ATRION CORPORATION AND SUBSIDIARIES  
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS  
(Unaudited)

(1) Basis of Presentation

The accompanying unaudited consolidated financial statements of Atrion Corporation and its subsidiaries have been prepared in accordance with accounting principles generally accepted in the United States for interim financial information and with the instructions to Form 10-Q. Accordingly, they do not include all of the information and notes required by accounting principles generally accepted in the United States for complete financial statements. In the opinion of management, these statements include all adjustments necessary to present a fair statement of our consolidated results of operations, financial position and cash flows. Operating results for any interim period are not necessarily indicative of the results that may be expected for the full year. Preparation of the Company's financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts in the financial statements and notes. Actual results could differ from those estimates. This Quarterly Report on Form 10-Q should be read in conjunction with the Company's consolidated financial statements and notes included in its Annual Report on Form 10-K for the fiscal year ended December 31, 2012 ("2012 Form 10-K"). References herein to "Atrion," the "Company," "we," "our," and "us" refer to Atrion Corporation and its subsidiaries.

(2) Inventories

Inventories are stated at the lower of cost or market. Cost is determined by using the first-in, first-out method. The following table details the major components of inventories (in thousands):

	September 30, 2013	December 31, 2012
Raw materials	\$ 11,081	\$ 10,017
Work in process	6,877	5,268
Finished goods	8,530	8,494
Total inventories	\$ 26,488	\$ 23,779

ATRION CORPORATION AND SUBSIDIARIES  
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS  
(Unaudited)

## (3) Income per share

The following is the computation for basic and diluted income per share:

	Three Months Ended September 30,		Nine months Ended September 30,	
	2013	2012	2013	2012
	(in thousands, except per share amounts)			
Net income	\$ 7,673	\$ 7,259	\$ 20,813	\$ 18,735
Weighted average basic shares outstanding	2,007	2,014	2,014	2,015
Add: Effect of dilutive securities	9	8	5	13
Weighted average diluted shares outstanding	2,016	2,022	2,019	2,028
Earnings per share:				
Basic	\$ 3.82	\$ 3.60	\$ 10.33	\$ 9.30
Diluted	\$ 3.81	\$ 3.59	\$ 10.31	\$ 9.24

Incremental shares from stock options and restricted stock units were included in the calculation of weighted average diluted shares outstanding using the treasury stock method. Dilutive securities representing 1,545 and 5,901 shares of common stock for the quarters ended September 30, 2013 and 2012, respectively, were excluded from the computation of weighted average diluted shares outstanding because their effect would have been anti-dilutive.

## (4) Investments

As of September 30, 2013, we held certain investments that are required to be measured for disclosure purposes at fair value on a recurring basis. These investments are considered Level 2 investments and are all considered to be held-to-maturity securities. We consider as current assets those investments which will mature in the next 12 months. The remaining investments are considered non-current assets. The amortized cost and fair value of our investments, and the related gross unrealized gains and losses, were as follows as of September 30, 2013 (in thousands):

	Cost	Gross Unrealized		Fair Value
		Gains	Losses	
Short-term Investments:				
Corporate bonds	\$ 8,448	\$ 142	\$ --	\$ 8,590
Long-term Investments				
Corporate bonds	\$ 20,104	\$ 426	\$ --	\$ 20,530

At September 30, 2013, the length of time until maturity of these securities ranged from 7.5 months to 18.5 months.

ATRION CORPORATION AND SUBSIDIARIES  
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS  
(Unaudited)

(5) Income Taxes

The effective tax rate for the third quarter of 2013 was 30.4 percent, compared with 28.0 percent for the third quarter of 2012. The effective tax rate for the first nine months of 2013 was 32.0 percent, compared with 32.2 percent for the first nine months of 2012. The effective tax rates for the third quarter and first nine months of 2013 benefited from the extension of the federal research tax credit provisions included in the American Taxpayer Relief Act of 2012, which was signed into law on January 2, 2013. The effective tax rates for the third quarter and first nine months of 2012 benefited from a favorable adjustment to an uncertain tax position related to income tax credits claimed for research and development following the conclusion, in September 2012, of an Internal Revenue Service examination of our United States federal income tax returns for 2006, 2007 and 2008. We expect the effective tax rate for the remainder of 2013 to be approximately 34.0 percent.

