ITEM 12. RESULTS OF OPERATIONS AND FINANCIAL CONDITION.

Update on Financial Restructuring

In March 2003, Atlas Air Worldwide Holdings, Inc. (the Company) announced that it was deferring all debt and aircraft lease payments associated with its Boeing 747 aircraft. This deferral was intended to give the Company the opportunity to negotiate a restructuring of the terms and conditions of its debt and aircraft leases to bring them in line with current and anticipated market conditions and better reflect the reduced market values of the aircraft. Because the Company deferred the payments without the consent of its debtholders and lessors, the deferral of payments resulted in defaults under the terms of the applicable leases and debt and resulted in defaults under the terms of its credit facilities and other debt obligations. Such defaults give the other parties to these arrangements certain rights and remedies. Although the Company has already reached agreements in principle with General Electric Capital Aviation Services, its banking group, the holders of its Class A Enhanced Equipment Trust Certificates, and several of its lessors, it continues to negotiate with its remaining lessors and other creditors with a view to achieving a pre-negotiated restructuring of its debt and lease obligations.

The Company currently intends to implement its financial restructuring by entering into restructuring agreements with substantially all of its major creditors and lessors prior to consummating the restructuring through a prenegotiated Chapter 11 filing under the U.S. Bankruptcy Code during the first half of December 2003. Because the Company anticipates having agreements with its major creditors and lessors in place at the time of a Chapter 11 filing, the Company hopes to reduce the time spent in bankruptcy so as to minimize the impact of the filing on its operations.

At this time, it is not possible to predict accurately the effects of the Chapter 11 reorganization process on the Company s business or when it may emerge from Chapter 11. The Company s future results depend in part on the timely and successful completion of negotiations with its creditors and lessors, upon the ability of the Company to comply with the terms and conditions of its restructuring agreements and upon confirmation and implementation of a plan of reorganization. No assurance can be given as to what values, if any, will be ascribed in the bankruptcy case to each of these constituencies, and it is possible that the Company s existing equity or other securities will be restructured in a manner that will reduce substantially or eliminate any value. Accordingly, the Company urges that appropriate caution be exercised with respect to existing and future investments in any of the Company s securities.

Overview of Economic Terms of Restructuring Proposals

The following description of the economic terms of the restructuring proposals are based on the current status of negotiations with the Company s various creditor constituents. Although some of the terms are based on signed term sheets, others are based on drafts with the Company s creditor groups as of September 4, 2003. There is no assurance that the Company s restructuring program will be realized and that the actual terms will not vary from those described below. These differences could be material and adverse. In addition, these are summary descriptions and do not purport to be full descriptions of all material terms of each restructuring agreement.

General Terms. The Company s restructuring proposals and agreements include the following terms:

- a. The restructuring contemplates the increased efficiencies created by unified operation of the Company and its subsidiaries, including the ability to deploy aircraft, cash and other assets and liabilities between and among the Company and its subsidiaries. In order to protect creditors of each of the entities and as consideration for the right to transfer assets among the entities, the Company, Atlas Air, Inc. (Atlas) and Polar Air Cargo, Inc. (Polar), each a wholly-owned subsidiary of the Company, will provide cross guarantees of all lease and debt obligations.
- b. To the extent that the restructuring is implemented through Chapter 11 cases and a plan of reorganization for each of the Company, Atlas and Polar, the agreement with each lessor and lender will include the right of the Company to provide for implementation in a Chapter 11 case. Moreover, the agreements provide for a Section 1110 stipulation for aircraft lenders and lessors for the making of restructured payments for a period of up to 180 days following a Chapter 11 filing.

Table of Contents

- c. Generally, the only creditors receiving equity pursuant to the restructuring are general unsecured creditors, including senior noteholders. However, the senior bank group and an aircraft lessor held the Company or Polar guarantees prior to the restructuring. The two creditors will receive approximately 0.9 percent of the restructured common equity of the Company for every \$100 million face amount of guaranteed debt or the present value of guaranteed future lease obligations.

