GEOGLOBAL RESOURCES INC.

We are engaged, through our subsidiaries, in the exploration for and development of oil and natural gas reserves. We have not yet achieved our planned principal operations and are considered to be a development stage enterprise. We initiated these activities in 2003. The recoverability of the costs we have incurred to date is uncertain and dependent upon achieving commercial production and sale of hydrocarbons, our ability to obtain sufficient financing to fulfill our obligations under the production sharing or other contracts we are a party to with respect to oil and natural gas exploration and development activities in India, Israel and Colombia and upon future profitable operations.

At present, our activities are being undertaken in four geological basins located offshore and onshore in India, one geological basin located offshore Israel and one geological basin located onshore in Colombia where reserves of oil or natural gas are believed by our management to exist.

We started our first production from one field in the Tarapur block in May 2009. We produced 10,856 barrels of oil in 2009 and 5,866 barrels of oil during the six months ended June 30, 2010. Based on a reserve report dated January 1, 2010 prepared by Chapman Petroleum Engineering Ltd., Calgary, Alberta, Canada, we claim proved developed reserves in this field of 117.6 MBbls of oil and 88.5 MMcf of natural gas and probable developed reserves of 444.5 MBbls of oil and 695.6 MMcf of natural gas and probable undeveloped reserves of 68.6 MBbls of oil.

The exploration rights pursuant to PSCs we have entered into with the Government of India are located in the following areas:

The Rajasthan Basin onshore in the State of Rajasthan in north western India.

We have entered into PSCs with respect to ten exploration blocks in India as follows:

GSPC is the operator of this block and we have a 10% participating interest (net 5%

carried interest) under this agreement.

CB-ONN-2002/2 (Mehsana Block) - We entered into this agreement in February 2004 under NELP-IV, which grants exploration rights in an area onshore in the Cambay Basin in the State of Gujarat in western India. As a consequence of Oil and Natural Gas Corporation Limited of India exercising their right to participate in the development of any commercial discovery on the Tarapur Block, our participating interest in the Tarapur 1 discovery area is 14%. GSPC is the operator of this block.

CB-ONN-2003/2 (Ankleshwar Block) - We entered into this agreement in September 2005 under NELP-V, which grants exploration rights in an area onshore in the Cambay Basin in the State of Gujarat south-east of our three existing Cambay blocks. The Israel exploration rights we have acquired are located in the Levantine Basin offshore off the western coast of Israel in the Mediterranean Sea with the exploration blocks varying in distances between 6 and 25 miles off the coast.

In June 2010, the Israel Ministry of National Infrastructure approved the transfer and registration to a consortium, in which GeoGlobal has a 5% participating interest and has been designated as Operator, of two deepwater offshore licenses known as follows:

347 Myra (Myra) - This deepwater offshore license is located approximately 25 miles off the western coast of Israel in the Mediterranean Sea in waters of approximately 1,400 meters deep. The MOU we entered into with Petro Caribbean Resources Ltd. (PCR) in September 2010 provides that we will participate in conducting oil and natural gas exploration and development activities in Colombia. The MOU is subject to the execution by PCR of definitive agreements with the Colombian National Agency of Hydrocarbons. Subject to the execution of a Joint Operating Agreement with PCR, we will be carried for a 10% participating interest in both the PUT 6 and PUT 7 exploration blocks through the minimum and additional work programs as bid in return for us providing to PCR technical assistance through the exploration phase. As part of the MOU, GeoGlobal had a right to acquire up to an additional 40% participating interest in each of the PUT 6 and PUT 7 exploration blocks exercisable on or before September 21, 2010. GeoGlobal did not exercise this option.

All of the exploration activities in which we are a participant should be considered highly speculative.

RISK FACTORS

An investment in our securities involves a high degree of risk. We operate in a highly competitive environment in which there are numerous factors which can influence our business, financial position or results of operations and which can also cause the market value of our securities to decline. Many of these factors are beyond our control and therefore, are difficult to predict. Prior to making a decision about investing in our securities, you should carefully consider the risk factors contained in the section entitled "Risk Factors" in our most recent Annual Report on Form 10-K, in our most recent Quarterly Reports on Form 10-Q and the documents incorporated by reference in this prospectus supplement and the accompanying prospectus, together with all of the other information contained in this prospectus supplement and the accompanying prospectus. Such sections discuss what we believe to be the principal risks that could affect us, the oil and gas exploration and production industry and our participation in that industry, and which could result in a material adverse impact on our financial condition and operating results or cause the market price of our securities to fluctuate or decline. However, there may be additional risks and uncertainties not currently known to us or that we presently deem immaterial that could also affect our business operations and the market value of our securities.

