OUTSTANDING STOCK AND VOTING RIGHTS

The board of directors has fixed the close of business on December 12, 2002 as the record date for determining the stockholders entitled to notice of, and to vote at, the annual meeting. Only stockholders of record on that date will be entitled to vote. If you submit your proxy on the accompanying form, you have the power to revoke it by notice of revocation directed to the proxy holder at any time before it is voted. Unless you withhold authority in writing, proxies, which are properly executed, will be voted for the proposals. Although you may have given your proxy, you may nevertheless attend the meeting, revoke your proxy and vote in person. The election of the directors nominated requires the affirmative vote of a plurality of the shares of Viragen s common stock voting at the annual meeting in person or by proxy.

As of December 12, 2002, the record date for determining our stockholders entitled to notice of, and to vote at, the annual meeting, 123,314,115 shares of our common stock, \$.01 par value, were outstanding. Each share of common stock outstanding entitles the holder to one vote on all matters brought before the annual meeting. The quorum necessary to conduct business at the annual meeting consists of a majority of the shares of common stock outstanding (61,657,058 shares) as of the record date. Abstentions and broker non-votes are counted for purposes of determining the presence or absence of a quorum at the annual meeting, but have no effect on the election of directors or the ratification of our auditors. Directors are elected by a plurality of votes cast. Approval of the amendment to our Certificate of Incorporation requires the affirmative vote of a majority of our outstanding shares. Ratification of the appointment of our auditors requires the affirmative vote of a majority of the shares of our common stock voting at the annual meeting in person or by proxy.

Table of Contents**DIRECTORS AND EXECUTIVE OFFICERS OF THE REGISTRANT**

On February 28, 1997, we amended our certificate of incorporation and set up a classified board of directors commencing with the 1997 annual meeting. Following that meeting, we divided directors into three subclasses consisting of class A, class B and class C. The initial term of the class A directors expired after the 1998 annual meeting of stockholders and their second term expired after the 2001 annual meeting; the term of the class B directors initially expired after the 1999 annual meeting; and the term of the class C directors initially expired after the 2000 annual meeting.

At each annual meeting of stockholders, directors of the respective class whose term has expired will be elected. The directors chosen to succeed those whose terms have expired will be elected to hold office for a term to expire at the third ensuing annual meeting of stockholders after their election, and until their respective successors are elected and qualified. At the 2002 annual meeting, stockholders will be asked to elect three class B directors, to hold office until their successors are elected at the 2005 annual meeting of stockholders.

EXECUTIVE COMPENSATION AND EMPLOYMENT AGREEMENTS

Compensation Committee Report on Executive Compensation. Under the rules established by the Securities and Exchange Commission, management is required to provide certain data and information in regard to the compensation and benefits provided to the chief executive officer and other executive officers. The disclosure requirements for the chief executive officer and executive officers include the use of tables and a report explaining the rationale and considerations that led to the fundamental compensation decision affecting those individuals.

Compensation Report. The compensation committee of the board of directors is responsible for establishing compensation levels and benefits for the executive officers of the company. The compensation committee is also responsible for reviewing recommendations made by management regarding compensation, including stock options, and benefits for other employees.

Executive Compensation Policy. For the last fiscal year, the goals established by the compensation committee for executive compensation are as follows:

to provide a compensation package which would attract and retain experienced, scientific pharmaceutical and administrative personnel;

to maintain reasonable yet competitive base salaries while conserving the liquid assets of the company;

to provide an environment where innovation, dedication and success are rewarded; and

to provide participation in stock appreciation as part of an incentive based compensation package.

The performance of executive officers is evaluated routinely by the compensation committee as well as by the board of directors as a whole. The compensation committee considers each employee's total compensation package, including base salary, stock options and other benefits as provided in their respective employment agreements.

Chairman of the Board and Chief Executive Officer. On March 1, 1999, Mr. Smith entered into a two-year employment agreement with Viragen. This agreement provided for:

an annual salary of \$282,000,

health and life insurance,

similar employee benefits generally available to other employees,

use of an automobile and related maintenance, and

reimbursement of business related expenses.

