ASHFORD HOSPITALITY TRUST, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1. Organization and Description of Business

Ashford Hospitality Trust, Inc., together with its subsidiaries (Ashford), is a self-advised real estate investment trust (REIT) focused on investing in the hospitality industry across all segments and in all methods including direct real estate, securities, equity, and debt. We commenced operations in August 2003 with the acquisition of six hotels in connection with our initial public offering. We own our lodging investments and conduct our business through Ashford Hospitality Limited Partnership, our operating partnership. Ashford OP General Partner LLC, a wholly-owned subsidiary of Ashford, serves as the sole general partner of our operating partnership. In this report, the terms the Company, we, us or our mean Ashford Hospitality Trust, Inc. and all entities included in its consolidated financial statements.

As of March 31, 2011, we owned 92 hotel properties directly and five hotel properties through majority-owned investments in joint ventures, which represents 20,774 total rooms, or 20,458 net rooms excluding those attributable to our joint venture partners. All of these hotel properties are located in the United States. In March 2011, we acquired 96 units of hotel condominiums at WorldQuest Resort in Orlando, Florida for \$12.0 million. Also in March 2011, with an investment of \$150.0 million, we converted our interest in a joint venture that held a mezzanine loan into a 71.74% common equity interest and a \$25.0 million preferred equity interest in a new joint venture (the PIM Highland JV) that holds 28 high quality full and select service hotel properties with 8,084 total rooms, or 5,800 net rooms excluding those attributable to our joint venture partner. See Notes 3 and 6. At March 31, 2011, we also wholly owned mezzanine loan receivables with a carrying value of \$20.9 million.

For federal income tax purposes, we elected to be treated as a REIT, which imposes limitations related to operating hotels. As of March 31, 2011, 96 of our 97 hotel properties were leased or owned by our wholly-owned subsidiaries that are treated as taxable REIT subsidiaries for federal income tax purposes (collectively, these subsidiaries are referred to as Ashford TRS). Ashford TRS then engages third-party or affiliated hotel management companies to operate the hotels under management contracts. Hotel operating results related to these properties are included in the consolidated statements of operations. As of March 31, 2011, one hotel property was leased on a triple-net lease basis to a third-party tenant who operates the hotel. Rental income from this operating lease is included in the consolidated results of operations.

Remington Lodging & Hospitality, LLC (Remington Lodging), our primary property manager, is beneficially wholly owned by Mr. Archie Bennett, Jr., our Chairman, and Mr. Monty J. Bennett, our Chief Executive Officer. As of March 31, 2011, Remington Lodging managed 46 of our 97 hotel properties, while third-party management companies managed the remaining 51 hotel properties.

2. Significant Accounting Policies

Basis of Presentation The accompanying unaudited consolidated financial statements have been prepared in accordance with generally accepted accounting principles (GAAP) for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. These consolidated financial statements include the accounts of Ashford, its majority-owned subsidiaries and its majority-owned joint ventures in which it has a controlling interest. All significant inter-company accounts and transactions between consolidated entities have been eliminated in these consolidated financial statements.

These financial statements and related notes should be read in conjunction with the consolidated financial statements and notes thereto included in our 2010 Annual Report to Shareholders on Form 10-K.

The following items affect our reporting comparability related to our consolidated financial statements:

Some of our properties' operations have historically been seasonal. This seasonality pattern causes fluctuations in the operating results. Consequently, operating results for the three months ended March 31, 2011 are not necessarily indicative of the results that may be expected for the year ending December 31, 2011.

ASHFORD HOSPITALITY TRUST, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Marriott International, Inc. (Marriott) manages 41 of our properties. For these Marriott-managed hotels, the fiscal year reflects twelve weeks of operations in each of the first three quarters of the year and sixteen weeks for the fourth quarter of the year. Therefore, in any given quarterly period, period-over-period results will have different ending dates. For Marriott-managed hotels, the first quarters of 2011 and 2010 ended March 25 and March 26, respectively.

Use of Estimates The preparation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Investments in Hotel Properties Hotel properties are generally stated at cost. However, the remaining four hotel properties contributed upon Ashford's formation in 2003 that are still owned by Ashford (the Initial Properties) are stated at the predecessor's historical cost, net of impairment charges, if any, plus a noncontrolling interest partial step-up related to the acquisition of noncontrolling interests from third parties associated with four of the Initial Properties. For hotel properties owned through our majority-owned joint ventures, the carrying basis attributable to the joint venture partners' minority ownership is recorded at the predecessor's historical cost, net of any impairment charges, while the carrying basis attributable to our majority ownership is recorded based on the allocated purchase price of our ownership interests in the joint ventures. All improvements and additions which extend the useful life of the hotel properties are capitalized.

Impairment of Investment in Hotel Properties Hotel properties are reviewed for impairment whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. We test impairment by using current or projected cash flows over the estimated useful life of the asset. In evaluating the impairment of hotel properties, we make many assumptions and estimates, including projected cash flows, expected holding period and expected useful life. We may also use fair values of comparable assets. If an asset is deemed to be impaired, we record an impairment charge for the amount that the property's net book value exceeds its estimated fair value. No impairment charges were recorded for hotel properties for the three months ended March 31, 2011 or 2010.

Notes Receivable We provide mezzanine and first-mortgage financing in the form of notes receivable. These loans are held for investment and are intended to be held to maturity and accordingly, are recorded at cost, net of unamortized loan origination costs and fees, loan purchase discounts and net of the allowance for losses when a loan is deemed to be impaired. Premiums, discounts, and net origination fees are amortized or accreted as an adjustment to interest income using the effective interest method over the life of the loan. We discontinue recording interest and amortizing discounts/premiums when the contractual payment of interest and/or principal is not received. Payments received on impaired nonaccrual loans are recorded as adjustments to impairment charges. No interest income was recorded for the three months ended March 31, 2011 and \$337,000 interest income was recognized for the three months ended March 31, 2010.

Variable interest entities, as defined by authoritative accounting guidance, must be consolidated by their controlling interest beneficiaries if the variable interest entities do not effectively disperse risks among the parties involved. Our mezzanine and first-mortgage notes receivable are each secured by various hotel properties or partnership interests in hotel properties and are subordinate to the controlling interest in the secured hotel properties. All such notes receivable are considered to be variable interests in the entities that own the related hotels. However, we are not considered to be the primary beneficiary of these hotel properties as a result of holding these loans. Therefore, we do not consolidate the hotels for which we have provided financing. We will evaluate the interests in entities acquired or created in the future to determine whether such entities should be consolidated. In evaluating variable interest entities, our analysis involves considerable management judgment and assumptions.

Impairment of Notes Receivable We review notes receivables for impairment in each reporting period pursuant to the applicable authoritative accounting guidance. A loan is impaired when, based on current information and events, it is probable that we will be unable to collect all amounts recorded as assets on the balance sheet. We apply normal loan review and underwriting procedures (as may be implemented or modified from time to time) in making that judgment.

ASHFORD HOSPITALITY TRUST, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

When a loan is impaired, we measure impairment based on the present value of expected cash flows discounted at the loan's effective interest rate against the value of the asset recorded on the balance sheet. We may also measure impairment based on a loan's observable market price or the fair value of collateral if the loan is collateral dependent. If a loan is deemed to be impaired, we record a valuation allowance through a charge to earnings for any shortfall. Our assessment of impairment is based on considerable judgment and estimates. No impairment charges were recorded during the three months ended March 31, 2011 or 2010. Valuation adjustments of \$340,000 and \$769,000 on previously impaired notes were credited to impairment charges during the three months ended March 31, 2011 and 2010, respectively.

Investments in Unconsolidated Joint Ventures Investments in joint ventures in which we have ownership interests ranging from 14.4% to 71.74% are accounted for under the equity method of accounting by recording the initial investment and our percentage of interest in the joint venture's net income (loss). We review the investment in our unconsolidated joint ventures for impairment in each reporting period pursuant to the applicable authoritative accounting guidance. The investment is impaired when its estimated fair value is less than the carrying amount of our investment. Any impairment is recorded in equity earnings (loss) in unconsolidated joint venture. No such impairment was recorded in the three months ended March 31, 2011 and 2010. The equity accounting method is employed for our investment in the PIM Highland JV due to the fact that we do not control the joint venture. Although we have the majority ownership of 71.74% in the joint venture, all the major decisions related to the joint venture, including establishment of policies and operating procedures with respect to business affairs, incurring obligations, and expending amounts, are subject to the approval of an executive committee, which is comprised of four persons with us and our joint venture partner each designating two of those persons. Our investment in PIM Highland JV had a carrying value of \$193.1 million at March 31, 2011, which was based on our share of PIM Highland JV's equity. As discussed further in Note 6, the PIM Highland JV is in the process of finalizing their purchase price allocation. Therefore, our share of the PIM Highland JV's equity has been based on the preliminary purchase price allocation.

Assets Held for Sale and Discontinued Operations We classify assets as held for sale when management has obtained a firm commitment from a buyer, and consummation of the sale is considered probable and expected within one year. In addition, we deconsolidate a property when it becomes subject to the control of a government, court, administrator or regulator and we effectively lose control of the property/subsidiary. When deconsolidating a property/subsidiary, we recognize a gain or loss in net income measured as the difference between the fair value of any consideration received, the fair value of any retained noncontrolling investment in the former subsidiary at the date the subsidiary is deconsolidated, and the carrying amount of the former property/subsidiary. The related operations of assets held for sale are reported as discontinued if a) such operations and cash flows can be clearly distinguished, both operationally and financially, from our ongoing operations, b) such operations and cash flows will be eliminated from ongoing operations once the disposal occurs, and c) we will not have any significant continuing involvement subsequent to the disposal.

During the three months ended March 31, 2011, we completed the sale of three hotel properties that were reclassified as assets held for sale at December 31, 2010, and recorded a net gain of \$2.8 million.

Revenue Recognition Hotel revenues, including room, food, beverage, and ancillary revenues such as long-distance telephone service, laundry, and space rentals, are recognized when services have been rendered. Rental income represents income from leasing hotel properties to third-party tenants on triple-net operating leases. Base rent on the triple-net lease is recognized on a straight-line basis over the lease terms and variable rent is recognized when earned. Interest income, representing interest on the mezzanine and first mortgage loan portfolio (including accretion of discounts on certain loans using the effective interest method), is recognized when earned. We discontinue recording interest and amortizing discounts/premiums when the contractual payment of interest and/or principal is not received. Asset management fees are recognized when services are rendered. Taxes collected from customers and submitted to taxing authorities are not recorded in revenue. For the hotel leased to a third party, we report deposits into our escrow accounts for capital expenditure reserves as income.

