Table of Contents

MONARCH CASINO & RESORT, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

QUARTERLY PERIOD ENDED JUNE 30, 2015

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation:

Monarch Casino & Resort, Inc., was incorporated in 1993 and through its wholly-owned subsidiary, Golden Road Motor Inn, Inc. (Golden Road), owns and operates the Atlantis Casino Resort Spa, a hotel/casino facility in Reno, Nevada (the Atlantis). Monarch's wholly owned subsidiaries, High Desert Sunshine, Inc. (High Desert), Golden East, Inc. (Golden East) and Golden North, Inc. (Golden North), each own separate parcels of land located proximate to the Atlantis. Monarch's wholly owned subsidiary Monarch Growth Inc. (Monarch Growth), formed in 2011, acquired Riviera Black Hawk, Inc., owner of the Riviera Black Hawk Casino on April 26, 2012. Riviera Black Hawk Casino was renamed Monarch Casino Black Hawk (Monarch Black Hawk) in October 2013. Monarch Growth also owns a parcel of land in Black Hawk, Colorado contiguous to the Monarch Casino Black Hawk.

On October 22, 2014, the board of directors authorized a stock repurchase plan (the Repurchase Plan). Under the Repurchase Plan, the board of directors authorized a program to repurchase up to 3,000,000 shares of the Company's common stock in the open market or in privately negotiated transactions from time to time, in compliance with Rule 10b-18 of the Securities and Exchange Act of 1934, subject to market conditions, applicable legal requirements and other factors. The Repurchase Plan does not obligate the Company to acquire any particular amount of common stock and the plan may be suspended at any time at our discretion, and it will continue until exhausted. The actual timing, number and value of shares repurchased under the Repurchase Program will be determined by management at its discretion and will depend on a number of factors, including the market price of the Company's stock, general market economic conditions and applicable legal requirements. The Company has made no purchases under the Repurchase Plan.

The unaudited condensed consolidated financial statements include the accounts of Monarch and its subsidiaries. Intercompany balances and transactions are eliminated.

Unless otherwise indicated, Monarch, Company, we, our and us refer to Monarch Casino & Resort, Inc. and its subsidiaries.

Interim Financial Statements:

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with U.S. generally accepted accounting principles for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly,

Edgar Filing: MONARCH CASINO & RESORT INC - Form 10-Q

they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management of the Company, all adjustments considered necessary for a fair presentation are included. Operating results for the three and six months ended June 30, 2015 are not necessarily indicative of the results that may be expected for the year ending December 31, 2015.

The balance sheet at December 31, 2014 has been derived from the audited financial statements at that date but does not include all of the information and footnotes required by U.S. generally accepted accounting principles for complete financial statements. For further information, refer to the consolidated financial statements and footnotes thereto included in the Company's annual report on Form 10-K for the year ended December 31, 2014.

Table of Contents

Fair Value of Financial Instruments:

The estimated fair value of the Company's financial instruments has been determined by the Company, using available market information and valuation methodologies. However, considerable judgment is required to develop the estimates of fair value; thus, the estimates provided herein are not necessarily indicative of the amounts that the Company could realize in a current market exchange.

The carrying amounts of cash, receivables, accounts payable and accrued expenses approximate fair value because of the short-term nature of these instruments. Additionally, the carrying value of our long-term debt approximates fair value due to the variable nature of applicable interest rates and relative short-term maturity.

Change in Accounting Estimate of Depreciable Life of Monarch Black Hawk Parking Structure:

In December 2013, the Company began construction of a new parking facility at Monarch Black Hawk. Upon completion of that new structure, the Company plans to demolish the existing parking structure. At December 31, 2013, the existing parking structure had a net book value of approximately \$4.8 million and a remaining depreciable life of approximately 37 years. The new parking facility was estimated to be completed on March 31, 2015. In accordance with ASC 250-10-45-17, effective January 1, 2014, the Company modified the estimated depreciable life of the existing parking structure to 15 months; the period from January 1, 2014 through the estimated demolition commencement date of March 31, 2015. As a result of this modification to the estimated depreciable life, depreciation expense of the existing parking structure increased by approximately \$0.3 million per month (approximately \$0.2 million net of tax). In July 2014, because of a delayed construction schedule, the Company revised the new parking facility completion date to December 31, 2015. At this time the Company modified the estimated depreciable life of the existing parking structure to 18 months, the period from July 1, 2014 through the revised estimated demolition commencement date of December 31, 2015 and adjusted the monthly depreciation expense. For the three months ended June 30, 2015, the effect of the changes in estimate was an increase of depreciation expense by \$0.5 million, a decrease of net income by \$0.3 million and a decrease of basic and diluted earnings per share by \$0.02. For the six months ended June 30, 2015, the effect of the changes in estimate was an increase of depreciation expense by \$1.0 million, a decrease of net income by \$0.6 million and a decrease of basic and diluted earnings per share by \$0.04.

Segment Reporting:

The accounting guidance for disclosures about segments of an enterprise and related information requires separate financial information to be disclosed for all operating segments of a business. The Company determined that two of the Company's operating segments, Atlantis and Monarch Black Hawk, meet all of the aggregation criteria stipulated by ASC 280-10-50-11. The Company views each property as an operating segment and the two operating segments have been aggregated into one reporting segment.

