ING Clarion Global Real Estate Income Fund

Letter to Shareholders

Dear Shareholder:

The ING Clarion Global Real Estate Income Fund (Fund) generated strongly positive performance for the six months ended June 30, 2006 with growth in the Net Asset Value (NAV) of +16.95%. The market return (share price appreciation plus dividends received) was 13.96%¹ for the same period, slightly less because the discount to NAV at which the Fund trades widened slightly to 8.1% versus the discount at December 31, 2005. The closing price of the Fund on June 30th was \$17.87 per share versus an NAV per share of \$19.44. The Fund s performance outperformed on both an NAV and market price basis the S&P/ Citigroup World Property Index (S&PWPI) and the Morgan Stanley REIT Preferred Index (MSRPI), which rose 12.43% and 2.40% respectively. A blended benchmark of 80% S&PWPI and 20% MSRPI rose 10.41% in the first six months of 2006. The Fund paid total dividends of \$0.69 per share during the first six months of the year consisting of six regular monthly dividends of \$0.115 per share. The annualized dividend of \$1.38 per share equates to an 7.7% yield on share price and an 7.1% yield on NAV.

Total preferred stock and debt of the fund was \$901 million (or 31% of the fund s total assets), which is comfortably below the 35% leverage discussed in the Fund s offering documents. We chose to lock in attractive longer-term rates on \$400M by executing two interest rate swaps in May 2004. As of June 30th, the swaps had an average rate of 4.0% thus assuring an attractive low interest cost for the approximately 2-year remaining term on the swaps.

At June 30th, the Fund s investments remained well-diversified by property type and geography with an investment bias towards those countries and companies which generate income via above average dividend yields. The Fund at June 30th was 44% in U.S. common stock, 13% in Continental Europe, 10% in Australia, 9% in Canada, 7% in the U.K., 5% in Asia and 12% in preferred stock of real estate companies (presently all U.S.). Though allowed to invest up to 30% in preferred stock of real estate companies, we chose to have significantly less exposure during the period which contributed to the Fund s good absolute and relative performance as common stocks outperformed preferred stocks for the first part of the year.

The best performing regions for the six months per the S&P/ Citigroup World Property Index, were Europe (+20.8%) followed by North America (+10.3%) and the Asia-Pacific region (5.3%). All three major countries in the Asia Pacific region underperformed: Japan (2.4%), Australia (3.9%), and Hong Kong (9.1%). The Japanese property stocks underperformed despite improving economic and property fundamentals: 1) projected 2006 real GDP was revised up from 1.8% to 2.4% in April during the Bank of Japan s semi-annual review, 2) the jobless rate is the lowest in seven years at 4.1%, 3) vacancy rates in the five central wards have decreased to nearly 3.0%, and 4) average office rents continue to steadily rise. The Hong Kong property market reacted negatively to the prospect of continued rising interest rates as well as the attempt by the Chinese government to cool the housing market. China s State Council announced a six-point plan which it is gradually articulating, including an increase in down payments on housing from 20% to 30% as well as the imposition of capital gains taxes on second homes or primary homes held less than five years.

The Fund s performance was helped by its allocations to Continental Europe (+21.8%), the United Kingdom (+19.5%), and the U.S. (+10.5%). The most notable story of the first half was the strong performance of the U.K. property stocks which responded well to positive announcements about the Treasury s proposals for REIT-enabling legislation to be enacted later this year. Strong security selection across all regions and within the allocation to preferred stocks helped drive the Fund s outperformance for the period, especially in Asia-Pacific and North America.