Derivative Financial Instruments and Hedges We primarily use interest rate derivatives in order to capitalize on the historical correlation between changes in LIBOR (London Interbank Offered Rate) and RevPAR (Revenue per Available Room). The interest rate derivatives include swaps, caps, floors, floorriders and corridors. All derivatives are recorded on the consolidated balance sheets at fair value in accordance with the applicable authoritative accounting

ASHFORD HOSPITALITY TRUST, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

guidance and reported as Interest rate derivatives. Accrued interest on the non-hedge designated derivatives is included in Accounts receivable, net on the consolidated balance sheets. For derivatives designated as cash flow hedges, the effective portion of changes in the fair value is reported as a component of Accumulated Other Comprehensive Income (Loss) (OCI) in the equity section of the consolidated balance sheets. The amount recorded in OCI is reclassified to interest expense in the same period or periods during which the hedged transaction affects earnings, while the ineffective portion of changes in the fair value of the derivative is recognized directly in earnings as Unrealized gain (loss) on derivatives in the consolidated statements of operations. For derivatives that are not designated as cash flow hedges, the changes in the fair value are recognized in earnings as Unrealized gain (loss) on derivatives in the consolidated statements of operations. We assess the effectiveness of each hedging relationship by comparing the changes in fair value or cash flows of the derivative hedging instrument with the changes in fair value or cash flows of the designated hedged item or transaction. Derivatives subject to master netting arrangements are reported net in the consolidated balance sheets.

Recently Adopted Accounting Standards In December 2010, FASB issued an accounting standard update to require a public entity to disclose pro forma information for business combinations that occurred in the current reporting period. The disclosures include pro forma revenue and earnings of the combined entity for the current reporting period as though the acquisition date for all business combinations that occurred during the year had been as of the beginning of the annual reporting period. If comparative financial statements are presented, the pro forma revenue and earnings of the combined entity for the comparable prior reporting period should be reported as though the acquisition date for all business combinations that occurred during the current year had been as of the beginning of the comparable prior annual reporting period. The new disclosures are effective prospectively for business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after December 15, 2010. The pro forma disclosures related to our acquisition of the 28-hotel portfolio through the PIM Highland JV in Note 16 are made in accordance with the new requirements. The adoption did not have an impact on our financial position and results of operations.

Reclassifications Certain amounts in the consolidated financial statements for the three months ended March 31, 2010 have been reclassified for discontinued operations. These reclassifications have no effect on the results of operations or financial position previously reported.

3. Summary of Significant Transactions

Acquisition of Hotel Properties Securing Mezzanine Loans Held in Unconsolidated Joint Ventures In July 2010, as a strategic complement to our existing joint venture with Prudential Real Estate Investors (PREI) formed in 2008, we contributed \$15.0 million for an ownership interest in a new joint venture with PREI. The new joint venture acquired a portion of the tranche 4 mezzanine loan associated with JER Partners' 2007 privatization of the JER/Highland Hospitality portfolio (the Highland Portfolio). The mezzanine loan was secured by the same 28 hotel properties as our then existing joint venture investment in the tranche 6 mezzanine loan. Both of these mezzanine loans were in default since August 2010. After negotiating with the borrowers, senior secured lenders and senior mezzanine lenders for a restructuring, we, through another new joint venture, the PIM Highland JV, with PRISA III Investments, LLC (PRISA III) (an affiliate of PREI), invested \$150.0 million and PRISA III invested \$50.0 million of new capital to acquire the 28 high quality full and select service hotel properties comprising the Highland Portfolio on March 10, 2011. We and PRISA III have ownership interests of 71.74% and 28.26%, respectively, in the new joint venture. In addition to the common equity splits, we and PRISA III each have a \$25.0 million preferred equity interest earning an accrued but unpaid 15% return with priority over common equity distributions. Our investment in the PIM Highland JV is accounted for using the equity method and the carrying value was \$193.1 million at March 31, 2011. The PIM Highland JV recognized a gain of \$75.4 million at acquisition, of which our share was \$43.2 million, based on the preliminary assessment of the fair value of the assets acquired and the liabilities assumed. The purchase price has been allocated to the assets acquired and liabilities assumed on a preliminary basis using estimated fair value information currently available. The allocation of the purchase price to the assets and liabilities will be finalized as soon as practicable upon completion of the analysis of the fair values of the assets acquired and liabilities assumed,

which could result in adjustments to the gain recognized based on the preliminary assessment. See Note 6.

Litigation Settlement In March 2010, we entered into a Consent and Settlement Agreement (the Settlement Agreement) with Wells Fargo Bank, N.A. (Wells) to resolve potential disputes and claims between us and Wells

ASHFORD HOSPITALITY TRUST, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

relating to our purchase of a participation interest in certain mezzanine loans. Wells denied the allegations in our complaint and further denies any liability for the claims asserted by us; however, the Settlement Agreement was entered into to resolve our claims against Wells and to secure Wells' consent to our participation in the Highland Hospitality Portfolio restructuring. Pursuant to the Settlement Agreement, Wells has agreed to pay us \$30.0 million over the next five years, or earlier, if certain conditions are satisfied. As part of the Settlement Agreement, we and Wells have agreed to a mutual release of claims. We expect that the settlement amount will likely be paid within the next 12 months. We recorded a receivable of \$30.0 million and accrued legal costs of \$5.5 million for the settlement. Of the total settlement amount, \$30.0 million was recorded as Other income and the associated legal costs of \$5.5 million were recorded as Corporate general and administrative expenses in the consolidated statements of operations.

Acquisition of Condominium Properties In March 2011, we acquired real estate and certain other rights in connection with the acquisition of the WorldQuest Resort, a condominium hotel project. More specifically, we acquired 96 condominium units, hotel amenities land and improvements, developable raw land, developer rights and Rental Management Agreements (RMA's) with third party owners of condominium units in the project. Units owned by third parties with RMA's and 62 of the 96 units we acquired participate in a rental pool program whereby the units are leased to guests similar to a hotel operation. Under the terms of the RMA's, we share in a percentage of the guest room revenues and are reimbursed for certain costs. The remaining 34 units that we own are currently being finished out and will be added to the rental pool when completed. All of these units are included in Investment in hotel properties, net in the consolidated balance sheet.

Resumption of Common Dividends In February 2011, the Board of Directors accepted management's recommendation to resume paying cash dividends on our outstanding shares of common stock with an annualized target of \$0.40 per share for 2011. The dividend of \$0.10 for the first quarter of 2011 was paid in April 2011, and subsequent payments will be reviewed on a quarterly basis.

Completion of Sales of Hotel Properties In the three months ended March 2011, we completed the sale of the three hotel properties which were classified as assets held for sale at December 31, 2010, the JW Marriott hotel in San Francisco, California, the Hilton hotel in Rye Town, New York and the Hampton Inn hotel in Houston, Texas. We received net proceeds of \$93.7 million (net of repayments of related mortgage debt of \$50.2 million). We used the net proceeds to reduce \$70.0 million of the borrowings on our senior credit facility.

Sale of Additional Shares of Our Common Stock In January 2011, an underwriter purchased 300,000 shares of our common stock through the partial exercise of the underwriter's 1.125 million share over-allotment option in connection with the issuance of 7.5 million shares of common stock completed in December 2010, and we received net proceeds of \$2.8 million.

4. Investments in Hotel Properties

Investments in hotel properties consisted of the following (in thousands):

	March 31, 2011	December 31, 2010
Land	\$ 488,901	\$ 488,901
Buildings and improvements	2,778,135	2,774,822

62 of the 96 units we acquired participate in a rental pool program whereby the units are leased to guests similar to a hotel operation. Under the terms of the RMA's, we share in a percentage of the guest room revenues and are reimbursed for certain costs. The remaining 34 units that we own are currently being finished out and will be added to the rental pool when completed. All of these units are included in Investment in hotel properties, net in the consolidated balance sheet.

5. Notes Receivable

We had two mezzanine loans at March 31, 2011 and December 31, 2010. One mezzanine loan that is secured by a 105 hotel property portfolio has an unpaid principal balance of \$25.7 million and an interest rate of LIBOR plus 5%, and is scheduled to mature in April 2011. In December 2010, we evaluated the collectability of this mezzanine loan and weighted different probabilities of outcome from full repayment at maturity to a foreclosure by the senior lender. Based on the analysis, we recorded a valuation allowance of \$7.8 million. At March 31, 2011 and December 31, 2010, this mezzanine loan had a net carrying value of \$17.9 million. No interest income was recognized for the three months ended March 31, 2011. Interest payments received on this loan since December 31, 2010 have been recorded as a credit to impairment charges.

The other mezzanine loan secured by one hotel property that had an original principal balance of \$38.0 million was restructured in 2010 with a cash payment of \$20.2 million and a \$4.0 million note receivable which matures in June 2017 with an interest rate of 6.09%. At March 31, 2011 and December 31, 2010, this mezzanine loan had a net carrying value of \$3.0 million.

Both of these loans were current at March 31, 2011. However, payments on these loans totaling \$313,000 during the three months ended March 31, 2011 have been treated as a reduction of carrying values, and the valuation allowance adjustments have been recorded as credits to impairment charges in accordance with applicable accounting guidance. The average investment in impairment loans for the three months ended March 31, 2011 and 2010 was \$20.9 million and \$12.9 million, respectively.

From time to time, in evaluating possible loan impairments, we analyze our notes receivable individually and collectively for possible loan losses in accordance with applicable authoritative accounting guidance. The terms of our notes or participations are structured based on the different features of the related collateral and the priority in the borrower's capital structure. Based on the analysis, if we conclude that no loans are individually impaired, we then further analyze the specific characteristics of the loans, based on other authoritative guidance to determine if there would be probable losses in a group of loans with similar characteristics.

6. Investment in Unconsolidated Joint Ventures

As discussed in Note 3, we acquired a 71.74% ownership interest in the PIM Highland JV and a \$25.0 million preferred equity interest earning an accrued but unpaid 15% return with priority over common equity distributions. Although we have the majority ownership interest and can exercise significant influence over the joint venture, we do not have control of the joint venture's operations. All the major decisions related to the joint venture, including establishment of policies and operating procedures with respect to business affairs, incurring obligations, and expending amounts, are subject to the approval of an executive committee, which is comprised of four persons with us and our joint venture partner each designating two of those persons. As a result, our investment in the joint venture is accounted for using the equity method, which had a carrying value of \$193.1 million at March 31, 2011.

The 28-hotel property portfolio acquired and the indebtedness assumed by the joint venture had preliminary fair values of approximately \$1.3 billion and \$1.1 billion, respectively, at the date of acquisition based on third-party appraisals (after a paydown of \$170.0 million of related debt). Cash, receivables, other assets acquired and other liabilities assumed had a net value of approximately \$291.1 million at the date of acquisition. The joint venture repaid \$170.0 million of the debt assumed at acquisition. The purchase price was the result of arms-length negotiations. The PIM Highland JV recognized a gain of \$75.4 million at acquisition, of which our share was \$43.2 million, based on the preliminary assessment of the fair value of the assets acquired and the liabilities assumed. The purchase price has been allocated to the assets acquired and liabilities assumed on a preliminary basis using estimated fair value information currently available. The joint venture is in the process of evaluating the values assigned to investments in

hotel

ASHFORD HOSPITALITY TRUST, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

properties, ground leases for above/below market rents, management contracts with non-affiliated managers, other intangibles and property level balances that have been transferred on to the joint venture's balance sheet. Thus, the balances reflected below are subject to change and could result in adjustments to the gain recorded on a preliminary basis. Any change in valuation of the PIM Highland JV's preliminary investments in hotel properties will also impact the depreciation and amortization expense and the resulting gain included in equity in earnings of unconsolidated joint venture on the Consolidated Statement of Operations.

