September 30, 2007

- (a) All or a portion of this security is segregated for extended settlements.
- (b) Bonds are escrowed to maturity by government securities and/or U.S. government agency securities and are considered by the Manager to be triple-A rated even if issuer has not applied for new ratings.
- (c) Income from this issue is considered a preference item for purposes of calculating the alternative minimum tax ( AMT ).
- (d) Pre-Refunded bonds are escrowed with government obligations and/or government agency securities and are considered by the Manager to be triple-A rated even if issuer has not applied for new ratings.
- (e) Security is currently in default.
- (f) Variable rate security. Interest rate disclosed is that which is in effect at September 30, 2007.
- (g) Maturity date shown represents the mandatory tender date.
- (h) Residual interest bonds coupon varies inversely with level of short-term tax-exempt interest rates.
- (i) Variable rate demand obligations have a demand feature under which the Fund can tender them back to the issuer on no more than 7 days notice. Date shown is the date of the next interest rate change.
- # Aggregate cost for federal income tax purposes is substantially the same.

**Bond Ratings** (unaudited)

The definitions of the applicable rating symbols are set forth below:

*Standard & Poor s Ratings Service ( Standard & Poor s )* Ratings from AA to CCC may be modified by the addition of a plus (+) or minus () sign to show relative standings within the major rating categories.

AAA	Bonds rated AAA have the highest rating assigned by Standard & Poor s. Capacity
	to pay interest and repay principal is extremely strong.
AA	Bonds rated AA have a very strong capacity to pay interest and repay principal and
	differ from the highest rated issues only in a small degree.
А	Bonds rated A have a strong capacity to pay interest and repay principal although
	they are somewhat more susceptible to the adverse effects of changes in
	circumstances and economic conditions than debt in higher rated categories.
BBB	Bonds rated BBB are regarded as having an adequate capacity to pay interest and
	repay principal. Whereas they normally exhibit adequate protection parameters,
	adverse economic conditions or changing circumstances are more likely to lead to a
	weakened capacity to pay interest and repay principal for bonds in this category
	than in higher rated categories.
BB, B,	
CCC,	
CC and C	Bonds rated BB, B, CCC, CC and C are regarded, on balance, as predominantly
	speculative with respect to capacity to pay interest and repay principal in
	accordance with the terms of the obligation. BB represents the lowest degree of
	speculation and C the highest degree of speculation. While such bonds will likely
	have some quality and protective characteristics, these are outweighed by large
	uncertainties or major risk exposures to adverse conditions.
D	Bonds rated D are in default and payment of interest and/or repayment of principal
	is in arrears.

*Moody s Investors Service ( Moody s )* Numerical modifiers 1, 2 and 3 may be applied to each generic rating from Aa to Caa, where 1 is the highest and 3 the lowest ranking within its generic category.

Aaa	Bonds rated Aaa are judged to be of the best quality. They carry the smallest degree
	of investment risk and are generally referred to as gilt edge. Interest payments are
	protected by a large or by an exceptionally stable margin and principal is secure.
	While the various protective elements are likely to change, such changes can be
	visualized as most unlikely to impair the fundamentally strong position of such
	issues.
Aa	Bonds rated Aa are judged to be of high quality by all standards. Together with the
	Aaa group they comprise what are generally known as high grade bonds. They are
	rated lower than the best bonds because margins of protection may not be as large
	as in Aaa securities or fluctuation of protective elements may be of greater
	amplitude or there may be other elements present which make the long-term risks
	appear somewhat larger than in Aaa securities.
Α	Bonds rated A possess many favorable investment attributes and are to be
	considered as upper medium grade obligations. Factors giving security to principal
	and interest are considered adequate but elements may be present which suggest a
	susceptibility to impairment some time in the future.
Baa	

Bonds rated Baa are considered as medium grade obligations, i.e., they are neither highly protected nor poorly secured. Interest payments and principal security appear adequate for the present but certain protective elements may be lacking or may be characteristically unreliable over any great length of time. Such bonds lack outstanding investment characteristics and in fact have speculative characteristics as well.

Bonds rated Ba are judged to have speculative elements; their future cannot be considered as well assured. Often the protection of interest and principal payments may be very moderate and therefore

Ba

### Bond Ratings (unaudited)(continued)

	not well safeguarded during both good and bad times over the future. Uncertainty
	of position characterizes bonds in this class.
В	Bonds rated B generally lack characteristics of desirable investments. Assurance of
	interest and principal payments or of maintenance of other terms of the contract
	over any long period of time may be small.
Caa	Bonds rated Caa are of poor standing. These may be in default, or present elements
	of danger may exist with respect to principal or interest.
Ca	Bonds rated Ca represent obligations which are speculative in a high degree. Such
	issues are often in default or have other marked short-comings.
C	Bonds rated C are the lowest class of bonds and issues so rated can be regarded as
	having extremely poor prospects of ever attaining any real investment standing.

