Item 8.01 Other Events

On May 27, 2014 we issued a press release announcing that the US Food and Drug Administration (FDA) advised us that the data from our intranasal abuse liability study AP-ADF-301 (Study 301) for our AVERSION® hydrocodone bitartrate with acetaminophen (hydrocodone/APAP) product candidate are insufficient to support an intranasal abuse deterrence claim and questioned whether the intranasal route is a relevant route of abuse for hydrocodone/APAP products and recommended we identify variables that could have impacted the findings from Study 301 before considering or conducting an additional intranasal abuse liability study on our AVERSION hydrocodone/APAP product. The press release is attached hereto and filed as Exhibit 99.1.
