(2) Pursuant to Rule 416, this registration statement also covers any additional shares of Class A common stock which become issuable by reason of any stock dividend, stock split, recapitalization or other similar transaction.

The registrant hereby amends this registration statement on such date or dates as may be necessary to delay its effective date until the registrant shall file a further amendment which specifically states that this registration statement shall thereafter become effective in accordance with Section 8(a) of the Securities Act of 1933 or until the registration statement shall become effective on such date as the Commission, acting pursuant to said Section 8(a), may determine.

The information in this prospectus is not complete and may be changed. We may not sell these securities until the registration statement filed with the Securities and Exchange Commission is effective. This prospectus is not an offer to sell these securities and it is not soliciting an offer to buy these securities in any state where the offer or sale is not permitted.

Subject to Completion, Dated July 14, 2004

**6,110,738 Shares
ITERIS HOLDINGS, INC.
Class A Common Stock**

This prospectus relates to the offering from time to time of a total of 6,110,738 shares of Class A common stock of Iteris Holdings, Inc. (formerly known as Odetics, Inc.), a Delaware corporation, or interests therein by the selling stockholders listed on page 44 and their transferees. All of these shares were issued or are issuable to the selling stockholders in connection with a private placement completed in May 2004 and a share exchange completed in June 2004. The prices at which the selling stockholders may sell their shares will be determined by the prevailing market price for their shares or in negotiated transactions. We will not receive any of the proceeds from the sale of these shares.

We have two classes of common stock outstanding: Class A common stock and Class B common stock. The rights, preferences and privileges of each class of common stock are identical in all respects except for voting and conversion rights. As of the date of this prospectus, the holders of the Class A common stock are entitled to elect 25% of the Board of Directors rounded up to the nearest whole number, or two directors, and the holders of the Class A common stock and the Class B common stock, voting together as a single class, are entitled to elect the balance of the Board, or six directors. On all other matters to be addressed by a stockholder vote, the holders of Class A common stock have one-tenth of one vote per share held and the holders of Class B common stock have one vote per share held. In addition, each share of Class B common stock is convertible into one share of Class A common stock at the option of the holder of such Class B common stock.

Our Class A common stock and our Class B common stock are quoted on the OTC Bulletin Board under the symbols "ITRSA.OB" and "ITRSB.OB," respectively. On July 9, 2004, the last reported sale price for the Class A common stock was \$3.35 per share. The last reported sale of the Class B common stock occurred on April 19, 2004 at a price of \$3.00 per share.

You should carefully consider the risk factors beginning on page 5 of this prospectus before purchasing any of the Class A common stock offered by this prospectus.

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities, or passed on the accuracy or adequacy of the disclosures in this prospectus. Any representation to the contrary is a criminal offense.

The date of this prospectus is July 14, 2004.

PROSPECTUS SUMMARY

This summary highlights selected information in this document and may not contain all of the information that is important to you. You should carefully read the entire prospectus, including "Risk Factors" and the consolidated financial statements and related notes, before making an investment decision. This summary and the balance of this document contain forward-looking statements about events that are not certain to occur, and you should not place undue reliance on those statements. Please carefully read "Forward-Looking Statements" at page 12 of this document. The information in this prospectus is complete and accurate as of its date, but the information may change after that date. References to "we," "us" and "our" are references to Iteris Holdings, Inc. and, where applicable, its subsidiaries.

Our Company

Iteris Holdings, Inc. is the majority stockholder of Iteris, Inc., a leading provider of outdoor machine vision systems and sensors that optimize the flow of traffic and enhance driver safety. Using our proprietary software and Intelligent Transportation Systems ("ITS") industry expertise, we provide video sensor systems and transportation management and traveler information systems for the ITS industry. The ITS industry is comprised of companies applying a variety of technologies to enable the safe and efficient movement of people and goods. We use our outdoor image recognition software expertise to develop proprietary algorithms for video sensor systems that improve vehicle safety and the flow of traffic. Using our knowledge of the ITS industry, we design and implement transportation management systems that help public agencies reduce traffic congestion and provide greater access to traveler information.

Our proprietary image recognition systems include AutoVue™ and Vantage™. AutoVue is a small windshield mounted sensor that uses proprietary software to detect and warn drivers of unintended lane departures. Iteris, Inc. has approximately 6,000 production AutoVue units that are in use on truck platforms in the European market and are offered as an option on certain Actros trucks, which are part of the Daimler group. We believe that AutoVue is a broad sensor platform that, through additional software development, may be expanded to incorporate additional safety and convenience features. Vantage is a video vehicle sensing system that detects the presence of vehicles at signalized intersections enabling a more efficient allocation of green signal time.

Our transportation management systems include the design, development and implementation of our software-based systems that integrate sensors, video surveillance, computers and advanced communications equipment to enable public agencies to monitor, control and direct traffic flow, assist in the quick dispatch of emergency crews and distribute real-time information about traffic conditions. Our services include planning and other engineering for the implementation of transportation related communications systems, analysis and study related to goods movement and commercial vehicle operations, and parking systems designs.

Iteris Holdings, Inc. was incorporated in Delaware in October 1987 as Odetics, Inc. and changed its name to Iteris Holdings, Inc. in September 2003 in order to communicate our focus on our ITS business. Our Class A common stock and our Class B common stock is currently traded on the OTC Bulletin Board under the symbols "ITRSA.OB" and "ITRSB.OB," respectively. Our principal executive offices are located at 1515 South Manchester Avenue, Anaheim, California 92802, and our telephone number is (714) 774-5000. Our website is www.iteris.com. Information available on our website does not constitute part of this prospectus.

RISK FACTORS

Our business is subject to a number of risks, some of which are discussed below. You should consider the following risks carefully in addition to the risks and information contained elsewhere in this prospectus before purchasing shares of our common stock. The risks and uncertainties described below are not the only ones facing us. Additional risks and uncertainties not presently known to us or that we currently deem immaterial may also affect our business operations. If any of these risks actually occur, our business, financial condition or results of operations could be seriously harmed. In that event, the market price for our common stock could decline and you may lose all or part of your investment.

We Have Experienced Substantial Losses And May Continue To Experience Losses For The Foreseeable Future. We experienced net income of \$7,000 in the year ended March 31, 2004 and a net loss of \$13.1 million in the year ended March 31, 2003. While we have divested all of our business units other than our Iteris, Inc. subsidiary, we cannot assure you that our efforts to downsize our operations or reduce our operating expenses will improve our financial performance, or that we will be able to achieve profitability on a quarterly or annual basis in the future. Most of our expenses are fixed in advance. As such, we generally are unable to reduce our expenses significantly in the short-term to compensate for any unexpected delay or decrease in anticipated revenues. As a result, we may continue to experience operating losses and net losses, which would make it difficult to fund our operations and achieve our business plan, and could cause the market price of our common stock to decline.

We May Need To Raise Additional Capital In The Future, But We May Not Be Able To Secure Adequate Funds On Terms Acceptable To Us, Or At All. We have generated significant net losses and operating losses in recent periods, and have experienced negative cash flows from operations of \$718,000 in the year ended March 31, 2004, \$4.8 million in the year ended March 31, 2003 and \$18.2 million in the year ended March 31, 2002. Although in May 2004, we completed a \$10.1 million convertible debenture financing and closed a \$5.0 million term loan, the majority of the proceeds from such financings were used to purchase the preferred stock of Iteris, Inc. held by outside investors. We may need to raise additional capital in the future to fund our operations or to purchase the minority interests in Iteris, Inc. Our Iteris, Inc. subsidiary currently maintains a line of credit with a maximum availability of \$5.0 million, which expires in August 2005. Substantially all of the assets of Iteris, Inc. have been pledged to the lender to secure the outstanding indebtedness under this facility (\$0 was outstanding under the line of credit at March 31, 2004).

We may raise additional capital in the near future, either through bank borrowings, or other debt or equity financings. We cannot assure you that any additional capital will be available on a timely basis, on acceptable terms, or at all.

Our capital requirements will depend on many factors, including, but not limited to:

our ability to control costs;

market acceptance of our products and the overall level of sales of our products;

our ability to generate operating income;

increased research and development funding, and required investments in our Iteris, Inc. subsidiary;

increased sales and marketing expenses;

technological advancements and our competitors' response to our products;

capital improvements to new and existing facilities;

potential acquisitions of businesses and product lines;

our relationships with customers and suppliers; and

general economic conditions, including the effects of the current economic slowdown and international conflicts.

If our capital requirements are materially different from those currently planned, we may need additional capital sooner than anticipated. If additional funds are raised through the issuance of equity or convertible debt securities, the percentage ownership of our stockholders will be reduced and such securities may have rights, preferences and privileges senior to our common stock. Additional financing may not be available on favorable terms or at all. If adequate funds are not available or are not available on acceptable terms, we may be unable to continue our operations as planned, develop or enhance our products, expand our sales and marketing programs, take advantage of future opportunities or respond to competitive pressures,

We Have Adopted A New Operating Strategy, Which Is Untried And Exposes Us To New Risks. We recently divested ourselves of many of our business units and significantly scaled back our operations in order to focus on the business of our Iteris, Inc. subsidiary. We have abandoned our strategy of incubating emerging companies, which historically required us to make significant investments in new business units. Our current business strategy is narrow and untried, and there is no assurance that our new business strategy or the continued execution of the Iteris, Inc. business will be successful.

The Trading Price Of Our Common Stock Is Highly Volatile And Our Shares Are Listed On The OTC Bulletin Board. As Such, It May Be Difficult To Resell Your Shares Of Stock At Or Above The Price You Paid For Them Or At All. The trading price of our common stock has been subject to wide fluctuations in the past. Since January 2000, our Class A common stock has traded at prices as low as \$0.45 per share and as high as \$29.44 per share and our Class B common stock has traded at prices as low as \$0.20 per share and as high as \$29.62 per share. In 2003, because we failed to meet the minimum stockholder's equity and minimum share price requirements for continued listing on the Nasdaq SmallCap Market, both our Class A common stock and Class B common stock were delisted from the Nasdaq SmallCap Market and currently trade on the OTC Bulletin Board. As such, the average daily trading volume of common stock has decreased, and it may be more difficult for you to sell your shares in the future at or above the price you paid for them, or at all. This delisting may also make it more difficult for us to raise additional funds in the future. In addition, our securities are subject to "penny stock" restrictions, including Rule 15g-9 under the Securities Exchange Act of 1934, as amended, which imposes additional sales practice requirements on broker-dealers, such as requirements pertaining to the suitability of the investment for the purchaser and the delivery of specific disclosure materials and monthly statements. Consequently, the liquidity of our securities could be impaired, not only in the number of securities that can be bought and sold, but also through delays in the timing of the transactions, reduction in security analysts' and the news media's coverage of us, adverse effects on the ability of broker-dealers to sell our securities, and lower prices for our securities than might otherwise be obtained.

The market price of our common stock could continue to fluctuate in the future in response to various factors, including, but not limited to:

quarterly variations in operating results;

our ability to control costs and improve cash flow;

our ability to raise additional capital or repurchase the minority interest in Iteris, Inc.;

shortages announced by suppliers;

announcements of technological innovations or new products or applications by our competitors, customers or us;

acquisitions or businesses, products or technologies;

the impact of any litigation;

changes in investor perceptions;

changes in earnings estimates or investment recommendations by securities analysts; and

international conflicts, political unrest and acts of terrorism.

The stock market in general has recently experienced volatility, which has particularly affected the market prices of equity securities of many technology companies. This volatility has often been unrelated to the operating performance of these companies. These broad market fluctuations may adversely affect the market price of our common stock. In the past, companies that have experienced volatility in the market price of their securities have been the subject of securities class action litigation. If we were to become the subject of a class action lawsuit, it could result in substantial losses and divert management's attention and resources from other matters.

We Depend On Government Contracts And Subcontracts, And Because Many Of Our Government Contracts Are Fixed Price Contracts, Higher Than Anticipated Costs Will Reduce Our Profit And Could Adversely Impact Our Operating Results. A significant portion of the sales by Iteris, Inc. were derived from contracts with governmental agencies, either as a general contractor, subcontractor or supplier. Government contracts represented approximately 54.0%, 54.0% and 48.0% of our total net sales and contract revenues for the years ended March 31, 2002, 2003 and 2004, respectively. We anticipate that revenue from government contracts will continue to increase in the near future. Government business is, in general, subject to special risks and challenges, including:

long purchase cycles or approval processes;

competitive bidding and qualification requirements;

the impact of international conflicts;

performance bond requirements;

changes in government policies and political agendas;

delays in funding, budgetary constraints and cut-backs; and

milestone requirements and liquidated damage provisions for failure to meet contract milestones

In addition, a large number of our government contracts are fixed price contracts. As a result, we may not be able to recover any cost overruns we may incur. These fixed price contracts require us to estimate the total project cost based on preliminary projections of the project's requirements. The financial viability of any given project depends in large part on our ability to estimate these costs accurately and complete the project on a timely basis. In the event our costs on these projects exceed the fixed contractual amount, we will be required to bear the excess costs. These additional costs adversely affect our financial condition and results of operations. Moreover, certain of our government contracts are subject to termination or renegotiation at the convenience of the government, which could result in a large decline in our net sales in any given quarter. Our inability to address any of the foregoing concerns or the loss or renegotiation of any material government contract could seriously harm our business, financial condition and results of operations.

Economic Slowdown And Related Uncertainties Could Adversely Impact The Demand For Our Products. Concerns about inflation, decreased consumer confidence, reduced corporate profits and capital spending, and recent international conflicts and terrorist and military actions have resulted in a downturn in worldwide economic conditions, particularly in the United States. These unfavorable economic conditions may have a negative impact on customer orders, cancellations and rescheduling of backlog. In addition, recent political and social turmoil related to international conflicts and terrorist acts can be expected to put further pressure on economic conditions in the U.S. and worldwide. These political, social and economic conditions make it extremely difficult for our customers, our suppliers

and us to accurately forecast and plan future business activities. If such conditions continue or worsen, our business, financial condition and results of operations will likely be materially and adversely affected.