(6) Recent Accounting Pronouncements

From time to time, new accounting standards updates applicable to us are issued by the Financial Accounting Standards Board, or FASB, which we will adopt as of the specified effective date. Unless otherwise discussed, we believe the impact of recently issued standards updates that are not yet effective will not have a material impact on our consolidated financial statements upon adoption.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Overview

We develop and manufacture products primarily for medical applications. We market components to other equipment manufacturers for incorporation in their products and sell finished devices to physicians, hospitals, clinics and other treatment centers. Our medical products primarily serve the fluid delivery, cardiovascular, and ophthalmology markets. Our other products category includes valves used in marine and aviation safety products.

Our products are used in a wide variety of applications by numerous customers. We encounter competition in all of our markets and compete primarily on the basis of product quality, price, engineering, customer service and delivery time.

Our strategy is to provide a broad selection of products in the areas of our expertise. Research and development efforts are focused on improving current products and developing highly-engineered products that meet customer needs in niche markets. Proposed new products may be subject to regulatory clearance or approval prior to commercialization and the time period for introducing a new product to the marketplace can be unpredictable. We also focus on controlling costs by investing in modern manufacturing technologies and controlling purchasing processes. We have been successful in consistently generating cash from operations and have used that cash to reduce indebtedness, to fund capital expenditures, to repurchase stock and to pay dividends.

Our strategic objective is to further enhance our position in our served markets by:

- Focusing on customer needs;
- Expanding existing product lines and developing new products;
- Maintaining a culture of controlling cost; and
- Preserving and fostering a collaborative, entrepreneurial working environment.

For the three months ended September 30, 2013, we reported revenues of \$34.0 million, operating income of \$10.7 million and net income of \$7.7 million, up 11 percent, 11 percent and 6 percent, respectively, from the three months ended September 30, 2012. For the nine months ended September 30, 2013, we reported revenues of \$100.1 million, operating income of \$29.6 million and net income of \$20.8 million, up 11 percent, 11 percent and 11 percent, respectively, from the nine months ended September 30, 2012.

Results for the three months ended September 30, 2013

Consolidated net income totaled \$7.7 million, or \$3.82 per basic and \$3.81 per diluted share, in the third quarter of 2013. This is compared with consolidated net income of \$7.3 million, or \$3.60 per basic and \$3.59 per diluted share, in the third quarter of 2012. The income per basic share computations are based on weighted average basic shares outstanding of 2,007,000 in the 2013 period and 2,014,000 in the 2012 period. The income per diluted share computations are based on weighted average diluted shares outstanding of 2,016,000 in the 2013 and 2,022,000 in the 2012 period.

Consolidated revenues of \$34.0 million for the third quarter of 2013 were 11 percent higher than revenues of \$30.6 million for the third quarter of 2012. This increase was primarily attributable to higher sales volumes.

Revenues by product line were as follows (in thousands):

	Three Months ended September 30,	
	2013	2012
Fluid Delivery	\$ 13,411	\$ 13,160
Cardiovascular	10,429	8,481
Ophthalmology	5,127	3,934
Other	5,077	5,062
Total	\$ 34,044	\$ 30,637

Cost of goods sold of \$17.0 million for the third quarter of 2013 was \$1.3 million higher than in the comparable 2012 period. Our cost of goods sold in the third quarter of 2013 was 49.9 percent of revenues compared with 51.4 percent of revenues in the third quarter of 2012.

Gross profit of \$17.0 million in the third quarter of 2013 was \$2.1 million, or 14 percent, higher than in the comparable 2012 period. Our gross profit percentage in the third quarter of 2013 was 50.1 percent of revenues compared with 48.6 percent of revenues in the third quarter of 2012. The increase in gross profit percentage in the 2013 period compared to the 2012 period was principally attributable to a favorable product sales mix, improved manufacturing capacity utilization, and the impact of continued cost improvement initiatives partially offset by increased compensation, manufacturing supplies and depreciation.

