SEMTECH CORPORATION
ANNUAL MEETING OF STOCKHOLDERS
June 6, 2002

PROXY STATEMENT

Edgar Filing: SEMTECH CORP - Form DEF 14A

The Board of Directors of Semtech Corporation (the "Company") 200 Flynn Road, Camarillo, California, 93012-8790, furnishes this Proxy Statement in connection with its solicitation of proxies to be voted at the Annual Meeting of Stockholders to be held at the Hyatt Westlake Plaza, 880 S. Westlake Boulevard, Westlake Village, California 91361 (101 Freeway, exit Westlake Boulevard) on Thursday, June 6, 2002 at 1:00 p.m., Pacific Daylight Savings Time, or at any adjournments or postponements thereof. The Company is paying the cost of this solicitation of proxies. The mailing of proxy materials will commence on or about May 10, 2002. The following is important information in a question-and-answer format regarding the Annual Meeting and this Proxy Statement.

What am I voting on?

To elect five directors (Mr. John Poe, Mr. Rockell Hankin, Mr. James Burra, Mr. Allen Orbuch and Mr. James Schraith) to hold office until the next Annual Meeting or until their successors are duly elected and qualified.

Who is entitled to vote?

Stockholders as of the close of business on April 19, 2002 (the "Record Date") are entitled to vote at the Annual Meeting. Each stockholder is entitled to one vote for each share of common stock held on the Record Date. Stockholders do not have the right to cumulate votes. These stockholders can also attend the Annual Meeting.

How do I vote?

Sign and date each proxy you receive and return it in the prepaid envelope. If you return your signed proxy but do not indicate your voting preferences, we will vote FOR the proposal on your behalf. You have the right to revoke your proxy any time before the meeting by (1) notifying the Company's Secretary, or (2) returning a later-dated proxy. You may also revoke your proxy by voting in person at the meeting.

What does it mean if I get more than one proxy card?

It means you hold shares registered in more than one account. Please sign and return all proxies to ensure that all your shares are voted.

Who will count the vote?

Representatives of Mellon Investor Services will tabulate the votes and act as inspectors of election.

What constitutes a quorum?

A majority of the outstanding shares present or represented by proxy constitutes a quorum for the Annual Meeting. As of the Record Date, 73,039,368 shares of Semtech Corporation common stock were issued and outstanding. Proxies submitted by brokers that do not indicate a vote for some of the proposals because the holders do not have discretionary voting authority and have not received instructions from the beneficial owners on how to vote on those proposals are called "broker non-votes." Abstentions and "broker non-votes" are each included in the determination of shares present and voting, with each tabulated separately. Abstentions are counted in tabulations of votes cast on proposals presented to the stockholders, whereas broker non-votes are not counted for purposes of determining whether a proposal has been approved.

How many votes are needed for approval of each item?

Edgar Filing: SEMTECH CORP - Form DEF 14A

Directors will be elected by a plurality of the votes cast in person or by proxy at the Annual Meeting, meaning the five nominees receiving the most votes will be elected directors. A stockholder may not cumulate his or her votes for individual directors.

2

What percentages of stock do the directors and officers own?

Together, they own approximately 10.9% of Semtech common stock as of January 27, 2002. (See the section titled "Beneficial Ownership of Securities")

Who are the largest principal shareholders?

The chart on pages 6 and 7 sets forth each owner of greater than 5% of the Company's common stock.

When are shareholder proposals for the 2003 meeting due?

To be considered for inclusion in next year's Proxy Statement, stockholder proposals must be submitted in writing by January 10, 2003, to the Company's Secretary, 200 Flynn Road, Camarillo, California 93012-8790. Copies of the Bylaws are available to stockholders free of charge upon request to the Company's Secretary. In addition, notice of a stockholder proposal submitted other than in the Company's Proxy Statement would be considered untimely if not received by the Company by March 26, 2003.

How do I receive additional copies of these proxy materials?

Any stockholder desiring additional proxy materials should contact David Franz, Secretary, Semtech Corporation, (805) 498-2111.

What is the Board's recommendation?

The Board recommends a vote FOR the election of each of the nominated directors.

A copy of the Company's annual report on Form 10-K, including financial statements and financial statement schedules for the fiscal year ended January 27, 2002 is available to you without charge upon written request to David Franz, Secretary, 200 Flynn Road, Camarillo, California 93012-8790.

Edgar Filing: SEMTECH CORP - Form DEF 14A

The Company has a standing Compensation and Stock Option Committee and an Audit Committee. The Company does not have a separately standing nominating committee; nominating functions are handled by the Compensation and Stock Option Committee, as discussed below. During the Company's last fiscal year, the Board of Directors held four regular meetings and one special meeting. During such fiscal year each of the incumbent Directors attended 75% or more of the sum of the number of such meetings plus the number of meetings of the committees of which such person was a member. The average attendance was over 94%. During fiscal year 2002 the Board of Directors also conducted some business by resolution without meeting, as provided in the Company's Bylaws. It is expected that the Board will meet on a regular basis during the ensuing year.