Our Quarterly Operating Results Fluctuate As A Result Of Many Factors. Therefore, We May Fail To Meet Or Exceed The Expectations Of Securities Analysts And Investors, Which Could Cause Our Stock Price To Decline. Our quarterly revenues and operating results have fluctuated and are likely to continue to vary from quarter to quarter due to a number of factors, many of which are not within our control. Factors that could affect our revenues include, among others, the following:

our ability to raise additional capital and repurchase the minority interest in Iteris, Inc.;

our ability to control costs;

international conflicts and acts of terrorism;

our ability to develop, introduce, market and gain market acceptance of new products, applications and product enhancements in a timely manner, or at all;

the size, timing, rescheduling or cancellation of significant customer orders;

the introduction of new products by competitors;

the availability of components used in the manufacture of our products;

changes in our pricing policies and the pricing policies by our suppliers and competitors, pricing concessions on volume sales, as well as increased price competition in general;

the long lead times associated with government contracts or required by vehicle manufacturers;

our success in expanding and implementing our sales and marketing programs; the effects of technological changes in our target markets;

our relatively small level of backlog at any given time;

the mix of our sales;

deferrals of customer orders in anticipation of new products, applications or product enhancements;

risks and uncertainties associated with our international business;

currency fluctuations and our ability to get currency out of certain foreign countries; and

general economic and political conditions.

Edgar Filing: ITERIS HOLDINGS INC - Form S-1

Due to all of the factors listed above and, our future operating results could be below the expectations of securities analysts or investors. If that happens, the trading price of our common stock could decline. As a result of these quarterly variations, you should not rely on quarter-to-quarter comparisons of our operating results as an indication of our future performance.

If We Do Not Keep Pace With Rapid Technological Changes And Evolving Industry Standards, We Will Not Be Able To Remain Competitive And There Will Be No Demand For Our Products. Our markets are in general characterized by the following factors:

rapid technological advances;

downward price pressure in the marketplace as technologies mature;

changes in customer requirements;

frequent new product introductions and enhancements; and

evolving industry standards and changes in the regulatory environment.

Edgar Filing: ITERIS HOLDINGS INC - Form S-1

Our future success will depend upon our ability to anticipate and adapt to changes in technology and industry standards, and to effectively develop, introduce, market and gain broad acceptance of new products and product enhancements incorporating the latest technological advancements.

We believe that we must continue to make substantial investments to support ongoing research and development in order to remain competitive. We need to continue to develop and introduce new products that incorporate the latest technological advancements in outdoor image processing hardware, software and camera technologies in response to evolving customer requirements. Our business and results of operations could be adversely affected if we do not anticipate or respond adequately to technological developments or changing customer requirements. We cannot assure you that any such investments in research and development will lead to any corresponding increase in revenue.

If We Are Unable To Develop And Introduce New Products And Product Enhancements Successfully And In A Cost-Effective And Timely Manner, Or To Achieve Market Acceptance Of Our New Products, Our Operating Results Would Be Adversely Affected. We believe our revenue growth and future operating results will depend on our ability to complete development of new products and enhancements, introduce these products in a timely, cost-effective manner, achieve broad market acceptance of these products and enhancements, and reduce our product costs. We may not be able to introduce any new products or any enhancements to our existing products on a timely basis, or at all. In addition, the introduction of any new products could adversely affect the sales of certain of our existing products. Our future success will also depend in part on the success of several products including AutoVue, our lane departure warning system. We currently outsource the manufacture of our AutoVue product line to a single manufacturer. This manufacturer may not be able to produce sufficient quantities of this product in a timely manner or at a reasonable cost, which could materially and adversely affect our ability to launch or gain market acceptance of AutoVue.

Market acceptance of our new products depends upon many factors, including our ability to accurately predict market requirements and evolving industry standards, our ability to resolve technical challenges in a timely and cost-effective manner and achieve manufacturing efficiencies, the perceived advantages of our new products over traditional products and the marketing capabilities of our independent distributors and strategic partners. Our business and results of operations could be seriously harmed by any significant delays in our new product development. Certain of our new products could contain undetected design faults and software errors or "bugs" when first released by us, despite our testing. We may not discover these faults or errors until after a product has been installed and used by our customers. Any faults or errors in our existing products or in any new products may cause delays in product introduction and shipments, require design modifications or harm customer relationships, any of which could adversely affect our business and competitive position.

The Markets In Which We Operate Are Highly Competitive And Have Many More Established Competitors, Which Could Adversely Affect Our Sales Or The Market Acceptance Of Our Products. We compete with numerous other companies in our target markets including, but not limited to, large, multinational corporations and many smaller regional engineering firms. We expect such competition to increase due to technological advancements, industry consolidations and reduced barriers to entry. Increased competition is likely to result in price reductions, reduced gross margins and loss of market share, any of which could seriously harm our business, financial condition and results of operations. Many of our competitors have far greater name recognition and greater financial, technological, marketing and customer service resources than we do. This may allow them to respond more quickly to new or emerging technologies and changes in customer requirements. It may also allow them to devote greater resources to the development, promotion, sale and support of their products than we can. Recent consolidations of end users, distributors and manufacturers in our target markets have exacerbated this problem. As a result of the foregoing factors, we may not be able to compete effectively in our target markets and competitive pressures could adversely affect our business, financial condition and results of operations.

We May Be Unable To Attract And Retain Key Personnel, Which Could Seriously Harm Our Business. Due to the specialized nature of our business, we are highly dependent on the continued service of our executive officers and other key management, engineering and technical personnel, particularly Gregory A. Miner, our current Chief Executive Officer and Chief Financial Officer, and Jack Johnson, the Chief Executive Officer of Iteris, Inc. In connection with the roll-up merger of Iteris, Inc. into Iteris Holdings, we announced that Mr. Johnson will be appointed to serve as the Chief Executive Officer of Iteris Holdings, and Mr. Miner will assume the role as Chairman of the Board of Iteris Holdings. The loss of any of these individuals or the transition of Mr. Miner to his new role could adversely affect our business, financial condition or results of operations. Our success will also depend in large part upon our ability to continue to attract, retain and motivate qualified engineering and other highly skilled technical personnel. Competition for employees, particularly development engineers, is intense. We may not be able to continue to attract and retain sufficient numbers of such highly skilled employees. Our inability to attract and retain additional key employees or the loss of one or more of our current key employees could adversely affect our business, financial condition and results of operations.

We May Not be Able To Adequately Protect Or Enforce Our Intellectual Property Rights, Which Could Harm Our Competitive Position. If we are not able to adequately protect or enforce the proprietary aspects of our technology, competitors could be able to access our proprietary technology and our business, financial condition and results of operations will likely be seriously harmed. We currently attempt to protect our technology through a combination of patent, copyright, trademark and trade secret laws, employee and third party nondisclosure agreements and similar means. Despite our efforts, other parties may attempt to disclose, obtain or use our technologies or systems. Our competitors may also be able to independently develop products that are substantially equivalent or superior to our products or design around our patents. In addition, the laws of some foreign countries do not protect our proprietary rights as fully as do the laws of the United States. As a result, we may not be able to protect our proprietary rights adequately in the United States or abroad.

From time to time, we have received notices that claim we have infringed upon the intellectual property of others. Even if these claims are not valid, they could subject us to significant costs. We have engaged in litigation in the past, and litigation may be necessary in the future to enforce our intellectual property rights or to determine the validity and scope of the proprietary rights of others. Litigation may also be necessary to defend against claims of infringement or invalidity by others. An adverse outcome in litigation or any similar proceedings could subject us to significant liabilities to third parties, require us to license disputed rights from others or require us to cease marketing or using certain products or technologies. We may not be able to obtain any licenses on terms acceptable to us, or at all. We also may have to indemnify certain customers or strategic partners if it is determined that we have infringed upon or misappropriated another party's intellectual property. Any of these results could adversely affect our business, financial condition and results of operations. In addition, the cost of addressing any intellectual property litigation claim, both in legal fees and expenses, and the diversion of management's resources, regardless of whether the claim is valid, could be significant and could seriously harm our business, financial condition and results of operations.

We May Engage In Acquisitions Of Companies or Technologies That May Require Us To Undertake Significant Capital Infusions And Could Result In Disruptions Of Our Business And Diversion Of Resources And Management Attention. We have historically, and may in the future, acquire complementary businesses, products and technologies. Acquisitions may require significant capital infusions and, in general, acquisitions also involve a number of special risks, including:

potential disruption of our ongoing business and the diversion of our resources and management's attention;

the failure to retain or integrate key acquired personnel;

the challenge of assimilating diverse business cultures, and the difficulties in integrating the operations, technologies and information system of the acquired companies;

increased costs to improve managerial, operational, financial and

administrative systems and to eliminate duplicative services;

the incurrence of unforeseen obligations or liabilities;

potential impairment of relationships with employees or customers as a result of changes in management; and

increased interest expense and amortization of acquired intangible assets.

Our competitors are also soliciting potential acquisition candidates, which could both increase the price of any acquisition targets and decrease the number of attractive companies available for acquisition. Acquisitions may also materially and adversely affect our operating results due to large write-offs, contingent liabilities, substantial depreciation, deferred compensation charges or intangible asset amortization, or other adverse tax or audit consequences. We cannot assure you that we will be able to identify or consummate any additional acquisitions, successfully integrate any acquisitions or realize the benefits anticipated from any acquisition.

Some Of Our Directors, Officers And Their Affiliates Can Control The Outcome Of Matters That Require The Approval Of Our Stockholders, And Accordingly We Will Not Be Able To Engage In Certain Transactions Without Their Approval. As of March 31, 2004, our officers and directors beneficially owned approximately 11.4% of the total combined voting power of the outstanding shares of our Class A common stock and Class B common stock. As a result of their stock ownership, our management will be able to significantly influence the election of our directors and the outcome of corporate actions requiring stockholder approval, such as mergers and acquisitions, regardless of how our other stockholders may vote. This concentration of voting control may have a significant effect in delaying, deferring or preventing a change in our management or change in control and may adversely affect the voting or other rights of other holders of common stock.

Our Stock Structure And Certain Anti-Takeover Provisions May Affect The Price Of Our Common Stock And Discourage A Third Party From Acquiring Us. Certain provisions of our certificate of incorporation and our stockholder rights plan could make it difficult for a third party to acquire us, even though an acquisition might be beneficial to our stockholders. These provisions could limit the price that investors might be willing to pay in the future for shares of our common stock. Our Class A common stock entitles the holder to one-tenth of one vote per share and our Class B common stock entitles the holder to one vote per share. The disparity in the voting rights between our common stock, as well as our insiders' significant ownership of the Class B common stock, could discourage a proxy contest or make it more difficult for a third party to effect a change in our management and control. In addition, our Board of Directors is authorized to issue, without stockholder approval, up to 2,000,000 shares of preferred stock with voting, conversion and other rights and preferences superior to those of our common stock, as well as additional shares of Class B common stock. Our future issuance of preferred stock or Class B common stock could be used to discourage an unsolicited acquisition proposal.

In March 1998, we adopted a stockholder rights plan and declared a dividend of preferred stock purchase rights to our stockholders. In the event a third party acquires more than 15% of the outstanding voting control of our company or 15% of our outstanding common stock, the holders of these rights will be able to purchase the junior participating preferred stock at a substantial discount off of the then current market price. The exercise of these rights and purchase of a significant amount of stock at below market prices could cause substantial dilution to a particular acquirer and discourage the acquirer from pursuing our company. The mere existence of a stockholder rights plan often delays or makes a merger, tender offer or proxy contest more difficult.

FORWARD-LOOKING STATEMENTS

All statements included in this prospectus, other than statements or characterizations of historical fact, are forward-looking statements. Examples of forward-looking statements include, but are not limited to, statements concerning projected expenses, growth in revenue from government contracts, our ability to control costs, our accounting estimates, assumptions and judgments, the investment in research and development for our subsidiaries and business units, the market acceptance and performance of our products, the competitive nature of our markets, our ability to achieve product integration, the status of, and our ability to keep pace with, evolving technologies, the development and market acceptance of new product introductions, the adoption of future industry standards, our production capacity, our ability to consummate acquisitions and integrate their operations successfully, the need for additional capital, our ability to raise capital, and our ability to achieve profitability, monetize and spin-off any of our business units. These forward-looking statements are based on our current expectations, estimates and projections about our industry, management's beliefs, and certain assumptions made by us. Forward-looking statements can often be identified by words such as "anticipates," "expects," "intends," "plans," "predicts," "believes," "seeks," "estimates," "may," "will," "should," "would," "potential," "continue," similar expressions and variations or negatives of these words. In addition, any statements that refer to expectations, projections or other characterizations of future events or circumstances, including any underlying assumptions, are forward-looking statements. These forward-looking statements speak only as of the date of this prospectus and are based upon the information available to us at this time. Such information is subject to change, and we will not necessarily inform you of such changes. These statements are not guarantees of future performance and are subject to risks, uncertainties and assumptions that are difficult to predict. Therefore, our actual results could differ materially and adversely from those expressed in any forward-looking statements as a result of various factors, some of which are listed under the section "Risk Factors" beginning on page 5 of this prospectus. We undertake no obligation to revise or update publicly any forward-looking statements for any reason.

USE OF PROCEEDS

The shares of Class A common stock offered by this prospectus will be sold by the selling stockholders, and the selling stockholders will receive all of the proceeds from sales of such shares. We will not receive any proceeds from sales of the shares offered by this prospectus. However, we will receive the proceeds from the exercise of the warrants held by the selling stockholders and those proceeds will be used for our general corporate purposes.

PRICE RANGE OF COMMON STOCK

Our Class A common stock and Class B common stock are quoted on the OTC Bulletin Board under the symbols "ITRSA.OB" and "ITRSB.OB," respectively. Our Class A common stock and our Class B common stock were delisted from the Nasdaq SmallCap Market in August 2003, and April 2003, respectively, and is currently quoted on the OTC Bulletin Board. Prior to that, our Class A common stock and Class B common stock were listed on the Nasdaq National Market. The following table sets forth for the fiscal periods indicated the high and low sales prices for the Class A common stock and Class B common stock as reported by the Nasdaq SmallCap Market or the OTC Bulletin Board for applicable periods.

As of July 1, 2004, we had 507 holders of record of Class A common stock and 96 holders of record of Class B common stock according to information furnished by our transfer agent.

DIVIDEND POLICY

We have never paid or declared cash dividends on either class of our common stock, and have no current plans to pay such dividends in the foreseeable future. We currently intend to retain any earnings for working capital and general corporate purposes. The payment of any future dividends will be at the discretion of our Board of Directors, and will depend upon a number of factors, including, but not limited to, future earnings, the success of our business, activities, our capital requirements, our general financial condition and future prospects, general business conditions, the consent of our lender and such other factors as the Board may deem relevant.

