

TEAM FINANCIAL INC /KS
Form 10-Q
May 11, 2001

**UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
WASHINGTON, D.C. 20549**

FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE
SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended March 31, 2001

Securities and Exchange Commission File Number: 000-26335

TEAM FINANCIAL, INC.
(Exact name of registrant as specified in its charter)

KANSAS
(State or other jurisdiction
of incorporation or organization)

48-1017164
(I.R.S. Employer Identification No.)

8 West Peoria, Suite 200, Paola, Kansas 66071
(Address of principal executive offices) (Zip Code)

Registrant's telephone, including area code: **(913) 294-9667**

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

Yes No

APPLICABLE ONLY TO CORPORATE ISSUES:

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the latest practicable date.

There were 3,880,937 shares of the Registrant's common stock, no par value, outstanding as of April 9, 2001.

Part I. Financial Information

Item 1.

Financial Statements (Unaudited)

Consolidated Statements of Financial Condition as of March 31, 2001 and December 31, 2000

Consolidated Statements of Operations for the Three Months Ended March 31, 2001 and 2000

Consolidated Statements of Comprehensive Income for the Three Months Ended March 31, 2001 and 2000

Consolidated Statements of Changes In Stockholders Equity For the Three Months Ended March 31, 2001

Consolidated Statements of Cash Flows For the Three Months Ended March 31, 2001 and 2000

Notes To Consolidated Financial Statements

Item 2.

Management's Discussion And Analysis Of Financial Condition And Results Of Operations

Item 3.

Quantitative And Qualitative Disclosure About Market Risk

Part II. Other Information

Item 1.

Legal Proceedings

Item 6.

Exhibits And Reports On Form 8-K

TEAM FINANCIAL, INC. AND SUBSIDIARIES
NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS
Three month period ended March 31, 2001 and 2000

Note 1: Basis of Presentation

The accompanying unaudited consolidated financial statements of Team Financial, Inc. and Subsidiaries (the Company) have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions to Form 10-Q and Rule 10-01 of Regulation S-X. Accordingly, they do not include all of the information and footnotes necessary for a comprehensive presentation of financial condition and results of operations required by generally accepted accounting principles for complete financial statements. In the opinion of management, all normal recurring adjustments necessary for a fair presentation of results have been included. The consolidated financial statements should be read in conjunction with the audited consolidated financial statements included in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2000.

The interim consolidated financial statements include the accounts of Team Financial, Inc. and its wholly owned subsidiaries. Intercompany balances and transactions have been eliminated. The December 31, 2000 statement of financial condition has been derived from the audited consolidated financial statements as of that date. The results of the interim period ended March 31, 2001 are not necessarily indicative of the results expected for the year ending December 31, 2001.

Note 2: Earnings Per Common Share

Basic earnings per share is based upon the weighted average number of common shares outstanding during the periods presented. Diluted earnings per share reflects the potential dilution that could occur if securities or other contracts to issue common stock were exercised or converted into common stock, or resulted from issuance of common stock that then shared in earnings.

Note 3: Stock Repurchase Program

The Board of Directors approved a stock repurchase program in January 2001, authorizing the repurchase of up to 300,000 shares of the Company's common stock. As of March 31, 2001, the Company had repurchased 1,600 shares of its common stock under the program at an average price of \$8.66 per share.

Note 4: Dividend Declared

On March 26, 2001, the Company declared a quarterly dividend of \$0.05 per share to all shareholders of record on March 30, 2001, payable April 20, 2001.

Note 5: Recent Accounting Pronouncements

On January 1, 2001, the Company adopted SFAS No. 133, *Accounting for Derivative Financial Instruments and Hedging Activities* as amended by SFAS No. 137 and SFAS No. 138. SFAS No. 133 establishes accounting and reporting standards for derivative instruments, including

Edgar Filing: TEAM FINANCIAL INC /KS - Form 10-Q

certain derivative instruments embedded in other contracts and for hedging activities. Upon adoption of the accounting standard, the Company reclassified its held to maturity investment security portfolio to available for sale. The adoption of the standard did not have a significant impact on the consolidated financial statements of the Company.

