MERRIMAC INDUSTRIES, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

A. Basis of presentation

The accompanying unaudited consolidated financial statements have been prepared in accordance with the instructions to Form 10-QSB and therefore do not include all information and footnote disclosures otherwise required by Regulation S-B. The financial statements do, however, reflect all adjustments which are, in the opinion of management, necessary for a fair presentation of the financial position of the Company as of June 30, 2001 and its results of operations and cash flows for the periods presented. Results of operations of interim periods are not necessarily indicative of results for a full year. These financial statements should be read in conjunction with the audited consolidated financial statements in the Company's Annual Report on Form 10-KSB for December 30, 2000. Certain prior year amounts have been reclassified to conform to current year presentation.

B. Delaware reincorporation

On February 22, 2001, the Company (previously incorporated in the State of New Jersey) was reincorporated in the State of Delaware. In connection with the reincorporation, each share of Common Stock, par value \$.50 per share, of the Company prior to the reincorporation was converted into one share of Common Stock, par value \$.01 per share, of the Company, as reincorporated in Delaware. As a result of the reincorporation, the authorized capital stock of the Company was increased to 20 million shares of common stock, par value \$.01 per share (from 5 million shares of Common Stock prior to the reincorporation), and one million shares of preferred stock, par value \$.01 per share.

Common Stock and additional paid in capital for December 30, 2000 in the accompanying financial statements have been restated to give effect to the reincorporation. The Company incurred \$330,000 of costs in connection with the reincorporation in Delaware. Such expense is reflected as a reincorporation charge in the accompanying statement of operations. The reincorporation charge net of tax benefits was \$198,000 or \$.07 per share.

The Board of Directors has the authority to issue up to 1 million shares of Preferred Stock and to fix the number of shares constituting any series and the designation of such series, and to determine the preferences, rights and qualifications or limitations of such series of Preferred Stock, without any further vote or action by the Company's stockholders.

C. Inventories

Inventories consist of the following:

	June 30,	December 30,
	2001	2000
	-----	-----

Edgar Filing: MERRIMAC INDUSTRIES INC - Form 10QSB

Finished goods	\$ 415,099	\$ 363,387
Work in process	1,914,162	1,493,784
Raw materials and purchased parts ...	2,116,502	1,770,364
	-----	-----
Total	\$4,445,763	\$3,627,535
	=====	=====

Total inventories are net of valuation allowances for obsolescence of \$1,022,000 at June 30, 2001 and \$1,018,000 at December 30, 2000.

-4-

MERRIMAC INDUSTRIES, INC. NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

D. Net income (loss) per common share

Statement of Financial Accounting Standards No. 128, "Earnings per Share", establishes the computation and presentation of net income per common share. Under the standard, both basic and diluted net income per common share are presented.

Basic net income per common share is calculated by dividing net income, less dividends on Preferred Stock, if any, by the weighted average common shares outstanding during the period.

The calculation of diluted net income per common share is similar to that of basic net income per common share, except that the denominator is increased to include the number of additional common shares that would have been outstanding if all potentially dilutive common shares, principally those issuable under stock options, were issued during the reporting period.

Stock options and warrants did not have an effect on the computation of diluted loss per share in the six months ended July 1, 2000 since they were antidilutive.

E. Comprehensive income

Statement of Financial Accounting Standards No. 130, "Reporting Comprehensive Income", defines comprehensive income, which includes items in addition to those reported in the statement of operations, and requires disclosures about the components of comprehensive income. Comprehensive income includes all changes in stockholders' equity during a period except those resulting from investments by or distributions to stockholders. The Company has determined that the components of other comprehensive income impacting the Company consists primarily of foreign currency translation adjustments.

F. Accounting period

The Company's fiscal year is the 52-53 week period ending on the Saturday closest to December 31. The Company has quarterly dates that correspond with the Saturday closest to the last day of each calendar quarter and each quarter consists of 13 weeks in a 52-week year. Every fifth year, the additional week to make a 53-week year (fiscal year 1997 was the last and fiscal year 2002 will be the next) is added to the fourth quarter, making such quarter consist of 14 weeks.

G. Transactions with management and loan to officer-stockholder

On May 4, 1998, the Company sold 22,000 shares of Common Stock from its treasury to Mason N. Carter, Chairman, President and Chief Executive Officer of the Company, at a price of \$12.75 per share (the approximate average closing

Edgar Filing: MERRIMAC INDUSTRIES INC - Form 10QSB

price of the Common Stock during the first quarter of 1998). The Company extended to Mr. Carter a loan of \$255,000 in connection with the purchase of these shares and amended a prior loan to Mr. Carter of \$105,000. A new promissory note for a total of \$360,000, due May 4, 2003, with interest payments due quarterly, calculated at a variable interest rate based on the prime rate of the Company's lending bank, was executed by Mr. Carter in favor of the Company. However, payment of the interest accrued from November 1998 until November 1999 was deferred until the end of the term of the new promissory note. Payment of the loan is secured by the pledge of the 33,000 shares of Common Stock that were purchased by Mr. Carter with the proceeds of the loans.

In addition, on August 31, 2000, in connection with an amendment of Mr. Carter's employment agreement, the Company loaned Mr. Carter \$280,000 with interest calculated at a variable interest rate based on the prime rate of the Company's lending bank, payable annually. In addition, pursuant to Mr. Carter's amended employment agreement, Mr. Carter will receive an annual special bonus on the next five anniversaries of the agreement amendment's effective date, in the form of forgiveness of one-fifth of the principal of and interest on the loan.

-5-

MERRIMAC INDUSTRIES, INC. NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

H. Current and long-term debt

The Company was obligated under the following debt instruments at June 30, 2001 and December 30, 2000:

	June 30, 2001	December 30, 2000
	-----	-----
Fleet Bank:		
Revolving credit facility 1/2% below prime	\$3,000,000	\$ -
The Bank of Nova Scotia:		
Capital leases, interest 7.0%, due October 2003.....	174,458	211,600
Capital leases, interest 8.7%, due May 2005.....	284,631	311,160
Capital leases, interest 7.3%, due April 2006.....	222,807	-
Capital leases, interest 7.9%, due June 2006.....	184,018	-
	-----	-----
	3,865,914	522,760
Less current portion.....	3,180,222	119,932
	-----	-----
Long-term portion.....	\$ 685,692	\$402,828
	=====	=====

The Company has a \$4,500,000 revolving credit agreement with Fleet Bank, (formerly Summit Bank that was recently acquired by Fleet Bank) with interest at one-half percent below the bank's floating prime rate. The Company borrowed \$3,000,000 during the second quarter 2001. Up to \$1,500,000 was available at June 30, 2001 for future borrowing needs of the Company for working capital and general corporate purposes. The Company borrowed \$500,000 under the revolving credit facility on August 3, 2001 and the current interest rate is 6.25%. The Company's revolving credit facility expires June 30, 2002. Management is currently discussing an increase in the Company's lines of credit with its bank.

