**METALS USA REPORTS PROFITABLE FOURTH QUARTER
AND 2003 YEAR END**

February 17, 2004 HOUSTON, TEXAS Metals USA, Inc. (AMEX: MLT), a leader in the metals processing and distribution industry, today announced results for the three months and full year ended December 31, 2003. Net income for the fourth quarter of 2003 was \$2.6 million, or \$0.13 per share. For the full 2003 year, net income was \$7.5 million, or \$0.37 per share. Net income and earnings per share comparisons for the same periods last year have not been presented due to the significance of that year's adjustments, primarily fresh-start accounting, reorganization expenses and the reorganization gain aggregating \$52.6 million (pre-tax), which were recognized upon the successor entity's emergence from chapter 11 proceedings on October 31, 2002.

Sales for the fourth quarter of 2003 were \$249.5 million, compared to a combined amount for the successor and predecessor company of \$229.2 million for the fourth quarter of 2002. Operating income for the fourth quarter of 2003 was \$4.0 million, compared to a combined operating loss for the successor and predecessor company of (\$11.5) million for the fourth quarter of 2002.

Sales for the year ended December 31, 2003 were \$963.2 million, compared to a combined amount for the successor and predecessor company of \$962.0 million for 2002. Operating income for the full year of 2003 was \$16.4 million, compared to a combined operating loss for the successor and predecessor company of (\$3.5) million last year.

C. Lourenço Gonçalves, President and CEO stated, "I want to thank all Metals USA employees who have supported and adopted our new ways to manage relationships and resources. Despite challenging market conditions, our fourth quarter results represent our third consecutive profitable quarter. At this point, I am completely confident that the stage is set for continuing improved performance going forward."

Mr. Gonçalves continued, "Metal prices have been increasing dramatically over the last several months and supplies are tight. In such circumstances our primary objective is to keep our customers supplied with competitively priced material. The relationships we have forged with our suppliers have been the key to accomplishing just that. As far as our service center business is concerned, we expect the recent growth in metal consumption to continue its present pace. We are prepared to meet the increased demand. On a final note, Mr. Gonçalves stated, "The Metals USA Building Products Group continues to distinguish itself as a premier, value-added business. We have aggressive plans for 2004, with new product offerings as well as geographic expansion. We look forward to growing this segment of our business."