NOTE 2. STOCK-BASED COMPENSATION

The Company accounts for its stock-based compensation in accordance with the authoritative guidance requiring the compensation cost relating to stock-based payment transactions to be recognized in the Company's consolidated statements of income.

Edgar Filing: MONARCH CASINO & RESORT INC - Form 10-Q

Reported stock-based compensation expense was classified as follows (in thousands):

| | Three months ended June 30, | | Six months ended June 30, | |
|--|--------------------------------|--------|------------------------------|--------|
| | 2015 | 2014 | 2015 | 2014 |
| Casino | \$ 18 | \$ 9 | \$ 34 | \$ 25 |
| Food and beverage | 18 | 18 | 42 | 32 |
| Hotel | 3 | 2 | 6 | 5 |
| Selling, general and administrative | 290 | 285 | 538 | 514 |
| Total stock-based compensation, before taxes | 329 | 314 | 620 | 576 |
| Tax benefit | (115) | (110) | (217) | (202) |
| Total stock-based compensation, net of tax | \$ 214 | \$ 204 | \$ 403 | \$ 374 |

Table of ContentsNOTE 3. EARNINGS PER SHARE

Basic earnings per share is computed by dividing reported net earnings by the weighted-average number of common shares outstanding during the period. Diluted earnings per share reflect the additional dilution for all potentially dilutive securities such as stock options. The following is a reconciliation of the number of shares (denominator) used in the basic and diluted earnings per share computations (shares in thousands):

| | Three months ended June 30, | | | |
|----------------------------------|-----------------------------|------------------|--------|------------------|
| | 2015 | | 2014 | |
| | Shares | Per Share Amount | Shares | Per Share Amount |
| Basic | 16,894 | \$ 0.30 | 16,788 | \$ 0.18 |
| Effect of dilutive stock options | 408 | (0.01) | 316 | |
| Diluted | 17,302 | \$ 0.29 | 17,104 | \$ 0.18 |

| | Six months ended June 30, | | | |
|----------------------------------|---------------------------|------------------|--------|------------------|
| | 2015 | | 2014 | |
| | Shares | Per Share Amount | Shares | Per Share Amount |
| Basic | 16,858 | \$ 0.54 | 16,663 | \$ 0.38 |
| Effect of dilutive stock options | 392 | (0.01) | 502 | (0.01) |
| Diluted | 17,250 | \$ 0.53 | 17,165 | \$ 0.37 |

Excluded from the computation of diluted earnings per share are options where the exercise prices are greater than the market price as their effects would be anti-dilutive in the computation of diluted earnings per share. For the three and six months ended June 30, 2015, options for 610 thousand and 655 thousand shares, respectively, were excluded from the computation. For the three and six months ended June 30, 2014, 626 thousand and 644 thousand shares were excluded from the computation.

NOTE 4. NEW ACCOUNTING PRONOUNCEMENTS

In May 2014, the FASB issued an accounting standards update that amends the FASB Accounting Standards Codification and creates a new topic for Revenue from Contracts with Customers. The new guidance is expected to clarify the principles for revenue recognition and to develop a common revenue standard for U.S. GAAP applicable to revenue transactions. This guidance provides that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods and services. This guidance also provides substantial revision of interim and annual disclosures. The update allows for either full retrospective adoption, meaning the guidance is applied for all periods presented, or modified retrospective adoption, meaning the guidance is applied only to the most current period presented in the financial statements with the cumulative effect of initially applying the guidance recognized at the date of initial application. In July 2015, FASB voted to delay the effective date of the new revenue standard by one year. The new effective date is for the annual and interim periods beginning after December 15, 2017. Reporting entities may choose to adopt the standard as of the original effective date. The Company plans to adopt this standard effective January 1, 2018. The Company is currently assessing the impact the adoption of this standard will have on its Consolidated Financial Statements.

Table of Contents

In August 2014, the FASB issued an accounting standard update that requires management to assess an entity's ability to continue as a going concern and to provide related footnote disclosures in certain circumstances. Substantial doubt about an entity's ability to continue as a going concern exist when relevant conditions and events, consolidated and aggregated, indicate that it is probable that an entity will be unable to meet its obligations as they become due within one year after the date that the financial statement are issued. Currently, there is no guidance in U.S. GAAP for management's responsibility to perform an evaluation. Under the update, management's evaluation is to be performed when preparing financial statements for each annual and interim reporting period and based on relevant conditions and events that are known and reasonably knowable at the date that the financial statements are issued. The Company will adopt this standard effective January 1, 2017. The Company is currently assessing the impact the adoption of this standard will have on its Consolidated Financial Statements

In April 2015, FASB issued an accounting standards update that requires debt issuance costs related to a recognized debt liability be presented in the balance sheet as a direct deduction from the carrying amount of that debt liability, consistent with debt discounts. The recognition and measurement guidance for debt issuance costs are not affected by the amendments in this update. The effective date for this update is for financial statements issued for fiscal years beginning after December 15, 2015, and interim periods within those fiscal years. Early application is permitted. The Company will adopt this standard effective January 1, 2016. The Company is currently assessing the impact the adoption of this standard will have on its Consolidated Financial Statements.

