To Our Stockholders:

The year 2002 has been a year for survival for NetSol and many other companies in the technology industry. The entire industry was adversely affected due to unprecedented world events, the economy and the technology sector meltdown. NetSol survived almost every conceivable challenge from the invalid dissident shareholders takeover attempt in summer 2001, to the uncertainty on Wall Street throughout 2002. The Company has emerged to be a survivor, as the management faced numerous obstacles and difficulties but embraced these challenges with courage, dedication and commitment. We would like to thank our shareholders and employees for their support, dedication and loyalty and belief in the management of the Company, particularly in these trying times.

This past year, the Company embarked on a series of restructuring and consolidating initiatives across the board. We had to retrench. As the first step in beginning of 2002, we divested from our UK and German operations. We closed the two European offices and liquidated them. We reduced head counts by over 35% or 150 people worldwide. We streamlined our corporate overheads by reducing the staff and office space, which resulted in over 50% saving or nearly \$50,000 monthly. We improved upon the cost efficiencies and improved the productivity by at least 30% in our development facility overseas. Due to all of these initiatives, our gross margins have improved dramatically to now nearly 50%. We refocused our vision by solidifying our business model and core competencies as software developers for enterprise application software solutions and complex solutions for financial systems.

Our stated aim, market conditions withstanding, was to stabilize the Company and improve loss reduction. We accomplished that goal by September 30, 2002. Our loss from operations was reduced to \$1.1 million in September 2002 from \$1.8 million in same quarter in 2001. Throughout 2002, the management worked very hard to drive new revenues in North America and Asia Pacific region. While we obtained very positive results by signing new customers in Australia, Japan, Pakistan, Thailand, etc., our results in the US market were less than impressive. In the past, the Company had allocated resources in the US market for business development with little results. The Company had allocated the same amounts to other markets with significantly better results. Therefore, it was determined that our marketing efforts in North America should be curtailed and marketing efforts in the overseas other markets were increased.

In 2002, against major slowdown in IT spending by our target customers we continued to add new blue chip customers such as Yamaha Motors Australia, Citibank Pakistan, Mercedes Benz Finance Japan, United Nations Development Project (UNDP) Askari Bank, SAF Games and many other local names in Pakistan. NetSol continues to focus on customer relations by offering best practices in the full life cycle of software application development, whilst maintaining our competitive edge through high quality and lower end costs to customers. While we pursued new business and confronted many new

challenges, our teams in the development facility never lost the focus in quality assurance and improving quality standards. NetSol Pakistan became the first software company to be assessed CMM level 2 (Capability Maturity Model-A Carnegie Mellon instituted quality standard). Our teams have been working diligently to achieve CMM level 4 by summer 2003.

NetSol management is very thankful to our product development team for bringing to the market a complete suite of ABF (Asset Based Leasing & Finance) enterprise solution called LeaseSoft. LeaseSoft is an integrated end-to-end solution for the lease & finance industry, a \$500 billion industry worldwide offering a tremendous opportunity for LeaseSoft to capture a market share over a short period of time. The Application software business within the ABF business alone is a billion dollar business.

Due to several systems successfully implemented in Daimler Chrysler group in the Asia Pacific region, we are noticing a jump in demand for our products worldwide. The Company also launched its banking software in early 2002 by selling custom made applications to Citibank Pakistan and other companies within the Citigroup. NetSol has clearly positioned itself as a strong products based company with over 60% of revenues contribution, while 40% come from services. Management is very positive in its outlook towards new product and services sales in 2003 and beyond.

In 2002, most companies found it difficult to raise capital. NetSol's approach to raising capital was by encouraging insiders to exercise their stock options rather than waiting for the possibility of raising new capital in the public markets. Our employees and senior management demonstrated their dedication to the Company by exercising stock options worth over \$500,000, which is a combination of accrued compensation, loans and cash injected. Mostly, these were underwater options. We also raised approximately \$150,000 from existing shareholders by way of private placement. We are exploring the possibility of raising new equity-based capital from the emerging markets, without diluting shares of the parent company. We believe that we will be able to close these deals as early as the fourth quarter 2003, so we could adequately fund the Company for its expected growth. The Company is focused to grow organically by selling new licenses and services as well as by enhancing its product line. Our research and development group is actively exploring new products and ideas within our core business in the financial sector. However, we are also pursuing new alliances and relationships to further strengthen our business model and revenue stream.