Aircraft Lessors. The Company and its subsidiaries have offered aircraft lessors identical monthly cash rents with respect to each aircraft type operated by the Company (Boeing 747-200F, Boeing 747-300F and Boeing 747-400F), thereby reducing aggregate cash rents payable through December 31, 2007. Lessors of Boeing 747-200 and Boeing 747-300 aircraft have also been offered the opportunity to extend the original lease maturity date to make up for any cumulative cash rent shortfall as a result of the restructuring (on a non-discounted basis). Some aircraft lessors that have executed binding term sheets implementing the restructuring have elected not to accept the entire extension.

Secured Creditors (On-Balance Sheet Debt Secured by Aircraft). Each secured creditor was offered a debt service payment per aircraft equal to the monthly lease rate by aircraft type, with interest at the rate stated in its loan agreement. For floating rate debt instruments, a fixed amortization schedule was derived by applying the monthly lease rate per aircraft first to payment of estimated fixed rate equivalent interest expense and second to payment of principal. While the interest rate will remain floating on these debts, the amortization schedule derived from this analysis has been fixed through the revised maturity date of the loan. The treatment extends each loan maturity until such point in time when the current principal balance is repaid in full. For one lender, a floating interest rate was fixed.

Unsecured Creditors. Unsecured creditors holding senior notes have been offered \$125 - \$150 million of senior convertible preferred stock and approximately 10.1 million shares (51 percent) of the Company's new common stock. Holders of senior notes who are issuers of collateralized bond obligations may elect to receive up to \$50 million of new senior subordinated notes in lieu of equity recovery. The senior convertible preferred stock is convertible into between 51% and 55% of common shares on a fully diluted basis and votes on an as-converted basis. Other unsecured creditors will be offered convertible preferred and common shares on the same basis as the senior noteholders. The senior noteholders have indicated that the restructuring must provide for marketable securities and, in addition, must be accomplished pursuant to a Chapter 11 filing and in a manner that is binding to all senior noteholders.

ProForma Projected Financial Information.

General Assumptions

In connection with the Company's restructuring plan referred to above and the negotiations with its creditors and lessors regarding implementation of that plan, the Company has prepared projections through 2007, assuming for purposes of these projections that the Company's creditors and lessors would agree to the Company's proposals and that the Company would implement its restructuring plan through a filing under Chapter 11 of the U.S. Bankruptcy Code on or before December 31, 2003 and seek a confirmation of a plan of reorganization and emerge from bankruptcy four months after filing. These projections are presented below.

The projections were prepared by the Company for the purpose of illustrating to its lessors and creditors the financial impact of the implementation of the Company's restructuring program, and consequently have as an assumption that the creditors and lessors agree to the Company's restructuring proposals. Since negotiations with its creditors and lessors are currently ongoing, the Company's business plan and its restructuring proposals to its creditors and lessors are subject to change. Changes in the business plan and proposals could materially and adversely affect these projections. Other factors that may affect these projections include, without limitation, the economic environment in general and the air cargo market in particular, the uncertainties associated with the filing of Chapter 11 and related considerations of approval of a Plan of Reorganization, the outcome of current and potential litigation against the Company, the outcome of the Security and Exchange Commission's (SEC) investigation of the Company, the suspension of trading of the Company's common stock by the New York Stock Exchange (the Exchange) and the likely de-listing of such common stock from the Exchange, significant changes in fuel prices and other operating expenses, the availability and cost of war risk insurance for the Company and such other risks and uncertainties set forth in our Annual Report on Form 10-K for the year ended December 31, 2001 and other factors as may appear in the Company's SEC filings from time to time. Consequently, the projections are not intended to, and do not, reflect any assessment by the Company as to whether the results will be achievable.

