The Retirement Committee  
The Retirement Plan of Agilysys, Inc.

We have audited the accompanying statements of net assets available for benefits of The Retirement Plan of Agilysys, Inc. as of December 31, 2003 and 2002, and the related statement of changes in net assets available for benefits for the year ended December 31, 2003. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the auditing standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan at December 31, 2003 and 2002 and the changes in its net assets available for benefits for the year ended December 31, 2003, in conformity with U.S. generally accepted accounting principles.

Our audits were performed for the purpose of forming an opinion on the financial statements taken as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2003 is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in our audits of the financial statements and, in our opinion, is fairly stated in all material respects in relation to the financial statements taken as a whole.

The Retirement Plan of Agilysys, Inc.  
Notes to Financial Statements  
December 31, 2003 and 2002 and  
for the Year Ended December 31, 2003

**A. Description of Plan**

The following description of The Retirement Plan of Agilysys, Inc. (the Plan ) provides only general information. Participants should refer to the summary Plan document and the Plan agreement for a more complete description of the Plan s provisions.

**General**

The Plan is a defined contribution plan covering all employees of Agilysys, Inc. (which, prior to September 15, 2003 was known as Pioneer-Standard Electronics, Inc.) and certain of its subsidiaries (the Company and Plan Administrator ) as defined in the summary Plan document.

On February 28, 2003, the Company completed the sale of substantially all of the assets and liabilities of its Industrial Electronics Division ( IED ) to Arrow Electronics, Inc. ( Arrow ) which resulted in the termination of approximately 1,100 employees. This caused the Plan s account balance of any employee terminated in connection with the IED sale to become fully vested.

Terminated employees as a result of the sale had the option of leaving their accounts with the Trustee if their balance was more than or equal to \$5,000; rolling over the vested balance into another qualified account regardless of account balance which would defer any taxes or penalties; or, electing to have the balance of the account in the Plan paid out to the employee, which would result in the incurrence of applicable penalties and taxes.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ( ERISA ).

**Name Change**

During 2003, the Plan Administrator amended the Plan to reflect the new name of the Company. Accordingly, the Plan name was changed to The Retirement Plan of Agilysys, Inc. The Plan was formerly known as The Retirement Plan of Pioneer-Standard Electronics, Inc.

**Contributions**

Effective April 1, 2002, participants may elect to contribute 1 to 25 percent of their annual pre-tax compensation provided the amounts do not exceed the annual IRS limit. The Company will match 50 percent of the participants contributions on the first six percent of their compensation contributed. Prior to July 2003, the Company matched 50 percent of the participants contributions on the first four percent of their compensation contributed. Employees who attained age 50 before the end of the 2002 calendar year were allowed by law to contribute an additional \$1,000 in 2002, and subsequent increases in \$1,000 increments until reaching a

**A. Description of Plan (continued)**

maximum \$5,000 catch-up contribution in 2006. The Plan also provides for the Company to make additional annual contributions to the Plan in an amount of ten percent of its current profits in excess of the highest amount of profits before profit sharing costs and income taxes in any fiscal year since March 31, 1972 to employees credited with one thousand hours of service in the Plan year who are Plan participants at the end of the Plan year. The annual contributions may be made in cash or in Agilysys, Inc. common shares ( Shares ) provided that not more than fifty percent of the aggregate contribution for a Plan year is made in Shares. The Plan further provides, however, that the Company's Board of Directors is authorized to establish the Company's additional contribution at a different amount, if any. For the year ended December 31, 2003, the profit sharing contributions were \$675,318 (net of approximately \$900,000 in forfeitures to be applied in 2004) and will be paid in cash.

Participants may elect one or more of the Plan's investment options available for the investment of their contributions, their allocation of the Company's matching contributions and any additional contributions not made in Shares. The Company may direct that Shares contributed to the Plan for annual contributions be invested initially in the Agilysys Stock Pool. Participant and Company contributions are eligible to be transferred to any of the fund options of the Plan.