On March 1, 2001, Mr. Smith renewed his two year employment agreement with Viragen. Under the new agreement, Mr. Smith is to receive an annual salary of \$325,000. He also received options to purchase 850,000 shares of common stock at \$1.35 per share. The options vest one-half on the date of grant and one-half on the first year anniversary. The options are exercisable over five years from the vest dates. Mr. Smith's employment agreement contains a provision that in the event Viragen were to spin-off or split-off any present or future subsidiaries, he would be entitled to receive a certain number of options in the spun-off company. The number of options he would receive would be based on a formula reflecting his then current option position relative to the fully diluted common stock of Viragen then

Table of Contents

outstanding. The pricing of the new options would be based on the relationship of the exercise price of his existing options with the fair market value of Viragen's stock at the date of the transaction. All other terms are similar to his previous agreements.

In February 2002, 1,000,000 options granted to Mr. Smith in conjunction with his 1997 employment agreement and 50,000 options granted to Mr. Smith in 1997 for serving as Chairman of the Board expired. In March 2002, Viragen granted Mr. Smith options to purchase 1,050,000 shares of common stock at \$1.04 per share. The options vest one-half on the date of grant and one-half on the first year anniversary. The options are exercisable over five years from the vest dates.

Mr. Smith continues to serve as the president and chairman of Viragen International, Inc.

Other Executive Officers. As with the compensation of the chief executive officer, the compensation committee evaluates and establishes the compensation packages for other executive officers of the company. These executives are evaluated routinely based on the effectiveness of their efforts in their respective areas of responsibility as well as their contribution to achieving our overall goals. The compensation committee has structured compensation packages so that the base salaries are conservative by pharmaceutical industry standards. The emphasis is on compensation through the issuance of stock options. As a consequence, the executive officers may maximize their total compensation through the attainment of corporate goals as reflected in appreciated stock values.

1997 Amended Stock Option Plan and 1995 Amended Stock Option Plan

On May 15, 1995 the board of directors adopted, subject to approval by the stockholders, a stock option plan, called the 1995 Stock Option Plan. On September 22, 1995, the board of directors amended the 1995 Stock Option Plan to define certain terms and clarify the minimum exercise price of the non-qualified options. The minimum exercise price of non-qualified options cannot be less than 55% of the fair market value. Viragen stockholders ratified the 1995 Stock Option Plan at the annual meeting held on December 15, 1995.

Edgar Filing: VIRAGEN INC - Form DEF 14A

On January 27, 1997 the board of directors adopted, subject to approval by the stockholders, a stock option plan called the 1997 Stock Option Plan. The 1997 stock option plan contains terms and provisions similar to the 1995 Stock Option Plan. Viragen stockholders ratified the 1997 Stock Option Plan at the annual meeting held on February 28, 1997. On April 24, 1998 the board of directors adopted, subject to ratification by the stockholders, an amendment to the 1997 Stock Option Plan. This amendment reserved an additional 1,000,000 shares of common stock for issuance under that plan. This amendment brought the

Table of Contents

total shares reserved under the 1997 Stock Option Plan to 4,000,000 shares. On July 31, 1998, the stockholders ratified this amendment to the 1997 Stock Option Plan.

The audit and finance committee and the compensation committee of the board of directors and the board of directors currently administer the plans. Administration of the plan includes determining:

- the persons who will be granted plan options,
- the type of plan options to be granted,
- the number of shares subject to each plan options, and
- the exercise price of plan options.

Options granted under either the 1995 or the 1997 stock option plans may qualify as incentive stock options, under Section 422 of the Internal Revenue Code of 1986, as amended. In addition, the plans also include a reload option provision. This provision permits an eligible person to pay the exercise price of the plan option with shares of common stock owned by the eligible person. The person then receives a new plan option to purchase shares of common stock equal in number to the tendered shares. Any incentive option, which is granted under a plan must provide for an exercise price of not less than 100% of the fair market value of the underlying shares, on the date of such grant. The exercise price of any incentive option granted to an eligible employee owning more than 10% of our common stock must be at least 110% of the fair market value, as determined on the date of the grant. The board of directors, the audit and finance committee or the compensation committee determine the term of each plan option and the manner in which it may be exercised. No plan option may be exercisable more than 10 years after the date of its grant. In the case of an incentive option granted to an eligible employee owning more than 10% of Viragen's common stock, no plan option may be exercisable more than five years after the date of the grant.

