The Plan Trustees

infoUSA Inc. 401(k) Plan:

We have audited the accompanying statements of net assets available for benefits of the *infoUSA Inc. 401(k) Plan* (the Plan) as of December 31, 2007 and 2006, and the related statement of changes in net assets available for benefits for the year ended December 31, 2007. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the *infoUSA Inc. 401(k) Plan* as of December 31, 2007 and 2006, and the changes in net assets available for benefits for the year ended December 31, 2007 in conformity with U.S. generally accepted accounting principles.

Our audits were performed for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental Schedule H, line 4i Schedule of Assets (Held at End of Year), as of December 31, 2007, is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

Table of Contents

Notes to Financial Statements December 31, 2007 and 2006

(1) Description of the Plan

The following description of the *infoUSA* Inc. 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

(a) General

The Plan is a defined contribution plan covering employees of *infoGROUP* Inc. (the Company) who have been employed by the Company for any consecutive 30-day period and have attained age 21. Effective June 1, 2008, the Company changed its name from *infoUSA* Inc. to *infoGROUP* Inc. This did not have any impact to the operations of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

(b) Contributions

Each year, participants may contribute up to 100% of their pretax annual compensation, as defined by the Plan, not to exceed limits set by the secretary of the treasury. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Company makes matching contributions of 50% of the first 6% of participant contributions, which may be in the form of Company common stock or cash.

(c) Participant Accounts

Each participant's account is credited with the participant's contribution, the Company's matching contribution, and an allocation of plan earnings based on balances in their account. All contributions, except Company matching contributions made in Company common stock, are directed by the participants into the various investment options offered. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. For Company matching contributions made in Company common stock, participants may elect to transfer the value of the common stock to other investment options at any time.

(d) Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. A participant is 100% vested after five years of credited service.

(e) Participant Loans

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their account balance. These loans are secured by the balance in the participant's account and bear interest at rates that range from 5.0% to 9.50% at December 31, 2007. Principal and interest is paid ratably through payroll deductions. Loans are considered in default 90 days following the last payment for the loan. At the time of default, they are considered a distribution of the Plan.

(f) Payment of Benefits

Upon termination of service, a participant will receive a lump-sum amount equal to the vested balance of the participant's account, subject to mandatory federal income tax withholding, unless the participant rolls over the distribution into another qualified plan.

Table of Contents

(g) Forfeitures

Nonvested portions of terminated participants' accounts are forfeited. At December 31, 2007 and 2006, forfeited nonvested accounts totaled \$14,277 and \$69,079, respectively. Forfeitures are applied against future Company contributions, or for the payment of administrative expenses. During 2007, administrative expenses of \$296,371 were paid from forfeited nonvested accounts.

(2) Summary of Significant Accounting Policies

The following is a summary of significant accounting policies followed in the preparation of these financial statements:

(a) Basis of Presentation

The accompanying financial statements have been prepared on an accrual basis and present the net assets available for benefits and changes in those net assets.

(b) Investment Valuation and Income Recognition

The Plan's investments are stated at fair value based on quoted market prices, if available. Shares of mutual funds are valued at quoted market prices, which represent the net asset value of shares held by the Plan at year-end. The investment in the common collective trust is valued at net asset value as determined using the estimated fair value of the investments in the respective fund on the last day of the Plan year. Participants' loans are valued at their outstanding balances, which approximate fair value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

In accordance with the policy of stating investments at fair value, changes in unrealized appreciation or depreciation are reflected in the statement of changes in net assets available for benefits.

(c) Fully Benefit-Responsive Investment Contracts

Effective January 1, 2006, the Plan adopted the provisions of Financial Accounting Standards Board (FASB) Staff Position (FSP) AAG INV-1 and SOP 94-4-1, *Reporting of Fully Benefit-Responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined-Contribution Health and Welfare and Pension Plans*, with respect to fully benefit-responsive investment contracts held by the ABN AMRO Income Plus Fund Class A (the Fund), which is provided as a core investment option to the participants in the Plan.

The Fund is a collective investment fund (or common collective trust) that invests primarily in guaranteed investment contracts, money market instruments, and separate account structures. ABN AMRO attempts to maintain the stability of the value of each unit in the Fund at approximately one dollar per unit. As provided in the FSP, an investment contract is generally permitted to be valued at contract value, rather than fair value, to the extent it is fully benefit-responsive. As also provided for by the FSP, the fully benefit-responsive investment contracts are to be included at fair value in the investments of the Plan and adjusted to contract value in the statements of net assets available for Plan benefits. As contract value approximates fair value for the units held by the Plan in the fund, there was no adjustment to net assets available for plan benefits at December 31, 2007 and 2006 as a result of adopting the FSP.

Table of Contents**(d) Payment of Benefits**

Benefits are recorded when paid.

(e) Administrative Expenses

The Plan is responsible for all administrative expenses; however, the Company may elect to pay administrative expenses directly or through forfeited nonvested accounts.

(f) Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make significant estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

(g) Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

(h) Concentrations of Investments

Included in the Plan's net assets available for benefits at December 31, 2007 and 2006 are investments in *infoGROUP* Inc. common stock amounting to \$7,768,162 and \$9,192,710, respectively, whose value could be subject to change based on market conditions. At December 31, 2007 and August 25, 2008 the market value per share of *infoGROUP* Inc. common stock was \$8.93 and \$6.39, respectively. The decline in market value would have the impact of increasing net depreciation in fair value of investments by approximately \$2.2 million since the Plan year ended December 31, 2007.

(3) Investments

The following table represents the fair value of individual investments that exceed 5% of the Plan's net assets at December 31, 2007 and 2006:

	2007	2006
<i>infoGROUP</i> Inc. common stock	\$ 7,768,162	9,192,710
Gamco Growth Fund	15,766,154	13,715,225
Alliance Bernstein Growth & Income Fund	12,613,848	12,336,047
Vanguard 500 Index Fund	10,628,166	11,015,637
William Blair International Growth Fund	9,084,114	7,457,029
Dreyfus Emerging Markets Fund	7,822,876	5,914,390
PIMCO Total Return Fund	5,832,695	5,777,149
RS Smaller Company Growth Fund	5,500,351	5,893,807

Table of Contents

During 2007, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated (depreciated) in value by \$4,339,783 as follows:

Mutual funds	\$ 6,694,338
<i>info</i> GROUP Inc. common stock	(2,351,344)
Common stock	(3,211)
	\$ 4,339,783

(4) Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their accounts.

(5) Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated July 25, 2006 that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

(6) Plan Merger

On May 4, 2007, the Company merged the net assets of the ClickAction, Inc. Savings Plan of \$58,643 into the Plan.

(7) Related-Party Transactions

First National Bank of Omaha is the custodian and record-keeper as defined by the Plan. Fees paid by the Plan for custodial and record-keeping services amounted to \$138,816 for the year ended December 31, 2007.