Note 6: Subsequent Event

On May 7, 2001, the Company entered into an Agreement to merge with Post Bancorp, Inc., owner of Colorado Springs National Bank. Pursuant to the Agreement, Post Bancorp, Inc. will merge into Team Financial, Inc. and Colorado Springs National Bank will operate as a wholly-owned bank of Team Financial, Inc. The transaction is expected to be closed in the third quarter of 2001 and is subject to regulatory approval as well as approval from stockholders of Post Bancorp, Inc. The acquisition will be accounted for using the purchase method of accounting.

Item 2: MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATION

OVERVIEW

Team Financial, Inc. (the Company) is a multi-bank holding company incorporated in the State of Kansas. The Company offers full service community banking and financial services through 20 locations in the Kansas City metropolitan area, southeastern Kansas, western Missouri, and the Omaha, Nebraska metropolitan area. The Company's presence in Kansas consists of seven locations in the Kansas City metro area, which includes the high growth market of Johnson County, three locations in southeast Kansas and two locations along the I-70 corridor. The Company operates three locations in western Missouri, and five in the metropolitan area of Omaha, Nebraska. The Company's growth over recent years has been achieved primarily through purchases of branches of large banks and through acquisitions of community banks. Additional asset growth has occurred through internal growth at existing banks as well as from opening three new branches. The Company's stock is listed on the Nasdaq National Market (NASDAQ) under the symbol TFIN.

The Company's results of operation depend primarily on net interest income, which is the difference between interest income from interest-earning assets and interest expense on interest-bearing liabilities. The Company's operations are also affected by non-interest income, such as service charges, loan fees, and gains and losses from the sale of newly originated mortgage loans. The Company's principal operating expenses, aside from interest expense, consist of salaries and employee benefits, occupancy costs, data processing expense and provisions for loan losses.

FINANCIAL CONDITION

Total assets of the Company at March 31, 2001 were \$534.5 million compared to \$539.6 million at December 31, 2000. The decrease of \$5.1 million was primarily due to a decrease in investment securities of \$13.0 million. The proceeds from the decrease in investment securities at March 31, 2001 versus December 31, 2000 were used to fund a \$3.2 million increase in loans receivable, a \$3.1 million decrease in deposit balances, a \$1.4 million decrease in federal funds purchased and securities sold under agreements to repurchase, and a decrease of \$3.0 million in Federal Home Loan Bank advances. The remaining \$5.3 million of proceeds were invested in federal funds sold and interest bearing bank deposits.

Investment Securities: On January 1, 2001, the Company adopted SFAS No. 133, *Accounting for Derivative Financial Instruments and Hedging Activities* as amended by SFAS No. 137 and SFAS No. 138. SFAS No. 133 establishes accounting and reporting standards for derivative instruments, including certain derivative instruments embedded in other contracts and for hedging activities. Upon adoption of the accounting standard, the Company reclassified its held to maturity investment security portfolio to available for sale.

Total investment securities decreased \$13.0 million, or 8.2%, to \$144.0 million at March 31, 2001 from December 31, 2000. The decrease in investment securities from December 31, 2000 was due to investment securities being called from the Company by the debt issuers, as the debt issuers chose to re-finance the debt at more favorable rates.

The Company's securities portfolio serves as a source of liquidity and earnings and contributes to the management of interest rate risk. The debt securities portfolio is comprised primarily of obligations collateralized by U.S. Government agencies (mainly in the form of mortgage-backed securities), U.S. Government agency securities, U.S. Treasury securities, and municipal obligations. With the exception of municipal obligations, the maturity structure of the debt securities portfolio is generally short-term in nature or indexed to variable rates.

Loans Receivable: Loans receivable increased \$3.2 million, or 0.9%, to \$335.1 million at March 31, 2001 compared to \$331.9 million at December 31, 2000. The increase in loans receivable was the result of growth in the Company's commercial loans of \$7.2 million and one-to-four family residential loan growth of \$1.3 million. The Company's agricultural loans decreased \$2.6 million and installment loans decreased \$3.6 million.