*Fitch Ratings Service (Fitch )* Ratings from AA to CCC may be modified by the addition of a plus (+) or minus () sign to show relative standings within the major rating categories.

AAA	Bonds rated AAA have the highest rating assigned by Fitch. Capacity to pay interest and repay principal is extremely strong.
AA	Bonds rated AA have a very strong capacity to pay interest and repay principal and
	differ from the highest rated issues only in a small degree.
A	Bonds rated A have a strong capacity to pay interest and repay principal although
	they are somewhat more susceptible to the adverse effects of changes in
	circumstances and economic conditions than debt in higher rated categories.
BBB	Bonds rated BBB are regarded as having an adequate capacity to pay interest and
	repay principal. Whereas they normally exhibit adequate protection parameters,
	adverse economic conditions or changing circumstances are more likely to lead to a
	weakened capacity to pay interest and repay principal for bonds in this category
ם תם	than in higher rated categories.
BB, B, CCC	
and CC	Bonds rated BB, B, CCC and CC are regarded, on balance, as predominantly
	speculative with respect to capacity to pay interest and repay principal in
	accordance with the terms of the obligation. BB represents a lower degree of
	speculation than B, and CC the highest degree of speculation. While such bonds
	will likely have some quality and protective characteristics, these are outweighed
	by large uncertainties or major risk exposures to adverse conditions.
NR	Indicates that the bond is not rated by Standard & Poor s, Moody s or Fitch.
Short-Term Security Ratings (unaudited)	
SP-1	Standard & Poor s highest rating indicating very strong or strong capacity to pay
	principal and interest; those issues determined to possess overwhelming safety
	characteristics are denoted with a plus (+) sign.
A-1	Standard & Poor s highest commercial paper and variable-rate demand obligation
	(VRDO) rating indicating that the degree of safety regarding timely payment is
	either overwhelming or very strong; those issues determined to possess
VMIG 1	overwhelming safety characteristics are denoted with a plus (+) sign. Moody s highest rating for issues having a demand feature VRDO.
MIG1	Moody's highest rating for short-term municipal obligations.
P-1	Moody s highest rating for commercial paper and for VRDO prior to the advent of
	the VMIG 1 rating.
F1	Fitch s highest rating indicating the strongest capacity for timely payment of
	financial commitments; those issues determined to possess overwhelming strong

credit feature are denoted with a plus (+) sign.

Notes to Schedule of Investments (unaudited)

#### 1. Organization and Significant Accounting Policies

Western Asset Intermediate Muni Fund Inc. (the Fund ) was incorporated in Maryland on December 19, 1991 and is registered as a diversified, closed-end management investment company under the Investment Company Act of 1940, as amended, (the 1940 Act ). The Board of Directors authorized 100 million shares of \$0.001 par value common stock. The Fund s investment objective is to provide common shareholders a high level of current income exempt from regular federal income taxes consistent with prudent investing.

The following are significant accounting policies consistently followed by the Fund and are in conformity with U.S. generally accepted accounting principles ( GAAP ).

(a) Investment Valuation. Securities are valued at the mean between the last quoted bid and asked prices provided by an independent pricing service that are based on transactions in municipal obligations, quotations from municipal bond dealers, market transactions in comparable securities and various other relationships between securities. When prices are not readily available, or are determined not to reflect fair value, the Fund may value these securities at fair value as determined in accordance with the procedures approved by the Fund s Board of Directors. Short-term obligations with maturities of 60 days or less are valued at amortized cost, which approximates fair value.

(b) Security Transactions. Security transactions are accounted for on a trade date basis.

#### 2. Investments

At September 30, 2007, the aggregate gross unrealized appreciation and depreciation of investments for federal income tax purposes were substantially as follows:

Gross unrealized appreciation	\$ 5,291,814
Gross unrealized depreciation	(866,171)
Net unrealized appreciation	\$ 4,425,643

### ITEM 2. CONTROLS AND PROCEDURES.

	(a)	The registrant s principal executive officer and principal financial officer have concluded that the registrant s disclosure controls and procedures (as defined in Rule 30a- 3(c) under the Investment Company Act of 1940, as amended (the 1940 Act )) are effective as of a date within 90 days of the filing date of this report that includes the disclosure required by this paragraph, based on their evaluation of the disclosure controls and procedures required by Rule 30a-3(b) under the 1940 Act and 15d-15(b) under the Securities Exchange Act of 1934.
	(b)	There were no changes in the registrant s internal control over financial reporting (as defined in Rule 30a-3(d) under the 1940 Act) that occurred during the registrant s last fiscal quarter that have materially affected, or are likely to materially affect the registrant s internal control over financial reporting.
ITEM 3.	EXHIBITS.	

Certifications pursuant to Rule 30a-2(a) under the Investment Company Act of 1940, as amended, are attached hereto.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934 and the Investment Company Act of 1940, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.