Officers, directors, key employees and consultants of Viragen and its subsidiaries are eligible to receive non-qualified options under the stock option plans. Only officers, directors and employees who are employed by Viragen or by any of its subsidiaries are eligible to receive incentive options.

Incentive options are non-assignable and nontransferable, except by will or by the laws of descent and distribution during the lifetime of the optionee. Only the optionee may exercise incentive options. Under a recent amendment to the 1997 stock option plan, non-qualified options may be transferable under limited circumstances for estate planning, if authorized by the board of directors or the compensation committee. If an optionee's employment is terminated for any reason, other than his death or disability, or if an optionee is not an employee but is a member of Viragen's board of directors and his service as a director is terminated for any reason, other than death or disability, the plan option granted to him will lapse to the extent unexercised on the earlier of the expiration date or 90 days following the date of termination. If the optionee dies during the term of his employment, the plan option granted to him will lapse to the extent unexercised on the earlier of the expiration date of the plan option or the date one year following the date of the optionee's death. If the optionee is permanently and totally disabled, the plan option granted to him lapses to the extent unexercised on the earlier of the expiration date of the option or one year following the date of the disability.

The board of directors may amend, suspend or terminate the stock option plans at any time. However, no amendment can be made which changes the minimum purchase price, except in the event of adjustments due to changes in Viragen's capitalization. Unless the plans have been suspended or terminated by the board of directors, the 1995 Stock Option Plan will terminate on May 15, 2005, and the 1997 Stock Option Plan will terminate on January 27, 2007. The termination of either plan will not affect the validity of any plan options previously granted.

Table of Contents

As of December 12, 2002, there were approximately 32,000 and 521,800 options available under the 1995 and 1997 stock option plans, respectively.

PROPOSAL TO AMEND VIRAGEN S CERTIFICATE OF INCORPORATION TO INCREASE THE AUTHORIZED CAPITAL STOCK OF THE COMPANY

The board of directors has voted to amend our Certificate of Incorporation to increase the authorized shares of common stock, par value \$.01 per share, from 150,000,000 to 250,000,000 shares. The board of directors determined that such an amendment is advisable and directed that the proposed amendment be considered at the annual meeting of stockholders to be held on January 31, 2003. The amendment will not affect the number of shares of preferred stock authorized.

The board of directors believes that an increase in authorized capital may be desirable for a number of reasons, including but not limited to, facilitating our ability to effect growth through future acquisitions and financings, future stock splits or dividends for other corporate purposes.

If the proposed amendment is approved by the stockholders, the board of directors will be empowered, without the necessity of further action or approval of our stockholders to issue up to 250,000,000 shares of common stock. Notwithstanding the foregoing, guidelines of the American Stock Exchange may require us to submit for approval of our stockholders, any issuance of our common stock in a single transaction or in a series of related transactions, in excess of 20% of our outstanding common stock if such issuance could be made at less than fair market value measured on the date the agreement to issue the stock is made. In addition, Delaware law may require stockholder approval for certain corporate transactions such as a merger or sale of all or substantially all of our assets. Each share of newly authorized common stock will have the same rights and privileges as each share of existing common stock. To the extent issued, newly authorized common stock will decrease the percentage ownership of us by our existing stockholders and, depending upon the price at which such shares are issue, could be dilutive to existing stockholders.

The board of directors has no current plan or commitment to issue any of the additional shares to be authorized by the proposed amendment to increase our authorized common stock.

The affirmative vote of the holders of a majority of the outstanding shares of our common stock is required for approval of the amendment. If the amendment is approved by the stockholders, the amendment will become effective upon the filing with the Secretary of State of the State of Delaware.

The board of directors recommends a vote For and amendment to Viragen s Certificate of Incorporation to increase the number of shares of common stock that Viragen is authorized to issue from 150,000,000 to 250,000,000.