Compensation and Stock Option Committee

The Compensation and Stock Option Committee ("Compensation Committee"), comprised of Mr. Hankin, Mr. Burra, Mr. Schraith, and Mr. Orbuch, met four times during fiscal year 2002. The Compensation Committee's responsibilities include monitoring the performance of the Company's key executives; reviewing and approving executive compensation, including bonus and other incentive compensation; reviewing the Company's management succession plan; assessing the Company's overall compensation and benefit structure; and administering certain of the Company's benefit plans and the Company's stock option plans. The Compensation Committee also makes recommendations to the Board of Directors regarding the size and composition of the Board and the various Board Committees, reviews the qualifications of potential director candidates and makes recommendations to the Board with respect to nominees to be submitted to the stockholders or to be elected by the Board to fill vacancies and newly created directorships, and recommends assignment of specific directors to specific committees. The Compensation Committee will consider stockholder suggestions for nominees for director (other than self-nominations) that are submitted in writing to the Secretary of the Company and include the candidate's qualifications.

Audit Committee

The Audit Committee, comprised of Mr. Hankin, Mr. Burra, and Mr. Orbuch met seven times during fiscal year 2002. The Audit Committee's responsibilities include recommending the selection of the Company's independent auditor; reviewing the scope and results of the audit conducted by the independent auditor; reviewing the Company's accounting and financial reporting policies; reviewing the Company's financial systems and controls; and reviewing and approving the financial statements to be included in the Company's Annual Report on Form 10-K. The Audit Committee meets periodically with the Company's independent auditor without the presence of Company management. The responsibilities of the Audit Committee are more fully described in the Audit Committee's written charter, which was approved by the Board of Directors in fiscal year 2001 and included as Appendix A to the Proxy Statement for the Company's Annual Meeting held in May 2001.

Board of Directors Compensation

During fiscal 2002, the directors who are not also employees of our Company were not paid any cash compensation for their services. In 1998, the directors were converted from a cash compensation program to 100% equity based compensation. On July 15, 1998 each non-employee director received a stock option grant which vests pro-rata over five years. This option grant will compensate the non-employee directors for their service over the five-year period of July 15, 1998 to July 15, 2003 and has been granted in lieu of cash compensation. The number of options was computed by multiplying the forgone cash compensation over the five-year period by four (multiplier), and then dividing that amount by the Company's stock price on the date of grant, to compute the number of options to

Edgar Filing: SEMTECH CORP - Form DEF 14A

be granted. The multiplier was set to recognize the relative risk of taking stock options, compared to cash compensation. As a result Mr. Hankin, Vice-Chairman of the Board, was granted 49,485 stock options, and Mr. Burra, Mr. Orbuch, and Mr. Schraith were each granted 32,990 stock options. The number of options has been subsequently adjusted to reflect the two for one stock splits declared during fiscal 2000 and fiscal 2001. This plan was developed by an independent consulting firm, and was set-up to align the interests of the Board with those of stockholders, to reduce the expense associated with directors' compensation and to attract and retain high quality directors.

Each January 1 and July 1, each non-employee director also receives a stock option grant to purchase 5,000 shares at the market price as of the date of grant. These options are governed by the terms of the Company's Long Term Stock Incentive Plan, which was approved by the stockholders in June 1998 and is on file with the Securities and Exchange Commission. Directors who are Company employees are not paid fees or additional compensation for attending Board or committee meetings. Mr. Poe is currently the only employee serving on the Board.

Compensation Committee Interlocks and Insider Participation

No member of the Compensation Committee was, during fiscal year 2002, an officer or employee of the Company or any of its subsidiaries; or was formerly an officer of the Company or any of its subsidiaries. During fiscal year 2002, no executive officer of the Company served as an executive officer, director or member of the compensation committee (or other board committee performing equivalent functions, or in the absence of such committee, the entire board of directors) of another entity, one of whose executive officers served as a member of the Compensation Committee or as a director of the Company.

OPTION GRANTS IN LAST FISCAL YEAR

This table gives information about stock options we granted during fiscal 2002 to the Named Executive Officers. The hypothetical present values of stock options granted in fiscal 2002 are calculated under a modified Black-Scholes model, a mathematical formula used to value options. The actual amount realized upon exercise of stock options will depend upon the amount by which the market price of common stock on the date of exercise is greater than the exercise price. The officers will not be able to realize a gain from the stock options granted unless, during the exercise period, the market price of common stock is above the exercise price of the options.