At June 30, 2001 and December 30, 2000, the fair value of the Company's

Edgar Filing: MERRIMAC INDUSTRIES INC - Form 10QSB

debt approximates carrying value. The fair value of the Company's long-term debt is estimated based on current interest rates.

Capital leases included in property, plant and equipment, net, have a depreciated cost of approximately \$724,000 at June 30, 2001 and \$376,000 at December 30, 2000.

I. Restructuring and related charges

As a result of accelerating the transfer of increased levels and complexity of production to the Company's Costa Rica manufacturing facility, the Company implemented a reduction of its workforce and provided severance benefits to certain employees during the first quarter of 2000. The restructuring charge for the first quarter of 2000 was \$315,000. The charge net of tax benefits was \$189,000 or \$.10 per share. The reduction in workforce affected fifteen persons, primarily electronic components manufacturing labor, and the full amount of the restructuring charge has been paid.

-6-

MERRIMAC INDUSTRIES, INC. NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

J. Private placements of Common Stock and Warrants to purchase Common Stock

On April 7, 2000, the Company entered into a stock purchase and exclusivity agreement with Ericsson Microelectronics, A.B. ("Ericsson") and Ericsson Holding International, B.V. ("EHI") pursuant to which the Company sold to EHI 375,000 newly issued shares of Common Stock, representing approximately 17.5% of the outstanding Common Stock after giving effect to the sale, for an aggregate purchase cash price of \$3,375,000. The stock purchase and exclusivity agreement also provides that the Company will design, develop and produce exclusively for Ericsson Multi-Mix(R) products that incorporate active RF power transistors for use in wireless base station applications, television transmitters and certain other applications that are intended for Bluetooth transceivers and that the Company will generally be the priority supplier for such products. Accordingly, Ericsson will receive first priority on all Multi-Mix(R) resources of the Company and will have priority access to Filtran Microcircuits Inc. proprietary technology and manufacturing capabilities.

On October 26, 2000, the Company entered into subscription agreements for Common Stock and warrants with each of three groups of investors: (i) investors led by Adam Smith Investment Partners, L.P. and certain of its affiliates (the "Adam Smith Investors"), (ii) EHI, and (iii) three members of the board of directors of the Company (the "Director Investors"). Pursuant to the subscription agreements, the Company sold to the investors units at a price of \$12.80 per unit, each unit consisting of one share of common stock and one three-year warrant to purchase one additional share of common stock with an exercise price of \$21.25 ("Units"). Pursuant to the subscription agreements, the Adam Smith Investors purchased 240,000 Units, EHI purchased 100,000 Units and the Director Investors purchased 20,000 Units for an aggregate cash purchase price of \$4,608,000. The Common Stock portion represented approximately 14% of the outstanding stock of the Company after giving effect to the sales.

The warrants were valued using the Black-Scholes option valuation model with a resulting allocation of the aggregate proceeds from the Units attributable to the warrants of \$837,200, net of issue costs. The following assumptions were utilized to value the warrants: price per share of Common Stock of \$15.25; expected life of three years; expected volatility of 40%; a risk free interest rate of 6%; an expected yield of 0.0%; and a liquidity discount of 33%.

Edgar Filing: MERRIMAC INDUSTRIES INC - Form 10QSB

K. Lease modification and resource sharing agreement

The Company entered into an agreement effective January 2001, with a customer to relinquish approximately half of the Company's 17,000 square-foot leased manufacturing facility in Costa Rica. Associated with the transaction, the Company entered into a new four-year lease agreement with a five-year renewal option with its Costa Rica landlord for the reduced space. In addition, the Company transferred certain employees to its customer, agreed to share certain personnel resources and common costs, and committed to provide certain management, administrative and other services to its customer.

In connection with the transaction, the Company received \$200,000 from its customer and will receive further payments of \$250,000 over a two-year period. The Company will reduce its rent expense by approximately \$87,000 during each of the next four years to an aggregate amount of approximately \$348,000.

The Company deferred approximately \$102,000 of costs at December 30, 2000 incurred in connection with entering into this agreement and other incremental costs, for the purpose of providing this customer with trained personnel and certain other services required for their dedicated manufacturing capability. Such costs are classified in the balance sheet as other assets at December 30, 2000, and were recovered through the \$200,000 payment received in January 2001 as described above. The deferred rental income of \$56,000 is reflected in the June 30, 2001 balance sheet as other liabilities.

-7-

MERRIMAC INDUSTRIES, INC. NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

L. Pro forma weighted average number of common shares outstanding

Had the sales of 375,000 shares of Common Stock on April 7, 2000 and 360,000 Units on October 26, 2000 referred to in Note J occurred at the beginning of the prior year, the pro forma basic and diluted weighted average number of Common Shares outstanding would have been:

	Quarter	Six Months
	----- Ended July 1, 2000 -----	
Basic:		
Actual	2,130,009	1,938,578
Adjustments for sales of:		
Common Stock, April 7, 2000	20,605	197,802
Units, October 26, 2000 (a)	360,000	360,000
	-----	-----
Basic - pro forma	2,510,614	2,496,380
Effect of dilutive securities-		
Stock options	175,920	144,592
	-----	-----
Diluted - pro forma	2,686,534	2,640,972
	=====	=====

- (a) There is no pro forma dilutive impact from the warrants included in the Units, as the warrant exercise price of \$21.25 exceeds the per share market value of the Common Stock.

M. Recent Accounting Pronouncements

In June 2000, the Financial Accounting Standards Board issued Statement of

Edgar Filing: MERRIMAC INDUSTRIES INC - Form 10QSB

Financial Accounting Standards ("SFAS") No. 138, "Accounting for Certain Derivative Instruments and Certain Hedging Activities," an amendment to SFAS No. 133, "Accounting for Derivative Instruments and Hedging Activities," deferred implementation of SFAS No. 133 to fiscal years beginning after June 15, 2000. SFAS No. 133 established new accounting and reporting standards and requires that every derivative instrument (including certain derivative instruments embedded in other contracts) be recorded as assets or liabilities in the balance sheet measured at fair value. SFAS No. 133 requires that changes in the fair value of derivatives be recognized currently in earnings unless specific hedge accounting criteria are met. The Company has adopted the provisions of these statements in 2001. The Company does not currently hold derivative instruments or engage in hedging activities and therefore the adoption of SFAS No. 133 has not had a material impact on the Company's financial position, results of operations or cash flows.

