Even if you have given your proxy, you may still vote in person if you attend the meeting. PROXY STATEMENT

DYNATRONICS CORPORATION

7030 Park Centre Drive
Salt Lake City, Utah 84121

We are furnishing this Proxy Statement to you and other shareholders of Dynatronics Corporation, a Utah corporation (the “Company” or “Dynatronics”), pursuant to Regulation 14A under the Exchange Act of 1934 in connection with the solicitation of proxies in the enclosed form for use in voting at the Annual Meeting of Shareholders and any adjournment thereof. The Annual Meeting is scheduled to be held at 4:00 p.m. Mountain Time on Tuesday, November 25, 2008, at the corporate headquarters of the Company located at 7030 Park Centre Drive, Salt Lake City, Utah.

Solicitation of Proxies

The Company is soliciting the attached proxy on behalf of its Board of Directors (the “Board of Directors” or “Board”) in connection with the Annual Meeting. This Proxy Statement, the Notice of Annual Meeting, the accompanying form of proxy, and the Annual Report to Shareholders were mailed on or about October 22, 2008, to shareholders of record as of October 7, 2008, who are entitled to vote at the meeting.

Dynatronics will pay the cost of preparing and disseminating this information. In addition to the solicitation of proxies by use of the mails, the directors, officers and employees of Dynatronics may solicit proxies personally or by telephone or facsimile or otherwise. Arrangements will be made with brokerage firms and other custodians, nominees and fiduciaries for the forwarding of solicitation materials to the beneficial owners of the shares of common stock held by such persons, and we will reimburse such brokerage firms and others for their expenses incurred in connection therewith. Directors, officers, or employees of the Company will not be additionally compensated for this solicitation but may be reimbursed for out-of-pocket expenses they incur. The proxy statement will also be made available on the Company’s website, www.dynatronics.com.

Each proxy executed and returned by a shareholder may be revoked at any time thereafter by written notice to the Company’s VP of Administration prior to the Annual Meeting, by execution of a written proxy bearing a later date, or by attending the Annual Meeting and voting in person. No such revocation will be effective, however, with respect to any matter or matters upon which, prior to such revocation, a vote shall have been cast pursuant to the authority conferred by such proxy.

Voting

Your shares will be voted as you direct on your signed proxy card. If you do not specify on your proxy card how you want to vote your shares, we will vote signed returned proxies:

1. FOR the election of the Board’s nominees for directors; and
2. FOR ratification of the appointment of Tanner LC as the independent registered public accounting firm of Dynatronics for the fiscal year ending June 30, 2009;

We do not know of any other business that may be presented at the meeting. If a proposal other than those listed in the Notice is presented at the Annual Meeting, your signed proxy card authorizes the persons named in the proxy to vote your shares on such matters in their discretion.

Only those holders of our common stock as of the close of business on October 7, 2008, which we have designated as the "Record Date," are entitled to receive notice of and to vote at the Annual Meeting. At the close of business on the Record Date, there were 13,657,207 shares of the Company's common stock, no par value, issued and outstanding, each such share entitled to one vote.

A quorum of shareholders, present in person or by proxy, consists of the holders of a majority of the outstanding shares as of the Record Date for purposes of conducting any business at the Annual Meeting. Abstentions and broker non-votes will be counted as “represented” for the purpose of determining the presence or absence of a quorum, but will not be counted for any other purpose. Under Utah law, once a quorum is established, shareholder approval with respect to a particular proposal is generally obtained when the votes cast in favor of the proposal exceed the votes cast against the proposal, except for the election of Directors which is determined by a simple plurality of the votes cast.

PROPOSAL 1 - ELECTION OF DIRECTORS

Directors are elected at each Annual Meeting of the Shareholders and hold office until the next Annual Meeting when their respective successors are duly elected and qualified. The persons named as proxies in the enclosed proxy intend to vote for the election of each of the seven nominees listed below, unless instructions to the contrary are given in the proxy. The seven nominees have indicated that they are able and willing to continue to serve as directors. The Board of Directors has no reason to believe that any nominee named herein will be unable or unwilling to serve. However, if some unexpected occurrence should require the substitution of some other person or persons for any one or more of the nominees, the proxy holders will vote for such nominee or nominees as the Board of Directors may select. A plurality of votes cast at the Annual Meeting is required to elect each nominee.

