applicable to us as foreign private issuer, pursuant to Rule 10(A)-3(d) of the Securities Exchange Act of 1934.

**Item 16E. Purchase of Equity Securities by the Issuer and Affiliated Purchasers**

None.

**Item 16F : Change in Registrant s Certifying Accountant**

KPMG was previously the principal accountants for Sify Technologies. On October 27, 2010, that firm declined to stand for reelection for the fiscal period ending March 31, 2011.

During the two fiscal years ended March 31, 2010, and the subsequent period through November 30, 2010, there were no (1) disagreements with KPMG on any matter of accounting principles or practices, financial statement disclosure, or auditing scope or procedures, which disagreements if not resolved to their satisfaction would have caused them to make reference in connection with their opinion to the subject matter of the disagreement, or (2) reportable events, except that the audit report of KPMG on the effectiveness of internal control over financial reporting as of March 31, 2010 contained an adverse opinion due to the existence of a material weakness related to the failure of a control intended to carry out an accounting evaluation of certain transactions relating to the purchase of products for onward sales.

The audit reports of KPMG on the consolidated financial statements of Sify Technologies and subsidiaries as of and for the years ended March 31, 2010 and 2009 did not contain any adverse opinion or disclaimer of opinion, nor were they qualified or modified as to uncertainty, audit scope, or accounting principles. The audit report of KPMG on the effectiveness of internal control over financial reporting as of March 31, 2009 did not contain an adverse opinion or disclaimer of opinion, nor was it qualified or modified as to uncertainty, audit scope, or accounting principles. The audit report of KPMG, as of March 31, 2010, contained an adverse opinion due to the existence of a material weakness related to the failure of a control intended to carry out an accounting evaluation of certain transactions relating to the purchase of products for onward sales.

A response letter from KPMG is attached as Exhibit 15.3 to this Form 20-F.

**Item 16 G. Corporate Governance**

Nasdaq Marketplace Rule 5615(a)(3) provides that a foreign private issuer may follow its home country practice in lieu of the requirements of Rule 5600 series, provided such foreign private issuer shall disclose in its annual reports filed with SEC or on its website each requirement that it does not follow and describe the home country practice followed by the issuer in lieu of such requirements.

Under the Nasdaq Marketplace Rule 5620 (c), companies, other than limited partnerships, that maintain a listing on NASDAQ are required to provide for a quorum as specified in its by-laws for any meeting of its stockholders, and in no case shall the quorum be less than 33-1/3% of the outstanding shares of a Company s common voting stock. In India, the requirement for a quorum is the presence of at least five shareholders in person. Our Articles of Association provide that a quorum for a General Meeting of our shareholders is constituted by the presence of at least five shareholders in person. Hence, we do not meet the quorum requirements under Rule 5620 (c), and instead we follow our home country practice. Under the Nasdaq Marketplace Rule 5620 (b), companies, other than limited partnerships, that maintain a listing on Nasdaq are required to solicit proxies and provide proxy statements for all meetings of shareholders and also provide copies of such proxy solicitation to Nasdaq. However, the SEC proxy rules are not applicable to us, since we are a foreign private issuer, and Section 176 of the Indian Companies Act prohibits a Company incorporated under that Act from soliciting proxies. Because we are prohibited from soliciting proxies under Indian law, we will not meet the proxy solicitation requirement of Rule 5620 (b). However, as described above, we give written notices of all our shareholder meetings to all the shareholders and we also file such notices with the SEC. With regard to issuance of securities, we also comply with the home country regulations.

The Board of Directors and Stockholders

Sify Technologies Limited

We have audited the accompanying consolidated statements of financial position of Sify Technologies Limited and subsidiaries ( the Company ) as of March 31,2010 and 2009, and the related consolidated statements of income, comprehensive income, changes in equity and cash flows for each of the years in the three year period ended March 31,2010. These consolidated financial statements are the responsibility of the Company s management. Our responsibility is to express an opinion on these consolidated financial statements, based on our audits. We did not audit the consolidated financial statements of MF Global Sify Securities Private Limited (MF Global), (a 29.85% percent owned investee company). The Company s investment in MF Global at March 31, 2010 and 2009, was Rs. 633,469 (in thousands) and Rs. 542,901 (in thousands), respectively, and its equity in earnings of MF Global was Rs.91,135 (in thousands), Rs.64,091 (in thousands) and Rs.181,127 (in thousands) for the years 2010, 2009 and 2008, respectively. The consolidated financial statements of MF Global were audited by other auditors whose report has been furnished to us, and our opinion, insofar as it relates to the amounts included for MF Global, is based solely on the report of the other auditors.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits and the report of the other auditors provide a reasonable basis for our opinion.

In our opinion, based on our audits and the report of the other auditors, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Sify Technologies Limited and subsidiaries as of March 31, 2010 and 2009, and the results of their operations and their cash flows for each of the years in the three year period ended March 31, 2010, in conformity with the International Financial Reporting Standards as issued by the International Accounting Standards Board.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), Sify Technologies Limited s internal control over financial reporting as of March 31, 2010, based on criteria established in *Internal Control - Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO), and our report dated November 30, 2010 expressed an adverse opinion on the effectiveness of the Company s internal control over financial reporting.

**Table of Contents**

**SIFY TECHNOLOGIES LIMITED**  
**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS**  
**(In thousands of Rupees, except share data and as stated otherwise)**

**1. Reporting entity**

Sify Technologies Limited, ( Sify or the Company ) formerly known as Sify Limited, is a leading internet services provider headquartered in Chennai, India. These Consolidated Financial Statements comprise the Company and its subsidiaries (Sify Software Limited, Sify Technologies (Singapore) Pte. Limited and Sify International Inc.) (together referred to as the Group and individually as Group entities ) and the Group s interest in MF Global Sify Securities India Private Limited, an equity accounted investee. The Group is primarily involved in providing services, such as Corporate Network and Data Services, Internet Access Services, Online Portal and Content offerings and in selling hardware and software related to such services. Sify is listed on the NASDAQ Global Market in the United States.

**2. Basis of preparation**

**a. Statement of compliance**

The accompanying Consolidated Financial Statements of the Group have been prepared in accordance with International Financial Reporting Standards (IFRS) and its interpretations as issued by the International Accounting Standards Board (IASB).

These Consolidated Financial Statements have been approved for issue by the Board of Directors on November 30, 2010.

**b. Basis of measurement**

These Consolidated Financial Statements have been prepared on the historical cost basis except for the following:

Available for sale financial assets are measured at fair value

Derivative financial instruments are measured at fair value

Financial instruments at fair value through profit or loss are measured at fair value.

The defined benefit asset is recognised as the net total of the plan assets, plus unrecognised past service cost and unrecognised actuarial losses, less unrecognized actuarial gains and the present value of the defined benefit obligation.

In relation to lease prepayments, the initial fair value of the security deposit, is estimated as the present value of the refundable amount, discounted using the market interest rates for similar instruments. The difference between the initial fair value and the refundable amount of the deposit is recognized as a lease prepayment.

The above items have been measured at fair value and the methods used to measure fair values are discussed further in Note 4.

**c. Functional and presentation currency**

Items included in the financial statements of each Group entity are measured using the currency of the primary economic environment in which the entity operates ( the functional currency ). Indian rupee is the functional currency of Sify, its domestic subsidiaries and affiliates. The U.S. dollar is the functional currency of Sify s foreign subsidiaries located in the United States and in Singapore.

The Consolidated Financial Statements are presented in Indian Rupees which is the Group s presentation currency. All financial information presented in Indian Rupees has been rounded up to the nearest thousand except where otherwise indicated.

*Convenience translation (unaudited):* Solely for the convenience of the reader, the financial statements as of and for the year ended March 31, 2010 have been translated into United States dollars (neither the presentation currency nor the functional currency of the Group) based on the reference rate in the City of Mumbai on March 31, 2010, for cable transfers in Indian rupees as published by the Reserve Bank of India which was Rs.45.14 per \$1.00. No representation is made that the Indian rupee amounts have been, could have been or could be converted into United States dollar at such a rate or at any other rate on March 31, 2010 or at any other date.

**Table of Contents****d. Use of estimates and judgements**

The preparation of Consolidated Financial Statements in conformity with IFRS requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and in future periods affected.

In particular, areas of estimation uncertainty and critical judgements in applying accounting policies that have the most significant effect on the amounts recognised in the financial statements include the following:

- Measurement of the recoverable amounts of cash-generating units containing goodwill (Note 6)
- Useful lives of property, plant and equipment (Note 3 e and Note 5)
- Useful lives of intangible assets (Note 3 f and Note 6)
- Lease classification (Note 3 g, 9, 17 and 31)
- Utilization of tax losses (Note 11)
- Measurement of defined employee benefit obligations (Note 18)
- Measurement of share-based payments (Note 30 and Note 31)
- Valuation of financial instruments (Note 3 c, 4, 38 and 39)
- Provisions and contingencies (Note 3 m and 35)

**3. Significant accounting policies**

The accounting policies set out below have been applied consistently to all periods presented in these Consolidated Financial Statements.

**a. Basis of consolidation****(i) Subsidiaries**

Subsidiaries are entities controlled by the Company. Control exists when the Company has the power directly/indirectly to govern the financial and operating policies of an entity so as to obtain benefits from its activities. In assessing control, potential voting rights that currently are exercisable are taken into account. The financial statements of subsidiaries are consolidated from the date that control commences until the date that control ceases. The accounting policies of subsidiaries have been changed where necessary to align them with the policies adopted by the Group.

**(ii) Associates (equity accounted investees)**

Associates are those entities where the Group has significant influence, but not control, over the financial and operating policies. Significant influence is presumed to exist when the Group holds between 20 and 50 percent of the voting power of another entity. Associates are accounted for using the equity method (equity accounted investees) and are initially recognised at cost. The Group's investment includes goodwill identified on acquisition, net of any accumulated impairment losses. The Consolidated Financial Statements include the Group's share of the income and expenses and equity movements of equity accounted investees from the date that significant influence commences until the date that significant influence ceases. When the Group's share of losses exceeds its interest in an equity accounted investee, the carrying amount of that interest (including any long-term investments) is reduced to nil and the recognition of further losses is discontinued except to the extent that the Group has an obligation or has made payments on behalf of the investee.

**Table of Contents****(iii) Transactions eliminated on consolidation**

Intra-group balances and transactions, and any unrealized income and expenses arising from intra-group transactions, are eliminated in preparing the Consolidated Financial Statements. Unrealized gains arising from transactions with equity accounted investees are eliminated against the investment to the extent of the Group's interest in the investee. Unrealized losses are eliminated in the same way as unrealized gains, but only to the extent that there is no evidence of impairment.

**b. Foreign currency****(i) Foreign currency transactions**

Transactions in foreign currencies on initial recognition are translated to the respective functional currencies of Group entities at exchange rates prevailing at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies at the reporting date are retranslated to the functional currency at the exchange rates at that date. The foreign currency gain or loss on monetary items is the difference between amortised cost in the functional currency at the beginning of the period, adjusted for effective interest and payments during the period, and the amortised cost in foreign currency translated at the exchange rate at the end of the reporting period. Non-monetary assets and liabilities denominated in foreign currencies that are measured at fair value are retranslated to the functional currency at the exchange rate at the date that the fair value was determined. Non-monetary assets and liabilities denominated in a foreign currency and measured at historical cost are translated at the exchange rate prevalent at the date of transaction. Foreign currency differences arising on retranslation are recognised in profit or loss, except for differences arising on the retranslation of available-for-sale financial assets that are not monetary items, are recognised directly in other comprehensive income.

**(ii) Foreign operations**

The assets and liabilities of foreign operations, including goodwill and fair value adjustments arising on acquisition, are translated to Indian Rupees at exchange rates at the reporting date. The income and expenses of foreign operations are translated to Indian rupees using average exchange rates during the period. Foreign currency differences are recognised in other comprehensive income. Such differences are captured in the foreign currency translation reserve (FCTR) within other components of equity. When a foreign operation is disposed of, in part or in full, the relevant amount in the FCTR is transferred to profit or loss.

**c. Financial instruments****(i) Non-derivative financial instruments**

Non-derivative financial instruments comprise investments in equity and debt securities, trade and other receivables, cash and cash equivalents, loans and borrowings, and trade and other payables.

Non-derivative financial instruments are recognised initially at fair value plus any directly attributable transaction costs. However if the instrument is recognized as at fair value through profit or loss then any directly attributable transaction costs are recognised in profit or loss as incurred. Subsequent to initial recognition non-derivative financial instruments are measured as described below:

**Non-derivative financial assets****a) Available-for-sale financial assets**

Available-for-sale (AFS) financial assets are those non-derivative financial assets that are designated as available for sale or are not classified as (a) loans and receivables, (b) held-to-maturity investments or (c) financial assets at fair value through profit or loss in accordance with IAS 39.

Investments in equity and certain debt securities are initially recognised at fair value and classified as available-for-sale financial assets. Subsequent to initial recognition, they are measured at fair value and changes therein, other than impairment losses and foreign exchange gains and losses on available-for-sale monetary items are recognised directly in other comprehensive income. When an investment is de-recognised, the cumulative gain or loss in equity is transferred to profit or loss. These are presented as current assets unless the management intends to dispose of the assets after 12 months from the balance sheet date.

**Table of Contents****b) Loans and receivables**

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. These are presented as current assets, except for those maturing later than 12 months after the balance sheet date which are presented as non-current assets. Loans and receivables are initially measured at fair value plus transaction costs and subsequently carried at amortised cost using the effective interest method, less any impairment loss. Loans and receivables are represented by trade receivables, unbilled revenue, cash and cash equivalents. Cash and cash equivalents comprise cash balances and demand deposits. Bank overdrafts that are repayable on demand and form an integral part of the Group's cash management are included as a component of cash and cash equivalents for the purpose of the statement of cash flows.

**c) Others**

Other non-derivative financial instruments are measured at amortised cost using the effective interest method, less any impairment losses.

**Non-derivative financial liabilities**

Financial assets and liabilities are offset and the net amount presented in the statement of financial position when, and only when, the Group has a legal right to offset the amounts and intends either to settle on a net basis or to realize the assets and settle the liability simultaneously.

The Group classifies non-derivative financial liabilities to the other financial liabilities category. Such financial liabilities are recognised initially at fair value plus any directly attributable transaction costs. Subsequent to initial recognition, these financial liabilities are measured at amortised cost using the effective interest method.

Other financial liabilities comprise loans and borrowings and trade and other payables.

**(ii) Derivative financial instruments**

Foreign exchange forward contracts and options are purchased to mitigate the risk of changes in foreign exchange rates associated with certain payables, receivables and forecasted transactions denominated in certain foreign currencies.

These derivative contracts do not qualify for hedge accounting under IAS 39, and are initially recognised at fair value on the date the contract is entered into and subsequently re-measured at their fair value. Gains or losses arising from changes in the fair value of the derivative contracts are recognised immediately in profit or loss. Embedded derivatives are separated from the host contract and accounted for separately if the economic characteristics and risks of the host contract and the embedded derivative are not closely related, a separate instrument with the same terms as the embedded derivative would meet the definition of a derivative, and the combined instrument is not measured at fair value through profit or loss.

**d. Share capital**

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new ordinary shares or share options are recognised as a deduction from equity, net of any tax effects.

**e. Property, plant and equipment**

Property, plant and equipment is stated at cost less accumulated depreciation and where applicable accumulated impairment losses. Cost includes expenditure that is directly attributable to the acquisition of the asset. The cost of self-constructed assets includes the cost of materials, direct labour and any other costs directly attributable to bringing the asset to a working condition for its intended use, and the costs of dismantling and removing the items and restoring the site on which they are located. Borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalized as part of the cost of that asset. To the extent the Group borrows funds generally and uses them for the purpose of obtaining a qualifying asset, the Group determines the amount of borrowings costs eligible for capitalization by applying a capitalization rate to the expenditure incurred on such asset. The capitalization rate is determined based on the weighted average of borrowing costs applicable to the borrowings of the Group which are outstanding during the period, other than borrowings made specifically towards purchase of the qualifying asset. The amount of borrowing costs that the Group capitalizes during a period does not exceed the amount of borrowing incurred during that period. Purchased software that is integral to the functionality of the related equipment is capitalized as part of that equipment.

**Table of Contents**

When parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

Gains and losses on disposal of an item of property, plant and equipment are determined by comparing the proceeds from disposal with the carrying amount of property, plant and equipment and are recognised net within other income / other expenses in statement of income.

**(i) Subsequent costs**

The cost of replacing part of an item of property, plant and equipment is recognised in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the Group and its cost can be measured reliably. The carrying amount of the replaced part is de-recognised. The costs of the day-to-day servicing of property, plant and equipment are recognised in profit or loss as incurred.