Table of Contents**Fleet Plan**

This plan is based on a total fleet of 51 Boeing 747 freighter aircraft in 2003 and 50 Boeing 747 freighter aircraft in 2004 and beyond (due to a lease expiration). The expected allocation of these aircraft among the Company's various product types, based on average annual utilization assumptions, is as follows:

	<u>2003¹</u>	<u>2004</u>	<u>2005</u>	<u>2006</u>	<u>2007</u>
Scheduled Service	13	14	16	17	17
Charter Service (Commercial)	5	4	4	4	4
Charter Service (AMC)	8	4	4	4	4
ACMI Lease Contracts	14	17	18	19	19
Mx Coverage/Spares	5	3	2	2	2
	—	—	—	—	—
Operated Fleet	45	42	44	46	46
Dry Lease	4	4	4	4	4
<i>To Third Parties</i>	<i>1</i>	<i>1</i>	<i>1</i>	<i>1</i>	<i>1</i>
<i>To Affiliates</i>	<i>3</i>	<i>3</i>	<i>3</i>	<i>3</i>	<i>3</i>
Parked	2	4	2	0	0
	—	—	—	—	—
Total Fleet	51	50	50	50	50

¹ Represents fleet data for June through December 2003.

Table of Contents**Fleet Deployment**

The Company's actual fleet deployment as of July 9, 2003 was as follows:

Company ⁽¹⁾	Fleet Type	Service Type ⁽²⁾⁽³⁾

The assumed post-reorganization capital structure reflects the current status of negotiations with the Company's various creditor constituencies. Although some of the capital structure assumptions are based on signed term sheets, others are based on draft term sheets and discussions with the Company's creditor groups as of September 4, 2003. The 2003-2007 Projected Pro Forma Summary Financial Statements and underlying assumptions were prepared by management and reflect management's judgment as of September 4, 2003, of expected future operating conditions affecting the Company and management's expected course of action. There may be differences between the projected and actual results because events and circumstances, including the final agreements of the creditors and lessors regarding the restructuring concessions, may not occur as expected. Those differences may be material and adverse.

The 2003-2007 Projected Pro Forma Summary Financial Statements are based on a number of estimates and assumptions that, although considered reasonable by management, are inherently subject to significant economic and competitive uncertainties and contingencies beyond the control of the Company and management and upon assumptions with respect to future business decisions which are subject to change. Accordingly, there can be no assurance that the projected results will be realized, and actual results may vary materially from those projected. If actual results are lower than those shown, or if the assumptions used in formulating the projections are not realized, Company cash flows could be materially and adversely affected.

These projections assume that no material claims will arise that will require a cash settlement. The Company's balance sheet has not been adjusted for Fresh Start accounting as determined by Statement of Position 90 - 7, Financial Reporting by Entities in Reorganization under the Bankruptcy Code. If the restructuring were implemented through a Chapter 11 filing, Fresh Start accounting could have a material impact on the Company's balance sheet.

Edgar Filing: ATLAS AIR WORLDWIDE HOLDINGS INC - Form 8-K

In the normal course of operating and managing the Company, management may revise the projections to reflect changes in assumptions, particularly as they relate to confirming a plan of reorganization. Management assumes no responsibility to advise users of the projections about any subsequent changes thereto.

- 13 -

Table of Contents

Use of Non-GAAP Financial Measures

This Current Report on Form 8-K contains non-GAAP financial measures as part of the 2003-2007 Projected Pro Forma Summary Financial Statements. Generally, a non-GAAP measure is a numerical measure of a company's historical or future financial performance, financial position, or cash flows that either excludes or includes amounts that are not normally excluded or included in the most directly comparable measure calculated and presented in accordance with accounting principles generally accepted in the United States (" GAAP "). Pursuant to the requirements as defined in SEC Regulation G, the Company has provided below quantitative reconciliations within this Current Report on Form 8-K of the non-GAAP financial measures to the most comparable GAAP financial measures.

