Reflect Scientific, Inc.

FINANCIAL STATEMENTS

(UNAUDITED)

June 30, 2011

The financial statements included herein have been prepared by the Company, without audit, pursuant to the rules and regulations of the Securities and Exchange Commission. Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted. However, in the opinion of management, all adjustments (which include only normal recurring accruals) necessary to present fairly the financial position and results of operations for the periods presented have been made. These financial statements should be read in conjunction with the accompanying notes, and with the historical financial information of the Company.

REFLECT SCIENTIFIC, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

NOTE 1 -

BASIS OF FINANCIAL STATEMENT PRESENTATION

The accompanying unaudited condensed consolidated financial statements have been prepared by the Company pursuant to accounting principles generally accepted in the United States of America. Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted in accordance with rules and regulations of the Securities and Exchange Commission. The information furnished in the interim condensed consolidated financial statements includes normal recurring adjustments and reflects all adjustments, which, in the opinion of management, are necessary for a fair presentation of such financial statements. Although management believes the disclosures and information presented are adequate to make the information not misleading, it is suggested that these interim condensed consolidated financial statements be read in conjunction with the Company's most recent audited consolidated financial statements and notes thereto included in its December 31, 2010 financial statements. Operating results for the three and six months ended June 30, 2011 are not necessarily indicative of the results that may be expected for the year ending December 31, 2011.

NOTE 2 -

ORGANIZATION AND DESCRIPTION OF BUSINESS

Cole, Inc. (the Company) was incorporated under the laws of the State of Utah on November 3, 1999. The Company was organized to engage in any lawful activity for which corporations may be organized under the Utah Revised Business Corporation Act. On December 30, 2003 the Company changed its name to Reflect Scientific, Inc.

NOTE 3 GOING CONCERN

The Company is currently in default on its issued and outstanding debentures (See note 4). While the Company is working diligently to secure funding to enable it to retire the debenture obligations, there can be no assurance that such funding will be available. The Company has also accumulated significant operating losses. These factors raise substantial doubt about the Company's ability to continue as a going concern. The financial statements do not include any adjustments that might result from the outcome of these uncertainties.

Management has taken a number of actions to reduce expenses including reductions in personnel, consolidation of facilities, and the downsizing of the unprofitable service and maintenance operations conducted by All Temp Engineering. Management has reached settlement agreements on the majority of the debentures that are in default, which settlement is contingent upon their ability to pay \$250,000 in cash. Management is seeking additional funding through the capital markets to facilitate this settlement, as well as to provide operating capital for its operations. Management has also made the decision to discontinue certain operations (See Note 5 Business Disposition).

NOTE 4 DEFAULT ON CONVERTIBLE DEBENTURES

On June 29, 2009 the Company's convertible debenture came due. The Company was unable to repay the amount due of \$2,300,000 at that time and the note went into default status. Under the terms of the debenture, a penalty of 30% of the outstanding principle was accrued upon default. On the date of default the Company recognized this additional amount due of \$690,000. Also under the terms of the debenture, upon default, the Company was required to accrue and pay interest at the default rate of 18%.

In September 2009, Chestnut Ridge Partners, who held \$87,000 in debentures, agreed to convert the amount due, including accrued interest, to the Company's restricted common stock, as provided in the Debenture Agreement.

In August 2010, management reached agreement with the holders of \$1,750,000 in debentures on a plan to settle the debentures held by them that are in default. The settlement agreement is contingent upon the Company making a cash payment to them in the amount of \$250,000. Those debenture holders will accept the cash payment as full satisfaction of the debentures, including principle, penalty and interest, and warrants purchased on June 29, 2007. The Company is diligently working to raise the funding with which to fulfill the cash payment obligation under this agreement. The holder of the remaining \$500,000 in debentures is involved in bankruptcy proceedings in England and the resolution of those debentures and accrued interest is undetermined.

NOTE 5 BUSINESS DISPOSITION

In accordance with ASC 205-20, the Company has classified all results from operations of ImageLabs and MiraLogix into discontinued operations line items within the Company's statements of operations and statements of cash flow.

The Company recorded a loss on disposal of \$947,941 all of which was reported in the six-month period ended June 30, 2010.