The following tables summarize the balance sheet as of March 31, 2011 and the statement of operations for the period from March 10, 2011 through March 31, 2011 of the PIM Highland JV (in thousands):

Additionally, as of March 31, 2011, we had an 18% subordinated interest in a joint venture that holds the Sheraton hotel property in Dallas, Texas, (which was sold after the quarter-end), and a 14.4% subordinated beneficial interest in a trust that holds the Four Seasons hotel property in Nevis. Both of these joint ventures have zero carrying values at March 31, 2011 and December 31, 2010.

7. Asset Held for Sale and Discontinued Operations

In the quarter ended March 31, 2011, we completed the sales of the JW Marriott San Francisco in California, the Hilton Rye Town in New York and the Hampton Inn Houston in Texas. The operating results of these hotel properties are reported as discontinued operations for all periods presented. For the three months ended March 31, 2010, operating results of discontinued operations also include those of the Hilton Suites Auburn Hills in Michigan that was sold in June 2010, and the Westin O Hare in Illinois that was transferred to the lender through a deed-in-lieu of foreclosure in September 2010. The following table summarizes the operating results of the discontinued hotel properties (in thousands):

	Three Months Ended March	
	2011	2010
	31,	
Hotel revenue	\$ 8,726	\$ 17,809

TIF loan	1 hotel	June 2018	12.85%	8,098	8,098
Mortgage loan	1 hotel	November 2020	6.26%	104,600	104,901
Mortgage loan	1 hotel	April 2034	Greater of 6% or Prime + 1%	6,753	6,791
Total indebtedness				\$ 2,444,610	\$ 2,518,164

(1) We obtained a three-year extension on this loan to May 2014 in May 2011.

(2) LIBOR rates were 0.24% and 0.26% at March 31, 2011 and December 31, 2010, respectively.

(3) Based on the debt-to-assets ratio defined in the loan agreement, interest rate on this debt was LIBOR + 3% at March 31, 2011 and December 31, 2010.

(4) The remaining one-year extension option as of March 31, 2011 has been exercised.

In March 2010, we elected to stop making payments on the \$5.8 million mortgage note payable maturing January 2011, secured by a hotel property in Manchester, Connecticut. After negotiating with the special servicer, in May 2011, we obtained a three-year extension on this loan to May 2014. We paid \$1.0 million at closing including a 1.25% extension fee, the principal and interest through May 1, 2011 to bring the loan current and certain deposits pursuant to the modification agreement.

We are required to maintain certain financial ratios under various debt, preferred equity and derivative agreements. If we violate covenants in any debt or derivative agreement, we could be required to repay all or a portion of our indebtedness before maturity at a time when we might be unable to arrange financing for such repayment on attractive terms, if at all. Violations of certain debt covenants may result in us being unable to borrow unused amounts under a line of credit, even if repayment of some or all borrowings is not required. The assets of certain of our subsidiaries are pledged under non-recourse indebtedness and are not available to satisfy the debts and other obligations of Ashford Hospitality Trust, Inc. or our operating partnership, Ashford Hospitality Limited Partnership and the liabilities of such subsidiaries do not constitute the obligations of Ashford Hospitality Trust, Inc. or Ashford Hospitality Limited Partnership. Presently, our existing financial debt covenants primarily relate to maintaining minimum debt coverage ratios, maintaining an overall minimum net worth, maintaining a maximum loan to value ratio, and maintaining an overall minimum total assets. As of March 31, 2011, we were in compliance with all covenants or other requirements set forth in our debt and derivative agreements as amended. There were no requirements to submit our covenant calculations related to our Series B-1 convertible preferred stock as all the outstanding shares were redeemed or converted to common stock on May 3, 2011. See Note 17.

ASHFORD HOSPITALITY TRUST, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

9. Income (Loss) Per Share

Basic income/loss per common share is calculated using the two-class method by dividing net income (loss) attributable to common shareholders by the weighted average number of common shares outstanding during the period. Diluted income/loss per common share reflects the potential dilution that could occur if securities or other contracts to issue common shares were exercised or converted into common shares, whereby such exercise or conversion would result in lower income per share. The following table reconciles the amounts used in calculating basic and diluted income per share (in thousands, except per share amounts):

	Three Months Ended March 31,	
	2011	2010
Income (loss) attributable to common shareholders Basic:		
Income (loss) from continuing operations attributable to the Company	\$ 36,873	\$ 9,208

Effect of assumed conversion of operating partnership units		14,370
Total		21,818

10. Derivatives and Hedging Activities

We are exposed to risks arising from our business operations, economic conditions and financial markets. To manage the risks, we primarily use interest rate derivatives to hedge our debt as a way to potentially improve cash flows. We also use non-hedge derivatives to capitalize on the historical correlation between changes in LIBOR and RevPAR. To mitigate the nonperformance risk, we routinely rely on a third party's analysis of the creditworthiness of the counterparties, which supports our belief that the counterparties' nonperformance risk is limited. All derivatives are recorded at fair value. The fair values of interest rate swaps are determined using the market standard methodology of netting the discounted future fixed cash receipts/payments and the discounted expected variable cash payments/receipts. The fair values of interest rate caps, floors, floorridors and corridors are determined using the market standard methodology of discounting the future expected cash receipts that would occur if variable interest rates fell below the strike rates of the floors or rise above the strike rates of the caps. The variable interest rates used in the calculation of projected receipts and payments on the swaps, caps, and floors are based on an expectation of future interest rates derived from observable market interest rate curves (LIBOR forward curves) and volatilities (the Level 2 inputs that are observable at commonly quoted intervals, other than quoted prices). We also incorporate credit valuation adjustments (the Level 3 inputs that are unobservable and typically based on our own assumptions, as there is little, if any, related market activity) to appropriately reflect both our own non-performance risk and the respective counterparty's non-performance risk in the fair value measurements.

We have determined that when a majority of the inputs used to value our derivatives fall within Level 2 of the fair value hierarchy, the derivative valuations in their entirety are classified in Level 2 of the fair value hierarchy. However, when the valuation adjustments associated with our derivatives utilize Level 3 inputs, such as estimates of current credit spreads, to evaluate the likelihood of default by us and our counter-parties, which we consider significant (10% or more) to the overall valuation of our derivatives, the derivative valuations in their entirety are

classified in Level 3 of the fair value hierarchy. Transfers of inputs between levels are determined at the end of each reporting period. In determining the fair values of our derivatives at March 31, 2011, the LIBOR interest rate forward curve (the Level 2 inputs) assumed an uptrend from 0.26% to 1.97% for the remaining term of our derivatives. The credit spreads (the Level 3 inputs) used in determining the fair values assumed a downtrend in nonperformance risk for us and an uptrend for most of our counterparties.

ASHFORD HOSPITALITY TRUST, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

The following table presents our assets and liabilities measured at fair value on a recurring basis aggregated by the level within which measurements fall in the fair value hierarchy (in thousands):

	March 31, 2011			December 31, 2010		
	Level 2	Level 3	Total	Level 2	Level 3	Total
Assets						
Non-hedge derivatives:						
Interest rate swap	\$ 65,789	\$	\$ 65,789	\$ 74,283	\$	\$ 74,283
Interest rate cap						
Interest rate floor	28,336		28,336	37,532		37,532
Hedge derivatives:						
Interest rate cap				3		3
Subtotal	94,125		94,125	111,818		111,818
Liabilities						
Non-hedge derivatives:						
Interest rate floor	(4,067)		(4,067)	(4,951)		(4,951)
Subtotal	(4,067)		(4,067)	(4,951)		(4,951)
Net	\$ 90,058	\$	\$ 90,058	\$ 106,867	\$	\$ 106,867

The reconciliation of the beginning and ending balances of the derivatives that were measured using Level 3 inputs is as follows (in thousands):

	Three Months Ended March 31,	
	2011	2010
Balance at beginning of period	\$	\$ (17,972)
Total unrealized loss included in earnings		(2,042)
Assets transferred out of Level 3 still held at the reporting date ⁽¹⁾		20,014
Balance at end of period	\$	\$

⁽¹⁾ Transferred in/out of Level 3 because the unobservable inputs used to determine the fair value at end of period were more/less than 10% of the total valuation of these derivatives.

ASHFORD HOSPITALITY TRUST, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

The fair value of our non-hedge designated interest rate derivatives as of March 31, 2011 and December 31, 2010, and the effects of these derivatives on the consolidated statements of operations for the three months ended March 31, 2011 and March 31, 2010 were as follows (\$ in thousands):

Derivative Type	Notional Amount	Strike Rate	Maturity	Fair Value		Gain or (Loss) Recognized in Income Three Months Ended		Interest Savings or (Cost) Recognized in Income Three Months Ended

⁽¹⁾ This interest rate floor was terminated in October 2010, and replaced by the 4.084%, \$1,475,000 notional amount interest rate swap.

⁽²⁾ Reported as Interest rate derivatives in the consolidated balance sheets.

⁽³⁾ Reported as Unrealized gain (loss) on derivatives in the consolidated statements of operations.

⁽⁴⁾ Reported as Other income in the consolidated statements of operations.

The fair value of our hedge-designated interest rate derivatives as of March 31, 2011 and December 31, 2010, and the effects of these derivatives on the consolidated statements of operations for the three months ended March 31,

2011 and 2010 were as follows (\$ in thousands):

										Gain (Loss)	
										Recognized in	
										in Income for	
										Ineffective	
										Portion	
										Three Months	
										Ended	

(1) Included in Interest rate derivatives in the consolidated balance sheets.

(2) Included in Unrealized gain (loss) on derivatives in the consolidated statements of operations.

During the next twelve months, we expect \$416,000 of accumulated comprehensive loss related to the interest rate derivatives will be reclassified to interest expense.

We have derivative agreements that incorporate the loan covenant provisions of our senior credit facility requiring us to maintain certain minimum financial covenant ratios on our indebtedness. Failure to comply with the covenant provisions would result in us being in default on any derivative instrument obligations covered by the agreement. At

ASHFORD HOSPITALITY TRUST, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

March 31, 2011, we were in compliance with all the covenants under the senior credit facility and the fair value of derivatives related to this agreement was an asset of \$61.7 million.

11. Redeemable Noncontrolling Interests

Redeemable noncontrolling interests in the operating partnership represents the limited partners' proportionate share of equity in earnings/losses of the operating partnership, which is an allocation of net income/loss attributable to the common unit holders based on the weighted average ownership percentage of these limited partners' common units and the units issued under our Long-Term Incentive Plan (the LTIP units) that are vested throughout the period plus distributions paid to these limited partners with regard to the Class B units. Class B common units have a fixed dividend rate of 7.2%, and have priority in payment of cash dividends over common units but otherwise have no preference over common units. Aside from the Class B units, all other outstanding units represent common units. Beginning one year after issuance, each common unit of limited partnership interest (including each Class B common unit) may be redeemed for either cash or, at Ashford's sole discretion, one share of Ashford's common stock. The Class B common units are convertible at the option of Ashford or the holder, into an equivalent number of common units at any time after July 13, 2016.