**(ii) Depreciation**

Depreciation is recognised in the consolidated statement of income on a straight-line basis over the estimated useful lives of each part of an item of property, plant and equipment. Leased assets are depreciated over the shorter of the lease term and their useful lives unless it is reasonably certain that the Group will obtain ownership by the end of the lease term. Management's estimated useful lives for the years ended March 31, 2010, 2009 and 2008 were as follows:

	Estimate of useful life in years
Buildings	28
Plant and machinery comprising computers, servers etc.	2 - 5*
Plant and machinery comprising other items	8*
Furniture and fittings	5
Office equipment	5
Motor vehicles	3 - 5

\* Revised during the year ended March 31, 2008. Also refer note 5.

Depreciation methods, useful lives and residual values are reviewed at the reporting date.

**f. Business combinations and intangible assets****(i) Business combinations**

Business combinations are accounted for using IFRS 3 (Revised), Business Combinations. IFRS 3 requires the identifiable intangible assets and contingent consideration to be fair valued in order to ascertain the net fair value of identifiable assets, liabilities and contingent liabilities of the acquiree. Significant estimates are required to be made in determining the value of contingent consideration and intangible assets. These valuation are conducted by independent valuation experts.

Business combinations have been accounted for using the acquisition method under the provisions of IFRS 3(Revised). The cost of acquisition is measured at the fair of the assets transferred, equity instruments issued and

liabilities incurred or assumed at the date of acquisition. The cost of acquisition also includes the fair value of any contingent consideration. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured initially at their fair value on the date of acquisition.

Transactions costs that the group incurs in connection with a business combination such as finder's fees, legal fees, due diligence fees, and other professional and consulting fees are expenses as incurred.

**Table of Contents****(ii) Goodwill**

Goodwill represents the cost of a business acquisition in excess of the Group's interest in the net fair value of identifiable assets, liabilities and contingent liabilities of the acquiree.

*Acquisitions prior to April 1, 2006*

In respect of acquisitions prior to April 1, 2006, goodwill, if any, represents the amount recognised under the Group's previous accounting framework, US GAAP.

*Acquisitions on or after April 1, 2006*

For acquisitions on or after April 1, 2006, goodwill represents the excess of the cost of the acquisition over the Group's interest in the net fair value of the identifiable assets, liabilities and contingent liabilities of the acquiree. When the excess is negative (negative goodwill), the Group reassesses the identification and measurement of identifiable assets, liabilities and contingent liabilities, and the measurement of the cost of acquisition, and recognizes any remaining excess in profit or loss immediately on acquisition.

*Acquisition of non-controlling interest*

Acquisition of non-controlling interests are accounted for as transactions with equity holders in their capacity as equity-holders and therefore no goodwill is recognised as a result of such transactions.

*Subsequent measurement*

Goodwill is measured at cost less accumulated impairment losses. In respect of equity accounted investees, the carrying amount of goodwill is included in the carrying amount of the investment, and an impairment loss on such an investment is not allocated to any asset, including goodwill, that forms part of the carrying amount of the investee.

**(iii) Other intangible assets**

Other intangible assets that are acquired by the Group, which have finite useful lives, are measured at cost less accumulated amortization and accumulated impairment losses. Cost includes expenditure that is directly attributable to the acquisition of the intangible asset. Borrowing costs that are directly attributable to the acquisition of qualifying intangible asset are capitalized as part of the cost of that asset. To the extent the Group borrows funds generally and uses them for the purpose of obtaining a qualifying asset, the Group determines the amount of borrowings costs eligible for capitalization by applying a capitalization rate to the expenditure incurred on such asset. The capitalization rate is determined based on the weighted average of borrowing costs applicable to the borrowings of the Group which are outstanding during the period, other than borrowings made specifically towards purchase of the qualifying asset. The amount of borrowing costs that the Group capitalizes during a period does not exceed the amount of borrowing incurred during that period.

**(iv) Subsequent expenditure**

Subsequent expenditure is capitalized only when it increases the future economic benefits embodied in the specific asset to which it relates. All other expenditure, including expenditure on internally generated goodwill and brands, are recognised in profit or loss as incurred.

**(v) Amortisation of intangible assets with finite useful lives**

Amortisation is recognised in profit or loss on a straight-line basis over the estimated useful lives of intangible assets, other than goodwill, from the date that they are available for use. The estimated useful lives for the current and previous year are as follows:

	Estimate of useful life in years Not exceeding 3
Software	years
Technical know-how	5 years
License fees	20 years
Portals and web development cost	5 years
Customer related intangibles	5 years

Amortization methods, useful lives and residual values are reviewed at each reporting date and adjusted if appropriate.

**Table of Contents****g. Leases**

At the inception of a lease, the lease arrangement is classified as either a finance lease or an operating lease, based on the substance of the lease arrangement.

*Assets taken on finance lease:*

A finance lease is recognised as an asset and a liability at the commencement of lease, at lower of the fair value of leased asset or the present value of the minimum lease payments. Initial direct costs, if any, are also capitalized and subsequent to initial recognition, the asset is accounted for in accordance with the accounting policy applicable to that asset. Minimum lease payments made under finance leases are apportioned between the finance expense and the reduction of the outstanding liability. The finance expense is allocated to each period during the lease term so as to produce a constant periodic rate of interest on the remaining balance of the liability.

*Assets taken on operating lease:*

Other leases are operating leases and the leased assets are not recognised on the Group's statement of financial position. Payments made under operating leases are recognised in profit or loss on a straight-line basis over the term of the lease.

*Assets given on finance lease:*

The Group is a dealer lessor for leasing various types of products sold to its customers. Profit or loss on sale of such products is recognised in accordance with the policy on outright sales. Finance income i.e., excess of gross minimum lease payments and normal selling price is recognised over the lease period.

*Deposits provided to lessors:*

The Group is generally required to pay refundable security deposits in order to obtain property leases from various lessors. Such security deposits are financial assets and are recorded at fair value on initial recognition. The difference between the initial fair value and the refundable amount of the deposit is recognized as a lease prepayment. The initial fair value is estimated as the present value of the refundable amount of security deposit, discounted using the market interest rates for similar instruments.

Subsequent to initial recognition, the security deposit is measured at amortised cost using the effective interest method with the carrying amount increased over the lease period up to the refundable amount. The amount of increase in the carrying amount of deposit is recognised as interest income. The lease prepayment is amortised on a straight line basis over the lease term as a lease rental expense.

**h. Inventories**

Inventories comprising traded hardware and software are measured at the lower of cost (determined using first-in first-out principle) and net realizable value. Cost comprises cost of purchase and all directly attributable costs incurred in bringing the inventories to their present location and condition. Net realizable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and selling expenses.

**i. Construction contracts in progress**

Construction contracts in progress represents the gross unbilled amount expected to be collected from customers for contract work performed to date. It is measured at cost plus profit recognised to date less progress billing and recognised losses. Cost includes all expenditure related directly to specific projects and an allocation of fixed and variable overheads incurred in the Group's contracts and activities based on normal operating capacity.

Construction contract in progress is presented as part of trade and other receivable in statement of financial position for all contracts in which costs incurred plus recognised profit exceed progress billings. If progress billings exceeds cost incurred plus recognised profits, then the difference is presented as deferred income / revenue in the statement of financial position.

**Table of Contents****j. Impairment****Financial assets**

A financial asset is assessed at each reporting date to determine whether there is any objective evidence that a financial asset or group of financial assets is impaired. A financial asset is considered to be impaired and impairment losses are recognized, if objective evidence indicates that one or more events such as a loss event, the significant financial difficulty of the issuer, a breach of contract, the disappearance of an active market, which have had a negative effect on the estimated future cash flows of that asset. The remaining financial assets are assessed collectively in groups that share similar credit risk characteristics.

*Financial assets measured at amortized cost*

An impairment loss in respect of a financial asset measured at amortised cost is calculated as the difference between its carrying amount, and the present value of the estimated future cash flows discounted at the original effective interest rate.

*Available-for-sale financial assets*

Significant or prolonged decline in the fair value of the security below its cost and the disappearance of an active trading market for the security are objective evidence that the security is impaired. An impairment loss in respect of an available-for-sale financial asset is calculated by reference to its fair value. The cumulative loss that was recognized in the equity is transferred to the consolidated income statement upon impairment.

*Loans and receivables*

Impairment loss in respect of loans and receivables measured at amortized cost are calculated as the difference between their carrying amount, and the present value of the estimated future cash flows discounted at the original effective interest rate. Such impairment loss is recognized in the consolidated income statement.

*Reversal of impairment loss*

An impairment loss is reversed if the reversal can be related objectively to an event occurring after the impairment loss was recognised. For financial assets measured at amortised cost and available-for-sale financial assets that are debt securities, the reversal is recognised in profit or loss. For available-for-sale financial assets that are equity securities, the reversal is recognised directly in other comprehensive income and presented within equity.

**Non-financial assets**

The carrying amounts of the Group's non-financial assets, other than inventories and deferred tax assets are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated. For goodwill, the recoverable amount is estimated each year at 31 December.

The recoverable amount of an asset or cash-generating unit is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For the purpose of impairment testing, assets that cannot be tested individually are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or groups of assets (the cash-generating unit).

The goodwill acquired in a business combination, for the purpose of impairment testing, is allocated to cash-generating units that are expected to benefit from the synergies of the combination. Corporate assets for the purpose of impairment testing are allocated to the cash generating units on a reasonable and consistent basis.

An impairment loss is recognised if the carrying amount of an asset or its cash-generating unit exceeds its estimated recoverable amount. Impairment losses are recognised in profit or loss. Impairment losses recognised in respect of cash-generating units are allocated first to reduce the carrying amount of any goodwill allocated to the units and then to reduce the carrying amount of the other assets in the unit or group of units on a *pro rata basis*.

*Reversal of impairment loss*

An impairment loss in respect of goodwill is not reversed. In respect of other assets, impairment losses recognised in prior periods are assessed at each reporting date for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that

would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised directly in other comprehensive income and presented within equity.

**Table of Contents****k. Employee benefits**

Employee benefits are accrued in the period in which the associated services are rendered by employees of the Group, as detailed below:

**(a) Defined contribution plan (Provident fund)**

In accordance with Indian law, all employees receive benefits from a provident fund, which is a defined contribution plan. Both the employee and employer make monthly contributions to the plan, each equal to a specified percentage of employee's basic salary. The Group has no further obligations under the plan beyond its monthly contributions. The Group does not have any legal or constructive obligation to pay further contributions if the fund does not hold sufficient assets to pay all employee benefits relating to employee service in the current and prior periods. Obligation for contributions to the plan is recognised as an employee benefit expense in profit or loss when incurred.

**(b) Defined benefit plans (Gratuity)**

In accordance with applicable Indian laws, the Group provides for gratuity, a defined benefit retirement plan (the Gratuity Plan) covering all employees. The Gratuity Plan provides a lump sum payment to vested employees, at retirement or termination of employment, an amount based on the respective employee's last drawn salary and the years of employment with the Group. The Company's net obligation in respect of the gratuity plan is calculated by estimating the amount of future benefits that the employees have earned in return for their service in the current and prior periods; that benefit is discounted to determine its present value. Any unrecognized past service cost and the fair value of plan assets are deducted. The discount rate is the yield at the reporting date on risk free government bonds that have maturity dates approximating the terms of the Company's obligations. The calculation is performed annually by a qualified actuary using the projected unit credit method. When the calculation results in a benefit to the Group, the recognised asset is limited to the total of any unrecognized past service costs and the present value of economic benefits available in the form of any future refunds from the plan or reductions in future contributions to the plan.

The Group recognizes all actuarial gains and losses arising from defined benefit plans directly in other comprehensive income and presented within equity. The Company has an employees' gratuity fund managed by the Life Insurance Corporation of India (LIC).

**(c) Short term benefits**

Short-term employee benefit obligations are measured on an undiscounted basis and are expensed as the related service is provided. A liability is recognised for the amount expected to be paid under short-term cash bonus or profit-sharing plans if the Group has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

**(d) Compensated leave of absence**

The employees of the Group are entitled to compensated absence. The employees can carry forward a portion of the unutilized accrued absence and utilize it in future periods or receive cash compensation at retirement or termination of employment for the unutilized accrued compensated absence. The Group recognizes an obligation for compensated absences in the period in which the employee renders the services. The Group provides for the expected cost of compensated absence as the additional amount that the Group expects to pay as a result of the unused entitlement that has accumulated based on actuarial valuations at the balance sheet date, carried out by an independent actuary.

**Table of Contents****I. Share-based payment transactions**

The grant date fair value of options granted to employees is recognised as an employee expense, with a corresponding increase in equity, over the period that the employees become unconditionally entitled to the options. The expense is recorded for each separately vesting portion of the award as if the award was, in substance, multiple awards. The increase in equity recognised in connection with a share based payment transaction is presented as a separate component in equity. The amount recognised as an expense is adjusted to reflect the actual number of share options that vest. In respect of options whose terms and conditions are modified, the Group includes the incremental fair value of the options in the measurement of the amounts recognised for services received from the employees. The incremental fair value is the difference between the fair value of the modified option and that of the original option both estimated as at the date of the modification. If the modification occurs during the vesting period, the incremental fair value granted is included in the measurement of the amount recognised for services received over the period from the modification date until the date when the modified equity instruments vest, in addition to the amount based on the grant date fair value of the original equity instruments, which is recognised over the remainder of the original vesting period. If the modification occurs after vesting date, the incremental fair value granted is recognised immediately, or over the vesting period if the employee is required to complete an additional period of service before becoming unconditionally entitled to those modified equity instruments.

Indian tax regulations require the Group to pay Fringe Benefit Tax (FBT) upon the exercise of employee stock options. The amount of FBT arising on exercise of employee stock options is calculated by reference to the difference between the fair value of the underlying share at the date of vesting and the exercise price payable by the employee, i.e. the intrinsic value of the option at the vesting date. The Group recognizes the liability for the amount of FBT over the vesting period. The Group's obligation to pay FBT arises only upon the exercise of options by the employees. The amount of FBT payable by the Group is recovered from the employees upon the exercise of their stock options. The Group recognizes a FBT recoverable from its employees when it is virtually certain that the reimbursement will be received if the Group settles the obligation. The amounts of FBT payable and recoverable are disclosed separately in the balance sheet and are not offset with each other. With the abolition of FBT with effect from April 1, 2009, the FBT is not chargeable on the exercise of employee stock options.

**m. Provisions**

Provisions are recognised if, as a result of a past event, the Group has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. If the effect of the time value of money is material, provisions are discounted using a current pre tax rate that reflects, where appropriate, the risks specific to the liability. Where discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

A provision for onerous contracts is recognised when the expected benefits to be derived by the Group from a contract are lower than the unavoidable cost of meeting its obligations under the contract. The provision is measured at the present value of the lower of the expected cost of terminating the contract and the expected net cost of continuing with the contract. Before a provision is established, the Group recognizes any impairment loss on the assets associated with that contract.

**n. Revenue**

Revenue from the sale of goods is measured at the fair value of the consideration received or receivable, net of returns, trade discounts and volume rebates. Revenue is recognised when the significant risks and rewards of ownership have been transferred to the buyer, recovery of the consideration is probable, the associated costs and possible return of goods can be estimated reliably, there is no continuing management involvement with the goods, and the amount of revenue can be measured reliably. Transfers of risks and rewards vary depending on the individual terms of the contract of sale.

Revenue from services rendered is recognized in the consolidated income statement in proportion to the stage of completion of the transaction at the reporting date.

The revenue recognition in respect of the various streams of revenue is described below:

**(i) Corporate network/data services**

Corporate network service revenues primarily include connectivity services and sale of hardware and software (purchased from third party vendors), and to a lesser extent, installation of a connectivity link, and other ancillary services such as e-mail and domain registration. Generally these elements are sold as a package consisting all or some of the elements. In these cases the Group applies the recognition criteria to the separately identifiable components of a single transaction in order to reflect the substance of the transaction with different revenue allocations for each component. These multiple element arrangements are recognised as separable elements because each element constitutes a separate earnings process, each element has a fair value that is reliable, verifiable and objectively determinable, and the undelivered element is not essential to functionality of the delivered elements. In this arrangement involving delivery of multiple elements, the units of accounting are determined based on whether the delivered items have a value to the customer on a stand alone basis, whether there is objective and reliable evidence of fair value of the undelivered elements and if the arrangement includes a general right of return relative to the delivered item, whether delivery or performance of the undelivered item(s) is considered probable and substantially in the control of the Group. The arrangement consideration is allocated to the units of accounting based on their relative fair values. Revenue on delivered items is recognised when the revenue recognition criteria applicable to that unit of accounting are met.