SELECTED CONSOLIDATED FINANCIAL DATA

The following table sets forth our selected consolidated financial data for each of the five fiscal years ended March 31, 2004. The statement of operations and balance sheet data for the years ended and as of March 31, 2000, 2001, 2002, 2003 and 2004 are derived from our audited consolidated financial statements. The accompanying consolidated financial statements have been restated to reflect the classification and presentation of Broadcast, Inc., Zyfer Inc., Mariner Networks, Inc., Gyyr, Inc. and MAXxess Systems, Inc. as discontinued operations for all periods presented. See Note 1 to the accompanying consolidated financial statements. The following information should be read in conjunction with "Management's Discussion and Analysis of Financial Condition and Results of Operations" and with our consolidated financial statements and the related notes thereto included elsewhere in this prospectus.

**MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION
AND RESULTS OF OPERATIONS.**

You should read the following discussion in conjunction with our consolidated financial statements and the related notes and other financial information appearing elsewhere in this prospectus. In addition to historical information, the following discussion and other parts of this document contain forward-looking information that involves risk and uncertainties. Our actual results could differ materially from those anticipated by such forward-looking information due to factors discussed under the sections entitled "Risk Factors," "Business" and elsewhere in this document. We undertake no obligation to revise or update publicly any forward-looking statement for any reason.

Overview

We have historically operated multiple business units. During the fiscal year ended March 31, 2003 ("fiscal 2003"), we operated in three business segments consisting of intelligent transportation systems ("ITS"), video products and telecom products. The ITS segment consisted of our majority-owned subsidiary, Iteris, Inc., which designs, develops, markets and implements video sensor systems and transportation management and traveler information systems for the ITS industry. The video products segment consisted of our former wholly-owned subsidiaries, MAXxess Systems, Inc. (previously known as Gyr Inc.), which designed and manufactured security management systems, and Broadcast, Inc., which developed and supplied software based systems to automate and control the multiple classes of equipment used in broadcast studios and satellite uplink facilities. Our telecom segment consisted of our wholly-owned subsidiary, Zyfer, Inc., which developed and manufactured timing and synchronization products and which, prior to its incorporation, was operated as our Communications division.

Beginning in the fiscal year ended March 31, 2001 ("fiscal 2001"), we began divesting certain of our business units in order to reduce our operating expenses and to focus on what we believe is our core business, Iteris, Inc. These divestitures and related restructuring included the following transactions:

In September 2001, we sold substantially all of the assets and certain liabilities of the Gyr CCTV Products line for \$8.8 million and changed the name of Gyr to MAXxess Systems, Inc.

In September 2001, we discontinued the operations of Mariner Networks, Inc., our former wholly-owned subsidiary that was historically part of our telecom segment.

As a result of the sale of the Gyr CCTV Products line and the discontinuation of Mariner Networks, we reorganized our European operations and further reduced our overall staffing levels. The reorganization of the European operations included the discontinuation of our Odetics Europe Ltd., Gyr Europe Ltd., Mariner France and Mariner Europe Ltd. operations, and the transition of our Broadcast and MAXxess international operations to branch office operations with the intent of lowering our international costs. In connection with this restructuring, 34 employees were terminated in the quarter ended December 31, 2001 and 78 employees were terminated in the quarter ended March 31, 2002.

In March 2003, we ceased the development and sale of any new Broadcast products and in September 2003, we sold the balance of our Broadcast business.

In May 2003, we sold the assets of Zyfer for a purchase price of \$2.3 million in cash and the assumption of liabilities, plus future incentive payments of up to \$1.0 million in each of the twelve months ended April 30, 2004 and 2005. The amount of these future incentive payments will be based on the revenues generated by the sale of Zyfer's products or the license of its technologies.

Edgar Filing: ITERIS HOLDINGS INC - Form S-1

In September 2003, we sold substantially all of the assets of MAXxess to an investor group that included certain members of the MAXxess management group. The consideration for the sale consisted of the assumption of \$2.7 million of liabilities, resulting in a net gain of \$2.3 million on this sale.

Our financial statements for all periods presented in this prospectus have been restated to reflect the discontinuation of the operations of Gyyr, Broadcast, Zyfer, Mariner Networks and MAXxess and, accordingly, only reflect the operations of Iteris, Inc.

In May 2004, we completed the private placement of \$10.1 million in subordinated convertible debentures and a \$5.0 million senior term credit facility and purchased all of the outstanding preferred stock of our Iteris, Inc. subsidiary for \$17.5 million in cash, which shares were held by DaimlerChrysler Ventures GmbH ("DCV") and Hockenheim Investment Pte. Ltd. ("Hockenheim"). DCV exchanged its common stock in Iteris, Inc. for shares of Class A common stock of Iteris Holdings as a part of this transaction.

On June 30, 2004, we entered into an exchange agreement with certain of the holders of the common stock of Iteris, Inc., pursuant to which such holders agreed to exchange an aggregate of 1,319,541 shares of Iteris, Inc. common stock for an aggregate of 2,639,082 shares of Iteris Holdings Class A common stock. The exchange of shares is part of a plan to merge Iteris, Inc. into Iteris Holdings, pursuant to which all of the outstanding shares of common stock of Iteris, Inc. will convert into shares of Class A common stock of Iteris Holdings. The final step in this roll-up transaction is anticipated to be completed within the next six months and is subject to the approval of the California Department of Corporations. The foregoing transactions are part of our plan of reorganization to consolidate Iteris, Inc. into and with Iteris Holdings.

Iteris Holdings currently operates in two reportable segments: Sensors and Systems. The Sensors segment includes Vantage vehicle detection systems for traffic intersection control and AutoVue sensors for in vehicle safety. The Systems segment includes transportation engineering and consulting activities.

Critical Accounting Policies And Estimates

Management's Discussion and Analysis of Financial Condition and Results of Operations is based on our consolidated financial statements included herein, which have been prepared in accordance with accounting principles generally accepted in the United States. The preparation of these financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and related disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. On an ongoing basis, we evaluate these estimates and assumptions, including those related to the collectibility of accounts receivables, the valuation of inventories, the recoverability of long-lived assets, including goodwill, and reserves for restructuring and related activities. We base these estimates on historical experience and on various other factors that we believe to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. These estimates and assumptions by their nature involve risks and uncertainties, and may prove to be inaccurate. In the event that any of our estimates or assumptions are inaccurate in any material respect, it could have a material adverse effect on our reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period.

The following critical accounting policies affect our more significant judgments and estimates used in the preparation of our consolidated financial statements.

Revenue Recognition. We record product revenues and related cost of sales upon transfer of title, which is generally upon shipment or, if required, upon acceptance by the customer, provided that we believe collectibility of the net sales amount is probable. Accordingly, at the date revenue is recognized, the significant uncertainties concerning the sale have been resolved. Unless otherwise stated, we

provide a one to two year warranty from the original invoice date on all product material and workmanship. Defective products are either repaired or replaced, at our option, upon meeting certain criteria. We accrue a provision for the estimated costs that may be incurred for product warranties relating to a product as a component of cost of sales at the time revenue for that product is recognized. Should actual experience of warranty returns be higher than anticipated, additional warranty reserves may be required, and may adversely affect our operating results.

Contract revenue is derived primarily from long-term contracts with governmental agencies. Contract revenue includes costs incurred plus a portion of estimated fees or profits determined on the percentage of completion method of accounting based on the relationship of costs incurred to total estimated costs. Any anticipated losses on contracts are charged to earnings when identified. Changes in job performance and estimated profitability, including those arising from contract penalty provisions and final contract settlements, may result in revisions to cost and revenue and are recognized in the period in which the revisions are determined. Profit incentives are included in revenue when their realization is reasonably assured.

In addition to product and contract revenue, we derive revenue from technology access fees and the provision of specific non-recurring contract engineering services. Technology access fees are amortized to revenue over the life of the related agreement and are based on contractual values. Contract engineering revenues are recognized in the period in which services are performed based on contractual billing terms. Technology access fee revenues and contract engineering revenues are included in net sales on the accompanying statements of operations.

Revenues from follow-on service and support, for which we charge separately, is recorded in the period in which the services are performed.

Accounts Receivable. We estimate the collectibility of customer receivables on an ongoing basis by periodically reviewing invoices outstanding greater than a certain period of time. We have recorded reserves for receivables deemed to be at risk for collection as well as a general reserve based on our historical collections experience. A considerable amount of judgment is required in assessing the ultimate realization of these receivables, including the current credit-worthiness of each customer. If the financial condition of our customers deteriorates, resulting in an impairment of their ability to make required payments, additional allowances may be required which could adversely affect our operating results.

Inventory. We state our inventories at the lower of cost or market and provide reserves for potentially excess and obsolete inventory. In assessing the ultimate realization of inventories, we make judgments as to future demand requirements and compare that with the current or committed inventory levels. Reserves are established for inventory levels that exceed future demand. It is possible that reserves over and above those already established may be required in the future if market conditions for our products deteriorate.

Goodwill and Purchased Intangible Assets. The purchase method of accounting for acquisitions requires extensive use of accounting estimates and judgments to allocate the purchase price to the fair value of the net tangible and intangible assets acquired. Goodwill and intangible assets deemed to have indefinite lives are no longer amortized but are subject to annual impairment tests. The amounts and useful lives assigned to other intangible assets impact future amortization. If the assumptions and estimates used to allocate the purchase price are not correct or if business conditions change, purchase price adjustments or future asset impairment charges could be required.

Impairment of Assets and Restructuring. During fiscal 2003, we recorded reserves and asset write-downs in connection with the sale of substantially all of the assets of Zyfer and the discontinuation of Broadcast. These include estimates pertaining to the fair value of assets and facility closure costs. Although we do not anticipate significant changes, the actual assets values and closure costs may differ from the amounts estimated.

Results of Operations

The following table sets forth certain statement of operations data as a percentage of total net sales and contract revenues for the periods indicated. The following table should be read in conjunction with Management's Discussion and Analysis of Financial Condition and Results of Operations.

Years Ended March 31, 2004, 2003 and 2002

Net Sales and Contract Revenues. Net sales and contract revenues consist principally of (i) sales of products and services to commercial customers and municipal agencies ("net sales") and primarily consists of sales of our Vantage video detection systems and AutoVue lane departure warning systems, as well as technology access fees and contract engineering revenues; and (ii) revenues derived from systems integration and ITS consulting services with state, county and municipal agencies ("contract revenues"). We currently have a diverse customer base and no customer constituted over 10% of our total net sales and contract revenues in fiscal 2004. Total net sales and contract revenues increased 9.4% to \$45.3 million for the fiscal year ended March 31, 2004 ("fiscal 2004") compared to \$41.4 million in fiscal 2003, and increased

Edgar Filing: ITERIS HOLDINGS INC - Form S-1

11.0% for the fiscal year ended March 31, 2003 ("fiscal 2003") compared to \$37.3 million for the fiscal year ended March 31, 2002 ("fiscal 2002").

Net sales increased 22.8% to \$23.5 million in fiscal 2004 compared to \$19.1 million in fiscal 2003, and increased 11.7% in fiscal 2003 compared to \$17.1 million in fiscal 2002. The increase in net sales in each of the periods primarily reflected an increase in the unit sales of our Vantage vehicle detection

systems and increased sales of our AutoVue lane departure warning systems. Net sales from AutoVue products increased 173.1% in fiscal 2004 compared to fiscal 2003, and represented 17.9% of total net sales in fiscal 2004 and 8.0% of total net sales in fiscal 2003. The increase in sales of AutoVue products principally reflected license fee revenue and fees for non-recurring engineering costs derived from Valeo, our strategic partner for the passenger car OEM customer base, and increased unit sales of lane departure warning systems in the European commercial truck market. Vantage sales comprised 89.6%, 92.0%, and 82.1% of net sales in each of the three fiscal years ended 2002, 2003, and 2004, respectively. All of the Vantage revenues were derived from sales within North America. The sales growth was primarily due to increased market adoption of video based detection technologies for traffic intersection management.

Contract revenues decreased 2.1% to \$21.8 million in fiscal 2004 compared to \$22.3 million in fiscal 2003, and increased 10.3% compared to \$20.2 million in fiscal 2002. Contract revenues reflect a broad range of fixed price and cost plus fixed fee contracts for engineering study and design, systems integration and system implementation. Contract revenues are dependent upon the continued availability of funding on both the State and Federal levels from the various departments of transportation. The decrease in fiscal 2004 compared to 2003 principally reflects budget constraints in both the Federal and California markets, where a significant portion of our contract revenues have been derived during the last several fiscal years. The increase in contract revenues in fiscal 2003 compared to fiscal 2002 primarily reflects an increase in volume of ITS projects. The growth in contract revenues in fiscal 2003 reflected a general expansion of our systems consulting and integration business. This expansion was characterized by the addition of new offices into additional geographic regions including Georgia, Colorado and Idaho. All of our contract revenue is currently derived from North America.

Gross Profit. Total gross profit increased 5.3% to \$17.8 million in fiscal 2004 compared to \$16.9 million in fiscal 2003, and was unchanged at \$16.9 million in fiscal 2003 compared to fiscal 2002. Total gross profit as a percent of net sales and contract revenues decreased to 39.3% in fiscal 2004 compared to 40.8% in fiscal 2003 and 45.2% in fiscal 2002.

Gross profit as a percentage of net sales decreased to 45.6% in fiscal 2004 compared to 51.0% in fiscal 2003 and 50.9% in fiscal 2002. The decrease in gross profit in fiscal 2004 compared to 2003 reflects lower unit pricing on large, high volume, state contracts for Vantage products, in addition to lower gross profits on AutoVue products as a result of increased unit sales of product to the commercial truck market. The increase in gross profit as a percent of net sales in fiscal 2003 compared to 2002 reflects the net effect of increased gross profit on Vantage product sales, which was partially offset by decreased margins on AutoVue product sales. We achieved a 200 basis point increase in gross profit on sales of Iteris' Vantage video detection systems in fiscal 2003, in conjunction with a 14.7% increase in sales of these products in fiscal 2003 compared to 2002. In fiscal 2003, however, AutoVue product sales began transitioning from low volume, high margin sample sales to early production volume of units for the truck market.

Gross profit as a percent of contract revenues increased to 32.6% in fiscal 2004 compared to 32.2% in fiscal 2003 and 40.4% in fiscal 2002. We recognize contract revenues and related gross profit using percentage of completion contract accounting, and the underlying mix of contract activity affects the related gross profit recognized in any given year. The decrease in fiscal 2003 reflects a mix of lower margin contracts in fiscal 2003 as compared to fiscal 2002. Furthermore, gross profit on contract revenues in fiscal 2002 benefited approximately 610 basis points from a \$1.4 million reduction in loss reserves on certain long-term contracts resulting from changes in the scope of work defined by a major customer, most of which were nonrecurring in fiscal 2003.

