**Item 1.01 Entry into a Material Definitive Agreement**

On February 15, 2006, we entered into a new distribution agreement with CL Medical, which replaces and supersedes the manufacturing and distribution agreement dated September 2, 2004. The new distribution agreement appoints us as the exclusive distributor of the I-Stop sling in the United States, and obligates CL Medical to supply us with the product's entire requirements, sterilized, packaged, labeled and ready for sale, all manufactured in accordance with FDA laws and regulations. The new distribution agreement is for six years, with our right to renew it for successive five-year terms. We have a specified minimum purchase requirement of \$355,000 of units in the first 12-month period following January 1, 2006, increasing to approximately \$2.6 million of units over a five-year period, subject to periodic adjustment based on the value of the euro. The purchase price is payable in euros. If we fail to reach our minimum purchase requirement in any 12-month period, CL Medical has the right to terminate our exclusive distribution rights in the United States.

Under the new distribution agreement, CL Medical has agreed to provide us with any improvements or modifications it makes to the I-Stop sling during the term of the agreement without additional charge. In addition, CL Medical has granted us a right of first refusal for exclusive distribution rights in the United States to any new medical devices or procedures it develops during the term of the agreement. We have agreed that during, and for one year after, the term of our agreement, we will not manufacture our own, or market any other party's tension-free vaginal tape product for the treatment of female stress urinary incontinence. If for any reason CL Medical is prohibited from exporting the I-Stop sling into the United States, CL Medical is required to supply us the components necessary to manufacture, package and label the I-Stop sling in the United States market.