There can be no assurance that the exploratory drilling to be conducted on the exploration blocks in which we hold an interest will result in any discovery of material reserves of hydrocarbons or that any hydrocarbons that are discovered will be in commercially recoverable quantities. In addition, the realization of any revenues from commercially recoverable hydrocarbons is dependent upon the ability to deliver, store and market any hydrocarbons that are discovered. There can be no assurance that we will realize material revenues from the sale of oil and gas.

USE OF PROCEEDS

We intend to use the net proceeds we receive from this offering for general corporate purposes and working capital requirements, which may include, among other things, capital expenditures, licensing or acquiring oil and gas properties, equipment or technologies and funding for security bonds or performance guarantees.

DESCRIPTION OF SECURITIES OFFERED HEREBY

Common Stock

For a description of the Common Stock being offered hereby, please see "Description of Capital Stock" in the accompanying prospectus.

Warrants

The material terms and provisions of the Warrants being offered pursuant to this prospectus supplement are summarized below. A form of Non-Callable Warrant and a form of Callable Warrant will be filed as exhibits to our current report on Form 8-K relating to this offering and reference is made thereto for a complete description of the Warrants.

Non-Callable Warrants

Term; Exercise Price and Exercisability

The Non-Callable Warrants to be issued in this offering represent the rights to purchase up to 1,470,588 shares of Common Stock at an exercise price of \$1.00 per share. Each Non-Callable Warrant will be exercisable for a period beginning April 11, 2011 and ending five years after issuance. The number of shares of Common Stock that may be acquired by any holder upon any exercise of the Non-Callable Warrant will be limited to the extent necessary to insure that, following such exercise (or other issuance),

S-10

the total number of shares of Common Stock then beneficially owned by such holder and its affiliates and any other persons whose beneficial ownership of Common Stock would be aggregated with the holder's for purposes of Section 13(d) of the Securities Exchange Act of 1934, as amended, does not exceed 4.99% of the total number of issued and outstanding shares of Common Stock (including for such purpose the shares of Common Stock issuable upon such exercise), or beneficial ownership limitation. The holder may elect to change this beneficial ownership limitation from 4.99% to 9.99% of the total number of issued and outstanding shares of Common Stock (including for such purpose the shares of Common Stock issuable upon such exercise) upon 61 days' prior written notice.

Manner of Exercise

Holders of the Non-Callable Warrants may exercise their Non-Callable Warrants to purchase shares of Common Stock on or before the expiration date by delivering (i) notice of exercise, appropriately completed and duly signed, and (ii) if such holder is not utilizing the cashless exercise provisions with respect to such Warrants, payment of the exercise price for the number of shares with respect to which the Warrant is being exercised. Non-Callable Warrants may be exercised in whole or in part, but only for full shares of Common Stock. We provide certain buy-in rights to a holder if we fail to deliver the shares of Common Stock underlying the Non-Callable Warrants by the second trading day after the date on which delivery of the stock certificate is required by the Warrant. The buy-in rights apply if, after the second trading day on which delivery of the stock certificate is required by the Non-Callable Warrant, the holder purchases (in an open market transaction or otherwise) shares of Common Stock to deliver in satisfaction of a sale by the holder of the shares of Common Stock that the holder anticipated receiving from us upon exercise of the Warrant. In this event, we will:

pay in cash to the holder the amount equal to the excess (if any) of the buy-in price over the product of (A) such number of shares of Common Stock and (B) the price at which the sell order giving rise to holder's purchase obligation was executed; and

at the election of holder, either (A) reinstate the portion of the Non-Callable Warrant as to such number of shares of Common Stock, or (B) deliver to the holder a certificate or certificates representing such number of shares of Common Stock.

In addition, the Non-Callable Warrant holders are entitled to a "cashless exercise" option if, at any time of exercise, there is no effective registration statement registering, or no current prospectus available for, the issuance or resale of the shares of Common Stock underlying the Non-Callable Warrants. This option entitles the Non-Callable Warrant holders to elect to receive fewer shares of Common Stock without paying the cash exercise price. The number of shares to be issued would be determined by a formula based on the total number of shares with respect to which the Non-Callable Warrant is being exercised, the daily volume weighted average price for the shares of our Common Stock on the trading day immediately prior to the date of exercise and the applicable exercise price of the Warrant.

