FORWARD-LOOKING STATEMENTS MAY NOT PROVE ACCURATE

When used in this Form 10-K, the words “anticipated”, “estimate”, “expect”, and similar expressions are intended to identify forward-looking statements. Such statements are subject to certain risks, uncertainties and assumptions including the possibility that the Company will fail to generate projected revenues. Should one or more of these risks or uncertainties materialize, or should underlying assumptions prove incorrect, actual results may vary materially from those anticipated, estimated or projected.

OVERVIEW

The following discussion of the financial condition, changes in financial condition and results of operations of the Company for the fiscal years ended December 31, 2008 and 2007 should be read in conjunction with the financial statements of the Company and related notes included therein.

The Company was incorporated on August 31, 1995 as Visioneering Corporation. On January 12, 1996, the Company amended its Articles of Incorporation to change its name to Asiamerica Energy Corporation, to Care Financial Corporation in April 29, 1996 and to Trump Oil Corporation on May 15, 1997. In 1999, the Company acquired 20/20 Web Design, Inc., a Colorado corporation wholly owned by Crown Partners, Inc. As part of that transaction, the Company issued 8,620,000 shares of its common stock to Crown Partners with the result that Crown Partners owned 80% of the issued and outstanding shares of the Company. The Company also approved a ten-for-one reverse stock split as part of that transaction.

Since the agreements described above, the Company has financed its activities through the distribution of equity capital, including private placements of its common stock resulting in the Company raising capital of \$853,494 from 1995 to the present. The Company used the proceeds from these offerings to fund its proposed operations, to pay salaries, to pay general and administrative expenses and any necessary expenses.

The Company entered into an agreement to acquire Sanitec™ Services of Hawaii, Inc. ("SSH") from its majority shareholder, Crown Partners, in November, 2003. The Company was unable to secure the funding necessary to

complete this transaction and SSH ceased operations in May, 2005. The Company paid a non-refundable deposit to Crown Partners of \$45,520, of which \$20,000 was advanced to SSH and Crown allowed the Company to retain the remaining \$25,520 to pay the Company's obligations. The Company issued shares of its common stock in restricted form to Crown in December 2007, which cancelled this debt.

The Company will attempt to carry out its business plan as discussed below. The Company cannot predict to what extent its lack of liquidity and capital resources will hinder its business plan prior to the consummation of a business combination.

LIQUIDITY AND CAPITAL RESOURCES

Since inception, the Company has experienced no significant change in liquidity or capital resources or stockholders' equity other than receipts of proceeds from offerings of its capital stock. The Company received \$230,000 from an offering conducted under Rule 504 of Regulation D in 1999. The Company also raised \$158,354 from the issuance of 7,200,000 shares of the Company's common stock prior to 1997. In 1997, the Company raised an additional \$345,000 from the sale of its common stock. In December 2007, the Company raised an additional \$104,000 from shareholders. The Company's balance sheet as of December 31, 2008 reflects very limited assets and substantial liabilities. Further, there exist no agreements or understandings with regard to loan agreements by or with the Officers, Directors, principals, affiliates or shareholders of the Company.

At December 31, 2008, the Company had negative working capital of \$286,038 which consisted of current assets of approximately \$2,898 and current liabilities of \$288,936. The current liabilities of the Company at December 31, 2008 are composed primarily of accounts payable and accrued expenses of \$40,393, accounts payable to a related party of \$74,718, a notes payable of \$13,700, a note payable from a related party of \$51,210 and advances from related parties of \$85,915.

The Company will attempt to carry out its plan of business as discussed above. The Company cannot predict to what extent its lack of liquidity and capital resources will hinder its business plan. The Company needs to pay for its proposed acquisition of SSH and will need additional capital to fund that proposed operation.

NEED FOR ADDITIONAL FINANCING

The Company's existing capital is not sufficient to meet the Company's cash needs, including the costs of compliance with the continuing reporting requirements of the Securities Exchange Act of 1934, as amended. It is anticipated that Crown Partners will likely continue to advance the funds necessary to ensure that the Company is able to meet its reporting obligations under the 1934 Act and that these loans will be repaid either when the Company's business begins to generate sufficient revenues. However, Crown Partners has not agreed in writing to provide these funds and can only provide these funds to the extent that it has available funds to loan to the Company.

No commitments to provide additional funds have been made by management or other stockholders. Accordingly, there can be no assurance that any funds will be available to the Company to allow it to cover its expenses.

The Company might seek to compensate providers of services by issuances of stock in lieu of cash.

The Company is presently inactive and since inception has experienced no significant change in liquidity or capital resources or stockholders' equity other than the receipt of proceeds from offerings conducted under Rule 504 of Regulation D. The Company's balance sheet as of December 31, 2008 reflects minimal assets and extensive liabilities. Further, there exist no agreements or understandings with regard to loan agreements by or with the Officers, Directors, principals, affiliates or shareholders of the Company.