**Table of Contents**

The Group provides connectivity for a fixed period of time at a fixed rate regardless of usage. Connectivity is the last element that is provided in the case of a bundled contract. The connectivity charges are the same when sold alone or as part of a package. The revenue attributable to connectivity services is recognised ratably over the period of the contract. The hardware and software are standard products that are freely traded in and purchased from the market, have standard specifications and are not otherwise customized for the specific needs of a customer. The software sold by the Group is off-the-shelf software, such as antivirus utilities and firewalls. The fair value for the hardware and software is available from the market. The revenue attributable to hardware/software is recognised on delivery. Trading transactions relating to standard hardware and software and involving arrangement of purchases from suppliers and sales to customers are reported on gross basis or on net basis, by carrying out a fact-specific evaluation of such transactions. In circumstances where there is multi element arrangement that includes both hardware/software sales and last mile connectivity services, revenue from sale of hardware/software is recognised only upon completion of the services relating to last mile connectivity. Installation consists of commissioning of the last mile connectivity to the customer premises either through the Group's wireless mode of broadband delivery or through the carrier exchange. However, once commissioned this last mile connectivity can be used by the customer to access any other service provider. When the customer has such last mile connectivity, the Group does not charge any installation fee. Due to the short duration, the revenue attributable to the installation of the link is recognised on completion of the installation work. Revenue from ancillary services such as e-mail and domain registration are recognised over the period such facilities are provided. All revenues are shown exclusive of sales tax and service tax.

Web hosting service revenues primarily include co-location services and connectivity services. On occasions, the Group also sells related hardware/software to its web hosting customers. At all times, such hardware and software belongs to the customer. This hardware as well as software are purchased from outside vendors and are freely traded in the market. The Group treats each element as a separate component of the arrangement which have separate earnings process. The value of the hosting service is determined based on fair value from similar services provided separately by the Group. When hardware and/or software is also included with hosting services and sold as a package, the revenue is allocated to the respective element based on their relative fair values. Revenue from hosting services is recognised over the period during which the service is provided.

The Group remotely manages the Information Technology infrastructure of global enterprises from India. The contracts are on time and material basis. Revenue in relation to time is measured as the agreed rate per unit of time multiplied by the units of time expended. The element of revenue related to materials is measured in accordance with the terms of the contract.

The Company provides NLD (National Long Distance) and ILD (International Long Distance) services through company's network. The Company carries voice traffic, both national and international, using the IP back-bone and delivers voice traffic to Direct Inter-connect Operators. Revenue is recognised based upon metered call units of voice traffic terminated on the Company's network.

During the year ended March 31, 2010, the Company started generating revenues from construction of data centers. Revenue from such contracts includes the initial amount agreed in the contract plus any variations in contract work, claims and incentive payments, to the extent that it is probable that they will result in revenue and can be measured reliably. As soon as the outcome of a construction contract can be estimated reliably, contract revenue is recognised in profit or loss in proportion to the stage of completion of the contract. Contract expenses are recognised as incurred unless they create an asset related to future contract activity. The stage of completion is assessed by reference to the cost incurred until date to the total estimated costs. When the outcome of a construction contract cannot be estimated reliably, contract revenue is recognised only to the extent of contract costs incurred that are likely to be recoverable. An expected loss on a contract is recognised immediately in profit or loss.

**(ii) Internet access services**

Internet access services include Internet access at homes and businesses through dial-up or cable operator and internet access through a network of cybercafés. It also includes revenues from Voice over Internet Protocol ( VoIP ) or Internet telephony.

**Table of Contents**

Dial-up Internet access is sold to customers either for a specified number of hours or for an unlimited usage within a specified period of time. Customers purchase user accounts or top-ups that enable them to access the Internet for a specified quantum of usage or for a specified period of time all within a contracted period. The amount received from customers on the sale of these user accounts or top-ups are not refundable. The revenue from sale of user accounts or top-ups is measured based on usage (where access is for a specified quantum of usage) or based on the time of usage (where access is for a specified period of time) by the customer. Any unused hours at the end of the contracted period are recognised as revenue.

VoIP services are mainly provided through Internet Telephony Booths at e-ports (formerly iway s) cybercafés and to a smaller extent through Cable TV operators, (CTOs). The user purchases the packs that enable them to use the Internet telephone facility through CTOs and revenue is recognised on the basis of usage by the customer. The customers use Internet telephony facilities at the iway cybercafés and make the payment to the extent of usage of the facility.

Internet access at homes and businesses through cable networks is provided through a franchised network of cable operators in India. Customers buy user accounts for a specified usage or volume of data transfer or for a specified period of time all within a contracted period. Revenues are recognised on actual usage by customer (where access is for a specified quantum of usage) and based on time (where access is for a specified period of time). Any unused hours at the end of the contracted period are recognised as revenue.

In the case of franchised cybercafé operators, the Group enters into an agreement with the franchisee that establishes the rights and obligations of each party and grants each franchisee a non-exclusive license to operate the cybercafé using the Group s logo, brand and trade names. The cybercafés are owned and operated by the franchisees. The franchisee procures the retail space, invests in furniture, interior decor, PCs, and point of sale signage and employs and trains the franchisee staff. The franchisee is responsible for the maintenance of the premises and interface with customers. The Group provides the complete backend support, including bandwidth, the authentication/usage engine and the billing and collection system.

In the case of franchised cable network operators and franchised cybercafé operators, the Group enters into a standard arrangement with franchisees that provides for the payment to the Company, of an initial non-refundable franchisee fee in consideration for establishing the franchisee relationship and providing certain initial services. The fee covers the following upfront services rendered by the Group:

conducting a market survey and deciding on the best location for the cybercafé or cable head end;

installing the broadband receiver equipment on the roof top of the cybercafé or the cable head end and connecting it to one of Sify s broadcasting towers;

obtaining the regulatory approvals for clearance of the site for wireless transmission at the allotted frequency range;

installing the wiring from the receiver unit to the individual PCs in the cybercafé or the transmitting equipment in the cable head end;

assisting in obtaining facilities, including computers and interiors for the cybercafés; and

providing the operations manual with instructions and guidelines for running the cybercafé or distributing Internet access through cable network.

The initial franchisee fee revenue is recognised as revenue when all of the obligations required of the Group have been substantially accomplished or provided. Internet access revenue and Internet telephony revenues are recognised based on usage by the customer.

**(iii) Online portal services**

The Group enters into contracts with customers to serve advertisements in its portal and the Group is paid on the basis of impressions, click-throughs or leads and in each case the revenue is recognised based on actual impressions/click-throughs/leads delivered. Revenue from advertisements displayed on portals is recognised ratably

over the period of contract

In the case of electronic commerce transactions, there are no performance obligations or minimum guarantees. The Group acts in the capacity of an agent rather than as the principal for these transactions, and the revenue recognised on a net basis is the amount of the commission earned by the Group.

In the case of value-added services that are rendered using Sify's mobile telephone short code 54545, are recognised upon delivery of the content/ring tones to the end subscriber and confirmation by the mobile phone service provider.

**Table of Contents****(iv) Other services**

The Group provides e-learning software development services to facilitate web-based learning in various organizations. These customized services vary in size from customer to customer and relate to computer based and web based training in accordance with the customer specification. These services include information presentation, structured content delivery, content digitization and simulation based training. These services are generally provided on a fixed price basis. Revenue under such contracts is recognised when the outcome of the transaction can be estimated reliably by reference to the stage of completion of transaction at the reporting date. The stage of completion being determined based on the actual time spent to the total estimated time.

**(v) Deferred income**

Deferred income represents billing in excess of revenue recognized.

**o. Export entitlements**

Income in respect of import duty credit entitlement arising from export of services under the Served from India Scheme of the Government of India is recognised in the year of exports, provided there is no significant uncertainty as to the amount of entitlement and availment of the credit.

**p. Finance income and expense**

Finance income comprises interest income on funds invested (including available-for-sale financial assets), dividend income, gains on the disposal of available-for-sale financial assets, fair value gains on financial assets at fair value through profit or loss. Interest income is recognized as it accrues in profit or loss, using the effective interest method. Dividend income is recognised in profit or loss on the date that the Group's right to receive payment is established, which in the case of quoted securities is the ex-dividend date.

Finance expense comprises interest expense on loans and borrowings, bank charges, unwinding of the discount on provision, losses on disposal of available-for-sale financial assets, fair value losses on financial assets at fair value through profit or loss that are recognised in statement of income.

**q. Borrowing costs**

Borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalized as part of the cost of that asset. Other borrowing costs are recognized as expenses in the period in which they are incurred. To the extent the Group borrows funds generally and uses them for the purpose of obtaining a qualifying asset, the Group determines the amount of borrowings costs eligible for capitalization by applying a capitalization rate to the expenditure incurred on such asset. The capitalization rate is determined based on the weighted average of borrowing costs applicable to the borrowings of the Group which are outstanding during the period, other than borrowings made specifically towards purchase of the qualifying asset. The amount of borrowing costs that the Group capitalizes during a period does not exceed the amount of borrowing incurred during that period.

**r. Income taxes**

Income tax expense comprises current and deferred tax. Income tax expense is recognised in profit or loss except to the extent that it relates to items recognised directly in equity or in other comprehensive income. Current tax is the expected tax payable on the taxable income for the year, using tax rates enacted or substantively enacted at the reporting date.

Deferred tax is recognised using the balance sheet method, providing for temporary differences between the carrying amount of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is not recognised for the following temporary differences: the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss, and differences relating to investments in subsidiaries and associates to the extent that it is probable that they will not reverse in the foreseeable future. In addition, deferred tax is not recognised for taxable temporary differences arising on the initial recognition of goodwill, as the same is not deductible for tax purposes. Deferred tax is measured at the tax rates that are expected to be applied to temporary differences when they reverse, based on the laws that have been enacted or substantively enacted by the reporting date. Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realized simultaneously.

**Table of Contents**

A deferred tax asset is recognised to the extent that it is probable that future taxable profits will be available against which the temporary difference can be utilized. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

Deferred taxation arising on investments in subsidiaries and associates is recognised except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred taxation arising on the temporary differences arising out of undistributed earnings of the equity method accounted investee is recorded based on the management's intention. If the intention is to realise the undistributed earnings through sale, deferred tax is measured at the capital gains tax rates that are expected to be applied to temporary differences when they reverse. However, when the intention is to realise the undistributed earnings through dividend, the Group's share of the income and expenses of the equity method accounted investee is recorded in the statement of income, after considering any taxes on dividend payable by the equity method accounted investee and no deferred tax is set up in the Group's books as the tax liability is not with the group.

**s. Earnings / (loss) per share**

The Group presents basic and diluted earnings / (loss) per share (EPS) data for its ordinary shares. Basic EPS is calculated by dividing the profit or loss attributable to ordinary shareholders by the weighted average number of ordinary shares outstanding during the period. Where ordinary shares are issued but not fully paid, they are treated in the calculation of basic earnings per share as a fraction of an ordinary share to the extent that they were entitled to participate in dividends during the period relative to a fully paid ordinary share. Diluted EPS is determined by adjusting the profit or loss attributable to ordinary shareholders and the weighted average number of ordinary shares outstanding for the effects of all dilutive potential ordinary shares, which includes share options granted to employees. To the extent that partly paid shares are not entitled to participate in dividends during the period they are treated as the equivalent of warrants or options in the calculation of diluted earnings per share.

**t. Recent accounting pronouncements****Standards early adopted by the Company**

*IFRS 3 (Revised), Business Combinations*, as amended, is applicable for annual periods beginning on or after July 1, 2009. This standard was early adopted by the Group as at April 1, 2009. Business Combinations consummated after April 1, 2009 will be recorded under this standard. IFRS 3 (Revised) primarily requires the acquisition-related costs to be recognized as period expenses in accordance with the relevant IFRS. Costs incurred to issue debt or equity securities are required to be recognized in accordance with IAS 39. Consideration, after this amendment, will include fair values of all interests previously held by the acquirer. Re-measurement of such interests to fair value would be carried out through net profit in the statement of comprehensive income. Contingent consideration is required to be recognized at fair value even if not deemed probable of payment at the date of acquisition.

IFRS 3 (Revised) provides an explicit option on a transaction-by-transaction basis, to measure any Non-controlling interest (NCI) in the entity acquired at fair value of their proportion of identifiable assets and liabilities or at full fair value. The first method will result in a marginal difference in the measurement of goodwill from the existing IFRS 3; however the second approach will require recording goodwill on NCI as well as on the acquired controlling interest. Upon consummating a business combination in future, the company is likely to adopt the first method for measuring NCI.

IAS 27, as amended, is applicable for annual periods beginning on or after July 1, 2009. Earlier adoption is permitted provided IFRS 3 (Revised) is also early adopted. This standard was early adopted by the Company as at April 1, 2009. It requires a mandatory adoption of economic entity model which treats all providers of equity capital as shareholders of the entity. Consequently, a partial disposal of interest in a subsidiary in which the parent company retains control does not result in a gain or loss but in an increase or decrease in equity. Additionally purchase of some or all of the non-controlling interests is treated as treasury transaction and accounted for in equity and a partial disposal of interest in a subsidiary in which the parent company loses control triggers recognition of gain or loss on the entire interest. A gain or loss is recognized on the portion that has been disposed off and a further holding gain is recognized on the interest retained, being the difference between the fair value and carrying value of the interest retained. This Standard requires an entity

to attribute their share of net profit / loss and reserves to the non-controlling interests even if this results in the non-controlling interests having a deficit balance. Consistent with the provisions of IFRS 3 (Revised), the Group accounted for its acquisition of 26% non-controlling interest in Sify Communications Limited on June 26, 2009 as an equity transaction. Also refer to note 40.

**Table of Contents****Recently adopted accounting pronouncements**

The Company adopted *IAS 1 (revised), Presentation of Financial Statements*, effective April 1, 2009. The revision aims to improve users' ability to analyze and compare the information given in financial statements. IAS 1 sets overall requirements for the presentation of financial statements, guidelines for their structure and minimum requirements for their content. The revisions include non-mandatory changes in the titles of some of the financial statements to reflect their function more clearly (for example, the balance sheet is renamed as statement of financial position). The revised IAS 1 resulted in consequential amendments to other standards and interpretations. The Group has applied revised *IAS 1 Presentation of Financial Statements (2007)*, which has become effective as of April 1, 2009. As a result, the Group presents in the consolidated statement of changes in equity all owner changes in equity, whereas all non-owner changes in equity are presented in the consolidated statement of comprehensive income. Furthermore, the Group has included two statements to display all items of income and expense recognized during the period i.e., a Statement of Income and a Statement of Comprehensive Income. Comparative information has been re-presented so that it also is in conformity with the revised standard. Since the change in accounting policy only impacts presentation aspects, there is no impact on earnings/ loss per share.

*IFRIC 18 Transfer of assets from customers* defines the treatment for property, plant and equipment transferred by customers to companies or for cash received to be invested in property, plant and equipment that must be used to either connect the customer to a network or to provide the customer with ongoing access to a supply of goods or services or to both. The item of property, plant and equipment is to be initially recognized by the Company at fair value with a corresponding credit to revenue. If an ongoing service is identified as a part of the agreement, the period over which revenue will be recognized for that service would be determined by the terms of the agreement with the customer. If the period is not clearly defined, then revenue should be recognized over a period no longer than the useful life of the transferred asset used to provide the ongoing service. This interpretation is applicable prospectively to transfers of assets from customers received on or after July 1, 2009. The Company has adopted this interpretation prospectively for all assets transferred after July 1, 2009. There has been no impact on the Group's consolidated financial statements as a result of the adoption of this interpretation.

In March 2009, the Amendments to *IFRS 7 Financial Instrument disclosure*, amended certain disclosure requirements in the standard. As a result, entities are required to classify fair value measurements for financial instruments measured at fair value in the statement of financial position, using a three level fair value hierarchy that reflects the significance of inputs used in the measurements. In addition, the amendments enhance disclosure requirements on the nature and extent of liquidity risks to which an entity is exposed. The Amendments to IFRS 7 apply for annual periods beginning on or after January 1, 2009 and provides an exception in the first year of application for providing comparative information.

**Standards issued but not yet effective and not early adopted by the Group**

A number of new standards, amendments to standards and interpretations are not yet effective for the year ended March 31, 2010, and have not been applied in preparing these consolidated financial statements:

**Improvements to IFRS-** In April 2009, the IASB issued *Improvements to IFRSs* a collection of amendments to twelve International Financial Reporting Standards as part of its program of annual improvements to its standards, which is intended to make necessary, but non-urgent, amendments to standards that will not be included as part of another major project. The latest amendments were included in exposure drafts of proposed amendments to IFRS published in October 2007, August 2008, and January 2009. The amendments resulting from this standard mainly have effective dates for annual periods beginning on or after January 1, 2010, although entities are permitted to adopt them earlier. In May 2010, the IASB issued *Improvements to IFRS 2010*, which comprises 11 amendments to 7 standards. Effective dates, early application and transitional requirements are addressed on a standard-by-standard basis. The majority of the amendments will be effective January 1, 2011. The Company is evaluating the impact, these amendments will have on the Group's consolidated financial statements.

