PROXY STATEMENT

GENERAL

This proxy statement is furnished to stockholders in connection with the solicitation of proxies by the Board of Directors of PERFORMANCE TECHNOLOGIES, INCORPORATED (the "Company") to be used at the Annual Meeting of Stockholders of the Company, which will be held on Tuesday, June 4, 2002 (the "Meeting"), and at

Edgar Filing: PERFORMANCE TECHNOLOGIES INC \DE\ - Form DEF 14A

any adjournments thereof. This proxy statement and accompanying form of proxy are first being mailed to stockholders on or about May 1, 2002. The proxy, when properly executed and received by the Secretary of the Company prior to the Meeting, will be voted as therein specified unless revoked by filing a written revocation or a duly executed proxy bearing a later date with the Secretary prior to the Meeting. A stockholder may also revoke his or her proxy in person at the Meeting. Unless authority to vote for one or more of the director nominees is specifically withheld, a signed proxy will be voted FOR the election of the director nominees named herein and, unless otherwise indicated FOR the selection of PricewaterhouseCoopers LLP as the Company's independent public accountants for the fiscal year ending December 31, 2002.

The cost of soliciting proxies will be borne by the Company. In addition to the solicitation by use of the mails, directors, officers or regular employees of the Company, without extra compensation, may solicit proxies personally, by telephone, by e-mail, telegraph or facsimile transmission. The Company has requested persons holding stock for others in their names or in the names of nominees to forward soliciting material to the beneficial owners of such shares and will, if requested, reimburse such persons for their reasonable expenses in so doing.

VOTES REQUIRED

Stockholders may vote by mail, telephone or the Internet. Information regarding telephone and Internet voting is included in some proxy card instructions. The total outstanding shares of capital stock of the Company as of April 5, 2002, the record date for the Meeting (the "Record Date"), consisted of 12,239,228 shares of Common Stock, par value \$.01 per share (the "Common Stock"). Only holders of Common Stock of record on the books of the Company at the close of business on the Record Date are entitled to notice of and to vote at the Meeting and at any adjournments thereof. Each holder of Common Stock is entitled to one vote for each share of Common Stock registered in his or her name. A majority of the outstanding shares of Common Stock, represented in person or by proxy at the Meeting, will constitute a quorum for the transaction of all business.

Pursuant to the provisions of the Delaware General Corporation Law, directors shall be elected by a plurality of the votes cast by the holders of shares of Common Stock present in person or represented by proxy at the Meeting and entitled to vote at the Meeting. Because directors are elected by a plurality of the votes cast, withholding authority to vote with respect to one or more nominees will have no effect on the outcome of the election, although such shares would be counted as present for purposes of determining the existence of a quorum. Similarly, any broker non-votes (which occur when shares held by brokers or nominees for beneficial owners are voted on some matters but not on others in the absence of instructions from the beneficial owner) are not considered to be votes cast and therefore would have no effect on the outcome of the election of directors, although they would be counted for quorum purposes.

The affirmative vote of a majority of the votes cast is required to ratify the selection of PricewaterhouseCoopers LLP as independent public accountants for the Company for the fiscal year ending December 31, 2002. Abstentions and any broker non-votes are not considered to be votes cast and therefore would have no effect on the outcome of this proposal.

PROPOSAL 1

ELECTION OF DIRECTORS

The Board of Directors is divided into three classes. The Company currently has eight directors, three in two classes and two in one class. Terms are staggered so that one class is elected each year. Only one class of directors is elected at each Annual Meeting of Stockholders. Each director so elected serves for a three-year term and until his or her successor is elected and qualified, subject to such director's earlier death, resignation or removal.

The Board of Directors recommends the election of the three nominees named below, all of whom are currently directors of the Company. Unless authority to vote for one or more of the nominees is specifically withheld according to the instructions, proxies in the enclosed form will be voted FOR the election of each of the three nominees named below. The Board of Directors does not contemplate that any of the nominees will be unable to serve as a director, but if that contingency should occur prior to the voting of the proxies, the persons named in the enclosed proxy reserve the right to vote for such substitute

Report of the Compensation Committee with Respect to Executive Compensation

General

The Compensation Committee, in conjunction with the Stock Option Committee of the Board of Directors, administers the Company's executive compensation program. The Compensation Committee is comprised of three outside directors, Paul L. Smith, Chairman, John E. Mooney and Bernard Kozel. The Compensation Committee considers internal and external information in determining executive officer compensation, including data provided by Watson Wyatt & Company.

The Company's executive pay program is designed to attract and retain executives who will contribute to the Company's long-term success, to reward executives for achieving short and long-term strategic Company goals, to link executive and stockholder interests through equity-based plans and to provide a compensation package that recognizes individual contributions and Company performance.

The three key components of the Company's executive compensation are base salary, short-term incentives (cash bonus) and long-term incentives (stock options).

