**Greene County Bancorp, Inc.
Announces Fiscal Year and Quarterly Earnings**

Catskill, N.Y. -- (BUSINESS WIRE) – August 2, 2007-- Greene County Bancorp, Inc. (the “Company”) (NASDAQ: GCBC), the holding company for The Bank of Greene County (the “Bank”) and its’ wholly-owned subsidiary Greene County Commercial Bank, today reported net income for the quarter and fiscal year ended June 30, 2007. Net income for the fiscal year ended June 30, 2007 amounted to \$2.26 million, or \$0.55 per basic and \$0.54 per diluted share as compared to \$2.24 million, or \$0.55 per basic and \$0.54 per diluted share, an increase of \$16,000 or 0.7%. Net income for the quarter ended June 30, 2007 amounted to \$369,000 or \$0.09 per basic and diluted share as compared to \$486,000, or \$0.12 per basic and diluted share for the quarter ended June 30, 2006, a decrease of \$117,000, or 24.1%. Net income for the quarter and fiscal year was impacted by lower net interest income resulting from a narrowing of the interest rate spread and margin, and by increased operating expenses associated with additional commercial lending staff as well as the opening of two new branch locations during the third quarter of fiscal 2007.

Net interest income decreased to \$10.5 million for the year ended June 30, 2007 as compared to \$10.7 million for the year ended June 30, 2006, a decline of \$145,000 or 1.4% when comparing periods. Net interest income was unchanged at \$2.7 million for the quarters ended June 30, 2007 and 2006. The flat to inverted yield curve was the leading factor in the net interest income position. Net interest spread decreased 28 basis points to 3.48% as compared to 3.76% when comparing the years ended June 30, 2007 to 2006 and decreased 31 basis points to 3.39% as compared to 3.70% when comparing the quarters ended June 30, 2007 and 2006. Net interest margin decreased 25 basis points to 3.60% as compared to 3.85% when comparing the years ended June 30, 2007 and 2006 and decreased 29 basis points to 3.51% as compared to 3.80% when comparing the quarters ended June 30, 2007 and 2006. The decline was primarily due to the increase in average rate paid on interest-bearing liabilities, which include NOW accounts, savings deposits, money market accounts, certificates of deposit and borrowings. The rate paid on interest-bearing liabilities increased 73 basis points to 2.31% for the year ended June 30, 2007 as compared to 1.58% for the year ended June 30, 2006. The rate paid on interest-bearing liabilities increased 63 basis points to 2.47% for the quarter ended June 30, 2007 as compared to 1.84% for the quarter ended June 30, 2006. The increased rate paid on interest-bearing liabilities was partially offset by increased loan volume and higher yielding interest-earning assets. Average loans increased \$24.5 million between the fiscal years ended June 30, 2006 and 2007 to \$200.1 million. The average yield on interest-earning assets increased 45 basis points to 5.79% for the fiscal year ended June 30, 2007 as compared to 5.34% for the fiscal year ended June 30, 2006. The average yield on interest-earning assets increased 32 basis points to 5.86% for the quarter ended June 30, 2007 as compared to 5.54% for the quarter ended June 30, 2006.

The provision for loan losses increased to \$279,000 for the fiscal year ended June 30, 2007 as compared to \$200,000 for the fiscal year ended June 30, 2006. Loan growth has contributed to the higher provision levels. The increase in the level of provision was partially a result of growth in the loan portfolio and an increase in the amount of loan charge-offs, which were associated with the overdraft protection program. Net charge-offs associated with the overdraft protection program increased \$46,000, or 87.5%, to \$98,000 when comparing the years ended June 30, 2007 and 2006. The provision for loan losses decreased to \$85,000 for the quarter ended June 30, 2007 as compared to \$100,000 for the quarter ended June 30, 2006. The higher provision in the quarter ended June 30, 2006 was the result of a charge-off for approximately \$57,000.

Noninterest income amounted to \$3.9 million and \$3.1 million for the fiscal years ended June 30, 2007 and 2006, respectively, an increase of \$829,000, or 26.6%. Noninterest income amounted to \$1.0 million and \$787,000 for the quarters ended June 30, 2007 and 2006, respectively, an increase of \$220,000, or 28.0%. Fees earned from debit card

transactions have increased significantly due to more transaction volume, amounting to \$611,000 for the year ended June 30, 2007 as compared to \$510,000 for the year ended June 30, 2006, an increase of \$101,000, or 19.8%. Also contributing to this increase was income from service charges which increased \$381,000, or 21.4%, to \$2.2 million for fiscal year 2007 compared to \$1.8 million for fiscal year 2006 due to higher levels of insufficient funds charges collected as a result of changes implemented in the Overdraft Privilege Program. The Company also recognized a pretax gain of approximately \$257,000 related to the sale of the old Coxsackie branch building during fiscal 2007. No gains or losses were recognized in either year on sales of investment securities.