Beginning in 2008, we started issuing LTIP units to certain executives and employees as compensation. These units have vesting periods ranging from three to four and one-half years. Upon vesting, each LTIP unit can be converted by the holder into one common partnership unit of the operating partnership which then can be redeemed for cash or, at Ashford's election, settled in Ashford's common stock. Since 2008, we have issued 2.2 million LTIP units. As of March 31, 2011, all the LTIP units issued prior to that date had reached full economic parity with the common units. All the LTIP units issued on or before March 31, 2011 had an aggregate value of \$14.3 million at the date of grant which is being amortized over the vesting period. Compensation expense of \$855,000 and \$297,000 was recognized for the three months ended March 31, 2011 and 2010, respectively. The unamortized value of the LTIP units was \$8.6 million at March 31, 2011, and that amount is being amortized over periods from 0.4 year to 5 years.

During the three months ended March 31, 2011, 100,000 operating partnership units with a fair value of \$1.0 million presented for redemption were converted to common shares at our election.

Redeemable noncontrolling interests in our operating partnership as of March 31, 2011 and December 31, 2010 were \$143.0 million and \$126.7 million, which represented ownership of 17.7% and 17.5% in our operating partnership, respectively. The carrying value of redeemable noncontrolling interests as of March 31, 2011 and December 31, 2010 included adjustments of \$84.4 million and \$72.3 million, respectively, to reflect the excess of redemption value over the accumulated historical costs. We allocated net income of \$5.1 million and \$792,000 for the three months ended March 31, 2011 and March 31, 2010, respectively, to these redeemable noncontrolling interests. During the three months ended March 31, 2011, we declared cash distributions totaling \$1.8 million with respect to the operating units. This distribution was recorded as a reduction of redeemable noncontrolling interests in operating partnership. No distributions were declared for the three months ended March 31, 2010.

12. Equity and Equity-Based Compensation

Sale of Additional Shares of Our Common Stock In January 2011, an underwriter purchased 300,000 shares of our common stock through the partial exercise of the underwriter's 1.125 million share over-allotment option in connection with the issuance of 7.5 million shares of common stock completed in December 2010, and we received net proceeds of \$2.8 million.

Resumption of Common Dividends In February 2011, the Board of Directors accepted management's recommendation to resume paying cash dividends on our outstanding shares of common stock with an annualized target of \$0.40 per share for 2011. The dividend of \$0.10 for the first quarter of 2011 was paid in April, 2011, and subsequent payments will be reviewed on a quarterly basis.

Stock-Based Compensation During the three months ended March 31, 2011 and 2010, we recognized compensation expense of \$959,000 and \$877,000, respectively, related to our equity-based compensation plan. As of

ASHFORD HOSPITALITY TRUST, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

March 31, 2011, the unamortized amount of the unvested shares of restricted equity was \$3.0 million and is being amortized over periods from 0.4 year to 4.0 years.

Preferred Dividends During the three months ended March 31, 2011 and 2010, the Board of Directors declared dividends of \$0.5344 per share for our 8.55% Series A preferred stock, or \$795,000, and \$0.5281 per share for our 8.45% Series D preferred stock, or \$4.7 million.

Noncontrolling Interests in Consolidated Joint Ventures Noncontrolling joint venture partners have ownership interests ranging from 11% to 25% in five hotel properties with a total carrying value of \$14.9 million and \$16.7 million at March 31, 2011 and December 31, 2010, respectively, and are reported in equity in the consolidated balance sheets. Noncontrolling interests in consolidated joint ventures were allocated an income of \$931,000 and a loss of \$701,000 for the three months ended March 31, 2011 and 2010, respectively.

13. Commitments and Contingencies

Restricted Cash Under certain management and debt agreements for our hotel properties existing at March 31, 2011, we escrow payments required for insurance, real estate taxes, and debt service. In addition, for certain properties based on the terms of the underlying debt and management agreements, we escrow 4% to 6% of gross revenues for capital improvements.

Franchise Fees Under franchise agreements for our hotel properties existing at March 31, 2011, we pay franchisor royalty fees between 2.5% and 7.3% of gross room revenue and, in some cases, food and beverage revenues. Additionally, we pay fees for marketing, reservations, and other related activities aggregating between 1% and 3.75% of gross room revenue and, in some cases, food and beverage revenues. These franchise agreements expire on varying dates between 2011 and 2031. When a franchise term expires, the franchisor has no obligation to renew the franchise. A franchise termination could have a material adverse effect on the operations or the underlying value of the affected hotel due to loss of associated name recognition, marketing support, and centralized reservation systems provided by the franchisor. A franchise termination could also have a material adverse effect on cash available for distribution to shareholders. In addition, if we breach the franchise agreement and the franchisor terminates a franchise prior to its expiration date, we may be liable for up to three times the average annual fees incurred for that property.

Our continuing operations incurred franchise fees of \$6.7 million and \$5.8 million for the three months ended March 31, 2011 and 2010, respectively, which are included in other expenses in the accompanying consolidated statements of operations.

Management Fees Under management agreements for our hotel properties existing at March 31, 2011, we pay a) monthly property management fees equal to the greater of \$10,000 (CPI adjusted since 2003) or 3% of gross revenues, or in some cases 2% to 8.5% of gross revenues, as well as annual incentive management fees, if applicable, b) market service fees on approved capital improvements, including project management fees of up to 4% of project costs, for certain hotels, and c) other general fees at current market rates as approved by our independent directors, if required. These management agreements expire from 2012 through 2032, with renewal options. If we terminate a management agreement prior to its expiration, we may be liable for estimated management fees through the remaining term, liquidated damages or, in certain circumstances, we may substitute a new management agreement.

Taxes We and our subsidiaries file income tax returns in the federal jurisdiction and various states. Tax years 2007 through 2010 remain subject to potential examination by certain federal and state taxing authorities. In 2010, the Internal Revenue Service (IRS) audited one of our taxable REIT subsidiaries that leases two of our hotel properties for the tax year ended December 31, 2007. During the year ended December 31, 2010, the IRS issued a notice of proposed adjustment that reduced the amount of rent we charged to the taxable REIT subsidiary. We own a 75% interest in the hotel properties and the taxable REIT subsidiary at issue. We disagree with the IRS position and during the fourth quarter of 2010, we filed a written protest with the IRS and requested an IRS Appeals Office conference. In determining amounts payable by our TRS subsidiaries under our leases, we engaged a third party to prepare a transfer pricing study which concluded that the lease terms were consistent with arm's length terms as required by applicable Treasury regulations. However, if the IRS were to prevail in its proposed adjustment, our taxable REIT subsidiary would owe approximately \$1.1 million additional U.S. federal income taxes plus possible additional state income

taxes of \$68,000,

ASHFORD HOSPITALITY TRUST, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

net of federal benefit. We anticipate that the IRS will grant the Appeals conference during third quarter of 2011. We believe we will prevail in the settlement of the audit and that the settlement will not have a material adverse effect on our financial condition and results of operations. In May 2011, the IRS notified us of their intent to examine the federal income tax return for this same TRS for the tax year ended December 31, 2008. During 2010, the Canadian taxing authorities selected our TRS subsidiary that leased our one Canadian hotel for audit for the tax years ended December 31, 2007, 2008 and 2009. The Canadian hotel was sold in June 2008 and the TRS ceased activity in Canada at that time. We believe that the results of the completion of this examination will not have a material adverse effect on our financial condition.

If we dispose of the four remaining properties contributed in connection with our initial public offering in 2003 in exchange for units of operating partnership, we may be obligated to indemnify the contributors, including our Chairman and Chief Executive Officer, each of whom have substantial ownership interests, against the tax consequences of the sale. In addition, we agreed to use commercially reasonable efforts to maintain non-recourse mortgage indebtedness of at least \$16.0 million, which allows contributors of the Las Vegas hotel property to defer gain recognition in connection with their contribution.

Additionally, for certain periods of time, we are prohibited from selling or transferring the Marriott Crystal Gateway in Arlington, Virginia, if as a result, the entity from which we acquired the property would recognize gain for federal tax purposes.

Further, in connection with our acquisition of certain properties on March 16, 2005 that were contributed in exchange for units of our operating partnership, we agreed to certain tax indemnities with respect to ten of these properties. If we dispose of these properties or reduce debt on these properties in a transaction that results in a taxable gain to the contributors, we may be obligated to indemnify the contributors or their specified assignees against the tax consequences of the transaction.

In general, tax indemnities equal the federal, state, and local income tax liabilities the contributor or their specified assignee incurs with respect to the gain allocated to the contributor. The contribution agreements terms generally require us to gross up tax indemnity payments for the amount of income taxes due as a result of such tax indemnities.

Potential Pension Liabilities Certain employees at one of our hotel properties are unionized and covered by a multiemployer defined benefit pension plan. At acquisition of the hotel property in 2006, there were no unfunded pension liabilities. Although those workers are not our employees, the hotel manager of that hotel property may in the future de-unionize given their work rules. It is reasonably possible that we may incur additional cost for the unfunded pension liabilities should a de-unionizing occur. As of March 31, 2011, we have accrued \$74,000 for the potential unfunded liabilities.

Litigation We are currently subject to litigation arising in the normal course of our business. In the opinion of management, none of these lawsuits or claims against us, either individually or in the aggregate, is likely to have a material adverse effect on our business, results of operations, or financial condition. In addition, management believes we have adequate insurance in place to cover any such significant litigation.

14. Fair Value of Financial Instruments

The authoritative accounting guidance requires disclosures about the fair value of all financial instruments. Determining estimated fair values of our financial instruments requires considerable judgment to interpret market data. The use of different market assumptions and/or estimation methodologies may have a material effect on the estimated fair value amounts. Accordingly, the estimates presented are not necessarily indicative of the amounts at which these instruments could be purchased, sold or settled.

ASHFORD HOSPITALITY TRUST, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

The carrying amounts and estimated fair values of financial instruments, for periods indicated, were as follows (in thousands):

	March 31, 2011		December 31, 2010	
	Carrying Value	Estimated Fair Value	Carrying Value	Estimated Fair Value
Financial assets:				
Cash and cash equivalents	\$ 92,411	\$ 92,411	\$ 217,690	\$ 217,690
Restricted cash	\$ 73,485	\$ 73,485	\$ 67,666	\$ 67,666
Accounts receivable	\$ 70,111	\$ 70,111	\$ 27,493	\$ 27,493
Notes receivable	\$ 20,897	\$ 22,759 to \$25,155	\$ 20,870	\$ 6,756 to \$7,467
Interest rate derivatives cash flow hedges	\$	\$	\$ 3	\$ 3
Interest rate derivatives non-cash flow hedges	\$ 90,058	\$ 90,058	\$ 106,864	\$ 106,864
Due from third-party hotel managers	\$ 50,571	\$ 50,571	\$ 49,135	\$ 49,135
Financial liabilities:				
Indebtedness of continuing operations	\$2,444,610	\$ 2,094,292 to \$2,314,744	\$2,518,164	\$ 2,082,207 to \$2,301,387
Indebtedness of assets held for sale	\$	\$	\$ 50,619	\$ 44,587 to \$49,281
Accounts payable and accrued expenses	\$ 98,760	\$ 98,760	\$ 79,248	\$ 79,248
Dividends payable	\$ 14,269	\$ 14,269	\$ 7,281	\$ 7,281
Due to related parties	\$ 1,998	\$ 1,998	\$ 2,400	\$ 2,400
Due to third-party hotel managers	\$ 2,328	\$ 2,328	\$ 1,870	\$ 1,870

Cash, cash equivalents and restricted cash. These financial assets bear interest at market rates and have maturities of less than 90 days. The carrying value approximates fair value due to the short-term nature.