Net loss from discontinued operations for the quarters ended June 30, 2011 and 2010 consisted of the following:

June 30,	June 30,
----------	----------

	2011		2010
Revenue	\$	-	\$ 169,363
Cost of Goods Sold		-	(105,772)
Operating Expenses		-	(263,500)
Net Loss from Discontinued			
Operations	\$	-	\$ (199,909)

NOTE 6 EQUITY TRANSACTIONS

In February 2011, 300,000 shares of the common stock issued for professional services related to the acquisition of Cryometric/All Temp and Image Labs/Myralogix were returned. The Company instructed the transfer agent to cancel the returned shares of stock.

On April 4, 2011, the Board of Directors of the Company voted to issue 3,100,000 shares of restricted common stock to Smith Corporate Services, Inc. for services. These services were valued at \$60,977.

The Board of Directors also voted to issue 7,800,000 shares of restricted common stock, valued at \$153,426, to Mr. Kim Boyce as a bonus to encourage Mr. Boyce to remain with the Company. The shares issued in these transactions were vested upon issuance and were valued at \$214,403, which charge is recorded in the results for the three and six months ended June 30, 2011.

In May 2011, the Company entered into a ninety day agreement, with an effective date of June 1, 2011, with an investor relations firm. Under the terms on the agreement, the Company issued 280,000 shares of restricted common stock, for services rendered, valued at \$33,600. A cash payment of \$5,000 was also made. For each of the remaining two months of the agreement they will be compensated with an additional cash payment of \$5,000 and 80,000 shares of restricted common stock per month.

NOTE 7 RELATED PARTY TRANSACTIONS

As of June 30, 2011, a shareholder of the Company had advanced \$24,000 in funding in the form of a non-interest bearing loan to the Company. There is no due date on the loan. It is the intent of the Company to repay this loan upon the closing of a major capital raise.

NOTE 8 FAIR VALUE OF FINANCIAL INSTRUMENTS

The Company's financial instruments consist of cash and cash equivalents, payables and notes payable. The carrying amount of cash and cash equivalents and payables approximates fair value because of the short-term nature of these items. The carrying amount of the notes payable approximates fair value as the individual borrowings bear interest at rates that approximate market interest rates for similar debt instruments.

NOTE 9 NEW ACCOUNTING PRONOUNCEMENTS

Fair Value Measurement In April 2011, the Financial Accounting Standards Board (FASB) issued new guidance to achieve common fair value measurement and disclosure requirements between GAAP and International Financial

Reporting Standards. This new guidance amends current fair value measurement and disclosure guidance to include increased transparency around valuation inputs and investment categorization. The new guidance is effective for fiscal years and interim periods beginning after December 15, 2011. The Company does not believe the adoption of the new guidance will have an impact on its consolidated financial position, results of operations or cash flows.

Comprehensive Income In June 2011, the FASB issued new guidance on the presentation of comprehensive income. Specifically, the new guidance allows an entity to present components of net income or other comprehensive income in one continuous statement, referred to as the statement of comprehensive income, or in two separate, but consecutive statements. The new guidance eliminates the current option to report other comprehensive income and its components in the statement of changes in equity. While the new guidance

changes the presentation of comprehensive income, there are no changes to the components that are recognized in net income or other comprehensive income under current accounting guidance. This new guidance is effective for fiscal years and interim periods beginning after December 15, 2011. The Company does not believe the adoption of the new guidance will have an impact on its consolidated financial position, results of operations or cash flows.

The Company has reviewed all other recently issued, but not yet adopted, accounting standards in order to determine their effects, if any, on its consolidated results of operation, financial position or cash flows. Based on that review, the Company believes that none of these pronouncements will have a significant effect on its current or future earnings or operations.

NOTE 10 STOCK OPTIONS

On May 24, 2011, the Board of Directors cancelled all outstanding stock option grants, representing rights to purchase 5,176,660 shares of the Company's restricted common stock. The options were fully vested and compensation expense was recognized in prior periods.

NOTE 11 SUBSEQUENT EVENTS

On July 15, 2011, the Company entered into a lease agreement for office, laboratory and warehouse space. The lease is for a term of three years commencing December 1, 2011, with a one year option. The new leased facility provides additional space, will provide greater operational efficiency, and will provide the Company a significant expense reduction from the facilities presently leased. The minimum lease payments for the next five years on the new leased facility are as follows:

2011	3,200
2012	38,100
2013	37,200
2014	34,100
2015	-
Total	112,600

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Special Note Regarding Forward-Looking Statements

This periodic report contains certain forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995 with respect to the Plan of Operations provided below, including information regarding the Company's financial condition, results of operations, business strategies, operating efficiencies or synergies, competitive positions, growth opportunities, and the plans and objectives of management. The statements made as part of the Plan of Operations that are not historical facts are hereby identified as "forward-looking statements."