THE BOARD OF DIRECTORS RECOMMENDS A VOTE “FOR” EACH NOMINEE.

The nominees are: Kelvyn H. Cullimore Jr., Kelvyn H. Cullimore, Larry K. Beardall, Howard L. Edwards, Val J. Christensen, Joseph H. Barton and Mark A. Crockett.

Directors hold office until the next Annual Meeting of Shareholders and until their successors have been elected or appointed and duly qualified. Executive officers are appointed by the Board of Directors at the first Board meeting after each Annual Meeting of Shareholders and hold office until their successors are elected or appointed and duly qualified. Vacancies on the Board which are created by the retirement, death, resignation or removal of a director, or by an increase in the number of Directors, may be filled by the vote of the remaining members of the Board, with such new director serving the remainder of the term or until his successor shall be elected and qualify.

Independence of the Board

The Board of Directors has determined, after considering all of the relevant facts and circumstances, that each of Mr. Edwards, Mr. Christensen, Mr. Barton and Mr. Crockett is independent within the meaning of the applicable Nasdaq Marketplace Rules. This means that the Board has determined that those directors (1) are not officers or employees of the Company or its subsidiaries and (2) have no direct or indirect relationship with the Company that would interfere with the exercise of their independent judgment in carrying out the responsibilities of a director. As a result, the Board of Directors has determined that the Company has a majority of independent directors as required by the Nasdaq Marketplace Rules.

Committees of the Board of Directors

The Board of Directors has two standing committees: the Compensation Committee and the Audit Committee, each comprised solely of independent directors. The Board does not have a standing nominating committee or other committee that recommends qualified candidates to the Board of Directors for nomination or election as directors. For further information on director nominations, see "Director Nominations" below.

Compensation Committee

The Compensation Committee is responsible for reviewing and approving, where required, the compensation, as well as evaluating the performance, of our executive officers, and advising and assisting management in developing our overall compensation strategy to assure that it promotes shareholder interests, supports our strategic and tactical objectives, and provides for appropriate rewards and incentives for our management and employees. The Compensation Committee does not have a separate charter. In exercising its responsibilities, the Compensation Committee establishes and monitors policies governing the compensation of executive officers, reviews the performance of and determines salaries and incentive compensation for executive officers, and makes option awards to those individuals. Additionally, the Compensation Committee administers our stock plans and reviews and approves the structure of our bonus plans. The following independent directors are the members of the Compensation Committee: Val J. Christensen (committee chairman), Howard L. Edwards, Joseph H. Barton and Mark A.

Crockett. The Compensation Committee held two meetings during the fiscal year ended June 30, 2008.

Audit Committee

The Audit Committee, which has been established in accordance with requirements of Section 3(a)(58)(A) of the Securities Exchange Act of 1934 (the “Exchange Act”), is comprised of the following independent directors: Howard L. Edwards (committee chairman), Joseph H. Barton and Val J. Christensen. The Board of Directors has determined that each member of the Audit Committee (i) is independent, (ii) meets the financial literacy requirements of the Nasdaq Marketplace Rules, and (iii) meets the enhanced independence standards established by the Securities and Exchange Commission (“SEC”) and that Mr. Edwards qualifies as an “audit committee financial expert” as that term is defined in Item 407(d)(5)(ii) of Regulation S-K promulgated under the Exchange Act by the SEC.