A variety of proposed or otherwise potential accounting standards are currently under review and study by standard-setting organizations and certain regulatory agencies. Because of the tentative and preliminary nature of such proposed standards, we have not yet determined the effect, if any, that the implementation of any such proposed or revised standards would have on the Company's Consolidated Financial Statements.

NOTE 5. RELATED PARTY TRANSACTIONS

The shopping center adjacent to the Atlantis (the Shopping Center) is owned by Biggest Little Investments, L.P. (BLI). John Farahi, Bob Farahi and Ben Farahi are each principal stockholders of the Company and beneficially own limited partnership interests in BLI indirectly through Maxum LLC, which is the general partner of BLI. Ben Farahi is the sole manager of Maxum LLC, and neither John Farahi nor Bob Farahi has any management control over BLI or the Shopping Center. Ben Farahi formerly held positions of Co-Chairman of the Board, Secretary, Treasurer and Chief Financial Officer of the Company. John Farahi is the Co-Chairman of the Board, Chief Executive Officer and Secretary of the Company, and Bob Farahi is the Co-Chairman of the Board and President of the Company.

In addition, we share a driveway with and lease approximately 37,000 square-feet from the Shopping Center for a minimum lease term of 15 years at an original annual rent of \$300 thousand plus common area expenses, subject to increase every year beginning in the 61st month based on the Consumer Price Index. As of June 30, 2015 the annual rent is \$377 thousand. We have the option to extend the lease for three individual five-year terms beyond the initial 15 year term, and at the end of the extension periods, we have the option to purchase the leased driveway section of the Shopping Center. For the three month periods ended June 30, 2015 and 2014, the Company paid \$94 thousand in rent, plus \$25 thousand in operating expenses related to this lease and \$85 thousand in rent, plus \$34 thousand for operating expenses related to this lease, respectively. For the six month periods ended June 30, 2015 and 2014, the Company paid \$188 thousand in rent, plus \$53 thousand expenses related to this lease and \$170 thousand in rent, plus \$64 thousand for operating expenses related to this lease, respectively.

We occasionally lease billboard advertising, storage space or parking lot space from affiliates of our controlling stockholders. We paid \$27 thousand and \$28 thousand for the three month periods ended June 30, 2015 and 2014, respectively and \$71 thousand and \$66 thousand for the six month periods ended June 30, 2015 and 2014 respectively, under these arrangements with affiliates.

Table of Contents

NOTE 6. LONG-TERM DEBT

On November 15, 2011, we amended and restated our \$60.0 million credit facility with a new \$100 million facility (the Credit Facility). We utilized the Credit Facility to finance the acquisition of Black Hawk and the Credit Facility is available to be used for working capital needs, general corporate purposes and for ongoing capital expenditure requirements.

The maturity date of the Credit Facility is November 15, 2016. Borrowings are secured by liens on substantially all of the Company's real and personal property.

In addition to other customary covenants for a facility of this nature, as of June 30, 2015, we are required to maintain a leverage ratio, defined as consolidated debt divided by Adjusted EBITDA, of no more than 2.0:1 and a fixed charge coverage ratio (Adjusted EBITDA divided by fixed charges, as defined) of at least 1.15:1. As of June 30, 2015, the Company's leverage ratio and fixed charge coverage ratios were 0.9:1 and 32.0:1, respectively.

The Credit Facility is structured to reduce the maximum principal available by \$1.5 million each quarter beginning June 30, 2013. The Credit Facility also allows us to permanently reduce the maximum principal available at any time so long as the amount of such reduction is at least \$0.5 million and a multiple of \$50,000. During the second quarter of 2015 we exercised this option and permanently reduced the amount available under the credit facility by \$20 million. As of June 30, 2015, the maximum principal available was \$66.5 million, of which \$42.2 million was drawn. Maturities of our borrowings for each of the next two years as of June 30, 2015 are as follows (in millions):

| Year | Maturities |
|------|------------|
| 2015 | \$ |
| 2016 | 42.2 |
| | \$ 42.2 |

At June 30, 2015, our leverage ratio was such that pricing for borrowings under the Credit Facility was LIBOR plus 1.25%. At June 30, 2015, the one-month LIBOR interest rate was 0.19%. The carrying value of the debt outstanding under the Credit Facility approximates fair value because the interest fluctuates with the lender's prime rate or other market rates of interest.

We believe that our existing cash balances, cash flow from operations and borrowings available under the Credit Facility will provide us with sufficient resources to fund our operations, meet our debt obligations, and fulfill our capital expenditure plans over the next twelve months; however, our operations are subject to financial, economic, competitive, regulatory, and other factors, many of which are beyond our control. If we are unable to generate sufficient cash flow, we could be required to adopt one or more alternatives, such as reducing, delaying or eliminating planned capital expenditures, selling assets, restructuring debt or obtaining additional equity capital.