Our third quarter 2013 operating expenses of \$6.3 million were \$1.1 million higher than the operating expenses for the third quarter of 2012. This increase was comprised of a \$394,000 increase in Research and Development, or R&D, expenses, a \$229,000 increase in Selling expenses and a \$487,000 increase in General and Administrative, or G&A, expenses. The increase in R&D costs was principally attributable to increased supplies, outside services and compensation. The increase in Selling expenses for the third quarter of 2013 was principally attributable to increased promotion and advertising, increased commissions and increased travel-related expenses. The increase in G&A expenses for the third quarter of 2013 was principally attributable to increased compensation and outside services.

Operating income in the third quarter of 2013 increased \$1.0 million to \$10.7 million, an 11 percent increase from our operating income in the quarter ended September 30, 2012. Operating income was 31 percent of revenues in the third quarter of 2013 and 32 percent in the third quarter of 2012. The primary contributor to the increase in operating income for the third quarter of 2013 was the previously mentioned increase in revenues.

Income tax expense for the third quarter of 2013 was \$3.4 million compared to income tax expense of \$2.8 million for the same period in the prior year. The effective tax rate for the third quarter of 2013 was 30.4 percent, compared with 28.0 percent for the third quarter of 2012. The third quarter 2013 effective rate benefited from the extension of the federal research tax credit provisions included in the American Taxpayer Relief Act of 2012, which was signed into law on January 2, 2013. The lower effective tax rate for the third quarter of 2012 was principally attributable to a favorable adjustment to an uncertain tax position related to income tax credits claimed for R&D following the conclusion, in September 2012, of an Internal Revenue Service examination of our United States federal income tax returns for 2006, 2007 and 2008. We expect the effective tax rate for the remainder of 2013 to be approximately 34.0 percent.

#### Results for the nine months ended September 30, 2013

Consolidated net income totaled \$20.8 million, or \$10.33 per basic and \$10.31 per diluted share, in the first nine months of 2013. This is compared with consolidated net income of \$18.7 million, or \$9.30 per basic and \$9.24 per diluted share, in the first nine months of 2012. The income per basic share computations are based on weighted average basic shares outstanding of 2,014,000 in the 2013 period and 2,015,000 in the 2012 period. The income per diluted share computations are based on weighted average diluted shares outstanding of 2,019,000 in the 2013 period and 2,028,000 in the 2012 period.

Consolidated revenues of \$100.1 million for the first nine months of 2013 were 11 percent higher than revenues of \$90.6 million for the first nine months of 2012. This increase was primarily attributable to higher sales volumes.

Revenues by product line were as follows (in thousands):

	Nine months ended September 30,	
	2013	2012
Fluid Delivery	\$ 39,159	\$ 37,934
Cardiovascular	30,723	27,306
Ophthalmology	15,939	11,245
Other	14,321	14,080
Total	\$ 100,142	\$ 90,565

Cost of goods sold of \$51.8 million for the first nine months of 2013 was \$4.6 million higher than in the comparable 2012 period. Our cost of goods sold in the first nine months of 2013 was 51.7 percent of revenues compared with 52.1 percent of revenues in the first nine months of 2012.

Gross profit of \$48.4 million in the first nine months of 2013 was \$5.0 million, or 11 percent, higher than in the comparable 2012 period. Our gross profit percentage in the first nine months of 2013 was 48.3 percent of revenues compared with 47.9 percent of revenues in the first nine months of 2012. The increase in gross profit percentage in the 2013 period compared to the 2012 period was principally attributable to a favorable product sales mix, improved manufacturing capacity utilization, and the impact of continued cost improvement initiatives partially offset by increased compensation and depreciation.