**Table of Contents**

In November 2009, the IASB issued *IFRS 9, Financial instruments*, to introduce certain new requirements for classifying and measuring financial assets. IFRS 9 divides all financial assets that are currently in the scope of IAS 39 into two classifications – those measured at amortized cost and those measured at fair value. The standard along with proposed expansion of IFRS 9 for classifying and measuring financial liabilities, de-recognition of financial instruments, impairment, and hedge accounting will be applicable from the year 2013, although entities are permitted to adopt earlier. The Company is evaluating the impact which this new standard will have on the Group's financial statements.

In November 2009, the IASB issued *IFRIC 19, Extinguishing Financial Liabilities with Equity Instruments*; to introduce requirements when an entity renegotiates the terms of a financial liability with its creditor and the creditor agrees to accept the entity's shares and other equity instruments to settle the financial liability fully or partially. This interpretation is effective from annual periods beginning on or after July 1, 2010.

In October 2009, the IASB issued *Classification of Rights Issue – Amendment to IAS 32 Financial Instruments: Presentation* with an effective date of February 1, 2010.

In November 2009, the IASB revised *IAS 24 – Related Party Disclosures* with an effective date of January 1, 2011.

In November 2009, the IASB issued *Prepayments of a Minimum Funding Requirement – Amendments to IFRIC 14, IAS 19 – the Limit on a Defined Benefit Asset, Minimum Funding Requirement and their Interaction*, with an effective date of January 1, 2011.

**4. Determination of fair values**

A number of the Group's accounting policies and disclosures require the determination of fair value, for both financial and non-financial assets and liabilities. Fair values have been determined for measurement and / or disclosure purposes based on the following methods. When applicable, further information about the assumptions made in determining fair values is disclosed in the notes specific to that asset or liability.

**(i) Property, plant and equipment**

The fair value of property, plant and equipment recognised as a result of a business combination is an estimated amount for which a property could be exchanged on the date of acquisition between a willing buyer and a willing seller in an arm's length transaction after proper marketing wherein the parties had each acted knowledgeably. The fair value of items of plant, equipment, fixtures and fittings is based on the market approach and cost approach using quoted market prices for similar items when available and replacements costs when appropriate.

**(ii) Inventories**

The fair value of inventories acquired in a business combination is determined based on the estimated selling price in the ordinary course of business less the estimated costs of completion and sale, and a reasonable profit margin based on the effort required to complete and sell the inventories.

**(iii) Intangible assets**

The fair value of intangible assets acquired in the business combinations is based on discounted cash flows expected to be derived from the use and eventual sale of assets (terminal value).

**(iv) Investments in equity and debt securities**

The fair value of available-for-sale financial assets is determined by reference to their quoted price at the reporting date.

**Table of Contents**

**(v) Trade and other receivables**

The fair value of trade and other receivables, excluding construction contracts in progress, is estimated as the present value of future cash flows, discounted at the market rate of interest at the reporting date. However in respect of such financial instruments, fair value generally approximates the carrying amount due to the short term nature of such assets. This fair value is determined for disclosure purposes or when acquired in a business combination.

**(vi) Derivatives**

The fair value of forward exchange contracts is based on their quoted price, if available. If a quoted price is not available, the fair value is estimated by discounting the difference between the contractual forward price and the current forward price for the residual maturity of the contract using a risk free interest rate (based on government bonds). The fair value of foreign currency option contracts is determined based on the appropriate valuation techniques, considering the terms of the contract. Fair values reflect the credit risk of the instrument and include adjustments to take account of the credit risk of the Group entity and the counter party when appropriate.

**(vii) Non derivative financial liabilities**

Fair value, which is determined for disclosure purposes, is calculated based on the present value of future principal and interest cash flows, discounted at the market rate of interest at the reporting date. For finance leases, the market rate of interest is determined by reference to similar lease agreements.

**(viii) Share-based payment transactions**

The fair value of employee stock options is measured using the Black-Scholes method. Measurement inputs include share price on grant date, exercise price of the instrument, expected volatility (based on weighted average historic volatility adjusted for changes expected due to publicly available information), expected term of the instrument (based on historical experience and general option holder behavior), expected dividends, and the risk free interest rate (based on government bonds).

<b>Total</b>	<b>4,668,560</b>	<b>783,570</b>	<b>11,434</b>	<b>5,440,696</b>	<b>3,018,982</b>	<b>358,657</b>	<b>5,697</b>	<b>3,371,942</b>	<b>2,181,785</b>

*Change in estimated useful life*

On the basis of a comprehensive evaluation during the year ended March 31, 2008, the Group had revised the estimated useful lives of its networking equipment (included under plant and machinery) and computers. As a result, the expected useful life of its networking equipment has been increased from 5 to 8 years and the expected useful life of computers has been decreased from 5 to 3 years. The effects of such changes on the depreciation expense for the years ended March 31, 2008, 2009, 2010 and 2011 are as follows:

	2008	2009	2010	2011
Decrease / (increase) in depreciation expense	110,315	98,650	61,498	(17,674)

*Leased assets*

The Group's leased assets include certain buildings, plant and machinery and motor vehicles acquired under finance leases. As at March 31, 2010 the net carrying amount of buildings, plant and machinery and vehicles acquired under finance leases is Rs.255,244 (March 31, 2009: Rs.260,968), Rs.215,669 (March 31, 2009: 135,595) and Rs. NIL (March 31, 2009: Rs.2,159) respectively. During the year, the Group acquired leased assets of Rs 99,950 (March 31, 2009 : Rs 158,962).

In case prepayments are made towards buildings accounted for as finance leases, such prepayments are capitalized as Leasehold Buildings (included in buildings) on the commencement of the lease term under the head Property, plant and equipment and depreciated in accordance with the depreciation policy for similar owned assets.

*Capital Commitments*

As of March 31, 2010 and March 31, 2009, the Company was committed to spend approximately Rs.30,552 (net of advances Rs.8,516) and Rs.322,607 (net of advances Rs.177,183) respectively, under agreements to purchase property, plant and equipment.

*Construction in progress*

Amounts paid towards acquisition of property, plant and equipment outstanding at each balance sheet date and the cost of property, plant and equipment that are not ready to be put into use are disclosed under construction-in-progress.

*Security*

As at March 31,2010 properties with a carrying amount of Rs.2,981,212 (March 31, 2009: Rs.2,481,174) are subject to a registered charge to secure bank borrowings.

**Table of Contents****6. Intangible assets**

Intangible assets comprise the following:

	<b>March 31, 2010</b>	<b>March 31, 2009</b>
Goodwill	14,595	40,461
Other intangible assets	114,929	137,411
	<b>129,524</b>	<b>177,872</b>

**(i) Goodwill**

The following table presents the changes in goodwill during the years ended March 31, 2010 and 2009

	<b>March 31, 2010</b>	<b>March 31, 2009</b>
Balance at the beginning of the year	40,461	50,796
Effect of movement in exchange rates	(2,482)	4,865
Impairment loss recognised during the year	(23,384)	(15,200)
<b>Net carrying amount of goodwill</b>	<b>14,595</b>	<b>40,461</b>

The amount of goodwill as at March 31, 2010 and March 31, 2009 has been allocated to the online portals segment.

**Impairment testing for cash-generating units containing goodwill**

In May 2006, the Group acquired travel business for a consideration of US\$ 2.5 million (Rs. 112,220) in cash along with an option to purchase 125,000 shares of Sify Technologies Limited and certain earn out payments aggregating to USD 0.5 million (Rs. 22,444). The assets acquired consist of system software, customer contracts and goodwill which collectively were considered as a cash generating unit (CGU) by management. The said business operates from India and United States.

During the year ended March 31, 2010, triggered by certain adverse market conditions such as decrease in revenue and increase in the cost of services, and other technological matters, the Group tested the carrying value of the above business for impairment. The recoverable amount of these intangibles including goodwill were determined based on the higher of the value in use (using discounted cash flow approach) and fair value less cost to sell. Fair value less cost to sell, being the higher of the two was determined as the recoverable amount of the CGU. Based on this assessment, the carrying value of the CGU was higher than its recoverable amount and as a result of the above, the group has recorded an impairment of the above intangibles including goodwill amounting to Rs 47,269 (US\$ 987) and adjusted the carrying value of these intangibles accordingly. The above impairment relates to online portal services segment. Fair value less cost to sell was determined by discounting the future cash flows generated from the continuing use of the unit and was based on the following key assumptions:

Cash flows were projected based on a 5 year business plan. Cash flows were arrived at as an excess of revenue over the related costs for the same period after giving due effect to non-cash charges and finance charges, if applicable, together with changes in working capital.

Management believes that this forecast period is justified due to the long term nature of the travel business.

The projected revenue growth included in the cash flow projections was 10% during the projected period.

Management believes that this growth percentage was reasonable and is in line with the average trend of the industry.

The projected increase in cost was 5% for call center cost and 10% for administrative costs.

A pre-tax discount rate of 22.26% was applied in determining the recoverable amount of the cash generating unit.

The discount rate was estimated based on an industry average weighted average cost of capital.

In view of the expected long term market conditions, a terminal year end growth rate of 2% is estimated. The values assigned to the key assumptions represent management's assessment of future trends in the industry and are based on both external sources and internal sources.

**Table of Contents****(ii) Other intangibles**

The following table presents the changes in intangible assets during the years ended March 31, 2010, 2009 and 2008.

	Technical know- how	Portals and web content	Customer related intangibles	Software	License fees	Total
<b>(A) Cost</b>						
<b>Balance as at April 1, 2007</b>	<b>82,753</b>	<b>52,730</b>	<b>199,554</b>	<b>240,878</b>	<b>50,000</b>	<b>625,915</b>

<b>As at March 31, 2010</b>			<b>2,431</b>	<b>70,904</b>	<b>41,594</b>	<b>114,929</b>

*Capital commitments*

As of March 31, 2010, the Company was committed to spend approximately Rs.184,908 (net of advances Rs.274,441) (March 31, 2009: Rs. 390,208 (net of advances Rs.119,454)) respectively, under agreements to purchase intangible assets.

*Capitalized borrowing costs*

During the years ended March 31, 2010 and 2009, the Company capitalized interest cost of Rs.24,553 and Rs. 5,620 respectively. The rate of capitalization of interest cost for the year ended March 31, 2010 and 2009 was approximately 12.81% and 11.67% respectively.

**Table of Contents****7. Investment in equity accounted investees**

In March 2006, MF Global Overseas Limited (MFG), a group incorporated in United Kingdom acquired 70.15% of equity share capital of MF Global Sify Securities Private Limited (MF Global), formerly Man Financial-Sify Securities India Private Limited ( MF Global) from Refco Group Inc., USA ( Refco ). As at March 31, 2010, 29.85% of MF Global equity shares is held by the Company. The remaining 70.15% is owned by MFG, an unrelated third party. MFG is a subsidiary of MF Global Limited, Bermuda. A summary of key financial information of MF Global and its subsidiaries which is not adjusted for the percentage ownership held by the Group is presented below:

	<b>March 31, 2010</b>	<b>March 31, 2009</b>
<b>Balance sheet</b>		
Total assets	3,974,094	3,435,921
Total liabilities	1,851,919	1,617,159
Shareholders' equity	2,122,175	1,818,762
Total Liabilities and shareholders' equity	3,974,094	3,435,921

	<b>For the year ended</b>		
	<b>March 31, 2010</b>	<b>March 31, 2009</b>	<b>March 31, 2008</b>
<b>Statement of operations</b>			
Revenues	1,612,545	1,413,643	2,503,520
Net profit	307,543	216,917	606,255

During October 2010, Sify Technologies Ltd, the minority shareholder of MF Global holding 29.85 percent of the outstanding shares of the MF Global, requested MF Global's Board of Directors to reconsider certain costs charged to the MF Global by MF Global Holdings Ltd and its affiliated and associated group companies, who hold 70.15 percent of the outstanding shares of the MF Global. These charges are currently recorded in the financial statements of the MF Global for year ended 31st Mar 2008 aggregating to INR 43,478,911 and 31st March 2009 aggregating to INR 15,374,528. The resolution of this matter between the shareholders of MF Global remains uncertain and any financial adjustment that may arise is not presently known and accordingly no adjustment related to this matter has been provided for in MF Global's consolidated financial statements. Any financial adjustment that may arise on resolution of the said matter would be expected to be handled prospectively and therefore would be reported in the period in which it is resolved. Consequently, no adjustment related to the said matter was considered by Sify for equity method of accounting for MF Global. The auditors of MF Global have included an emphasis of matter with an explanatory paragraph in their audit report issued on the consolidated financial statements of MF Global for the three years ended March 31, 2010 in connection with such recorded cross charges. The effect of such recorded cross charge is not material to the financial statements of Sify.

**8. Cash and cash equivalents**

Cash and cash equivalents as per consolidated statement of financial position, as at March 31, 2010 amounted to Rs.517,789 (Rs.380,042 as at March 31, 2009). This excludes cash-restricted of Rs.360,909 (Rs.1,330,756 as at March 31, 2009), representing deposits held under lien against working capital facilities availed and bank guarantees given by the Group towards future performance obligations.

*Current*

Net investment in leases

Financial assets included in other assets	<b>249,744</b>	<b>227,468</b>
---	----------------	----------------

(a) Withholding taxes represent taxes deducted at source by the customers and paid to the Government, which is adjustable against tax liability of the Company. The company started

receiving refunds of such taxes from the Government.

Accordingly the withholding taxes is expected to be realized within next 12 months and hence the withholding taxes are classified as current and included as part of trade and other receivables.

Refer note 13.

(b) Includes Rs. 32,098 (March 31 2009: Rs.26,775) paid to VALS Developers Private Limited. Also refer note 37.

(c) Includes Rs. 304,614 (March 31 2009: Rs. 111,333) paid to Emirates Integrated Telecommunications Company PJSC in relation to supply of capacity from the Europe India Gateway and borrowing cost capitalized thereon.

#### 11. Deferred tax assets and liabilities

The tax effects of significant temporary differences that resulted in deferred tax assets and a description of the items that created these differences is given below

	Assets / (liabilities)	
	March 31, 2010	March 31, 2009
<b>Recognised deferred tax assets / (liabilities)</b>		
<b>Deferred tax assets</b>		
Property, plant and equipment		1,796
Intangible assets		2,212
Allowance for doubtful trade and other receivables		4,516
Carry forward capital losses	82,869	67,735
	<b>82,869</b>	<b>76,259</b>
<b>Deferred tax liabilities</b>		
Property, plant and equipment	(76)	
Intangible assets	(189)	

Investment in equity accounted investees	(82,604)	(67,735)
	<b>(82,869)</b>	<b>(67,735)</b>
<b>Net deferred tax asset recognized in balance sheet</b>		<b>8,524</b>

**Table of Contents**

In assessing the realizability of the deferred income tax assets, management considers whether some portion or all of the deferred income tax assets will not be realized. The ultimate realization of the deferred income tax assets and tax loss carry forwards is dependent upon the generation of future taxable income during the periods in which the temporary differences become deductible. Management considers the scheduled reversals of deferred tax liabilities, projected future taxable income and tax planning strategy in making this assessment. Based on the level of historical taxable income and projections of future taxable income over the periods in which the deferred tax assets are deductible, management believes that the Company will realize the benefits of those recognized deductible differences. The amount of deferred tax assets considered realizable, however, could be reduced in the near term if estimates of future taxable income are reduced. Also refer note 40 relating to subsequent events.

**Movement in temporary differences during the year**

	<b>Balance as at April 1, 2008</b>	<b>Recognised in income statement</b>	<b>Recognised in Equity</b>	<b>Balance as at March 31, 2009</b>	<b>Recognised in income statement</b>	<b>Recognised in Equity</b>	<b>Balance as at March 31, 2010</b>
Property, plant and equipment	1,733	63		1,796	(1,872)		(76)
Intangible assets	3,155	(943)		2,212	(2,401)		(189)
Allowance for doubtful trade and other receivables	10,644	(6,128)		4,516	(4,516)		
Tax loss carry forwards	56,859	10,816	60	67,735	14,371	763	82,869
Investment in equity accounted investees	(56,821)	(10,854)	(60)	(67,735)	(14,106)	(763)	(82,604)
	<b>15,570</b>	<b>(7,046)</b>		<b>8,524</b>	<b>(8,524)</b>		

**Unrecognized deferred tax assets / (liabilities)**

	<b>As at March 31, 2010</b>	<b>As at March 31, 2009</b>
Deductible temporary differences	172,136	82,062
Unrecognized tax losses	3,360,093	3,440,680
	<b>3,532,229</b>	<b>3,522,742</b>

Considering the probability of availability of future taxable profits in the period in which tax losses expire, deferred tax assets have not been recognised in respect of tax losses carried forward by the Group. The above tax losses expire at various dates ranging from 2015 to 2024.