The shares of Common Stock issuable on exercise of the Non-Callable Warrants will be, when issued and paid for in accordance with the Warrants, duly authorized, validly issued and fully paid and non-assessable. We will authorize and reserve at least that number of shares of Common Stock equal to the number of shares of Common Stock issuable upon exercise of all outstanding Warrants.

Fundamental Transaction

If, at any time while the Non-Callable Warrants are outstanding, (1) we consolidate or merge with or into another corporation, (2) we sell, lease, license, assign, transfer, convey or otherwise dispose of all or substantially all of our assets, (3) any purchase offer, tender offer or exchange offer (whether by us or another individual or entity) is completed pursuant to which holders of Common Stock are permitted to sell, tender or exchange their shares for other

securities, cash or property and has been accepted by the holders of 50% or more of our outstanding Common Stock, (4) we effect any reclassification or recapitalization of our Common Stock or any compulsory share exchange pursuant to which our Common

S-11

Stock is converted into or exchanged for other securities, cash or property, or (5) we consummate a stock or share purchase agreement or other business combination with another person or entity whereby such other person or entity acquires more than 50% of the outstanding shares of Common Stock (or the occurrence of any analogous proceeding) affecting our Company (each, a “Fundamental Transaction,”) then upon any subsequent exercise of the Non-Callable Warrants, the holders thereof will have the right to receive the same amount and kind of securities, cash or property as it would have been entitled to receive upon the occurrence of such Fundamental Transaction if it had been, immediately prior to such Fundamental Transaction, the holder of the number of shares of Common Stock then issuable upon exercise of the Warrant, and any additional consideration payable as part of the Fundamental Transaction. Any successor to us or surviving entity will assume the obligations under the Non-Callable Warrant.

Certain Adjustments

The exercise price and the number of shares of Common Stock purchasable upon the exercise of the Non-Callable Warrants are subject to adjustment upon the occurrence of specific events, including stock dividends, stock splits, combinations and reclassifications of our Common Stock. If the holders of Common Stock shall have received or become entitled to receive, without payment therefor, (1) Common Stock or any shares of stock or other securities which are at any time directly or indirectly convertible into or exchangeable for Common Stock, or any rights or options to subscribe for, purchase or otherwise acquire any of the foregoing by way of dividend or other distribution, (2) any cash paid or payable otherwise than as a cash dividend; or (3) Common Stock or additional stock or other securities or property (including cash) by way of spinoff, split-up, reclassification, combination of shares or similar corporate rearrangement, then and in each such case, the holder of the Non-Callable Warrants will, upon the exercise of such Warrant, be entitled to receive, in addition to the number of shares of Common Stock receivable thereupon, and without payment of any additional consideration therefor, the amount of stock and other securities and property (including cash in the cases referred to in clauses (2) and (3) above) which such holder would hold on the date of such exercise had such holder been the holder of record of such Common Stock as of the date on which holders of Common Stock received or became entitled to receive such shares or all other additional stock and other securities and property.

Subsequent Rights Offerings

If, at any time while the Non-Callable Warrants are outstanding, we shall issue rights, options or warrants to all holders of Common Stock (and not to the holder of the Non-Callable Warrants) entitling them to subscribe for or purchase shares of Common Stock at a price per share less than the daily volume weighted average price for the shares of Common Stock on the record date mentioned below, then the exercise price for such Non-Callable Warrant shall be multiplied by a fraction, of which the denominator shall be the number of shares of Common Stock outstanding on the date of issuance of such rights, options or warrants plus the number of additional shares of Common Stock offered for subscription or purchase, and of which the numerator shall be the number of shares of Common Stock outstanding on the date of issuance of such rights, options or warrants plus the number of shares which the aggregate offering price of the total number of shares so offered (assuming receipt by us in full of all consideration payable upon exercise of such rights, options or warrants) would purchase at such volume weighted average price. Such adjustment shall be made whenever such rights, options or warrants are issued, and shall become effective immediately after the record date for the determination of shareholders entitled to receive such rights, options or warrants.

Delivery of Certificates

Upon the holder’s exercise of a Non-Callable Warrant, we will promptly, but in no event later than three trading days after the latest of (1) the delivery of the notice of exercise, (2) the surrender of the Non-Callable Warrant (if required) and (3) payment of the aggregate exercise price, issue and deliver, or cause to be issued and delivered, a certificate for the shares of Common Stock issuable upon exercise of the Non-Callable Warrant. In addition, if we are a participant

in such system, we will issue and deliver the shares electronically through The Depository Trust Corporation through its Deposit Withdrawal Agent Commission System (DWAC).