Turnover in the Fund was low for the first six months as we feel the Fund is well positioned for the current environment. Trading was largely focused on redeploying the funds received from positions in three portfolio companies whose takeovers were consummated earlier this year: Amlı Residential, Arden Realty, and Prentiss Properties. The Fund continues to benefit from M&A activity in the property sector as takeovers were announced in June and July for two other holdings in the Fund (Trizec Properties and Heritage Property Investment Trust), which have also positively impacted the NAV of the Fund. The announced privatizations continue a trend of marginal shrinkage in the supply of U.S. REIT stock. For the first half of 2006, there have been six M&A transactions announced

Semi-Annual Report June 30, 2006 1

Table of Contents

ING Clarion Global Real Estate Income Fund **Letter to Shareholders** continued

(\$26.4 billion in value), including five privatizations with a gross value of \$21.4 billion. Meanwhile, there have been no new Initial Public Offerings (IPOs) in 2006 and only \$4.5 billion in follow-on equity offerings year to date. Though the overall size of the U.S. REIT market (measured by market capitalization) is growing, the value of stock taken from the market via privatizations is over \$30 billion more than the value of new stock issued during the last three years. The acquisitions serve to underpin the continued attractiveness of publicly traded property stocks in an investment environment characterized by growing interest in real estate. To many investors, real estate remains attractive versus other asset classes by virtue of its solid income return and good earnings growth potential.

Global property companies should continue to deliver positive performance for many reasons including strong funds flow, continued attractive relative dividend yields, and improving real estate market fundamentals driving accelerating earnings growth. The proliferation of REIT-type structures around the world has been a definite catalyst for the continued creation of new property companies around the world. The number of IPOs for real estate companies has increased in both Europe and Asia. The number of REITs is growing in Japan, Singapore, and Hong Kong. As the United Kingdom and German governments continue the legislative process for introducing REITs later this year or next, we have seen new property company listings in much of Europe. The advent of the REIT structure in both the U.K. and Germany should help expand representation of Europe in the publicly traded property company universe. Europe is currently underrepresented in the global universe, largely as the result of much of German property being owned by the open-end funds and institutions rather than public property companies. With one-third of Europe's GDP and a public property company potential universe size exceeding U.S. \$100 billion, Germany represents a significant potential opportunity. The fund is well positioned to take advantage of the increasing globalization of real estate.

We appreciate your continued faith and confidence.

Sincerely,

T. Ritson Ferguson
President and
Chief Executive Officer

Steven D. Burton
Co-Portfolio Manager

Index Definitions:

The S&P/ Citigroup World Property Index is unmanaged market-weighted total return index which consists of over 350 real estate companies from 18 developed markets with a free float total market capitalization of at least U.S. \$100 million that derive more than 60% of their revenue from real estate development, management, rental and/or direct investment in physical property.

The Morgan Stanley REIT Preferred Index is a preferred stock market capitalization weighted index of all exchange traded preferred securities of equity REITS.

1 Market value total investment return does not take into effect open market purchases under the dividend reinvestment plan as required by generally accepted accounting principles. Such market value total investment return calculated in accordance with generally accepted accounting principles is disclosed in the financial highlights table of the semi-annual report.

10 Semi-Annual Report June 30, 2006

Table of Contents

ING Clarion Global Real Estate Income Fund

Notes to Financial Statements June 30, 2006 (unaudited)

1. Fund Organization

ING Clarion Global Real Estate Income Fund (the Trust) is a non-diversified, closed-end management investment company that was organized as a Delaware statutory trust on November 6, 2003 under the Investment Company Act of 1940, as amended. ING Clarion Real Estate Securities, L.P. (the Advisor) is the Trust's investment advisor. The Trust commenced operations on February 18, 2004.

2. Significant Accounting Policies

The following accounting policies are in accordance with U.S. generally accepted accounting principles and are consistently followed by the Trust.

Securities Valuation The net asset value of the common shares of the Trust will be computed based upon the value of the Trust's portfolio securities and other assets. The Trust calculates net asset value per common share by subtracting the Trust's liabilities (including accrued expenses, dividends payable and any borrowings of the Trust) and the liquidation value of any outstanding preferred shares from the Trust's total assets (the value of the securities the Trust holds, plus cash or other assets, including interest accrued but not yet received) and dividing the result by the total number of common shares of the Trust outstanding. Net asset value per common share will be determined as of the close of the regular trading session (usually 4:00 p.m., EST) on the New York Stock Exchange (NYSE) on each business day on which the NYSE is open for trading.