Deferred tax liabilities of Rs. Nil and Rs.44,627 as at March 31, 2010 and March 31, 2009 have not been recognised on undistributed profits of its subsidiaries since the group expects to realize the same in a tax free manner.

**Income tax expense recognized in profit or loss**

	<b>March 31, 2010</b>	<b>March 31, 2009</b>	<b>March 31, 2008</b>
<b>Current tax expense / (benefit)</b>

Others		(501)	2,564
	<b>(81,479)</b>	<b>97,049</b>	<b>63,975</b>

**12. Inventories**

Inventories comprise:

	<b>March 31, 2010</b>	<b>March 31, 2009</b>
Communication hardware	19,826	30,832
Application software	1,662	4,264
Others		3,992
	<b>21,488</b>	<b>39,088</b>

The entire carrying amount of inventories as at March 31, 2010 and 2009 are secured in connection with bank borrowings.

**Table of Contents****13. Trade and other receivables**

Trade and other receivables comprise:

	<b>March 31, 2010</b>	<b>March 31, 2009</b>
(i) Trade receivables, net	1,912,348	1,504,927
(ii) Other receivables including deposits	1,196,450	950,599
(iii) Construction contract in progress	86,214	
	<b>3,195,012</b>	<b>2,455,526</b>

(i) Trade receivables as of March 31, 2010 and March 31, 2009 are stated net of allowance for doubtful receivables. The Group maintains an allowance for doubtful receivables based on its age and collectability. Trade receivables are not collateralized except to the extent of refundable deposits received from cybercafé franchisees and from cable television operators. The Group's exposure to credit and currency risks and impairment losses related to trade and other receivables, excluding construction work in progress is disclosed in note 24. Trade receivables consist of:

	<b>March 31, 2010</b>	<b>March 31, 2009</b>
Trade receivables from related parties		698
Other trade receivables	2,083,054	1,620,524
	<b>2,083,054</b>	<b>1,621,222</b>
Less: Allowance for doubtful receivables	(170,706)	(116,295)
<b>Balance at the end of the year</b>	<b>1,912,348</b>	<b>1,504,927</b>

The activity in the allowance for doubtful accounts receivable is given below:

	<b>For the year ended</b>	
	<b>March 31, 2010</b>	<b>March 31, 2009</b>
Balance at the beginning of the year	116,295	83,316
Add : Additional provision, net	121,987	84,346
Less : Bad debts written off	(67,576)	(51,367)
<b>Balance at the end of the year</b>	<b>170,706</b>	<b>116,295</b>

(ii) Other receivables comprises of the following items:

	<b>March 31, 2010</b>	<b>March 31, 2009</b>
Advances and other deposits (Refer Note (a) and (c) below)	657,609	745,876
Deposits with Department of Income tax / Withholding taxes (Refer Note (b) below)	530,146	191,457
Employee advances	8,695	13,266
	<b>1,196,450</b>	<b>950,599</b>

Financial assets included in other receivables	<b>322,833</b>	<b>405,989</b>
--	----------------	----------------

Notes:

- a) Advances and other deposits primarily comprises of receivables in the form of custom duty credit entitlement, service tax and other advances given in the ordinary course of business.

**Table of Contents**

- b) Includes withholding taxes recoverable from the Department of Income-tax for which the Company has filed tax returns for refund. The Company expects to realize such refund of withholding taxes within the next 12 months.
- c) During the year ended March 31, 2010, the Group entered into a lease for 290,753 sq ft of building from Reliable Infomatics Park Private Ltd on a long term lease. The group has paid a sum of Rs 51,786 as a security deposit for the above lease. During the year, the Group has surrendered the above lease. The company expects to realize the above amount within the next 12 months.

**14. Prepayments for current assets**

Prepayments for current assets comprise of the following:

	<b>March 31, 2010</b>	<b>March 31, 2009</b>
Prepayments for purchase of bandwidth	79,402	63,961
Prepayments related to insurance	17,680	12,682
Prepayments-others	57,245	47,066

\* Paid up Rs.1/-  
per share

As at March 31, 2010 the authorized share capital comprises 61,000,000 ordinary shares (as of March 31, 2009, the number of authorized shares was 61,000,000) of Rs.10 each. The holders of ordinary shares are entitled to receive dividends from time to time and are entitled to vote at meetings of the Group. All shares rank equally with regard to Group's residual assets.

The Company had entered into a Subscription Agreement with Infinity Satcom Universal Private Limited (Infinity Satcom Universal) during the year ended March 31, 2008 for issuance of 12,817,000 equity shares of the Company with face value of Rs.10/- per share at a premium of Rs.165/-. It was approved by the Company's shareholders at the Extra ordinary General Meeting held on March 17, 2008. Infinity Satcom Universal is controlled by Ananda Raju Vegesna, Executive Director, and brother of Shri Raju Vegesna, Chairman and Managing Director of Sify Technologies Limited.

The Company had received a sum of Rs.112,149 (comprising of Rs.12,817 towards face value and Rs.99,332 towards securities premium / share premium). Subsequently on August 28, 2008, Infinity Satcom Universal communicated to the Company that they would focus their attention on the business of Sify Communications Limited (erstwhile subsidiary) and hence shall not contribute the balance money towards the subscription of 12,817,000 equity shares, as and when it is called. Accordingly, at the meeting of the board of directors, the shares allotted and monies already collected (Rs.112,149 including sums towards capital and premium) have been forfeited.

During the year ended March 31, 2010 the company has issued 10,530,000 ordinary shares of Rs 10 each to the erstwhile shareholders of Sify Communication Limited as per the scheme of amalgamation. Refer note 40.

Further during the year ended March 31, 2010, 1,416 ordinary shares (March 31, 2009: Nil) have been issued consequent to exercise of options under the Associate stock option plan.

**Translation reserve**

The translation reserve comprises all foreign currency differences arising from the translation of the financial statements of foreign operations.

**Share based payment reserve**

Share based payment reserve represents the stock compensation expense recognised in the statement of changes in equity.

**Fair value reserve**

The fair value reserve comprises the cumulative net change in the fair value of available-for-sale securities until the investments are derecognized or impaired.

**Recognised actuarial gain / loss**

Recognised actuarial gain / loss represents the cumulative actuarial gain / loss recognised in other comprehensive income and presented within equity.

**Table of Contents****17. Finance lease obligations**

The Group leases routers and other equipments under finance lease arrangements. The following is a schedule of future minimum finance lease commitments as at March 31, 2010:

	March 31, 2010			March 31, 2009		
	Future minimum lease payments	Interest	Present value minimum lease payments	Future minimum lease payments	Interest	Present value minimum lease payments
Less than one year	65,148	(19,178)	45,970	42,743	(9,800)	32,943
Between one and five years	182,206	(26,859)	155,347	138,246	(15,864)	122,382
<b>Total</b>	<b>247,354</b>	<b>(46,037)</b>	<b>201,317</b>	<b>180,989</b>	<b>(25,664)</b>	<b>155,325</b>

**18. Employee benefits**

	March 31, 2010	March 31, 2009
Gratuity payable	16,753	15,082
Compensated absences	38,054	49,218
	<b>54,807</b>	<b>64,300</b>

**Gratuity cost**

The components of gratuity costs recognised in the consolidated income statement for the years ending March 31, 2010, March 31, 2009 and March 31, 2008 consist of the following:

	March 31, 2010	March 31, 2009	March 31, 2008
Service cost	14,498	12,067	8,533
Interest cost	4,501	3,038	1,639
Expected return on plan asset	(2,963)	(1,672)	(957)
	<b>16,036</b>	<b>13,433</b>	<b>9,215</b>

Details of employee benefit obligation and plan asset are as follows:

	March 31, 2010	March 31, 2009
Present value of projected benefit obligation at the end of the year	51,046	43,389
Funded status of the plans	34,293	28,307
<b>Recognised (asset) / liability</b>	<b>16,753</b>	<b>15,082</b>

The following table set out the status of the gratuity plan:

	March 31, 2010	March 31, 2009	March 31, 2008
<b>Change in defined benefit obligation</b>			

Edgar Filing: SIFY TECHNOLOGIES LTD - Form 20-F

Projected benefit obligation at the beginning of the year	43,389	27,332	20,785
Service cost	14,498	12,067	8,533
Interest cost	4,501	3,038	1,639
Actuarial (gain) / loss	(5,957)	3,662	2,393
Benefits paid	(5,385)	(2,710)	(6,018)
<b>Projected benefit obligation at the end of the year</b>	<b>51,046</b>	<b>43,389</b>	<b>27,332</b>

**Table of Contents**

	<b>March 31, 2010</b>	<b>March 31, 2009</b>	<b>March 31, 2008</b>
<b>Change in plan assets</b>			
Fair value of plan assets at the beginning of the year	28,307	18,740	8,422
Expected return on plan assets	2,965	1,672	957
Actuarial gain / (loss)	(449)	(684)	(423)
Employer contributions	8,855	11,290	15,801

<b>Fair value of plan assets at the end of the year</b>	<b>34,293</b>	<b>28,307</b>	<b>18,740</b>

Actual return on plan assets	2,513	988	534
------------------------------	-------	-----	-----

**Actuarial assumptions at end of the year:**

The principal actuarial assumptions as on March 31, 2010, 2009 and 2008 were as follows:

	<b>March 31, 2010</b>	<b>March 31, 2009</b>	<b>March 31, 2008</b>
Discount rate	8.15% P.a	7.95% P.a	7.85% P.a
Long-term rate of compensation increase	8.00% P.a	8.00% P.a	6.00% P.a
Expected long term rate of return on plan assets	8.00% P.a	8.00% P.a	7.50% P.a
Average future working life time	11.06 years	10.99 years	10.23 years

*Discount rate:* The discount rate is based on prevailing market yields of Indian Government securities as at the end of the year for the estimated term of the obligations.

*Long term rate of compensation increase:* The estimates of future salary increases considered take into account inflation, seniority, promotion and other factors.

*Expected long term rate of return on plan assets:* This is based on the average long term rate of return expected on investments of the fund during the estimated term of the obligations.

Assumptions regarding future mortality are based on published statistics and mortality tables.

The Group assesses these assumptions with the projected long-term plans of growth and prevalent industry standards.

**Historical information**

	<b>March 31, 2010</b>	<b>March 31, 2009</b>
Experience adjustment on plan liabilities	(4,818)	1,574
Experience adjustment on plan assets	(450)	(684)

*Contributions:* The Group expects to contribute Rs.12,000 (March 31 2009: Rs 20,000) to its gratuity fund during the year ending March 31, 2011.

*Plan assets:* The Gratuity plan's weighted-average asset allocation at March 31, 2010 and March 31, 2009, by asset category is as follows:

	<b>March 31, 2010</b>	<b>March 31, 2009</b>
Funds managed by insurers	100%	100%

**Actuarial gains and losses recognised in other comprehensive income**

The amount of actuarial gains and losses recognised in other comprehensive income for the years ending March 31, 2010, 2009 and 2008 are as follows:

	<b>March 31, 2010</b>	<b>March 31, 2009</b>	<b>March 31, 2008</b>
Actuarial gain / (loss)	5,508	(4,346)	(2,816)
	<b>5,508</b>	<b>(4,346)</b>	<b>(2,816)</b>

**Table of Contents****Contributions to defined contribution plans**

In accordance with Indian law, all employees receive benefits from a provident fund, which is a defined contribution plan. Both the employee and employer make monthly contributions to the plan, each equal to a specified percentage of employee's basic salary. The Group has no further obligations under the plan beyond its monthly contributions. The Group contributed Rs.55,229, Rs.70,354 and Rs.52,244 for the years ended March 31, 2010, 2009 and 2008.

**19. Other liabilities**

	<b>March 31, 2010</b>	<b>March 31, 2009</b>
Franchisee deposits and other liabilities	165,800	134,116
	<b>165,800</b>	<b>134,116</b>

Internet access services at home and through a network of cybercafés is provided through a franchised network of cable operators in India and cybercafé operators. The Group enters into an agreement with the franchisee that establishes the rights and obligations of each party and grants each franchisee a non-exclusive license to operate the cybercafé using the Group's logo, brand and trade names. The agreement provides for payment to the Company, of an initial security deposit in consideration for establishing the franchisee relationship and providing certain initial services.

**20. Borrowings**

	<b>March 31, 2010</b>	<b>March 31, 2009</b>
<i>Current</i>		
Loan secured against fixed deposits (Refer note 1 below)		310,000
Term bank loans (Refer note 2 below)	216,000	331,944
Other working capital facilities (Refer note 3 below)	697,165	540,826
Borrowings from others (Refer note 4 below)	39,681	
	<b>952,846</b>	<b>1,182,770</b>
<i>Non current</i>		
Term bank loans (Refer note 2 below)	325,940	201,389
Borrowings from others (Refer note 4 below)	123,484	
	<b>449,424</b>	<b>201,389</b>

The Group has borrowings which include:

1. Loan secured against fixed deposits of Rs. Nil as at March 31, 2010 (Rs. 310,000 as at March 31, 2009) represent bank loans for working capital requirements. These borrowings bear interest ranging from 10%-11.90% p.a. and are repayable within one year from the balance sheet date.
2. Term bank loans bear interest ranging from 9.50% to 13.50% p.a. The term loans are secured by way of pari-passu first charge over the unencumbered movable fixed assets acquired out of such term loans availed by the Company. Further these loans are collaterally secured by way of equitable mortgage over the office premises and also by way of pari passu second charge on the entire current assets of the Company.
3. Letter of credit discounted (including buyer's credit) is secured by pari-passu charge on current assets of the Company and moveable assets of the company, both present and future. These borrowings bear interest ranging from 11% to 14% p.a. Such facilities are renewable every year.
- 4.

Borrowings from others are secured against relevant assets and software. However, the Company is in the process of obtaining no objection certificate from the bank with whom such relevant assets and software are hypothecated.

**Table of Contents****21. Trade and other payables**

	<b>March 31, 2010</b>	<b>March 31, 2009</b>
Trade payables	989,020	690,388
Advance from customers	37,047	52,224
Accrued expenses	686,452	668,769
Other payables	143,145	143,849
	<b>1,855,664</b>	<b>1,555,230</b>
Financial liabilities included in trade and other payables	<b>1,798,764</b>	<b>1,411,358</b>

**22. Deferred income**

Deferred income includes the following amounts of unearned income:

	<b>March 31, 2010</b>	<b>March 31, 2009</b>
Corporate network/data services	328,309	308,521
Internet access services	24,941	28,065
Other services	65,316	18,215
	<b>418,566</b>	<b>354,801</b>

**23. Revenue**

	<b>March 31, 2010</b>	<b>Year ended March 31, 2009</b>	<b>March 31, 2008</b>
<b>Rendering of services</b>			
Service revenue*	5,356,852	5,253,535	4,868,673
Initial franchise fee	11,369	30,489	43,503
Installation service revenue	288,919	235,116	318,466
	<b>5,657,140</b>	<b>5,519,140</b>	<b>5,230,642</b>
<b>Sale of products</b>	1,053,048	643,021	775,573
	<b>6,710,188</b>	<b>6,162,161</b>	<b>6,006,215</b>

\* Including revenue arising from construction contracts (refer note 24)

**24. Construction contracts in progress**

	<b>March 31, 2010</b>	<b>Year ended March 31, 2009</b>	<b>March 31, 2008</b>
Contract revenue recognised for the year ended March 31, 2010	86,214		
Aggregate amounts of costs incurred and recognized profits (less recognised losses) upto the reporting date	86,214		
Advances received	16,441		
Gross amount due from customers for contract work presented as an asset	86,214		

**Table of Contents****25. Cost of goods sold and services rendered**

Cost of goods sold and services rendered information is presented before any depreciation or amortization that is direct and attributable to revenue sources. The Group's asset base deployed in the business is not easily split into a component that is directly attributable to a business and a component that is common / indirect to all the businesses. Since a gross profit number without depreciation and amortization does not necessarily meet the objective of such a disclosure, the Group has not disclosed gross profit numbers but disclosed all expenses, direct and indirect, in a homogenous group leading directly from revenue to operating income.

**26. Other income**

	<b>March 31, 2010</b>	<b>Year ended March 31, 2009</b>	<b>March 31, 2008</b>
Duty credit entitlement	82,486	79,278	46,152
Others	49,303	9,827	
	<b>131,789</b>	<b>89,105</b>	<b>46,152</b>

**27. Income from legal settlement**

During the year, the Company received Rs 561,120 (US\$ 12.43 million) in connection with settlement of legal matters. This is pursuant to a legal suit filed by the company in the prior years. The said receipt has been recorded as income from legal settlement in the consolidated statement of income during the year ended March 31, 2010.