In June 2001, the Financial Accounting Standards Board issued Statement of Financial Accounting Standards ("SFAS") No. 141, "Business Combinations" and SFAS No. 142, "Goodwill and Other Intangible Assets". SFAS No. 141 requires all business combinations initiated after June 30, 2001 to be accounted for using the purchase method of accounting. SFAS No. 142, which will be adopted by the Company on December 30, 2001, requires goodwill and certain intangible assets resulting from business combinations entered into prior to June 30, 2001 no longer be amortized, but instead be reviewed for impairment. Any write-down of goodwill would be charged to results of operations in the periods in which the recorded value of goodwill and certain intangibles is more than its fair value. The Company expects that the adoption of these accounting standards will reduce the amortization of goodwill and intangibles commencing December 30, 2001; however, impairment reviews may result in periodic write-downs subsequent to the date of adoption.

-8-

MERRIMAC INDUSTRIES, INC. NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

N. Business segment data

The Company's operations are conducted primarily through two business segments: (1) electronic components and (2) microwave micro-circuitry. These segments, and the principal operations of each, are as follows:

Electronic components: Design, manufacture and sale of electronic component devices offering extremely broad frequency coverage and high performance characteristics for communications, defense and aerospace applications. Of the identifiable assets, 90% are located in the United States and 10% are located in Costa Rica.

Microwave micro-circuitry: Design, manufacture and sale of microstrip, bonded stripline and thick metal-backed Teflon(R) (PTFE) and mixed dielectric multilayer circuits for communications, defense and aerospace applications. Of the identifiable assets all are located in Canada.

Information about the Company's operations in different industries follows. Operating income is net sales less operating expenses. Operating expenses exclude interest expense, other income and income taxes. Assets are identified with the appropriate operating segment and are substantially all located in the North America geographic area. Corporate assets consist principally of cash. Corporate expenses and inter-segment sales are immaterial.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL
CONDITION AND RESULTS OF OPERATIONS

Second quarter and six months 2001 compared to second quarter and six months 2000

Consolidated results of operations for second quarter 2001 reflect an increase in net sales of \$1,817,000 or 36.7% to \$6,766,000. This increase was primarily attributable to an increase in net sales of electronic components of \$2,297,000 which was partially offset by a decrease in sales of microwave micro-circuitry products of \$481,000 from the Company's subsidiary Filtran Microcircuits Inc. ("FMI").

Consolidated results of operations for six months 2001 reflect an increase in net sales of \$2,996,000 or 30.4% to \$12,857,000. This increase was primarily attributable to an increase in net sales of electronic components of \$3,153,000 which was partially offset by a decrease in sales of microwave micro-circuitry products of \$157,000 from FMI.

Orders of \$6,927,000 were received for second quarter 2001, an increase of \$90,000 or 1.3% compared to \$6,837,000 in orders received for second quarter 2000. Backlog increased by \$1,612,000 or 15.1% to \$12,252,000 at the end of second quarter 2001 compared to \$10,640,000 at year-end 2000, and increased by \$1,414,000 or 13.0% when compared to the end of second quarter 2000 backlog of \$10,838,000. Orders received during the second quarter of 2001 exceeded the second quarter 2001 sales level by approximately 2.4%. Orders of \$14,476,000 were received for six months 2001, a decrease of \$102,000 or 0.7% compared to \$14,581,000 in orders received for six months 2000. Orders received during the six months of 2001 exceeded the six months 2001 sales level by approximately

Edgar Filing: MERRIMAC INDUSTRIES INC - Form 10QSB

12.6%.

The Company believes that its satellite and defense customers will continue to increase their orders during fiscal 2001, and the Company anticipates receiving its initial orders during fiscal 2001 for its new Multi-Mix(R) Microtechnology products, for which a significant capital investment has been made and substantial research and development costs have been incurred. An extended delay or reduction from planned levels in new orders for the new Multi-Mix(R) Microtechnology products could have a material adverse financial impact on future sales and earnings. The Company's subsidiary FMI has experienced a slowdown in orders for certain of its wireless communication products, which has caused a significant financial impact on results of operations in second quarter and six months 2001. The Company expects that softness in the telecommunications sector that FMI serves, principally millimeter wave applications for wireless broadband solutions, will continue during the remainder of fiscal 2001, and is likely to cause a substantial reduction in the microwave micro-circuitry segment sales and profitability for fiscal 2001 compared to prior year results. The Company implemented a temporary reduction of 25% in its workforce that involved 19 persons during the second quarter 2001 in response to the decline in orders for this segment.

Cost of sales increased \$556,000 or 21.4%, and as a percentage of net sales decreased 5.9% to 46.7% for second quarter 2001. Cost of sales increased \$1,064,000 or 21.1%, and as a percentage of net sales decreased 3.6% to 47.5% for six months 2001. Percentage cost reductions for cost of sales were achieved from manufacturing efficiencies attributable to a reduction in direct labor and manufacturing overhead costs, related in part to the transfer of further production to the Company's Costa Rica manufacturing facility, and other manufacturing cost improvements resulting from the first quarter 2000 personnel restructuring.

Depreciation expense included in cost of sales was \$424,000, of which \$166,000 was associated with Multi-Mix(R) Microtechnology capital assets, an increase of \$75,000 in second quarter 2001 compared to second quarter 2000. Depreciation expense included in cost of sales was \$858,000, of which \$292,000 was associated with Multi-Mix(R) Microtechnology capital assets, an increase of \$201,000 in six months 2001 compared to six months 2000. The increase in depreciation expense was a result of higher capital equipment purchases in the current and prior years.

-11-

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Gross profit in second quarter 2001 for the electronic components segment was \$3,232,000 or 56.7% of segment net sales of \$5,700,000, compared to gross profit of \$1,566,000 or 46.0% of segment net sales of \$3,403,000 in second quarter 2000. Gross profit for the microwave micro-circuitry segment was \$373,000 or 35.0% of segment net sales of \$1,066,000, compared to \$779,000 or 50.4% of second quarter 2000 segment net sales of \$1,547,000.

Gross profit in six months 2001 for the electronic components segment was \$5,683,000 or 55.1% of segment net sales of \$10,318,000, compared to gross profit of \$3,557,000 or 49.6% of segment net sales of \$7,165,000 in six months 2000. Six months 2001 gross profit for the microwave micro-circuitry segment was \$1,068,000 or 42.1% of segment net sales of \$2,539,000, compared to \$1,263,000 or 46.9% of six months 2000 segment net sales of \$2,696,000.

Selling, general and administrative expenses of \$2,460,000 for second quarter 2001 increased by \$726,000 or 41.9%, and when expressed as a percentage

Edgar Filing: MERRIMAC INDUSTRIES INC - Form 10QSB

of net sales, increased by 1.5% to 36.5%. This increase included \$55,000 from FMI. Other increases resulted from higher sales commission expenses, and selling and marketing expenses in connection with the Company's new Multi-Mix(R) Microtechnology product line, and higher engineering and technology personnel compensation, recruitment and training costs, and patent-associated and other professional fees.

Selling, general and administrative expenses of \$4,733,000 for six months 2001 increased by \$1,016,000 or 27.3%, and when expressed as a percentage of net sales, decreased by 0.9% to 36.8%. This increase included \$231,000 from FMI. Other increases resulted from higher sales commission expenses, and selling and marketing expenses in connection with the Company's new Multi-Mix(R) Microtechnology product line, and higher engineering and technology personnel compensation, recruitment and training costs, and patent-associated and other professional fees.