Edgar Filing: TEAM FINANCIAL INC /KS - Form 10-Q

During fiscal year 2000, the Company began placing more emphasis on and allocating more resources to commercial lending at its banking locations. During the first quarter of 2000, the Company increased its commercial lending staff in the Kansas City metro area at Community Bank. Community Bank specializes in commercial lending. The increased management efforts on building the commercial loan portfolio allowed the Company to increase its mix of commercial loans as a percent of its total loan portfolio. Commercial loans have increased \$18.4 million from March 31, 2000 to March 31, 2001 and comprise 32.2% of the loan portfolio at March 31, 2001 versus 27.6% of the loan portfolio at March 31, 2000. Commercial loans contain more risk and generally require higher reserves than other loans in the Company's loan portfolio.

The substantial majority of the Company's residential mortgage loan production is underwritten in compliance with the requirements for sale to or conversion to mortgage-backed securities issued by the Federal Home Loan Mortgage Corporation (FHLMC), the Federal National Mortgage Association (FNMA), or the Government National Mortgage Association (GNMA). The Company will typically sell fixed rate mortgage loans to permanent investors and retain the servicing rights at the Company's discretion. The majority of the Company's commercial loans include loans to service, retail, wholesale, and light manufacturing businesses. These loans are made at rates based on the prevailing national prime interest rate, as well as fixed rates for terms generally ranging from three to five years. Installment loans include automobile, residential, credit card, and other personal loans. The majority of the installment loans are loans with fixed interest rates.

Non-performing Assets: Non-performing assets consist of loans 90 days or more delinquent and still accruing interest, non-accrual loans and other real estate owned (OREO). OREO represents real estate properties acquired through foreclosure or by deed in lieu of foreclosure and is classified as assets acquired through foreclosure on the balance sheet until the property is sold. Commercial loans, residential real estate loans, and installment loans are generally placed on non-accrual status when principal or interest is 90 days or more past due, unless the loans are well-secured and in the process of collection. Loans may be placed on non-accrual status earlier when, in the opinion of management, reasonable doubt exists as to the full, timely collection of interest or principal.

The following table summarizes the Company's non-performing assets:

	March 31, 2001 (unaudited)	December 31, 2000
(In Thousands)		
Non-performing assets:		
Non-accrual loans		
Real estate loans	\$825	\$862
Commercial, industrial, and agricultural	1,926	1,116
Installment loans	619	650
Lease financing receivables	90	77
Total non-accrual loans	3,460	2,705
Loans past due 90 days or more still accruing		
Real estate loans	\$256	\$326
Commercial and industrial	650	1,119
Installment loans	51	73
Total past due 90 days or more still accruing	957	1,518
Total non-performing loans	4,417	4,223
Assets acquired through foreclosure	588	340
Total non-performing assets	\$5,005	\$4,563
Non-performing loans to total loans	1.32%	1.37%
Non-performing assets to total assets	0.93%	0.88%

Non-performing assets totaled \$5.0 million at March 31, 2001 compared to \$4.6 million at December 31, 2000, representing an increase of 9.7%. The increase in non-performing assets was generated from a \$194,000 increase in non-performing loans resulting from two commercial credits, and an increase in assets acquired through foreclosure of \$248,000. Assets acquired through foreclosure consisted of 11 properties, an increase from 9 properties at December 31, 2000. During the quarter seven new properties were added totaling \$432,000, with five properties removed during the quarter totaling \$184,000.

Edgar Filing: TEAM FINANCIAL INC /KS - Form 10-Q

Much of the increase in non-performing assets during the 2000 fiscal year was essentially generated from a \$926,000 increase in non-performing loans resulting from three large credits occurring at the bank the Company acquired in the fourth quarter of 1999, and a \$300,000 increase related to a bankruptcy. During the quarter ended March 31, 2001, the Company experienced an additional upward trend in non-performing assets. Depending on economic conditions over the next few quarters, the Company may experience further deterioration in its credit quality.

As of March 31, 2001, there were no significant loans excluded from non-performing loans set forth above, where known information about possible credit problems of borrowers caused management to have serious doubts as to the ability of such borrowers to comply with the present loan repayment terms and which may result in such loans becoming non-performing.