Our first nine months 2013 operating expenses of \$18.8 million were \$2.0 million higher than the operating expenses for the first nine months of 2012. This increase was comprised of a \$660,000 increase in R&D expenses, a \$388,000 increase in Selling expenses and a \$919,000 increase in G&A expenses. The increase in R&D costs was principally attributable to increased outside services, compensation, supplies and travel-related expenses. The increase in Selling expenses for the first nine months of 2013 was principally attributable to increased compensation, travel, promotion, advertising and outside services. The increase in G&A expenses for the first nine months of 2013 was principally attributable to increased compensation and outside services.

Operating income in the first nine months of 2013 increased \$3.0 million to \$29.6 million, an 11 percent increase from our operating income in the nine months ended September 30, 2012. Operating income was 30 percent of revenues in the first nine months of 2013 compared to 29 percent of revenues in the first nine months of 2012. The primary contributor to the increase in operating income for the first nine months of 2013 was the previously mentioned increase in revenues.

Income tax expense for the first nine months of 2013 was \$9.8 million compared to income tax expense of \$8.9 million for the same period in the prior year. The effective tax rate for the first nine months of 2013 was 32.0 percent, compared with 32.2 percent for the first nine months of 2012. The 2013 effective rate benefited from the extension of the federal research tax credit provisions included in the American Taxpayer Relief Act of 2012, which was signed into law on January 2, 2013. The effective tax rate for the 2012 period benefited from a favorable adjustment to an uncertain tax position related to income tax credits claimed for R&D following the conclusion, in September 2012, of an Internal Revenue Service examination of our United States federal income tax returns for 2006, 2007 and 2008.

#### Liquidity and Capital Resources

We have a \$40.0 million revolving credit facility with a money center bank that can be utilized for the funding of operations and for major capital projects or acquisitions, subject to certain limitations and restrictions. Borrowings under the credit facility bear interest that is payable monthly at 30-day, 60-day or 90-day LIBOR, as selected by us, plus one percent. From time to time prior to October 1, 2016 and assuming an event of default is not then existing, we can convert outstanding advances under the revolving line of credit to term loans with a term of up to two years. We had no outstanding borrowings under our credit facility at September 30, 2013 or at December 31, 2012. The credit facility contains various restrictive covenants, none of which is expected to impact our liquidity or capital resources. At September 30, 2013, we were in compliance with all financial covenants. We believe that the bank providing the credit facility is highly-rated and that the entire \$40.0 million under the credit facility is currently available to us. If that bank were unable to provide such funds, we believe that such inability would not impact our ability to fund operations.

At September 30, 2013, we had a total of \$59.3 million in cash and cash equivalents, short-term investments and long-term investments, an increase of \$14.7 million from December 31, 2012, which was principally attributable to operational results.

Cash flows from operating activities generated \$27.4 million for the nine months ended September 30, 2013 as compared to \$23.4 million for the nine months ended September 30, 2012. The increase in the 2013 period was primarily attributable to improved operational results as compared to the 2012 period and decreased cash requirements for working capital items, specifically accounts payable and accrued liabilities for the 2013 period. During the first nine months of 2013, we expended \$4.7 million for the addition of property and equipment, \$4.1 million for treasury stock and \$3.5 million for dividends. During that same period, maturities of investments generated \$7.6 million.

At September 30, 2013, we had working capital of \$73.2 million, including \$30.7 million in cash and cash equivalents and \$8.5 million in short-term investments. The \$23.6 million increase in working capital during the first nine months of 2013 was principally attributable to increases in cash and cash equivalents, accounts receivable and inventories partially offset by increases in accounts payable and accrued liabilities. The net increase in cash and cash equivalents was principally attributable to increases in accounts payable and accrued liabilities, increases in accrued income and other taxes, decreases in long-term investments and improved operational results.

We believe that our \$59.3 million in cash, cash equivalents, short-term investments and long-term investments, along with cash flows from operations and available borrowings of up to \$40.0 million under our credit facility will be sufficient to fund our cash requirements for at least the foreseeable future. We believe that our strong financial position would allow us to access equity or debt financing should that be necessary. Additionally, we believe that our cash and cash equivalents, short-term investments and long-term investments, as a whole, will continue to increase during the remainder of 2013.