Critical Accounting Policies and Estimates

The preparation of financial statements and related disclosures in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the unaudited Financial Statements and accompanying notes. Management bases its estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances. Actual results could differ from these estimates under different assumptions or conditions. The Company believes there have been no significant changes during the six month period ended June 30, 2011, to the items disclosed as significant accounting policies in management's Notes to the Financial Statements in the Company's Annual Report on Form 10-K for the year ended December 31, 2010.

Plan of Operation and Business Growth

Over the next twelve months our focus will be on the commercialization of products acquired and developed over the last several years. Included in this focus will be the continued development and commercialization of our ultra low temperature refrigerator line, with the refrigerated trailer, known as a reefer, being given highest priority. Additionally, we will continue to develop and expand our focus on solutions and services to retrofit server and computer rooms to help reduce the cost of cooling such rooms, as well as provide a more reliable and efficient method to cool such rooms. We will also continue to focus on the expansion of our detector line and contract manufacturing operations.

Management's focus over the last several years was on the acquisition and development of our product lines. While management now believes the desired core product lines are in place and will focus its efforts over the next twelve months on the commercialization of those product lines, marketing the products and expanding its customer base, it will consider potential acquisitions.

Our revenues during the reporting period show a slight decrease during 2011 compared to 2010 revenues. The laboratory market is a stable market that is not subject to seasonality and the stable revenue base results from the strong relationship we have developed with our major clients. Our technology products require large capital outlays from our customers and the downturn in the economy has caused hesitancy on the part of our potential customers to commit funds to capital investments. We do not expect this trend to continue. Our products are new to the marketplace and we expect the demand to grow as our products become more familiar. We believe the product lines are becoming commercially accepted and that sales will increase.

We do not anticipate we will emphasize acquisitions as we have in the past and instead will focus on managing and commercializing our current product lines. Significant progress has been made since the beginning of the year on our refrigeration unit for trailers. The prototype unit has been installed in a trailer to enable the gathering of data regarding its cooling efficiency. Our development work is focused on this technology. While we anticipate the future business growth over the next twelve months will come from our current product lines, we are diligently working to complete the commercialization the products utilizing our liquid nitrogen cooling technology.

Results of OperationsThree Months Ended June 30, 2011 and 2010

	For the three months ended June 30,			Change
	2011	2010		
Revenues	\$ 493,830	\$ 529,102	\$	(35,272)
Cost of goods sold	260,032	233,857		26,175
Gross profit	233,798	295,245		(61,447)
Operating expenses	490,739	293,378		197,361
Other income (expense)	(133,615)	(133,882)		267
Net loss	\$ (390,556)	\$ (132,015)	\$	(258,541)

Revenues decreased during the quarter ended June 30, 2011, to \$493,830 from \$529,102 for the quarter ended June 30, 2010, a decrease of \$35,272. No revenues were generated in 2011 from our ultra low temperature refrigeration technology, as we are continuing to refine and commercialize those freezer technologies. We anticipate revenues for each of the remaining reporting periods of 2011 will approximate those reported for this three month period.

As a result of the sales mix, cost of goods increased in the quarter ending June 30, 2011, as compared to June 30, 2010 to \$260,032 from \$233,857, an increase of \$26,175. Gross profit percentage decreased to 47% for the three months ended June 30, 2011, compared to 56% for the three months ended June 30, 2010. While the gross profit margin will vary by quarter depending on the mix of products sold, we are actively working to obtain more favorable pricing from our vendors in order to increase the margins realized on product sales.

Operating expenses increased in the period ended June 30, 2011, due to the recording of \$214,223 in expense related to the issuance of 11,180,000 shares of restricted common stock. There were non-cash stock compensation charges of \$59,935 for the three month period ended June 30, 2010. The following table provides an analysis of the period charges:

	For the Three Months Ended June 30		
	2011	2010	Change
Operating Expenses, excluding non-cash stock-based charges			
	\$ 242,916	\$ 233,443	\$ 9,473
Non-cash stock-based charges	247,823	59,935	187,888
Total Operating Expenses	\$ 490,739	\$ 293,378	\$ 197,361

Operating expenses, excluding the non-cash stock-based charges, were \$242,916 for the period ended June 30, 2011, an increase of \$9,473 from the \$233,443 for the three month period ended June 30, 2010. The \$247,823 in non-cash stock-based charges recorded in 2011 result from the issuance of 11,180,000 shares of restricted common stock (See Note 6). Operating expenses for each of the remaining reporting periods in 2011 are expected to remain at approximately the levels shown for the period of this report.