S-12

Notice of Corporate Action

We will provide at least 20 days prior notice to holders of the Non-Callable Warrants to provide them with the opportunity to exercise their Non-Callable Warrants and hold Common Stock in order to participate in or vote on the following corporate events:

if we shall take a record of the holders of Common Stock for the purpose of entitling them to receive a dividend or other distribution, or any right to subscribe for or purchase any shares of stock of any class or any other right;

if we authorize or approve, enter into any agreement contemplating, or solicit shareholder approval for any transaction that would be deemed a Fundamental Transaction as described above; or

a voluntary dissolution, liquidation or winding up of our Company.

Additional Provisions

We are not required to issue fractional shares upon the exercise of the Non-Callable Warrants. No holders of the Non-Callable Warrants will possess any rights as a shareholder under those Warrants until the holder exercises those Warrants. The Non-Callable Warrants may be transferred independent of the Common Stock they were issued with, on a form of assignment, subject to all applicable laws.

Callable Warrants

The terms of the Callable Warrants are identical to the terms of the Non-Callable Warrants, except that the Callable Warrants contain the following additional provision:

Call Right

Subject to certain exceptions, while the Callable Warrants are outstanding, if (i) the volume weighted average price of a share of Common Stock for each of 30 consecutive trading days (the "Measurement Period") exceeds \$3.00 (subject to adjustment), (ii) the average daily volume for such Measurement Period exceeds \$350,000 per trading day and (iii) the holder is not in possession of any information that constitutes, or might constitute, material non-public information which was provided by us, then we may, within one trading day of the end of such Measurement Period, upon notice, call for cancellation all or any portion of the Callable Warrants (a "Call") for consideration equal to \$0.001 per share. Our right to Call the Callable Warrants shall be exercised ratably among the Callable Warrant holders.

LEGAL MATTERS

The validity of the issuance of the securities offered by this prospectus will be passed upon for us by William S. Clarke, P.A., Pennington, New Jersey.

DISCLOSURE OF COMMISSION POSITION ON INDEMNIFICATION FOR SECURITIES ACT LIABILITIES

Our Certificate of Incorporation provides that we will indemnify our officers and directors against any and all liability, expenses or other matters to the fullest extent permitted under the General Corporation Law of the State of Delaware. Our By-Laws provide that we shall indemnify any director, officer, employee or agent against liabilities incurred in a proceeding (including any civil, criminal, administrative or investigative proceeding) to which the person

S-13

In addition to our Certificate of Incorporation and By-Laws, the Company entered into indemnity agreements with our officers and directors. The agreement is a contractual supplement to the corporate indemnity provisions of the Company's Certificate of Incorporation and By-Laws. The material terms and conditions of the agreement are: (a) the Company shall indemnify and advance expenses to the indemnitee against claims if the indemnitee acted in good faith with a view to the best interests of the Company, and, with respect to any criminal proceeding, had no reasonable cause to believe the indemnitee's conduct was unlawful; (b) a description of how the Company will determine if indemnification is appropriate including the procedure for obtaining indemnification; (c) the procedure to authorize advancing expenses; (d) the indemnitee's rights under the indemnity agreement will survive any merger or other consolidation; and (e) the indemnitee will be entitled to attorney's fees and disbursements incurred in any suit against the Company for breach of the agreement, unless as a part of such suit, the court of competent jurisdiction determines that each of the material assertions made by the indemnitee were not made in good faith or were frivolous.

Insofar as indemnification for liabilities arising under the Securities Act of 1933 may be permitted to directors, officers or controlling persons of the Company pursuant to the foregoing provisions, the Company has been informed that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Securities Act of 1933 and is, therefore, unenforceable.

Operations

We are engaged, through our subsidiaries, in the exploration for and development of oil and natural gas reserves. At December 31, 2009, we have not yet achieved our planned principal operations and are considered to be a development stage enterprise. We initiated these activities in 2003. The recoverability of the costs we have incurred to date is uncertain and dependent upon achieving commercial production and sale of hydrocarbons, our ability to obtain sufficient financing to fulfill our obligations under the Production Sharing Contracts we are a party to with respect to oil and natural gas exploration and development activities in India and upon future profitable operations.

At present, our activities are being undertaken in four geological basins located offshore and onshore in India where reserves of oil or natural gas are believed by our management to exist.

We started our first production from one field in the Tarapur block in May 2009. We produced 10,856 barrels of oil in 2009 and 3,264 barrels of oil during the three months ended March 31, 2010. Based on a reserve report dated January 1, 2010 prepared by Chapman Petroleum Engineering Ltd., Calgary, Alberta, Canada, we claim proved developed reserves in this field of 117.6 MBbls of oil and 88.5 MMcf of natural gas and probable developed reserves of 444.5 MBbls of oil and 695.6 MMcf of natural gas and probable undeveloped reserves of 68.6 MBbls of oil.

