Philadelphia Insurance Companies Goes Live with Sapiens'
RapidSure Policy Administration Suite

Successful deployment of five lines of business, all states, integrated with
existing systems in just six months.

Cary, N.C. – September 7, 2010 - Sapiens International Corporation N.V. (NASDAQ and TASE:SPNS), a global provider of innovative insurance software solutions and a member of Formula Systems group, today announced that Philadelphia Insurance Companies has deployed the RapidSure Policy Administration solution as the first phase in replacing and improving their policy issuance processes and systems. Development of additional lines is already underway for the second phase of the project. RapidSure is the policy administration system built by Harcase which was recently acquired by Sapiens.

The RapidSure implementation project includes deployment of five lines of business spanning specialty and ISO and non-ISO for both commercial and personal lines of business, leveraging ACORD standards. Full integration to Philadelphia Insurance's current infrastructure including billing, claims, document management and accounting systems with their web portal was also delivered in this short timeframe.

“We conducted an exhaustive market search to find the best fit solution for our needs. We found RapidSure to be the most innovative and flexible solution available in the market that also adheres to industry standards – all of which were key criteria in our selection process,” said Alfred Goxhaj, CIO, Philadelphia Insurance Companies. “Sapiens delivered on its commitment to meet our aggressive schedule. In just six months, we are already in production with five new lines of business, and are well on our way with our plans to rapidly expand the use of the system across additional lines.

Goxhaj continued, “RapidSure provides us a robust product configuration engine for quick development and delivery of our products – across our commercial, personal and specialty lines, as well as a web portal delivery. This is a powerful combination of capabilities enabling us to be an agile organization, able to respond quickly and effectively to our agent channels, business partners, and continually changing business dynamics.”

Chad Hersh, a Principal at analyst firm Novarica, added “Philadelphia Insurance had an unusually aggressive deadline for a carrier of their size and a project of this breadth. That the system was implemented in just six months validates the importance of the flexibility and open standards that are hallmarks of truly modern solutions.”

Dan Sobotincic, EVP of Sapiens North America said, “We sincerely appreciate the confidence Philadelphia Insurance has shown in Sapiens and in our RapidSure suite for their core system needs. Both of our organizations allocated small, agile and dedicated delivery-oriented teams that worked side by side to meet the challenging goals and timeline. We look forward to a long partnership with Philadelphia Insurance with a common focus on delivering maximum value from RapidSure, enabling their continued business success and support their planned growth.”

About Philadelphia Insurance Companies
