Notes to Financial Statements

Note 1. Financial Statements

In the opinion of management, the accompanying unaudited, condensed, consolidated financial statements contain all adjustments necessary to present fairly the financial position of the Company and its results of operations and cash flows for the interim periods presented. Such financial statements have been condensed in accordance with the applicable regulations of the Securities and Exchange Commission (SEC) and, therefore, do not include all disclosures required by generally accepted accounting principles. These financial statements should be read in conjunction with the Company's audited financial statements for the year ended December 31, 2006 included in the Company's Annual Report on Form 10-K.

The results of operations for the three months ended March 31, 2007 are not necessarily indicative of the results to be expected for the entire fiscal year.

Note 2. Basis of presentation

The Company presents its financial status and the changes in its financial status on the liquidation basis of accounting. Accordingly, the net assets of the Company are stated at liquidation value, whereby assets are stated at their estimated net realizable values and liabilities, which include estimated liquidation expenses to be incurred through the date of final dissolution of the Company, are stated at their anticipated settlement amounts. The Company has total obligations of approximately \$4.4 million and net assets of \$30,000. Accordingly, the liabilities reflected on the condensed consolidated statement of net assets represent solely the amounts for which the Company has available assets.

As of March 31, 2007, the Company remains indebted to Apotex in the amount of approximately \$4.4 million. In addition, in each of the period ended March 31, 2007 and 2006, Apotex paid, on behalf of the Company, approximately \$25,000 and \$1,500, respectively, of expenses, representing primarily legal, accounting and administrative costs which are not reflected on the accompanying financial statements and from which Apotex has agreed not to charge the Company.

ITEM 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Overview

GEN/Rx, Inc. (GEN/Rx or the Company) effectively ceased operations on or about June 30, 1996.

The Company was originally incorporated as American Veterinary Products, Inc. under the laws of the State of Colorado in 1976. In January 1988, American Veterinary Products, Inc. was acquired by Transmed Express, Inc. (Transmed), a publicly held company incorporated under the laws of the State of New York, in a stock-for-stock transaction. In March 1993, American Veterinary Products, Inc. changed its name to GEN/Rx, Inc.

GEN/Rx was a holding company which, through its subsidiaries, was in the business of developing, manufacturing and distributing generic injectable drugs. GEN/Rx had three wholly-owned subsidiaries: AUSA, Inc. (AUSA), which was sold in June 1996 to the Company's principal stockholder and principal creditor, Apotex Corp. (formerly known as Apotex USA, Inc.; Apotex); American Veterinary Products, Inc. (AVP), which discontinued operations in December 1995; and Collins Laboratories, Inc. (Collins), which has been inactive since its inception.

With respect to the Company's financial information set forth in this Quarterly Report on Form 10-Q for the three months ended March 31, 2007, the financial statements are presented on a liquidation basis. The Company has not conducted any business operations since the sale of its wholly-owned subsidiary, AUSA, on June 30, 1996. All activities of the Company after such date related principally to the liquidation of the AVP assets by the receiver and the sale of AVP's Fort Collins manufacturing plant. All of the operations of AVP and AUSA are treated as discontinued operations. No comparison is made in this report for the three months ended March 31, 2007 and March 31, 2006 because there were no operations in 2007 and 2006.

While the Company was engaged in operations, it was dependent on Apotex for financing. At September 1996, after the sale of AUSA to Apotex, the Company was indebted to Apotex in the amount of approximately \$4.4 million. Since 1996, the Company has not made any payments to Apotex on this debt. Apotex has not charged interest on the indebtedness and has not instituted any legal proceedings for collection. It is not expected that Apotex will advance any additional funding to the Company and the Company presently has no available financing alternatives. The Company has adopted the liquidation basis of accounting and, accordingly, the net assets of the Company are stated at their estimated net realizable values and liabilities which include estimated liquidation expenses to be incurred through the date of final dissolution of the Company reflected at their anticipated settlement amounts.

