REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

**To the Participants and
Plan Administrator of the
Granite Construction
Profit Sharing and 401(k) Plan**

We have audited the financial statements of the Granite Construction Profit Sharing and 401(k) Plan (the Plan) as of December 31, 2007 and 2006, and for the year ended December 31, 2007, as listed in the accompanying table of contents. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. We were not engaged to perform an audit of the Plan's internal control over financial reporting. Our audits included consideration over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by the Plan's management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2007 and 2006, and the changes in net assets available for benefits for the year ended December 31, 2007, in conformity with accounting principles generally accepted in the United States of America.

Our audits were performed for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule, as listed in the accompanying table of contents, is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

**Granite Construction
Profit Sharing and 401(k) Plan
Notes to Financial Statements**

1. Description of Plan

The following description of Granite Construction Profit Sharing and 401(k) Plan (the Plan) provides only general information. The Plan document provides a more complete description of the Plan s provisions.

General

The Plan is a defined contribution Plan covering all eligible non-union employees of Granite Construction Incorporated and its participating subsidiaries (the Company). Employees generally become eligible to participate in the Plan as of December 31 of the year of hire if the employee is credited with at least 1,000 hours of work in that year and was an employee on December 31. The Company does not guarantee the benefits provided by the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

The Company has appointed an Administrative Committee (Committee) as the Plan administrator (Administrator). The Committee has exclusive authority and responsibility for all matters in connection with the operation and administration of the Plan (including the authority and responsibility to invest, manage, and control the assets of the Plan specifically allocated to the trustee and investment managers). The Company paid all necessary and proper expenses incurred in the administration of the Plan. Such expenses are primarily comprised of legal fees, auditing fees and expenses relating to the maintenance of the Plan s records.

Contributions

The Company makes profit sharing and 401(k) matching contributions. Profit sharing contributions from the Company may be contributed to the Plan in an amount (or under such formula) as may be determined by the Company s Board of Directors. Profit sharing contributions are payable solely out of the Company s current or accumulated earnings and profits. The profit sharing contribution shall not exceed the maximum amount deductible under the provisions of the Internal Revenue Code. The Company must pay the total profit sharing contribution to the Plan trustee before the date the Company is required to file its federal income tax return (including extensions). No profit sharing contributions were made to the Plan during 2007.

The Company s 401(k) matching contribution is based on a formula, as described in the Plan document. The Company s matching contribution is paid into the Plan at the same time as the employee contributions are paid into the Plan. Company matching contributions were \$10,072,930 for 2007.

All eligible Plan participants could make combined employee contributions to the Plan of up to \$15,500 during 2007. Plan participants who reach age 50 during the Plan year have the option to make an additional (Catch Up) pre-tax salary contribution of up to \$5,000 in 2007. Catch Up contributions are not provided a Company matching contribution.

**Granite Construction
Profit Sharing and 401(k) Plan
Notes to Financial Statements**

The Plan offers an option for deferring dividends from the Granite Construction Employee Stock Ownership Plan (ESOP). The Dividend Equivalent Deferral or 401(k) Switchback option allows participants in the ESOP to elect an additional pre-tax salary deferral to the 401(k) Plan equal to the amount of the ESOP dividend passed through to them.

Employee Stock Ownership Plan Diversification Account

The Plan permits certain participants under the ESOP to have a portion of their ESOP stock account transferred to the Plan. No portion of the participant s ESOP diversification account may be invested in the Granite Construction Inc. Common Stock Fund (Granite Common Stock).

Participant Accounts

Contributions from participants received by the Plan are deposited with the Plan trustee and custodian, Mercer Trust Company (Mercer). Each eligible participant s account is credited with an allocation of (a) the Company s 401(k) match and profit sharing contributions, (b) Plan earnings, (c) profit sharing forfeitures of terminated participant s non-vested accounts and (d) participant contributions. All allocations, except participant contributions and Company s match, are based on participants eligible earnings or account balances, as defined in the Plan document. The participant is entitled to the vested benefit available from the participant s account. At December 31, 2007 and 2006, forfeited non-vested accounts totaled \$358,924 and \$506,778, respectively, and are allocated to eligible participants accounts in the subsequent Plan year.

Benefits and Vesting

The full amount of the participant s profit sharing account becomes vested on his/her normal retirement date or when his/her employment with the Company terminates by reason of death or total disability, or when his/her years of vesting service is completed as defined in the Plan document. For participants that work one or more hours on or after January 1, 2007, the full amount of the profit sharing account becomes vested after three years of service. For participants that do not perform work after December 31 2006, the profit sharing account requires five years of service for full vested status. The full value of the participant s elective contribution and matching account are fully vested at the time of deferral. On termination of service for any reason, including death or disability, participants with less than \$1,000 in their accounts and who have not elected a rollover will receive one lump sum payout of the total value of their account balance as prescribed in the Plan document. If the participant has more than \$1,000 in their account upon termination, funds will not be distributed unless the participant elects to withdraw the funds as prescribed in the Plan document.

Hardship Withdrawals

The Plan provides for withdrawals in the event of financial hardship, as defined in the Plan document.

Plan Investments**

Participants may direct Company and participant contributions into any of the designated investment options approved by the Committee. Included in the designated investment options are various mutual funds, a common/collective trust, money market funds and Granite Common Stock.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements have been prepared on an accrual basis in conformity with accounting principles generally accepted in the United States of America.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investments

Investments are stated at fair value as determined by quoted market prices. The Plan presents, in the statement of changes in net assets available for benefits, the net appreciation (depreciation) in the fair value of its investments which consists of the realized gains or losses and unrealized appreciation (depreciation) on those investments.

Non-interest bearing cash

Non-interest bearing cash is made up of unsettled transactions relating to the Granite Common Stock.

Distributions

Distributions to participants are recorded when paid.

Risks and uncertainties

The Plan provides for various investment options in any combination of mutual funds, the Granite Common Stock and other investment securities, which the Administrator may, from time to time, make available. Investment securities are exposed to various risks, such as interest rate, market fluctuations and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.