RESULTS OF OPERATIONS

During the period from August 31, 1995 (inception) through December 31, 2008, the Company engaged in limited operations and attempted to commence operations in a number of different fields, none of which was ultimately successful or resulted in any appreciable revenues for the Company. For the year ended December 31, 2008, the Company had revenues of \$23,190 compared to \$14,003 revenues for the year ended December 31, 2007. For the year ended December 31, 2008, the Company had operating expenses of \$319,055 and a net loss of \$316,131. For the year ended December 31, 2007, the Company had operating expenses of \$3,002,369 resulting in a net loss of \$2,988,366. The difference in expenses between the two periods resulted from the Company's increased expenses in beginning operations in 2007 as well as the issuance of stock as compensation to consultants, officers and directors in 2007. The net loss per share was \$.00 and \$.06, respectively, for the years ended December 31, 2008 and 2007.

As of December 31, 2008, the Company had assets of \$46,271 and current liabilities of \$288,936. Shareholders' deficit as of December 31, 2008 was \$242,665 compared to shareholders' deficit of \$35,668 at December 31, 2007. Liabilities increased in 2008 due to the Company sales not being adequate to cover the cost of running the company.

The Company anticipates that until its business operations increase along with revenues, the revenues generated will not be sufficient to pay the Company's expenses and the Company will operate at a loss for the foreseeable future.

Item 8. Financial Statements.

Financial statements are audited and included herein beginning on Exhibit 1, page 1 and are incorporated herein by this reference.

Item 9. Changes in and Disagreements with Accountants on Accounting and Financial Disclosure.

There were no disagreements with accountants on accounting and financial disclosure during the relevant period.

Item 9a. Controls & Procedures

Evaluation of Disclosure Controls and Procedures

Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by an issuer in the reports that it files or submits under the Securities Exchange Act of 1934, as amended (the "Act") is accumulated and communicated to the issuer's management, including its principal executive and principal financial officers, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure. It should be noted that the design of any system of controls is based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions, regardless of how remote. As of the end of the period covered by this Annual Report, we carried out an evaluation, under the supervision and with the participation of our Chief Executive Officer and our Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures. Based on this evaluation, our CEO and CFO has concluded that the Company's disclosure controls and procedures are not effective because of the identification of a material weakness in our internal control over financial reporting which is identified below, which we view as an integral part of our disclosure controls and procedures.

Changes in Internal Controls over Financial Reporting

We have not yet made any changes in our internal controls over financial reporting that occurred during the period covered by this report on Form 10-K that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Management's Annual Report on Internal Control Over Financial Reporting

Our management is responsible for establishing and maintaining adequate internal control over financial reporting, as such term is defined in Rules 13a-15(f) and 15d-15(f) of the Exchange Act. Our internal control system was designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes, in accordance with generally accepted accounting principles. Because of inherent limitations, a system of internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate due to change in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Our management conducted an evaluation of the effectiveness of our internal control over financial reporting using the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission (COSO) in Internal Control—Integrated Framework. Based on its evaluation, our management concluded that there is a material weakness in our internal control over financial reporting. A material weakness is a deficiency, or a combination of control deficiencies, in internal control over financial reporting such that there is a reasonable possibility that a material misstatement of the Company's annual or interim financial statements will not be prevented or detected on a timely basis.

The material weakness relates to the lack of segregation of duties in financial reporting, as our financial reporting and all accounting functions are performed by an external consultant with no oversight by a professional with accounting expertise. Our President does not possess accounting expertise and our company does not have an audit committee. This weakness is due to the company's lack of working capital to hire additional staff. To remedy this material weakness, we intend to engage another accountant to assist with financial reporting as soon as our finances will allow.

This annual report does not include an attestation report of the Company's registered public accounting firm regarding internal control over financial reporting. Management's report was not subject to the attestation by the Company's registered public accounting firm pursuant to temporary rules of the SEC that permit the Company to provide only management's report in this annual report.

The Company's management carried out an assessment of the effectiveness of the Company's internal control over financial reporting as of December 31, 2008. The Company's management based its evaluation on criteria set forth in the framework in Internal Control—Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission. Based on that assessment, management has concluded that the Company's internal control over financial reporting was not effective as of December 31, 2008

Business Experience. The following is a brief account of the business experience during at the least the last five years of the directors and executive officers, indicating their principal occupations and employment during that period, and the names and principal businesses of the organizations in which such occupations and employment were carried out.

Prior to that, Mr. Onoue was the president of Cathay Atlantic Trading Company in Honolulu, Hawaii which trades in hard commodities and acted as a consultant to many construction and renovation projects. Mr. Onoue acts as a community liaison and legislative analyst to Rep. Suzuki of the State of Hawaii. Mr. Onoue has been registered securities professional as well as being involved in real estate in Hawaii for more than 15 years. Mr. Bosket is also a director of Crown Partners, Inc., the majority shareholder of the Company and a publicly traded company traded on the OTC Electronic Bulletin Board under “CRWP.”