Our stock price has been pretty much flat as we lacked both investor relations (IR) and public relations (PR) resources while the Company's management was focused on rebuilding the Company from the setbacks it underwent in 2001 and 2002. Throughout most of 2002, the markets were not responding. Recently, we initiated new IR activities. The stock seems to have a momentum lifting the stock price from low of \$0.05 (October 11, 2002) to a high of \$0.26 (November 19, 2002). We believe as we close some major new deals, our stock will respond more favorably and attract much wider investment audience. Nevertheless, we believe at this stage NetSol stock is grossly undervalued. Our strong product portfolio and demand, our growing blue chip customers base, our

Edgar Filing: NETSOL TECHNOLOGIES INC - Form DEF 14A

improving high quality standards, our low share price and our ability to adequately fund the Company from emerging markets makes NetSol a compelling long-term investment opportunity.

Shareholders with a long-term perspective, including the key founders, have always been able to feel good about NetSol's integrity. Our reputation starts with a strong, experienced Board of Directors and carries through to each and every employee, all of who are required to follow NetSol's standards of business conducts. Our legacy of protecting shareholder assets will not be compromised, no matter what the economic situation. Our business has been positioned to only take off from this point. Our courage and abilities have been tested many times in the past and we have come through each time.

We encourage you to vote your proxies or attend the shareholders meeting on February 7, 2003. Together, we will continue to build a Company that will increase in its value and be recognized as a leading software developer worldwide.

Sincerely,

(Proposal No. Two)

RATIFICATION OF APPOINTMENT OF INDEPENDENT AUDITORS FOR FISCAL 2002-2003

The Board of Directors has appointed Kabani & Company, Inc. Inc. (Kabani) as independent auditors of the Company with respect to its operations for fiscal year 2002-2003, and has further directed that management submit such appointment for ratification by the holders of the Common Stock at the annual meeting of Stockholders. In taking this action, the members of the Board considered carefully Kabani's reputation in providing accounting services to other public and private companies in the software and retail industries, its independence with respect to the services to be performed, its general reputation for adherence to professional auditing standards and the performance of Kabani during the audit of the Company's consolidated financial statements for fiscal 2002.

Stockholder ratification of the selection of Kabani as the Company's independent auditors is not required by the Company's Bylaws or otherwise. The Board, however, is submitting the selection of Kabani to the stockholders for ratification as a matter of good corporate practice. Therefore, there will be present at the Annual Meeting a proposal for the ratification of this appointment, which the Board of Directors believes is advisable and in the best interests of the stockholders. If the appointment of Kabani is not ratified, the Board of Directors will consider the matter of the appointment of independent public accountants.

The affirmative vote of holders of a majority of the aggregate voting power of Common Stock issued, outstanding and entitled to vote, present or represented at the Annual Meeting, a quorum being present, is required for the adoption of this proposal. Broker nonvotes with respect to this matter will be treated as neither a vote for nor a vote against the matter, although they will be counted in determining if a quorum is present. However, abstentions will be considered in determining the number of votes required to attain a majority of the shares present or represented at the Annual Meeting and entitled to vote. Accordingly, an abstention from voting by a stockholder present in person or by proxy at the meeting has the same legal effect as a vote against the matter because it represents a share present or represented at the Annual Meeting and entitled to vote, thereby increasing the number of affirmative votes required to approve this proposal.

THE BOARD RECOMMENDS A VOTE FOR THE RATIFICATION OF THE APPOINTMENT OF KABANI & COMPANY, INC. AS THE COMPANY'S INDEPENDENT AUDITORS FOR FISCAL 2003.

(Proposal No. Three)

PROPOSED ADOPTION OF THE 2002 STOCK OPTION AND AWARD PLAN

At the Annual Meeting there will be submitted to stockholders a proposal to adopt the 2002 Stock Option and Award Plan (the 2002 Plan). The Board of Directors unanimously approved the adoption of the 2002 Plan on December 5, 2002. Adoption of the 2002 Plan is subject to the approval of a majority of the shares of the Company's common stock, which are present in person or by proxy and entitled to vote at the Annual Meeting. The following summary of the principal features of the amendments to the Plan is qualified in its entirety by the full text of the Plan, a copy of which is attached hereto as Exhibit A.

Purpose

The 2002 Plan is intended to increase incentive and to encourage stock ownership on the part of (1) employees of the Company and its affiliates, (2) consultants who provide significant services to the Company and its affiliates (consultants), and (3) directors of the Company who are employees of neither the Company nor any affiliate (nonemployee directors). The 2002 Plan also is intended to further the growth and profitability of the Company.