The Audit Committee is primarily concerned with the integrity of our financial statements, the independence, qualifications and performance of our independent registered public accounting firm, and our compliance with legal requirements. The Audit Committee operates under a written Audit Committee charter approved by the Board that reflects standards and requirements adopted by the SEC and Nasdaq. The Audit Committee Charter can be found on our website, www.dynatronics.com, in the Company Information, Investor Relations, Company Policies section. The Audit Committee held four meetings during fiscal year 2008. According to its charter, the Audit Committee’s duties include selecting the independent registered public accounting firm; reviewing the scope of the audit to be conducted by our independent registered public accounting firm; overseeing our independent registered public accounting firm and reviewing the results of their audit; reviewing our financial reporting processes, including the accounting principles and practices followed and the financial information provided to shareholders and others; overseeing our internal control over financial reporting and disclosure controls and procedures; and serving as our legal compliance committee.

Meetings of the Board of Directors

There were six regular meetings of the Board of Directors held during the fiscal year ended June 30, 2008. No director attended fewer than 75% of all meetings of the Board during the fiscal year and all meetings held by committees on which such director served.

Although the Board of Directors does not have a formal policy regarding director attendance at the Annual Meeting of Shareholders, the Board encourages all directors and director nominees to attend the Annual Meeting.

Executive Sessions of Independent Directors

The independent directors meet in executive session at scheduled times during the year. Mr. Christensen presides at these meetings as lead independent director. If Mr. Christensen is unable to participate, another non-management director designated by the remaining independent directors will preside at these meetings.

Communications with the Board of Directors

Shareholders may communicate directly with the Board of Directors by writing to them at Board of Directors, c/o Vice President of Administration, Dynatronics Corporation, 7030 Park Centre Drive, Salt Lake City, Utah 84121. The VP of Administration will forward the communication to the director or directors to whom it is addressed, except for communications that are (1) advertisements or promotional communications, (2) solely related to complaints with respect to ordinary course of business customer service and satisfaction issues or (3) clearly unrelated to the Company’s business, industry, management or Board or committee matters.

Code of Conduct and Ethics

The Company has established a Code of Business Ethics that applies to its officers, directors and employees. The Code of Business Ethics contains general guidelines for conducting the business of the Company consistent with the highest standards of business ethics, and is intended to qualify as a “code of ethics” within the meaning of the Exchange Act and as a “code of business conduct and ethics” within the meaning of the Nasdaq Marketplace Rules.

All of our directors, officers and employees must act in accordance with our Code of Business Ethics. Employees and directors are required to report any conduct that they believe in good faith to be an actual or apparent violation of the Code of Business Conduct and Ethics. In addition, the Company’s Audit Committee has established procedures to receive, retain and treat complaints received regarding accounting, internal accounting controls or auditing matters and to allow for the confidential and anonymous submission by employees of concerns regarding questionable accounting or auditing matters.

The Code of Business Ethics is available on the Company’s website at www.dynatronics.com, in the Company Information, Investor Relations, Company Policies section. A copy may also be obtained by writing to the VP of Administration at Dynatronics Corporation, 7030 Park Centre Drive, Salt Lake City, Utah 84121.

CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

The Company rents office and/or warehouse space in Pleasanton, California; Detroit, Michigan; and Girard, Ohio. These buildings are owned, respectively, by the Rajala Family Trust, Steve Cyman and Tony Trolio who are the former owners of three of the dealerships acquired on June 30 and July 2, 2007. As part of the purchase price for their distribution companies, the Rajala Family Trust, Steve Cyman and Tony Trolio were paid with shares of Dynatronics stock and are currently 5% or greater shareholders of the Company. The rental payments for each facility are comparable to or below market rates for similar properties.

Except as described above and in this Proxy Statement under the captions, “Employment Contracts” and “Salary Continuation Plan,” during the two years ended June 30, 2008 Dynatronics was not a party to any transaction in which any director, executive officer or shareholder holding more than 5% of the issued and outstanding common stock had a direct or indirect material interest.

Director Nominations

The Board of Directors does not have a nominating committee or other committee that recommends qualified candidates to the Board for nomination or election as directors. The Board of Directors believes that, because of the Company’s relatively small size, and because of the historically few and infrequent vacancies on the Board, it is in the best interest of the Company to permit all of the independent directors to fully participate in the director nomination process. The Board of Directors has adopted a nominations process that provides that the Company’s independent directors, acting by a majority vote, are authorized to recommend individuals as nominees to the Board of Directors.