The net loss for the three month period ended June 30, 2011 was \$390,556, or \$0.01 per share, a \$258,541 increase from the \$132,015 loss, or \$0.01 per share, for the three month period ended June 30, 2010. The \$187,888 increase in non-cash stock-based charges accounts for a significant portion of the variance.

Six Months Ended June 30, 2011 and 2010

		For the six months ended June 30,		
		2011	2010	Change
Revenues	\$	1,081,412	\$ 1,097,286	\$ (15,874)
Cost of goods sold		555,812	531,437	24,375
Gross profit		525,600	565,849	(40,249)
Operating expenses		841,096	595,514	245,582
Other (income) expense		(267,292)	(267,700)	408
Net loss from continuing operations		(582,788)	(297,365)	(285,423)
Loss from discontinued operations		-	(199,909)	199,909
Loss on disposal of discontinued operations		-	(947,941)	947,941
Net loss	\$	(582,788)	\$ (1,445,215)	\$ 872,427

Revenues decreased during the six months ended June 30, 2011, to \$1,081,412 from \$1,097,286 for the six months ended June 30, 2010, a decrease of \$15,874. No revenues were generated in either year from the ultra cold freezer technologies.

Cost of goods sold increased to \$555,812 in the six months ending June 30, 2011, as compared to \$531,437 for the same period ended June 30, 2010, an increase of \$24,375. Gross profit percentage decreased to 49% for the six months ended June 30, 2011, compared to 52% for the six months ended June 30, 2010. The gross profit margin will vary by quarter depending on the mix of products sold, but we are actively working to receive more favorable pricing from our vendors to enable us to realize increased margins on our product sales.

Operating expenses were higher in the current period, due in large part to the non-cash stock-based charge previously discussed. Operating expenses for the remaining periods of the year are expected to remain at the levels experienced in the current quarter.

The loss from continuing operations for the six month period ended June 30, 2011 was \$582,788, a \$285,423 increase from the \$297,365 loss for the six month period ended June 30, 2010.

The loss from discontinued operations for the six months ended June 30, 2010 was \$199,909, all of which was incurred during the first two months of the period. In addition, the loss due to disposition was \$947,941. The

continuing losses incurred by the Image Labs and Miralogix subsidiary were a major consideration in our decision to divest that product line and focus our efforts on our green technology products.

The net loss for the six months ended June 30, 2011 was \$582,788, or \$0.02 per share. This compares to a loss of \$1,445,215, or \$0.04 per share, for the six months ended June 30, 2010.

Seasonality and Cyclical

We do not believe our business is cyclical.

Liquidity and Capital Resources

Our cash resources at June 30, 2011, were \$232,654, with accounts receivable of \$242,739 and inventory of \$433,958. To date we have relied on revenues and sales of equity and debt securities for our cash resources. Our working capital deficit on June 30, 2011, was \$3,399,577, due primarily to the \$2,925,000 in outstanding debentures and \$1,053,000 in accrued interest on those debentures. Working capital on December 31, 2010 was a deficit of \$3,230,424. Management is working to obtain financing to enable it to retire the outstanding debentures and provide the capital needed to commercialize the ultra low temperature freezer and refrigeration technology. There can be no assurance that funds will be available, or that terms of available funds will be acceptable to the Company. The inability of the Company to obtain funding at acceptable terms could negatively impact its ability to execute its business plan.

For the six month period ended June 30, 2011, our net cash from operating activities was \$3,569. During the six month period ended June 30, 2010 where the Company generated cash of \$90,444 from operating activities.

Off-Balance Sheet Arrangements

We lease office and warehouse space under a non-cancelable operating lease in Utah. Future minimum lease payments under the operating lease at June 30, 2011 are \$24,510 for that facility, which lease expires November 30, 2011. Future minimum payments on the new facility, which begins December 1, 2011, are \$113,500. In addition, we have an automobile lease with future minimum lease payments of \$16,302.