NOTE 7. TAXES

Edgar Filing: MONARCH CASINO & RESORT INC - Form 10-Q

For the six months ended June 30, 2015, the Company's effective tax rate was 35.3% compared to 38.5% for the six months ended June 30, 2014. The higher effective tax rate in 2014 is primarily attributable to the \$1.0 million expense related to the campaign against the proposed 2014 ballot initiatives to expand gaming in Colorado which is not deductible for federal and state tax purposes.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

STATEMENT ON FORWARD-LOOKING INFORMATION

When used in this report and elsewhere by management from time to time, the words *believes*, *anticipates* and *expects* and similar expressions are intended to identify forward-looking statements with respect to our financial condition, results of operations and our business including our expansion, construction timelines, development activities, legal proceedings and employee matters. Certain important factors, including, but not limited to, competition from other gaming operations, factors affecting our ability to compete, acquisitions of gaming properties, legalization of additional gaming operations in our markets, leverage, construction risks, the inherent uncertainty and costs associated with litigation and governmental and regulatory investigations, and licensing and other regulatory risks, could cause our actual results to differ materially from those expressed in our forward-looking statements. Any changes in the law that would permit the establishment of gaming operations in or near Denver could materially impact Monarch Black Hawk operations and could alter, delay or cause us to reconsider our master development plan to expand our Monarch Black Hawk property. Further information on potential factors which could affect our financial condition, results of operations and business including, without limitation, our expansion, development activities, legal proceedings and employee matters, are included in our filings with the Securities and Exchange Commission. Readers are cautioned not to place undue reliance on any forward-looking statements, which speak only as of the date thereof. We undertake no obligation to publicly release any revisions to such forward-looking statement to reflect events or circumstances after the date hereof.

Monarch Casino & Resort, Inc., through its direct and indirect wholly-owned subsidiaries, Golden Road Motor Inn, Inc. (*Golden Road*), Monarch Growth Inc. (*Monarch Growth*), Monarch Black Hawk, Inc. (*Monarch Black Hawk*), High Desert Sunshine, Inc. (*High Desert*), Golden North, Inc. (*Golden North*) and Golden East, Inc. (*Golden East*) owns and operates the Atlantis Casino Resort Spa, a hotel/casino facility in Reno, Nevada (the *Atlantis*), the Monarch Casino Black Hawk in Black Hawk, Colorado (*Monarch Black Hawk*), and certain real estate proximate to the Atlantis and Monarch Casino Black Hawk.

Unless otherwise indicated, *Monarch*, *Company*, *we*, *our* and *us* refer to Monarch Casino & Resort, Inc. and its subsidiaries.

OPERATING RESULTS SUMMARY

Our operating results may be affected by, among other things, competitive factors, gaming tax increases, the commencement of new gaming operations, construction at our facilities, general public sentiment regarding travel, overall economic conditions and governmental policies affecting the disposable income of our patrons and weather conditions affecting our properties.

The following significant factors and trends should be considered in analyzing our operating performance:

Atlantis: In response to aggressive marketing programs by our competitors, we have increased the amount of complimentary offered to our guests. As a result, our complimentary expense has increased.

Monarch Black Hawk: Since the acquisition of Monarch Black Hawk in April 2012, our focus has been to maximize casino and food and beverage revenues. There is currently no hotel on the property. In September 2013, we opened a new buffet. In December 2013, we began a project to redesign and upgrade the existing casino facility. To minimize disruption, we staged the work in three equal phases. The first phase was completed and opened in August 2014. The second phase was completed and opened in March 2015. We estimate that the third and final phase of the redesign and upgrade work will be completed during the third quarter 2015.

In the fourth quarter of 2013, we began work on a multi-phased expansion which involves construction of a new parking facility, demolition of the existing parking facility followed by construction of a new hotel tower and casino expansion on the site where the current garage facility sits. The excavation and foundation work for the facility's new parking structure has been completed and the new parking structure is anticipated to be completed in late 2015 (see Master Planned Expansion of the Monarch Black Hawk section below). The planned nine story parking structure will increase total parking on site from approximately 500 spaces to approximately 1,500 spaces. Upon completion of the new parking structure, the existing parking structure will be demolished to make space for the hotel tower. We expect to begin construction of the new hotel tower and casino expansion in the second quarter of 2016. Once completed, the Monarch Black Hawk expansion will nearly double the casino space and will add a 23-story hotel tower with approximately 500 guest rooms and suites, an upscale spa and pool facility, three additional restaurants (increasing the total to four), additional bars, a new parking structure and associated support facilities.

Table of Contents

CAPITAL SPENDING AND DEVELOPMENT

We seek to continuously upgrade and maintain our facilities in order to present a fresh, high quality product to our guests.

Capital expenditures for the six month periods ended June 30, 2015 and 2014 totaled approximately \$15.2 million and \$9.5 million. During each of the six month periods ended June 30, 2015 and 2014, our capital expenditures related primarily to the redesign and upgrade of the Monarch Black Hawk facility as well as acquisition of gaming equipment to upgrade and replace existing equipment in the Atlantis and Monarch Black Hawk.

Master Planned Expansion of the Monarch Black Hawk

In October 2012, we began an extensive renovation and upgrade of Monarch Black Hawk. To-date, we have upgraded the property's food and beverage operations (including an all-new buffet) and completed the first two phases of a three-phase redesign and upgrade of the existing casino floor (including a new front entrance and cabaret lounge). We expect to complete the third and final phase of the upgrades to the existing casino floor in the third quarter of 2015. Our plans also call for the exterior of the existing facilities to be refinished to match the master planned expansion. The remaining cost of the redesign and upgrade is expected to be approximately \$17-\$19 million, all of which is expected to be funded from operating cash flow.