Name	Number of Securities Underlying Options Granted (1)	Percent of Total Options Granted to Employees in Fiscal Year	Exercise Price (\$/Share)	Expiration Date	Hypothetical Present Value of Grant (2)

Wylie Plummer	0	---	---	---	
Jeffrey T. Pohlman	20,000	1.22%	\$25.67	10/03/2011	\$3

- (1) The grants to Mr. Poe, Mr. Franz and Mr. Zambelli include, respectively, option grants of 20,685, 6,466 and 2,903 at an option price of \$25.06. These grants, received under the Company's program which allows executive officers to receive up to 50% of their bonus in stock options, are immediately exercisable. The 10,000 option grant to Mr. Zambelli has a one year vesting period, all other grants shown above become exercisable in 25% increments on the first, second, third, and fourth anniversaries of the grant.
- (2) The Black-Scholes option valuation model was developed for use in estimating the fair value of traded options, which have no vesting restrictions and are fully transferable. Option valuation models also require the input of highly subjective assumptions such as expected option life and expected stock price volatility. The following assumptions were applied: (i) expected dividend yields of 0% for all periods, (ii) expected volatility rates of 86%, (iii) expected life of 5 years, and (iv) risk-free interest rates ranging from 3.88% to 4.74% for all years.

There is no assurance that the hypothetical present value of stock options presented in the table above represent the actual values of the options, and the hypothetical values shown should not be viewed as our predictions of the future value of the Company's common stock.

SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 16(a) of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), requires the Company's directors, officers and holders of more than 10% of the Company's Common Stock to file with the Securities and Exchange Commission initial reports of ownership and reports of changes of ownership of Common Stock and other equity securities of the Company. Based solely on its review of the forms received by it, or written representations from reporting persons that they were not required to file a Form 5, the Company believes that, with respect to transactions during the fiscal year ended January 27, 2002, its officers and directors complied with all Section 16(a) filing requirements, except as noted below. Stock options were granted to Mr. Poe, Mr. Franz, Mr. Raymond Bregar, and Mr. John Baumann in fiscal years 2000 and 2001 and to Mr. Zambelli in fiscal year 2000 in place of a portion of their cash bonuses. These executives did not timely report the grants on Form 5. Each had two late reports for two transactions, except Mr. Zambelli who had one late report for one transaction. Each of these individuals reported the grants on a later Form 5.

REPORT OF THE COMPENSATION AND STOCK OPTION COMMITTEE

Compensation Policies for Executive Officers

The Compensation and Stock Option Committee ("Committee") approves compensation and benefit policies applicable to the Company's executive officers and endeavors to ensure that these programs are effective in attracting and retaining key executives responsible for the success of the Company. The Committee seeks to align total compensation for senior management with both annual and long-term corporate performance. The Committee believes that a fair and motivating compensation program plays a critical role in the performance of the Company and, to that end, it reviews the program on an ongoing basis to evaluate its continued effectiveness.

The Committee believes that the Company's overall financial performance should be a significant consideration in establishing the total compensation of the Company's executive officers. In the Committee's view, at the executive officer level, a greater

12

proportion of total compensation should consist of variable, performance-based components, such as bonuses, which can increase or decrease to reflect changes in corporate and individual performance. These incentive compensation programs are intended to reinforce management's commitment to enhancement of profitability and stockholder value.

From time to time the Committee evaluates the Company's total compensation package in light of those of other analog and mixed-signal semiconductor companies of comparable size. This data is used primarily to ensure that the Company's executive compensation program as a whole is within the broad middle range of comparative pay for similar sized companies. The Committee does not target a specific position in the range of comparative data for each individual or for each component of compensation. When deemed appropriate by the Committee, independent compensation and benefits consultants are retained to assist in evaluating the Company's executive compensation programs. This provides additional assurance that the programs are reasonable and appropriate to the Company's objectives. Individual compensation for each executive officer is established in view of the comparative data and other relevant factors such as level of responsibility, prior experience, and the Committee's subjective judgment as to the individual's contribution.

The Company's compensation program has base salary, bonus, and equity-based compensation as its three principal components.

- . An individual's base salary is predicated on industry and peer group comparisons and on performance judgments as to the past and expected future contributions. In general, salaries are set based on median salaries for similar executives of similar sized companies in the high technology industry.
- . The Company has a discretionary key employee incentive pool pursuant to which executive officers and other key employees may receive annual cash bonuses. Individual bonus awards are made based on the Company's achievement of measurable items such as orders, revenue, and net income and upon attainment of the individual's personal and departmental goals and overall performance. Executive officers may elect early in the fiscal year to receive up to 50% of any bonus that may be earned in

Edgar Filing: SEMTECH CORP - Form DEF 14A

that fiscal year in the form of stock options. If a bonus is awarded (in the early part of the next fiscal year), the number of options granted in lieu of bonus is calculated by multiplying the forgone cash bonus by four and dividing the result by the market price on the date of grant. The calculated number of options are priced at the market price on the date of grant, are immediately vested, and are subject to the terms and conditions of the applicable stock option plan and award agreement.