Amortization expense of \$37,000 for second quarter and \$75,000 for six months 2001 is attributable to goodwill of approximately \$3,000,000 arising from the acquisition of FMI, which is being amortized on a straight-line basis over a life of twenty years, compared to amortization expense of \$39,000 for second quarter and \$78,000 for six months 2000.

Research and development expenses for new products was \$910,000 in second quarter 2001, an increase of \$417,000 or 84.6% compared to second quarter 2000. Except for \$72,000 of expenses at FMI, an increase of \$44,000 from second quarter 2000, substantially all of the research and development expenses in second quarter 2001 was related to Multi-Mix(R) Microtechnology products. Research and development expenses for new products was \$1,548,000 in six months 2001, an increase of \$699,000 or 82.4% compared to six months 2000. Except for \$151,000 of expenses at FMI, a decrease of \$9,000 from six months 2000, substantially all of the research and development expenses in six months 2001 was related to Multi-Mix(R) Microtechnology products, which resulted in the July 2001 product launch of Multi-Mix PICO(TM) technology that reduces certain microwave components size by more than 84%.

The consolidated operating income for second quarter 2001 was \$198,000, which compared to operating income of \$80,000 for the second quarter 2000. The consolidated operating income for six months 2001 after the reincorporation charge of \$330,000 was \$66,000, which compared to an operating loss of \$139,000 for six months 2000 after the personnel restructuring charge of \$315,000. Six month 2001 consolidated operating income was \$396,000, before the effect of charges associated with the reincorporation in Delaware of \$330,000 in first quarter 2001, compared to \$176,000 of operating income for six months 2000 before the personnel restructuring charge of \$315,000 in first quarter 2000.

-12-

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Operating income for the electronic components segment was \$205,000 in second quarter 2001, compared to a \$330,000 operating loss in second quarter 2000. An operating loss for the microwave micro-circuitry segment was \$7,000 in second quarter 2001 compared to operating income of \$410,000 or 26.5% of segment net sales in second quarter 2000.

Operating loss for the electronic components segment was \$96,000 in six months 2001 after the reincorporation charge in first quarter 2001 of \$330,000, compared to a \$696,000 operating loss in six months 2000 after the restructuring charge of \$296,000 in first quarter 2000. Operating income for the microwave micro-circuitry segment was \$162,000 or 6.4% of segment net sales in six months 2001 compared to operating income of \$557,000 or 20.7% in six months 2000 after

Edgar Filing: MERRIMAC INDUSTRIES INC - Form 10QSB

this segment's restructuring charge of \$19,000 in first quarter 2000. Before the first quarter 2001 reincorporation charge of \$330,000, operating income for the electronic components segment would have been \$234,000 in six months 2001 compared to an operating loss of \$400,000 in six months 2000 before this segment's restructuring charge in first quarter 2000 of \$296,000.

Interest income, net was \$13,000 for second quarter 2001 compared to net interest expense of \$25,000 for second quarter 2000. Interest expense of \$23,000 was capitalized to property, plant and equipment in second quarter 2001. Interest income, net was \$50,000 for six months 2001 compared to net interest expense of \$106,000 for six months 2000. Interest income was primarily due from proceeds received from the issuance in private placements of common stock in 2000 that offset interest expense. Interest expense was principally incurred on borrowings under a term loan and revolving credit facility in connection with the acquisition of FMI in 1999.

An income tax provision of \$75,000 was recorded for second quarter 2001 with an effective tax rate of 35.5% compared to a provision of \$15,000 for second quarter 2000 with an effective tax rate of 27.4%. The principal adjustments to the statutory Federal income tax rate of 34% for second quarter 2001 relate to \$6,000 in tax credits associated with research and development expenditures and foreign sales corporation tax benefits of \$4,000, partially offset by a \$13,000 cost due to non-deductible amortization of goodwill.

An income tax provision of \$10,000 was recorded for six months 2001 with an effective tax benefit rate of 9% compared to a tax benefit of \$120,000 for six months 2000 with an effective tax benefit rate of 49%. The principal adjustments to the statutory Federal income tax rate of 34% for six months 2001 relate to \$34,000 in tax credits associated with research and development expenditures and foreign sales corporation tax benefits of \$18,000, partially offset by a \$26,000 cost due to non-deductible amortization of goodwill.

Net income of \$136,000 was recorded for second quarter 2001 compared to net income of \$40,000 for second quarter 2000. Net income of \$.05 per diluted share was recorded for second quarter 2001 compared to net income of \$.02 per diluted share reported for second quarter 2000.

Net income of \$106,000 was recorded for six months 2001, after the net effects of the first quarter 2001 reincorporation charge of \$198,000. For six months 2000, a net loss of \$125,000 was reported, after the net effects of the first quarter 2000 restructuring charge of \$189,000. Net income of \$.04 per diluted share was recorded for six months 2001, after the net effects of the \$.07 per share reincorporation charge. For six months 2000, a net loss of \$.06 per share was reported, resulting from the net effects of the \$.10 per share restructuring charge.

The weighted average number of diluted shares outstanding increased by approximately 455,000 shares or 20% for second quarter 2001 and approximately 813,000 shares or 41% for six months 2001 compared to the same periods of the prior year, resulting from the issuance in private placements of 375,000 shares in the second quarter 2000 and 360,000 shares in the fourth quarter 2000, as well as stock option exercises during last year.

-13-

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Liquidity and Capital Resources

Edgar Filing: MERRIMAC INDUSTRIES INC - Form 10QSB

The Company had liquid resources comprised of cash and cash equivalents totaling approximately \$1,800,000 at the end of second quarter 2001 compared to approximately \$3,400,000 at the end of 2000. The Company's working capital was approximately \$6,400,000 and its current ratio was 1.9 at the end of second quarter 2001 compared to \$9,400,000 and 3.0, respectively, at the end of 2000.

The Company's operating activities used cash flows of \$235,000 in six months 2001 compared to cash flows providing \$877,000 in six months 2000. The primary reasons for the reduction in operating cash flows are due to an increase in inventories of \$818,000 to \$4,446,000, which includes \$824,000 associated with Multi-Mix(R) Microtechnology, deferred compensation payments, and decreases in accounts and income taxes payable and accrued liabilities which was partly offset by a positive change in after-tax income of \$230,000, an increase in other liabilities related to deferred rental income, and higher depreciation and amortization charges. The Company made net investments in property, plant and equipment of \$4,918,000, which includes capitalized rent and interest of \$144,000, in six months 2001 compared to \$1,520,000 in six months 2000. These capital expenditures are related to new production and test equipment capabilities in connection with the introduction of new products and enhancements to existing products. The depreciated cost of capital equipment associated with Multi-Mix(R) Microtechnology was \$6,491,000 at the end of six months 2001, an increase of \$2,487,000 compared to \$4,004,000 at the end of 2000.