The Company has included earnings before interest, taxes, depreciation and amortization (EBITDA) and earnings before interest, taxes, depreciation and amortization and aircraft rentals (EBITDAR) as part of the 2003-2007 Projected Pro Forma Summary Financial Statements, which are non-GAAP financial measures as defined in SEC Regulation G. EBITDA and EBITDAR are not measures of financial performance or liquidity under GAAP but are commonly used in the airline industry to gauge a company's ability to meet debt service and lease payment requirements. Accordingly, these measures should not be considered as substitutes for net income, income from operations, net cash provided by operating activities, total indebtedness or any other operating, liquidity, indebtedness or capitalization measure prepared in accordance with GAAP. Items excluded from EBITDA and EBITDAR are significant components in understanding and assessing our financial performance. As part of our Current Report on Form 8-K, we have provided a reconciliation of EBITDA and EBITDAR to cash provided by or used for operating activities, which is the nearest comparable GAAP financial measure. However, because EBITDA and EBITDAR are not based on any standardized methodology prescribed by GAAP, investors should note that they are not necessarily comparable to similar measures presented by other companies.

Table of Contents

The following table reconciles net cash provided by/(used for) operating activities to EBITDA and EBITDAR for the periods presented (in thousands):

	For the years ended				
	2003	2004	2005	2006	2007
Net cash (used for) provided by operating activities	\$ (83.9)	\$ 101.9	\$ 85.1	\$ 120.5	\$ 151.9
Add (deduct):

Aircraft rent	188.8	182.5	182.5	182.1	181.8
EBITDAR	\$ 317.7	\$ 295.7	\$ 334.1	\$ 371.5	\$ 389.1

Financial Information**Consolidated Unaudited Financial Data for the year ended December 31, 2002, the three months ended March 31, 2003 and June 30, 2003 and the six months ended June 30, 2003.**

The following consolidated financial statements and data of the Company, Atlas and Polar were prepared by management for their internal use and are unaudited and subject to change. All significant intercompany accounts and transactions have been eliminated in consolidation. The 2002 and 2003 financial statements reflect a change in the method of accounting for heavy maintenance expenses (except certain engine overhaul costs) from the accrual and deferral methods to direct expense. The financial statements do not include the footnote disclosure necessary to be in compliance with GAAP. The financial statements reflect the impact of all adjustments made as a result of the Company's restatement of its December 31, 2001 balance sheet to incorporate adjustments to retained earnings relating to periods prior to the 2002 fiscal year comprised primarily of (i) impairment charges to aircraft and related equipment held for use, (ii) correction of the previous accounting for heavy maintenance expense, (iii) inventory obsolescence, and (iv) an increase in allowance for doubtful accounts. The net effect of such restatement was to reduce Retained Earnings at December 31, 2001, as previously reported in the Company's 2001 financial statements audited by Arthur Andersen LLP, from \$185.1 million to an Accumulated Deficit of (\$178.7) million. Although the 2002 audit is substantially complete, the unaudited consolidated financials for 2002 remain subject to change until the audit is completed. The Company anticipates that its current auditors, Ernst & Young LLP (E&Y), will complete its audit at and for the year ended December 31, 2002 by the end of September 2003. The Company does not expect that E&Y will be able to complete the Company's previously-announced attempt to restate its 2000 and 2001 financial statements due to the Company's inability to locate certain financial records from those periods. As a result, we are not in compliance with various accounting and disclosure requirements contained in the Securities Exchange Act of 1934. Due, in part, to our failure to comply with such requirements, the New York Stock Exchange has suspended trading of our common stock and has initiated steps to delist the common stock from the Exchange. It is not possible to predict fully the effects of such a suspension and delisting on the trading price and liquidity for the common stock.