- . Stock options are granted periodically to provide additional incentive to executives and other key employees to work to maximize long-term total return to stockholders. Most options granted by the Company prior to fiscal year 2001 had a three year vesting schedule. Most options granted since that date vest over a four year period to further encourage option holders to continue in the employ of the Company. In granting options, the Committee takes into account the number of shares, outstanding options held by the individual and the individual's performance and contribution to the Company's success.

Chief Executive Officer Compensation

In accordance with the compensation philosophy, stated above, and the Company's results, Mr. Poe's base salary during fiscal year 2002 was \$375,000, which was the same salary he earned at the end of fiscal year 2001. His base salary is designed to be competitive with base salaries paid to other chief executive officers of corporations with similar revenues and scope of operations. During fiscal year 2002, Mr. Poe received a bonus of \$259,202 based upon his performance during fiscal year 2001. This bonus was paid \$129,601 in cash, with the remaining \$129,601 being exchanged for stock options. This bonus was 86% of Mr. Poe's targeted bonus for fiscal year 2001.

For fiscal year 2002, Mr. Poe earned a bonus of \$54,900, which was 18% of target. Mr. Poe elected to receive 25% of this bonus in stock options. As a result, on February 28, 2002, Mr. Poe was granted options to purchase 1,728 shares of the Company's common stock at a price of \$31.78. The remaining \$41,175 was paid in cash in early March 2002. During fiscal year 2002, the Committee granted Mr. Poe 60,000 stock options with an exercise price at fair market value as of the date of the grant.

For federal income tax purposes, no more than \$1 million of compensation paid to the chief executive officer and the four other most highly paid executive officers may be deducted in a taxable year unless the compensation is performance based. Stock options awarded under the Company's stock option plans are intended to meet the requirements for deductible performance-based compensation.

REPORT OF THE AUDIT COMMITTEE

The Audit Committee ("Committee") of the Board of Directors is composed entirely of independent directors, as defined in the Marketplace Rules of the NASDAQ Stock Market, Inc. One of the Committee's responsibilities, as specified in its written charter adopted by the Board of Directors, is oversight of the Company's financial reporting process. In fulfilling these responsibilities, the Committee has reviewed the Company's audited financial statements for fiscal year 2002 and discussed them with the Company's management, which has the primary responsibility for the financial statements and the reporting process. As part of its review, the Committee discussed the quality, and not just the acceptability, of the accounting principles, the reasonableness of significant judgments and estimates, and the adequacy and clarity of disclosures in the financial statements.

The Committee discussed with Arthur Andersen LLP ("Andersen"), the Company's independent auditor for fiscal year 2002 who is responsible for expressing an opinion on the conformity of the Company's audited financial statements with accounting principles generally accepted in the United States, the matters that are required to be discussed under Statement on Auditing Standards No. 61, "Communications with Audit Committees". In addition, the Committee has discussed with Andersen the auditors' independence from management and the Company and has received the written disclosures and letter from Andersen that is required by Independence Standards Board Standard No. 1, "Independence Discussions with Audit Committees". The Committee also concluded that the non-audit services provided by Andersen is compatible with the auditor's independence.

Based on the reviews and discussions referred to above, the Committee recommended to the Board of Directors that the audited financial statements be included in the Annual Report on Form 10-K for the year ended January 27, 2002 for filing with the Securities and Exchange Commission.

APPOINTMENT OF INDEPENDENT PUBLIC ACCOUNTANT

The firm of Arthur Andersen LLP ("Andersen"), certified public accountants, has been the Company's independent public accountant since the Company's inception and is familiar with our business, accounting system, and financial controls. Due to the events and uncertainty now surrounding Andersen, we are not asking

Edgar Filing: SEMTECH CORP - Form DEF 14A

stockholders to ratify the appointment of independent accountant to audit the Company's financial statements for fiscal year 2003. Ratification of the independent accountant is not required by the Company's Bylaws or applicable law, but has historically been submitted to stockholders as a matter of good corporate practice.

Early in fiscal year 2003, Company management, the Audit Committee, and the Board of Directors reviewed Andersen's qualifications to continue as the Company's independent accountant and authorized Andersen to complete the audit of the fiscal year 2002 financial statements then underway. The Company has not yet selected an independent accountant for fiscal year 2003, but is working with Andersen in regard to a review of its financial statements for the first quarter of fiscal year 2003. Management and the Audit Committee continue to carefully monitor and evaluate Andersen's qualifications and capabilities and may find it appropriate to change to another independent accountant as the situation evolves.

Representatives of Andersen are expected to be present at the Meeting. They will have the opportunity to make a statement, if they so desire, and to respond to appropriate questions from stockholders.
