ITEM 8.01 OTHER EVENTS

This Current Report on Form 8-K updates 3M's Annual Report on Form 10-K for the year ended December 31, 2009 (3M's 2009 Annual Report) to reflect reclassified historical results for product moves between business segments, which were effective during the first quarter of 2010. 3M began to report comparative results under the new structure effective with the filing of its Quarterly Report on Form 10-Q for the quarter ended March 31, 2010.

Additional detail follows for the business segment realignments.

Effective in the first quarter of 2010, 3M made certain product moves between its business segments in its continuing effort to drive growth by aligning businesses around markets and customers. There were no changes impacting business segments related to product moves for the Health Care segment, Consumer and Office segment, Display and Graphics segment, or Electro and Communications segment. The product moves between business segments are summarized as follows:

- Certain acoustic systems products in the Occupational Health and Environmental Safety Division (part of the Safety, Security and Protection Services business segment) were transferred to the Automotive Division within the Industrial and Transportation business segment. In addition, thermal acoustics systems products which were included in the Occupational Health and Environmental Safety Division as a result of 3M's April 2008 acquisition of Aeero Holding Corp. were transferred to the Aerospace and Aircraft Maintenance Department within the Industrial and Transportation business segment. These product moves establish an acoustic center of excellence within the Industrial and Transportation business segment. The preceding product moves resulted in an increase in net sales for total year 2009 of \$116 million for Industrial and Transportation, which was offset by a corresponding decrease in net sales for Safety, Security and Protection Services.

Item 9.01 of this Current Report on Form 8-K updates the information contained in 3M's 2009 Annual Report to reflect reclassified historical results for these product moves between business segments, which were effective during the first quarter of 2010. Significant updates provided in this Form 8-K are contained in Part I, Item 1, Business, Part II, Item 8, Financial Statements and Supplementary Data, primarily Note 3, Goodwill and Intangible Assets, and Note 17, Business Segments. 3M also updated Part II, Item 7, Management's Discussion and Analysis of Financial Condition and Results of Operations, to reflect the impact of the product moves. Information for all periods presented herein reflects the impact of these product moves.

By virtue of this Current Report, the Company will be able to incorporate the updated information by reference into future registration statements or post-effective amendments to existing registration statements. This Current Report does not update for other changes since the filing of the 2009 Annual Report (e.g., changes in executive officers, new accounting pronouncements, and new developments in commitments and contingencies). For significant developments since the filing of the 2009 Annual Report, refer to subsequent 2010 Quarterly Reports on Form 10-Q.