For purposes of determining the net asset value of the Trust, readily marketable portfolio assets traded principally on an exchange, or on a similar regulated market reporting contemporaneous transaction prices, are valued, except as indicated below, at the last sale price for such assets on such principal markets on the business day on which such value is being determined. If there has been no sale on such day, the securities are valued at the mean of the closing bid and asked prices on such day. If no bid or asked prices are quoted on such day, then the security is valued by such method as the Trust's board of trustees (the Board) shall determine in good faith to reflect its fair market value. Readily marketable assets not traded on such a market are valued at the current bid prices provided by dealers or other sources approved by the Board, including pricing services when such prices are believed by the Board to reflect the fair market value of such assets. The prices provided by a pricing service take into account institutional size trading in similar groups of assets and any developments related to specific assets. Foreign securities are valued based upon quotations from the primary market in which they are traded and are translated from the local currency into U.S. dollars using current exchange rates. In addition, if quotations are not readily available, or if the values have been materially affected by events occurring after the closing of a foreign market, assets may be valued by another method that the Board of Trustees believes accurately reflects fair value. Other assets are valued at fair value by or pursuant to guidelines approved by the Board.

Short-term securities which mature in more than 60 days are valued at current market quotations. Short-term securities, which mature in 60 days or less are valued at, amortized cost, which approximates market value.

Foreign Currency Translation The books and records of the Trust are maintained in U.S. dollars. Foreign currency amounts are translated into U.S. dollars on the following basis:

- (i) market value of investment securities, other assets and liabilities at the current rates of exchange;
- (ii)

purchases and sales of investment securities, income and expenses at the rate of exchange prevailing on the respective dates of such transactions.

Although the net assets of the Trust are presented at the foreign exchange rates and market values at the close of each fiscal period, the Trust does not isolate that portion of the results of operations arising as a result of changes in the foreign exchange rates from the fluctuations arising from changes in the market prices of long-term securities held at the end of the fiscal period. Similarly, the Trust does not isolate the effect of changes in foreign exchange rates from the fluctuations arising from changes in the market prices of portfolio securities sold during the fiscal period. Accordingly, realized foreign currency gains or losses will be included in the reported net realized gains or losses on investment transactions.

Net realized gains or losses on foreign currency transactions represent net foreign exchange gains or losses from the holding of foreign currencies, currency gains or losses realized between the trade date and settlement date on securities transactions, and the difference between the amounts of dividends, interest and foreign withholding taxes recorded on the Trust's books and the U.S. dollar equivalent amounts actually received or paid. Net unrealized currency gains or losses from valuing foreign currency denominated assets or liabilities (other than investments) at period end exchange rates are reflected as a component of net unrealized appreciation or depreciation on investments and foreign currencies.

Foreign security and currency transactions may involve certain considerations and risks not typically associated with those of domestic origin as a result of, among other factors, the possibility of political or economic instability, or the level of governmental supervision and regulation of foreign securities markets.

Forward Exchange Currency Contracts The Trust may enter into forward exchange currency contracts in order to hedge its exposure to changes in foreign currency exchange rates on its foreign portfolio holdings, to hedge certain firm purchase and sales commitments denominated in foreign currencies and for investment purposes. A forward exchange currency contract is a commitment to purchase or sell a foreign currency on a future date at a negotiated forward rate. The gain or loss arising from the difference between the original contracts and the closing of such contracts would be included in net realized gain or loss on foreign currency transactions.