General

The 2002 Plan permits the granting of stock options, stock appreciation rights, restricted stock awards, performance units and performance shares (collectively, Awards) to eligible participants. The total number of shares of the Company's common stock available for Awards to be granted under the 2002 Plan will consist of the 10,000,000 shares. If an Award expires or is canceled

without having been fully exercised or vested, the unvested or canceled shares generally will be available again for grants of Awards.

Administration of the 2002 Plan

The 2002 Plan is administered by the Compensation Committee of the Company's Board of Directors (the Committee) along with the management. Subject to the terms of the 2002 Plan, the Committee has the discretion to determine the key employees and consultants who shall be granted Awards, the terms and conditions of such Awards, and to construe and interpret the 2002 Plan. The Committee also is responsible for making adjustments in Awards, the shares available for Awards, and the numerical limitations for Awards (including as to nonemployee directors) to reflect any transactions such as stock splits or stock dividends. The Committee may delegate its authority to a separate committee appointed by the Committee, but only the Committee can make Awards to participants who are executive officers of the Company. The Board of Directors may amend or terminate the 2002 Plan at any time and for any reason, but as required under Rule 16b-3, certain material amendments to the 2002 Plan must be approved by stockholders.

Eligibility to Receive Awards

Employees and consultants of the Company and its affiliates (i.e., any corporation or other entity controlling, controlled by, or under common control with the Company) are eligible to be selected to receive one or more Awards. The Company and its affiliates currently have approximately 245 employees. The actual number of employees and consultants who will receive Awards under the 2002 Plan cannot be determined because eligibility for participation in the Plan is in the discretion of the Committee. The 2002 Plan also permits nonemployee directors to elect to receive all or part of their annual retainer in shares of the Company's common stock, and provides for the automatic grant of stock options to nonemployee directors. Nonemployee directors are not eligible for any of the other Awards available under the 2002 Plan.

Options

The Committee may grant nonqualified stock options and/or incentive stock options (which are entitled to favorable tax treatment). The number of shares covered by each option will be determined by the Committee. The price of the shares of the Company's common stock subject to each option is set by the Committee. In addition, the exercise price of an incentive stock option must be at least 100% of fair market value on the grant date (110% of fair market value if the participant owns stock possessing more than 10% of the total combined voting power of all classes of stock of the Company or any of its subsidiaries).

The exercise price of each option must be paid in full at the time of exercise. The Committee also may permit payment through the tender of shares of the Company's common stock already owned by the participant, or by any other means, which the Committee determines to be consistent with the Plan's purpose. Any taxes required to be withheld must be paid by the participant at the time of exercise. If the exercise price of an option is paid in shares, the Committee may provide that the participant will receive a new option covering a number of shares equal to the number of shares tendered to exercise the previously granted option (including shares used for tax withholding). The terms and conditions of the new option generally will be similar to the terms and conditions applicable to the exercised option, except that the new option will have an exercise price determined on the date of its grant.

Options become exercisable and terminate at the times and on the terms established by the Committee, but options generally may not expire later than 10 years after the date of grant.

Restricted Stock Awards

Restricted stock awards are shares of the Company's common stock, which vest in accordance with terms established by the Committee in its discretion. For example, the Committee may provide that restricted stock will vest only if one or more performance goals are satisfied and/or only if the participant remains employed with the Company for a specified period of time. Any performance measures may be applied on a Company-wide or an individual business unit basis, as deemed appropriate in light of the participant's specific responsibilities.

Nonemployee Director Options and Stock

All options granted to nonemployee directors normally will expire ten years after the date of grant. If a director terminates service on the Board prior to an option's normal expiration date, an option may terminate sooner than its normal expiration date, depending upon the reason for the termination. An option will terminate thirty days after termination of service for any reason other than death, disability or retirement (but not later than the original maximum term of the option).

Nontransferability of Options

Awards granted under the 2002 Plan may not be sold, transferred, pledged, assigned, or otherwise alienated or hypothecated, other than by will or by the applicable laws of descent and distribution.

Required Vote

The adoption of the 2002 Plan requires the affirmative vote of a majority of the shares represented and voting, in person or by proxy, at the Annual Meeting.

THE BOARD OF DIRECTORS RECOMMENDS THAT THE STOCKHOLDERS VOTE FOR THE ADOPTION OF THE 2002 STOCK OPTION AND AWARD PLAN.