In addition, we have begun work on our master plan to expand and convert the Monarch Black Hawk into a full-scale casino resort. The excavation and foundation work for the facility's new parking structure has been completed. The new 9-story parking structure will increase on-site parking from approximately 500 spaces to approximately 1,500 spaces. Construction of the new parking structure began in the first quarter of 2015 and construction is anticipated to be completed in late 2015. Upon completion of the new parking structure, the existing parking structure will be razed to make room for the new hotel tower. The remaining cost of the parking structure-related work is expected to be approximately \$24-\$27 million, which we expect to fund primarily from operating cash flow and, to a lesser extent, from our Credit Facility.

We expect to begin construction of the new hotel tower and casino expansion in the second quarter of 2016. The new 23-story tower will nearly double the existing casino space and will include approximately 500 hotel rooms, an upscale spa and pool facility, three additional restaurants and additional bars. Tower floors will be opened as they are finished beginning with the casino expansion and additional restaurants. We currently expect completion of the entire tower in late 2017 at a total cost of approximately \$229-\$234 million. The cost is expected to be financed through a combination of operating cash flow and an expansion or replacement of our Credit Facility. The Company's current credit facility will mature in November 2016, and before that time, we expect to negotiate a new or amended Credit Facility with sufficient borrowing capacity to complete the expansion.

RESULTS OF OPERATIONS

Comparison of Operating Results for the Three-Month Periods Ended June 30, 2015 and 2014

Edgar Filing: MONARCH CASINO & RESORT INC - Form 10-Q

For the three months ended June 30, 2015, our net income totaled \$5.1 million, or \$0.29 per diluted share, compared to net income of \$3.0 million, or \$0.18 per diluted share for the same period in 2014, reflecting a 68.6% increase in net income and a 61.1% increase in diluted earnings per share. Net revenues totaled \$50.0 million in the current quarter, an increase of \$2.2 million compared to the second quarter of 2014. Income from operations for the three months ended June 30, 2015 totaled \$8.1 million compared to \$5.5 million for the same period in 2014.

Edgar Filing: MONARCH CASINO & RESORT INC - Form 10-Q

Table of Contents

Casino revenues increased 6.3%, in the second quarter of 2015 compared to the second quarter of 2014. Casino operating expenses as a percentage of casino revenues increased to 42.1% in the second quarter of 2015, compared to 41.7% in the second quarter of 2014 primarily due to higher complimentary expense combined with higher gaming tax expense and higher payroll and related benefits expenses.

Food and beverage revenues for the second quarter of 2015 increased 5.8% over the second quarter of 2014, due to a 6.4% increase in average revenue per cover. The number of food and beverage covers for the second quarter of 2015 is in line with those of the same period in 2014. Food and beverage operating expenses as a percentage of food and beverage revenues decreased in the second quarter of 2015 to 39.5% compared to 42.0% for the same period in 2014 primarily as a result of the increase in revenue per cover partially offset by higher payroll expenses.

Hotel revenue decreased 3.4% due to a lower hotel occupancy of 90.3% during the second quarter of 2015 compared to 93.3% during the second quarter of 2014, partially offset by a slightly higher average daily room rate (ADR) of \$79.45 in the second quarter of 2015 compared to \$78.55 in the second quarter of 2014. Revenue per Available Room (REVPAR), calculated by dividing total room revenue (less service charges, if any) by total rooms available was \$77.73 and \$80.43 for the three months ended June 30, 2015 and 2014, respectively. We believe that the reduced demand of convention and meeting groups in the Reno area, as well as the reduced transient guest demand contributed to the lower occupancy and REVPAR in the 2015 three month period compared to the same period of 2014. Hotel operating expenses as a percentage of hotel revenues increased to 28.8% in the second quarter of 2015 as compared to 28.2% for the comparable prior year period primarily due to the lower hotel revenue and higher payroll and related expenses.

Promotional allowances as a percentage of gross revenues increased to 18.0% during the second quarter of 2015 compared to 17.5% in the comparable 2014 quarter. This increase was primarily due to the increase in complimentary expenses driven by our competitive gaming markets.

Other revenues increased 8.7% in the second quarter of 2015 compared to the second quarter of 2014 driven primarily by increased arcade, spa and retail revenues.

Selling, General and Administrative (SG&A) expense increased slightly to \$13.3 million in the second quarter of 2015 from \$13.2 million in the second quarter of 2014 primarily due to higher repair and maintenance expenses. As a percentage of net revenue, SG&A expense decreased to 26.6% in the second quarter of 2015 from 27.6% in the second quarter of 2014.

Depreciation and amortization expense decreased to \$4.1 million for the three months ended June 30, 2015 as compared to \$4.6 million for the three months ended June 30, 2014 primarily as a result of a decrease in monthly depreciation expense of the Monarch Black Hawk parking structure following the revision in the expected date of early removal of the parking structure from service in relation to the Monarch Black Hawk expansion project.

