The sales may occur in transactions in the over-the-counter market (quoted on the American Stock Exchange) at prevailing market prices or in negotiated transactions. THE COMPANY

The Company is a holding company incorporated in Delaware, having separate subsidiaries offering a variety of insurance products. It is Danielson Holding's intention to grow by developing business partnerships and making strategic acquisitions. As part of Danielson Holding's ongoing corporate strategy, Danielson Holding has continued to seek acquisition opportunities which will both complement its existing operations and enable Danielson Holding to earn an attractive return on investment.

The largest subsidiary of Danielson Holding is its indirectly wholly-owned California insurance company, National American Insurance Company of California (together with its subsidiaries, "NAICC"). NAICC is a California corporation currently engaged in writing private passenger automobile insurance in California and commercial automobile insurance in certain western states, primarily California. Prior to the fourth quarter of 2001, NAICC had also been engaged in writing non-standard private passenger automobile insurance in certain western states outside of California, preferred private passenger automobile insurance and workers' compensation insurance. NAICC is a second tier subsidiary of DHC. Prior to 2001, NAICC's immediate parent corporation was KCP Holding Company ("KCP"), which was wholly-owned by Mission American Insurance Company ("MAIC"), which was wholly-owned by Danielson Holding. In April 2001, MAIC and KCP were merged into Danielson Indemnity Company ("DIND"). DIND is wholly-owned by Danielson Holding.

Danielson Holding had cash and investments at the holding company

Edgar Filing: DANIELSON HOLDING CORP - Form S-8

level of \$29.9 million at December 31, 2001. Total liabilities of Danielson Holding at the same date were \$6.6 million.

Danielson Holding expects to report, as of the close of its 2001 tax year, aggregate consolidated net operating tax loss carryforwards ("NOLs") for Federal income tax purposes of approximately \$745 million. These losses will expire over the course of the next 18 years unless utilized prior thereto. See Note 8 to our financial statements for the year ended December 31, 2001, incorporated in this prospectus by reference from our Annual Report for the fiscal year ended December 31, 2001 on Form 10-K.

Our principal executive offices are located at 767 Third Avenue, New York, New York 10017, and our telephone number is (212) 888-0347.

RISK FACTORS

This offering involves risk. You should carefully consider the risks described below and the other information in this prospectus before deciding to invest in the shares of Common Stock.

Risks Related to Our Business

Although We Currently Rely on Cash and Short Term Investments to Meet Our Liquidity Needs, We May Experience Liquidity Constraints in the Future Which Could Restrain Our Growth or Reduce Profitability.

Historically, we have not experienced major liquidity constraints, but, as discussed below, revenues are affected by numerous factors and a decrease in those revenues can create cash flow issues. In such event, we may rely on dividends and tax sharing payments from our subsidiaries. These dividends and tax sharing payments may not be available because, among other things:

- o In some cases, our subsidiaries must first receive regulatory approval before paying us dividends.
- o There are business and regulatory considerations that affect our subsidiaries, including the impact of dividends on surplus which could affect a subsidiary's insurance ratings, its competitive position, the amount of premiums that it can write and its risk-based capital requirements.
- o There may be a prolonged material decline in an insurance subsidiary's profits or materially adverse insurance regulatory developments.

Our Business Plan Is to Continue to Grow But Our Limited Financial Resources and the Constraints on Our Ability to Issue Additional Stock May Impede Our Growth.

Although we have sought to grow through entering into strategic partnerships or making acquisitions, we have limited financial resources. Our limited financial resources and constraints on our ability to issue additional stock or otherwise raise capital to finance transactions may prevent us from successfully consummating any future transactions. Due to our limited financial resources and constraints on our ability to raise capital, we have been unable to participate in larger transactions in the past, and believe that our financial constraints will continue to govern the types of transactions we are able to entertain and consummate.

Edgar Filing: DANIELSON HOLDING CORP - Form S-8

Our Insurance Business Is Affected by Many Factors Outside of Our Control Such As Weather Conditions and Economic Activity That Could Reduce Demand for Our Products or Cause Increases in Claims.