CONFLICTS OF INTEREST

The Officers and Directors of the Company will devote only a small portion of their time to the affairs of the Company, estimated to be no more than approximately 15 hours per month. There will be occasions when the time requirements of the Company's business conflict with the demands of their other business and investment activities. Such conflicts may require that the Company attempt to employ additional personnel. There is no assurance that the services of such persons will be available or that they can be obtained upon terms favorable to the Company.

There is no procedure in place which would allow the Officers and Directors to resolve potential conflicts in an arms-length fashion. Accordingly, they will be required to use their discretion to resolve them in a manner which they consider appropriate.

The Company's Officers and Directors may actively negotiate or otherwise consent to the purchase of a portion of their common stock as a condition to, or in connection with, a proposed merger or acquisition transaction. It is anticipated that a substantial premium over the initial cost of such shares may be paid by the purchaser in conjunction with any sale of shares by the Company's Officers and Directors which is made as a condition to, or in connection with, a proposed merger or acquisition transaction. The fact that a substantial premium may be paid to the Company's Officers and Directors to acquire their shares creates a potential conflict of interest for them in satisfying their fiduciary duties to the Company and its other shareholders. Even though such a sale could result in a substantial profit to them, they would be legally required to make the decision based upon the best interests of the Company and the Company's other shareholders, rather than their own personal pecuniary benefit.

Identification of Certain Significant Employees. The Company does not employ any persons who make or are expected to make significant contributions to the business of the Company.

Item 11. Executive Compensation.

During fiscal 2008 the Company paid two officers an aggregate of \$13,450 plus accrued \$20,000 for their services.

Directors are entitled to reimbursement for reasonable travel and other out-of-pocket expenses incurred in connection with attendance at meeting of the Board of Directors.

The Company has no material bonus or profit-sharing plans pursuant to which cash or non-cash compensation is or may be paid to the Company's directors or executive officers.

The Company has no compensatory plan or arrangements, including payments to be received from the Company, with respect to any executive officer or director, where such plan or arrangement would result in any compensation or remuneration being paid resulting from the resignation, retirement or any other termination of such executive officer's employment or from a change-in-control of the Company or a change in such executive officer's responsibilities following a change-in-control and the amount, including all periodic payments or installments where the value of such compensation or remuneration exceeds \$100,000 per executive officer.

During the last completed fiscal year, no funds were set aside or accrued by the Company to provide pension, retirement or similar benefits for Directors or Executive Officers.

The Company has no written employment agreements.

In December, 2007, the Company adopted the Crown Equity Holdings, Inc. Consultants and Employees Stock Plan for 2007. Under the Plan, 10,000,000 shares are reserved for issuance to employees, officers, directors, advisors and consultants. As of December 31, 2008, 500,000 shares had been issued under the Plan.

Termination of Employment and Change of Control Arrangement. Except as noted herein, the Company has no compensatory plan or arrangements, including payments to be received from the Company, with respect to any individual named above from the latest or next preceding fiscal year, if such plan or arrangement results or will result from the resignation, retirement or any other termination of such individual's employment with the Company, or from a change in control of the Company or a change in the individual's responsibilities following a change in control.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors
Crown Equity Holdings Inc.
Las Vegas, Nevada

We have audited the accompanying consolidated balance sheets of Crown Equity Holdings Inc. (“the Company”) as of December 31, 2008 and 2007, and the related consolidated statements of operations, shareholders’ deficit, and cash flows for the two years then ended. These financial statements are the responsibility of Crown Equity Holdings Inc.’s management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform an audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company’s internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Crown Equity Holdings Inc. as of December 31, 2008 and 2007 and the results of operations and cash flows for the two years then ended, in conformity with accounting principles generally accepted in the United States of America.

The accompanying financial statements have been prepared assuming that Crown Equity Holdings Inc. will continue as a going concern. As discussed in Note 2 to the financial statements, Crown Equity Holdings Inc. suffered losses from operations and has a working capital deficiency, which raises substantial doubt about its ability to continue as a going concern. Management’s plans regarding those matters also are described in Note 2. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

Crown Equity Holdings Inc.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1 – NATURE OF BUSINESS AND SUMMARY OF ACCOUNTING POLICIES

Nature of Business

Crown Equity Holdings Inc. ("Crown Equity") was incorporated in August 1995 in Nevada. Crown Equity is in the business of managing and acquiring subsidiary corporations.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the balance sheet. Actual results could differ from those estimates.

Cash and Cash Equivalents

Crown Equity considers all highly liquid investments purchased with an original maturity of three months or less to be cash equivalents.

