**Item 2.05. Costs Associated with Exit or Disposal Activities and Item 2.02. Results of Operations and Financial Condition.**

On August 15, 2005, OfficeMax Incorporated (the Company) announced a plan to relocate and consolidate its corporate headquarters locations during the fall of 2006. On July 29, 2005, the Company's board of directors indicated its general support for the consolidation. Following further analysis of the costs and benefits of the headquarters consolidation, on September 22, 2005, the Company's board of directors approved the consolidation plan. On September 29, 2005, the Company announced that Naperville, Illinois was selected as the location for the new consolidated corporate headquarters. The Company also announced that its retail headquarters in Shaker Heights, Ohio and its existing corporate headquarters in Itasca, Illinois would move into the new corporate headquarters. Currently, approximately 650 associates are located at the retail headquarters and 950 associates are located at the corporate headquarters. The relocation and consolidation process is expected to be completed during the second half of 2006. The Company expects that this headquarters consolidation will improve operational efficiencies, enhance collaboration among departments, and reduce costs over time.

The Company expects to record a charge in the third quarter of 2005 of approximately \$11 million related to the consolidation of the corporate headquarters. The third quarter charge consists primarily of expenses related to severance and retention benefits totaling approximately \$9 million and accelerated depreciation of the retail headquarters building and leasehold improvements at the corporate headquarters.

The Company expects that the total cost of the relocation and consolidation will be approximately \$40 to \$50 million on a pre-tax basis over the next 12 months. Total cash charges for severance, retention and other employee costs are expected to be approximately \$15 to \$20 million over the next 12 months, including the \$9 million to be recorded in the third quarter. Total cash charges for contract termination and other closure costs are expected to total approximately \$10 to \$15 million over the next 12 months. The non-cash charges for accelerated depreciation are expected to total \$10-\$15 million over the next 12 months. These estimated costs do not include all future expenses for personnel training, recruiting, and relocation, or the potential savings due to expected efficiencies and tax incentives.