Our business is concentrated primarily in the Western United States. If this area experiences an economic downturn, there could be fewer car sales, less demand for automobile insurance and lower policy amounts in addition to increased workers' compensation claims. Severe adverse weather conditions could also adversely affect our business. These factors, together with competitive pricing, could result in increases in our loss ratios and fluctuations in our underwriting results and net income.

We Are Subject to Insurance Laws and Regulations Which Could Restrict Our Operations and Reduce Our Financial Flexibility.

The states in which we transact business have passed insurance laws and regulations. The agencies established pursuant to these state laws have broad administrative and supervisory powers which can impact our insurance business including:

- o the granting and revocation of licenses to transact insurance business regulation of trade practices
- o establishment of guaranty associations
- o licensing of agents
- o approval of policy forms
- o premium rate filing requirements
- o reserve requirements
- o the form and content of required regulatory financial statements
- o periodic examinations of insurers' records
- o capital and surplus requirements and the maximum concentrations of certain classes of investments

These laws, in general, also require approval of the particular insurance regulators prior to certain actions by the insurance companies, including the payment of dividends in excess of statutory limitations and certain transactions and continuing service arrangements with affiliates. The laws of most states provide for the filing of premium rate schedules and other information with the insurance commissioner of a particular state, either directly or through rating organizations. The insurance commissioner of each state generally has powers to disapprove such filings or make changes to the rates if they are found to be excessive, inadequate or unfairly discriminatory. The determination of rates is based on various factors, including loss and loss adjustment expense experience. The failure to obtain, or delay in obtaining, the required approvals could result in a decline in revenues of our insurance subsidiaries. We are also required by insurance regulators to maintain certain minimum amounts of capital.

We Face Intense Competition in the Insurance Business That Could Impair Our Ability to Grow and Achieve Profitability.

We compete both with large national writers and with smaller regional companies in each state in which we operate. Some of these competitors are larger and have greater financial resources than us. Some

Edgar Filing: DANIELSON HOLDING CORP - Form S-8

of these competitors in the workers' compensation line of business have, from time to time, decreased their prices significantly to gain market share. There can be no assurance that we will be able to successfully compete in these markets and generate sufficient premium volume at attractive prices to be profitable. Our ability to grow depends on our ability to expand in the states in which we already do business and to expand into other states where our competitors operate.

If Currently Established Provisions for Unpaid Losses and Loss Adjustment Expenses ("LAE") Prove Inadequate in Light of Subsequent Actual Experience, It Will Be Necessary to Increase Provisions for Unpaid Losses.

We are required to estimate liability for losses and LAE. Our insurance subsidiaries establish provisions to cover their estimated liability for losses and LAE with respect to both reported and unreported claims as of the end of each accounting period. By their nature, these provisions for unpaid losses and LAE do not represent an exact calculation of liabilities. Rather, they are estimates involving management's projections as to the ultimate settlement and administration of claims. These expectations are, in turn, based on, among other things:

- o facts and circumstances known at the time
- o predictions of future events
- o estimates of future trends in the severity and frequency of claims
- o judicial theories of liability
- o inflation

Our insurance subsidiaries regularly review their respective reserve techniques and reserve positions and believe that adequate provision has been made for their respective unpaid losses and LAE. We cannot ensure that currently established provisions for unpaid losses and LAE will prove adequate in light of subsequent actual experience. Future earnings could be adversely impacted should future loss development require increases in provisions for unpaid losses and LAE previously established for prior periods.

We Can Not Be Certain that the Net Operating Loss Carryforwards ("NOL") Will Continue to Be Available to Offset Our Tax Liability.

We currently expect to report, as of the close of our 2001 tax year, an NOL of approximately \$745 million for federal income tax purposes. The NOL expires in various amounts beginning on December 31, 2001 through December 31, 2019, if it is not used. The Internal Revenue Service ("IRS") has not audited any of our tax returns for the years in which the losses giving rise to the NOL were reported nor has it otherwise challenged our use of the NOL carryforwards. If we were to undergo an "ownership change" as such term is used in Section 382 of the Internal Revenue Code, the use of our NOL would be severely limited. We will be treated as having had an "ownership change" if there is a more than 50% increase in stock ownership during a 3-year "testing period" by "5% stockholders." For this purpose, stock ownership is measured by value, and does not include so-called "straight preferred" stock.