Liquidity and Capital Resources

At March 31, 2007, the Company has cash of \$30,000 and liabilities in the nature of long-term debt to Apotex of approximately \$4.4 million. The Company has virtually no assets and no capital resources and lacks the liquidity to carry on any business activities. Apotex is currently considering various business alternatives relating to the Company including, but not limited to, commencing new business operations, dissolving the Company or seeking an interested purchaser for its stock holdings in the Company. There can be no assurance that Apotex will pursue any of these or other alternatives relating to the Company, or if it does, that any such efforts will be successful.

Off-Balance Sheet Arrangements

As of March 31, 2007, we did not have any off-balance sheet arrangements as defined in Item 303(a)(4)(ii) of Regulation S-K promulgated under the Securities Act of 1934, as amended.

Contractual Obligations and Commitments

As of March 31, 2007, we did not have any contractual obligations or commitments other than our outstanding debt described under Overview above.

ITEM 3. Quantitative and Qualitative Disclosures About Market Risk

Market risk is the sensitivity of income to changes in interest rates, foreign exchanges, commodity prices, equity prices and other market-driven rates or prices. We are not presently engaged in any substantive commercial business. Accordingly, we are not and, until such time as we consummate a business combination, we will not be, exposed to risks associated with foreign exchange rates, commodity prices, equity prices or other market-driven rates or prices.

ITEM 4. Controls and Procedures

As of the end of the period covered by this Quarterly Report on Form 10-Q, the Company's sole officer acting as principal executive officer and principal financial officer and director has evaluated the effectiveness of the disclosure controls and procedures of the Company. Disclosure Controls, as defined in Rule 13a-15(e) of the Securities Exchange Act of 1934, as amended, are procedures that are designed with the objective of ensuring that information required to be disclosed in the Company's reports filed under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms. Disclosure Controls are also designed with the objective of ensuring that such information is accumulated and communicated to management including the principal executive and principal financial officer as appropriate to allow timely decisions regarding required disclosure.

The Company's management does not expect that the Company's disclosure controls and procedures would prevent all errors and all frauds. A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objective of the control system are met. Further the design of a control system must reflect the fact that there are resource constraints and the benefits of controls must be considered relative to their costs. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all issues and instances of error and fraud, if any within a company have been identified.

As the Company currently has no operations and no revenues and only one officer, the Company has limited disclosure controls and procedures in place.

An evaluation of the effectiveness of the design and operation of the Company's disclosure controls and procedures was carried out within the 90 days prior to the filing date of this report. This evaluation was carried out under the supervision and with the participation of our Acting President and Chief Executive Officer and Chief Financial

Officer (the Certifying Officer). Based upon that evaluation, the Certifying Officer concluded that the Company's disclosure controls and procedures are adequate. There have been no significant changes in the Company's internal controls or in other factors that could significantly affect internal controls subsequent to the date of the evaluation. If and when the Company re-commences business operations, it may seek to develop new disclosure controls and procedures.

PART II. OTHER INFORMATION

ITEM 1. Legal Proceedings

The Company is not currently a party to any legal proceedings. However, the Company is indebted to Apotex in the amount of approximately \$4.4 million and has previously had a receiver appointed for its subsidiary, AVP. See Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations of Part I above and Item 3. Defaults Upon Senior Securities below.

As a result of the failure to timely file reports under the Exchange Act relating to the Company, the Securities and Exchange Commission may, in its discretion, institute one or more actions against the Company and/or its officers and directors (and former officers and directors) seeking monetary or other penalties that may be imposed under the Exchange Act. Any such penalties could have a material adverse effect the Company. The Company has filed all delinquent reports and is currently in compliance with its periodic filing obligations.

ITEM 3. Defaults Upon Senior Securities

The Company has been in default on its indebtedness in favor of Apotex since 1996. The entire amount of indebtedness is due and payable. At March 31, 2007, the Company was indebted to Apotex in the amount of approximately \$4.4 million.