Allowance for loan losses: Management maintains its allowance for loan losses based on industry standards, historical experience, and an evaluation of economic conditions. The Company regularly reviews delinquencies and loan portfolio quality. Based upon such factors, management makes various assumptions and judgments about the ultimate collectibility of the loan portfolio and provides an allowance for probable loan losses based upon a percentage of the outstanding balances and for specific loans if their ultimate collectibility is considered questionable.

Allowance for loan losses was 1.14% of total loans at March 31, 2001, a decrease from 1.16% at March 31, 2000. The decrease in the allowance for loan loss ratio as a percent of total loans for the quarter was primarily the result of charging off a real estate development loan consisting of four lots with specific allowances reserved against the loan, decreasing the allowance for loan losses.

The Company experienced net charge-offs of \$359,000, or 0.11% of total loans, for the three months ended March 31, 2001 versus \$95,000, or 0.03% of total loans, for the corresponding period in 2000. The increase in net-charge offs was primarily the result of an additional \$109,000 of real estate development loan charge-offs and an additional \$91,000 in consumer installment loan charge-offs. Charge-offs as a percent of total loans at March 31, 2001 is higher than the historical average for the Company. The increase in non-performing assets the Company has experienced may increase charge-offs in future periods.

The following table summarizes the Company's allowance for loan and lease losses:

	Three Months Ended March 31,	
	2001 (Unaudited)	2000 (Unaudited)
	(Dollars In Thousands)	
Balance, beginning of period	\$3,911	\$3,320
Provision for loan losses	262	185
Charge-offs	(436)	(163)
Recoveries	77	68
Allowance of acquired banks	-	353
Balance, end of period	\$3,814	\$3,763
Allowance for loan losses as a percent of total loans	1.14%	1.16%
Allowance for loan losses as a percent of non performing loans	86.35%	144.07%
Net charge-offs as a percent of total loans	0.11%	0.03%

Liabilities: Total liabilities were \$492.2 million at March 31, 2001, a decrease of \$7.6 million from \$499.8 million at December 31, 2000. The decrease is largely related to a decrease in deposits and borrowed funds as the Company used proceeds from investment security calls to reduce borrowed funds.

Deposits: Total deposits decreased \$3.1 million from December 31, 2000, to a balance at March 31, 2001 of \$439.1 million. The decrease in deposits was related to a decrease in checking deposits of \$3.4 million and certificates of deposit of \$1.3 million. The decrease in checking deposits and certificates of deposit balances was attributable to a cyclical decrease in semi annual tax deposits received from municipal organizations during December and June of each year.

Edgar Filing: TEAM FINANCIAL INC /KS - Form 10-Q

Federal Home Loan Bank Advances: Federal Home Loan Bank advances decreased \$3.0 million to a balance of \$27.9 million at March 31, 2001. The decrease was due to advances paid off with the proceeds from the decrease in investment securities.

Notes Payable: Notes Payable decreased \$900,000 from December 31, 2000 to a balance of \$13.5 million at March 31, 2001. The decrease was attributable to the normal quarterly principal payment of \$125,000 and a pay down on the Company's line of credit as a function of cash management at the parent company.

Equity: The Company's Board of Directors approved a stock repurchase program in January 2001 authorizing the repurchase of up to 300,000 shares of the Company's common stock. As of March 31, 2001 the Company had repurchased 1,600 under the program at an average price of \$8.66 per share.