The accompanying unaudited consolidated financial statements have been prepared with the assumption that the Company will continue as a going concern, which contemplates continuity of operations, realization of assets and satisfaction of liabilities in the ordinary course of business. The Company's ability to continue as a going concern is dependent on its ability to generate sufficient cash flows to meet obligations on a timely basis, to negotiate new

Table of Contents

agreements with its aircraft lessors and debt providers, and to obtain additional financing should industry conditions not improve. The uncertainties relating to the Company's restructuring efforts raise substantial doubt at December 31, 2002 about the Company's ability to continue as a going concern. The accompanying consolidated financial statements do not include any adjustments relating to the recoverability and classification of the carrying amount of recorded assets or the amount and classification of liabilities, other than a reclassification of its long-term debt as a current liability, that might result should the Company be unable to continue as a going concern. Nor do the financial statements make any provision for any additional costs or losses (including impairments) which may be incurred in connection with the possible return of leased or financed aircraft or the costs and other matters associated with the contemplated Chapter 11 filing.

Table of Contents**B. Lease and Debt Obligations and Contingencies as of December 31, 2002.****Debt and Capital Lease Obligations**

We are currently in default with respect to our reporting covenants and payment obligations under certain of our aircraft-related lease and debt agreements, which, as a result, are classified as a current liability at December 31, 2002.

Debt and capital lease obligations as of December 31, 2002 are as follows (in thousands):

AFL III Term Loan Facility	\$ 194,893
Aircraft Credit Facility	50,607
10 3/4% Senior Notes due 2005	137,475
9 1/4% Senior Notes due 2008	152,869
9 3/8% Senior Notes due 2006	147,000
1998 EETC s	84,358
1999 EETC s	91,990
GECAS Term Loan	9,320
Other	62,130
	\$ 930,642

Commitments and Contingencies*Aircraft/Real Estate Leases*

At December 31, 2002, minimum annual rental commitments under capital leases and noncancelable aircraft operating leases with initial or remaining terms of more than one year are as follows (in thousands):

	Aircraft Leases	
	Capital	Operating
Years Ending December 31,		
2003	\$ 2,815	\$ 260,529
2004	1,394	252,543
2005		249,922
2006		230,054
2007		221,113
Thereafter		2,515,751
Total minimum lease payments	4,209	\$ 3,729,912
Less amounts representing interest	(83)	
Present value of future minimum capital lease payments	4,126	
Less current obligations under capital lease	(2,815)	
Long-term obligations under capital lease	\$ 1,311	

Edgar Filing: ATLAS AIR WORLDWIDE HOLDINGS INC - Form 8-K

In addition to the above commitments, the Company leases engines under short-term lease agreements on an as needed basis.

Aircraft and engine rent expense, including short-term rent, were \$211.9 million for the year ended December 31, 2002.

- 21 -

Table of Contents

Real estate rent expenses were \$10.6 million for the year ended December 31, 2002.

Aircraft Purchase Commitments

Under the terms of the Boeing Purchase Agreement, one remaining Boeing 747-400 freighter aircraft (the aircraft) was to be delivered October 2003. In February 2003, Atlas and Boeing reached a Supplemental Agreement (the Agreement) to move the aircraft delivery date to October 2006. As part of the Agreement, of the \$3.4 million Atlas had paid as of December 31, 2002 as purchase deposits on this aircraft, approximately \$2.9 million will be applied as a slide fee for the deferring of delivery of the aircraft to October 2006. The remaining \$0.5 million will be applied to a new Deferred Advance Payment Schedule on the aircraft. The following table details the revised advance payment schedule (in thousands):

	Deferred Advance Payment Amount
Upon Signing of Supplemental Agreement	\$ 500.0
September 1, 2004	1,648.4
June 1, 2005	10,742.1
September 1, 2005	8,593.6
December 1, 2005	6,445.2
	<hr/>
Total	\$27,929.3

Interest on the Deferred Amount will commence on September 1, 2004, and will be charged at the fluctuating rate of interest per annum equal to the six month London Interbank Offered Rate (LIBOR) as published in the Wall Street Journal effective for the first business day of each calendar quarter, plus three percent.

