Item 2.02. Results of Operation and Financial Condition

On May 15, 2008, the Company issued a press release announcing its financial results for its first fiscal quarter ended March 31, 2008.

The press release is attached hereto as Exhibit 99.01 and is incorporated herein by this reference.

The information in this Form 8-K and the Exhibits attached hereto shall not be deemed filed for purposes of Section 18 of the Securities Act of 1934, nor shall it be deemed incorporated by reference in any filing under the Securities Act of 1933, except as shall be expressly set forth by specific reference in such filing.

Item 2.06. Material Impairments

To the extent required by Item 2.06 of Form 8-K, the Company includes the following disclosure from the press release attached hereto as Exhibit 99.01:

As the Company noted in its recent filings, due to disruptions of, and the resulting reduced liquidity in certain financial markets, the Company's AAA rated auction rate securities with a total purchased cost of approximately \$350,000 experienced failed auctions during 2008. The securities in question do not have stated maturity dates since they are perpetual securities and reset every 7 to 28 days. Due to the failed auctions, the Company was unable to sell the securities at their respective costs, resulting in a temporary decrease in fair value. As a result, the Company has classified \$350,000 of auction rate securities as long-term investments in marketable securities. The Company has concluded that any unrealized losses on these investments are temporary because the Company believes that the decline in market value that has occurred is due to general market conditions, the auction rate securities continue to be of a high credit quality and interest is paid as due and the Company has the intent and ability to hold these investments to maturity or until a recovery in market value occurs. The fair value of these securities could change significantly in the future and the Company may be required to record other-than-temporary impairment charges or additional unrealized losses in future periods.