Regulatory Capital: The Company is subject to regulatory capital requirements administered by Federal Reserve, the Federal Deposit Insurance Corporation, and the Comptroller of the Currency. Failure to meet the regulatory capital guidelines may result in the initiation by the Federal Reserve of appropriate supervisory or enforcement actions. As of March 31, 2001, the Company met all capital adequacy requirements to which it is subject and management does not anticipate any difficulty in meeting these requirements on an ongoing basis. The Company's ratios at March 31, 2001 were as follows:

Ratio	At March 31, 2001	
	Actual	Minimum Required
Total capital to risk weighted assets	9.74%	8.00%
Core capital to risk weighted assets	8.62%	4.00%
Core capital to average assets	5.60%	4.00%
Liquidity		

The Company continuously forecasts and manages its liquidity in order to satisfy cash flow requirements of depositors and borrowers and allow the Company to meet its own cash flow needs. The Company has developed internal and external sources of liquidity to meet its continued growth needs. These include, but are not limited to, the ability to raise deposits through branch promotional campaigns, maturity of overnight funds, short term investment securities classified as available-for-sale and draws on credit facilities established through the Federal Home Loan Bank. The Company's most liquid assets are cash and cash equivalents and investment securities available-for-sale. The levels of these assets are dependent on the Company's operating, financing, lending, and investing activities during any given period. At March 31, 2001 and December 31, 2000 these liquid assets totaled \$175.0 million and \$157.7 million, respectively. Management believes the Company's sources of liquidity are adequate to meet expected cash needs for the foreseeable future.

RESULTS OF OPERATIONS

Net Interest Income

Net interest income before provision for loan losses for the three months ended March 31, 2001 totaled \$4.7 million, compared to \$4.5 million for the same period in 2000. The increase of \$193,000 was primarily attributable to the additional net interest income contributed from the operations of the acquisition of Fort Calhoun Investment Co. during the first quarter of 2000.

The Company's net interest margin as a percent of average earning assets decreased for the quarter ended March 31, 2001 compared to the same quarter a year ago. For the three months ended March 31, 2001, net interest margin decreased to 3.85% from 3.92% for the three months ended March 31, 2000. The decrease is primarily attributable to the acquisition of Fort Calhoun State Investment Co. during the first quarter of 2000. Fort Calhoun Investment Co.'s assets consisted primarily of one-to-four family residential loans and investment securities which provides lower yields than the Company's assets prior to the acquisition. The acquisition was primarily responsible for the increase in average earning assets of \$30.7 million to \$510.8 million for the three months ended March 31, 2001.

The following tables present certain information relating to net interest income for the three months ended March 31, 2001 and 2000. The average rates and costs are derived by dividing annualized interest income or expense by the average balance of assets and liabilities, respectively, for the periods shown.

- (1) Loans are net of deferred loan fees.
- (2) Non-accruing loans are included in the computation of average balances.
- (3) The Company includes loan fees in interest income. These fees for the three months ended March 31, 2001 and 2000 were \$191,000 and \$392,000, respectively.
- (4) Yield is adjusted for the tax effect of tax exempt securities. The tax effects for the three months ended March 31, 2001 and 2000 were \$169,000 and \$189,000, respectively.

The following table presents the components of changes in the Company's net interest income, on a tax equivalent basis, attributed to volume and rate. Changes in interest income or interest expense attributable to volume changes are calculated by multiplying the change in volume by the prior fiscal year's average interest rate. The changes in interest income or interest expense attributable to change in interest rates are calculated by multiplying the change in interest rate by the prior fiscal year average volume. The changes in interest income or interest expense attributable to the combined impact of changes in volume and change in interest rate are calculated by multiplying the change in rate by the change in volume.

- (1) Loans are net of deferred loan fees.
- (2) Non-accruing loans are included in the computation of average balances.
- (3) The Company includes loan fees in interest income. These fees for the three months ended March 31, 2001, and 2000 were \$191,000 and \$392,000, respectively.
- (4) Yield is adjusted for the tax effect of tax exempt securities. The tax effects for the three months ended March 31, 2001 and 2000 were \$169,000 and \$189,000, respectively.

Non-Interest Income

Non-interest income for the three months ended March 31, 2001 was \$1.5 million, an increase of \$289,000, or 23%, over the same three-month period ended March 31, 2000. The increase was partially attributable to a \$146,000 increase in service charge income from additional fee based services offered on deposit accounts and enhanced control over fee waivers.