Selling, General and Administrative Expense. Selling, general and administrative expense decreased 8.9% to \$12.8 million (or 28.4% of total net sales and contract revenues) in fiscal 2004 compared to \$14.1 million (or 34.1% of total net sales and contract revenues) in fiscal 2003, and decreased 3.6% in

fiscal 2003 compared to \$14.6 million (or 39.2% of total net sales and contract revenues) in fiscal 2002. The decrease in fiscal 2004 compared to fiscal 2003 reflects principally increased costs to support expanded sales and marketing efforts in Vantage and AutoVue products in fiscal 2004, offset by decreased facilities lease expense related to the restructuring of lease commitments for our Anaheim facilities in June 2003, and reduced salaries expenses for corporate support personnel related to the divestiture of our Broadcast, Zyfer and MAXxess Systems businesses in fiscal 2004. The decrease in selling, general and administrative expense in fiscal 2003 compared to fiscal 2002 reflects general cost reductions related to staffing and outside services for legal and accounting expenses, which was partially offset by increased sales and marketing costs to support Vantage and AutoVue products.

Research and Development Expense. Research and development expense increased 0.4% to \$3.9 million (or 8.7% of total net sales and contract revenues) in fiscal 2004 compared to \$3.9 million (or 9.4% of total net sales and contract revenues) in fiscal 2003, and increased 13.8% in fiscal 2003 compared to \$3.4 million (or 9.2% of total net sales and contract revenues) in fiscal 2002. The increase in research and development expense in fiscal 2004 compared to 2003 reflects increased spending to support the development of Vantage products which was partially offset by decreased spending to support the development of AutoVue products. Vantage product development primarily reflects activities for product line extensions to support new communications platforms and to accommodate new camera designs. The increases were primarily in the areas of personnel costs and related benefits and overhead, prototype material costs, and consulting fees.

The increase in research and development expense in fiscal 2003 compared to 2002 primarily reflects software algorithm development and new hardware designs for enhancements to our existing product family of Vantage video detection systems.

For competitive reasons, we closely guard the confidentiality of specific development projects.

Restructuring Charges. The restructuring charge of \$1.1 million in fiscal 2002 reflects costs related to the reorganization of our European operations and costs for severance for labor reductions domestically and abroad totaling approximately \$400,000 in addition to \$700,000 related to severance charges incurred upon the retirement of the former Chief Executive Officer of Iteris Holdings.

Other Income (Expense), Net. Other income (expense), net reflects the following (in thousands):

| | Year Ended March 31, | | |
|-------------------------------------|----------------------|--------|----------|
| | 2002 | 2003 | 2004 |
| Gain on sale of real estate | \$ | \$ 640 | \$ 970 |
| Loss on sale of Iteris common stock | (1,596) | (310) | |
| Other | 231 | 87 | 33 |
| Other income (expense), net | \$ (1,365) | \$ 417 | \$ 1,003 |

Other income (expense), net in fiscal 2003 and 2004 included a gain of \$640,000 and \$970,000, respectively, recognized on the sale and leaseback of our Anaheim, California facility, which was consummated in May 2002. We sold shares of our Iteris subsidiary common stock that yielded gross proceeds of \$3.8 million and \$900,000 in fiscal 2002 and 2003, respectively.

Edgar Filing: ITERIS HOLDINGS INC - Form S-1

Interest Expense, Net. Interest expense, net reflects the net of interest expense and interest income as follows (in thousands):

| | Year Ended March 31, | | |
|-----------------------|----------------------|--------|--------|
| | 2002 | 2003 | 2004 |
| Interest expense | \$ 4,190 | \$ 761 | \$ 125 |
| Interest income | | | (2) |
| Interest expense, net | \$ 4,190 | \$ 761 | \$ 123 |

Interest expense decreased 83.8% in fiscal 2004 compared to fiscal 2003 and decreased 81.8% in fiscal 2003 compared to fiscal 2002. The decrease in fiscal 2004 reflected lower average outstanding borrowings during fiscal 2004. The decrease in fiscal 2003 reflected the sale and leaseback of our Anaheim, California facilities, and our subsequent repayment in May 2002 of a \$16.4 million promissory note.

Extraordinary Item. The extraordinary loss incurred in fiscal 2002 relates to a prepayment penalty we incurred in fiscal 2002 in connection with the retirement of our mortgage note payable upon the refinancing of our Anaheim real property.

Income Taxes. During fiscal 2004, we recognized income tax expense of \$100,000 and a related deferred tax asset of \$821,000 directly related to the profitable operations of our subsidiary Iteris, Inc. The ability to record the deferred tax asset was based on the more likely than not criteria of FAS 109 since Iteris, Inc. has historically been profitable and it has utilized all its federal net operating loss carryovers and thus, can carryback and realize the reversal of future tax deductions. No income tax benefit for losses incurred in fiscal 2003 was recorded due to uncertainty as to the ultimate realization of the related benefit. A \$785,000 tax benefit was recognized in fiscal 2002 for the recovery of net operating loss carrybacks made available under the Job Creation Workers Associate Act of 2002.

Minority Interest in Subsidiary. The minority interest represents the minority stockholders' share of Iteris, Inc.'s net income or loss and the accretion of the redemption preference of Iteris's Series A preferred stock. Upon our acquisition of the remaining minority interest in Iteris, Inc. and the related roll-up merger, we will no longer report a minority interest.

Liquidity and Capital Resources

During fiscal 2004, we used \$718,000 of cash to fund our operations. Net cash used in operating activities principally reflected our net income of \$7,000, increased for non-cash charges of \$857,000 for depreciation and amortization, and \$3.0 million in non-cash charges related to the minority interest in our Iteris subsidiary, and decreased \$855,000 for non-cash gains related to amortization of deferred gain on real-estate sales and the usage of \$4.0 million in cash to fund changes in operating assets and liabilities. Most of the cash requirements for operating assets and liabilities during fiscal 2004 related to \$2.5 million in cash used to reduce trade accounts payable, accrued payroll, accrued expenses and income tax payable, associated with the downsizing and reorganization of our business model.

In May 2002, we completed the sale and leaseback of our Anaheim, California facility for an aggregate sale price of \$22.6 million. Approximately \$16.4 million of the proceeds from this sale were used to repay the outstanding indebtedness under a promissory note, which was secured by a first deed of trust on our Anaheim facility. In connection with the sale and leaseback, we pledged cash of \$2.5 million to secure our obligations under the lease. The pledged amounts were to be released to us based upon our continued compliance with financial covenants and performance under the lease. The balance of the proceeds from this sale was used for general working capital purposes. We committed to

lease one of the two buildings on this property for a period of ten years, and to lease the other building for a period of 30 months.

In May 2003, we completed the sale of substantially all the assets of our wholly-owned subsidiary, Zyfer, Inc., for \$2.3 million in cash plus the assumption of certain liabilities. The cash proceeds were used to fund working capital requirements and pay short-term liabilities. The asset purchase agreement provides for future incentive payments to us of up to \$1.0 million in each of the twelve months ended April 30, 2004 and 2005. The amount of these future incentive payments will be based on the revenues generated by the sale of Zyfer's products or the license of its technologies. Based on the terms of the sale agreement, Zyfer, Inc. has 60 days to provide us with support for the incentive payments.

In July 2003, we concluded a restructuring of our facility lease obligations for our principal operating facility located in Anaheim, California. Under the revised terms, Iteris Holdings and its Iteris, Inc. subsidiary entered into two separate leases for space totaling 80,000 square feet located at our current Anaheim location. We have been relieved of a continuing lease obligation on approximately 257,000 square feet. In consideration for the restructured agreement, we paid approximately \$2.5 million in cash that had been previously pledged as collateral on the lease, in addition to issuing to the lessor 425,000 shares of Iteris Holdings Class A common stock valued at \$255,000 and a note payable for \$811,000.

Also in July 2003, we completed a private placement of 3,666,666 of our Class A common stock to seven accredited investors for net proceeds of \$1.9 million in cash. In connection with this offering, we also issued warrants to the investors to purchase up to another 366,666 shares at an exercise price of \$1.50 per share. The fair value of these warrants was \$55,000 calculated using the Black Scholes Model. The warrants are considered a cost of raising capital and were recorded in equity as an offset to additional paid-in capital. The warrants expire in July 2006 and became exercisable in January 2003. The proceeds from the transaction were used to fund our general working capital requirements.

In September 2003, we completed the sale of the assets of our MAXxess subsidiary to an investor group that included certain members of the MAXxess management group. The consideration for the sale consisted of the assumption by the buyer of \$2.7 million of liabilities, resulting in a net gain to Iteris Holdings of approximately \$2.3 million. We did not receive any cash in this transaction.

In May 2004, we completed the purchase of all of the outstanding shares of the Series A preferred stock of Iteris, Inc., which shares were held by DaimlerChrysler Ventures GmbH ("DCV") and Hockenheim Investment Pte. Ltd. ("Hockenheim"), in exchange for a payment of approximately \$17.5 million in cash. In addition, we acquired all of the shares of the common stock of Iteris, Inc. held by DCV in exchange for the issuance of 1,219,445 shares of our Class A common stock. The purchase and exchange of the shares were made pursuant to a Stock Purchase and Exchange Agreement, dated March 31, 2004, by and among Iteris Holdings, Iteris, Inc., DCV and Hockenheim (the "Purchase and Exchange Agreement").

Pursuant to the Purchase and Exchange Agreement, we purchased 3,124,913 shares of Series A Preferred Stock of Iteris from DCV and Hockenheim for a purchase price of \$5.61 per share. The purchase price represented the stated redemption value of the preferred stock. The purchase of the shares was financed principally with a \$10.1 million convertible debenture financing completed in May 2004 with a group of institutional investors, in addition to a \$5.0 million senior credit facility arranged through a bank.

In accordance with the Purchase and Exchange Agreement, we issued 1,219,445 shares of our Class A common stock (the "Exchange Shares") to DCV in exchange for 547,893 shares of the common stock of Iteris, Inc. held by DCV. Subject to certain exceptions, DCV has agreed not to sell or otherwise transfer the Exchange Shares during the year following the Closing Date. However, beginning on November 28, 2005, DCV may require us to repurchase up to 50% of the Exchange Shares at a

purchase price of \$1.438 per share; and beginning on May 28, 2007, DCV may require us to repurchase up to 100% of the Exchange Shares at a purchase price of \$1.438 per share. All such rights to require the repurchase of the Exchange Shares expire on September 28, 2007.

Beginning on May 28, 2005, DCV will have the right to request registration of all of the shares of the Class A common stock of Iteris Holdings held by it. In the event we decide not to file a registration statement for all such shares, DCV may require repurchase of any or all of its shares of our common stock at a purchase price of \$1.438 per share.

In order to finance the purchase of the shares of Iteris, Inc. preferred stock, we entered into a Debenture and Warrant Purchase Agreement dated May 19, 2004 (the "Debenture Purchase Agreement") with a group of institutional investors, which included certain of our officers, pursuant to which it sold and issued subordinated convertible debentures in the aggregate principal amount of \$10.1 million and issued warrants to purchase an aggregate of 639,847 shares of our Class A common stock.

The debentures are due in five years, provide for 6.0% annual interest, payable quarterly, and are convertible into our Class A common stock at an initial conversion price of \$3.61 per share, subject to certain adjustments, including adjustments for dilutive issuances. From May 19, 2007 until May 18, 2008, the debentures may be redeemed by us, at our option, at 120% of the principal amount being redeemed; and from May 19, 2008 until the maturity date of May 18, 2009, the debentures may be redeemed at 110% of the principal amount being redeemed.

Pursuant to the Debenture Purchase Agreement, each investor also received two warrants to purchase shares of the Class A common stock. For every dollar of debenture purchased, each investor received one warrant to purchase approximately 0.03235 shares of our Class A common stock at an exercise price of \$3.83 per share and a second warrant to purchase approximately 0.03100 shares of our Class A common stock at an exercise price of \$4.03 per share. The exercise prices are subject to certain adjustments, including adjustments for dilutive issuances. The warrants expire on May 18, 2009.

In conjunction with the Debenture and Warrant Purchase Agreement, we issued 34,036 warrants to purchase shares of our Class A common stock at \$3.61 per share as commissions related to the transaction. The warrants expire on May 18, 2009.

We have agreed to register for resale the shares underlying the debentures and the warrants. Under the terms of the Debenture Purchase Agreement, we may be required to make certain payments to the investors if we do not file a registration statement with the Securities and Exchange Commission on or prior to the earlier of the 14th day following the date that we filed our annual report for the year ended March 31, 2004 or July 14, 2004 or if we do not respond to comments to such registration statement, if any, from the SEC within certain time limits. In addition, we have granted to each investor a right of first offer with respect to new issuances of its securities, subject to certain exceptions.

Concurrent with the issuance of the debentures, we, through our subsidiary Iteris, Inc., entered into a \$5.0 million term note payable with a bank. Proceeds from the note payable were used to purchase Iteris, Inc. preferred stock as described above. The note is due in four years, on May 27, 2008, and provides for monthly payments of principal and interest of approximately \$104,000. Interest accrues at the current stated prime rate plus 0.5% through June 30, 2004 and then at the current stated prime rate plus 0.25% thereafter.

As part of the Purchase and Exchange Agreement of the Series A preferred stock, we also exchanged an aggregate of 547,893 shares of Iteris, Inc. common stock held by DCV for an aggregate of 1,219,445 shares of Iteris Holdings Class A common stock.

Also on May 28, 2004, Iteris, Inc. renegotiated its existing line of credit agreement and entered into a new line of credit agreement with the same bank. The new agreement has a one year term that

Edgar Filing: ITERIS HOLDINGS INC - Form S-1

expires on August 1, 2005 and a maximum available credit line of \$5.0 million. Under the terms of the new agreement, Iteris, Inc. may borrow against its eligible accounts receivable and the value of its eligible inventory, as defined. Interest on borrowed amounts is payable monthly at the prime rate. Additionally, Iteris, Inc. is obligated to pay an unused line fee of 0.25% per annum applied to the amount by which the maximum credit amount exceeds the average daily principal balance during the preceding month. There is no monthly collateral management fee associated with the new line of credit and no pre-payment or early termination fees. The 1.0% cancellation fee to terminate the prior line was waived by the bank.