The exploration rights pursuant to PSCs we have entered into with the Government of India are located in the following areas:

The Krishna Godavari Basin offshore and onshore in the State of Andhra Pradesh in south eastern India;
The Cambay Basin onshore in the State of Gujarat in western India;
The Deccan Syncline Basin onshore in the State of Maharashtra in west central India; and
The Rajasthan Basin onshore in the State of Rajasthan in north western India.

As of July 7, 2010, we have entered into PSCs with respect to ten exploration blocks in India as follows:

KG-OSN-2001/3 (KG Offshore Block) - This was our first agreement entered into in February 2003 under NELP-III, which grants exploration rights in an area offshore in south eastern India in the Krishna Godavari Basin in the State of Andhra Pradesh. GSPC is the operator of this block and we have a 10% participating interest (net 5% carried interest) under this agreement.

CB-ONN-2002/2 (Mehsana Block) - We entered into this agreement in February 2004 under NELP-IV, which grants exploration rights in an area onshore in the Cambay Basin in the State of Gujarat in western India. As a consequence of Oil and Natural Gas Corporation Limited of India exercising their right to participate in the development of any commercial discovery on the Tarapur Block, our participating interest in the Tarapur 1 discovery area is 14%. GSPC is the operator of this block.

CB-ONN-2003/2 (Ankleshwar Block) - We entered into this agreement in September 2005 under NELP-V, which grants exploration rights in an area onshore in the Cambay Basin in the State of Gujarat south-east of our three existing Cambay blocks. GSPC is the operator of this block and we have a 10% participating interest under this agreement.

Oil India Limited is the operator of this block and we hold a 25% participating interest under this agreement.

DS-ONN-2004/1 (DS 04 Block) - We entered into this agreement in March 2007 under NELP-VI, which grants exploration rights in an area onshore in the Deccan Syncline Basin located in the northern portion of the State of Maharashtra in west-central India. We are the operator of this block and have a 100% participating interest under this agreement.

All of the exploration activities in which we are a participant should be considered highly speculative.

The map of India below shows the relative general locations of the exploration blocks that are the subject of our ten PSCs with the Government of India and does not indicate specific size of blocks or basins.

RISK FACTORS

An investment in our securities involves a high degree of risk. We operate in a highly competitive environment in which there are numerous factors which can influence our business, financial position or results of operations and which can also cause the market value of our common stock to decline. Many of these factors are beyond our control and therefore, are difficult to predict. Prior to making a decision about investing in our securities, you should carefully consider the risk factors contained in the section entitled “Risk Factors” in our most recent Annual Report on Form 10-K, in our most recent Quarterly Report on Form 10-Q and in any applicable prospectus supplement and our other filings with the SEC and incorporated by reference in this prospectus, together with all of the other information contained in this prospectus, or any applicable prospectus supplement. Such sections discuss what we believe to be the principal risks that could affect us, the oil and gas exploration and production industry and our participation in that industry, and which could result in a material adverse impact on our financial condition and operating results or cause the market price of our common stock to fluctuate or decline. However, there may be additional risks and uncertainties not currently known to us or that we presently deem immaterial that could also affect our business operations and the market value of our common stock.

An investment in shares of our common stock involves a high degree of risk. You should consider the Risk Factors referred to above, in addition to the other information contained in this prospectus and in any applicable prospectus supplements and our other filings with the SEC and incorporated by reference in this prospectus in evaluating our business and current and proposed activities before you purchase any shares of our securities. You should also see the “Forward-Looking Statements” regarding risks and uncertainties relating to us and to forward-looking statements in this prospectus and in any applicable prospectus supplements and our other filings with the SEC.

There can be no assurance that the exploratory drilling to be conducted on the exploration blocks in which we hold an interest will result in any discovery of material reserves of hydrocarbons or that any hydrocarbons that are discovered will be in commercially recoverable quantities. In addition, the realization of any revenues from commercially recoverable hydrocarbons is dependent upon the ability to deliver, store and market any hydrocarbons that are discovered. There can be no assurance that we will realize material revenues from the sale of oil and gas.