Forward-looking Statements

The Private Securities Litigation Reform Act of 1995 (the Act) provides a safe harbor for forward-looking statements made by or on behalf of our Company. Our Company and our representatives may from time to time make written or oral statements that are forward-looking, including statements contained in this Annual Report and other filings with the Securities and Exchange Commission and in reports to our Company's stockholders. Management believes that all statements that express expectations and projections with respect to future matters, as well as from developments beyond our Company's control including changes in global economic conditions are forward-looking statements within the meaning of the Act. These statements are made on the basis of management's views and assumptions, as of the time the statements are made, regarding future events and business performance. There can be no assurance, however, that management's expectations will necessarily come to pass. Factors that may affect forward-looking statements include a wide range of factors that could materially affect future developments and performance, including the following:

Changes in Company-wide strategies, which may result in changes in the types or mix of businesses in which our Company is involved or chooses to invest; changes in U.S., global or regional economic conditions, changes in U.S. and global financial and equity markets, including significant interest rate fluctuations, which may impede our Company's access to, or increase the cost of, external financing for our operations and investments; increased competitive pressures, both domestically and internationally, legal and regulatory developments, such as regulatory actions affecting environmental activities, the imposition by foreign countries of trade restrictions and changes in international tax laws or currency controls; adverse weather conditions or natural disasters, such as hurricanes and earthquakes, labor disputes, which may lead to increased costs or disruption of operations.

This list of factors that may affect future performance and the accuracy of forward-looking statements are illustrative, but by no means exhaustive. Accordingly, all forward-looking statements should be evaluated with the understanding of their inherent uncertainty.

Item 3. Quantitative and Qualitative Disclosure about Market Risk

Not required

Item 4. Controls and Procedures

(a)

Management's Report on Internal Control Over Financial Reporting.

As of the end of the period covered by this Quarterly Report, we carried out an evaluation, under the supervision and with the participation of our Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures. Based upon this evaluation, our Chief Executive Officer and Chief Financial Officer concluded that information required to be disclosed is recorded, processed, summarized and reported within the specified periods, and is accumulated and communicated to management, including our Chief Executive Officer and Chief Financial Officer, to allow for timely decisions regarding required disclosure of material information required to be included in our periodic Securities and Exchange Commission reports. Our disclosure controls and procedures are designed to provide reasonable assurance of achieving their objectives and our Chief Executive Officer and Chief Financial Officer have concluded that our disclosure controls and procedures are effective to a reasonable assurance level of achieving such objectives. However, it should be noted that the design of any system of controls is based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions, regardless of how remote. In addition, we reviewed our internal controls over financial reporting, and there have been no changes in our internal controls or in other factors in the last fiscal quarter that have materially affected our internal controls over financial reporting.

(b)

Changes in Internal Control Over Financial Reporting.

There were no changes in our internal control over financial reporting during the period covered by this Quarterly Report.

PART II - OTHER INFORMATION

ITEM 1. Legal Proceedings

On October 16, 2009, the Company filed a complaint in the Third District Court in the State of Utah in which it seeks the return of the stock issued for the acquisition of Cryomastor. The action alleges misrepresentation and, in addition to the return of the stock, seeks monetary damages. In May 2010 the defendant responded with the filing of a countersuit.

ITEM 2. Unregistered Sales of Equity Securities and Use of Proceeds

Recent Sales of Unregistered Securities

We have not sold any restricted securities during the three months ended June 30, 2011.

Use of Proceeds of Registered Securities

None; not applicable.

Purchases of Equity Securities by Us and Affiliated Purchasers

During the three months ended June 30, 2011, we have not purchased any equity securities nor have any officers or directors of the Company.

ITEM 3. Defaults Upon Senior Securities

As of June 30, 2011 the Company is in default on its Senior Secured Convertible Debenture. The Company was unable to repay the debenture as demanded by the debenture holders. The total amount under default was \$2,300,000 plus a default principal of 30% or \$690,000. The total amount currently in default is \$2,925,000 after \$65,000 of the debentures and penalty were converted in September 2009. Under the terms of the debenture the interest rate increases from 12% to 18% upon default. The company is not current on its interest payments.

In August 2010, management reached agreement with all but one of the debenture holders on a plan to settle the debentures held by them that are in default. The settlement agreement is contingent upon the Company making a cash payment to them in the amount of \$250,000 in full satisfaction of the indebtedness. The Company is currently working on securing the funding to enable it to fulfill the payment obligation under this agreement.