Both the term note payable and the line of credit are secured by substantially all of the assets of Iteris, Inc.

Our contractual obligations are as follows at March 31, 2004 (in thousands):

| | Payments Due by Period | | | | |
|---------------------------|------------------------|----------|----------|----------|---------------|
| | Total | 2005 | 2006 | 2007 | After 2007 |
| Line of credit | \$ 100 | \$ 100 | \$ | \$ | \$ |
| Capital lease obligations | 12 | 4 | 4 | 4 | |
| Notes payable | 921 | 38 | 50 | 630 | 203 |
| Operating leases | 3,599 | 1,205 | 984 | 897 | 513 |
| | \$ 4,632 | \$ 1,347 | \$ 1,038 | \$ 1,531 | \$ 716 |

Subsequent to the purchase of the preferred stock and the exchange of the common stock held by DCV, the minority interest in Iteris, Inc. has been reduced to approximately 16.6%. Our intention is to exchange the residual outstanding 16.6% common stockholding minority interest in Iteris, Inc. for Class A common stock of Iteris Holdings and merge the two entities.

Although we have achieved operating income and earnings before interest, taxes, depreciation and amortization during the fiscal year ended March 31, 2004, our operations may continue to use net cash. At March 31, 2004, our Iteris subsidiary had a revolving line of credit with its principal bank, which expired August 2004, and which provided for available borrowings up to \$5.0 million subject to a borrowing formula based upon qualified accounts receivable as defined in the agreement. Borrowings on the line of credit bear interest at prime plus 2.0% (6.0% at March 31, 2004). There were no borrowings on the line at March 31, 2004, and \$4.5 million was available for borrowing subject to the borrowing base in the credit agreement. In May 2004, we entered into a new \$5.0 million line of credit with our principal bank to replace the former revolving line, subject to similar borrowing formulas. Borrowings under the new line of credit bear interest at the bank's prime rate (4.0% at May 31, 2004). We believe that the combination of available borrowings on our line of credit and our internally generated cash flows will be sufficient to enable us to execute our operating plans and meet our obligations on a timely basis.

Recent Accounting Pronouncements

In November 2002, the Emerging Issues Task Force ("EITF") issued EITF No. 00-21, "*Revenue Arrangements with Multiple Deliverables*," which provides guidance on the timing and method of revenue recognition for sales arrangements that include the delivery of more than one product or service. EITF No. 00-21 is effective prospectively for arrangements entered into in fiscal periods beginning after June 15, 2003. The adoption of EITF No. 00-21 did not have a material effect on our financial position, results of operations or cash flows.

In December 2002, the Financial Accounting Standards Board ("FASB") issued Statement of Financial Accounting Standards No. 148, "*Accounting for Stock-Based Compensation-Transition and*

Disclosure" ("SFAS No. 148") which is effective for fiscal years ending after December 15, 2002. SFAS No. 148 amends Statement of Financial Accounting Standards No. 123, "*Accounting for Stock-Based Compensation*" ("SFAS No. 123") to provide alternative methods of transition to SFAS No. 123's fair value method of accounting for stock-based employee compensation if a company elects to account for its equity awards under this method. SFAS No. 148 also amends the disclosure provisions of SFAS No. 123 and Accounting Principles Board Opinion No. 28, "*Interim Financial Reporting*" ("APB 25") to require disclosure effects of an entity's accounting policy with respect to stock-based employee compensation on reported net income (loss) and net income (loss) per share in both annual and interim financial statements. We follow the disclosure-only provisions of SFAS No. 123, as amended by SFAS No. 148, and, accordingly, account for our stock-based compensation plans using the intrinsic value method under Accounting Principles Board Opinion No. 25, "*Accounting for Stock Issued to Employees*" and related interpretations.

In January 2003, the FASB issued Interpretation No. 46, "*Consolidation of Variable Interest Entities*" ("FIN 46"). This Interpretation changes the method of determining whether certain entities should be included in our Consolidated Financial Statements. An entity is subject to FIN 46 and is called a variable interest entity ("VIE") if it has (1) equity that is insufficient to permit the entity to finance its activities without additional subordinated financial support from other parties, or (2) equity investors that cannot make significant decisions about the entity's operations, or that do not absorb the expected losses or receive the expected returns of the entity. All other entities are evaluated for consolidation under SFAS No. 94, Consolidation of All Majority-Owned Subsidiaries. The provisions of FIN 46 are to be applied immediately to VIEs created after January 31, 2003, and to VIEs in which an enterprise obtains an interest after that date. For VIEs in which an enterprise holds a variable interest that it acquired before February 1, 2003, FIN 46 applies in the first fiscal period beginning after June 15, 2003. Adoption of FIN 46 did not have a material impact on our financial position, results of operations or cash flows.

In May 2003, the FASB issued SFAS 150, "*Accounting For Certain Financial Instruments with Characteristics of Both Liabilities and Equity*" ("SFAS No. 150") which establishes standards for how an issuer of financial instruments classifies and measures certain financial instruments with characteristics of both liabilities and equity. It requires that an issuer classify a financial instrument that is within its scope as a liability (or an asset in some circumstances) if, at inception, the monetary value of the obligation is based solely or predominantly on a fixed monetary amount known at inception, variations in something other than the fair value of the issuer's equity shares or variations inversely related to changes in the fair value of the issuer's equity shares. SFAS No. 150 is effective for financial instruments entered into or modified after May 31, 2003, and otherwise is effective at the beginning of the first interim period beginning after June 15, 2003. The adoption of SFAS 150 did not have a material impact on our financial position, results of operations or cash flows.

Quantitative and Qualitative Disclosure About Market Risk

Our exposure to interest rate risk is limited to our lines of credit. Iteris, Inc.'s and Iteris Holdings' lines of credit bear interest at the prevailing prime rate, plus 2.0% and 4.0% (6.0% and 8.0% as of March 31, 2004), respectively. We estimate that, based on amounts outstanding at March 31, 2004, a 10.0% increase in the prime rate would result in an increase in interest expense, on an annualized basis, of less than \$100,000.

BUSINESS

Overview

Iteris Holdings, Inc. is the majority stockholder of Iteris, Inc., a leading provider of outdoor machine vision systems and sensors that optimize the flow of traffic and enhance driver safety. Using our proprietary software and ITS industry expertise, we provide video sensor systems and transportation management and traveler information systems for the ITS industry. The ITS industry is comprised of companies applying a variety of technologies to enable the safe and efficient movement of people and goods. We use our outdoor image recognition software expertise to develop proprietary algorithms for video sensor systems that improve vehicle safety and the flow of traffic. Using our knowledge of the ITS industry, we design and implement transportation management systems that help public agencies reduce traffic congestion and provide greater access to traveler information.

Our proprietary image recognition systems include AutoVue and Vantage. AutoVue is a small windshield mounted sensor that uses proprietary software to detect and warn drivers of unintended lane departures. Iteris has approximately 6,000 production AutoVue units that are in use on truck platforms in the European market and are offered as an option on certain Actros trucks, which are part of the Daimler group. We believe that AutoVue is a broad sensor platform that, through additional software development, may be expanded to incorporate additional safety and convenience features. Vantage is a video vehicle sensing system that detects the presence of vehicles at signalized intersections enabling a more efficient allocation of green signal time.

Our transportation management systems includes the design, development and implementation of our software-based systems that integrate sensors, video surveillance, computers and advanced communications equipment to enable public agencies to monitor, control and direct traffic flow, assist in the quick dispatch of emergency crews and distribute real-time information about traffic conditions. Our services include planning and other engineering for the implementation of transportation related communications systems, analysis and study related to goods movement and commercial vehicle operations, and parking systems designs.

Sales, Marketing and Principal Customers

We sell our Vantage vehicle detection systems primarily through indirect sales channels comprised of independent dealers in the United States and Canada who sell integrated systems and related products to the traffic intersection market. Our independent dealers are primarily responsible for sales, installation and support of Vantage systems. These dealers maintain an inventory of demonstration traffic products including the Vantage vehicle detection systems and sell directly to government agencies and installation contractors. These dealers often have long-term arrangements with the government agencies in their territory for the supply of various products for the construction and renovation of traffic intersections. We hold technical training classes for dealers and maintain a full-time staff of customer support technicians to provide technical assistance when needed.

Our marketing strategy for AutoVue is to establish it as the leading platform for in vehicle video sensing for trucks and passenger cars. We sell AutoVue directly to vehicle manufacturers and major automotive suppliers. We also market to the manufacturers of automobiles through a strategic relationship with Valeo Group, an independent automotive supplier.

We market and sell our transportation management systems and services directly to government agencies pursuant to negotiated contracts that involve competitive bidding and specific qualification requirements. Most of our contracts with federal, state and municipal customers provide for cancellation or renegotiation at the option of the customer upon reasonable notice and fees paid for modification. We use selected members of our engineering team divided on a regional basis to serve in sales and business development functions. We do not engage in international ITS sales. Sales of our

systems contracts generally involve long lead times and require extensive specification development, evaluation and price negotiations. No single customer of Iteris, Inc. accounted for more than 10% of our total net sales and contract revenues.

Manufacturing and Materials

We use local manufacturers based near our Anaheim, California facility to build subassemblies that are used in our Vantage products. These subassemblies are delivered to our Anaheim facility where they go through final assembly and testing prior to shipment to our customers. Our manufacturing activities are conducted in approximately 6,000 square feet of space at our Anaheim facility. Certain of our cameras used in our products have historically been provided by a Japanese supplier who is sole sourced; however, we are currently qualifying other sources of supply. Production volume at our subcontractors is based upon quarterly forecasts that we adjust on a monthly basis to control inventory. For sales to the truck market, we subcontract the manufacture of our AutoVue systems to one manufacturer, and our internal processes are limited primarily to testing and final verification. For sales to the passenger car market, we anticipate that all manufacturing will be done by the Valeo Group. We currently do not manufacture any of the hardware used in the transportation management and traveler information systems that we design and implement. Our production facility is currently ISO 9001 certified.

Customer Support and Services

We provide warranty service and support for each of our products and follow-up service and support, for which we charge separately. Service revenue accounted for less than 1.0% of total net sales and contract revenues for the year ended March 31, 2004 ("fiscal 2004"). We believe customer support is a key competitive factor.

Backlog

Our backlog of unfulfilled firm orders was approximately \$21.6 million as of March 31, 2004 and was approximately \$24.8 million as of March 31, 2003. Approximately 63.0% of our backlog at March 31, 2003 was recognized as revenues in fiscal 2004, and approximately 60.0% of our backlog at March 31, 2004 is expected to be recognized as revenues in the fiscal year ended March 31, 2005 ("fiscal 2005"). Pursuant to the customary terms of our agreements with government contractors and other customers, customers can generally cancel or reschedule orders with little or no penalties. Lead times for the release of purchase orders depend upon the scheduling and forecasting practices of our individual customers, which also can affect the timing of the conversion of our backlog into revenues. For these reasons, among others, our backlog at a particular date may not be indicative of our future revenues.

Product Development

Most of our development activities are conducted at our principal facilities in Anaheim, California. Our company-sponsored research and development costs and expenses were approximately \$3.4 million for the fiscal year ended March 31, 2002 ("fiscal 2002"), \$3.9 million for the fiscal year ended March 31, 2003 ("fiscal 2003") and \$3.9 million in fiscal 2004. We expect to continue to pursue significant product development programs and incur significant research and development expenditures.

Competition

We generally face significant competition in each of our target markets. Increased competition may result in price reductions, reduced gross margins and loss of market share, any of which could have a material adverse effect on our business, financial condition and results of operations. We believe that

AutoVue is the only commercially-available lane departure warning system used in the U.S. and in Europe. Potential competitors of AutoVue include Delphi Automotive Systems Corporation domestically, NEC Corporation and Hitachi Ltd. in Japan and Robert Bosch GmbH in Europe, which could be currently developing video sensor technologies for the vehicle industry that could be used for lane departure warning systems. In the market for our Vantage vehicle detection systems, we compete with manufacturers of other "above ground" video camera detection systems such as Econolite Control Products, Inc., Trafficon, N.V., Peek Traffic Systems, and other non-intrusive detection devices including microwave, infrared, ultrasonic and magnetic detectors, as well as manufacturers and installers of in-pavement inductive loop products. Our competitors for Vantage products do not disclose specific sales numbers, either because they are private companies or because they are part of larger companies. Based on our interface with them in the market, we believe that we are leading our competitors in annual sales volume for video detection products.

The transportation management and traveler information systems market is highly fragmented and is subject to evolving national and regional quality and safety standards. Our competitors vary in number, scope and breadth of the products and services they offer. Our competitors in advanced transportation management and traveler information systems include large multi-national corporations such as Transcore, Lockheed Martin Corporation, PB Farradyne Inc., Kimley-Horn and Associates, Inc. and National Engineering Technology, Inc. Iteris, Inc.'s competitors in transportation engineering, planning and design include major firms such as Parsons Brinkerhoff, Inc. and Parsons Transportation Group Inc., as well as many smaller regional engineering firms.

In general, the markets for the products and services offered by our businesses are highly competitive and are characterized by rapidly changing technology and evolving standards. Many of our current and prospective competitors have longer operating histories, greater name recognition, access to larger customer bases and significantly greater financial, technical, manufacturing, distribution and marketing resources than us. As a result, they may be able to adapt more quickly to new or emerging standards or technologies or to devote greater resources to the promotion and sale of their products. It is also possible that new competitors or alliances among competitors could emerge and rapidly acquire significant market share. We believe that our ability to compete effectively in our target markets will depend on a number of factors, including the success and timing of our new product development, the compatibility of our products with a broad range of computing systems, product quality and performance, reliability, functionality, price, and service and technical support. Our failure to provide services and develop and market products that compete successfully with those of other suppliers and consultants in our target markets would have a material adverse effect on our business, financial condition and results of operations.

Intellectual Property and Proprietary Rights

Our ability to compete effectively depends in part on our ability to develop and maintain the proprietary aspects of our technology. Our policy is to obtain appropriate proprietary rights protection for any potentially significant new technology acquired or developed by us. We currently hold six U.S. patents, which expire commencing in 2012, and have eighteen U.S. patent applications pending, mostly relating to our outdoor image processing techniques used in our AutoVue and Vantage systems. Two of our patents relate specifically to our AutoVue technology and provide a basis for enhanced functionality for rain sensing and improved performance. We believe that our other patents, while important for our technology platforms are less critical to near term product strategy. We cannot assure you that any new patents will be granted pursuant to any outstanding or subsequent applications.