#### Forward-Looking Statements

Statements in this Management's Discussion and Analysis and elsewhere in this Quarterly Report on Form 10-Q that are forward looking are based upon current expectations, and actual results or future events may differ materially. Therefore, the inclusion of such forward-looking information should not be regarded as a representation by us that our objectives or plans will be achieved. Such statements include, but are not limited to, our effective tax rate for the remainder of 2013, our ability to fund our cash requirements for the foreseeable future with our current assets, long-term investments, cash flow and borrowings under the credit facility, the impact that the inability of the bank providing the credit facility to provide funds thereunder would have on our ability to fund operations, our access to equity and debt financing, and the increase in cash, cash equivalents, and investments in the remainder of 2013. Words such as "expects," "believes," "anticipates," "intends," "should," "plans," and variations of such words and similar expressions are intended to identify such forward-looking statements. Forward-looking statements contained herein involve numerous risks and uncertainties, and there are a number of factors that could cause actual results or future events to differ materially, including, but not limited to, the following: changing economic, market and business conditions; acts of war or terrorism; the effects of governmental regulation; the impact of competition and new technologies; slower-than-anticipated introduction of new products or implementation of marketing strategies; implementation of new manufacturing processes or implementation of new information systems; our ability to protect our intellectual property; changes in the prices of raw materials; changes in product mix; intellectual property and product liability claims and product recalls; the ability to attract and retain qualified personnel; and the loss of, or any material reduction in sales to, any significant customers. In addition, assumptions relating to budgeting, marketing, product development and other management decisions are subjective in many respects and thus susceptible to interpretations and periodic review which may cause us to alter our marketing, capital expenditures or other budgets, which in turn may affect our results of operations and financial condition.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

For the quarter ended September 30, 2013, we did not experience any material changes in market risk exposures that affect the quantitative and qualitative disclosures presented in our 2012 Form 10-K.

Item 4. Controls and Procedures

Our management, with the participation of our Chief Executive Officer and our Chief Financial Officer, evaluated our disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) as of September 30, 2013. Based upon this evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that our disclosure controls and procedures are effective. There were no changes in our internal control over financial reporting for the quarter ended September 30, 2013 that have materially affected or are reasonably likely to materially affect our internal control over financial reporting.

PART II

OTHER INFORMATION

Item 1. Legal Proceedings

From time to time, we may be involved in claims or litigation that arise in the normal course of business. We are not currently a party to any legal proceedings, which, if decided adversely, would have a material adverse effect on our business, financial condition, or results of operations.

Item 1A. Risk Factors

There were no material changes to the risk factors disclosed in our 2012 Form 10-K.

## Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

The table below sets forth information with respect to our purchases of our common stock during each of the three months in the period ended September 30, 2013.

Period	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Maximum Number of Shares that May Yet Be Purchased Under the Plans or Programs (1)
7/1/2013 through 7/31/2013	-	-	-	151,646
8/1/2013 through 8/31/2013	-	-	-	151,646
9/1/2013 through 9/30/2013	4,775	\$ 245.80	4,775	146,871
Total	4,775	\$ 245.80	4,775	146,871

(1) On August 16, 2011, our Board of Directors approved our current stock repurchase program pursuant to which we can repurchase up to 200,000 shares of our common stock from time to time in open market or privately-negotiated transactions. Our current stock repurchase program has no expiration date but may be terminated by our Board of Directors at any time.

## Item 6. Exhibits

Exhibit Number	Description
3.1	Certificate of Incorporation of Atrion Corporation, dated December 10, 1996 (1)
3.2	Bylaws of Atrion Corporation (as last amended on August 14, 2013) (2)
10.1	Atrion Corporation Short-Term Incentive Compensation Plan
31.1	Sarbanes-Oxley Act Section 302 Certification of Chief Executive Officer
31.2	Sarbanes-Oxley Act Section 302 Certification of Chief Financial Officer