The independent directors are responsible for reviewing and interviewing qualified candidates to serve on the Board of Directors, for making recommendations to the full Board for nominations to fill vacancies on the Board and for selecting the nominees to the Board to be elected by the Company’s shareholders at each Annual Meeting.

Director Qualifications

The independent directors have established certain criteria they consider as guidelines in considering nominations to the Board of Directors. The criteria include: (a) personal characteristics, including such matters as integrity, age, education, diversity of background and experience, absence of potential conflicts of interest with the Company or its operations, and the availability and willingness to devote sufficient time to the duties of a director of the Company; (b) experience in corporate management, such as serving as an officer or former officer of a publicly held company; (c) experience in the Company’s industry and with relevant social policy concerns; (d) experience as a Board member of another publicly-held company; (e) academic expertise in an area of the Company’s operations; and (f) practical and mature business judgment. The criteria are not exhaustive and the independent directors and the full Board of Directors may consider other qualifications and attributes they believe are appropriate in evaluating the ability of an individual to serve as a member of the Board of Directors. The independent directors seek to assemble a Board of Directors that brings to the Company a variety of perspectives and skills derived from high-quality business and professional experience.

Identification and Evaluation of Nominees

The independent directors may use multiple sources for identifying and evaluating nominees for directors, including referrals from the Company’s current directors and management as well as input from third parties, including executive search firms retained by the Board. The independent directors will obtain background information about candidates, which may include information from questionnaires and background and reference checks, and will then interview qualified candidates. The Company’s other directors will also have an opportunity to meet and interview qualified

candidates. The independent directors will then determine, based on the background information and the information obtained in the interviews, whether to recommend to the Board of Directors that a candidate be nominated to the Board.

Shareholder Nominations

The independent directors may from time to time consider qualified nominees recommended by shareholders, who may submit recommendations to the independent directors through a written notice as described under “Shareholder Proposals” below. Nominees for director who are recommended by shareholders will be evaluated in the same manner as any other nominee for director.

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Exchange Act requires the executive officers and directors, and persons who own more than 10% of the Company's common stock ("Reporting Persons") to file initial reports of ownership and to report changes in ownership in reports filed with the Securities and Exchange Commission. Reporting Persons are required by regulation of the Securities and Exchange Commission to furnish Dynatronics with copies of all Section 16(a) forms they file.

Based solely on review of the copies of such forms furnished to Dynatronics during and with respect to the fiscal year ended June 30, 2008, Dynatronics believes that during fiscal year 2008 all Section 16(a) filings applicable to these Reporting Persons were timely filed.

Executive Compensation

Compensation Discussion and Analysis

The Compensation Committee oversees our executive compensation program and reviews all compensation decisions relating to our executive officers. The Compensation Committee evaluates both performance and compensation to ensure that we are able to attract and retain the best possible employees in key positions and that the compensation provided to key employees remains competitive with the compensation provided to employees of our peer group

comprised of companies of comparable revenue and market capitalization in the diversified high technology market. The following is a discussion of the Company's compensation program for compensation of its named executive officers and directors.

Compensation Program Objectives

Executive compensation is determined by several factors. The following are the main objectives of the executive compensation program of the Company as determined by the Compensation Committee:

- Retention of qualified officers.
- Providing overall corporate direction for the officers and also to provide direction that is specific to officer's respective areas of authority. The level of compensation amongst the officer group, in relation to one another, is also considered in order to maintain a high level of satisfaction within the leadership group. We consider the relationship that the officers maintain to be one of the most important elements of the leadership group.
- Providing a performance incentive for the officers.

The compensation program is designed to reward the officers in the following areas:

- Achievement of specific goals
- Creativity in the form of innovative ideas and analysis for new programs and projects
- New program implementation
- Attainment of Company goals, budgets, and objectives
- Results-oriented determination and organization
- Positive and supportive direction for company personnel

The Compensation Committee determines the portion of compensation allocated to each element for each individual executive officer. The discussions of compensation practices and policies are of historical practices and policies. Our Board of Directors and the Compensation Committee expect to continue these policies and practices, but will reevaluate the practices and policies as they consider advisable.