Accounts receivable, due to/from related parties or third-party hotel managers, accounts payable, accrued expenses, and dividends payable. The carrying values of these financial instruments approximate their fair values due to the short-term nature of these financial instruments.

Notes receivable. Fair value of the notes receivable may be determined by using similar loans with similar collateral. Since there is very little to no trading activity we had to rely on our internal analysis of what we believe a willing buyer would pay for these notes. We estimated the fair value of the notes receivable to be approximately 9% to 20% higher than the carrying value of \$20.9 million at March 31, 2011, and approximately 64% to 68% lower than the carrying value of \$20.9 million at December 31, 2010.

Indebtedness. Fair value of the indebtedness is determined using future cash flows discounted at current replacement rates for these instruments. For variable rate instruments, cash flows are determined using a forward interest rate yield curve. The current replacement rates are determined by using the U.S. Treasury yield curve or the index to which these financial instruments are tied, and adjusted for the credit spreads. Credit spreads take into consideration general market conditions, maturity and collateral. For the indebtedness valuation, we used estimated future cash flows discounted at applicable index forward curves adjusted for credit spreads. We estimated the fair value of the total indebtedness to be approximately 5% to 14% lower than the carrying value of \$2.4 billion at

March 31, 2011, and approximately 8% to 17% lower than the carrying value of \$2.6 billion at December 31, 2010.

Interest rate derivatives. Fair value of the interest rate derivatives are determined using the net present value of the expected cash flows of each derivative based on the market-based interest rate curve and adjusted for credit spreads of Ashford and the counterparties. See Note 10 for a complete description of the methodology and assumptions utilized in determining the fair values.

ASHFORD HOSPITALITY TRUST, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

15. Segment Reporting

We operate in two business segments within the hotel lodging industry: direct hotel investments and hotel financing. Direct hotel investments refer to owning hotels through either acquisition or new development. We report operating results of direct hotel investments on an aggregate basis as substantially all of our hotel investments have similar economic characteristics and exhibit similar long-term financial performance. Hotel financing refers to owning subordinate hotel-related mortgages through acquisition or origination. We do not allocate corporate-level accounts to our operating segments, including corporate general and administrative expenses, non-operating interest income, interest expense and amortization of loan costs, and income tax expense/benefit. Financial information related to our reportable segments was as follows (in thousands):

	Direct Hotel Investments	Hotel Financing	Corporate	Consolidated

16. Pro Forma Financial Information

As discussed in Notes 3 and 6, on March 10, 2011, we and PREI formed the PIM Highland JV to take ownership of the Highland Hospitality Portfolio through a debt restructuring and consensual foreclosure. At closing, we invested \$150.0 million and PREI invested \$50.0 million to fund capital expenditures and to reduce debt. We own 71.74% of the joint venture and PREI owns the remaining 28.26%.

ASHFORD HOSPITALITY TRUST, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

The following unaudited pro forma statements of operations for the three months ended March 31, 2011 and 2010, are based on our historical consolidated financial statements adjusted to give effect to the completion of the acquisition of the Highland Hospitality Portfolio as if the transaction had occurred at January 1, 2010 and January 1, 2011. The pro forma financial information is prepared for informational purposes only and does not purport to be indicative of what would have resulted had the acquisition transaction occurred on the date indicated or what may result in the future (in thousands, except per share amounts).

	Three Months Ended March 31, 2011			Three Months Ended March 31, 2010

(3) The equity loss in unconsolidated joint ventures does not include \$17.6 million of closing costs incurred by PIM Highland JV.

(4) To reflect our 71.74% loss in PIM Highland JV that is attributable to noncontrolling interests.

ASHFORD HOSPITALITY TRUST, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

17. Subsequent Events

In April 2011, we completed the offering of 3.35 million shares (including 350,000 shares pursuant to the underwriters' exercise of an over-allotment option) of the 9.00% Series E Cumulative Preferred Stock at a net price of \$24.2125 per share, and we received net proceeds of \$81.1 million after underwriting fees. Of the total proceeds from the offering \$73.0 million was used to redeem 5.9 million shares of the total 7.2 million shares of our Series B-1 convertible preferred stock outstanding on May 3, 2011. The remaining proceeds will be used for other general corporate purposes. The remaining 1.4 million outstanding Series B-1 convertible preferred shares were converted into 1.4 million shares of our common stock.

In April 2011, we entered into a settlement agreement with the borrower of the mezzanine loan which was secured by a 105-hotel property portfolio and scheduled to mature in April 2011. The borrower paid off the loan for \$22.1 million. The mezzanine loan had a carrying value of \$17.9 million at March 31, 2011 and December 31, 2010, after an impairment charge of \$7.8 million was recorded at December 31, 2010. The difference between the settlement amount and the carrying value will be recorded as a credit to impairment charges in accordance with applicable accounting guidance. We used \$20.0 million of the settlement proceeds to pay down our senior credit facility.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

FORWARD LOOKING STATEMENTS

The following discussion should be read in conjunction with the unaudited financial statements and notes thereto appearing elsewhere herein. This report contains forward-looking statements within the meaning of the federal securities laws. Ashford Hospitality Trust, Inc. (the Company or we or our or us) cautions investors that any forward-looking statements presented herein, or which management may express orally or in writing from time to time, are based on management's beliefs and assumptions at that time. Throughout this report, words such as anticipate, believe, expect, intend, may, might, plan, estimate, project, should, will, result, and other expressions, which do not relate solely to historical matters, are intended to identify forward-looking statements. Such statements are subject to risks, uncertainties, and assumptions and are not guarantees of future performance, which may be affected by known and unknown risks, trends, uncertainties, and factors beyond our control. Should one or more of these risks or uncertainties materialize, or should underlying assumptions prove incorrect, actual results may vary materially from those anticipated, estimated, or projected. We caution investors that while forward-looking statements reflect our good-faith beliefs at the time such statements are made, said statements are not guarantees of future performance and are affected by actual events that occur after such statements are made. We expressly disclaim any responsibility to update forward-looking statements, whether as a result of new information, future events, or otherwise. Accordingly, investors should use caution in relying on past forward-looking statements, which were based on results and trends at the time those statements were made, to anticipate future results or trends.

Some risks and uncertainties that may cause our actual results, performance, or achievements to differ materially from those expressed or implied by forward-looking statements include, among others, those discussed in our Form 10-K for the year ended December 31, 2010, as filed with the Securities and Exchange Commission on March 4, 2011. These risks and uncertainties continue to be relevant to our performance and financial condition. Moreover, we operate in a very competitive and rapidly changing environment where new risk factors emerge from time to time. It is not possible for management to predict all such risk factors, nor can management assess the impact of all such risk factors on our business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements. Given these risks and uncertainties, investors should not place undue reliance on forward-looking statements as indicators of actual results.

EXECUTIVE OVERVIEW

General

Following a recession that lasted over two years, beginning in 2010 the lodging industry started experiencing improvement in fundamentals, specifically occupancy and this improvement has continued into 2011. Room rates, measured by the average daily rate, or ADR, which typically lags occupancy growth in the early stage of a recovery, have continued showing upward growth. We believe the improvements in the economy will continue to positively impact the lodging industry and hotel operating results for 2011. Our business strategy is to take advantage of the cyclical nature of the hotel industry. We believe that in the current cycle, hotel values and cash flows, for the most part, peaked in 2007, and we believe we will not achieve similar cash flows and values in the immediate future. Industry experts have suggested that cash flows within our industry may achieve these previous highs again in 2014 through 2016.

Based on our primary business objectives and forecasted operating conditions, our current key priorities and financial strategies include, among other things:

- acquisition of hotel properties;

- disposition of hotel properties;

- restructuring and liquidating positions in mezzanine loans;

- pursuing capital market activities to enhance long-term shareholder value;

preserving capital, enhancing liquidity, and continuing current cost saving measures;

implementing selective capital improvements designed to increase profitability;

implementing effective asset management strategies to minimize operating costs and increase revenues;

financing or refinancing hotels on competitive terms;

utilizing hedges and derivatives to mitigate risks; and

making other investments or divestitures that our Board of Directors deems appropriate.

Our investment strategies continue to focus on the upscale and upper-upscale segments within the lodging industry. We believe that as supply, demand, and capital market cycles change, we will be able to shift our investment strategies to take advantage of new lodging-related investment opportunities as they may develop. Our Board of Directors may change our investment strategies at any time without shareholder approval or notice.

SIGNIFICANT TRANSACTIONS AND RECENT DEVELOPMENTS

Preferred Stock Offering and Redemption of Series B-1 Convertible Preferred Stock In April 2011, we completed the offering of 3.35 million shares (including 350,000 shares pursuant to the underwriters' exercise of an over-allotment option) of the 9.00% Series E Cumulative Preferred Stock at a net price of \$24.2125 per share, and we received net proceeds of \$81.1 million after underwriting fees. Of the total proceeds from the offering \$73.0 million was used to redeem 5.9 million shares of the total 7.2 million shares of our Series B-1 convertible preferred stock outstanding on May 3, 2011. The remaining proceeds will be used for other general corporate purposes. The remaining 1.4 million outstanding Series B-1 convertible preferred shares were converted into 1.4 million shares of our common stock.

Repayment of a Mezzanine Loan In April 2011, we entered into a settlement agreement with the borrower of the mezzanine loan which was secured by a 105-hotel property portfolio and scheduled to mature in April 2011. The borrower paid off the loan for \$22.1 million. The mezzanine loan had a carrying value of \$17.9 million at March 31, 2011 and December 31, 2010, after an impairment charge of \$7.8 million was recorded at December 31, 2010. The difference between the settlement amount and the carrying value will be recorded as a credit to impairment charges in accordance with applicable accounting guidance. We used \$20.0 million of the settlement proceeds to pay down our senior credit facility.

Acquisition of Hotel Properties Securing Mezzanine Loans Held in Unconsolidated Joint Ventures In July 2010, as a strategic complement to our existing joint venture with Prudential Real Estate Investors (PREI) formed in 2008, we contributed \$15.0 million for an ownership interest in a new joint venture with PREI. The new joint venture acquired a portion of the tranche 4 mezzanine loan associated with JER Partners' 2007 privatization of the JER/Highland Hospitality portfolio. The mezzanine loan was secured by the same 28 hotel properties as our then existing joint venture investment in the tranche 6 mezzanine loan. Both of these mezzanine loans were in default since August 2010. After negotiating with the borrowers, senior secured lenders and senior mezzanine lenders for a restructuring, we, through another new joint venture, the PIM Highland JV, with PRISA III Investments, LLC (PRISA III) (an affiliate of PREI), invested \$150.0 million and PRISA III invested \$50.0 million of new capital to acquire the 28 high quality full and select service hotel properties comprising the Highland Portfolio on March 10, 2011. We and PRISA III have ownership interests of 71.74% and 28.26%, respectively, in the new joint venture. In addition to the common equity splits, we and PRISA III each have a \$25.0 million preferred equity interest earning an accrued but unpaid 15% return with priority over common equity distributions. Our investment in the PIM Highland JV is accounted for using the equity method and the carrying value was \$193.1 million at March 31, 2011. The PIM Highland JV recognized a gain of \$75.4 million at acquisition, of which our share was \$43.2 million, based on the preliminary assessment of the fair value of the assets acquired and the liabilities assumed. The purchase price has been allocated to the assets acquired and liabilities assumed on a preliminary basis using estimated fair value information currently available. The allocation of the purchase price to the assets and liabilities will be finalized as soon as practicable upon completion of the analysis of the fair values of the assets acquired and liabilities assumed, which could result in adjustments to the gain recognized based on the preliminary assessment.