FORWARD-LOOKING STATEMENTS

This prospectus includes “forward-looking statements” within the meaning of Section 27A of the Securities Act of 1933, as amended, or the Securities Act, and Section 21E of the Securities Exchange Act of 1934, as amended, or the Exchange Act. Any statements about our expectations, beliefs, plans, objectives, assumptions or future events or performance are not historical facts and may be forward-looking. These statements are often, but not always, made through the use of words or phrases like “anticipate,” “estimate,” “plans,” “projects,” “continuing,” “ongoing,” “target,” “management believes,” “we believe,” “we intend,” “we may,” “we will,” “we should,” “we seek,” “we plan,” the negative terms, and similar words or phrases. We base these forward-looking statements on our expectations, assumptions, estimates and projections about our business and the industry in which we operate as of the date of this prospectus. These forward-looking statements are subject to a number of risks and uncertainties that cannot be predicted, quantified or controlled and that could cause actual results to differ materially from those set forth in, contemplated by, or underlying the forward-looking statements. Statements in this prospectus, and in documents incorporated into this prospectus, including those set forth in “Risk Factors,” describe factors, among others, that could contribute to or cause these differences.

Because the factors discussed in this prospectus or incorporated by reference could cause actual results or outcomes to differ materially from those expressed in any forward-looking statements made by us or on our behalf, you should not place undue reliance on any such forward-looking statements. Further, any forward-looking statement speaks only as

of the date on which it is made, and we undertake no obligation to update any forward-looking statement or statements to reflect events or circumstances after the date on which such statement is made or to reflect the occurrence of unanticipated events. New factors emerge from time to

time, and it is not possible for us to predict which will arise. In addition, we cannot assess the impact of each factor on our business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements.

Our inability to meet our goals and objectives or the consequences to us from adverse developments in general economic or capital market conditions, events having international consequences, or military or terrorist activities could have a material adverse effect on us. We caution you that various risk factors accompany those forward-looking statements and are described, among other places, under the caption “Risk Factors” herein. They are also described in our Annual Reports on Form 10-K, our Quarterly Reports on Form 10-Q and our Current Reports on Form 8-K. These risk factors could cause our operating results, financial condition and ability to fulfill our plans to differ materially from those expressed in any forward-looking statements made in this prospectus and in any applicable prospectus supplements and our other filings with the SEC and incorporated by reference in this prospectus and could adversely affect our financial condition and our ability to pursue our business strategy and plans.

USE OF PROCEEDS

Unless specified otherwise in the applicable prospectus supplement, we expect to use the net proceeds we receive from the sale of the securities offered by this prospectus and the accompanying prospectus supplement for general corporate purposes and working capital requirements, which may include, among other things, capital expenditures, licensing or acquiring oil and gas properties, equipment or technologies and funding for security bonds or performance guarantees.

DESCRIPTION OF CAPITAL STOCK

Common Stock

The authorized number of shares of common stock which we are authorized to issue consists of 125,000,000 shares, each such share having a par value \$0.001 per share. The holders of common stock are entitled to one vote per share on all matters voted on by stockholders, including elections of Directors, and, except as otherwise required by law or provided in any resolution adopted by the Board of Directors with respect to any series of preferred stock establishing the powers, designations, preferences and relative, participating, option or other special rights of such series, the holders of our shares of common stock exclusively possess all voting power. The Certificate of Incorporation does not provide for cumulative voting in the election of directors. Subject to any preferential rights of any outstanding series of preferred stock, the holders of common stock are entitled to such distributions as may be declared from time to time by the Board of Directors from funds available therefore, and upon liquidation are entitled to receive pro rata all our assets available for distribution to such holders. All shares of our common stock outstanding are fully paid and non-assessable and the holders thereof have no preemptive rights.

Our common stock is listed on the NYSE/Amex under the symbol “GGR.”

All of the issued and outstanding shares of our common stock are duly authorized, validly issued, fully paid and non-assessable. To the extent that additional shares of our common stock are issued, the relative interests of existing stockholders will be diluted.

Transfer Agent

Our independent stock transfer agent for our common stock is Computershare Investor Services located at 350 Indiana St., Suite 750, Golden, CO 80401. Their phone number is +1 (303) 262-0714 and facsimile number is +1 (303) 262-0632.

Preferred Stock

We are authorized to issue up to 1,000,000 shares of preferred stock, par value \$0.01 per share, from time to time in one or more series. Our Board of Directors, without further approval of the stockholders, is expressly authorized to issue shares of our preferred stock in one or more series, and to fix for each such series such voting powers, full or limited, and such designations, preferences and relative, participating, optional or special rights and such qualifications, limitations or restrictions thereof as may be stated and expressed in the resolution or resolutions adopted by the Board of Directors providing for the issue of such series and as may be permitted by the General Corporation Law of the State of Delaware. The issuance of preferred stock, while providing flexibility in connection with possible financings, acquisitions and other corporate purposes, could, among other things, adversely affect the voting power of the holders of our common stock and, under certain circumstances, be used as a means of discouraging, delaying or preventing a change in control of our company. As of July 7, 2010, we had no shares of preferred stock outstanding.