Table of ContentsING Clarion Global Real Estate Income Fund **Notes to Financial Statements** (unaudited) continued

Fluctuations in the value of open forward exchange currency contracts are recorded for financial reporting purposes as unrealized appreciation and depreciation by the Trust.

The Trust's custodian will place and maintain cash not available for investment or other liquid assets in a separate account of the Trust having a value at least equal to the aggregate amount of the Trust's commitments under forward exchange currency contracts entered into with respect to position hedges.

Risks may arise from the potential inability of a counterparty to meet the terms of a contract and from unanticipated movements in the value of a foreign currency relative to the U.S. dollar. The face or contract amount, in U.S. dollars, reflects the total exposure the Trust has in that particular currency contract. As of June 30, 2006, the Trust did not hold any forward exchange currency contracts.

Securities Transactions and Investment Income Securities transactions are recorded on a trade date basis. Realized gains and losses from securities transactions are recorded on the basis of identified cost. Dividend income is recorded on the ex-dividend date. Distributions received from investments in REITs are recorded as dividend income on ex-dividend date, subject to reclassification upon notice of the character of such distributions by the issuer. The portion of dividend attributable to the return of capital is recorded against the cost basis of the security. Withholding taxes on foreign dividends are recorded net of reclaimable amounts, at the time the related income is earned. Non-cash dividends included in dividend income, if any, are recorded at the fair market value of the securities received. Interest income, including accretion of original issue discount, where applicable, and accretion of discount on short-term investments, is recorded on the accrual basis. Realized gains and losses from securities transactions are recorded on the basis of identified cost.

Swaps The Trust may enter into swap agreements. A swap is an agreement to exchange the return generated by one instrument for the return generated by another instrument. The Trust enters into interest rate swap agreements to manage its exposure to interest rate and credit risk. Interest rate swap agreements involve the exchange by the Trust with another party of their respective commitments to pay or receive interest. Dividends and interest on the securities in the swap are included in the value of the exchange. The swaps are valued daily at current market value and any unrealized gain or loss is included in the Statement of Assets and Liabilities. Gain or loss is realized on the termination date of the swap and is equal to the difference between the Trust's basis in the swap and the proceeds of the closing transaction, including any fees. During the period that the swap agreement is open, the Trust may be subject to risk from the potential inability of the counterparty to meet the terms of the agreement. The swaps involve elements of both market and credit risk in excess of the amounts reflected on the Statements of Assets and Liabilities.

The Trust entered into interest rate swap agreements for the six months ended June 30, 2006. Details of the swap agreements outstanding as of June 30, 2006 were as follows:

Counterparty	Termination Date	Notional Amount (000)	Fixed Rate	Floating Rate	Unrealized Appreciation
Citigroup	07/01/2007	\$200,000	3.68%	1 Month LIBOR	\$ 3,877,463
Royal Bank of Canada	07/01/2009	200,000	4.32%	1 Month LIBOR	6,452,260
					\$ 10,329,723

For each swap noted, the Trust pays a fixed rate and receives a floating rate.

Dividends and Distributions to Shareholders Dividends from net investment income, if any, are declared and paid on a monthly basis. Distributions from net realized capital gains, if any, are normally distributed in December. Income dividends and capital gain distributions to common shareholders are recorded on the ex-dividend date. To the extent the Trust's net realized capital gains, if any, can be offset by capital loss carryforwards, it is the policy of the Trust not to distribute such gains.

The current monthly rate is \$0.115 per share. The Trust continues to evaluate its monthly distribution policy in light of ongoing economic and market conditions and may change the amount of the monthly distributions in the future.

Use of Estimates The preparation of financial statements, in conformity with U.S. generally accepted accounting principles, requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of financial statements and the reported amounts of expenses during the reporting period. Actual results could differ from those estimates.