Litigation Settlement In March 2010, we entered into a Consent and Settlement Agreement (the Settlement Agreement) with Wells Fargo Bank, N.A. (Wells) to resolve potential disputes and claims between us and Wells relating to our purchase of a participation interest in certain mezzanine loans. Wells denied the allegations in our

30

complaint and further denies any liability for the claims asserted by us; however, the Settlement Agreement was entered into to resolve our claims against Wells and to secure Wells' consent to our participation in the Highland Hospitality Portfolio restructuring. Pursuant to the Settlement Agreement, Wells has agreed to pay us \$30.0 million over the next five years, or earlier, if certain conditions are satisfied. As part of the Settlement Agreement, we and Wells have agreed to a mutual release of claims. We expect that the settlement amount will likely be paid within the next 12 months. We recorded a receivable of \$30.0 million and accrued legal costs of \$5.5 million for the settlement. Of the total settlement amount, \$30.0 million was recorded as Other income and the associated legal costs of \$5.5 million were recorded as Corporate general and administrative expenses in the consolidated statements of operations.

Acquisition of Condominium Properties In March 2011, we acquired real estate and certain other rights in connection with the acquisition of the WorldQuest Resort, a condominium hotel project. More specifically, we acquired 96 condominium units, hotel amenities land and improvements, developable raw land, developer rights and Rental Management Agreements (RMA s) with third party owners of condominium units in the project. Units owned by third parties with RMA s and 62 of the 96 units we acquired participate in a rental pool program whereby the units are leased to guests similar to a hotel operation. Under the terms of the RMA s, we share in a percentage of the guest room revenues and are reimbursed for certain costs. The remaining 34 units that we own are currently being finished out and will be added to the rental pool when completed. All of these units are included in Investment in hotel properties, net in the consolidated balance sheet.

Resumption of Common Dividends In February 2011, the Board of Directors accepted management's recommendation to resume paying cash dividends on our outstanding shares of common stock with an annualized target of \$0.40 per share for 2011. The dividend of \$0.10 for the first quarter of 2011 was paid in April 2011, and subsequent payments will be reviewed on a quarterly basis.

Completion of Sales of Hotel Properties In the three months ended March 2011, we completed the sale of the three hotel properties which were classified as assets held for sale at December 31, 2010, the JW Marriott hotel in San Francisco, California, the Hilton hotel in Rye Town, New York and the Hampton Inn hotel in Houston, Texas. We received net proceeds of \$93.7 million (net of repayments of related mortgage debt of \$50.2 million). We used the net proceeds to reduce \$70.0 million of the borrowings on our senior credit facility.

Sale of Additional Shares of Our Common Stock In January 2011, an underwriter purchased 300,000 shares of our common stock through the partial exercise of the underwriter's 1.125 million share over-allotment option in connection with the issuance of 7.5 million shares of common stock completed in December 2010, and we received net proceeds of \$2.8 million.

LIQUIDITY AND CAPITAL RESOURCES

Our cash position from operations is affected primarily by macro industry movements in occupancy and rate as well as our ability to control costs. Further, interest rates greatly affect the cost of our debt service as well as the financial hedges we put in place. We monitor very closely the industry fundamentals as well as interest rates. The strategy is that if the economy underperforms (negatively affecting industry fundamentals), some or all of the loss in cash flow should be offset by our financial hedges due to, what we believe to be, the expectation that the Federal Reserve will probably keep interest rates relatively low. Alternatively, if the Federal Reserve raises interest rates because of inflation, our properties should benefit from the ability to rapidly raise room rates in an inflationary environment. Capital expenditures above our reserves will affect cash flow as well.

In September 2010, we entered into an at-the-market (ATM) program with an investment banking firm to offer for sale from time to time up to \$50.0 million of our common stock at market prices. No shares were sold during the three months ended March 31, 2011. Proceeds from the ATM program, to the extent the program is utilized, are expected to be used for general corporate purposes including investments and reduction of debt.

In February 2010, we entered into a Standby Equity Distribution Agreement (the SEDA) with YA Global Master SPV Ltd. (YA Global) that terminates in 2013, and is available to provide us additional liquidity if needed. Pursuant to the SEDA, YA Global has agreed to purchase up to \$50.0 million (which may be increased to \$65.0 million pursuant to the SEDA) of newly issued shares of our common stock if notified to do so by us in accordance with the SEDA. No shares were sold during the three months ended March 31, 2011.

Our principal sources of funds to meet our cash requirements include: positive cash flow from operations, capital market activities, property refinancing proceeds, asset sales, and net cash derived from interest rate derivatives. Additionally, our principal uses of funds are expected to include possible operating shortfalls, owner-funded capital expenditures, new investments and debt interest and principal payments. Items that impacted our cash flow and liquidity during the periods indicated are summarized as follows:

Net Cash Flows Provided by Operating Activities. Net cash flows provided by operating activities, pursuant to our Consolidated Statement of Cash Flows which includes the changes in balance sheet items, were \$15.9 million and \$25.6 million for three months ended March 31, 2011 and 2010, respectively. The decrease in cash flows from operating activities was primarily due to the timing of collecting receivables from hotel guests and an increase in restricted cash due to additional cash deposits relating to certain debt services and capital expenditures.

Net Cash Flows Used in Investing Activities. For the three months ended March 31, 2011, investing activities used net cash flows of \$27.4 million. Cash outlays consisted of \$145.8 million for the acquisition of the 71.74% interest in PIM Highland JV 28-hotel properties, \$12.0 million for the acquisition of investment in hotel condominiums, and \$13.9 million for capital improvements made to various hotel properties. Cash inflows consisted of \$143.9 million from the sale of three hotel properties. For the three months ended March 31, 2010, investing activities provided net cash flows of \$2.6 million, consisting of cash inflows of \$20.8 million from the principal payments on notes receivable and cash outlays of \$18.2 million for capital improvements to various hotel properties.

Net Cash Flows Used in Financing Activities. For the three months ended March 31, 2011, net cash flows used in financing activities were \$113.8 million. Cash outlays consisted of \$7.3 million for dividend payments to common and preferred stockholders and unit holders, \$2.2 million payment for loan modification and extension fees, \$125.2 million for repayments of indebtedness and capital leases, and \$127,000 distribution to a noncontrolling interest joint venture partner. These cash outlays were partially offset by cash inflows of \$2.8 million from issuance of 300,000 shares of common stock and \$18.2 million from the counterparties of our interest rate derivatives. For the three months ended March 31, 2010, net cash flows used in financing activities was \$21.2 million. Cash outlays consisted of \$29.1 million for purchases of common stock, \$5.6 million for dividend payments to preferred shareholders and preferred unit holders, \$834,000 payment for loan modification and extension fees, \$1.4 million for repayments of indebtedness and capital leases, and \$129,000 distribution to a noncontrolling interest joint venture partner. These cash outlays were partially offset by \$15.7 million cash payments from the counterparties of our interest rate derivatives.

We are required to maintain certain financial ratios under various debt, preferred equity and derivative agreements. If we violate covenants in any debt or derivative agreement, we could be required to repay all or a portion of our indebtedness before maturity at a time when we might be unable to arrange financing for such repayment on attractive terms, if at all. Violations of certain debt covenants may result in us being unable to borrow unused amounts under a line of credit, even if repayment of some or all borrowings is not required. In any event, financial covenants under our current or future debt obligations could impair our planned business strategies by limiting our ability to borrow (i) beyond certain amounts or (ii) for certain purposes. Presently, our existing financial debt covenants primarily relate to maintaining minimum debt coverage ratios, maintaining an overall minimum net worth, maintaining a maximum loan to value ratio, and maintaining an overall minimum total assets. At March 31, 2011, we were in compliance with all covenants or other requirements set forth in our debt and derivative agreements as amended.

Virtually, our only recourse obligation is our \$250 million senior credit facility held by nine banks, which expires in April 2012. The outstanding balance on this credit facility at March 31, 2011 was \$45.0 million. The main covenants in this senior credit facility include (i) the minimum fixed charge coverage ratio, as defined, of 1.25x through March 31, 2011 (ours was 1.70x at March 31, 2011), and 1.35x thereafter until expiration; and (ii) the maximum leverage ratio, as defined, of 65% (ours was 60.9% at March 31, 2011). We may be unable to refinance a portion or all of this senior credit facility before maturity, and if it becomes necessary to pay down the principal balance, we believe we will be able to accomplish that with cash on hand, cash flows from operations, equity raises or, to the extent necessary, asset sales.

The articles governing our Series B-1 convertible preferred stock require us to maintain certain covenants. The impairment charges recorded during the second, third and fourth quarter of 2009, and the second and fourth quarter of 2010 could have prevented us from satisfying one financial ratio. However, the holder of the Series B-1 convertible

preferred stock reviewed the specific impairment charges and agreed to exclude the impairment charges incurred in the second, third and fourth quarters of 2009, and the second and fourth quarters of 2010, as they impacted the financial ratio calculations for the affected periods. There were no requirements to submit our covenant calculations related to our

Series B-1 convertible preferred stock as all the outstanding shares were redeemed or converted to common stock on May 3, 2011.

Based upon the current level of operations, management believes that our cash flow from operations along with our cash balances and the amount available under our senior credit facility (\$205.0 million at March 31, 2011) will be adequate to meet upcoming anticipated requirements for interest, working capital, and capital expenditures for the next 12 months. With respect to upcoming maturities, we will continue to proactively address our upcoming 2011 maturities. No assurances can be given that we will obtain additional financings or, if we do, what the amount and terms will be. Our failure to obtain future financing under favorable terms could adversely impact our ability to execute our business strategy. In addition, we may selectively pursue debt financing on individual properties and our debt investments.

We are committed to an investment strategy where we will opportunistically pursue hotel-related investments as suitable situations arise. Funds for future hotel-related investments are expected to be derived, in whole or in part, from future borrowings under a credit facility or other loans, or from proceeds from additional issuances of common stock, preferred stock, or other securities, asset sales, joint ventures and repayments of our loan investments. However, we have no formal commitment or understanding to invest in additional assets, and there can be no assurance that we will successfully make additional investments. We are encouraged by the incremental improvement in both the capital and debt markets over the last quarter and will continue to look at capital raising options.

Our existing hotels are mostly located in developed areas that contain competing hotel properties. The future occupancy, ADR, and RevPAR of any individual hotel could be materially and adversely affected by an increase in the number or quality of the competitive hotel properties in its market area. Competition could also affect the quality and quantity of future investment opportunities.