Interest expense, net of amounts capitalized decreased to \$0.2 million in the second quarter of 2015 from \$0.3 million in the second quarter of 2014 primarily as a result of lower average outstanding borrowings combined with a lower interest rate driven by our lower leverage ratio in the 2015 second quarter compared to the 2014 second quarter.

Edgar Filing: MONARCH CASINO & RESORT INC - Form 10-Q

In the second quarter of 2014 the Company incurred an approximately \$0.3 million loss on disposal of slot machines and \$1.0 million of expense related to the campaign against proposed 2014 ballot initiatives to expand gaming in Colorado.

Comparison of Operating Results for the Six-Month Periods Ended June 30, 2015 and 2014

For the six months ended June 30, 2015, our net income totaled \$9.1 million, or \$0.53 per diluted share, compared to net income of \$6.3 million, or \$0.37 per diluted share for the same period in 2014, reflecting a 45.1% increase in net income and 43.2% increase in diluted earnings per share. Net revenues totaled \$97.2 million in the current six months period, reflecting an increase of \$3.9 million, or 4.2%, compared to the same period in 2014. Income from operations for the six months ended June 30, 2015 totaled \$14.5 million compared to \$10.8 million for the same period in 2014, representing an increase of \$3.7 million or 34.4%.

Edgar Filing: MONARCH CASINO & RESORT INC - Form 10-Q

Table of Contents

Casino revenues increased 5.1% in the first six months of 2015 compared to the first six months of 2014 driven primarily by higher gaming revenues at Monarch Black Hawk despite the construction disruption from the ongoing upgrade work. Casino operating expenses as a percentage of casino revenue increased to 42.9% in the first six months of 2015, compared to 41.7% in the first six months of 2014 due to higher complimentary expense combined with higher gaming tax expense and higher payroll and related benefits expenses.

Food and beverage revenues for the first six months of 2015 increased 6.3% over the first six months of 2014, due to a 5.0% increase in average revenue per cover. The average revenue per cover increased as a result of menu price increases in anticipation of the commodity price increases, combined with a slight increase in total covers served. Food and beverage operating expenses as a percent of food and beverage revenues decreased in the first six months of 2015 to 39.7% compared to 41.3% for the prior year same period primarily as a result of higher revenue per cover and lower payroll benefits expenses.

Hotel revenue decreased 1.0% due to lower occupancy of 86.9% during the first six months of 2015 compared to 88.0% during the first six months of 2014, partially offset by an increase in ADR to \$74.58 in the first six months of 2015 from \$73.89 in the first six months of 2014. REVPAR was \$70.84 and \$71.58 for the six months ended June 30, 2015 and 2014, respectively. Hotel operating expenses as a percent of hotel revenues increased to 30.2% in the first six months of 2015 as compared to 28.9% for the comparable prior year period due to higher repair, maintenance and operating supplies expenses and higher payroll and related expenses.

Other revenues increased 6.8% in the first six months of 2015 compared to the first six months of 2014 driven primarily by increased arcade, spa and retail revenues.

Promotional allowances as a percentage of gross revenues increased to 18.3% during the first six months of 2015 compared to 17.7% in the comparable 2014 period. This increase was driven primarily by a strategic decision to increase guest rewards through marketing programs.

SG&A expense decreased by \$0.5 million to \$25.9 million in the first six months of 2015 primarily due to lower promotional expenses and decreases in payroll and related expenses, partially offset by higher repair and maintenance expenses. As a percentage of net revenue, SG&A expense decreased to 26.6% in the first six months of 2015 from 28.3% in the first six months of 2014.

Depreciation and amortization expense decreased to \$8.2 million for the six months ended June 30, 2015 as compared to \$9.3 million for the six months ended June 30, 2014 primarily as a result of a decrease in monthly depreciation expense of the Monarch Black Hawk parking structure following the revision in the expected date of early removal of the parking structure from service in relation to the Monarch Black Hawk expansion project.

Interest expense, net of amounts capitalized decreased to \$0.4 million in the first six months of 2015 from \$0.6 million in the first six months of 2014 primarily as a result of lower average outstanding borrowings combined with a lower interest rate driven by our lower leverage ratio in the 2015 first six month period compared to the same period in 2014.

Liquidity and Capital Resources

For the six months ended June 30, 2015, net cash provided by operating activities totaled \$14.9 million, an increase of \$0.8 million or 5.6% compared to the same period in the prior year. This increase was primarily the result of an increase in net income by \$2.8 million and an increase in ordinary working capital of \$0.7 million offset by an increase in income tax receivable of \$1.6 million and a decrease in depreciation expense of \$1.1 million.

Table of Contents

Net cash used in investing activities totaled \$14.7 million and \$9.3 million for the six months ended June 30, 2015 and 2014, respectively. Net cash used in investing activities during the first six-month period of 2015 and 2014 consisted primarily of cash used for redesigning and upgrading of the Monarch Casino Black Hawk property and for acquisition of gaming equipment and general upgrades at the Atlantis property.

Net cash used in financing activities during first six months of 2015 was \$1.9 million and represented \$4.1 million of payments made on the Credit Facility offset by \$1.9 million in proceeds resulting from stock options exercises. Net cash used in financing activities during first six months of 2014 of \$7.0 million represented \$4.9 million of payments made on our Credit Facility and \$0.6 million in proceeds resulting from stock options exercises net of \$3.1 million in income taxes paid to satisfy minimum tax withholdings.