In addition to patent laws, we rely on copyright and trade secret laws to protect our proprietary rights. We attempt to protect our trade secrets and other proprietary information through agreements with customers and suppliers, proprietary information agreements with our employees and consultants, and other similar measures. We do not have any material licenses or trademarks other than those

relating to product names. We cannot be certain that we will be successful in protecting our proprietary rights. While we believe our patents, patent applications, software and other proprietary know-how have value, changing technology makes our future success dependent principally upon our employees' technical competence and creative skills for continuing innovation.

Litigation has been necessary in the past and may be necessary in the future to enforce our proprietary rights, to determine the validity and scope of the proprietary rights of others, or to defend us against claims of infringement or invalidity by others. An adverse outcome in such litigation or similar proceedings could subject us to significant liabilities to third parties, require disputed rights to be licensed from others or require us to cease marketing or using certain products, any of which could have a material adverse effect on our business, financial condition and results of operations. In addition, the cost of addressing any intellectual property litigation claim, both in legal fees and expenses, as well as from the diversion of management's resources, regardless of whether the claim is valid, could be significant and could have a material adverse effect on our business, financial condition and results of operations.

Employees

We refer to our employees as associates. As of June 3, 2004, we employed an aggregate of 204 associates, including 50 associates in general management, administration and finance; 20 associates in sales and marketing; 104 associates in product development; 21 associates in operations, manufacturing and quality; and nine associates in customer service. None of our associates are represented by a labor union, and we have never experienced a work stoppage.

Government Regulation

Our manufacturing operations are subject to various federal, state and local laws and regulations, including those restricting the discharge of materials into the environment. We are not involved in any pending or, to our knowledge, threatened governmental proceedings, which would require curtailment of our operations because of such laws and regulations. We continue to expend funds in connection with our compliance with applicable environmental regulations. These expenditures have not, however, been significant in the past, and we do not expect any significant expenditure in the near future. Currently, compliance with foreign laws has not had a material impact on our business and is not expected to have a material impact in the near future.

Properties

Our headquarters and principal operations consist of 86,000 square feet of space located at 1515 South Manchester Boulevard in Anaheim, California. The Anaheim facility is leased by us under three separate agreements and houses our administrative offices (approximately 15,000 dedicated square feet), the operations of our former subsidiary, MAXxess Systems, Inc. (approximately 10,000 dedicated square feet), as well as the operations of Iteris, Inc. (approximately 58,000 dedicated square feet). Two of the three Anaheim leases representing 80,000 of the 86,000 square feet commenced on July 1, 2003 and have four year terms at a monthly lease rate of \$56,908 for 65,000 square feet and \$13,133 per month for 15,000 square feet. Approximately 10,000 square feet is sub-leased to MAXxess at a rate of \$10,000 per month. On March 1, 2004, Iteris, Inc. entered into a third lease in Anaheim for 6,000 additional square feet at a rate of \$3,300 per month. All three Anaheim leases expire on October 31, 2007.

We currently operate a single shift in each of our manufacturing and assembly facilities, and we believe that our facilities are adequate for our needs for at least the next twelve months.

Legal Proceedings

From time to time, we have been involved in litigation relating to claims arising out of our operations in the normal course of business. We are not currently a party to any material legal proceedings.

John E. Johnson has served as a Vice President of Iteris Holdings since 1986 and has served as the President, Chief Executive Officer and a director of Iteris, Inc. since December 1999. Prior to that, he served as the General Manager of the Odetics ITS division (now Iteris, Inc.) from

Edgar Filing: ITERIS HOLDINGS INC - Form S-1

1996 to 1998, prior to its incorporation. From 1990 to 1996, Mr. Johnson served as the General Manager of the Iteris Holdings Customer Service division. Mr. Johnson served in various other capacities with Iteris Holdings

since joining Iteris Holdings in 1974, including the Vice President and General Manager of the Omutec division from 1986 to 1990, the Director of Contracts for the Space division of Iteris Holdings from 1980 to 1986, the Controller of Infodetics, a former subsidiary of Iteris Holdings, from 1975 to 1980 and the Controller of Iteris Holdings from 1974 to 1975. Prior to joining Iteris Holdings, Mr. Johnson served as a certified public accountant with Peat Marwick.

Joel Slutzky has served as the Chairman of the Board of Directors since he co-founded Iteris Holdings in 1969. Mr. Slutzky served as the Chief Executive Officer of Iteris Holdings from 1975 to February 2002 and as the Chairman of the Board of Iteris, Inc. until December 2003. Mr. Slutzky also served on the Board of ATL Products, Inc. and in various capacities for other subsidiaries of Iteris Holdings from time to time. Mr. Slutzky currently serves on the Board of Directors for of the American Electronics Association, KOCE, Future Scientists and Engineers of America, and the Orange County Business Council Workforce Task Group. Mr. Slutzky is also the Chairman of Project Tomorrow, an organization focused on improving Kindergarten through 12th grade science education in Orange County, California.

Kevin C. Daly, Ph.D. has served as a director of Iteris Holdings since 1993. Since July 2002, Dr. Daly has been the Chief Executive Officer of Avamar Technologies, Inc., a provider of high availability storage software solutions. Dr. Daly was previously Chief Technical Officer of Quantum Corporation's Storage Solutions Group from October 2001 to July 2002 and, prior to that, he was Chief Executive Officer of ATL Products, Inc. from its foundation in 1993 until 2001. Dr. Daly also served as Chief Technical Officer of Iteris Holdings from 1985 until ATL's separation from Iteris Holdings in an initial public offering in 1997. Prior to Iteris Holdings, Dr. Daly was Director of the Control and Dynamics Division of the Charles Stark Draper Laboratory at MIT from 1974 through 1985. Dr. Daly is also a member of the Board of Directors of Danka Business Systems PLC.

Crandall L. Gudmundson is a co-founder of Iteris Holdings and served as its President from 1975 until his retirement in 1998. Mr. Gudmundson has served as a director of Iteris Holdings since 1979 and served as a director of ATL Products, Inc. from 1993 to 1998. Prior to co-founding Iteris Holdings, Mr. Gudmundson was the lead project engineer for Leach Corporation.

Jerry F. Muench is a co-founder of Iteris Holdings and has served as a director since 1969. From 1969 to 2002, Mr. Muench served as also the Secretary of Iteris Holdings. Mr. Muench served as the Vice President, Marketing of Iteris Holdings from 1975 until his retirement in December 1997. Prior to co-founding Iteris Holdings, Mr. Muench was the manager of applications engineering at Leach Corporation.

John W. Seazholtz has served as a director of Iteris Holdings since May 1998. He also served as a director of Mariner Networks, Inc., a subsidiary of Iteris Holdings that has been discontinued, from March 2000 to September 2001. From May 1998 to April 2000, Mr. Seazholtz served as the President and Chief Executive Officer of Telesoft America, Inc. He retired in April 1998 as the Chief Technology Officer of Bell Atlantic after 36 years of service with that company and its predecessor. Mr. Seazholtz was a senior officer of Bell Atlantic since 1986, serving in various positions, including the positions of Vice President, Operations and Engineering, Vice President, Marketing, Vice President of New Services, and Vice President, Technology and Information Systems. Mr. Seazholtz currently serves as the Chairman of the Board of Westell Technologies, Inc. and is a member of the Board of Directors of Advanced Switching Communications, Inc.

Thomas L. Thomas has served as a director of Iteris Holdings since May 1999. From January 2000 to September 2001, he also served as the Chairman of the Board of Mariner Networks, Inc. Mr. Thomas is the Chairman of the Board, President and Chief Executive Officer of HAHT Commerce, a provider of software applications that enable companies to use the Internet to conduct business. A veteran Silicon Valley executive, Mr. Thomas was previously the President and Chief Executive Officer of Ajuba Solutions, a provider of B2B integration solution software, which was sold

to Interwoven in October 2000. From April 1999 until January 2000, he served as the President, Chief Executive Officer and Chairman of the Board of Vantive Corporation, a customer relationship management software vendor which was acquired by Peoplesoft in January 2000. Prior to that, from September 1995 to April 1999, Mr. Thomas served as the Senior Vice President of e-Business and Information Services and Chief Information Officer at 3Com Corporation. From 1993 to 1995, Mr. Thomas served as a Vice President and the Chief Information Officer of Dell Computer Corporation. Prior to joining Fairchild, he was employed for 28 years by RCA Corporation, where he last served as the Senior Vice President, responsible for planning RCA's merger into General Electric Corporation.

Officers are elected by and serve at the discretion of the Board of Directors.

EXECUTIVE COMPENSATION

Summary of Cash and Certain Other Compensation

The following table provides certain summary information concerning the compensation earned by the Chief Executive Officer and each of the four other most highly compensated executive officers of Iteris Holdings whose total cash salary and bonus during the fiscal year ended March 31, 2004 exceeded \$100,000 (collectively, the "Named Executive Officers") for each of the three fiscal years ended March 31, 2002, 2003 and 2004. No other executive officers who would have otherwise been includable in such table on the basis of salary earned for the fiscal year ended March 31, 2004 has been excluded by reason of his or her termination of employment or change in executive status during that year. Other than the bonus paid to Mr. Johnson for the fiscal year ended March 31, 2002, no bonuses were paid to the Named Executive Officers during the fiscal years ended March 31, 2002, 2003 and 2004.

- (1) Represents all amounts earned from Iteris Holdings and its subsidiaries during the fiscal years shown, including amounts deferred under the Executive Deferral Plan and the Iteris Holdings 401(k) and Stock Ownership Plan.
- (2) Consists of options granted pursuant to Iteris Holdings' 1994 Long-Term Equity Incentive Plan and 1997 Stock Incentive Plan entitling the holder to purchase shares of Class A common stock of Iteris Holdings.
- (3) Consists solely of the matching contribution of Iteris Holdings to the respective accounts of the Named Executive Officers under the Iteris Holdings 401(k) and Stock Ownership Plan.
- (4) Includes 110,000 shares underlying the regrant option issued in May 2002 to replace options cancelled in November 2001. See "2001 Option Exchange Program."

(5)

Does not include an option granted to Mr. Johnson to purchase up to 40,000 shares of common stock of Iteris, Inc. in the year ended March 31, 2002. Mr. Johnson is also the Chief Executive Officer of Iteris, Inc.

- (6) Consists of shares underlying regrant options issued in May 2002 to replace options cancelled in November 2001. See "2001 Option Exchange Program."
- (7) Mr. Fruehauf resigned from his positions with Iteris Holdings and its subsidiaries effective as of May 9, 2003.
- (8) Mr. Smith resigned from his positions with Iteris Holdings and its subsidiaries effective as of September 30, 2003.

Option Grants in Last Fiscal Year

The following table provides information regarding option grants made to our Named Executive Officers during the fiscal year ended March 31, 2004. No stock appreciation rights were granted to any of the Named Executive Officers during such fiscal year.

| Name | Individual Grants | | | | Potential Realizable Value at Assumed Annual Rates of Stock Price Appreciation for Option Term(3) | |
|------------------|--|--|-----------------------------|-----------------|---|---------------|
| | Number of Securities Underlying Options Granted(1) | Percent of Total Options Granted to Employees in Fiscal 2003 | Exercise Price Per Share(2) | Expiration Date | 5% | 10% |
| | | | | | | |
| Greg Miner | 200,000 | 100% | \$ 0.65 | 08/06/13 | \$ 81,756.30 | \$ 207,186.52 |
| John E. Johnson | | | | | | |
| Hugo Fruehauf(4) | | | | | | |
| Gary Smith(5) | | | | | | |

- (1) Mr. Miner's option was granted pursuant to Iteris Holdings' 1997 Stock Incentive Plan (the "1997 Plan") and entitles him to purchase shares of Class A common stock of Iteris Holdings. The option has a maximum term of ten years, subject to earlier termination in the event of the optionee's termination of employment with Iteris Holdings or its subsidiaries. The option vests in equal monthly installments, subject to acceleration of vesting (a) in the event of the merger, consolidation or reorganization of Iteris Holdings if such option is not assumed or otherwise continued in effect in such transaction or (b) in the case of a merger or consolidation with Iteris, Inc., if Mr. Miner is not offered the position of CEO in the consolidated company. In addition, the Compensation and Stock Option Committee has the authority to provide for the accelerated vesting of the option whether or not the option is assumed or otherwise continued in effect or upon the termination of the optionee's employment following such transaction.
- (2) Iteris Holdings may also finance the option exercise by loaning the optionee sufficient funds to pay the exercise price for the purchased shares and the applicable federal and state withholding taxes to which the optionee becomes subject in connection with such exercise.
- (3) The 5% and 10% assumed rates of appreciation are prescribed by the rules and regulations of the SEC and do not represent management's estimate or projection of future trading prices of the Class A common stock. Unless the market price of the Class A common stock does in fact appreciate over the option term, no value will be realized from the option grants. Actual gains, if any, are dependent upon numerous factors, including, without limitation, the future performance of Iteris Holdings and its business units, overall business and market conditions, and the option holder's continued employment with Iteris Holdings throughout the entire vesting period and option term, which factors are not reflected in this table.
- (4) Mr. Fruehauf resigned from his positions with Iteris Holdings and its subsidiaries effective as of May 9, 2003.

- (5) Mr. Smith resigned from his positions with Iteris Holdings and its subsidiaries effective as of September 30, 2003.

Aggregated Option Exercises and Fiscal Year End Values

The following table provides information with respect to the Named Executive Officers concerning the unexercised options held by them at the end of the fiscal year ended March 31, 2004. None of the Named Officers exercised any options or stock appreciation rights during the fiscal year ended March 31, 2004 and no stock appreciation rights were held by the Named Executive Officers at the end of such fiscal year.

2001 Option Exchange Program

In November 2001, Iteris Holdings implemented an option exchange program to address the substantial loss in value of the outstanding stock options held by Iteris Holdings' executive officers and the increasing inability of those options to serve as a meaningful incentive for optionees to remain employed with Iteris Holdings. Under the program, each executive officer who held outstanding stock options with an exercise price of \$4.00 or more per share under the 1997 Plan or the 1994 Long-Term Equity Plan (the "1994 Plan"), was given the opportunity to exchange that option for a new option under the 1997 Plan for the same number of shares that would be granted at least six months and one day after the completion of the option exchange program.