Revenue recognition

Crown Equity recognizes revenue when persuasive evidence of an arrangement exists, services have been rendered, the sales price is fixed or determinable, and collectability is reasonably assured. This typically occurs when the product is shipped.

Property and equipment

Property and equipment are carried at the cost of acquisition or construction and depreciated over the estimated useful lives of the assets. Costs associated with repair and maintenance are expensed as incurred. Costs associated with improvements which extend the life, increase the capacity or improve the efficiency of our property and equipment are capitalized and depreciated over the remaining life of the related asset. Gains and losses on dispositions of equipment are reflected in operations. Depreciation is provided using the straight-line method over the estimated useful lives of the assets, which are 3 to 5 years.

Impairment of long-lived assets

The Company reviews the carrying value of its long-lived assets annually or whenever events or changes in circumstances indicate that the historical-cost carrying value of an asset may no longer be appropriate. The Company assesses recoverability of the asset by comparing the undiscounted future net cash flows expected to result from the asset to its carrying value. If the carrying value exceeds the undiscounted future net cash flows of the asset, an impairment loss is measured and recognized. An impairment loss is measured as the difference between the net book value and the fair value of the long-lived asset. Fair value is estimated based upon either discounted cash flow analysis or estimated salvage value. No impairment charge was recorded in 2008 or 2007.

Basic and diluted net loss per share

Basic and diluted net loss per share calculations are presented in accordance with Financial Accounting Standards Statement 128, and are calculated on the basis of the weighted average number of common shares outstanding during

the year. They include the dilutive effect of common stock equivalents in years with net income. Basic and diluted loss per share are the same due to the absence of common stock equivalents.

Income Taxes

Crown Equity recognizes deferred tax assets and liabilities based on differences between the financial reporting and tax basis of assets and liabilities using the enacted tax rates and laws that are expected to be in effect when the differences are expected to be recovered. Crown Equity provides a valuation allowance for deferred tax assets for which it does not consider realization of such assets to be more likely than not.

F-6

Fair Value of Financial Instruments

The Company's financial instruments consist of cash and debt. The carrying amount of these financial instruments approximates fair value due either to length of maturity or interest rates that approximate prevailing market rates unless otherwise disclosed in these consolidated financial statements.

Crown Equity does not expect the adoption of any recently issued accounting pronouncements to have a significant impact on their financial position, results of operations or cash flows.

NOTE 2 - GOING CONCERN

As shown in the accompanying financial statements, Crown Equity incurred recurring net losses, has an accumulated deficit and a working capital deficit as of December 31, 2008. These conditions raise substantial doubt as to Crown Equity's ability to continue as a going concern. Management is trying to raise additional capital through sales of common stock. The financial statements do not include any adjustments that might be necessary if Crown Equity is unable to continue as a going concern.

NOTE 3 – PROPERTY AND EQUIPMENT

Property and equipment consisted of the following at December 31, 2008:

| | 2008 | 2007 |
|---------------------------------|-----------|---------|
| Computer equipment | \$ 76,134 | 76,134 |
| Less: accumulation depreciation | (32,761) | (7,381) |
| Net property and equipment | \$ 43,373 | 68,753 |

Depreciation expense totaled \$25,380 and \$7,381 for the years ended December 31, 2008 and 2007.

NOTE 4 – NOTE PAYABLE

During the quarter ended March 31, 2007, we borrowed \$12,700 from an unrelated third party. The loan is unsecured and matured on April 1, 2008 and accrued interest at 12% per annum. The note can be converted into common shares of the company at the holder's option at a to be determined in the future conversion price. Amounts outstanding under this agreement subsequent to April 1, 2008 accrued interest at 18% per annum. As of December 31, 2008 the loan and accrued interest was still outstanding. The note is an unsecured demand note bearing no interest.

During the quarter ended December 31, 2008 the Company borrowed \$ 1,000 from an unrelated third party. The note is unsecured, due on demand bearing no interest.

NOTE 5 – INCOME TAXES

The Company follows FASB Statement Number 109, Accounting for Income Taxes. Deferred income taxes reflect the net tax effects of (a) temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for income tax reporting purposes, and (b) net operating loss carry forwards. For federal income tax purposes, the Company uses the accrual basis of accounting, the same that is used for financial reporting purposes. Net operating losses estimated \$2.4 million as of December 31, 2008 and expire 20 years from when incurred. The cumulative tax effect at the expected tax rate of 34% of significant items comprising the Company's net deferred tax amounts as of December 31, 2008 are as follows:

| | |
|----------------------------|------------|
| Total Deferred Tax Benefit | \$ 823,024 |
|----------------------------|------------|

| | |
|--------------------------|--------------|
| Valuation Allowance | \$ (823,024) |
| Net Deferred Tax Benefit | \$ 0 |