Dividend Policy. In February 2011, the Board of Directors accepted management's recommendation to resume paying cash dividends on our common stock with an annualized target of \$0.40 per share for 2011. The dividend of \$0.10 for the first quarter of 2011 was paid in April 2011, and subsequent payments will be reviewed on a quarterly basis. We may incur indebtedness to meet distribution requirements imposed on REITs under the Internal Revenue Code to the extent that working capital and cash flow from our investments are insufficient to fund required distributions. Or, we may elect to pay dividends on our common stock in cash or a combination of cash and shares of securities as permitted under federal income tax laws governing REIT distribution requirements.

RESULTS OF OPERATIONS

The following table summarizes the changes in key line items from our consolidated statements of operations (in thousands):

	Three Months Ended March 31,		Favorable/ (Unfavorable)
	2011	2010	Change
Total revenue	\$ 212,294	\$ 199,203	\$ 13,091
Total hotel operating expenses	\$ (138,033)	\$ (131,155)	\$ (6,878)
Property taxes, insurance and other	\$ (10,929)	\$ (13,154)	\$ 2,225
Depreciation and amortization	\$ (32,973)	\$ (34,040)	\$ 1,067
Impairment charges	\$ 340	\$ 769	\$ (429)
Transaction acquisition costs	\$ 1,224	\$	\$ 1,224
Corporate general and administrative	\$ (13,883)	\$ (6,658)	\$ (7,225)
Operating income	\$ 18,040	\$ 14,965	\$ 3,075
Equity in earnings of unconsolidated joint ventures	\$ 28,124	\$ 658	\$ 27,466
Interest income	\$ 36	\$ 61	\$ (25)
Other income	\$ 48,003	\$ 15,519	\$ 32,484
Interest expense and amortization of loan costs	\$ (34,578)	\$ (35,064)	\$ 486
Unrealized gain (loss) on derivatives	\$ (16,817)	\$ 13,908	\$ (30,725)
Income tax benefit (expense)	\$ (1,044)	\$ (44)	\$ (1,000)
Income from continuing operations	\$ 41,764	\$ 10,003	\$ 31,761
Income (loss) from discontinued operations	\$ 2,118	\$ (4,777)	\$ 6,895
Net income	\$ 43,882	\$ 5,226	\$ 38,656
(Income) loss from consolidated joint ventures attributable to noncontrolling interests	\$ (931)	\$ 701	\$ (1,632)
Net income attributable to redeemable noncontrolling interests in operating partnership	\$ (5,118)	\$ (792)	\$ (4,326)
Net income attributable to the Company	\$ 37,833	\$ 5,135	\$ 32,698

Income from continuing operations represents the operating results of 97 hotel properties included in continuing operations that we have owned throughout the entirety of the three months ended March 31, 2011 and 2010. The following table illustrates the key performance indicators of these hotels:

	Three Months Ended March 31,	
	2011	2010
Total hotel revenue (in thousands)	\$211,956	\$198,792
Room revenue (in thousands)	\$163,060	\$151,726
RevPAR (revenue per available room)	\$ 92.04	\$ 85.64
Occupancy	69.87%	67.79%
ADR (average daily rate)	\$ 131.73	\$ 126.34

Comparison of the Three Months Ended March 31, 2011 and 2010

Revenue. Room revenue for the three months ended March 31, 2011 (the 2011 quarter) increased \$11.3 million, or 7.5%, to \$163.1 million from \$151.7 million for the three months ended March 31, 2010 (the 2010 quarter). The increase in room revenue was primarily due to the continued improvements in occupancy coupled with the increase in average daily rate. During the 2011 quarter, we experienced a 208 basis points increase in occupancy and a 4.3% increase in room rates as the economy continues to improve. Food and beverage experienced a similar increase of \$2.2 million, or 6.2%, due to improved occupancy. Other revenue, which consists mainly of telecommunication, parking, spa and golf fees, experienced a slight decline of \$526,000.

Rental income from the triple-net operating lease increased \$131,000 primarily due to higher hotel revenues related to that property during the 2011 quarter resulting from improved ADR and the effect of higher occupancy.

Asset management fees and other were \$338,000 and \$74,000 for the 2011 quarter and the 2010 quarter, respectively.

No interest income from notes receivable has been recorded for the 2011 quarter as the remaining two mezzanine loans in our loan portfolio were impaired in the previous two years. As a result, the cash received from the two remaining notes is recorded as credits to impairment charges in accordance with applicable authoritative accounting guidance. We recorded a credit to impairment charges of \$340,000 and \$769,000 for the 2011 quarter and the 2010 quarter, respectively. In April 2011, we entered into a settlement agreement with the borrower of the mezzanine loan which was secured by a 105-hotel property portfolio and scheduled to mature in April 2011. The borrower repaid the loan for \$22.1 million. The mezzanine loan had a carrying value of \$17.9 million at March 31, 2011 and December 31, 2010, after an impairment charge of \$7.8 million was recorded at December 31, 2010. The difference between the settlement amount and the carrying value was recorded as a credit to impairment charges in accordance with applicable accounting guidance.

Hotel Operating Expenses. Hotel operating expenses consist of direct expenses from departments associated with revenue streams and indirect expenses associated with support departments and management fees. We experienced increases of \$3.5 million in direct expenses and \$3.4 million in indirect expenses and management fees in the 2011 quarter. The increase in these expenses is primarily attributable to higher occupancy and higher management fees resulting from increased hotel revenues, and higher sales and marketing expenses. The direct expenses were 32.6% of total hotel revenue for the 2011 quarter and 33.0% for the 2010 quarter.

Property Taxes, Insurance and Other. Property taxes, insurance and other decreased \$2.2 million for the 2011 quarter to \$10.9 million. The decrease is primarily due to a \$1.5 million reduction in property taxes resulting from our continued successful appeals as we secured significant reductions in the assessed value related to certain of our hotel properties. Insurance expense and other decreased \$265,000 resulting from lower premiums for insurance policies renewed in June 2010 and lower uninsured losses incurred. The decrease in these expenses also reflects a gain of \$244,000 recognized on an insurance settlement.

Depreciation and Amortization. Depreciation and amortization decreased \$1.1 million for the 2011 quarter compared to the 2010 quarter primarily due to certain assets that had been fully depreciated since March 31, 2010, which is partially offset by an increase in depreciation expense resulting from capital improvements made at certain hotel properties since March 31, 2010.

Impairment Charges. We recorded a credit to impairment charges of \$340,000 and \$769,000 for the cash received and the valuation adjustments on the previously impaired mezzanine loans.

Transaction Acquisition Costs. We recorded a credit to transaction acquisition costs of \$1.2 million relating to certain costs for the acquisition of the 71.74% interest in PIM Highland JV that were reimbursed by the joint venture.

Corporate General and Administrative. Corporate general and administrative expenses increased to \$13.9 million for the 2011 quarter compared to \$6.7 million for the 2010 quarter. The non-cash stock/unit-based compensation expense increased \$642,000 primarily due to the higher expense recognized on the restricted stock/unit-based awards granted in 2010 and 2011 at a higher cost per share. For the 2011 quarter, corporate general and administrative expenses also included \$5.5 million in legal costs associated with the settlement of litigation. Other corporate general and administrative expenses increased \$1.1 million during the 2011 quarter primarily attributable to an increase in target incentives for certain executives.

Equity in Earnings of Unconsolidated Joint Ventures. We recorded equity in earnings of unconsolidated joint ventures of \$28.1 million and \$658,000 for the 2011 quarter and the 2010 quarter, respectively. Included in the 2011 quarter were a gain of \$75.4 million recognized by the PIM Highland JV at acquisition, of which our share was \$43.2 million, and \$17.6 million of transaction costs recorded for the acquisition. Excluding the gain and the transaction costs, our equity loss would be \$2.4 million for the 2011 quarter.

Interest Income. Interest income was \$36,000 and \$61,000 for the 2011 quarter and the 2010 quarter, respectively.

Other Income. Other income was \$48.0 million and \$15.5 million for the 2011 quarter and the 2010 quarter, respectively. Income from the non-hedge interest rate swap, floor and floorriders accounted for \$18.0 million and \$15.5 million for the 2011 quarter and the 2010 quarter, respectively. For the 2011 quarter other income included a gain of \$30.0 million recognized from a litigation settlement.

Interest Expense and Amortization of Loan Costs. Interest expense and amortization of loan costs decreased \$486,000 to \$34.6 million for the 2011 quarter from \$35.1 million for the 2010 quarter. The decrease is primarily attributable to decreased amortization of loan costs resulting from certain loan costs that were fully amortized at the initial maturity dates and a slight decrease in interest expense resulting from the principal repaid since March 31, 2010 net of the increase in interest from loans refinanced at higher interest rates since March 31, 2010.

Unrealized Gain (Loss) on Derivatives. Unrealized gain (loss) on derivatives represents primarily the changes in fair value of the interest rate swap, floor, floor/ceiling and cap transactions we entered into since March 2008 which were not designated as cash flow hedges. We recorded an unrealized loss of \$16.8 million for the 2011 quarter and an unrealized gain of \$13.9 million for the 2010 quarter on these derivatives. The fair value of these derivatives decreased during the 2011 quarter primarily due to the movements in the LIBOR forward curve used in determining the fair value and the passage of time.

Income Tax Expense. We recorded an income tax expense from continuing operations of \$1.0 million for the 2011 quarter and \$44,000 for the 2010 quarter. The increase in tax expense in the 2011 quarter is primarily due to increased profitability in our TRS subsidiaries. Despite the utilization of net operating loss carryforwards for regular tax purposes, we had to accrue federal alternative minimum taxes and certain state income taxes for our largest TRS subsidiary.

Income (Loss) from Discontinued Operations. Discontinued operations reported income from operations of \$2.1 million for the 2011 quarter and loss of \$4.8 million for the 2010 quarter. During the 2011 quarter, we completed the sale of the JW Marriott hotel in San Francisco, CA, the Hilton hotel in Rye Town, NY and the Hampton Inn hotel in Houston, TX. We recorded a net gain of \$2.8 million on the sales. Discontinued operations for the 2010 quarter also include the operating results of the Hilton Suites in Auburn Hills, Michigan that was sold in September 2010 and the Westin O'Hare, Illinois that was deconsolidated at the closing of the deed-in-lieu of foreclosure in September 2010.

Loss from Consolidated Joint Ventures Attributable to Noncontrolling Interests. The noncontrolling interest partners in consolidated joint ventures were allocated income of \$931,000 during the 2011 quarter and a loss of \$701,000 during the 2010 quarter. In the 2011 quarter, we recorded a gain of \$2.1 million from the sale of the Hampton Inn hotel property in Houston, Texas that was held by a joint venture.

Net Income Attributable to Redeemable Noncontrolling Interests in Operating Partnership. The noncontrolling interests were allocated net income of \$5.1 million and \$792,000 in the 2011 quarter and the 2010 quarter, respectively. The redeemable noncontrolling interests represented ownership interests of 19.2% and 22.5% in the operating partnership at March 31, 2011 and 2010, respectively. The decrease was primarily due to the net increase in common stock outstanding of 6.6 million resulting from the issuance of 7.8 million shares in December 2010 and January 2011, net of the effect of shares repurchased in the second quarter of 2010 and the units redeemed and converted since March 31, 2010.