Noninterest expense amounted to \$11.0 million for the fiscal year ended June 30, 2007 as compared to \$10.5 million for the fiscal year ended June 30, 2006, an increase of \$509,000, or 4.8%. Noninterest expense amounted to \$3.0 million for the quarter ended June 30, 2007 as compared to \$2.7 million for the quarter ended June 30, 2006, an increase of \$304,000, or 11.1%. Salaries and employee benefits decreased \$73,000 when comparing the fiscal years ended June 30, 2007 and 2006, and \$98,000 when comparing the quarters ended June 30, 2007 and 2006. Retirement expense decreased \$483,000 for the fiscal year ended June 30, 2007 primarily as a result of discontinuing the accrual of benefits under the defined benefit pension plan beginning July 1, 2006. This decrease was partially offset by an increase in 401(k) contribution expense of \$52,000 for the fiscal year ended June 30, 2007 resulting from increases in employer match beginning July 1, 2006 and January 1, 2007. Also offsetting this decrease were higher salaries expenses, which increased by \$415,000 for the fiscal year ended June 30, 2007 due primarily to the staffing of two new branch offices which opened in February and March 2007 as well as several new positions within the commercial lending department. Occupancy expense and equipment and furniture expense combined increased approximately \$294,000, or 21.1%, when comparing the fiscal years ended June 30, 2007 and 2006, and \$111,000, or 31.3%, when comparing the quarters ended June 30, 2007 and 2006, due to higher utility costs, building maintenance and increased depreciation expense associated with the relocated Cairo and Coxsackie branches, the opening of the new operations center in Catskill and the opening of two new branches in Catskill and Greenport. All other noninterest expenses increased \$288,000, or 9.1%, and \$291,000, or 39.5%, when comparing the fiscal year and quarters ended June 30, 2007 and 2006, respectively, due to increased marketing costs, office supplies and various other costs associated with the opening of two new branch locations, increased legal and professional fees and assessments resulting from the conversion of the bank from a New York State chartered financial institution to a Federally chartered institution.

The effective tax rate was 28.7% for the year ended June 30, 2007, compared to 27.0% for the year ended June 30, 2006.

Total assets of the Company were \$325.8 million at June 30, 2007 as compared to \$307.6 million at June 30, 2006, an increase of \$18.2 million, or 5.9%. The most significant growth occurred in net loans, which increased \$17.2 million, or 9.0%, to \$207.3 million at June 30, 2007 as compared to \$190.1 million at June 30, 2006. Net loans represented 63.6% of the asset composition at June 30, 2007 as compared to 61.8% at prior fiscal year end. Deposit growth of \$15.9 million and reductions in cash and cash equivalents of \$1.8 million helped fund the \$17.2 million growth in net loans, and the net additions of premises and equipment of \$2.9 million during the fiscal year ended June 30, 2007. The opening of two new full service branches as well as the continued increase in the customer base within the commercial bank subsidiary contributed to this growth in deposits.

Shareholders' equity increased to \$35.4 million at June 30, 2007 from \$33.6 million at June 30, 2006, as net income of \$2.26 million was partially offset by dividends paid of \$885,000. Accumulated other comprehensive income increased \$347,000 as a result of the mark-to-market of the available-for-sale investment portfolio, net of tax. The increase was entirely related to changes in market interest rates, and was not considered by management to be other than temporary. Other changes in equity were the result of activities associated with the various stock-based compensation plans of the Company, including the 2000 Stock Option Plan and ESOP Plan.

Headquartered in Catskill, New York, the Company serves Greene and Columbia Counties, and southern Albany County, New York from nine full-service branch offices in Catskill, Cairo, Coxsackie, Greenport, Greenville, Hudson,

Tannersville and Westerlo. The Bank of Greene County also has a branch office under construction outside the Village of Chatham in Columbia County. The Company's customers are offered 24-hour services through ATM network systems, an automated telephone banking system and Internet Banking through its web site at <http://www.tbogc.com>.