Also reflected in the increase of non-interest income was a \$178,000 increase from the gain on sale of mortgage loans generated from additional loan originations sold due to a more favorable interest rate environment during the quarter ended March 31, 2001 compared to the quarter ended March 31, 2000. During the third quarter of 2000, the Company altered its general practice of holding variable rate residential one-to-four family residential mortgages for its loan portfolio to selling some or all of the originations to the secondary market. This allows the Company to price one-to-four family residential mortgage loans more competitively, produces greater non-interest income from the sale of the loans, and provides increased flexibility in interest rate risk management.

Non-Interest Expense

Non-interest expense increased \$436,000 to \$4.8 million for the three months ended March 31, 2001 compared to \$4.4 million for the three months ended March 31, 2000. Approximately \$340,000 of the increase is directly attributable to the operations from the acquisition of Fort Calhoun State Investment Co., which was acquired on March 23, 2000. Net of the acquisition, the increase in non-interest expense for the first quarter of 2001 compared to the first quarter of 2000 was \$96,000.

The Company's salary and benefits increased \$212,000 for the first quarter ended in 2001 compared to the same quarter a year ago. Net of the increase related to the acquired operations, salaries and benefits increased \$12,000.

Edgar Filing: TEAM FINANCIAL INC /KS - Form 10-Q

Occupancy and equipment increased \$89,000 during the first quarter of 2001 versus the same quarter a year ago. The operational expense of the acquisition accounts for \$52,000 of the total increase. The remaining \$37,000 increase is primarily the result of higher utility costs for this year compared to 2000.

Professional fees were \$265,000 for the first quarter ended March 31, 2001, an increase of \$94,000 from \$171,000 for the first quarter ended March 31, 2000. The increase in professional fees is attributable to consulting fees based on a percentage of the service charge income generated from the additional deposit account services provided to customers as well as consulting fees paid related to the tax benefits on the establishment of real estate investment trusts.

Goodwill amortization increased \$25,000 to \$183,000 for the quarter ended March 31, 2001, compared to same period a year ago. The increase was a result of the addition of goodwill established by premiums paid on the acquisition of Fort Calhoun Investment Co. in the first quarter of 2000. The acquisition has been accounted for using purchase accounting, which means the excess of the purchase price over the carrying value of the net assets acquired is recorded in the consolidated financial statements as goodwill. Goodwill is amortized over periods ranging from 15 to 20 years. The amortization is a non-cash operating expense, which reduces net income. The balance of the Company's goodwill was \$10.7 million as of March 31, 2001.

Income Tax Expense

The Company recorded income tax expense of \$339,000 for the three months ended March 31, 2001, compared to an income tax expense of \$334,000 for the quarter ended March 31, 2000. The Company's effective tax rate increased to 29.7% for the three months ended March 31, 2001, up from 28.5% for the three months ended March 31, 2000. The Company's effective tax rate is less than the statutory federal rate of 34% due primarily to municipal interest income and the income tax benefit resulting from dividends passed through the ESOP to the ESOP participants.

Item 3: QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Asset and Liability Management

Asset and liability management refers to management's efforts to minimize fluctuations in net interest income caused by interest rate changes. This is accomplished by managing the repricing of interest rate sensitive interest-bearing assets and interest-bearing liabilities. Controlling the maturity of repricing of an institution's liabilities and assets in order to minimize interest rate risk is commonly referred to as gap management. Close matching of repricing assets and liabilities will normally result in little change in net interest income when interest rates change.

The following table indicates that at March 31, 2001, if there had been a sudden and sustained increase in prevailing market interest rates, the Company's 2001 interest income would be expected to decrease, while a decrease in rates would indicate an increase in income.

Change in Interest Rates	Net Interest Income	(Decrease) Increase	Percent Change
(Dollars In Thousands)			
200 basis point rise	\$19,376	\$(392)	(1.99)%
100 basis point rise	19,661	(107)	(0.54)
base rate scenario	19,768	-	-
100 basis point decline	19,940	172	0.87
200 basis point decline	20,208	440	2.23

PART II OTHER INFORMATION

Item 1. Legal Proceedings

The Company is from time to time involved in routine litigation incidental to the conduct of its business. The Company believes that no pending litigation to which it is a party will have a material adverse effect on its liquidity, financial condition, or results of operations.