The principal elements of the Company's executive compensation program include:

- Base salary
- Performance bonus
- Stock options and stock awards
- Employee benefits in the form of:
health and dental insurance
life insurance
- Other benefits including use of company automobile and cell phone

Base salary

Base salary is intended to provide competitive compensation for job performance and to attract and retain qualified named executive officers. The base salary level is determined by considering several factors inherent in the market place such as: the size of the company; the prevailing salary levels for the particular office or position; prevailing salary levels in a given geographic locale; and the qualifications and experience of the executive officer. In determining the salary of the executive officers, the Compensation Committee considered the comparable salary levels provided by various published executive compensation survey reports for the medical device industry.

Performance bonus

Bonuses are based on company performance. A percentage formula based on the Company's pre-tax profit is used in determining the performance bonus for the executive officers. In 2008, due to the pre-tax loss generated for the year,

no performance bonuses were paid. However, a bonus was paid to company officers for the successful completion of the six acquisitions made at the beginning of the fiscal year. (See column (d) of the Summary Compensation Table on page 12, below.)

Stock options and stock awards

Stock ownership is provided to enable executive officers to participate in the success of the Company. The direct or potential ownership of stock is expected to provide the incentive to expand the involvement of the executive officer to include, and therefore be mindful of, the perspective of shareholders of the Company.

Employee benefits

Employee benefits for the executive officers are selected to provide security. Most notably, insurance coverage for health, life, and disability are intended to provide a level of protection that will enable the executive officers to function without having the distraction of having to manage undue risk. The health insurance also provides access to preventative medical care which will help the executive officers function at a high energy level, manage job related stress, and contribute to the overall well being of the executive officers, all of which contribute to an enhanced job performance.

Other benefits

Other employee benefits such as cell phones and auto usage are directly related to job functions but contain a personal use element which is considered to be a goodwill gesture that contributes to enhanced job performance.

As discussed above, the Compensation Committee determines the portion of compensation allocated to each element for each individual executive officer. As a general rule, base salary is competitively based while giving consideration to employee retention, qualifications, performance, and general market conditions. Typically, stock options are based on the current market value of the underlying common shares and how that will contribute to the overall compensation of the executive officer. Consideration is also given to the fact that the option has the potential for an appreciated future value. As such this future value may in fact be the most significant factor of the option, but it is also more difficult to quantify as a benefit to the executive officer.

Accordingly, in determining the compensation program for the Company, as well as setting the compensation for each executive officer, the Compensation Committee attempts to attract the interest of the executive officer within the constraints of a compensation package that is fair and equitable to all parties involved.

Compensation Committee Report

The Compensation Committee has reviewed and discussed the Compensation Discussion and Analysis with our management. Based on this review and discussion, the Compensation Committee recommended to the Board of Directors that the Compensation Discussion and Analysis be included in this Proxy Statement.

Respectfully submitted,

Val J. Christensen, Chairman
Howard L. Edwards
Joseph H. Barton
Mark A. Crockett

Employment Contracts

The Company believes it is in the best interests of the Company to secure the services of key executives and that it is appropriate to provide these executives with protection should their employment with Dynatronics be terminated under certain circumstances. Therefore, Dynatronics has entered into written employment contracts with Kelvyn H. Cullimore, Jr., its Chairman, President and Chief Executive Officer, and Larry K. Beardall, its Executive Vice President. The initial terms of these contracts run through June 30, 2009. Additional contract extensions would extend each contract automatically for one-year terms unless terminated at the end of any renewal period with at least 60 days prior written notice. These agreements have been approved by the Compensation Committee of the Board of Directors. The compensation package under each contract includes a salary, an auto allowance, an annual bonus based on pre-tax operating profit (at rates established by the Compensation Committee), and stock and/or stock options granted under the Company's 2005 Equity Incentive Plan and the 1992 Stock Option Plan, as amended and restated. Each of these officers also participates in the salary continuation plan described below and receives other welfare and employee benefits that are standard in such agreements, including, by way of example, health insurance and disability coverage, paid vacation and Company-paid life insurance. The contracts also contain a provision granting the executives certain rights and protections in the event of a change in control.