3. Concentration of Risk

Under normal market conditions, the Trust's investments will be concentrated in income-producing common equity securities, preferred securities, convertible securities and non-convertible debt securities issued by companies deriving the majority of their revenue from the ownership, construction, financing, management and/or sale of commercial, industrial, and/or residential real estate. Values of the securities of such companies may fluctuate due to economic, legal, cultural, geopolitical or technological developments affecting various global real estate industries.

4. Investment Management Agreement and Other Agreements

Pursuant to an investment management agreement between the Advisor and the Trust, the Advisor is responsible for the daily management of the Trust's portfolio of investments, which includes buying and selling securities for the Trust, as well as investment research. The Advisor will receive an annual fee from the Trust based on the average weekly value of the Trust's managed assets, which includes the amount from the issuance of the preferred shares. The Trust pays for investment advisory services and facilities through a fee

12 Semi-Annual Report June 30, 2006

Table of Contents

ING Clarion Global Real Estate Income Fund **Notes to Financial Statements** (unaudited) continued

payable monthly in arrears at an annual rate equal to 0.85% of the average weekly value of the Trust's managed assets plus certain direct and allocated expenses of the Advisor incurred on the Trust's behalf. The Advisor has agreed to waive a portion of its management fee in the amount of 0.25% of the average weekly values of the Trust's managed assets for the first five years of the Trust's operations (through February, 2009), and for a declining amount for an additional four years (through February, 2013). During the six months ended June 30, 2006, the Trust incurred management fees of \$8,228,538, which are net of \$3,428,558 in management fees waived by the Advisor.

The Trust has multiple service agreements with The Bank of New York (BNY). Under the servicing agreements, BNY will perform custodial, fund accounting, certain administrative services, and transfer agency services for the Trust. As custodian, BNY is responsible for the custody of the Trust's assets. As administrator, BNY is responsible for maintaining the books and records of the Trust's securities and cash. As transfer agent, BNY is responsible for performing transfer agency services for the Trust.

5. Portfolio Securities

For the six months ended June 30, 2006, there were purchases and sales transactions (excluding short-term securities) of \$244,191,999 and \$186,175,400, respectively.

In 2005, the Trust received 303,030 in call options for Verde Realty MLP in connection with its purchase of shares in Verde Realty MLP. These options expire in August 2006 at \$33.00 per share. There were no dollars expended for acquiring these options and there is no value to the options at June 30, 2006.

In 2006, the Trust received 1,623,500 in warrants for China Overseas Land & Investment Ltd. in connection with its purchase of shares in China Overseas Land & Investment Ltd. These warrants expire in July 2007 at 4.50HKD (Hong Kong Dollars) per share. There were no dollars expended for acquiring these warrants and there is no value to the warrants at June 30, 2006.

6. Federal Income Taxes

The Trust intends to elect to be, and qualify for treatment as, a regulated investment company under Subchapter M of the Internal Revenue Code of 1986, as amended (the Code). A regulated investment company generally pays no federal income tax on the income and gains that it distributes. The Trust intends to meet the calendar year distribution requirements imposed by the Code to avoid the imposition of a 4% excise tax.

The Trust distinguishes between dividends on a tax basis and on a financial reporting basis and only distributions in excess of tax basis earnings and profits are reported in the financial statements as a tax return of capital. Differences in the recognition or classification of income between the financial statements and tax earnings and profits which result in temporary over-distributions for financial statement purposes are classified as distributions in excess of net investment income or accumulated net realized gains in the components of net assets on the Statement of Assets and Liabilities.

In order to present paid-in capital in excess of par and accumulated net realized gains or losses on the Statement of Assets and Liabilities that more closely represent their tax character, certain adjustments have been made to additional paid-in capital, undistributed net investment income and accumulated net realized gains or losses on investments. For the year ended December 31, 2005, the adjustments were to increase accumulated net realized gain on investments by \$7,174,320, and decrease undistributed net investment income by \$7,174,320 due to the difference in the treatment for book and tax purposes of certain investments.

