Statements contained in the Exhibits to this Form 8-K about the Company's outlook and all other statements therein other than historical facts are forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These forward-looking statements and all references to financial estimates rely on a number of assumptions concerning future events and are subject to a number of uncertainties and other factors, many of which are outside the Company's control, that could cause actual results to differ materially from such statements. While the Company believes that the assumptions concerning future events are reasonable, it cautions that there are inherent difficulties in predicting certain important factors, including: loss of, or reduction of business from, clients; termination of all or a part of a contract by a client or deterioration of the financial condition of a client; competition; difficulties in executing our acquisition strategy; failure to properly manage our operations and our growth;

termination rights, audits and investigations of our government clients; exercise of contract termination provisions and service level penalties; pricing risks; loss of significant software vendor relationships; intellectual property infringement claims; rapid technological changes; federal and state laws relating to individually identifiable information; budget deficits at state and local governments and their agencies; international risks; armed hostilities and terrorist attacks; failure to attract and retain necessary technical personnel and skilled management and qualified subcontractors; servicing risks related to loan portfolios we administer; disruption in utility or network services; and indemnification risk. These factors, when applicable, are discussed in the Company's filings with the Securities and Exchange Commission, including the most recent Form 10-Q and Form 10-K, a copy of which may be obtained through the Company without charge. The Company disclaims any intention or obligation to revise any forward-looking statements, including financial estimates, whether as a result of new information, future event, or otherwise.
