Item 7.01 Regulation FD Disclosure.

On October 6, 2011, Assured Guaranty Ltd. made the following statement available on its website :

Statement on FSA-Insured Guaranteed Investment Contracts and Medium Term Notes October 6, 2011

When Assured Guaranty acquired Financial Security Assurance Holdings Ltd. (FSAH, subsequently renamed Assured Guaranty Municipal Holdings Inc.) from Dexia SA (Dexia) on July 1, 2009, Assured Guaranty did not acquire FSAH's financial products (FP) segment, which Dexia retained. The entities involved in the FP segment (the FP Companies), all of which are now owned or controlled by Dexia, had issued guaranteed investment contracts (GICs) and medium term notes (MTNs). The GICs and MTNs were guaranteed by Financial Security Assurance Inc. (FSA, subsequently renamed Assured Guaranty Municipal Corp.), which Assured Guaranty did acquire. The FSA guarantees of the FP Companies obligations remain in effect, but as part of the acquisition, Assured Guaranty required that it be fully protected against exposure to the FP segment by Dexia and its affiliates through indemnities and other protection arrangements. Further, as part of the acquisition, the French and Belgian governments guaranteed payments on assets supporting the GICs so long as the FP Companies owned such assets. The guaranteed assets have been sold as part of the asset divestment program that Dexia announced in May 2011. Dexia also indemnifies Assured Guaranty for litigation arising out of the FP business retained by Dexia and for MTNs issued by the FP Companies. These arrangements are more fully described in Assured Guaranty's 2010 Annual Report on Form 10-K under the heading "Management's Discussion and Analysis of Financial Condition and Results of Operations - Liquidity and Capital Resources - Liquidity arrangements with respect to AGMH's former Financial Products Business.

The FP Companies' obligations are currently, and at all times in the future required to be, supported by eligible assets in an amount sufficient to allow the FP Companies to meet their obligations. On September 29, 2011, the transaction documents required an analysis of the value of the FP Companies' assets versus their GIC obligations and other associated liabilities. On that day, the required amount of assets exceeded the liabilities, and therefore Dexia was not required to post additional collateral to support its protection arrangements. Assured Guaranty believes the assets owned by the FP Companies are sufficient for them to meet their GIC obligations and other associated liabilities. However, Dexia is required to post additional collateral if there is any shortfall in assets as compared with liabilities in the future.

On the date of the acquisition, the accreted balance of the GIC liabilities was \$11.8 billion. As of September 30, 2011, that amount had declined to \$5.7 billion and, as of such date, the assets of the FP Companies were approximately \$7.5 billion, which exceeded the accreted balance of the GIC liabilities by approximately 30%.