As of June 30, 2015, we had \$66.5 million maximum principal available under the Credit Facility, of which \$42.2 million was drawn. The proceeds from the Credit Facility were utilized to finance the acquisition of Monarch Black Hawk and the availability under the Credit Facility may also be used for working capital needs, general corporate purposes and for ongoing capital expenditure requirements. We had \$24.3 million remaining credit available on the Credit Facility as of June 30, 2015.

The maximum principal available under the Credit Facility is reduced by \$1.5 million per quarter beginning July 1, 2013. We may permanently reduce the maximum principal available at any time so long as the amount of such reduction is at least \$0.5 million and a multiple of \$50,000. During the second quarter of 2015 we permanently reduced the amount available under credit facility by \$20 million. Maturities of the borrowings for each of the next two years of June 30, 2015 are as follows (in millions):

| Year | Maturities |
|------|------------|
| 2015 | \$ |
| 2016 | 42.2 |
| | \$ 42.2 |

The maturity date of the Credit Facility is November 15, 2016. Borrowings are secured by liens on substantially all of our real and personal property.

The Credit Facility contains customary covenants for a facility of this nature, including, but not limited to, covenants requiring the preservation and maintenance of the Company's assets and covenants restricting our ability to merge, transfer ownership of Monarch, incur additional indebtedness, encumber assets and make certain investments. Management does not consider the covenants to restrict normal functioning of day-to-day operations.

We may prepay borrowings under the Credit Facility without penalty (subject to certain charges applicable to the prepayment of LIBOR borrowings prior to the end of the applicable interest period). Amounts prepaid may be borrowed so long as the total borrowings outstanding do not exceed the maximum principal available.

We believe that our existing cash balances, cash flow from operations and borrowings available under the Credit Facility will provide us with sufficient resources to fund our operations, meet our debt obligations, and fulfill our capital expenditure plans over the next twelve months;

however, our operations are subject to financial, economic, competitive, regulatory, and other factors, many of which are beyond our control. If we are unable to generate sufficient cash flow, we could be required to adopt one or more alternatives, such as reducing, delaying or eliminating planned capital expenditures, selling assets, restructuring debt or obtaining additional equity capital.

Table of Contents

OFF BALANCE SHEET ARRANGEMENTS

A driveway was completed and opened on September 30, 2004, that is being shared between the Atlantis and a shopping center (the Shopping Center) directly adjacent to the Atlantis. The Shopping Center is controlled by an entity whose owners include our controlling stockholders. As part of this project, in January 2004, we leased a 37,368 square-foot corner section of the Shopping Center for a minimum lease term of 15 years at an annual rent of \$300 thousand, subject to increase every year beginning in the 61st month based on the Consumer Price Index. As of July 30, 2015 the annual rent is \$377 thousand. We also use part of the common area of the Shopping Center and pay our proportional share of the common area expense of the Shopping Center. We have the option to extend the lease for three individual five-year terms in addition to the 15 year initial term, and at the end of the extension periods, we have the option to purchase the leased section of the Shopping Center at a price to be determined based on an MAI Appraisal. The leased space is being used by us for pedestrian and vehicle access to the Atlantis, and we may use a portion of the parking spaces at the Shopping Center. The total cost of the project was \$2.0 million; we were responsible for two thirds of the total cost, or \$1.35 million. The cost of the new driveway is being depreciated over the initial 15-year lease term; some components of the new driveway are being depreciated over a shorter period of time. We paid approximately \$94 thousand and \$188 thousand in lease payments for the leased driveway space at the Shopping Center during the three-month and six-month periods ended June 30, 2015, respectively.

CRITICAL ACCOUNTING POLICIES

A description of our critical accounting policies and estimates can be found in Item 7 Management's Discussion and Analysis of Financial Condition and Results of Operations of our Form 10-K for the year ended December 31, 2014 (2014 Form 10-K). For a more extensive discussion of our accounting policies, see Note 1, Summary of Significant Accounting Policies, in the Notes to the Consolidated Financial Statements in our 2014 Form 10-K filed on March 13, 2015.

OTHER FACTORS AFFECTING CURRENT AND FUTURE RESULTS

Negative economic developments in Northern Nevada, the Denver metropolitan area, and our feeder markets, could adversely impact discretionary incomes of our target customers, which, in turn could adversely impact our business as our target customers might curtail discretionary spending for leisure activities and businesses may reduce spending for conventions and meetings, both of which would adversely impact our business. Management continues to monitor economic trends and intends, as appropriate, to adopt operating strategies to attempt to mitigate the effects of such adverse conditions. We can make no assurances that such strategies will be effective should negative economic developments in our markets occur.

The expansion of Native American casinos in California has had an impact on casino revenues in Nevada, in general, and many analysts have continued to predict the impact will be more significant on the Reno-Lake Tahoe market. If other Reno-area casinos continue to suffer business losses due to increased pressure from California Native American casinos, such casinos may intensify their marketing efforts to northern Nevada residents as well, greatly increasing competitive activities for our local customers.

Higher fuel costs may deter California, Denver area, and other drive-in customers from coming to the Atlantis or the Monarch Black Hawk Casino.