A copy of the form of Certificate of Designation, setting forth the rights and preferences of the preferred stock to be issued, and any form of preferred stock certificates representing the shares of preferred stock will be filed as exhibits to a Form 8-K to be incorporated into this registration statement of which this prospectus constitutes a part prior to the issuance of any shares of preferred stock.

A transfer agent for the shares of preferred stock will be appointed prior to issuance and will be disclosed in a prospectus supplement or in a Form 8-K to be incorporated into this registration statement of which this prospectus constitutes a part prior to the issuance of any shares of preferred stock.

DESCRIPTION OF WARRANTS

We may issue warrants for the purchase of common stock or preferred stock in one or more series. We may issue warrants independently or together with common stock or preferred stock, and the warrants may be attached to or traded separate and apart from these securities. Each series of warrants will be issued under a warrant agreement all as set forth in the prospectus supplement. A copy of the form of warrant agreement, including any form of warrant certificates representing the warrants, reflecting the provisions to be included in the warrant agreements and/or warrant certificates that will be entered into with respect to particular offerings of warrants, will be filed as an exhibit to a Form 8-K to be incorporated into the registration statement of which this prospectus constitutes a part prior to the issuance of any warrants.

The applicable prospectus supplement or term sheet will describe the terms of the warrants offered thereby, any warrant agreement relating to such warrants and the warrant certificates, including but not limited to the following:

the offering price or prices;

the aggregate amount of securities that may be purchased upon exercise of such warrants and minimum number of warrants that are exercisable;

the currency or currency units in which the offering price, if any, and the exercise price are payable;

the number of securities, if any, with which such warrants are being offered and the number of such warrants being offered with each security;

7

the date on and after which such warrants and the related securities, if any, will be transferable separately;

the amount of securities purchasable upon exercise of each warrant and the price at which the securities may be purchased upon such exercise, and events or conditions under which the amount of securities may be subject to adjustment;

the date on which the right to exercise such warrants shall commence and the date on which such right shall expire;

the circumstances, if any, which will cause the warrants to be deemed to be automatically exercised;

any material risk factors, if any, relating to such warrants;

the identity of any warrant agent; and

any other terms of such warrants (which shall not be inconsistent with the provisions of the warrant agreement).

The terms of the warrants that we offer may or may not have the same material terms as our currently outstanding warrants.

Prior to the exercise of any warrants, holders of such warrants will not have any rights of holders of the securities purchasable upon such exercise, including the right to receive payments of dividends, if any, on the securities purchasable upon such exercise, statutory appraisal rights or the right to vote such underlying securities.

Prospective purchasers of warrants should be aware that material U.S. federal income tax, accounting and other considerations may be applicable to instruments such as warrants.

DESCRIPTION OF UNITS

We may issue units comprised of one or more of the other securities described in this prospectus in any combination. Each unit will be issued so that the holder of the unit is also the holder of each security included in the unit. Thus, the holder of a unit will have the rights and obligations of a holder of each included security. A unit agreement under which a unit is issued may provide that the securities included in the unit may not be held or transferred separately, at any time or at any time before a specified date.

The applicable prospectus supplement may describe:

the designation and terms of the units and of the securities comprising the units, including whether and under what circumstances those securities may be held or transferred separately;

any provisions for the issuance, payment, settlement, transfer or exchange of the units or of the securities comprising the units; and

any additional terms of the governing unit agreement.

The applicable prospectus supplement will describe the terms of any units. The preceding description and any description of units in the applicable prospectus supplement does not purport to be complete and is subject to and is qualified in its entirety by reference to the unit agreement and, if applicable, collateral arrangements and depositary arrangements relating to such units.

PLAN OF DISTRIBUTION

We may sell the securities through underwriters or dealers, through agents, or directly to one or more purchasers. The accompanying prospectus supplement will describe the terms of the offering of the securities, including:

the names of any underwriters;

the purchase price of the securities being offered and the proceeds we will receive from the sale;

any over-allotment options pursuant to which underwriters may purchase additional securities from us;

any agency fees or underwriting discounts and other items constituting agents' or underwriters' compensation

any public offering price;

any discounts or concessions allowed or re-allowed or paid to dealers; and

any securities exchange or market on which the securities may be listed.