The inability to secure financing for the 2006 aircraft delivery could result in a default under the Boeing Purchase Agreement, which could permit Boeing to accelerate payments due under the Boeing Purchase Agreement. Such acceleration could cause a default in covenants of certain of our indebtedness which could permit the lenders to accelerate payment of a significant portion of all indebtedness, which event would have a material adverse effect on our financial position and results of operations. The Company is in discussions with Boeing about further deferrals of the aircraft delivery date or additional modifications to this commitment.

The Company has no obligations or commitments with respect to additional new aircraft deliveries beyond that noted above.

With respect to the December 2002 aircraft delivery, Atlas secured an operating lease financing arrangement with General Electric Capital Aviation Services (GECAS). In connection with the delivery, \$6.0 million in previously paid aircraft deposits were returned to Atlas during the fourth quarter of 2002.

Labor

The Airline Pilots Association (ALPA) represents all of our U.S. Pilots. Collectively, these employees represent approximately 55% of our workforce as of December 31, 2002. Polar's collective bargaining agreement with ALPA became amendable in May 2003, subject to ratification, and we cannot accurately predict the outcome of any negotiations. Although we have never had a work interruption or stoppage and believe our relations with our Pilots are generally good, we are subject to risks of work interruption or stoppage and/or may incur additional administrative expenses associated with union representation of our employees. If we are unable to reach an agreement with our Pilots on the terms of their collective bargaining agreements, or if Atlas Air was unable to negotiate future contracts with our Pilots, we may be subject to work interruptions and/or stoppages. Any sustained work stoppages could adversely affect our ability to fulfill our obligations under ACMI lease contracts and other agreements and could have a material, adverse effect on our financial condition and results of operations. Copies of the collective bargaining agreements have been posted on the Company's website.

Legal Proceedings

Existing and Potential Claims Against the Company for Alleged Violation of the Securities Laws

The Company and several of its current and former officers and directors have been named as defendants in seven putative class action complaints filed in the United States District Court for the Southern District of New York. The seven class actions were filed on behalf of purchasers of the Company's publicly traded common stock during the period April 18, 2000 through October 15, 2002, inclusive (the Class Period) and allege, among other things, that during the Class Period the Company and the individual defendants knowingly issued materially false and misleading statements to the market throughout the Class Period in violation of Sections 10(b) and 20(a) of the Securities Exchange Act of 1934 (the Exchange Act). Two of the class actions also include claims under the Securities Act of 1933 (Securities Act) on behalf of purchasers of common stock pursuant or traceable to the May 15, 2000 and September 18, 2000 prospectus supplements issued by the Company. The Securities Act claims are alleged only against a named former director and the lead underwriter of the May and September 2000 offerings. The complaints seek unspecified compensatory damages and other relief. The Company expects to respond to the plaintiffs consolidated Amended Complaint and to provide a vigorous defense to the litigation. On May 19, 2003, a senior judge of the Southern District of New York issued an order consolidating the seven class actions.

On October 25, 2002 and November 12, 2002, two shareholder derivative complaints were filed on behalf of the Company against the members of the Company's Board of Directors in the Supreme Court of New York, Westchester, County. Both actions charge that the defendants violated (1) their fiduciary duties of loyalty and good faith, (2) Generally Accepted Accounting Principles, (3) the Company's Audit Committee Charter by failing to implement and maintain an adequate internal accounting control system, and that a named director further breached their fiduciary duties of loyalty and good faith by using material non-public information to sell shares of the Company's common stock at artificially inflated prices. The Company is not aware of any prior demand for corporate action by either Plaintiff. The Company and the individual defendants in the derivative actions have entered into a stipulation with the derivative plaintiffs under which the derivative actions will be consolidated.

On October 17, 2002, Atlas received a letter from the Northeast Regional Office of the United States Securities and Exchange Commission informing it that an informal investigation had been commenced arising out of the Company's October 16, 2002 announcement that it would restate its financial results for 2000 and 2001. The SEC has since issued a Formal Order of Investigation and on January 21, 2003, served upon the Company a subpoena requiring the production of documents. The Company intends to continue cooperating fully with the SEC in its investigation.

