Gilat to Supply Mexico's Telecomm Telegrafos with SkyStar 360E Hub and 733 Remote VSAT Sites Gilat to announce end of year earnings on February 17, 2004

Mexico City, Mexico, February 11, 2004 Gilat Satellite Networks Ltd. (Nasdaq: GILTF), a worldwide leader in satellite networking technology, announced today that it has signed an agreement with the Mexican telecommunications government company, Telecomunicaciones de México for its telecom's and telegraphic public services. The agreement calls for the deployment of a SkyStar 360E hub and up to 2,000 remote sites. In the initial phases, completed in Q4 of 2003, Gilat provided a hub and 733 VSATs to expand and replace existing satellite-based technology. The Company anticipates providing an additional 1,267 VSATs during the course of 2004.

Telecomunicaciones de México (TELECOMM) is a state owned enterprise founded in 1989 and is in charged of telegraphic public, mobile satellite and teleports services. The core business is the money transfers, operated by satellite links and computer systems, in order our 1,555 POS are spread all over México even in little towns and rural communities. TELECOMM also offers telegrams, telex and fax, as well as voice traffic, email, Internet, fixed and mobile satellite and services. More than half of the POS have been equipped with dial up lines while the remaining sites fitted with another vendor's VSAT technology. These sites will now all be replaced with Gilat's SkyStar 360E platform.

Gilat has already deployed 3,000 satellite-based rural telephony sites for the SCT, using its DialAw@y IP VSAT platform. In addition, Gilat's large customer base in Mexico includes among others, companies such as Telmex, Elektra, GlobalSat and Comsat.

Melinda Givaudan, General Manager for Gilat Mexico, said, "having won this bid proves again that when compared to other technologies Gilat continues to demonstrate superiority. We are pleased to continue growing our relationship with the SCT and to be providing state-of-the-art technology to meet their demands."

The Skystar 360E platform offers a flexible, two-way, satellite-based solution enabling interactive broadband IP and multicasting applications. With DVB standards and extensive IP capabilities, the Skystar 360E supports virtually any data and IP multicast application.

The Company also announced its intention to release its 2003 earnings results on February 17, 2004.

About Telecomunicaciones de Mexico

TELECOMM was created in 1989 and is in charged of telegraphic public, mobile satellite and teleports services.