Base Salary. Annually, the Compensation Committee reviews with the Chief Executive Officer and approves, with any modifications it deems appropriate, a salary plan for all of the Company's executives, none of whom have a written

Edgar Filing: PERFORMANCE TECHNOLOGIES INC \DE\ - Form DEF 14A

employment agreement with the Company. The salary plan is developed under the ultimate direction of the Chief Executive Officer based on performance judgments as to the past and expected future contributions of each executive.

Annual Short-term Incentive Awards. The short-term incentive award program is intended to be variable and is directly related to the Company's financial performance. The parameters of the short-term incentive program for the Company's employees, including executive officers, are generally established at the beginning of each year. Amounts contributed to this program are based upon the Company's profitability.

Long-term Incentive Awards. Stock options are granted to executive officers and employees under the Performance Technologies, Incorporated 2001 Stock Option Plan administered by the Stock Option Committee. The Compensation Committee, in conjunction with the Stock Option Committee, believes that stock options are a means of aligning the long-range interests of all employees, including executives, with those of the Company's stockholders by providing them with the opportunity to acquire an equity stake in the Company. The size of the stock option award is based primarily on the individual's responsibilities and position with the Company, as well as on the individual's performance. Stock options are granted at an exercise price equal to the fair market value of the Company's Common Stock on the date of grant and options generally vest in three to five years. This approach is designed to encourage the creation of stockholder value over the long term since no benefit is realized from a stock option grant unless the price of the Company's Common Stock rises.

Executive Officer Compensation

Due to the dramatic changes in economic climate in 2001, the Compensation Committee again recommended that the Company retain the services of Watson Wyatt & Company to perform a comparative analysis of the compensation of its executive officers. Watson Wyatt & Company compared the total compensation of the Company's executives to a peer group of companies with similar products and target markets. The analysis indicated that the total compensation levels for executive officers is generally appropriate in the years that short term incentive bonuses are earned and stock options are granted. However, the analysis continued to indicate that the base salary compensation levels of executives could be adjusted upward to become more comparable. The Company continues to address the deficiencies outlined in the Watson Wyatt & Company analysis and made upward salary adjustments in 1999, 2000 and 2001 toward this objective.

The Company met the profitability measurement established in the Company's 2001 annual short-term incentive plan resulting in a cash incentive bonus being earned by the executives and employees for 2001.

Stock options granted for 2001 were issued to executive officers in December 2000.

President and Chief Executive Officer

Mr. Turrell's base salary, short-term incentive and long-term incentive awards are determined by the Compensation Committee based upon the same factors as those employed by the Compensation Committee for executive officers generally. Mr. Turrell's base salary for 2001 was \$180,000, which was lower than reported in the peer companies in the Watson Wyatt & Company analysis. Mr. Turrell earned a short-term incentive bonus, related to the Company's profitability measure, in the amount of \$35,000 for 2001 and was granted stock options for 35,000 shares in December 2000 as part of his 2001 compensation plan.

Report of the Stock Option Committee to Stockholders

General

The Stock Option Committee of the Board of Directors administers the Company's stock option program. The Stock Option Committee is comprised of three outside directors, John M. Slusser, Chairman, Paul L. Smith and Bernard Kozel.

Edgar Filing: PERFORMANCE TECHNOLOGIES INC \DE\ - Form DEF 14A

The Stock Option Committee considers internal and external information in determining overall guidelines for stock option grants, including data provided by Watson Wyatt & Company.

Stock options are granted to executive officers and employees under the 2001 Performance Technologies, Incorporated Stock Option Plan administered by the Stock Option Committee. The Stock Option Committee believes that stock options are a means of aligning the long-range interests of all employees, including executives, with those of the Company's stockholders by providing them with the opportunity to acquire an equity stake in the Company. The size of the stock option award is based primarily on the individual's responsibilities and position with the Company, as well as on the individual's performance. Stock options are granted at an exercise price equal to the fair market value of the Company's Common Stock on the date of grant and options generally vest in three to five years. This approach is designed to encourage the creation of stockholder value over the long term since no benefit is realized from a stock option grant unless the price of the Company's Common Stock rises.

Annually, the Stock Option Committee reviews specific option requests along with option grant guidelines submitted by the Chief Executive Officer, and approves, with any modifications it deems appropriate, stock option grants requested for several categories of employees throughout the company.

The Stock Option Committee in cooperation with the Executive Compensation Committee approves stock option grants for the executive officers, key employees and the Chief Executive Officer. Stock Option requests for executive officers are developed under the direction of the Chief Executive Officer, based on criteria that evaluate past and expected future contributions of each executive.

In 2001, the Stock Option Committee referenced a year 2000 report from Watson Wyatt & Company to review the status of the Company's option grant level for a variety of employee groups. The Watson Wyatt & Company report analyzed the Company's Option program with respect to option program trends in the high technology industry and the impact of such programs on attracting, retaining and motivating necessary skilled personnel.