SEASONALITY

Our properties' operations historically have been seasonal as certain properties maintain higher occupancy rates during the summer months and some during the winter months. This seasonality pattern can cause fluctuations in our quarterly lease revenue under our percentage leases. We anticipate that our cash flows from the operations of our properties will be sufficient to enable us to make quarterly distributions to maintain our REIT status. To the extent that cash flows from operations are insufficient during any quarter due to temporary or seasonal fluctuations in lease revenue, we expect to utilize other cash on hand or borrowings to fund required distributions. However, we cannot make any assurances that we will make distributions in the future.

CRITICAL ACCOUNTING POLICIES

There have been no other significant new accounting policies employed during the three months ended March 31, 2011. See our Annual Report on Form 10-K for the year ended December 31, 2010 for further discussion of critical accounting policies.

RECENTLY ISSUED ACCOUNTING STANDARDS

In December 2010, FASB issued an accounting standard update to require a public entity to disclose pro forma information for business combinations that occurred in the current reporting period. The disclosures include pro forma

revenue and earnings of the combined entity for the current reporting period as though the acquisition date for all business combinations that occurred during the year had been as of the beginning of the annual reporting period. If comparative financial statements are presented, the pro forma revenue and earnings of the combined entity for the comparable prior reporting period should be reported as though the acquisition date for all business combinations that occurred during the current year had been as of the beginning of the comparable prior annual reporting period. The new disclosures are effective prospectively for business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after December 15, 2010. The pro forma disclosures related to our acquisition of the 28-hotel portfolio through the PIM Highland JV in Note 16 are made in accordance with the new requirements. The adoption did not have an impact on our financial position and results of operations.

NON-GAAP FINANCIAL MEASURES

The following non-GAAP presentations of EBITDA and FFO are made to help our investors in evaluating our operating performance. EBITDA is defined as net income (loss) attributable to the Company before interest expense, interest income other than interest income from mezzanine loans, income taxes, depreciation and amortization, and noncontrolling interests in the operating partnership. We present EBITDA because we believe it provides useful information to investors as it is an indicator of our ability to meet our future debt payment requirements, working capital requirements and it provides an overall evaluation of our financial condition. EBITDA as calculated by us may not be comparable to EBITDA reported by other companies that do not define EBITDA exactly as we define the term. EBITDA does not represent cash generated from operating activities determined in accordance with generally accepted accounting principles (GAAP), and should not be considered as an alternative to operating income or net income determined in accordance with GAAP as an indicator of performance or as an alternative to cash flows from operating activities as determined by GAAP as a indicator of liquidity.

The following table reconciles net income to EBITDA (in thousands):

	Three Months Ended March 31,	
	2011	2010
Net income	\$ 43,882	\$ 5,226
Income (loss) from consolidated joint ventures attributable to noncontrolling interests	(931)	701
Net income attributable to redeemable noncontrolling interests in operating partnership	(5,118)	(792)
Net income attributable to the Company	37,833	5,135
Depreciation and amortization	32,161	36,318
Interest expense and amortization of loan costs	34,817	37,105
Income tax expense (benefit)	1,129	(15)
Net income attributable to redeemable noncontrolling interests in operating partnership	5,118	792
Interest income	(36)	(60)
EBITDA ⁽¹⁾	\$ 111,022	\$ 79,275

- (1) EBITDA is not adjusted for income received from interest rate derivatives because the related derivatives are not designated as hedges under the applicable authoritative accounting guidance and therefore, this income is reported as other income instead of a reduction of interest expense in accordance with GAAP.

The White Paper on Funds From Operations (FFO) approved by the Board of Governors of the National Association of Real Estate Investment Trusts (NAREIT) in April 2002 defines FFO as net income (loss) computed in accordance with GAAP, excluding gains or losses on sales of properties and extraordinary items as defined by GAAP, plus depreciation and amortization of real estate assets, and net of adjustments for the portion of these items

attributable to noncontrolling interests in the operating partnership. NAREIT developed FFO as a relative measure of performance of an equity REIT to recognize that income-producing real estate historically has not depreciated on the basis determined by GAAP. We compute FFO in accordance with our interpretation of standards established by NAREIT, which may not be comparable to FFO reported by other REITs that either do not define the term in accordance with the current NAREIT definition or interpret the NAREIT definition differently than us. FFO does not represent cash generated from operating activities as determined by GAAP and should not be considered as an alternative to a) GAAP net income or loss as an indication of our financial performance or b) GAAP cash flows from operating activities as a measure of our liquidity, nor is it indicative of funds available to satisfy our cash needs, including our ability to make cash distributions. However, to facilitate a clear understanding of our historical operating results, we believe that FFO should be considered along with our net income or loss and cash flows reported in the consolidated financial statements.

The following table reconciles net income to FFO (in thousands):

	Three Months Ended March 31,	
	2011	2010
Net income	\$ 43,882	\$ 5,226
Income (loss) from consolidated joint ventures attributable to noncontrolling interests	(931)	701
Net income attributable to redeemable noncontrolling interests in operating partnership	(5,118)	(792)
Preferred dividends	(6,555)	(4,830)
Net income attributable to common shareholders	31,278	305
Depreciation and amortization of real estate	32,100	36,250
Gain on sale/disposition of properties	(2,802)	
Net income attributable to redeemable noncontrolling interests in operating partnership	5,118	792
FFO available to common shareholders	\$ 65,694	\$ 37,347

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURE ABOUT MARKET RISK

Our primary market risk exposure consists of changes in interest rates on borrowings under our debt instruments, our derivatives portfolio and notes receivable that bear interest at variable rates that fluctuate with market interest rates. The analysis below presents the sensitivity of the market value of our financial instruments to selected changes in market interest rates.

At March 31, 2011, the total indebtedness of \$2.4 billion of our continuing operations included \$591.1 million of variable-rate debt. The impact on the results of operations of a 25-basis point change in interest rate on the outstanding balance of variable-rate debt at March 31, 2011 would be approximately \$1.4 million per year. Interest rate changes will have no impact on the remaining \$1.9 billion of fixed rate debt.

The above amounts were determined based on the impact of hypothetical interest rates on our borrowings and assume no changes in our capital structure. As the information presented above includes only those exposures that existed at March 31, 2011, it does not consider exposures or positions that could arise after that date. Accordingly, the information presented herein has limited predictive value. As a result, the ultimate realized gain or loss with respect to interest rate fluctuations will depend on exposures that arise during the period, the hedging strategies at the time, and the related interest rates.

We primarily use interest rate derivatives in order to capitalize on the historical correlation between changes in LIBOR and RevPAR. Beginning in March 2008, we entered into various interest rate swap, cap, floor, and flooridor transactions that were not designated as hedges. The changes in the fair market values of these transactions are noncash items and recorded in earnings. The interest rate derivatives we entered into since 2008 have resulted in total income of approximately \$143.5 million through March 2011. Based on the LIBOR rates in effect on March 31, 2011, these derivatives are expected to result in income of approximately \$52.9 million for the remainder of 2011.

ITEM 4. CONTROLS AND PROCEDURES

Under the supervision and with the participation of the our Chief Executive Officer and Chief Financial Officer, our management has evaluated the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934) as of March 31, 2011 (Evaluation Date). Based upon that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that, as of the Evaluation Date, our disclosure controls and procedures are effective (i) to ensure that information required to be disclosed in reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission rules and forms; and (ii) to ensure that information required to be disclosed in the reports that we file or submit under the Exchange Act is accumulated and communicated to management, including our Chief Executive Officer and Chief Financial Officer, to allow timely decisions regarding required disclosures.

There have been no changes in our internal controls over financial reporting during our most recent fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal controls over financial reporting.

PART II. OTHER INFORMATION**ITEM 1. LEGAL PROCEEDINGS**

We are currently subject to litigation arising in the normal course of our business. In the opinion of management, none of these lawsuits or claims against us, either individually or in the aggregate, is likely to have a material adverse effect on our business, results of operations, or financial condition. In addition, we believe we have adequate insurance in place to cover such litigation.

See Part I, Item 2 regarding the litigation settlement with Wells Fargo Bank, N.A.

ITEM 1A. RISK FACTORS

The discussion of our business and operations should be read together with the risk factors contained in Item 1A of our Annual Report on Form 10-K for the fiscal year ended December 31, 2010, filed with the Securities and Exchange Commission, which describe various risks and uncertainties to which we are or may become subject. These risks and uncertainties have the potential to affect our business, financial condition, results of operations, cash flows, strategies or prospects in a material and adverse manner. At March 31, 2011, there have been no material changes to the risk factors set forth in our Annual Report on Form 10-K for the year ended December 31, 2010.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

(c) The following table provides the information with respect to repurchases we made of shares of our common stock and units of our operating partnership during each month of the first quarter of 2011:

Period	Total Number of Shares Purchased	Average Price Paid Per Share	Total Number of Shares Purchased as Part of Publicly Announced Plan⁽¹⁾	Maximum Dollar Value of Shares That May Yet Be Purchased Under the Plan
Common stock:				
January 1 to January 31		\$		\$ 58,449,000
February 1 to February 28		\$		\$ 58,449,000
March 1 to March 31	13,841 ⁽²⁾	\$		\$ 58,449,000
Total	13,841	\$		

(1) In November 2007, our Board of Directors authorized a \$50 million common stock repurchase plan, which was announced on November 21, 2007. The repurchase plan was increased by \$75 million in September 2008, and the program was subsequently amended to include both common and preferred stock. In January 2009, the Board of Directors authorized an additional \$200 million for the repurchase plan and expanded the plan to include the prepayment of our outstanding debt obligations. In February 2010, the Board of Directors expanded the repurchase program further to also include the potential repurchase of units of our operating partnership.

(2) Includes 13,841 shares forfeited to the Company to satisfy employees' federal income tax obligations in connection with vesting of equity grants issued under our stock-based compensation plan.

ITEM 6. EXHIBITS

Exhibit	Description
3.1	Articles of Amendment and Restatement of the Registrant (incorporated by reference to Exhibit 3.1 to Form S-11/A, filed on July 31, 2003)
3.2	Amended and Restated Bylaws (incorporated by reference to Exhibit 3.1 to Form 8-K, filed November 12, 2010)
10.26.4*	Limited Liability Company Agreement of PIM Holding LLC, dated March 10, 2011, by and between Ashford Hospitality Limited Partnership and PRISA III Investments, LLC
10.26.5*	Consent and Settlement Agreement dated March 10, 2011, by and between Ashford Hospitality Finance, LP and Wells Fargo Bank, N.A. (Confidential treatment has been requested with respect to the redacted portions of this agreement)
10.31*	Indemnity Agreement dated March 10, 2011, between the Registrant and Remington Lodging & Hospitality, LLC
31.1*	Certifications of Chief Executive Officer Pursuant to Rule 13a-14(a) and Rule 15d-14(a) of Securities Exchange Act of 1934, as amended
31.2*	Certifications of Chief Financial Officer Pursuant to Rule 13a-14(a) and Rule 15d-14(a) of Securities Exchange Act of 1934, as amended
32.1*	Certification of Chief Executive Officer pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002
32.2*	Certification of Chief Financial Officer pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002

* Filed herewith.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.