The Company has a \$4,500,000 revolving credit agreement with Fleet Bank (formerly Summit Bank that was recently acquired by Fleet Bank) with an interest rate at one-half percent below the bank's floating prime rate. At June 30, 2001, approximately \$1,500,000 of the revolving credit facility was available for working capital and general corporate purposes. The Company borrowed \$3,000,000 during the second quarter 2001 and an additional \$500,000 under the revolving credit facility on August 3, 2001 and the current interest rate is 6.25%.

Management believes that the remaining available \$1,000,000 revolving credit facility, which expires in June 2002, together with its present liquid resources and cash flows that are expected to be provided by operations, will not provide sufficient resources for currently contemplated operations in fiscal year 2001. Accordingly, management is currently discussing an increase in the Company's lines of credit with its bank. The Company is contemplating raising additional equity capital from private placements in fiscal 2001, depending upon market conditions. There can be no assurances that capital from either debt or equity will be available to the Company and, if so, on terms favorable to the Company.

The Company's capital expenditures for new projects and production equipment has exceeded its depreciation and amortization expenses in six months 2001 by approximately \$3,800,000. The Company has made \$2,500,000 in deposits on purchase order commitments to processing equipment vendors aggregating \$7,300,000 for capital equipment and has issued a purchase order for \$1,100,000 to a general contractor for the completion of the 19,200 square-foot building addition to its West Caldwell, New Jersey manufacturing facility. Further improvements to the existing 52,000 square-foot facility and additional equipment to be purchased are projected to cost approximately \$2,300,000. The Company anticipates that such equipment will be purchased and become operational and the building expansion and improvements will be completed during fiscal year 2001.

Effective January 2001, the Company has modified its existing lease, and entered into a resource sharing arrangement with a previous customer, for its Costa Rica manufacturing facility, reducing the size to approximately 8,200 square-feet and extending the lease to December 2004. The Company received an initial payment of \$200,000 in January 2001 under this agreement and recovered approximately \$102,000 of costs that were deferred at December 30, 2000 in

Edgar Filing: MERRIMAC INDUSTRIES INC - Form 10QSB

connection with this agreement.

-14-

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

In February 2001, the Company entered into a new five-year lease in Costa Rica for approximately 36,200 square-feet for a new Multi-Mix(R) Microtechnology manufacturing facility. It is anticipated that the leasehold improvements and capital equipment for this manufacturing facility, which is expected to cost approximately \$4,500,000, should become operational by the beginning of the fourth quarter 2001.

The Company has been authorized by its Board of Directors to repurchase up to 110,000 shares of its common stock, from time to time, depending on market conditions. During 1999, the Company repurchased 56,000 shares of common stock at a cost of \$346,000. No shares were repurchased during six months 2001 or fiscal 2000.

Periodically, the Company explores the possibility of acquiring similar manufacturers of electronic devices or companies in related fields. Management believes that any such acquisitions and business operation expansion could be financed through its liquid and capital resources currently available as previously discussed and/or through additional borrowing or issuance of equity or debt securities. The additional debt from any acquisitions, if consummated, would increase the Company's debt-to-equity ratio and such debt or equity securities might, at least in the near term, have a dilutive effect on net income per share.

Recent Accounting Pronouncements

In June 2000, the Financial Accounting Standards Board issued Statement of Financial Accounting Standards ("SFAS") No. 138, "Accounting for Certain Derivative Instruments and Certain Hedging Activities," an amendment to SFAS No. 133, "Accounting for Derivative Instruments and Hedging Activities," deferred implementation of SFAS No. 133 to fiscal years beginning after June 15, 2000. SFAS No. 133 established new accounting and reporting standards and requires that every derivative instrument (including certain derivative instruments embedded in other contracts) be recorded as assets or liabilities in the balance sheet measured at fair value. SFAS No. 133 requires that changes in the fair value of derivatives be recognized currently in earnings unless specific hedge accounting criteria are met. The Company has adopted the provisions of these statements in 2001. The Company does not currently hold derivative instruments or engage in hedging activities and therefore the adoption of SFAS No. 133 has not had a material impact on the Company's financial position, results of operations or cash flows.

In June 2001, the Financial Accounting Standards Board issued Statement of Financial Accounting Standards ("SFAS") No. 141, "Business Combinations" and SFAS No. 142, "Goodwill and Other Intangible Assets". SFAS No. 141 requires all business combinations initiated after June 30, 2001 to be accounted for using the purchase method of accounting. SFAS No.142, which will be adopted by the Company on December 30, 2001, requires goodwill and certain intangible assets resulting from business combinations entered into prior to June 30, 2001 no longer be amortized, but instead be reviewed for impairment. Any write-down of goodwill would be charged to results of operations in the periods in which the recorded value of goodwill and certain intangibles is more than its fair value. The Company expects that the adoption of these accounting standards will reduce the amortization of goodwill and intangibles commencing December 30, 2001; however, impairment reviews may result in periodic write-downs subsequent to the

Edgar Filing: MERRIMAC INDUSTRIES INC - Form 10QSB

date of adoption.

Forward-Looking Statements

This Quarterly Report on Form 10-QSB contains statements relating to future results of the Company (including certain projections and business trends) that are "forward-looking statements" as defined in the Private Securities Litigation Reform Act of 1995. Actual results may differ materially from those projected as a result of certain risks and uncertainties. These risks and uncertainties include, but are not limited to: general economic and industry conditions; slower than anticipated penetration into the satellite communications, defense and wireless markets; the risk that the benefits expected from the acquisition of Filtran Microcircuits Inc. are not realized; the ability to protect proprietary information and technology; competitive products and pricing pressures; the risk that the Company will not be able to continue to raise sufficient capital to expand its operations as currently contemplated by its business strategy; risks relating to governmental regulatory actions in communications and defense programs; risks associated with demand for and market acceptance of existing and newly developed products; and inventory risks due to technological innovation and product obsolescence, as well as other risks and uncertainties, including but not limited to those detailed from time to time in the Company's Securities and Exchange Commission filings. These forward-looking statements are made only as of the date hereof, and the Company undertakes no obligation to update or revise the forward-looking statements, whether as a result of new information, future events or otherwise.

PART II. OTHER INFORMATION

Item 4. Submission of Matters to a Vote of Security Holders

On June 6, 2001, the Company held its Annual Shareholders' Meeting at which the shareholders (i) elected three members to the Company's Board of Directors, (ii) approved the Company's 2001 Stock Option Plan, (iii) approved the Company's 2001 Stock Purchase Plan, (iv) approved the Company's 2001 Key Employee Incentive Plan and (v) ratified the appointment of Arthur Andersen LLP as the Company's independent auditors for the current fiscal year. The shareholders of the Company elected Edward H. Cohen, Arthur A. Oliner and Harold J. Raveche as Class II directors whose terms expire at the 2004 Annual Shareholders' Meeting.

