Vesting schedule has a time-based component where 25% of options vest in equal increments over 4 years & a performance-based component where up to 75% of options could vest in equal increments over 4 years commencing upon achievement of performance criteria related to OCN's annualized rate of return and stock price.

(1) Two-thirds of the performance-based options would begin to vest over four years if the stock price realizes a compounded annual gain of at least 20% over the exercise price, so long as the stock price is at least double the exercise price. The remaining third of the performance-based options would begin to vest over four years if the stock price realizes a 25% gain, so long as it is at least triple the exercise price.