If underwriters are used in the sale, they will acquire the securities for their own account and may resell the securities from time to time in one or more transactions at a fixed public offering price or at varying prices determined at the time of the sale. The obligations of the underwriters to purchase the securities will be subject to the conditions set forth in the applicable underwriting agreement. We may offer the securities to the public through underwriting syndicates represented by managing underwriters or by underwriters without a syndicate. Subject to certain conditions, the underwriters will be obligated to purchase all the securities offered by the prospectus supplement. We may change from time to time the public offering price and any discounts or concessions allowed or re-allowed or paid to dealers. We may use underwriters with whom we have a material relationship. We will describe such relationships in the prospectus supplement naming the underwriter and the nature of any such relationship.

We may engage in "at the market" offerings of our common stock, which are offerings into an existing trading market, at other than a fixed price, on or through the facilities of a national securities exchange or to or through a market maker otherwise than on an exchange.

We may sell securities directly or through agents we designate from time to time. We will name any agent involved in the offering and sale of the securities, and we will describe any commissions we will pay the agent in the prospectus supplement. Unless the prospectus supplement states otherwise, our agent will act on a best efforts basis for the period of its appointment.

We may enter into derivative transactions with third parties, or sell securities not covered by this prospectus to third parties in privately negotiated transactions. If the applicable prospectus supplement indicates, in connection with those derivatives, the third parties may sell securities covered by this prospectus and the applicable prospectus supplement, including short sale transactions. If so, the third party may use securities pledged by us or borrowed from us or others to settle those sales or to close out any related open borrowings of common shares, and may use securities received from us in settlement of those derivatives to close out any related open borrowings of common shares. The third party in such sale transactions will be an underwriter and, if not identified in this prospectus, will be identified in the applicable prospectus supplement or a post-effective amendment to this registration statement.

All securities we offer other than common stock will be new issues of securities with no established trading market. Any underwriters may make a market in these securities, but will not be obligated to do so and

may discontinue any market making at any time without notice. We cannot guarantee the liquidity of the trading markets for any securities.

We may provide agents and underwriters with indemnification against civil liabilities related to this offering, including liabilities under the Securities Act, or contribution with respect to payments that the agents or underwriters may make with respect to these liabilities. Agents and underwriters may engage in transactions with, or perform services for, us in the ordinary course of business.

Rules of the Securities and Exchange Commission may limit the ability of any underwriters to bid for or purchase securities before the distribution of the securities is completed. However, underwriters may engage in the following activities in accordance with the rules:

Stabilizing transactions — Underwriters may make bids or purchases for the purpose of pegging, fixing or maintaining the price of the shares, so long as stabilizing bids do not exceed a specified maximum.

Over-allotments and syndicate covering transactions — Underwriters may sell more shares of our common stock than the number of shares that they have committed to purchase in any underwritten offering. This over-allotment creates a short position for the underwriters. This short position may involve either “covered” short sales or “naked” short sales. Covered short sales are short sales made in an amount not greater than the underwriters’ over-allotment option to purchase additional shares in any underwritten offering. The underwriters may close out any covered short position either by exercising their over-allotment option or by purchasing shares in the open market. To determine how they will close the covered short position, the underwriters will consider, among other things, the price of shares available for purchase in the open market, as compared to the price at which they may purchase shares through the over-allotment option. Naked short sales are short sales in excess of the over-allotment option. The underwriters must close out any naked position by purchasing shares in the open market. A naked short position is more likely to be created if the underwriters are concerned that, in the open market after pricing, there may be downward pressure on the price of the shares that could adversely affect investors who purchase shares in the offering.

Penalty bids — If underwriters purchase shares in the open market in a stabilizing transaction or syndicate covering transaction, they may reclaim a selling concession from other underwriters and selling group members who sold those shares as part of the offering.

Similar to other purchase transactions, an underwriter’s purchases to cover the syndicate short sales or to stabilize the market price of our securities may have the effect of raising or maintaining the market price of our securities or preventing or mitigating a decline in the market price of our securities. As a result, the price of the securities may be higher than the price that might otherwise exist in the open market. The imposition of a penalty bid might also have an effect on the price of shares if it discourages re-sales of the securities.

If commenced, the underwriters may discontinue any of the activities at any time.

In compliance with guidelines of the Financial Industry Regulatory Authority, or FINRA, the maximum consideration or discount to be received by any FINRA member or independent broker dealer may not exceed 8% of the aggregate amount of the securities offered pursuant to this prospectus and any applicable prospectus supplement.