The following sets forth the number of votes cast for, against or withheld, as well as the number of abstentions and broker non-votes, voted upon at the Company's June 6, 2001 Annual Shareholders' Meeting:

Election of Directors.

	For	Withheld
	-----	-----
Edward H. Cohen	2,331,208	198,740
Arthur A. Oliner	2,331,208	198,740
Harold J. Raveche	2,330,534	199,414

Approval of the Company's 2001 Stock Option Plan.

Exhibit 4(i)

MERRIMAC INDUSTRIES, INC.
2001 STOCK OPTION PLAN
(AS AMENDED THROUGH JULY 15, 2001)

Edgar Filing: MERRIMAC INDUSTRIES INC - Form 10QSB

1. Purpose. The purposes of the 2001 Stock Option Plan (the "Plan") are to induce certain individuals to remain in the employ, or to continue to serve as directors of, or consultants or advisors to, Merrimac Industries, Inc. (the "Company") and its present and future subsidiary corporations (each a "Subsidiary"), as defined in Section 424(f) of the Internal Revenue Code of 1986, as amended (the "Code"), to attract new individuals to enter into such employment or service and to encourage such individuals to secure or increase on reasonable terms their stock ownership in the Company. The Board of Directors of the Company (the "Board") believes that the granting of stock options ("Options") under the Plan will promote continuity of management and increased incentive and personal interest in the welfare of the Company by those who are or may become primarily responsible for shaping and carrying out the long range plans of the Company and securing its continued growth and financial success. Options granted hereunder are intended to be either (i) "incentive stock options" (which term shall have the meaning ascribed thereto by the provisions of Section 422(b) of the Code) or (ii) options which are not incentive stock options ("non-qualified stock options") or (iii) a combination thereof, as determined by the Committee (the "Committee") referred to in Section 5 hereof at the time of the grant thereof.

2. Effective Date of Plan. The Plan became effective on April 20, 2001, subject to ratification by the stockholders of the Company.

3. Stock Subject to Plan. 175,000 of the authorized but unissued shares of the common stock, \$0.01 par value, of the Company (the "Common Stock") are hereby reserved for issue upon the exercise of Options granted under the Plan; provided, however, that the number of shares so reserved may from time to time be reduced to the extent that a corresponding number of issued and outstanding shares of the Common Stock are purchased by the Company and set aside for issue upon the exercise of Options. If any Options expire or terminate for any reason without having been exercised in full, the unpurchased shares subject thereto shall again be available for the purposes of the Plan.

4. Administration. Except as otherwise provided in Section 21, the Plan shall be administered by the Committee. Subject to the express provisions of the Plan, the Committee shall have complete authority, in its discretion, to interpret the Plan, to prescribe, amend and rescind rules and regulations relating to it, to determine the terms and provisions of the respective option agreements or certificates (which need not be identical), to determine the individuals (each a "Participant") to whom and the times and the prices at which Options shall be granted, the periods during which each Option shall be exercisable, the number of shares of the Common Stock to be subject to each Option and whether such Option shall be an incentive stock option or a non-qualified stock option and to make all other determinations necessary or advisable for the administration of the Plan. In making such determinations, the Committee may take into account the nature of the services rendered by the respective individuals, their present and potential contributions to the success of the Company and the Subsidiaries and such other factors as the Committee in its discretion shall deem relevant. The Committee's determination

-19-

on the matters referred to in this Section 4 shall be conclusive. Any dispute or disagreement which may arise under or as a result of or with respect to any Option shall be determined by the Committee, in its sole discretion, and any interpretations by the Committee of the terms of any Option shall be final, binding and conclusive.

5. Committee. The Committee shall consist of two or more members of the

Edgar Filing: MERRIMAC INDUSTRIES INC - Form 10QSB

Board. The Committee shall be appointed annually by the Board, which may at any time and from time to time remove any members of the Committee, with or without cause, appoint additional members to the Committee and fill vacancies, however caused, in the Committee. A majority of the members of the Committee shall constitute a quorum. All determinations of the Committee shall be made by a majority of its members present at a meeting duly called and held. Any decision or determination of the Committee reduced to writing and signed by all of the members of the Committee shall be fully as effective as if it had been made at a meeting duly called and held.

6. Eligibility. An Option may be granted only to a key employee of the Company or a Subsidiary or to a director of the Company or a Subsidiary who is not an employee of the Company or a Subsidiary or to an independent consultant or advisor who renders services to the Company or a Subsidiary.

7. Option Prices.

The initial per share option price of any Option shall be the price determined by the Committee, but not less than the fair market value of a share of the Common Stock on the date of grant; provided, however, that, in the case of a Participant who owns more than 10% of the total combined voting power of the Common Stock at the time an Option which is an incentive stock option is granted to him or her, the initial per share option price shall not be less than 110% of the fair market value of a share of the Common Stock on the date of grant.

(a) For all purposes of the Plan, the fair market value of a share of the Common Stock on any date shall be equal to (i) the closing sale price of the Common Stock on the American Stock Exchange on such date or (ii) if there is no sale of the Common Stock on such Exchange on such date, the average of the bid and asked prices on such Exchange at the close of the market on such business day.

1. Option Term. Participants shall be granted Options for such term as the Committee shall determine, not in excess of 10 years from the date of the granting thereof; provided, however, that, in the case of a Participant who owns more than 10% of the total combined voting power of the Common Stock at the time an Option which is an incentive stock option is granted to him or her, the term with respect to such Option shall not be in excess of five years from the date of the granting thereof.

2. Limitations on Amount of Options Granted.

The aggregate fair market value of the shares of the Common Stock for which any Participant may be granted incentive stock options which are exercisable for the first time in any calendar year (whether under the terms of the Plan or any other stock option plan of the Company) shall not exceed \$100,000.

-20-

No Participant shall, during any fiscal year of the Company, be granted Options under the Plan to purchase more than 15,000 shares of the Common Stock.

1. Exercise of Options.

Except as otherwise determined by the Committee at the time of grant, a Participant may not exercise an Option during the period commencing on the date of the grant of such Option to him or her and ending on the day immediately preceding the first anniversary of such date. Except as otherwise determined by the Committee at the time of grant, a Participant may, during the period commencing on the first anniversary of the date of the grant of an Option to him or her and ending at the time the Option expires pursuant to the terms hereof,

Edgar Filing: MERRIMAC INDUSTRIES INC - Form 10QSB

exercise such Option with respect to all of the shares granted thereby.

Except as hereinbefore otherwise set forth, an Option may be exercised either in whole at any time or in part from time to time.