As defined in the employment contracts, a “change of control” will occur in transactions such as an acquisition of the Company through a purchase of its shares or assets or by merger in which any person is or becomes the beneficial owner (as defined in Rule 13d-3 under the Exchange Act), directly or indirectly, of securities representing fifty percent (50%) or more of the combined voting power of the Company's then outstanding voting securities; or the composition of the Board of Directors of the Company is changed such that the former members of such Board cease to constitute at least a majority of the Board; or the shareholders of the Company approve an agreement for the sale or disposition by the Company of all or substantially all of the Company's assets.

If a change of control occurs and the employment of the executive is terminated voluntarily within six months of the change in control or involuntarily within 12 months thereof, the executive is to be paid an amount in cash equal to (1) one and one-half times the executive's annual base salary (as defined in the agreement) in effect at the time of such termination, and (2) one and one-half times the average annual bonus paid by the Company to the executive over the previous three complete fiscal years. Fifty percent of the amount payable under the agreement is to be paid within thirty days after termination and the balance is to be paid ratably over the subsequent six months. In addition, the Company will continue to provide and fund all other employee benefits for the executive for 18 months following termination. All stock options, warrants and other similar rights granted by the Company to the executive prior to termination will immediately and entirely vest and will be immediately delivered to the executive without restriction or limitation of any kind (except for normal transfer restrictions required by law). The agreement also provides that the Company will pay the executive an amount equal to the cash surrender value, if any, of certain life insurance policies provided for the benefit of the executive under the agreement during his employment by the Company for the purpose of funding the Company's obligations under the salary continuation agreement and that the Company will transfer to the executive title, free and clear of all encumbrances, to either (i) the Company-owned vehicle used by the executive at the time of termination, or (ii) a vehicle of substantially similar market value.

The employment contracts terminate upon the death or disability of the executive or termination of employment for cause. The contracts also contain covenants against competition by the executives during the term of their employment and for a specified period after the termination of their employment for any reason.

Salary Continuation Plan

During fiscal year 1988, the Board of Directors adopted a salary continuation agreement. Presently Kelvyn H. Cullimore, Jr. and Larry K. Beardall are covered by this plan. The agreement provides for a pre-retirement benefit to be paid to the officer's designated beneficiary in the event he dies before reaching age 65 and a retirement benefit to be paid upon reaching age 65. The pre-retirement benefit provides for payment of 50% of the officer's annual compensation at the time of death up to \$75,000 annually for a period of 15 years, or until the officer would have reached age 65, whichever is longer. The retirement benefit provides the officer \$75,000 annually for a period of 15 years.

Funding for obligations arising in connection with the salary continuation agreement is provided by life insurance policies on the lives of the participating officers. The Company is the owner and beneficiary of these policies. The face amounts of the policies have been determined so that sufficient cash values and death benefits under the policies will meet the obligations as they occur. In fiscal year 2008, Dynatronics expensed \$23,390 relating to salary continuation obligations under the salary continuation agreement.

401(k) Plan

Dynatronics has adopted a 401(k) Plan. Employees who are 20 years of age or older and have completed at least six months of service with the Company are eligible to participate in the 401(k) Plan.

Eligible employees may make contributions to the 401(k) Plan in the form of salary deferrals of up to 20% of total compensation, not to exceed \$15,500, the maximum allowable amount of salary deferrals for calendar year 2008. Dynatronics matches annual employee contributions at 25% of employee contributions, up to a maximum of \$500 per employee per year.

Participants under the 401(k) Plan are fully vested in their salary deferral contributions and vest 20% per year after two years of participation in matching contributions by the Company. Amounts deferred by Named Executive Officers under the 401(k) Plan, along with the 25% matching contributions made by the Company, are included under

“Other Compensation” in the Summary Compensation Table.