Other Litigation

In the fourth quarter of 2002, Atlas and Malaysian Airlines reached an agreement to settle the arbitration proceedings between them and such settlement did not have a material adverse impact on the Company.

Pursuant to the terms of the collective bargaining agreement between Polar and ALPA, which represents Polar's crew members, disputes over contract interpretation can be filed as grievances and, if not satisfactorily resolved between the parties, are subject to arbitration. On January 30, 2002, ALPA filed a grievance claiming a pay raise was due in December 2001 to Polar crew members. Polar has disputed this claim, alleging that certain conditions precedent have not been met. The total amount at issue as to all Polar crewmembers is approximately \$324,000. The grievance was settled in May 2002 and the settlement provides for a 1.5 percent wage increase for the crewmembers retroactive to December 1, 2001.

Wells Fargo, which leased a Boeing 747 aircraft to Polar, has brought an action in the United Kingdom against Polar for its alleged failure to return the aircraft in compliance with return conditions as set forth in the lease. Wells Fargo is seeking monetary damages, including double rent and the cost of maintenance to restore the aircraft to comply with the specified return conditions. The Company disputes the allegations set forth in Wells Fargo's complaint and intends to defend this action vigorously.

Table of Contents

Miami-Dade County (the County) is currently investigating and remediating various environmental conditions at the Miami International Airport (MIA) and funding the remediation costs through landing fees and various cost recovery methods. The County initiated a lawsuit in 2001 against approximately 17 defendants and has identified another 243 potentially responsible parties (PRPs) in an attempt to recover its past and future costs relating to the investigation and remediation of soil and groundwater contamination at MIA. While the Company is not named in the lawsuit, it has been identified as a PRP. The Company's portion of the cleanup costs cannot be reasonably estimated due to a variety of factors, including the unknown extent and cost of the remedial actions required. However, given the proportion of the cost that will ultimately be recovered from other the PRPs who have had longer and more substantial operations at MIA, such costs are not expected to have a material adverse effect upon the Company.

On August 7, 2001, Atlas sued Southern Air, Inc. (Southern) and Hernan Galindo (Galindo) in Dade County Circuit Court seeking damages in excess of \$13 million alleging, among other things, that these defendants committed tortious interference with Atlas' contracts or advantageous business relationships with Aerofloral, Inc., unfair competition and conspiracy. Atlas subsequently filed a Second Amended Complaint joining additional defendants James K. Neff (Neff), Randall P. Fiorenza (Fiorenza), Jay Holdings LLC, and EFF Holdings LLC, on the same legal theories asserted against Southern and Galindo. On November 15, 2002, Southern filed a petition for relief under Chapter 11 of the U.S. Bankruptcy Code, and the action has been stayed against Southern. The court, however, denied the other defendants' motions to dismiss, and they have now answered the Second Amended Complaint denying any liability to Atlas.

Recently, Southern filed a motion for leave of court to file a counterclaim against Atlas and a third party complaint against the Company. The motion is scheduled for hearing on October 14, 2003. The proposed counterclaim and third party complaint allege, among other things, that Atlas and the Company are alter egos of each other and committed various torts against Southern, including tortious interference with contract and with advantageous business relationships, unfair competition, conspiracy, and other anti-competitive acts in violation of Florida law. The proposed counterclaim and third party complaint do not specify the damages sought by Southern other than the minimal jurisdictional amount of \$15,000. Atlas and the Company do not believe that the proposed counterclaim and third party complaint have any merit and intend to resist the motion for leave to file the pleading. They also intend to vigorously defend against the claims asserted if the court permits the pleading to be filed.

The Company is involved in other litigation in the ordinary course of business, and there are no other material legal proceedings pending against it or to which any of its property is subject.