An Option may be exercised only by a written notice of intent to exercise such Option with respect to a specific number of shares of the Common Stock and payment to the Company of the amount of the option price for the number of shares of the Common Stock so specified; provided, however, that all or any portion of such payment may be made in kind by the delivery of shares of the Common Stock having a fair market value equal to the portion of the option price so paid; provided further, however, that no portion of such payment may be made by delivering shares of the Common Stock acquired upon the exercise of an Option if such shares shall not have been held by the Participant for at least six months; and provided further, however, that, subject to the requirements of Regulation T (as in effect from time to time) promulgated under the Securities Exchange Act of 1934, as amended, the Committee may implement procedures to allow a broker chosen by a Participant to make payment of all or any portion of the option price payable upon the exercise of an Option and receive, on behalf of such Participant, all or any portion of the shares of the Common Stock issuable upon such exercise. The Committee may, in its discretion, permit any Option to be exercised, in whole or in part, prior to the time when it would otherwise be exercisable.

1. Transferability. (a) Except as otherwise provided in Section 11(b) hereof, no Option shall be assignable or transferable except by will and/or by the laws of descent and distribution and, during the life of any Participant, each Option granted to such Participant may be exercised only by him or her.

(b) A Participant may, with the prior approval of the Committee, transfer for no consideration an Option which is a non-qualified stock option to or for the benefit of the Participant's Immediate Family, a trust for the exclusive benefit of the Participant's Immediate Family or to a partnership or limited liability company for one or more members of the Participant's Immediate Family, subject to such limits as the Committee may establish, and the transferee shall remain subject to all the terms and conditions applicable to the Option prior to such transfer. The term "Immediate Family" shall mean the Participant's children, stepchildren, grandchildren, parents, stepparents, grandparents, spouse, former spouse, siblings, nieces, nephews, mother-in-law, father-in-law, son-in-law, daughter-in-law, brother-in-law, or sister-in-law, including adoptive relationships or any person sharing the Participant's household (other than a tenant or employee).

-21-

2. Termination of Employment or Service. Unless otherwise determined by the Committee, in the event a Participant's employment or service with the Company and the Subsidiaries terminates by reason of his or her death, each Option therefore granted to him or her which shall not have theretofore expired or otherwise been cancelled shall immediately become exercisable in full and shall terminate upon the earlier to occur of the expiration of 12 months after the date of his or her death and the date of termination specified in such Option. Unless otherwise determined by the Committee, in the event a Participant's employment or service with the Company and the Subsidiaries terminates by reason of his or her disability, each Option therefore granted to him or her which shall not have theretofore expired or otherwise been cancelled shall immediately become exercisable in full and shall terminate upon the earlier to occur of the expiration of 12 months after the date of his or her disability and the date of termination specified in such Option. Unless otherwise determined by the Committee, in the event a Participant's employment or service with the Company and the Subsidiaries terminates by reason of his or her retirement, each Option

Edgar Filing: MERRIMAC INDUSTRIES INC - Form 10QSB

therefore granted to him or her which shall not have theretofore expired or otherwise been cancelled shall immediately become exercisable in full and shall terminate upon the earlier to occur of the expiration of three months after the date of his or her retirement and the date of termination specified in such Option. Unless otherwise determined by the Committee, in the event the employment or service of a Participant is terminated by the Company and its Subsidiaries for any reason other than death, disability, retirement or cause, each Option theretofore granted to him or her which shall not have theretofore expired or otherwise been cancelled shall terminate upon the earlier to occur of the expiration of 30 days after the date of his or her termination and the date of termination specified in such Option. Unless otherwise terminated by the Committee in the event a Participant leaves the employ or service of the Company and its Subsidiaries by reason of his or her voluntary action or for cause prior to death, disability or retirement, each Option theretofore granted to him or her which shall not have theretofore expired or otherwise been cancelled shall, to the extent not theretofore exercised, terminate forthwith. For purposes of the foregoing (a) "disability" means total disability as determined in accordance with the terms of any long-term disability plan maintained by the Company or the Subsidiaries (or, if the Company and the Subsidiaries have no such plan, as determined by the Committee) (b) "retirement" means termination of employment in accordance with the retirement provisions of any retirement plan maintained by the Company or the Subsidiaries (or, if the Company and the Subsidiaries have no such plan, at or after age 65) and (c) "cause" means (i) a plea of guilty or nolo contendere to, or conviction for, the commission of a felony offense by a Participant; (ii) a material breach by a Participant of a fiduciary duty owed to the Company or any of its Subsidiaries, (iii) a material breach by a Participant of any nondisclosure, non-solicitation or non-competition obligation owed to the Company or any of its Subsidiaries and (iv) the willful and continued failure or gross neglect on the part of a Participant to perform his or her employment duties.

3. Adjustment of Number of Shares. In the event that a dividend shall be declared upon the Common Stock payable in shares of the Common Stock, the number of shares of the Common Stock then subject to any Option and the number of shares of the Common Stock reserved for issuance in accordance with the provisions of the Plan but not yet covered by an Option, the number of shares set forth in Section 9(b) hereof and the number of shares set forth in Section 20(b) (i) hereof shall be adjusted by adding to each share the number of shares which would be distributable thereon if such shares had been outstanding on the date fixed for determining the stockholders entitled to receive such stock dividend. In the event that the

-22-

outstanding shares of the Common Stock shall be changed into or exchanged for a different number or kind of shares of stock or other securities of the Company or of another corporation, whether through reorganization, recapitalization, stock split-up, combination of shares, sale of assets, merger or consolidation in which the Company is the surviving corporation, then, there shall be substituted for each share of the Common Stock then subject to any Option, for each share of the Common Stock reserved for issuance in accordance with the provisions of the Plan but not yet covered by an Option, for each share of the Common Stock referred to in Section 9(b) hereof and for each share of the Common Stock referred to in Section 20(b) (i) hereof, the number and kind of shares of stock or other securities into which each outstanding share of the Common Stock shall be so changed or for which each such share shall be exchanged. In the event that there shall be any change, other than as specified in this Section 13, in the number or kind of outstanding shares of the Common Stock, or of any stock or other securities into which the Common Stock shall have been changed, or for which it shall have been exchanged, then, if the Committee shall, in its

Edgar Filing: MERRIMAC INDUSTRIES INC - Form 10QSB

sole discretion, determine that such change equitably requires an adjustment in the number or kind of shares then subject to any Option, the number or kind of shares reserved for issuance in accordance with the provisions of the Plan but not yet covered by an Option, the number or kind of shares referred to in Section 9(b) hereof and number or kind of shares referred to in Section 20(b)(i) hereof, such adjustment shall be made by the Committee and shall be effective and binding for all purposes of the Plan and of each stock option agreement or certificate entered into in accordance with the provisions of the Plan. In the case of any substitution or adjustment in accordance with the provisions of this Section 13, the option price in each stock option agreement or certificate for each share covered thereby prior to such substitution or adjustment shall be the option price for all shares of stock or other securities which shall have been substituted for such share or to which such share shall have been adjusted in accordance with the provisions of this Section 13. No adjustment or substitution provided for in this Section 13 shall require the Company to sell a fractional share under any stock option agreement or certificate. In the event of the dissolution or liquidation of the Company, or a merger, reorganization or consolidation in which the Company is not the surviving corporation, then, except as otherwise provided in the second sentence of this Section 13, each Option, to the extent not theretofore exercised, shall terminate forthwith.