Our Certificate of Incorporation contains stock transfer restrictions which were designed to help us preserve the NOL by avoiding an ownership change. The transfer restrictions were implemented in 1990, and we expect that they will remain in-force as long as the NOL is available to

Edgar Filing: DANIELSON HOLDING CORP - Form S-8

us. We cannot be certain, however, that these restrictions will prevent an ownership change.

Risks Related to Our Securities

If the Exercise of Your Stock Options Would Result in the Risk of Your Becoming a 5% Stockholder, We Have the Right to Limit the Exercise of these Stock Options.

Our common stock is subject to transfer restrictions which forbid any stockholder from becoming a 5% stockholder. If the exercise of your stock options would result in a risk of your becoming a 5% stockholder, your exercise may be automatically reduced so that your common stock ownership would be less than 5%. We may also limit the exercise of stock options by holders who possess 5% or more of our outstanding common stock.

Provisions in Our Certificate of Incorporation That Limit Ownership and Transferability of Our Stock May Entrench Current Management and the Current Stockholders.

We are required to issue, in our name, as escrow agent, certificates representing shares of common stock that are beneficially owned by holders of 5% or more of our stock. In addition, when we receive the written request from a 5% stockholder to transfer their shares, we may refuse such request upon the advice of our tax counsel that such transfer would create an unreasonable risk of an "ownership change." In no circumstances may anyone acquire 5% or more of our stock without our consent.

The Market for Our Shares Has Been Historically Illiquid Which May Affect Your Ability to Sell Your Shares.

The volume of trading in our stock has historically been low. Having a market for shares without substantial liquidity can adversely affect the price of the stock at a time an investor might want to sell his shares.

POTENTIAL ACQUISITION

On March 15, 2002, we and American Commercial Lines LLC ("ACL") executed a definitive recapitalization agreement for our acquisition of ACL. ACL is an integrated marine transportation and service company operating approximately 5,100 barges and 200 towboats on the inland waterways of North and South America. ACL transports more than 70 million tons of freight annually. Additionally, ACL operates marine construction, repair and service facilities and river terminals.

The holders of more than two thirds of ACL's outstanding senior notes, substantially all the indirect preferred and common members of ACL and the management of ACL have agreed to support the recapitalization plan. ACL's senior lenders have executed forbearance agreements pending the negotiation and execution of definitive documentation relating to the amendment and restatement of ACL's senior secured credit facility.

Under the terms of the recapitalization agreement, we will acquire 100% of the membership interests of American Commercial Lines Holdings LLC, ACL's parent holding company. ACL's present indirect preferred equity holders (that are not members of ACL management) will receive \$7.0 million in cash. ACL's management will receive approximately \$1.7 million of restricted common stock of Danielson Holding. In addition, we will deliver \$25.0 million in cash, which will be used to reduce borrowings under ACL's

Edgar Filing: DANIELSON HOLDING CORP - Form S-8

senior credit facility, and approximately \$58.5 million of ACL's outstanding senior notes to ACL Holdings in connection with the transaction. The recapitalization is expected to close in the second quarter of 2002.

The transaction will result in a reduction of ACL's senior secured bank debt by \$25.0 million. In addition, the parties will seek to restructure ACL's 10 1/4% senior notes due 2008 through an exchange offer and consent solicitation. Upon the successful completion of the exchange offer and consent solicitation, up to approximately \$236.5 million of ACL's outstanding senior notes (all notes held by parties other than us) will be exchanged for \$120.0 million of new 11 1/4% cash pay senior notes due January 1, 2008 and approximately \$116.5 million of new 12% pay-in-kind senior subordinated notes due July 1, 2008. ACL will also issue additional new cash pay senior notes in an aggregate principal amount (not to exceed \$20.0 million) equal to the accrued and unpaid interest on its outstanding senior notes, other than those held by us, and to the extent that such accrued and unpaid interest exceeds \$20.0 million, additional pay-in-kind senior subordinated notes in an amount equal to such excess would be issued in full satisfaction of such accrued and unpaid interest.