DEADLINE FOR SUBMISSION OF STOCKHOLDER PROPOSALS FOR 2003

The Rules of the Securities and Exchange Commission permit stockholders of the Company, after notice to the Company, to present proposals for stockholder action in the Company's proxy statement where such proposals are consistent with applicable law, pertain to matters appropriate for stockholder action and are not properly omitted by Company action in accordance with the proxy rules published by the Securities and Exchange Commission. The Company's 2003 annual meeting of stockholders is expected to be held on or about January 15, 2004 and proxy materials in connection with that meeting are expected to be mailed on or about December 1, 2003. The Company on or before June 18, 2003 must receive stockholder proposals prepared in accordance with the proxy 11 rules.

FILINGS UNDER SECTION 16(A)

Section 16(a) of the Exchange Act requires the Company's directors and officers, and persons holding ten percent or more of a registered class of the Company's equity securities, to file reports regarding their ownership and regarding their acquisitions and dispositions of the Company's equity securities with the Securities and Exchange Commission. Officers, directors and greater than ten-percent beneficial owners are required by applicable regulations to furnish the Company with copies of any Section 16(a) forms they file.

Based solely upon a review of the copies of the forms furnished to the Company and written representations of the Company's directors and executive officers, the Company believes that the filings required and applicable to its officers, directors and ten-percent beneficial owners were complied with during fiscal 2002.

Voting Procedures

Tabulation of the Votes: The votes cast by proxy will be tabulated by American Stock Transfer & Trust Company.

Effect of an Abstention and Broker Non-Votes: A shareholder who abstains from voting on any of or all of the proposals will be included in the number of shareholders present at the meeting for the purpose of determining the presence of a quorum. Abstentions and broker non-votes will not be counted either in favor of or against the election of the nominees or other proposals. Under the rules of the National Association of Securities Dealers, brokers holding stock for the accounts of their clients who have not been given specific voting instructions as to a matter by their clients may vote their client's proxies in their own discretion.

Auditors

2002 INCENTIVE AND NONSTATUTORY STOCK OPTION PLAN

1. Purpose

This Incentive and Nonstatutory Stock Option Plan (the *Plan*) is intended to further the growth and financial success of NETSOL TECHNOLOGIES, INC., a Nevada corporation (the *Corporation*) by providing additional incentives to selected employees and consultants to the Corporation or parent corporation or subsidiary corporation of the Corporation as those terms are defined in Sections 424(e) and 424(f) of the Internal Revenue Code of 1986, as amended (the *Code*) (such parent corporations and subsidiary corporations hereinafter collectively referred to as *Affiliates*) so that such employees and consultants may acquire or increase their proprietary interest in the Corporation. Stock options granted under the Plan (hereinafter *Options*) may be either *Incentive Stock Options*, as defined in Section 422A of the Code and any regulations promulgated under said Section, or *Nonstatutory Options* at the discretion of the Board of Directors of the Corporation (the *Board*) and as reflected in the respective written stock option agreements granted pursuant hereto.

2. Administration

The Plan shall be administered by the Board of Directors of the Corporation; provided however, that the Board may delegate such administration to a committee of not fewer than three (3) members (the *Committee*), at least two (2) of whom are members of the Board and all of whom are disinterested administrators, as contemplated by Rule 16b-3 promulgated under the Securities Exchange Act of 1934, as amended (*Rule 16b-3*); and provided further, that the foregoing requirement for disinterested administrators shall not apply prior to the date of the first registration of any of the securities of the Corporation under the Securities Act of 1933, as amended.

Subject to the provisions of the Plan, the Board and/or the Committee shall have authority to (a) grant, in its discretion, *Incentive Stock Options* in accordance with Section 422A of the Code or *Nonstatutory Options*; (b) determine in good faith the fair market value of the stock covered by an *Option*; (c) determine which eligible persons shall be granted *Options* and the number of shares to be covered thereby and the term thereof; (d) construe and interpret the Plan; (e) promulgate, amend and rescind rules and regulations relating to its administration, and correct defects, omissions, and inconsistencies in the Plan or any *Option*; (f) consistent with the Plan and with the consent of the optionee, as appropriate, amend any outstanding *Option* or amend the exercise date or dates thereof; (g) determine the duration and purpose of leaves of absence which may be granted to optionholders without constituting termination of their employment for the purpose of the Plan; and (h) make all other determinations necessary or advisable for the Plan's administration. The interpretation and construction by the Board of any provisions of the Plan or of any *Option* it shall be conclusive and final. No

member of the Board or the Committee shall be liable for any action or determination made in good faith with respect to the Plan or any Option.