On November 16, 2001, Iteris Holdings accepted for exchange and cancellation options to purchase an aggregate of 349,000 shares of Iteris Holdings' Class A common stock representing 100% of the options eligible to be tendered under the option exchange program. On May 20, 2002, Iteris Holdings granted new options to purchase an aggregate of 349,000 shares of Class A common stock under the 1997 Plan to replace the eligible options that had been tendered and cancelled under the program.

Edgar Filing: ITERIS HOLDINGS INC - Form S-1

In general, the exercise price per share for the new options was \$1.40, the last reported sales price of the Class A common stock on the grant date. In the case of Joel Slutzky, who was a holder of 10% or more of the common stock at that time, the exercise price per share for the new options was \$1.54 or 110% of the last reported trading price of the Class A common stock on the grant date.

Each new option issued in exchange for a cancelled option will continue to vest and become exercisable for the option shares in accordance with the same vesting schedule in effect for the cancelled option.

Equity Compensation Plans

As of March 31, 2004, Iteris Holdings had only one plan, the 1997 Stock Incentive Plan, pursuant to which equity securities of Iteris Holdings are authorized for issuance. The following table sets forth certain information regarding this plan:

| Plan Category | Number of Securities to be Issued Upon Exercise of Outstanding Options, Warrants and Rights | Weighted Average Exercise Price of Outstanding Options, Warrants and Rights | Number of Securities Remaining Available under Equity Compensation Plans (excluding some securities reflected in first column) |
|---|---|--|--|
| <i>Equity Compensation Plans Approved by Security Holders</i> | | | |
| 1997 Stock Incentive Plan | 1,132,101 | \$ 2.98 | 518,499 |
| <i>Equity Compensation Plans Not Approved by Security Holders</i> | | | |

| Total | 1,132,101 | \$ 2.98 | 518,499 |

Benefit Plans

Iteris Holdings maintains a 401(k) and Stock Ownership Plan (the "Stock Ownership Plan") which qualifies for favorable tax treatment under Section 401(a) of the Internal Revenue Code. The Stock Ownership Plan is the result of the merger of the Odetics, Inc. Profit Sharing and 401(k) Plan and the Odetics Associates Stock Ownership Plan.

Employees become eligible to make pre-tax contributions to the Stock Ownership Plan pursuant to Internal Revenue Code Section 401(k) as of the January 1, April 1, July 1 or October 1 coincident with or next following the date on which they are hired. Participants may contribute an amount not in excess of \$11,000 for calendar year 2003. Employees become eligible to receive an allocation of employer contributions to the Stock Ownership Plan as of the January 1, April 1, July 1 or October 1 coincident with or next following the date on which they have completed six months of service with Iteris Holdings. These contributions may be made in the form of cash or Iteris Holdings stock. No contributions were made by Iteris Holdings to the Stock Ownership Plan for the fiscal years ended March 31, 2000, 2001 and 2003.

Contributions that are made to the Stock Ownership Plan are allocated to the separate accounts of participants and are held in a trust. Participant accounts are credited with investment gains and charged with investment losses. Participant contributions are always fully vested at all times, and the Iteris Holdings contributions on behalf of participants vest at the rate of 33¹/₃ percent per year of service. Following termination of employment, the vested portion of the participant's account balance is distributed in a lump sum payment.

Iteris Holdings also maintains an Executive Deferral Plan which allows designated executives to defer the receipt of some of their current compensation until a future year. These executives may elect to defer the receipt of up to 75% of their annual compensation, but in no event may they elect to defer less than \$5,000. Benefits are generally fully vested at all times, and are payable following termination of employment in the manner elected by the executive. The Executive Deferral Plan does not qualify for favorable income tax treatment under Section 401(a) of the Internal Revenue Code.

Employment Contracts, Termination of Employment Agreements and Change of Control Arrangements

Iteris Holdings does not currently have any employment contracts in effect with any of its Named Executive Officers other than the change in control agreement with Gregory A. Miner and Jack Johnson as described in "Certain Transactions" below. Iteris Holdings provides incentives such as salary, benefits and option grants to attract and retain executive officers and other key associates. The Compensation and Stock Option Committee, as Plan Administrator of the 1997 Plan, has the authority to provide for the accelerated vesting of outstanding options held by an individual, in connection with the termination of such individual's employment following an acquisition in which these options are assumed or the repurchase rights with respect to the unvested shares are assigned or upon certain hostile changes in control of Iteris Holdings. Other than such accelerated vesting and the agreements described below in "Certain Transactions," there is no agreement or policy which would entitle any executive officer to severance payments or any other compensation as a result of such officer's termination.

Compensation of Directors

Directors who are not employees of Iteris Holdings or one of its subsidiaries receive an annual fee of \$12,000 per year, paid quarterly, in addition to \$1,500 for each Board meeting attended in person and \$250 for each telephone conference Board meeting. All directors are reimbursed for their out-of-pocket expenses incurred in attending meetings of the Board of Directors and its committees.

Non-employee directors are also eligible to receive periodic option grants pursuant to the Automatic Option Grant Program under Iteris Holdings' 1997 Stock Incentive Plan. Under this plan, each non-employee director receives an option to purchase 20,000 shares of Class A common stock upon his initial appointment to the Board of Directors and an additional option to purchase 5,000 shares of Class A common stock on the date of each annual meeting after his appointment. Each option granted to non-employee directors under the Automatic Option Grant Program will have an exercise price equal to the fair market value of the Class A common stock on the grant date and will have a maximum term of ten years, subject to earlier termination following the optionee's cessation of service as a Board member.

Compensation Committee Interlocks and Insider Participation

The members of the Compensation and Stock Option Committee of Iteris Holdings' Board of Directors during the fiscal year ended March 31, 2004 were Messrs. Daly, Seazholtz and Thomas. None of these individuals was an officer or employee of Iteris Holdings or its subsidiaries at any time during the fiscal year ended March 31, 2004.

No executive officer of Iteris Holdings has served on the Board of Directors or on the compensation committee of any other entity that has, or has had, one or more executive officers serving as a member of the Board of Directors or on the Compensation and Stock Option Committee of Iteris Holdings.

PRINCIPAL STOCKHOLDERS

The following table sets forth, as of July 1, 2004, the number and percentage ownership of the Class A common stock and Class B common stock of Iteris Holdings by (i) all persons known to Iteris Holdings to beneficially own more than 5% of either class of outstanding common stock (based upon reports filed by such persons with the SEC), (ii) each of the Named Executive Officers in the Summary Compensation Table which appears elsewhere herein, (iii) each director of Iteris Holdings, and (iv) all executive officers and directors of Iteris Holdings as a group. To the knowledge of Iteris Holdings, except as otherwise indicated, each of the persons named in this table has sole voting and investment power with respect to the common stock shown as beneficially owned, subject to community property and similar laws, where applicable.

CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

In February 2002, Iteris Holdings obtained a \$1.25 million line of credit from Technology Lending Partners, L.L.C. ("TLP"), a California limited liability company that is controlled by Joel Slutzky, Iteris Holdings' Chairman of the Board of Directors. Interest is payable on this line of credit monthly and accrues at the prime rate of interest designated by Bank of America from time to time plus 4%. In May 2003, in connection with Iteris Holdings' sale of the assets of its Zyfer, Inc. subsidiary, Iteris Holdings entered into a release of lien with TLP, pursuant to which Iteris Holdings repaid TLP \$850,000 under this line of credit to obtain a release of TLP's security interest in the assets relating to the Zyfer business. As of the date of this prospectus, there are no amounts outstanding under this line of credit.

In October 2002, Iteris Holdings entered into a Receivables Purchase Agreement with TLP, pursuant to which TLP advanced Iteris Holdings an aggregate of \$923,672 against certain of Iteris Holdings' accounts receivable in exchange certain fees. As of March 31, 2003, the total fees earned by TLP in connection with this agreement were \$111,248. Of the total amounts advanced, \$232,347 remained outstanding and payable to TLP as of March 31, 2003. In May 2003, in connection with the Zyfer sale, Iteris Holdings entered into an agreement with TLP, pursuant to which Iteris Holdings repurchased the receivables remaining outstanding under this agreement, all of which related to the Zyfer business, for an aggregate repurchase price of \$227,689. As of the date of this prospectus, there are no outstanding factored receivables between TLP and Iteris Holdings.

In May 2003, Iteris Holdings entered into change in control agreements with each of Greg Miner, the Chief Executive Officer, the Chief Financial Officer and a director of Iteris Holdings, and John E. Johnson, a Vice President of Iteris Holdings and the President, Chief Executive Officer and a director of Iteris, Inc. In the event of an involuntary termination of the officer's employment within three months prior to or twenty-four months after a change in control, the agreement provides for a severance payment to such officer of 200% of such officer's annual base pay plus target bonus for the current fiscal year. In addition, such officer and his dependents are entitled to all insurance benefits for up to twenty-four months or until such officer obtains new employment with comparable benefits, whichever is earlier.

In July 2003, Iteris Holdings entered into a Securities Purchase Agreement with certain purchasers, including Mr. Miner, pursuant to which Iteris Holdings sold an aggregate of 3,666,666 shares of its Class A common stock and issued warrants to purchase an aggregate of 366,666 shares of its Class A common stock to seven accredited investors, including Mr. Miner, who participated in such private financing on the same terms as the other investors. Mr. Miner purchased an aggregate of 166,667 shares of the Class A common stock of Iteris Holdings at a purchase price of \$0.60 per share, the closing sales price of the Class A common stock on the OTC Bulletin Board on the date of the agreement. In addition, in accordance with the terms of the agreement, Mr. Miner received a three year warrant to purchase up to 16,667 shares of the Class A common stock at an exercise price of \$1.50 per share.

In September 2003, Iteris Holdings sold the assets of its MAXxess subsidiary to MAIJ Corporation, which is currently owned by certain members of the MAXxess management team. Wes Appleby, the President of MAXxess, owned 331/3% of the capital stock of MAIJ Corporation as of the date of the sale. The purchase price for the assets of MAXxess consisted of the assumption of \$2.7 million of liabilities of Iteris Holdings and its subsidiaries.

In May 2004, Iteris Holdings entered into a Debenture and Warrant Purchase Agreement with a group of institutional investors, which included certain of our officers, pursuant to which we sold and issued subordinated convertible debentures in the aggregate principal amount of \$10.1 million and issued warrants to purchase an aggregate of 639,847 shares of our Class A common stock. The debentures are due in five years, provide for 6.0% annual interest, payable quarterly, and are

convertible into our Class A common stock at an initial conversion price of \$3.61 per share, subject to certain adjustments, including adjustments for dilutive issuances. From May 19, 2007 until May 18, 2008, the debentures may be redeemed by us, at our option, at 120% of the principal amount being redeemed; and from May 19, 2008 until the maturity date of May 18, 2009, the debentures may be redeemed at 110% of the principal amount being redeemed.

Pursuant to the Debenture Purchase Agreement, each investor also received two warrants to purchase shares of the Class A common stock. For every dollar of debenture purchased, each investor received one warrant to purchase approximately 0.03235 shares of our Class A common stock at an exercise price of \$3.83 per share and a second warrant to purchase approximately 0.03100 shares of our Class A common stock at an exercise price of \$4.03 per share. The exercise prices are subject to certain adjustments, including adjustments for dilutive issuances. The warrants expire on May 18, 2009.

On June 30, 2004, Iteris Holding entered into an exchange agreement with certain of the holders of the common stock of Iteris, Inc., including certain of our officers and directors, pursuant to which such holders agreed to exchange an aggregate of 1,319,541 shares of Iteris, Inc. common stock for an aggregate of 2,639,082 shares of Iteris Holdings Class A common stock. The exchange of shares is part of a plan to merge Iteris, Inc. into Iteris Holdings, pursuant to which all of the outstanding shares of common stock of Iteris, Inc. will convert into shares of Class A common stock of Iteris Holdings. The final step in this roll-up transaction is anticipated to be completed within the next six months and is subject to the approval of the California Department of Corporations. The foregoing transactions are part of a plan of reorganization to consolidate Iteris, Inc. into and with Iteris Holdings.

SELLING STOCKHOLDERS

The selling stockholders acquired the shares held by them and offered by this prospectus in connection with the \$10.1 million convertible debenture financing completed in May 2004 and the share exchange completed in June 2004.

In May 2004, we completed the sale and issuance of subordinated convertible debentures in the aggregate principal amount of \$10.1 million, warrants to purchase an aggregate of 326,730 shares of our Class A common stock at an exercise price of \$3.83 per share and warrants to purchase an aggregate of 313,117 shares of our Class A common stock at an exercise price of \$4.03 per share. The warrants expire on May 18, 2009. The debentures are due in five years, provide for 6.0% annual interest, payable quarterly, and are convertible into our Class A common stock at an initial conversion price of \$3.61 per share, subject to certain adjustments, including adjustments for dilutive issuances. From May 19, 2007 until May 18, 2008, the debentures may be redeemed by us, at our option, at 120% of the principal amount being redeemed; and from May 19, 2008 until the maturity date of May 18, 2009, the debentures may be redeemed at 110% of the principal amount being redeemed.

As commissions related to the transaction, we also issued warrants to purchase an aggregate of 34,036 shares of our Class A common stock at \$3.61 per share. The warrants expire on May 18, 2009.

On June 30, 2004, we entered into an exchange agreement with certain of the holders of the common stock of Iteris, Inc., pursuant to which such holders agreed to exchange an aggregate of 1,319,541 shares of Iteris, Inc. common stock for an aggregate of 2,639,082 shares of Iteris Holdings Class A common stock. The exchange of shares is part of a plan to merge Iteris, Inc. into Iteris Holdings, pursuant to which all of the outstanding shares of common stock of Iteris, Inc. will convert into shares of Class A common stock of Iteris Holdings. The final step in this roll-up transaction is anticipated to be completed within the next six months and is subject to the approval of the California Department of Corporations. The foregoing transactions are part of our plan of reorganization to consolidate Iteris, Inc. into and with Iteris Holdings.

We agreed to effect a shelf registration (of which this prospectus is a part) to register all of the shares issued or issuable in connection with the May 2004 debenture financing in order to permit those selling stockholders and their transferees to sell these shares from time to time in the public market or in privately-negotiated transactions. We have agreed to use our best efforts to keep the registration statement effective until the earlier of:

- (i) the date on which all of the shares covered by this prospectus have been sold, and
- (ii) the date on which all of the shares covered by this prospectus may be sold pursuant to Rule 144(k) under the Securities Act of 1933, as amended (the "Securities Act").

