Item 8.01 Other Events.

On March 7, 2008, we issued a press release announcing that we received marketing approval from the U.S. Food and Drug Administration, or FDA, for levoleucovorin for injection. It is indicated after high-dose methotrexate therapy in patients with osteosarcoma, and to diminish the toxicity and counteract the effects of impaired methotrexate elimination or inadvertent overdose of folic acid antagonists. Levoleucovorin is the only commercially available formulation comprised only of the pharmacologically active enantiomer of leucovorin (Levoleucovorin or (6S)-leucovorin). We currently expect commercial launch by June 2008.

In April 2006, we acquired the oncology drug product assets of Targent, Inc., which included a license agreement with Merck Eprova AG, a Swiss corporation, or Eprova, for levoleucovorin. Pursuant to the terms of the acquisition, we are required to issue to Targent, or its stockholders, an aggregate amount of 125,000 shares of our common stock, with a fair market value of \$305,000, upon the receipt of FDA approval. One-third of the shares were registered for resale pursuant to a registration statement that we filed on June 15, 2006, and is now effective.

Pursuant to the license agreement with Eprova, we are required to pay Eprova \$100,000.

A copy of the press release is attached hereto as Exhibit 99.1 and is incorporated herein by reference.

Item 9.01 Financial Statements and Exhibits.
