That certain accommodation agreement (the Accommodation Agreement) pursuant to which the lenders under Delphi Corporation s (Delphi or the Company) existing debtor-in-possession financing agreement (the Amended and Restated DIP Credit Facility), have agreed, among other things, to allow Delphi to continue using the proceeds of the Amended and Restated DIP Credit Facility and to forbear from the exercise of certain default-related remedies, in each case until June 30, 2009 subject to the continued satisfaction by Delphi of a number of covenants and conditions, provides that if Delphi does not deliver a term sheet setting forth the terms of a global resolution of matters relating to General Motors Corporation s (GM) contributions to the resolution of Delphi s chapter 11 cases, including without limitation, all material transactions between Delphi and GM relevant to such resolution, which has been agreed to by GM and the United States Treasury (the Term Sheet), on or prior to May 21, 2009, Delphi will be required to apply the \$47 million currently held as cash collateral to pay down a portion of the first priority revolving credit facility (the Tranche A Facility) and the first priority term loan (the Tranche B Term Loan) extended under the Amended and Restated DIP Credit Facility (the Repayment Obligation) under the Amended and Restated DIP Credit Facility on May 22, 2009. Because Delphi, GM and the United States Treasury have not delivered the Term Sheet as of May 29, 2009, a Repayment Obligation was triggered on May 22, 2009. There currently remains approximately \$230 million outstanding under the Tranche A Facility, \$311 million outstanding under the Tranche B Term Loan and \$2.75 billion outstanding under the second priority term loan (the Tranche C Term Loan) under the Amended and Restated DIP Credit Facility. The failure to deliver the Term Sheet on or prior to May 21, 2009 and to satisfy the Repayment Obligation on May 22, 2009 were events of default under the Accommodation Agreement. Failure to cure an event of default resulting from the failure to satisfy the Repayment Obligation prior to expiration of the applicable five-business day grace period (or prior to a notice by the requisite lenders terminating the accommodation period during such grace period), which expires June 1, 2009 will result in a termination of the accommodation period under the Accommodation Agreement on June 2, 2009.

Delphi, GM and the United States Treasury, together with other parties with a continuing economic interest in Delphi s chapter 11 cases are actively and constructively negotiating a consensual resolution of Delphi s chapter 11 cases. Delphi is seeking to reach agreement on such a resolution prior to the expiration of the grace period on June 1, 2009 or to be able to obtain an extension and waiver from its lenders under the Accommodation Agreement. Delphi is also discussing additional liquidity support with its stakeholders to allow implementation of a resolution of Delphi s chapter 11 cases, including an extension of the accommodation period in the Accommodation Agreement. However, notwithstanding the fact that on several occasions since the scheduled maturity of the Amended and Restated DIP Credit Agreement Delphi has been able to negotiate similar extensions thereby maintaining access to liquidity, such discussions are ongoing and we can provide no assurances this will be the case.

Additional factors that could affect future results are identified in the Company's Annual Report on Form 10-K for the year ended December 31, 2008 filed with the United States Securities and Exchange Commission, including the risk factors in Part I. Item 1A. Risk Factors, contained therein and in Part II. Item 1A. Risk Factors in the Quarterly Report on Form 10-Q for the quarter ended March 31, 2009. Delphi disclaims any intention or obligation to update or revise any forward-looking statements, whether as a result of new information, future events and/or otherwise. Similarly, these and other factors, including the terms of any reorganization plan ultimately confirmed, can affect the value of the Company's various prepetition liabilities, common stock and/or other equity securities. It is possible that Delphi's common stock may have no value and claims relating to prepetition liabilities may receive no value.