Equity Compensation Plans

The Company has two equity compensation plans including the Amended and Restated 1992 Stock Option Plan (the “1992 Plan”) and the 2005 Equity Incentive Plan (“2005 Plan”). Both plans were approved by shareholders. Nonstatutory and statutory options and other awards have been granted to employees, officers, directors and consultants of the Company under these plans. The Compensation Committee of the Board of Directors administers both plans. As of June 30, 2008, options for the purchase of 1,101,603 shares are exercisable and outstanding under these plans.

With the adoption of the 2005 Plan, the Board of Directors determined that no further awards would be granted under the 1992 Plan. As of June 30, 2008, a total of 908,180 shares were available for issuance under options or awards yet to be granted under the 2005 Plan. During fiscal year 2008, each of the four independent directors received 1,941 shares of restricted common stock under the 2005 Plan.

The following table sets forth information as of June 30, 2008, with respect to shares of common stock to be issued upon the exercise, and the weighted-average exercise price, of all outstanding options and rights granted under our equity compensation plans, as well as the number of shares available for future issuance under those plans.

PROPOSAL 2 - RATIFICATION OF SELECTION OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING
FIRM

The Audit Committee has selected the firm Tanner LC to serve as the Company's independent registered public accounting firm for the fiscal year ending June 30, 2009. The shareholders have been asked to ratify this appointment. If the shareholders fail to ratify the selection, the Audit Committee may reconsider its decision. Even if the selection is ratified, the Audit Committee, in its discretion, may direct the appointment of a different independent accounting firm at any time during the year if the Audit Committee feels that such a change would be in the Company's and its shareholders' best interests.

Representatives of Tanner LC will be present at the Annual Meeting, will have the opportunity to make a statement if they desire to do so, and will be available to respond to appropriate questions.

Financial Information Systems Design and Implementation Fees

The Company did not engage Tanner LC to provide any professional services in connection with (i) operating or supervising the operation of its information system or managing its local area network or (ii) designing or implementing a hardware or software system that aggregates source data underlying the financial statements or generates information that is significant to the Company's financial statements taken as a whole.

Auditor Fees

The aggregate fees billed by Tanner LC for professional services rendered in fiscal year 2008 and fiscal year 2007 in connection with (i) the audit of the Company's annual financial statements set forth in its Annual Report on Form 10-KSB for the fiscal years ended June 30, 2008 and June 30, 2007 and (ii) the review of the Company's quarterly financial statements set forth in its Quarterly Reports on Form 10-QSB for each of its fiscal quarters, totaled approximately \$127,000 and \$109,000, respectively.

All Other Fees

The Company, with the approval of the Audit Committee, engaged Tanner LC to provide accounting advice related to six acquisitions the Company made on June 30, 2007 and July 2, 2007, attend audit committee meetings and review the annual proxy statement. Fees for these services totaled approximately \$9,000 and \$10,000 for the fiscal years ended June 30, 2008 and 2007, respectively.

The Audit Committee has advised the Company that it has determined that the non-audit services rendered by Tanner LC during its most recent fiscal year are compatible with maintaining their independence.

Audit Committee Policy Regarding Pre-Approval of Audit and Permissible Non-Audit Services of the Company's Independent Auditors

The Audit Committee has established a policy that all audit and permissible non-audit services provided by the independent registered public accounting firm will be pre-approved by the Audit Committee. These services may include audit services, audit-related services, tax services and other services. The Audit Committee considers whether the provision of each non-audit service is compatible with maintaining the independence of the Company's independent registered public accountants. Pre-approval is detailed as to the particular service or category of services and is generally subject to a specific budget. The independent registered public accounting firm and management are required to periodically report to the Audit Committee regarding the extent of services provided in accordance with this pre-approval, and the fees for the services performed to date.