Edgar Filing: ING CLARION GLOBAL REAL ESTATE INCOME FUND - Form N-CSRS

The final determination of the source of the 2006 distributions for tax purposes will be made after the end of the Trust's fiscal year and will be reported to shareholders in January 2007 on Form 1099-DIV.

Currency losses incurred after October 31, 2005 (post-October losses) within the taxable year are deemed to arise on the first business day of the Trust's next taxable year. The Trust incurred and elected to defer net currency losses during 2005 in the amount of \$641,237.

Information on the components of net assets as of June 30, 2006 is as follows:

Cost of Investments	Gross Unrealized Appreciation	Gross Unrealized Depreciation	Net Unrealized Appreciation on Investments
\$2,275,585,798	\$576,031,813	\$(11,859,375)	\$564,172,438

For the year ended December 31, 2005, the tax character of distributions paid, as reflected in the Statements of Changes in Net Assets, was \$163,017,004 of ordinary income and \$17,197,419 of long-term capital gain.

7. Borrowings

The Trust leverages through the issuance of preferred shares, and/or borrowings in an aggregate amount of approximately 35% of the Trust's capital to buy additional securities. The Trust may borrow from banks or other financial institutions. The use of preferred shares and other borrowing techniques to leverage the common shares can create risks.

The Trust has access to a secured line of credit up to \$250,000,000 from BNY for borrowing purposes. Borrowings under this arrangement bear interest at the Federal funds rate plus 50 basis points. At June 30, 2006, there was an outstanding borrowing of \$191,058,000 in connection with the Trust's line of credit. The average daily amount of borrowings during the six months ended June 30, 2006 was \$143,764,219, with a related weighted average interest rate of 5.18%. The maximum amount outstanding for the six months ended June 30, 2006, was \$211,960,900.

8. Capital

The Trust issued 90,000,000 shares of common stock in its initial public offering. These shares were all issued at \$15.00. In connection with the initial public offering of the Trust's common shares, the underwriters were granted an over-allotment option to purchase additional common shares at a price of \$15.00 per common share. On March 12, 2004, the underwriters purchased

Semi-Annual Report June 30, 2006 **13**

Table of Contents

ING Clarion Global Real Estate Income Fund **Notes to Financial Statements** (unaudited) continued

6,000,000 common shares of the Trust pursuant to the over-allotment option. On April 8, 2004, the underwriters purchased 5,000,000 additional common shares of the Trust pursuant to the over-allotment option. In connection with the Trust's DRIP plan, the Trust did not issue any common shares in 2005 and issued 154,306 common shares in 2004. At June 30, 2006, the Trust had outstanding common shares of 101,161,287 with a par value of \$0.001 per share. The Advisor owned 6,981 shares of the common shares outstanding.

On February 26, 2004, the Trust's Board authorized the issuance of preferred shares, in addition to the existing common shares, as part of its leverage strategy. Preferred shares issued by the Trust have seniority over the common shares.

The Trust issued 4,000 shares of Preferred Shares Series T28A, 4,000 shares of Preferred Shares Series W28B, 4,000 shares of Preferred Shares Series T28C, 4,000 shares of Preferred Shares Series W28D, 6,200 shares of Preferred Shares Series T7 and 6,200 shares of Preferred Shares Series W7, each with a liquidation value of \$25,000 per share plus accumulated and unpaid dividends. Dividends will be accumulated daily at an annual rate set through auction procedures. Distributions of net realized capital gains, if any, will be paid annually.

For the six months ended June 30, 2006, the annualized dividend rates ranged from:

	High	Low	At June 30, 2006
Series T28A	5.30%	4.36%	5.30%
Series W28B	5.00	4.37	5.00
Series T28C	5.14	4.38	5.14
Series W28D	5.20	4.24	5.20
Series T7	5.25	4.15	5.25
Series W7	5.21	3.96	5.21

The Trust is subject to certain limitations and restrictions while preferred shares are outstanding. Failure to comply with these limitations and restrictions could preclude the Trust from declaring any dividends or distributions to common shareholders or repurchasing common shares and/or could trigger the mandatory redemption of preferred shares at their liquidation value.