We also believe that unlimited land-based casino gaming in or near any major metropolitan area in the Atlantis key feeder market areas, such as San Francisco or Sacramento, or in other areas near Denver, Colorado, the Black Hawk key feeder markets, could have a material adverse effect on our business.

Table of Contents

We rely on information technology and other systems to maintain and transmit customer financial information, credit card settlements, credit card funds transmissions, mailing lists and reservations information. The systems and processes we have implemented to protect customers, employees and company information are subject to the ever-changing risk of compromised security. These risks include cyber and physical security breaches, system failure, computer viruses, and negligent or intentional misuse by customers, company employees, or employees of third party vendors. The steps we take to deter and mitigate these risks may not be successful and our insurance coverage for protecting against cybersecurity risks may not be sufficient. Any disruption, compromise or loss of data or systems that results from a cybersecurity attack or breach could materially adversely impact operations or regulatory compliance and could result in remedial expenses, fines, litigation, and loss of reputation, potentially impacting our financial results.

COMMITMENTS AND CONTINGENCIES

Our contractual cash obligations as of June 30, 2015 and the next five years and thereafter are as follows (in millions):

| | Total | Payment due by period (1) | | |
|--------------------------------------|---------|---------------------------|--------------|--------------|
| | | Less than 1 year | 1 to 3 years | 3 to 5 years |
| Operating Leases (2) | \$ 2.1 | \$ 0.5 | \$ 1.0 | \$ 0.6 |
| Purchase Obligations (3) | 11.7 | 11.7 | | |
| Construction Contracts (4) | 25.9 | 25.9 | | |
| Borrowings Under Credit Facility (5) | 42.2 | | 42.2 | |
| Total Contractual Cash Obligations | \$ 81.9 | \$ 38.1 | \$ 43.2 | \$ 0.6 |

(1) Because interest payments under our credit facility are subject to factors that in our judgment fluctuate materially, the amount of future interest payments is not presently determinable. These factors include: i) future short-term interest rates; ii) our future leverage ratio which varies with Adjusted EBITDA and our borrowing levels; and iii) the speed with which we deploy capital and other spending which in turn impacts the level of future borrowings. The interest rate under our credit facility is LIBOR, or a base rate (as defined in the credit facility agreement), plus an interest rate margin ranging from 1.25% to 2.50% depending on our leverage ratio. The interest rate is adjusted quarterly based on our leverage ratio which is calculated using operating results over the previous four quarters and borrowings at the end of the most recent quarter. Based on our leverage ratio, at June 30, 2015 pricing was LIBOR plus 1.25% and will be adjusted in subsequent quarters in accordance with our leverage ratio. At June 30, 2015, the one-month LIBOR rate was 0.19%.

(2) Operating leases include leased driveway usage and executive housing in Colorado.

(3) Purchase obligations represent approximately \$5.0 million of commitments related to capital projects and approximately \$6.7 million of materials and supplies used in the normal operation of our business. Of the total purchase order and construction commitments, approximately \$11.7 million are cancelable by us upon providing a 30-day notice.

(4) Construction contracts obligations represent commitments related to remodel and expansion projects in Monarch Casino Black Hawk. \$24.8 million of the commitment relates to construction of the new parking garage structure and \$1.1 million relates to the remodel of the casino floor

of the existing facility.

(5) The amount represents outstanding draws against the Credit Facility as of June 30, 2015.

As described in the CAPITAL SPENDING AND DEVELOPMENT section above, we have begun commencement of a substantial expansion of our Monarch Casino Black Hawk facility which started in the fourth quarter of 2013. While we have disclosed the estimated cost of that expansion, we have not entered into contracts for substantial portions of the work. For this reason, we have included in the table above only the amounts for which we have contractual commitments.

Table of Contents

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Market risk is the risk of loss arising from adverse changes in market conditions and prices, such as interest rates, foreign currency exchange rates and commodity prices. We do not have any cash or cash equivalents as of June 30, 2015 that are subject to market risk. As of June 30, 2015, we had \$42.2 million of outstanding principal balance under our Credit Facility that was subject to credit risk. A 1% increase in the interest rate on the balance outstanding under the Credit Facility at June 30, 2015 would result in a change in our annual interest cost of approximately \$0.4 million.

ITEM 4. CONTROLS AND PROCEDURES

As of the end of the period covered by this Quarterly Report on Form 10-Q, (the Evaluation Date), an evaluation was carried out by our management, with the participation of our Chief Executive Officer and our Chief Financial Officer, of the effectiveness of our disclosure controls and procedures (as defined by Rule 13a-15(e) under the Securities Exchange Act of 1934). Based upon the evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were effective as of the end of the period covered by this report.

There was no change in our internal control over financial reporting during our most recently completed fiscal quarter that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

We are party to claims that arise in the normal course of business. Management believes that the outcomes of such claims will not have a material adverse impact on our financial condition, cash flows or results of operations.

ITEM 1A. RISK FACTORS

A description of our risk factors can be found in Item 1A of our Annual Report on Form 10-K for the year ended December 31, 2014.

ITEM 6. EXHIBITS

Edgar Filing: MONARCH CASINO & RESORT INC - Form 10-Q