The shares issued or issuable in connection with the share exchange completed in June 2004 are being registered to permit those selling stockholders and their transferees to sell these shares from time to time in the public market or in privately-negotiated transactions, such that they will enjoy the same benefits as the stockholders of Iteris, Inc. who receive shares in the final step of the roll-up after approval by the California Department of Corporations.

This prospectus also covers any additional shares of Class A common stock which become issuable in connection with the shares being registered by reason of any stock dividend, stock split, recapitalization or other similar transaction effected without the receipt of consideration which results in an increase in the number of our outstanding shares of Class A common stock. In addition, this prospectus covers the preferred stock purchase rights which currently trade with the Class A common stock and entitle the holder to purchase additional shares of Class A common stock under certain circumstances. See "Risk Factors Our Stock Structure And Certain Anti-Takeover Provisions May Affect The Price Of Our Common Stock And Discourage A Third Party From Acquiring Us."

Edgar Filing: ITERIS HOLDINGS INC - Form S-1

The following table sets forth the number of shares of our Class A common stock beneficially owned by the selling stockholders as of July 1, 2004 based on the selling stockholders' representations regarding their ownership. We cannot estimate the number of shares that will be held by the selling stockholders after completion of this offering because the selling stockholders may sell all or some of their shares and because there currently are no agreements, arrangements or understandings with respect to the sale of any of their shares. For purposes of the table below, we assume that all shares owned by the selling stockholders which are offered by this prospectus will be sold. Except as indicated in this section, we are not aware of any material relationship between us and the selling stockholders within the past three years other than as a result of the selling stockholders' beneficial ownership of our common stock.

PLAN OF DISTRIBUTION

We are registering the shares of Class A common stock covered by this prospectus on behalf of the selling stockholders, which, as used herein, includes donees, pledgees, transferees or other successors-in-interest selling shares of Class A common stock or interests therein received after the date of this prospectus from a selling stockholder as a gift, pledge, partnership distribution or other transfer. We will not receive any of the proceeds from sales of the shares by the selling stockholders or their transferees. If the warrants were exercised in full, we would receive net proceeds of \$ 2,647,842, which would be used for general corporate purposes.

The selling stockholders named in this prospectus, or pledgees, donees, transferees or other successors-in-interest selling shares received from the selling stockholders as a gift, partnership distribution or other transfer after the date of this prospectus, may sell or otherwise dispose of these shares or interests therein from time to time. The selling stockholders will act independently of Iteris Holdings in making decisions with respect to the timing, manner and size of each disposition. The dispositions may be made on one or more exchanges or in the over-the-counter market or otherwise at prices and at terms then prevailing or at prices related to the then current market price or in negotiated transactions. The selling stockholders may effect such transactions by selling their shares to or through broker-dealers. The shares may be sold by one or more of, or a combination of, the following:

a block trade in which the broker-dealer so engaged will attempt to sell the shares as agent but may position and resell a portion of the block as principal to facilitate the transaction;

purchases by a broker-dealer as principal and resale by such broker-dealer for its account under this prospectus;

an exchange distribution in accordance with the rules of such exchange;

in transactions otherwise than on these exchanges or systems or in the over-the-counter market, including negotiated sales;

through the writing or settlement of options or other hedging transactions, whether through an options exchange or otherwise;

through the settlement of short sales;

ordinary brokerage transactions and transactions in which the broker solicits purchasers; or

in privately negotiated transactions.

To the extent required, this prospectus may be amended or supplemented from time to time to describe a specific plan of distribution. In effecting sales, broker-dealers engaged by the selling stockholders may arrange for other broker-dealers to participate in such resales.

The selling stockholders may enter into hedging transactions with broker-dealers in connection with distributions of their shares or otherwise. In such transactions, broker-dealers may engage in short sales of the shares in the course of hedging the positions they assume with the selling stockholders. The selling stockholders also may sell shares short and redeliver the shares to close out such short positions. The selling stockholders may also enter into option or other transactions with broker-dealers or other financial institutions or the creation of one or more derivative securities which require the delivery to such broker-dealer or other financial institution of shares offered by this prospectus, which shares such broker-dealer or other financial institution may resell pursuant to this prospectus (as supplemented or amended to reflect such transaction). The selling stockholders also may loan or pledge their shares to a broker-dealer. The broker-dealer may sell the shares so loaned, or upon a default the broker-dealer may sell the pledged shares under this prospectus.

Edgar Filing: ITERIS HOLDINGS INC - Form S-1

Broker-dealers or agents may receive compensation in the form of commissions, discounts or concessions from the selling stockholders. Broker-dealers or agents may also receive compensation from the purchasers of the shares for whom they act as agents or to whom they sell as principals, or both. Compensation as to a particular broker-dealer might be in excess of customary broker-dealers or the selling stockholders may be deemed to be "underwriters" within the meaning of Section 2(11) of the Securities Act in connection with sales of the shares. Accordingly, any such commission, discount or concession received by them and any profit on the resale of the shares purchased by them may be deemed to be underwriting discounts or commissions under the Securities Act. Because selling stockholders may be deemed to be "underwriters" within the meaning of Section 2(11) of the Securities Act, the selling stockholders will be subject to the prospectus delivery requirements of the Securities Act.

In addition, any securities covered by this prospectus which qualify for sale under Rule 144 promulgated under the Securities Act may be sold under Rule 144 rather than under this prospectus. The selling stockholders have advised us that they have not entered into any agreements, understandings or arrangements with any underwriters or broker-dealers regarding the sale of their securities. There is no underwriter or coordinating broker acting in connection with the proposed sale of shares by the selling stockholders.

The shares will be sold only through registered or licensed brokers or dealers if required under applicable state securities laws. In addition, in certain states the shares may not be sold unless they have been registered or qualified for sale in the applicable state or an exemption from the registration or qualification requirement is available and is complied with.

Under applicable rules and regulations under the Exchange Act, any person engaged in the distribution of the shares may not simultaneously engage in market making activities with respect to our common stock for a period of two business days prior to the commencement of such distribution. In addition, each selling stockholder will be subject to applicable provisions of the Exchange Act and the associated rules and regulations under the Exchange Act, including Regulation M, which provisions may limit the timing of purchase and sales of shares of our common stock by the selling stockholders. We will make copies of this prospectus available to the selling stockholders and have informed them of the need for delivery of copies of this prospectus to purchasers at or prior to the time of any sale of the shares.

We will file a supplement to this prospectus, if required, under Rule 424(b) under the Securities Act upon being notified by a selling stockholder that any material arrangement has been entered into with a broker-dealer for the sale of shares through a block trade, special offering, exchange distribution or secondary distribution or a purchase by a broker or dealer. Such supplement will disclose:

the name of each such selling stockholder and of the participating broker-dealer(s),

the number of shares involved,

the price at which such shares were sold,

the commissions paid or discounts or concessions allowed to such broker-dealer(s), where applicable,

that such broker-dealer(s) did not conduct any investigation to verify the information set out or incorporated by reference in this prospectus, and

other facts material to the transaction.

In addition, upon being notified by a selling stockholder that a donee or pledgee intends to sell more than 500 shares, we will file a supplement to this prospectus.

We will bear all costs, expenses and fees in connection with the registration of the shares. The selling stockholders will bear all commissions and discounts, if any, attributable to the sales of their shares. The selling stockholders may agree to indemnify any broker-dealer or agent that participates in transactions involving sales of their shares against certain liabilities, including liabilities arising under the Securities Act. In addition, we have agreed to indemnify the selling stockholders and their affiliates against certain liabilities, including liabilities arising under the Securities Act.

DESCRIPTION OF CAPITAL STOCK

The following description of our securities and provisions of our certificate of incorporation and bylaws is only a summary and does not purport to be complete. It is qualified in its entirety by our certificate of incorporation and bylaws, which are exhibits to our registration statement on Form S-1, of which this prospectus is a part, and which are incorporated by reference into this prospectus.

Our authorized capital stock consists of 50,000,000 shares of Class A common stock having a par value of \$0.10 per share, 2,600,000 shares of Class B common stock having a par value of \$0.10 per share and 2,000,000 shares of preferred stock having a par value of \$1.00 per share. As of July 1, 2004, there were outstanding 22,123,554 shares of Class A common stock held by 507 stockholders of record, 922,067 shares of Class B common stock held by 96 stockholders of record and no shares of preferred stock.

Common Stock

We have two classes of common stock outstanding the Class A common stock and the Class B common stock. The rights, preferences and privileges of each class of common stock are identical in all respects except for voting and conversion rights. As of the date of this prospectus, the holders of the Class A common stock are entitled to elect 25% of the Board of Directors rounded up to the nearest whole number, or two directors, and the holders of the Class A common stock and the Class B common stock, voting together as a single class, are entitled to elect the balance of the Board, or six directors. On all other matters to be addressed by a stockholder vote, the holders of Class A common stock have one-tenth of one vote per share held and the holders of Class B common stock have one vote per share held. In addition, each share of Class B common stock is convertible into one share of Class A common stock at the option of the holder of such Class B common stock.

Subject to the rights specifically granted to holders of any then outstanding shares of our preferred stock, our common stockholders are entitled to any dividends that may be declared by our board of directors. Upon our dissolution, liquidation or winding up, holders of our common stock are entitled to share ratably in our net assets after payment or provision for all liabilities and any preferential liquidation rights of our preferred stock then outstanding. Our common stockholders do not have preemptive or redemption rights. All outstanding shares of our common stock are, and the shares of common stock to be issued in this offering will be, upon payment therefor, fully paid and non-assessable. The rights, preferences and privileges of holders of our common stock will be subject to those of the holders of any shares of our common stock and preferred stock we may issue in the future.

Preferred Stock

Our certificate of incorporation provides for the issuance of up to 2,000,000 shares of preferred stock. As of the date of this prospectus, there are no outstanding shares of preferred stock, and we do not have any current plans to issue any shares of preferred stock. Our board of directors is authorized to issue from time to time such authorized but unissued shares of preferred stock in one or more series and to fix or alter the designations, preferences, rights and any qualifications, limitations or restrictions of the shares of each such series, including the dividend, conversion, voting, redemption and liquidation

rights. In March 1998, we adopted a stockholder rights plan and declared a dividend of preferred stock purchase rights to our stockholders. See "Anti-Takeover Provisions" below.

Warrants and Options

As of July 1, 2004, we had outstanding warrants to purchase 2,904,666 shares of our common stock at a weighted average exercise price of \$2.52 per share. All of the warrants are presently exercisable.

In addition, we have reserved an aggregate of 1,597,000 shares of our common stock for issuance under our 1997 Stock Incentive Plan. As of July 1, 2004, we have outstanding options to purchase 1,132,101 shares of our common stock at a weighted average exercise price of \$2.98 per share, of which 777,934 are vested and presently exercisable. 518,499 shares remain available for grant under this plan.

Anti-Takeover Provisions

We are subject to the provisions of Section 203 of the Delaware General Corporation Law. Subject to certain exceptions, Section 203 prohibits a publicly-held Delaware corporation from engaging in a "business combination" with an "interested stockholder" for a period of three years from the date of the transaction in which the person became an interested stockholder, unless the interested stockholder attained this status with the approval of the Board of Directors or unless the business combination is approved in a prescribed manner. A "business combination" includes mergers, asset sales and other transactions resulting in a financial benefit to the interested stockholder. Subject to exceptions, an "interested stockholder" is a person who, together with affiliates and associates, owns, or within three years did own, 15% or more of the corporation's voting stock. This statute could prohibit or delay the accomplishment of mergers or other takeover or change in control attempts with respect to us and, accordingly, may discourage attempts to acquire us.

Certain provisions of our certificate of incorporation and our stockholder rights plan could make it difficult for a third party to acquire us, even though an acquisition might be beneficial to our stockholders. These provisions could limit the price that investors might be willing to pay in the future for shares of our common stock. As of the date of the prospectus, our Class A common stock entitles the holder to one-tenth of one vote per share and our Class B common stock entitles the holder to one vote per share. The disparity in the voting rights between our common stock, as well as our insiders' significant ownership of the Class B common stock, could discourage a proxy contest or make it more difficult for a third party to effect a change in our management and control. In addition, our Board of Directors is authorized to issue, without stockholder approval, up to 2,000,000 shares of preferred stock with voting, conversion and other rights and preferences superior to those of our common stock, as well as additional shares of Class B common stock. Our future issuance of preferred stock or Class B common stock could be used to discourage an unsolicited acquisition proposal.

Furthermore, in March 1998, we adopted a stockholder rights plan and declared a dividend of preferred stock purchase rights to our stockholders. In the event a third party acquires more than 15% of the outstanding voting control of our company or 15% of our outstanding common stock, the holders of these rights will be able to purchase the junior participating preferred stock at a substantial discount off of the then current market price. The exercise of these rights and purchase of a significant amount of stock at below market prices could cause substantial dilution to a particular acquirer and discourage the acquirer from pursuing our company. The mere existence of a stockholder rights plan often delays or makes a merger, tender offer or proxy contest more difficult.

In May 2004, we amended the stockholder rights plan to, among other things, substitute U.S. Stock Transfer Corporation as rights agent in place of BankBoston, N.A., eliminate those provisions that require that certain actions may only be taken by "Continuing Directors," provide that the investors in the May 2004 debenture financing shall not be deemed to be "Acquiring Persons" under the stockholder rights plan, and update certain other provisions of the stockholder rights plan. We have

elected to eliminate those provisions relating to "Continuing Directors," also known as "dead-hand" provisions, because of the uncertain validity of such provisions under current Delaware law.

Transfer agent and registrar

U.S. Stock Transfer Corporation is the transfer agent and registrar for our Class A common stock and Class B common stock.

Listing

Our Class A common stock and Class B common stock are quoted on the OTC Bulletin Board under the symbols "ITRSA.OB" and "ITRSB.OB," respectively.

Report of Independent Registered Public Accounting Firm

Stockholders and Board of Directors
Iteris Holdings, Inc.

We have audited the accompanying consolidated balance sheets of Iteris Holdings, Inc. as of March 31, 2003 and 2004, and the related consolidated statements of operations, stockholders' equity (deficit), and cash flows for each of the three years in the period ended March 31, 2004. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of Iteris Holdings, Inc. at March 31, 2003 and 2004, and the consolidated results of its operations and its cash flows for each of the three years in the period ended March 31, 2004, in conformity with U.S. generally accepted accounting principles.