**28. Selling, general and administrative expenses**

	<b>March 31, 2010</b>	<b>Year ended March 31, 2009</b>	<b>March 31, 2008</b>
Personnel expenses	745,067	987,585	715,365
Marketing and promotion expenses	482,554	608,318	558,573
Administrative and other expenses*	1,238,770	1,217,522	1,160,777
	<b>2,466,391</b>	<b>2,813,425</b>	<b>2,434,715</b>

\* Includes foreign exchange gain / (loss) of Rs.9,397, Rs.21,320 and Rs.(22,587) for the years ended March 31, 2010, 2009 and 2008 respectively.

Under the provisions of the Indian Income-tax Act, 1961, employers are required to pay fringe benefits tax (FBT) on the taxable value of the fringe benefits or privileges or that are provided or deemed to be provided to employees. FBT under the provisions of the Indian Income-tax Act, 1961 is Rs. Nil, Rs.19,880, Rs.16,910 for the years ended March 31, 2010, 2009 and 2008 respectively. FBT is withdrawn with effect from April 1, 2009.

**29. Personnel expenses**

	<b>March 31, 2010</b>	<b>Year ended March 31, 2009</b>	<b>March 31, 2008</b>
Salaries and wages	1,269,638	1,532,378	940,942
Contribution to provident fund and other funds	77,197	70,354	40,838
Staff welfare expenses	27,499	38,225	26,168
Employee stock compensation expense	30,589	61,380	60,933
	<b>1,404,923</b>	<b>1,702,337</b>	<b>1,068,881</b>
Attributable to cost of goods sold and services rendered	659,856	714,752	431,588
Attributable to selling, general and administration expenses	745,067	987,585	637,293

**Table of Contents****30. Share-based payments**

Share based payments are designed as equity-settled plans. Under the equity settled plans, the Group had issued stock options under Associate Stock Option Plan (ASOP) 1999, ASOP 2000, ASOP 2002, ASOP 2005 and ASOP 2007. Each option entitles the holder to purchase one American Depository Share (ADS) at an exercise price determined by the Compensation committee on the date of the grant. There are no options outstanding in respect of ASOP 1999 and ASOP 2000 plan as at April 1, 2009. Our stock option plans are detailed as under:

**(i) Associate Stock Option Plan 2002**

In fiscal year 2002, the Group established the Associate Stock Option Plan 2002 (the ASOP 2002 Plan) which provided for issuing stock options to eligible employees. On December 9, 2002, the Group issued options to the eligible employees at Rs. 1 each for purchasing one ADS at an exercise price determined by the Compensation Committee.

The options vest over a period of 3 years as follows:

One sixth of the options: At the end of one year from the date of the grant

Five sixth of the options: At the end of each quarter during the second and third year from the date of the grant in eight equal installments.

Upon vesting, employees have 30 days to exercise these options.

As the number of stock options and the price of those options were made known to each allottee, the Plan has been considered as a fixed price grant. Stock option activity under the ASOP 2002 Plan is as follows:

No. of options granted, exercised and forfeited	Number of options			Weighted average exercise price in Rs.		
	2010	2009	2008	2010	2009	2008
Outstanding at beginning of the year			6,250			228.74
Granted during the year						
Forfeited during the year						
Expired during the year			6,250			228.74
Exercised during the year						
Outstanding at the end of the year						
Exercisable at the end of the year						

**(ii) Associate Stock Option Plan 2005**

In October 2005, the Group established the Associate Stock Option Plan 2005 (the ASOP 2005 Plan) which provided for issuing 1,900,000 stock options to eligible employees. The Group cancelled on September 22, 2005, all the unissued stock options pertaining to previous plans and / or the stock options surrendered or lapsed.

The options vest over a period of 3 years as follows:

One sixth of the options: At the end of one year from the date of the grant

Five sixth of the options: At the end of each quarter during the second and third year from the date of the grant in eight equal installments.

**Table of Contents**

The stock options can be exercised only after they vest but before the expiry date of forty months from the date of the grant.

As the number of stock options and the price of those options were made known to each allottee, the Plan has been considered as a fixed price grant. Stock option activity under the ASOP 2005 Plan is as follows:

No. of options granted, exercised and forfeited	Number of options			Weighted average exercise price in Rs.		
	2010	2009	2008	2010	2009	2008
Outstanding at the beginning of the year		326,093	868,195		328.84	238.32
Granted during the year			119,400			340.82
Forfeited during the year		(29,167)	(122,442)		449.16	376.64
Expired during the year		(296,926)	(28,293)		317.02	461.51
Exercised during the year			(13,567)			238.32
Replaced during the year (Refer to notes below)			(497,200)			422.91
Outstanding at the end of the year			326,093			328.84
Vested and exercisable at the end of the year			235,010			328.84
Weighted average grant date fair value of grants during the year						120.00

**(iii) Associate Stock Option Plan 2007**

In September 2007, the Shareholders of the Group approved a new scheme for allotment of stock options to employees, the Associate Stock Option Plan 2007. Consequent upon the introduction of ASOP 2007 plan, 797,600 unissued stock options pertaining to Associate Stock Option Plan 2005 are no longer available for issuance.

The options vest over a period of 4 years as follows:

One sixth of the option quantity: At the end of one year from the date of the grant.

Five sixth of the option quantity: At the end of each quarter during the second, third and fourth year from the date of the grant in twelve equal installments.

The stock options can be exercised within a period of twelve months from the date of last vesting.

As the number of stock options and the price of those options were made known to each allottee, the Plan has been considered as a fixed price grant. Stock option activity under the ASOP 2007 Plan is as follows:

No. of options granted, exercised and forfeited	Number of options 2010	Weighted average exercise price in Rs. 2010	Number of options 2009	Weighted average exercise price in Rs. 2009	Number of options 2008	Weighted average exercise price in Rs. 2008
Granted during the year	50,000	89.34	142,500	117.46	708,200	184.84
Replaced (Refer to notes below)					(123,900)	184.84

Replacement options granted (Refer to notes below)					621,100	
Forfeited during the year	(93,616)	153.58	(131,000)	158.77	(5,000)	157.35
Expired during the year	(88,068)	158.01				308.42
Exercised during the year	(1,416)	59.02				
Outstanding at the end of the year	1,078,800	149.21	1,211,900	152.51	1,200,400	157.35
Vested and Exercisable at the end of the year	437,210	155.55	185,167	157.35		
Weighted average grant date fair value of grants during the year				71.82		80.78

**Table of Contents**

The fair value of stock options granted has been measured using the Black Scholes model at the date of the grant. The Black Scholes model includes assumptions regarding dividend yields, expected volatility, expected term (or option life) and risk free interest rates. In respect of the options granted, the expected term is estimated based on the vesting term, contractual term as well as expected exercise behavior of the employees receiving the option. Expected volatility of the option is based on historical volatility, during a period equivalent to the option life, of the observed market prices of the Company's publicly traded equity shares. Dividend yield of the options is based on the recent dividend activity. Risk-free interest rates are based on the government securities yield in effect at the time of the grant. These assumptions reflect management's best estimates, but these assumptions involve inherent market uncertainties based on market conditions generally outside the Company's control. As a result, if other assumptions had been used in the current period, stock-based compensation expense could have been materially impacted. Further, if management uses different assumptions in the future periods, stock compensation expense could be materially impacted in future years. The estimated fair value of stock options is charged to income on a straight-line basis over the requisite service period for each separately vesting portion of the award as if the award was, in substance, multiple awards.

The fair value of services received in return for share options granted under ASOP 2007 is based on the fair value of share options granted measured using Black Scholes model, with the following inputs:

	Year ended March 31, 2010	Year ended March 31, 2009	Year ended March 31, 2008
No. of options granted, exercised and forfeited	99.26	130.41	174.83
Weighted average share price	89.34	117.46	157.35
Weighted average exercise price	115.8%	53.5%	53.83%
Expected volatility	136.7%	120.0%	77.82%
Option life	3 4.5 years	3 4.5 years	3 4.5 years
Expected dividends		1.64%	
Risk-free interest rate	2.43%	2.69%	3.45%
			2.50%
			7.50%

A summary of information about fixed price stock options outstanding as at March 31, 2010 is furnished below:

	Range of exercise price in Rs.	Number outstanding at March 31, 2010	Weighted average exercise price in Rs.	Weighted average remaining contractual life	Number exercisable at March 31, 2010	Weighted average exercise price in Rs.
ASOP 2007	51.51-188.32	1,078,800	149.21	2.97	437,210	155.55

**Modification**

During the year ended March 31, 2008, the stock options issued under ASOP 2005 and ASOP 2007 had been out of money for most time of the vesting period. As a result, the Group's compensation committee allowed certain employees in their approval dated January 22, 2008 to surrender their (a) unvested (b) vested and (c) unexercised stock options and obtain fresh options at a discount of 10% of the market price under ASOP 2007 prevalent at the date of modification in lieu of the surrendered stock options. This modification resulted in the revision in the exercise price as well as the service period over which the stock options vest. Consequent upon modification, 497,200 stock options of ASOP 2005 plan and 123,900 stock options of ASOP 2007 plan were replaced with an allotment of equal number of fresh options to those who surrendered.

**Table of Contents**

The incremental fair value of the stock options replaced was determined by reference to the difference between the fair value of the replaced stock options and the fair value of the cancelled stock options at the date of grant of new stock options. The incremental fair value as a result of such modification in respect of modified options amounted to Rs.20,959 during the year ended March 31, 2008. In respect of modification that has occurred during the vesting period, the incremental fair value granted is included in the measurement of the amount recognised, for services received over the period from the modification date until the date when the modified equity instruments vest, in addition to the amount based on the grant date fair value of the original equity instruments, which is recognised over the remainder of the original vesting period. In respect of the modification that has occurred after vesting date, the incremental fair value granted is recognised immediately or over the vesting period if the employee is required to complete an additional period of service before becoming unconditionally entitled to those modified equity instruments. The incremental cost recognised in respect of such modified options amounted to Rs.5,039, Rs.8,838 and Rs 2,120 for the years ended March 31, 2010, 2009 and 2008 respectively.

The assumptions that were used in arriving at the incremental fair value are as summarized below:

<b>Assumptions</b>	<b>Pre modification</b>		<b>Post modification</b>	
	Current market price	174.83		174.83
Exercise price	308.34	578.38	157.35	
Expected term	3	4.5 years	3	4.5 years
Volatility	53.83%		53.01% 77.82%	
Dividend yield	77.82%		0%	
Discount rate	0%		2.5%	

**31. Financial income and expense**

	<b>March 31, 2010</b>	<b>Year ended March 31, 2009</b>	<b>March 31, 2008</b>
Interest income on bank deposits	19,489	116,495	160,262
Interest income from leases		435	1,232
Others	8,505	5,635	289
<b>Finance income</b>	<b>27,994</b>	<b>122,565</b>	<b>161,783</b>

Bank charges (including letter of credit, bill discounting and buyer's credit charges)	100,241	86,216	46,484
Interest expense on borrowings	177,156	163,201	9,372
<b>Finance expense</b>	<b>(293,873)</b>	<b>(251,660)</b>	<b>(57,682)</b>
<b>Net finance income / (expense) recognised in profit or loss</b>	<b>(265,879)</b>	<b>(129,095)</b>	<b>104,101</b>

**32. Earnings / (loss) per share**

The calculation of basic earnings / (loss) per share for the years ended March 31, 2010, 2009 and 2008 is based on the earnings / (loss) attributable to ordinary shareholders of Rs. 33,051, Rs.(900,574) and Rs.(4,696) respectively and a weighted average number of shares outstanding of 50,840,358, 43,350,320, and 42,877,726 respectively, calculated as follows:

**Year ended**

Edgar Filing: SIFY TECHNOLOGIES LTD - Form 20-F

	<b>March 31, 2010</b>	<b>March 31, 2009</b>	<b>March 31, 2008</b>
Net profit / (loss ) as reported	17,027	(900,574)	(4,696)
Weighted average number of shares basic	50,840,358	43,350,320	42,877,726
Basic earnings / (loss) per share	0.33	(20.77)	(0.11)
Weighted average number of shares diluted	50,853,293	43,350,320	42,877,726
Diluted earnings / (loss) per share	0.33	(20.77)	(0.11)

**Table of Contents****Weighted average number of ordinary shares basic**

	<b>Year ended March 31,</b>		
	<b>2010</b>	<b>2009</b>	<b>2008</b>
Issued fully paid ordinary shares at April 01	42,820,082	42,820,082	42,800,265
Effect of shares issued on exercise of stock options	166		14,562
Effect of partly paid shares		530,238	62,899
Effect of shares issued consequent to amalgamation of Sify Communications Limited	8,020,110		
 Weighted average number of equity shares and equivalent shares outstanding	 50,840,358	 43,350,320	 42,877,726

**Weighted average number of ordinary shares diluted**

	<b>Year ended March 31,</b>		
	<b>2010</b>	<b>2009</b>	<b>2008</b>
Weighted average number of ordinary shares (basic)	50,840,358	43,350,320	42,877,726
Effect of stock options	12,935		
 Weighted average number of equity shares outstanding (diluted)	 50,853,293	 43,350,320	 42,877,726

As the Company incurred a net loss attributable to ordinary shareholders for the years ended March 31, 2009 and 2008, 11,535,300 partly paid shares as at March 31, 2008, 1,211,900 and 1,526,493 ordinary shares arising out of potential exercise of outstanding stock options as at March 31, 2009 and 2008 were not included in the computation of diluted earnings per share, as their effect was anti-dilutive.

**33. Operating leases**

The Group leases office buildings and other equipment under operating lease arrangements that are renewable on a periodic basis at the option of both the lessor and the lessee. Some of the leases include rent escalation clauses. Rental expenses under these leases were Rs.329,332, Rs.336,899 and Rs.173,951 for the years ended March 31, 2010, 2009 and 2008 respectively. The schedule of future minimum rental payments in respect of operating leases is set out below:

*As at March 31, 2010*

<b>Lease obligations</b>	<b>Total</b>	<b>Less than 1 year</b>	<b>1-5 years</b>	<b>More than 5 years</b>
Non-cancellable operating lease obligations	1,608,509	119,871	407,890	1,080,748
Non-cancellable obligations towards proposed lease *	2,423,554	22,850	520,808	1,879,896

*As at March 31, 2009*

<b>Lease obligations</b>	<b>Total</b>	<b>Less than 1 year</b>	<b>1-5 years</b>	<b>More than 5 years</b>
Non-cancellable operating lease obligations	1,801,477	135,165	585,564	1,080,748
Non-cancellable obligations towards proposed lease *	2,423,554		549,538	1,874,016

\* For details on proposed lease, refer Note 37 on related parties.

**Table of Contents****34. Segment reporting**

The primary operating segments of the Group are:

- Corporate network/data services, which provides Internet, connectivity, security and consulting, hosting and managed service solutions;
- Internet access services, from homes and through cybercafés,
- Online portal services and content offerings; and
- Other services, such as development of e-learning software.

The Chief Operating Decision Maker ( CODM ) evaluates the Group s performance and allocates resources to various strategic business units that are identified based on the products and services that they offer and on the basis of the market served. The measure of profit / loss reviewed by the CODM is Earnings/loss before interest, taxes, depreciation and amortisation also referred to as segment operating income / loss . Revenue in relation to segments is categorized based on items that are individually identifiable to that segment. Bandwidth costs, which form a significant part of the total expenses, are allocated primarily between the corporate network/data services and Internet access services businesses as described below:

International bandwidth refers to bandwidth that is required for access to sites and offices outside the country. For all these businesses, bandwidth is allocated based on actual utilization captured by monitoring traffic per IP pool assigned at the egress points. The Group has packet shapers in the main locations to monitor bandwidth use by each of the above categories of users. This information is used to determine parameters such as bandwidth per port and bandwidth per PC. The actual utilization is cross validated against assumptions / norms for each business.

National bandwidth refers to the inter-city link bandwidth implemented within the country. Inter-city link bandwidth was allocated based on the number of subscribers or iway cybercafés at non gateway points and the bandwidth sold to and used by business enterprises (determined using packet shapers). However, in order to strengthen its corporate business, the Group enhanced its national backbone to carry Internet traffic to the international fibre gateways, shifting from hybrid satellite and fibre gateways to fibre only gateways for international bandwidth. National bandwidth costs are now allocated based on international bandwidth allocation ratios because most of the traffic carried on the national backbone is directed towards the international gateways.

International and national bandwidth is allocated based on actual usage at an agreed methodology between corporate and retail businesses. The bandwidth costs, bandwidth management costs viz infrastructure and manpower costs are absorbed by corporate business. The costs for retail are routed through agreed transfer price. The Group believes that the resulting allocations are reasonable.