Report of the Audit Committee

The Audit Committee has prepared this report of its activities for the year ended June 30, 2008. This report shall not be deemed incorporated by reference by any general statement incorporating this Proxy Statement into any other filing under the Securities Act or under the Exchange Act, except to the extent Dynatronics specifically incorporates this information by reference, and shall not otherwise be deemed filed under such statutes.

The Audit Committee is composed entirely of independent directors, and operates under a written charter adopted by the Board of Directors. The Audit Committee assists the Board of Directors in fulfilling its responsibility to shareholders, potential shareholders and the investment community relating to accounting and financial reporting practices.

The Audit Committee meets with management periodically to consider the adequacy of the Company's internal controls and the objectivity of its financial reporting. The Audit Committee discusses these matters with the independent auditors and with appropriate financial personnel.

As needed, the Audit Committee meets privately with both the independent registered public accountants and the appropriate financial personnel, each of whom has unrestricted access to the members of the Audit Committee. The Audit Committee also selects and appoints the independent registered public accountants and reviews periodically the auditors' performance and independence from management as well as the fees paid to the independent registered public accountants for services provided to the Company.

All members of the Audit Committee are "independent" for purposes of Rule 4200(a)(15) of The National Association of Securities Dealers' listing standards and applicable Marketplace Rules. That is, the Board of Directors has determined that none of the members of the Audit Committee has a relationship to Dynatronics that may interfere with his independence from Dynatronics and its management.

Management has primary responsibility for the Company's financial statements and the overall reporting process, including the Company's system of internal controls. The independent registered public accounting firm audits the annual financial statements prepared by management, expresses an opinion as to whether those financial statements fairly present the financial position, results of operations and cash flows of Dynatronics in conformity with accounting principles generally accepted in the United States of America and discusses with us any issues they believe should be raised with the Committee.

For the fiscal year ended June 30, 2008, the Audit Committee reviewed the audited financial statements and met with both management and Tanner LC, the independent registered public accounting firm for fiscal year 2008, to discuss those financial statements. Management has represented to us that the financial statements were prepared in conformity with accounting principles generally accepted in the United States of America.

In discharging the Committee's oversight responsibility for the audit process, we have discussed with Tanner LC the matters required to be discussed by Auditing Standards No. 61, as amended (Communications with Audit Committees), as adopted by the Public Company Accounting Oversight Board ("AS 61"). AS 61 requires the Company's independent registered public accounting firm to provide the Committee with additional information regarding the scope and results of their audit of the Company's financial statements, including with respect to (i) their responsibilities under generally accepted auditing standards, (ii) significant accounting policies, (iii) management judgments and estimates, (iv) any significant accounting adjustments, (v) any disagreements with management and (vi) any difficulties encountered in performing the audit.

The Committee has obtained from Tanner LC a letter providing the disclosures required by Independence Standards Board Standard No. 1 (Independence Discussion with Audit Committees) with respect to any relationship between Tanner LC and the Company which in its professional judgment may reasonably be thought to bear on independence. Tanner LC discussed its independence with the Committee, and has confirmed in its letter to the Committee that, in its professional judgment, it is independent of the Company within the meaning of the United States securities laws.

Based on these reviews and discussions, we recommended to the Board of Directors that Dynatronics' audited consolidated financial statements be included in the Company's Annual Report on Form 10-KSB for the fiscal year ended June 30, 2008.

During the Company's fiscal years ended June 30, 2008 and 2007, there were no disagreements between the Company and its independent registered public accounting firm on any accounting principles or practices, financial statement disclosure or auditing scope or procedure, which, if not resolved to the satisfaction of the independent accountants, would have caused them to make reference to the subject matter of the disagreement in connection with its report. None of the "reportable events" described in Item 304(a)(1)(iv) of Regulation S-K have occurred during the fiscal years ended June 30, 2008 and June 30, 2007, except for the material weakness described under item 8A of our 10KSB for the year ended June 30, 2008.

We did not consult with any independent registered public accountants not formally engaged by the Company during fiscal years ended June 30, 2008 or 2007, on any matter which was the subject of any disagreement or any reportable event or on the application of accounting principles to a specified transaction, either completed or proposed.