The holders of preferred shares have voting rights equal to the holders of common shares (one vote per share) and will vote together with holders of common shares as a single class. However, holders of preferred shares, voting as a separate class, are also entitled to elect two Trustees. In addition, the Investment Company Act of 1940, as amended, requires that, along with approval by shareholders that might otherwise be required, the approval of the holders of a majority of any outstanding preferred shares, voting separately as a class, would be required to (a) adopt any plan of reorganization that would adversely affect the preferred shares, (b) change a Trust's sub-classification as a closed-end investment company or change its fundamental investment restrictions and (c) change the nature of its business so as to cease to be an investment company.

9. Indemnifications

The Trust enters into contracts that contain a variety of indemnifications. The Trust's exposure under these arrangements is unknown. However, the Trust has not had prior claims or losses or current claims or losses pursuant to these contracts.

ING Clarion Global Real Estate Income Fund

Dividend Reinvestment Plan (unaudited)

Pursuant to the Trust's Dividend Reinvestment Plan (the "Plan"), shareholders of the Trust are automatically enrolled, to have all distributions of dividends and capital gains reinvested by The Bank of New York (the "Plan Agent") in the Trust's shares pursuant to the Plan. You may elect not to participate in the Plan and to receive all dividends in cash by sending written instructions or by contacting The Bank of New York, as dividend disbursing agent, at the address set forth below. Participation in the Plan is completely voluntary and may be terminated or resumed at any time without penalty by contacting the Plan Agent before the dividend record date; otherwise such termination or resumption will be effective with respect to any subsequently declared dividend or other distribution. Shareholders who do not participate in the Plan will receive all distributions in cash paid by check and mailed directly to the shareholders of record (or if the shares are held in street or other nominee name, then to the nominee) by the Plan Agent, which serves as agent for the shareholders in administering the Plan.

After the Trust declares a dividend or determines to make a capital gain distribution, the Plan Agent will acquire shares for the participants' account, depending upon the circumstances described below, either (i) through receipt of unissued but authorized shares from the Trust (newly issued shares) or (ii) by open market purchases. If, on the dividend payment date, the NAV is equal to or less than the market price per share plus estimated brokerage commissions (such condition being referred to herein as "market premium"), the Plan Agent will invest the dividend amount in newly issued shares on behalf of the participants. The number of newly issued shares to be credited to each participant's account will be determined by dividing the dollar amount of the dividend by the NAV on the date the shares are issued. However, if the NAV is less than 95% of the market price on the payment date, the dollar amount of the dividend will be divided by 95% of the market price on the payment date. If, on the dividend payment date, the NAV is greater than the market value per share plus estimated brokerage commissions (such condition being referred to herein as "market discount"), the Plan Agent will invest the dividend amount in shares acquired on behalf of the participants in open-market purchases.

The Plan Agent's fees for the handling of the reinvestment of dividends and distributions will be paid by the Trust. However, each participant will pay a pro rata share of brokerage commissions incurred with respect to the Plan Agent's open market purchases in connection with the reinvestment of dividends and distributions. The automatic reinvestment of dividends and distributions will not relieve participants of any Federal income tax that may be payable on such dividends or distributions.

The Trust reserves the right to amend or terminate the Plan. There is no direct service charge to participants in the Plan; however, the Trust reserves the right to amend the Plan to include a service charge payable by the participants. Participants that request a sale of shares through the Plan Agent are subject to a \$2.50 sales fee and a \$0.15 per share sold brokerage commission. All correspondence concerning the Plan should be directed to the Plan Agent at The Bank of New York, Attention: Stock Transfer Department, P.O. Box 11258, New York, NY 10286-1258; Phone number: (800) 432-8224.