Last mile costs related to dial-up access that can be directly identified to businesses are allocated directly. Spectrum charges paid for the license to operate on the 5.7 GHz wireless spectrum are allocated based on the bandwidth used by the various businesses that use this spectrum. Certain expenses, such as depreciation, technology and administrative overheads, which form a significant component of total expenses, are not allocable to specific segments as the underlying services are used interchangeably. Management believes that it is not practical to provide segment disclosure of these expenses and, accordingly, they are separately disclosed as unallocated and adjusted only against the total income of the Group.

A significant part of the fixed assets used in the Group s business are not identifiable to any of the reportable segments and can be used interchangeably between segments. As a result the measures of segment assets and liabilities are not regularly reviewed by the CODM and hence disclosures relating to segment assets and liabilities have not been provided.

**Table of Contents**

The Group's operating segment information for the years ended March 31, 2010, 2009 and 2008, are presented below:  
**Year ended March 31, 2010**

	<b>Corporate network / data services</b>	<b>Internet access services A</b>	<b>Online portal services B</b>	<b>Consumer one (Sub-total) A+B</b>	<b>Other services</b>	<b>Total</b>

**Table of Contents****Geographic segments**

The Group has two geographic segments India and rest of the world. Revenues from the geographic segments based on domicile of the customer are as follows:

Description	India	Rest of the world	Total
<b>Revenues</b>			
Year ended March 31, 2010	4,950,352	1,759,836	6,710,188
Year ended March 31, 2009	5,071,137	1,091,024	6,162,161
Year ended March 31, 2008	5,342,248	663,967	6,006,215

The Group does not disclose information relating to non-current assets located in India and rest of the world as the necessary information is not available and the cost to develop it would be excessive.

**35. Contingencies**

a) During the previous years, the Group had received assessment orders from the Income-tax Department of India for various financial years disallowing certain expenditure like bandwidth charges and foreign currency payments for non-deduction of withholding taxes. The Company appealed against those order before Commissioner of Income Tax (Appeals) (CIT(A)) and received favourable orders. The department has filed appeals before Income Tax Appellate Tribunal (ITAT) disputing CIT(A) orders. The group believes that the appeal by the department is not sustainable and consequently no loss contingency is necessary as at March 31, 2010.

b) Contingencies due to certain service tax claims as at March 31, 2010 amounted to Rs 33,280 (March 31, 2009: Rs.19,637).

c) Additionally, the Group is also involved as a party to lawsuits, claims and proceedings, which arise in the ordinary course of business. The Group does not foresee any material contingency out of the pending issues.

d) The Group during the year ended March 31, 2009 entered into a contract with Emirates Integrated Telecom for the construction and supply of capacity from the Europe India Gateway. As per the contract with Emirates, the Group is required to pay its share of decommissioning costs if any that may arise in the future. No provision has been made by the Group for such decommissioning costs as the amount of provision cannot be measured reliably as at March 31, 2010.

d) In respect of contingencies arising on legal proceedings, refer Note 36.

**36. Legal proceedings**

a) The Group and certain of its officers and directors are named as defendants in a securities class action lawsuit filed in the United States District Court for the Southern District of New York. This action, which is captioned In re Satyam Infoway Ltd. Initial Public Offering Securities Litigation, also names several of the underwriters involved in Sify's initial public offering of American Depositary Shares as defendants. This class action is brought on behalf of a purported class of purchasers of Sify's ADSs from the time of Sify's Initial Public Offering (IPO) in October 1999 through December 2000. The central allegation in this action is that the underwriters in Sify's IPO solicited and received undisclosed commissions from, and entered into undisclosed arrangements with, certain investors who purchased Sify's ADSs in the IPO and the aftermarket. The complaint also alleges that Sify violated the United States Federal Securities laws by failing to disclose in the IPO prospectus that the underwriters had engaged in these allegedly undisclosed arrangements. More than 300 issuers have been named in similar lawsuits.

**Table of Contents**

In July 2002, an omnibus motion to dismiss all complaints against issuers and individual defendants affiliated with issuers was filed by the entire group of issuer defendants in these similar actions. In October 2002, the cases against the Company's executive officers who were named as defendants in this action were dismissed without prejudice. In February 2003, the court in this action issued its decision on defendants' omnibus motion to dismiss. This decision denied the motion to dismiss the Section 11 claim as to the Company and virtually all of the other issuer defendants. The decision also denied the motion to dismiss the Section 10(b) claim as to numerous issuer defendants, including the Company. On June 26, 2003, the plaintiffs in the consolidated IPO class action lawsuits currently pending against Sify and over 300 other issuers who went public between 1998 and 2000, announced a proposed settlement with Sify and the other issuer defendants. The proposed settlement provided that the insurers of all settling issuers would guarantee that the plaintiffs recover \$1 billion from non-settling defendants, including the investment banks who acted as underwriters in those offerings. In the event that the plaintiffs did not recover \$1 billion, the insurers for the settling issuers would make up the difference. This proposed settlement was terminated on June 25, 2007, following the ruling by the United States Court of Appeals for the Second Circuit on December 5, 2006, reversing the District Court's granting of class certification.

On August 14, 2007, the plaintiffs filed Amended Master Allegations. On September 27, 2007, the Plaintiffs filed a Motion for Class Certification. Defendants filed a Motion to Dismiss the focus cases on November 9, 2007. On March 26, 2008, the Court ruled on the Motion to Dismiss, holding that the plaintiffs had adequately pleaded their Section 10(b) claims against the Issuer Defendants and the Underwriter Defendants in the focus cases. As to the Section 11 claim, the Court dismissed the claims brought by those plaintiffs who sold their securities for a price in excess of the initial offering price, on the grounds that they could not show cognizable damages, and by those who purchased outside the previously certified class period, on the grounds that those claims were time barred. This ruling, while not binding on the Company's case, provides guidance to all of the parties involved in this litigation. On October 2, 2008, plaintiffs requested that the class certification motion in the focus cases be withdrawn without prejudice. On October 10, 2008, the Court signed an order granting that request. On April 2, 2009, the parties lodged with the Court a motion for preliminary approval of a proposed settlement between all parties, including the Company and its former officers and directors. The proposed settlement provides the plaintiffs with \$586 million in recoveries from all defendants. Under the proposed settlement, the Issuer Defendants collectively would be responsible for \$100 million, which would be paid by the Issuers' insurers, on behalf of the Issuer Defendants and their officers and directors.

Accordingly, any direct financial impact of the proposed settlement is expected to be borne by the Company's insurers. On June 12, 2009, the Federal District Court granted preliminary approval of the proposed settlement. On October 6, 2009, the District Court issued an order granting final approval of the settlement. Subsequent to the final approval of Settlement agreement by the District court, there are several notices of appeal filed. Most were filed by the same parties that objected to the settlement in front of the District Court. These will likely be consolidated into a single appeal and briefing schedule will be provided shortly. Any direct financial impact of the preliminary approved settlement is expected to be borne by the Company's insurers. The Company believes, the maximum exposure under this settlement is approximately US\$ 338,983, an amount which the Company believes is fully recoverable from the Company's insurer.

(b) During the year,

On October 12, 2009, Department of Telecommunications ( DOT ) raised a demand on Sify Technologies for INR 14 million after correcting the arithmetical error in the Assessment letter issued by the DoT.

On February 26, 2010 DOT raised a demand on Sify Communications (erstwhile subsidiary merged with Sify Technologies Limited) for INR 26 million.

**Table of Contents**

These demands were primarily alleged that Sify has not paid license fee on the following;

Certain items of income have been considered by DOT as licensed activities for payment of licensee fee as the information was not available to DOT.

Certain items like other income, interest on deposits, gain on foreign exchange fluctuation, profit on sale of assets, provision written back has been considered by DOT as income eligible for licensed activities as against the Company's claim that they are not liable for license fee.

The Company has responded to the above said demand notices stating that the above demands are not tenable as the demands were not in accordance with the Telecom Disputes Settlement & Appellate Tribunal ( TDSAT ) Order which has clarified in its Order that the items of income which are liable for license fee and items of income on which license fees are not liable to be paid. However the TDSAT Order has been challenged in Supreme Court by DoT and Associations of service providers and finality would be arrived only after the decision of the Court. The Company currently pays license fee in accordance with the TDSAT Order and Sify believes that it has adequate legal defenses for these demands and the ultimate outcome of these actions will not have a material adverse effect on Sify.

(ii) During the year, in November 2009, the Company received a demand notice pertaining to the allocation of spectrum in the 3.3-3.4 GHz frequency, from DoT, demanding INR 345 million towards spectrum charges payable from the date of issue of allocation letter for 170 Base Stations. As per the notice, in case no payment is received within 15 days from the date of issue of the notice, then it would be presumed that the Company is no longer interested for the frequency assignments in 3.3-3.4 GHz band.

Whilst the Company received allotment letter for Spectrum in **3.3 GHz band** (3303.5/3353.5 MHz) (Total 12 MHz) the Company had neither started any operations in this frequency band nor had applied for any Operating License from DoT/ Wireless Planning Commission (WPC). Sify believes that the obligation to make payment will arise only after obtaining the operating license from DoT/WPC. Sify also believes that it has adequate legal defenses for these demands, as the Company has not yet obtained any operative license, hence such demand is not tenable. Nevertheless, the Company has as a commitment to hold and use the spectrum in the above band has paid INR 11.56 million towards 40 Base Stations and has surrendered the remaining 130 Base Stations. The Company believes that the ultimate outcome of these actions will not have a material adverse effect on Sify.

c) The Group is party to additional legal actions arising in the ordinary course of business. Based on the available information, as at March 31, 2010, Sify believes that it has adequate legal defenses for these actions and that the ultimate outcome of these actions will not have a material adverse effect on Sify. However in the event of adverse judgement in all these cases, the maximum financial exposure would be Rs 9,051 (March 31, 2009: Rs 9,200)

**37. Related parties**

The related parties where control / significant influence exists are subsidiaries and associates. Key management personnel are those persons having authority and responsibility for planning, directing and controlling the activities of the entity, directly or indirectly, including any director whether executive or otherwise. Key management personnel includes the board of directors and other senior management executives. The other related parties are those with whom the Group has had transaction during the years ended March 31, 2010, 2009 and 2008 are as follows:

Particulars	Country of incorporation	% of Ownership interest	
		March 31, 2010	March 31, 2009

\* Represents deposits made to VALS Developers Private Limited ( VALS ). VALS is owned and controlled by Raju Vegesna Infotech & Industries Private Limited, in which Mr. Raju Vegesna, our principal share holder and Chief Executive Officer, is holding 94.66% equity in his personal capacity. During the year ended March 31, 2009, Sify entered into a Memorandum of Understanding ( MoU) for long term lease with VALS Developers Private Limited to obtain land and building which is in the process of being constructed. The lease agreement, when final and executed, was expected to have an initial non-cancellable term of 5 years, with a further option for Sify to renew or cancel the lease for the

incremental five year terms. In connection with this memorandum of understanding, Sify has paid a security deposit of Rs.125,700 and advance rental of Rs.157,125 to VALS. As per the terms of the MOU, the security deposit will be refunded at the end of lease term and the advance rental would be adjusted over a period of 15 months from the commencement of the lease. Subsequently on October 30,2010, the Board of Directors have proposed to cancel the MoU for lease arrangement and has decided to acquire the property which is under construction from the third party directly. The above deposits would be adjusted against the consideration payable for acquiring the property.

\*\* Also refer note 16 in relation to transactions

relating to issue of equity shares to Infinity Satcom Universal Private Limited.

\*\*\* Some of the key management personnel of the Group are also covered under the Group's gratuity plan along with other employees of the Group. Proportionate amounts of gratuity accrued under the gratuity plan have not been separately computed or included in the above disclosure.

### 38. Financial instruments

#### *Financial instruments by category*

The carrying value and fair value of financial instruments by each category as at March 31, 2010 were as follows:

Particulars	Note	Loans and receivables	Financial assets / liabilities at fair value through profit and loss	Available for sale	Other financial liabilities	Total carrying value	Total fair value
			and		liabilities		
<b>Assets</b>							
Cash and cash equivalents	8	878,698				878,698	878,698
Other assets	10	249,744				249,744	249,744
Trade receivables	13	1,912,348				1,912,348	1,912,348
Other receivables	13	315,835				315,835	315,835
Derivative financial instruments	13		6,998			6,998	6,998
<b>Liabilities</b>							
Bank overdraft	8				1,060,284	1,060,284	1,060,284
Finance lease liabilities	17				201,317	201,317	201,317
Other liabilities	19				165,800	165,800	165,800

Borrowings from banks	20	1,239,105	1,239,105	1,239,105
Borrowings from others	20	163,165	163,165	163,165
Trade and other payables	21	1,798,764	1,798,764	1,798,764

**Table of Contents**

The carrying value and fair value of financial instruments by each category as at March 31, 2009 were as follows:

<b>Particulars</b>	<b>Note</b>	<b>Loans and receivables</b>	<b>Financial assets / liabilities at fair value through profit and loss</b>	<b>Available for sale</b>	<b>Other financial liabilities</b>	<b>Total carrying value</b>	<b>Total fair value</b>
<b>Assets</b>							
Cash and cash equivalents	8	1,710,798				1,710,798	1,710,798
Other assets	10	227,468				227,468	227,468
Trade receivables	13	1,504,927				1,504,927	1,504,927
Other receivables	13	402,992				402,992	402,992
Derivative financial instruments	13		2,997			2,997	2,997
Other investments	15			13,874		13,874	13,874
<b>Liabilities</b>							
Bank overdraft	8				1,397,083	1,397,083	1,397,083
Finance lease liabilities	17				155,325	155,325	155,325
Other liabilities	19				134,116	134,116	134,116
Borrowings from banks	20				1,384,519	1,384,519	1,384,519
Trade and other payables	21				1,411,358	1,411,358	1,411,358

**Details of financial assets pledged as collateral**

The carrying amount of financial assets as March 31, 2010 and 2009 that the Group has provided as collateral for obtaining borrowings and other facilities from its bankers are as follows:

	<b>March 31, 2010</b>	<b>March 31, 2009</b>
Cash and cash equivalents	878,698	1,710,798
Other assets	249,744	227,468
Trade receivables	1,912,348	1,504,927
Other receivables	315,835	402,992
	<b>3,356,625</b>	<b>3,846,185</b>

**Derivative financial instruments**

Foreign exchange forward contracts and options are purchased to mitigate the risk of changes in foreign exchange rates associated with certain payables, receivables and forecasted transactions denominated in certain foreign currencies. These derivative contracts do not qualify for hedge accounting under IAS 39, and are initially recognised at fair value on the date the contract is entered into and subsequently re-measured at their fair value. Gains or losses arising from changes in the fair value of the derivative contracts are recognised immediately in profit or loss. The counterparties for these contracts are generally banks or financial institutions. The following table gives details in

respect of the notional amount of outstanding foreign exchange and option contracts as on March 31, 2010 and 2009:

	<b>March 31, 2010</b>	<b>As of March 31, 2009</b>
<b>Forward contracts</b>		
In U.S. Dollars (Sell)		
In U.S Dollars (Buy)		
<b>Option contracts</b>		
In U.S Dollars (Sell)	67,710	216,538
In U.S Dollars (Buy)		25,475

The Company recognized a net gain on derivative financial instruments of Rs.6,998 for the year ended March 31, 2010 and a net gain of Rs.2,997 during the year ended March 31, 2009 and a net loss of Rs.2,513 during the year ended March 31, 2008.

The forward exchange contracts and option contracts mature between one and twelve months. The table below summarizes the notional amounts of derivative financial instruments into relevant maturity groupings based on the remaining period as at the end of the year:

	<b>March 31, 2010</b>	<b>As of March 31, 2009</b>
<b>Sell:</b>		
Not later than one month	33,855	25,525
Later than one month and not later than three months	33,855	50,950
Later than three months and not later than six months		76,425
Later than six months and not later than one year		63,638
	<b>67,710</b>	<b>216,538</b>

**Table of Contents**

	<b>March 31, 2010</b>	<b>As of March 31, 2009</b>
<b>Buy:</b>		
Not later than one month		25,475
Later than one month and not later than three months		
Later than three months and not later than six months		
Later than six months and not later than one year		
		<b>25,475</b>

**Interest, (expenses), gains and (losses) recognized on financial assets and liabilities  
Recognised in profit or loss**

	<b>March 31, 2010</b>	<b>Year ended March 31, 2009</b>	<b>March 31, 2008</b>
<b>Loans and receivables</b>			
Interest income on bank deposits	19,489	116,495	160,262
Interest income from leases		435	1,232
Interest income from other loans and receivables	8,505	5,635	289
Impairment loss of trade receivables	(121,987)	(84,346)	(131,954)
Impairment loss on finance lease receivables		(6,929)	
<b>Financial assets at fair value through profit or loss</b>			
Net change in fair value of derivative financial instruments	6,998	2,997	(3,312)
<b>Other financial liabilities</b>			
Interest expenses on lease obligations	(16,476)	(2,243)	(1,826)
Interest expenses on borrowings from banks, others and overdrafts	(177,156)	(163,201)	(9,372)
<b>Recognised directly in other comprehensive income</b>			

	<b>March 31, 2010</b>	<b>Year ended March 31, 2009</b>	<b>March 31, 2008</b>
Net change in fair value of available-for-sale financial assets		(5,361)	(1,080)

**39. Financial Risk Management**

The Group has exposure to the following risks from its use of financial instruments:

- Credit risk
- Liquidity risk
- Market risk

The Board of Directors has overall responsibility for the establishment and oversight of the Group's risk management framework. The Board of Directors have established a risk management policy to identify and analyze the risks faced by the Group, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management systems are reviewed periodically to reflect changes in market conditions and the Group's activities. The Group Audit Committee oversees how management monitors compliance with the Group's risk management policies and procedures, and reviews the risk management framework. The Group Audit Committee is assisted in its oversight role by Internal Audit. Internal Audit undertakes reviews of risk management controls and procedures, the results of which are reported to the Audit Committee.