**Participant Accounts**

Each participant's account is credited with the participant's contribution, the Company's matching contribution and an allocation of (a) the Company's profit sharing contribution based on the proportion of the participant's compensation to the total compensation within certain limits of all eligible participants, (b) Plan earnings, gains or losses, and (c) forfeitures of nonvested account balances. Allocations are based on participant compensation within certain limits or account balances, as defined. For the year ended December 31, 2003, approximately \$21,911 of forfeitures were used to reduce the Company's matching contributions. The participant's account determines the benefit that will ultimately be received upon retirement or termination. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

**Vesting**

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion starts after the first year of service and is based on years of continuous service. A participant who has at least one hour of service after December 31, 1997 is 100 percent vested after five years of credited service. Participants who do not have an hour of service after December 31, 1997 are 100 percent vested after seven years of credited service. Former participants in the Retirement Plan of Pioneer-Standard Electronics, Inc. II prior to its merger into the Retirement Plan of Agilysys, Inc. who do not have an hour of service after December 31, 2000 are 100 percent vested after six years of credited service.

The Retirement Plan of Agilysys, Inc.  
Notes to Financial Statements

**A. Description of Plan (continued)**

A participant may withdraw at any time, pursuant to reasonable and uniform notice, any amount of the actual value of employee after-tax or rollover contributions. Withdrawal of funds representing the participants' vested interest in matching, discretionary, and profit sharing contributions including earnings may only be made upon attainment of age 59-1/2 or upon determination that a serious financial hardship exists (e.g., medical expenses, tuition, purchase of a principal residence).

**Participant Loans**

Participants may borrow up to 50 percent of their vested interest, as defined, not to exceed \$50,000. Loan terms range from 1 to 5 years or up to fifteen years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and accrue interest at one percentage point above the prime rate which is in effect on the first business day of the month prior to the month in which the loan application is issued. Principal and interest is paid ratably by the participants through payroll deductions.

**Payment of Benefits**

On termination of participation in the Plan, for benefits commencing prior to August 1, 2002, a participant may have elected to receive either a lump-sum payment equal to the vested interest in their account, or an annuity. For benefits commencing on or after August 1, 2002 distribution is only available in the single sum payment form. Distribution of the participant's account must commence by April 1st following the attainment of age 70-1/2.

**Plan Termination**

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their accounts.

**B. Summary of Significant Accounting Policies**

**Basis of Presentation**

The accompanying financial statements are prepared on the accrual basis of accounting.

The Retirement Plan of Agilysys, Inc.  
Notes to Financial Statements

## B. Summary of Significant Accounting Policies (continued)

### Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

### Investment Valuation and Income Recognition

The shares of registered investment companies are valued at quoted market prices that represent the net asset value of shares held by the Plan at year-end. The common trust funds are stated at fair value as determined by American Express Trust Company (the Trustee). Equity securities, including Agilysys, Inc. common shares, are valued at the quoted market price at year-end in an active market. Participant loans are valued at their outstanding balances, which approximate fair value.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date.

### C. Transactions with Parties in Interest

Party-in-interest transactions include the investment in the funds of the Trustee, Agilysys, Inc. Shares and related dividend income, and the payment of administrative expenses by the Plan, which are reimbursed by the Company. Such transactions are exempt from being prohibited transactions.

### D. Investments

Investments that represent five percent or more of fair value of the Plan's net assets are as follows:

	<b>December 31</b>	
	<b>2003</b>	<b>2002</b>
American Express Trust Income Fund II	<b>\$18,486,020</b>	\$23,568,312

Neuberger Berman Genesis Trust	<b>10,965,234</b>	10,160,846

The Retirement Plan of Agilysys, Inc.  
Notes to Financial Statements

**D. Investments (continued)**

Investments in American Express Trust Medium-Term Horizon Fund and American Express Trust MidCap Growth Fund II did not represent five percent or more of the Plan's net assets in 2002. However, the 2002 balances are presented for comparison purposes.

During 2003, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in fair value as follows:

	<b>Net Appreciation in Fair Value of Investments</b>
	<hr/>
Agilysys, Inc. common shares	\$ 149,859
Common trust funds	5,419,134
Shares of registered investment companies	6,174,849
Common stock	595,508
	<hr/>
	<b>\$ 12,339,350</b>

The Retirement Plan of Agilysys, Inc.  
Notes to Financial Statements

**F. Income Taxes**

The Plan received a determination letter from the Internal Revenue Service dated September 19, 2002, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the Code ) and, therefore, the related trust is exempt from taxation. Subsequent to this determination by the Internal Revenue Service, the Plan was amended. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Plan Administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan, as amended, is qualified and the related trust is tax exempt.

**G. Risks and Uncertainties**

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

**H. Subsequent Event**

In 2004, the Plan's Retirement Committee adopted a resolution to transfer trustee responsibilities from American Express Retirement Services to MassMutual Financial Group. Trustee responsibilities were transferred to MassMutual Financial Group in April 2004.