4. Purchase for Investment, Withholding and Waivers. Unless the shares to be issued upon the exercise of an Option by a Participant shall be registered prior to the issuance thereof under the Securities Act of 1933, as amended, such Participant will, as a condition of the Company's obligation to issue such shares, be required to give a representation in writing that he or she is acquiring such shares for his or her own account as an investment and not with a view to, or for sale in connection with, the distribution of any thereof. In the event of the death of a Participant, a condition of exercising any Option shall be the delivery to the Company of such tax waivers and other documents as the Committee shall determine. In the case of each non-qualified stock option, a condition of exercising the same shall be the entry by the person exercising the same into such arrangements with the Company with respect to withholding as the Committee may determine.

5. No Stockholder Status. Neither any Participant nor his or her legal representatives, legatees or distributees shall be or be deemed to be the holder of any share of the Common Stock covered by an Option unless and until a certificate for such share has been issued. Upon payment of the purchase price thereof, a share issued upon exercise of an Option

-23-

shall be fully paid and non-assessable.

6. No Restrictions on Corporate Acts. Neither the existence of the Plan nor any Option shall in any way affect the right or power of the Company or its stockholders to make or authorize any or all adjustments, recapitalizations, reorganizations or other changes in the Company's capital structure or its business, or any merger or consolidation of the Company, or any issue of bonds, debentures, preferred or prior preference stock ahead of or affecting the Common Stock or the rights thereof, or dissolution or liquidation of the Company, or any sale or transfer of all or any part of its assets or business, or any other corporate act or proceeding whether of a similar character or otherwise.

7. No Employment Right. Neither the existence of the Plan nor the grant of any Option shall require the Company or any Subsidiary to continue any Participant in the employ or service of the Company or such Subsidiary.

8. Termination and Amendment of the Plan. The Board may at any time

Edgar Filing: MERRIMAC INDUSTRIES INC - Form 10QSB

terminate the Plan or make such modifications of the Plan as it shall deem advisable; provided, however, that the Board may not without further approval of the holders of a majority of the shares of the Common Stock present in person or by proxy at any special or annual meeting of the stockholders, increase the number of shares as to which Options may be granted under the Plan (as adjusted in accordance with the provisions of Section 13 hereof), or change the class of persons eligible to participate in the Plan, or change the manner of determining the option prices. Except as otherwise provided in Section 13 hereof, no termination or amendment of the Plan may, without the consent of the Participant to whom any Option shall theretofore have been granted, adversely affect the rights of such Participant under such Option.

9. Expiration and Termination of the Plan. The Plan shall terminate on April 19, 2011 or at such earlier time as the Board may determine. Options may be granted under the Plan at any time and from time to time prior to its termination. Any Option outstanding under the Plan at the time of the termination of the Plan shall remain in effect until such Option shall have been exercised or shall have expired in accordance with its terms.

10. Options for Outside Directors.

A director of the Company who is not an employee of the Company or a Subsidiary (an "Outside Director") shall be eligible to receive, in addition to any other Option which he or she may receive pursuant to Section 6 hereof, an Option in accordance with Section 20(b) hereof. Except as otherwise provided in this Section 20, each such Option shall be subject to all of the terms and conditions of the Plan.

(i) On the date of each annual meeting of stockholders, each Outside Director shall receive a grant of an Option, which shall be a non-qualified stock option, to purchase 2,500 shares of Common Stock. If an Outside Director is first elected a member of the Company's Board of Directors other than at an annual meeting of stockholders, then, on the date he or she is first so elected, he or she shall receive a grant of an Option, which shall be a non-qualified stock option, to purchase 2,500 shares of Common Stock. Options granted to Outside Directors shall be immediately exercisable.

-24-

(ii) The number and nature of shares subject to any Option held by an Outside Director shall be subject to adjustment only to the extent set forth in Section 13 hereof.

(iii) The initial per share option price of each Option granted to an Outside Director under this Section 20 shall be equal to the fair market value of a share of the Common Stock on the date of grant.

(iv) The term of each Option granted to an Outside Director shall be five years from the date of the granting thereof, unless sooner terminated in accordance with Section 20(c).

(iv) All or any portion of the payment required upon the exercise of an Option granted to an Outside Director may be made in kind by the delivery of shares of the Common Stock having a fair market value equal to the portion of the option price so paid; provided, however, that no portion of such payment may be made by delivering shares of the Common Stock acquired upon the exercise of an Option if such shares shall not have been held by such Outside Director for at least six months; and provided further, however, that, subject to the requirements of Regulation T (as in effect from time to time) promulgated under the Exchange Act, the Committee may implement procedures to allow a broker

Edgar Filing: MERRIMAC INDUSTRIES INC - Form 10QSB

chosen by such Outside Director to make payment of all or any portion of the option price payable upon the exercise of an Option and receive, on behalf of such Outside Director, all or any portion of the shares of the Common Stock issuable upon such exercise.

(c) If an Outside Director's service as a director terminates by reason of his or her death, each Option theretofore granted to him or her pursuant to Section 20(b) hereof which shall not have theretofore expired or otherwise been cancelled shall terminate upon the earlier to occur of 12 months following the date of his or her death and the date of termination specified in such Option. If an Outside Director's service as a director terminates for any reason other than death, each Option theretofore granted to him or her pursuant to Section 20(b) hereof which shall not have theretofore expired or otherwise been cancelled shall terminate upon the earlier to occur of three months following such termination and the date of termination specified in such Option.

(d) The provisions of this Section 20 may not be amended except by the vote of a majority of the members of the Board and by the vote of a majority of the members of the Board who are not Outside Directors.

21. Delegation of Authority. Mason N. Carter, as the Chairman of the Board, Chief Executive Officer and President of the Company (the "Designated Director"), may administer the Plan with respect to employees of the Company or a Subsidiary (i) who are not officers of the Company subject to the provisions of Section 16 of the Securities Exchange Act of 1934 (the "Exchange Act") and (ii) whose compensation is not expected to be subject to the provisions of Section 162(m) of the Code. The authority of the Designated Director, and the Options granted

-25-

by the Designated Director, shall be subject to such terms, conditions, restrictions and limitations as may be imposed, from time to time, by the Committee. Unless and until the Committee shall take further action, the maximum number of shares of Common Stock that may be subject to Options granted under the Plan in any one calendar year by the Designated Director to any single employee shall be 5,000. Any actions duly taken by the Designated Director with respect to the grant of Options to such employees shall be deemed to have been taken by the Committee for purposes of the Plan.