**Table of Contents**

**Credit risk:** Credit risk is the risk of financial loss to the Group if a customer or counterparty to a financial instrument fails to meet its contractual obligations and arises principally from the Group's trade receivables, treasury operations and other activities that are in the nature of leases.

*Trade and other receivables*

The Group's exposure to credit risk is influenced mainly by the individual characteristics of each customer. Management considers that the demographics of the Group's customer base, including the default risk of the industry and country in which customers operate, has less of an influence on credit risk. The group is not exposed to concentration of credit risk to any one single customer since the services are provided to and products are sold to customers who are spread over a vast spectrum. Credit risk is managed through credit approvals, establishing credit limits and continuously monitoring the credit worthiness of the customers to which the Company grants credit terms in the normal course of the business.

*Cash and cash equivalents and other investments*

In the area of treasury operations, the Group is presently exposed to counter-party risks relating to short term and medium term deposits placed with public-sector banks, and also to investments made in mutual funds.

*Guarantees*

The Group's policy is to provide financial guarantees only to subsidiaries.

The Chief Financial Officer is responsible for monitoring the counterparty credit risk, and has been vested with the authority to seek Board's approval to hedge such risks in case of need.

**Exposure to credit risk**

The gross carrying amount of financial assets, net of any impairment losses recognized represents the maximum credit exposure. The maximum exposure to credit risk as at March 31, 2010 and 2009 was as follows:

	<b>March 31, 2010</b>	<b>March 31, 2009</b>
Cash and cash equivalents	878,698	1,710,798
Other assets	249,744	227,468
Trade receivables	1,912,348	1,504,927
Other receivables	315,835	402,992
Derivative financial instruments	6,998	2,997
Other investments		20,315
	<b>3,363,623</b>	<b>3,869,497</b>

**Financial assets that are past due but not impaired**

There is no other class of financial assets that is past due but not impaired other than trade receivables. The age analysis of trade receivables have been considered from the date of invoice. The ageing of trade receivables, net of allowances that are past due, is given below:

<b>Period (in days)</b>	<b>March 31, 2010</b>	<b>March 31, 2009</b>
Past due 181 - 270 days	160,979	120,662
Past due 271 - 365 days	29,346	59,534
More than 365 days	114,932	
	<b>305,257</b>	<b>180,196</b>

See note 13 for the activity in the allowance for impairment of trade account receivables.

**Table of Contents****Financial assets that are not past due**

Cash and cash equivalents, other assets, other receivables and finance lease receivables are neither past due nor impaired. Of the total trade receivables that are not past due as at March 31, 2010 amounting to Rs.1,627,059 (March 31, 2009: Rs.1,324,731) impairment to the extent of Rs 19,968 (March 31, 2009: Nil) has been recorded.

**Details of collateral and other credit enhancements held**

	<b>March 31, 2010</b>	<b>March 31, 2009</b>
Security deposits received for internet access services	16,236	32,918

**Liquidity risks:** Liquidity risk is the risk that the Group will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Group's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under normal and stressed conditions, without incurring unacceptable losses or risking damage to the Group's reputation. Typically the Group ensures that it has sufficient cash on demand to meet expected operational expenses, servicing of financial obligations. In addition, the Group has concluded arrangements with well reputed Banks, and has unused lines of credit that could be drawn upon should there be a need. The Company is also in the process of negotiating additional facilities with Banks for funding its requirements.

The following are the contractual maturities of financial liabilities, including estimated interest payments and excluding the impact of netting agreements:

**As at March 31, 2010**

	<b>Carrying amount</b>	<b>Contractual cash flows</b>	<b>0-12 months</b>	<b>1-3 years</b>	<b>3-5 years</b>
<b>Non-derivative financial liabilities</b>					
Bank overdrafts	1,060,284	1,060,284	1,060,284		
Finance lease liabilities	201,317	247,354	65,148	123,922	58,284
Other liabilities	165,800	165,800	165,800		
Borrowing from banks	1,239,105	1,333,922	972,962	360,960	
Borrowings from others	163,165	207,828	57,041	91,247	59,540
Trade and other payables	1,798,764	1,798,764	1,798,764		
	<b>4,628,435</b>	<b>4,813,952</b>	<b>4,119,999</b>	<b>576,129</b>	<b>117,824</b>

**As at March 31, 2009**

	<b>Carrying amount</b>	<b>Contractual cash flows</b>	<b>0-12 months</b>	<b>1-3 years</b>	<b>3-5 years</b>
<b>Non-derivative financial liabilities</b>					
Bank overdrafts	1,397,083	1,397,083	1,397,083		
Finance lease liabilities	155,325	180,989	42,743	84,746	53,500
Other liabilities	134,116	134,116	134,116		
Borrowing from banks	1,384,159	1,498,236	1,261,604	200,694	35,938
Trade and other payables	1,411,358	1,411,358	1,411,358		
	<b>4,482,041</b>	<b>4,621,782</b>	<b>4,246,904</b>	<b>285,440</b>	<b>89,438</b>

**Market risk:** Market risk is the risk of loss of future earnings or fair values or future cash flows that may result from a change in the price of a financial instrument. The value of a financial instrument may change as a result of changes in the interest rates, foreign exchange rates and other market changes that affect market risk sensitive instruments. Market risk is attributable to all market risk sensitive financial instruments including foreign currency receivables and payables. The Group is exposed to market risk primarily related to foreign exchange rate risk (currency risk), interest rate risk and the market value of its investments. Thus the Group's exposure to market risk is a function of investing and borrowing activities and revenue generating and operating activities in foreign currencies.

**Table of Contents**

*Currency risk:* The Group's exposure in USD, Euro and other foreign currency denominated transactions gives rise to Exchange Rate fluctuation risk. Group's policy in this regard incorporates:

Forecasting inflows and outflows denominated in US\$ for a twelve-month period

Estimating the net-exposure in foreign currency, in terms of timing and amount

Determining the extent to which exposure should be protected through one or more risk-mitigating instruments to maintain the permissible limits of uncovered exposures.

Carrying out a variance analysis between estimate and actual on an ongoing basis, and taking stop-loss action when the adverse movements breaches the 5% barrier of deviation, subject to review by Audit Committee.

The Group's exposure to foreign currency risk as at March 31, 2010 was as follows:

*All amounts in respective currencies as mentioned (in thousands)*

	<b>USD</b>	<b>CAD</b>	<b>CHF</b>	<b>Euro</b>	<b>GBP</b>	<b>DHS</b>	<b>HKD</b>
Cash and cash equivalents	1,198						
Trade receivables	8,869	168	209	32	96	1	
Trade payables	(4,764)			(31)	(12)		(11)
<b>Gross balance sheet exposure</b>	<b>5,303</b>	<b>168</b>	<b>209</b>	<b>1</b>	<b>84</b>	<b>1</b>	<b>(11)</b>
Forward exchange / option contracts	(1,500)						
<b>Net exposure</b>	<b>3,803</b>	<b>168</b>	<b>209</b>	<b>1</b>	<b>84</b>	<b>1</b>	<b>(11)</b>

The Group's exposure to foreign currency risk as at March 31, 2009 was as follows:

*All amounts in respective currencies as mentioned (in thousands)*

	<b>USD</b>	<b>CAD</b>	<b>CHF</b>	<b>Euro</b>	<b>GBP</b>	<b>SGD</b>	<b>DHS</b>
Cash and cash equivalents	1,347						
Trade receivables	5,770	301	161	2	91	16	
Trade payables	(3,390)			(15)	(14)	(26)	(6)
<b>Gross balance sheet exposure</b>	<b>3,727</b>	<b>301</b>	<b>161</b>	<b>(13)</b>	<b>77</b>	<b>(10)</b>	<b>(6)</b>
Forward exchange / option contracts	(3,750)						
<b>Net exposure</b>	<b>(23)</b>	<b>301</b>	<b>161</b>	<b>(14)</b>	<b>77</b>	<b>(10)</b>	<b>(6)</b>

**Sensitivity analysis**

A 10% strengthening of the rupee against the respective currencies as at 31 March 2010 and 2009 would have increased / (decreased) other comprehensive income and profit or loss by the amounts shown below. This analysis assumes that all other variables, in particular interest rates, remain constant. The analysis is performed on the same basis for 2009.

	<b>Other comprehensive income</b>	<b>Profit or loss</b>
March 31, 2010		(19,367)
March 31, 2009		(2,253)

A 10% weakening of the rupee against the above currencies as at March 31, 2010 and 2009 would have had the equal but opposite effect on the above currencies to the amounts shown above, on the basis that all other variables remain constant.

*Interest Rate Risk:* Interest rate risk is the risk that an upward movement in interest rates would adversely affect the borrowing costs of the group.

**Table of Contents****Profile**

At the reporting date the interest rate profile of the Group's interest-bearing financial instruments were as follows:

	Carrying amount	
	March 31, 2010	March 31, 2009
<b>Fixed rate instruments</b>		
<i>Financial assets</i>		
- Fixed deposits with banks	531,192	1,401,224
<i>Financial liabilities</i>		
- Borrowings from banks	697,165	850,826
- Borrowings from others	163,165	
<b>Variable rate instruments</b>		
<i>Financial liabilities</i>		
- Borrowings from banks	541,940	533,333
- Bank overdrafts	1,060,284	1,397,083

**Fair value sensitivity for fixed rate instruments**

The Group does not account for any fixed rate financial assets and liabilities at fair value through profit or loss, and the Group does not designate derivatives (interest rate swaps) as hedging instruments under a fair value hedge accounting model. Therefore a change in interest rates at the reporting date would not affect profit or loss.

**Cash flow sensitivity for variable rate instruments**

An increase of 100 basis points in interest rates at the reporting date would have increased / (decreased) equity and profit or loss by the amounts shown below. This analysis assumes that all other variables, in particular foreign currency rates, remain constant. The analysis has been performed on the same basis as 2009.

	Equity	Profit or loss
March 31, 2010		(16,022)
March 31, 2009		(19,304)

A decrease of 100 basis points in the interest rates at the reporting date would have had equal but opposite effect on the amounts shown above, on the basis that all other variable remain constant.

**40. Acquisition of non-controlling interest in subsidiary**

The Board of Directors and shareholders of the Company at their meeting held on November 24, 2008 approved the merger of Sify's subsidiary Sify Communications Limited, subject to approval by the Honorable High Court of Madras and other statutory authorities. Subsequently, the Company obtained the approval of Honorable High Court on June 26, 2009 which is binding on the Company and its subsidiary Sify Communications Limited and as part of the merger, the Company issued 10,530,000 equity shares to Infinity Satcom Universal Pvt. Limited (a company promoted by the principal shareholders of Sify) and acquired the remaining 26% equity interest of Sify Communications Limited. Although the merger was approved by the High Court on June 26, 2009, which is considered as the acquisition date for accounting purposes, for Income-tax purpose the effect of merger is retrospectively applied from April 1, 2008. The acquisition of this non-controlling interest has been accounted as a transaction with equity holders in their capacity as equity holders and accordingly no goodwill has been recognized. As a result of the acquisition of non-controlling interest, the following adjustments were incorporated in the consolidated financial statements for the year ended March 31, 2010:

As a consequence of the merger, the Company was eligible under the Indian Income-tax laws to consolidate the Income-tax returns of Sify and Sify Communications Limited retrospectively from April 1, 2008. Accordingly, the taxable income reported by Sify Communications Limited for the period subsequent to April 1, 2008 has been off-set against the previously fully reserved business losses of the Company. This resulted in the reversal of income tax liabilities aggregating to Rs.90,003

and a write off of deferred tax assets of Rs.8,524 during the year ended March 31, 2010.

**Table of Contents**

Consequent to the approval of the merger by the Honorable High Court on June 26, 2009, the Company was obliged to issue 10,530,000 shares which the Company has duly issued on July 16, 2009, and accordingly, the fair value of shares to be issued as at June 26, 2009 has been considered as the consideration for the acquisition of the non-controlling interest. The difference between the fair value of the consideration paid and the face value of equity shares issued is recorded as share premium and the difference between the fair value of the consideration paid and the carrying amount of non-controlling interests is recorded as an adjustment in equity and is included as part of share premium.

**41. IPO listing**

The Ministry of Finance of the Government of India ( MoF ) issued a press release dated March 31, 2006, making amendments to the Issue of Foreign Currency Convertible Bonds and Ordinary Shares (through Depository Receipt Mechanism) Scheme 1993 ( the Scheme ). The amendments included a statement that unlisted Companies which had accessed FCCBs, ADR/GDRs in terms of guidelines of May 22, 1998 and are not making profit, be permitted to comply with listing condition on the domestic stock exchanges within three years of having started making profit. Further, the press release states that no fresh issues of FCCBs, ADR/GDRs by such companies will be permitted without listing first in the domestic exchanges. Since the Company has made one time book profits in the financial year 2006-07, the Company has applied to MoF through its letter dated September 10, 2009, requesting the MOF:

i. to provide extension of time for listing the shares in the Indian stock exchanges

ii. to grant a special permission to issue shares on rights basis to the existing shareholders

Subsequently on November 9, 2009, the MoF has informed that the Company's request was not in accordance with the existing policy. The Company again on March 4, 2010 has applied to MoF reiterating its previous request and the Ministry of Finance has again informed the Company that such request is not in accordance with the existing policy. The Company, based on a legal opinion, believes that there are no financial implications that would arise in connection with said press release by MoF.

**42. Subsequent events****Issuance of shares to existing promoter group**

On August 4, 2010, the Board of Directors of the company approved the issuance, in a private placement, of upto an aggregate of 125,000,000 of the company's equity shares, par value Rs.10 per share ( Equity shares ), for an aggregate purchase price of approximately US\$ 86 million, to a group of investors affiliated with the company's promoter group, including entities affiliated with Mr Raju Vegesna, the company's Chief Executive officer and Managing Director and Mr Ananda Raju Vegesna, Executive and brother of Mr Raju Vegesna (the Offreeing ). The company's shareholders approved the terms of the Offering at the Company's Annual General Meeting held on September 27, 2010.

On October 22, 2010, the company entered into a Subscription Agreement with Mr AnandaRaju Vegesna, acting as representative (the Representative ) of the purchasers in connection with the offering. The company issued 125,000,000 equity shares to the Representative on October 30, 2010. In accordance with Indian law, a portion of the purchase price was paid on October 30,2010, with the remaining amount of the purchase price to be paid at such time as determined by the company. Until the full purchase price is paid by the purchasers, the company retains a lien on the equity shares purchased in connection with the Offering.

As a result of the consummation of the Offering, Mr Raju Vegesna beneficially holds approximately 86.4% of the outstanding equity shares of the company.

**REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM**

To the Board of Directors and Stockholders of MF Global Sify Securities India Private Limited

In our opinion, the accompanying consolidated balance sheet, and the related consolidated income statement, consolidated statement of comprehensive income, consolidated statement of changes in equity and consolidated cash flow statement present fairly, in all material respects, the financial position of MF Global Sify Securities India Private Limited and its subsidiaries (collectively the Company ) at March 31, 2010 and March 31, 2009 and the results of their operations and their cash flows for each of the three years in the period ended March 31, 2010 in conformity with International Financial Reporting Standards as issued by the International Accounting Standard Board. These consolidated financial statements are the responsibility of the Company s management. Our responsibility is to express an opinion on these financial statements based on our audits.

Without qualifying our opinion, we draw your attention to Note 26 to the consolidated financial statements, which describes the uncertainty related to the outcome of the ongoing discussions between the Company s shareholders concerning the reconsideration of certain costs charged to the Company by MF Global Holdings Limited and its affiliated and associated group companies for the two years ended March 31, 2009 and March 31, 2008.

We conducted our audits of these financial statements in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by the management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.