3. Eligibility

The persons who shall be eligible to receive Options shall be key employees of or consultants to the Corporation or any of its Affiliates (Optionees). The term consultant shall mean any person who is engaged by the Corporation to render services and is compensated for such services, and any director of the Corporation whether or not compensated for such services; provided that, if the Corporation registers any of its securities pursuant to the Securities Act of 1933, as amended (the Act), the term consultant shall thereafter not include directors who are not compensated for their services or are paid only a director fee by the Corporation.

(a) Incentive Stock Options. Incentive Stock Options may only be issued to employees of the Corporation or its Affiliates. Incentive Stock Options may be granted to officers, whether or not they are directors, but a director shall not be granted an Incentive Stock Option unless such director is also an employee of the Corporation. Payment of a director fee shall not be sufficient to constitute employment by the Corporation. Any grant of option to an officer or director of the Corporation subsequent to the first registration of any of the securities of the Corporation under the Act shall comply with the requirements of Rule 16b-3. An optionee may hold more than one Option.

The Corporation shall not grant an Incentive Stock Option under the Plan to any employee if such grant would result in such employee holding the right to exercise for the first time in any one calendar year, under all options granted to such employee under the Plan or any other stock option plan maintained by the Corporation or any Affiliate, with respect to shares of stock having an aggregate fair market value, determined as of the date of the Option is granted, in excess of one hundred thousand dollars (\$100,000). Should it be determined that an Incentive Stock Option granted under the Plan exceeds such maximum for any reason other than a failure in good faith to value the stock subject to such option, the excess portion of such option shall be considered a Nonstatutory Option. If, for any reason, an entire option does not qualify as an Incentive Stock Option by reason of exceeding such maximum, such option shall be considered a Nonstatutory Option.

(b) Nonstatutory Option. The provisions of the foregoing Section 3(a) shall not apply to any option designated as a Nonstatutory Stock Option Agreement or which sets forth the intention of the parties that the option be a Nonstatutory Option.

4. Stock

The stock subject to Options shall be the shares of the Corporation s authorized but unissued or reacquired Common Stock (the Stock).

(a) Number of Shares. Subject to adjustment as provided in Paragraph 5(h) of this Plan, the total number of shares of Stock which may be purchased through exercise of Options granted under this Plan shall not exceed Ten Million (10,000,000) shares. If any Option shall for any reason terminate or expire, any shares allocated thereto but remaining unpurchased upon such expiration or termination shall again be available for the grant of Options with respect thereto under this Plan as though no Option had been granted with respect to such shares.

(b) Reservation of Shares. The Corporation shall reserve and keep available at all times during the term of the Plan such number of shares as shall be sufficient to satisfy the requirements of the Plan. If, after reasonable efforts, which efforts shall not include the registration of the Plan or Options under the Act, the Corporation is unable to obtain authority from any applicable regulatory body, which authorization is deemed necessary by legal counsel for the Corporation for the lawful issuance of shares hereunder, the Corporation shall be relieved of any liability with respect to its failure to issue and sell the shares for which such requisite authority was so deemed necessary unless and until such authority is obtained.

5. Terms and Conditions of Options

Options granted hereunder shall be evidenced by agreements between the Corporation and the respective Optionees, in such form and substance as the Board or Committee shall from time to time approve. Such agreements need not be identical, and in each case may include such provisions as the Board or Committee may determine, but all such agreements shall be subject to and limited by the following terms and conditions:

(ii) Incentive Stock Options granted to a person who at the time the Option is granted is not a Ten Percent Holder shall have an Option price of no less than one hundred percent (100%) of the fair market value of the common stock as of the date of grant.

(iii) Nonstatutory Options granted to a person who at the time the Option is granted is not a Ten Percent Holder shall have an Option Price determined by the Board as of the date of grant.

For the purposes of this paragraph 5(b), the fair market value shall be as determined by the Board, in good faith, which determination shall be conclusive and binding; provided however, that if there is a public market for such stock, the fair market value per share shall be the average of the bid and asked prices (or the closing price if such stock is listed on the NASDAQ National Market System) on the date of grant of the Option, or if listed on a stock exchange, the closing price on such exchange on such date of grant.

(c) Medium and Time of Payment: To the extent permissible by applicable law, the Option price shall be paid, at the discretion of the Board, at either the time of grant or the time of exercise of the Option (i) in cash or by check, (ii) by delivery of other common stock of the Corporation, provided such tendered stock was not acquired directly or indirectly from the Corporation, or, if acquired from the Corporation, has been held by the Optionee for more than six (6) months, (iii) by the Optionee's promissory note in a form satisfactory to the Corporation and bearing interest at a rate determined by the Board, in its sole discretion, but in no event less than 6% per annum, or (iv) such other form