In connection with these transactions, we expect to effect a \$42 million rights offering to our existing security holders, the proceeds of which will be used to fund our cash contribution for the recapitalization and for general corporate purposes. Consummation of the recapitalization agreement is not conditioned on the successful completion of the rights offering. Under the terms of the rights offering, holders of our common stock will be entitled to purchase additional shares of common stock, at a subscription price of \$5.00 per share, up to such holders' pro rata share of the rights offering. Our March 18th press release regarding these transactions did not constitute notice of the commencement of the rights offering. Further information regarding the terms and conditions for the expected rights offering will be announced prior to the commencement of the rights offering.

The recapitalization agreement provides that the exchange offer and consent solicitation will be made in reliance on a registration exemption provided by Section 3(a)(9) under the Securities Act of 1933, conditioned on the minimum participation of 95% of the outstanding principal amount of ACL's outstanding senior notes, as to which noteholders holding more than two thirds of the outstanding principal amount of such notes have agreed to tender. In the event that the exchange offer and consent solicitation is not consummated by June 15, 2002, the recapitalization agreement provides for the implementation of the recapitalization through a voluntary prepackaged bankruptcy plan under Chapter 11 of the Bankruptcy Code, as to which noteholders holding more than two thirds of the outstanding principal amount of ACL's outstanding senior notes have agreed to accept.

We have filed a copy of the press release referenced above along with a copy of the recapitalization agreement in our Current Report on Form 8-K filed with the Commission on March 27, 2002.

Item 9. Undertakings.

The undersigned registrant hereby undertakes:

- o To file, during any period in which offers or sales are being made, a post-effective amendment to this registration statement:
- o To include any prospectus required by Section 10(a)(3) of the Securities Act;
- o To reflect in the prospectus any facts or events arising after the effective date of the registration statement (or the most recent post-effective amendment thereof) which, individually or in the aggregate, represent a fundamental change in the information set forth in the registration statement. Notwithstanding the foregoing, any increase or decrease in volume of securities offered (if the total dollar value of securities offered would not exceed that which was registered) and any deviation from the low or high end of the estimated maximum offering range may be reflected in the form of prospectus filed with the Commission pursuant to Rule 424(b) if, in the aggregate, the changes in volume and price represent no more than 20 percent change in the maximum aggregate offering price set forth in the "Calculation of Registration Fee" table in the effective registration statement; and
- o To include any material information with respect to the plan of distribution not previously disclosed in the registration statement or any material change to such information in the registration statement;

provided, however, that paragraphs (a)(1) and (a)(2) do not apply if the information required to be included in a post-effective amendment by those paragraphs is contained in periodic reports filed with or furnished to the Commission by the registrant pursuant to Section 13 or 15(d) of the Exchange Act that are incorporated by reference in the registration statement.

- o That, for the purpose of determining any liability under the Securities Act, each post-effective amendment shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.
- o To remove from registration by means of a post-effective amendment any of the securities being registered which remain unsold at the termination of the offering.
- o That, for purposes of determining any liability under the

Securities Act, each filing of the registrant's annual report pursuant to Section 13(a) or Section 15(d) of the Exchange Act (and, where applicable, each filing of an employee benefit plan's annual report pursuant to Section 15(d) of the Exchange Act) that is incorporated by reference in the registration statement shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

- o Insofar as indemnification for liabilities arising under the Securities Act may be permitted to directors, officers and controlling persons of the registrant pursuant to the foregoing provisions, or otherwise, the registrant has been advised that in the opinion of the Commission such indemnification is against public policy as expressed in the Securities Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the registrant of expenses incurred or paid by a director, officer or controlling person of the registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Securities Act and will be governed by the final adjudication of such issue.
