PROSPECTUS

Offer to Exchange

\$257,927,000 aggregate principal amount at maturity of 9.5% Senior Discount Notes due 2014 of WMG Holdings Corp. which have been registered under the Securities Act of 1933 for any and all outstanding 9.5% Senior Discount Notes due 2014

The exchange notes will be fully and unconditionally guaranteed on an unsecured, senior basis by Warner Music Group Corp., the parent company of WMG Holdings Corp.

WMG Holdings Corp. is conducting the exchange offer in order to provide you with an opportunity to exchange your unregistered outstanding notes for freely tradeable exchange notes that have been registered under the Securities Act.

The Exchange Offer

WMG Holdings Corp. will exchange all outstanding notes that are validly tendered and not validly withdrawn for an equal principal amount of exchange notes that are freely tradeable.

You may withdraw tenders of outstanding notes at any time prior to the expiration date of the exchange offer.

The exchange offer expires at 12:00 a.m. midnight, New York City time, on August 29, 2005, unless extended.

The exchange of outstanding notes for exchange notes in the exchange offer will not be a taxable event for U.S. federal income tax purposes.

The terms of the exchange notes to be issued in the exchange offer are substantially identical to the outstanding notes, except that the exchange notes will be freely tradeable.

All untendered outstanding notes will continue to be subject to the restrictions on transfer set forth in the outstanding notes and in the indenture. In general, the outstanding notes may not be offered or sold, unless registered under the Securities Act, except pursuant to an exemption from, or in a transaction not subject to, the Securities Act and applicable state securities laws. Other than in connection with the exchange offer, WMG Holding Corp. does not currently anticipate that it will register the outstanding notes under the Securities Act.

You should carefully consider the Risk Factors beginning on page 18 of this prospectus before participating in the exchange offer.

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of the exchange notes to be distributed in the exchange offer or passed upon the accuracy or adequacy of this prospectus. Any representation to the contrary is a criminal offense.

The date of this prospectus is July 29, 2005

PROSPECTUS SUMMARY

This summary highlights information contained elsewhere in this prospectus. This summary may not contain all of the information that is important to you. We urge you to read this entire prospectus, including the Risk Factors section and the combined financial statements and related notes, before participating in the exchange offer.

We acquired the business of WMG from Time Warner effective March 1, 2004. In this prospectus, the term Holdings refers to WMG Holdings Corp., which does business under that name, and not its subsidiaries and the terms we, our, ours, us, the Company and WMG refer collectively to Warner Music Group Corp. (Parent), the parent of Holdings, and Holdings and its consolidated or combined subsidiaries, except where otherwise indicated. Each of Parent and Holdings is a holding company. Parent's only asset is the ownership of all outstanding shares of Holdings. Holdings' only asset is the ownership of all outstanding shares of WMG Acquisition Corp., which we refer to as Acquisition Corp. We conduct all of our business through Acquisition Corp. The use of these terms is not intended to imply that Parent, Holdings and Holdings' subsidiaries are not separate and distinct legal entities. Holdings and Parent, through its guarantee, are the sole obligors on the notes, and their subsidiaries do not have any obligation with respect to the notes. In 2004, we changed our fiscal year end from November 30 to September 30. Accordingly, the fiscal year ended September 30, 2004 is a ten-month period. In addition, as a result of our acquisition from Time Warner, and as described further in the Parent financial statements and the notes thereto included elsewhere in this prospectus, results discussed for the ten months ended September 30, 2004 represent the mathematical addition of our pre-acquisition three-month period ended February 29, 2004 and our post-acquisition seven-month period ended September 30, 2004. Results discussed for the six months ended March 31, 2004 are the mathematical addition of our pre-acquisition five month period ended February 29, 2004 and our post-acquisition one month period ended March 31, 2004. Calculations of market share are based on revenues, except as otherwise noted.

Our Company

We are one of the world's major music companies. Our company is composed of two businesses: Recorded Music and Music Publishing. We are a global company, generating over half of our revenues in more than 50 countries outside of the U.S. Acquisition Corp. acquired substantially all of Time Warner Inc.'s music division from Time Warner on March 1, 2004 for \$2.595 billion in cash and non-cash consideration. See The Transactions.

Our Recorded Music business produces revenue through the marketing, sale and licensing of recorded music in physical and digital formats. We believe we have one of the world's largest and most varied recorded music catalogs, including 27 of the top 100 U.S. best-selling albums of all time more than any other recorded music company. Our roster of over 38,000 artists spans all musical genres and includes Led Zeppelin, The Eagles, Madonna, Metallica and Fleetwood Mac. Our more recent successes include Linkin Park, Simple Plan, Jet, Michelle Branch, Sean Paul and Josh Groban. Our Recorded Music business generated 83% of our consolidated revenues during the twelve months ended March 31, 2005.

Our Music Publishing business owns and acquires rights to musical compositions, exploits and markets these compositions and receives royalties or fees for their use. We hold rights in over one million copyrights across a broad range of musical styles from over 65,000 songwriters and composers. Our library includes titles such as Summertime by George and Ira Gershwin and DuBose Heyward, Happy Birthday to You by Mildred and Patty Hill, Night and Day by Cole Porter, When a Man Loves a Woman by Calvin Lewis and Andrew Wright, and Star Wars Theme by John Williams, as well as more recent popular titles such as Smooth by Itaal Shur and Rob Thomas and Thank You by Dido Armstrong and Paul Herman. Our Music Publishing business generated 17% of our consolidated revenues during the twelve months ended March 31, 2005.

Table of Contents

Industry Overview

Recorded music and music publishing focus on different products and benefit from different sources of revenues. The following table summarizes the product, the artist that is responsible for creating the product and the means by which the product generates revenue:

	<u>Recorded Music</u>	<u>Music Publishing</u>
The Product	The recording	The song
The Artist	Recording artist	Songwriter or composer
How revenues are generated	When a recording (in physical or digital format) is sold or licensed	When a recording (in physical or digital format) of the song is sold or licensed
		When a song is performed publicly (e.g., radio, television, concert or nightclub)
		When a song is synchronized with visual images (e.g., movies and advertisements)
		When a song's printed sheet music is sold

The recorded music business is the business of discovering and developing recording artists and promoting, selling and licensing their works. In 2004, the recorded music industry generated \$32.1 billion in retail sales worldwide. The industry experienced robust growth in the 1990s but in recent years has seen a decline due primarily to the increase in digital piracy. In an effort to curb this decline, the industry launched an intensive campaign in 2003 to limit digital piracy. We believe these anti-piracy efforts are beginning to produce results as evidenced by increased consumer awareness, reduced illegal downloading activity and growth for the one-year period ended January 2, 2005 in U.S. music physical unit sales of approximately 1% relative to the comparable one-year period ended December 28, 2003, as reported by SoundScan. Moreover, the industry has been encouraged by the recent proliferation and early success of legitimate digital music distribution channels, as evidenced by the 141 million digital tracks sold in the U.S. through the one-year period ended January 2, 2005. See *Industry Overview Recorded Music*.

According to the most recent published estimates by Enders Analysis, the worldwide music publishing industry accounted for \$3.7 billion in revenues in 2003. See *Industry Overview Music Publishing*.

Competitive Strengths

While we have recorded net losses on a historical and pro forma basis, primarily due to the decline since 1999 of recorded music sales, increased operating costs, increased competition, and such items as currency fluctuations and impairment charges, we believe we benefit from the following competitive strengths:

Industry Leading Recording Artists and Songwriters. We have been able to consistently attract, develop and retain successful recording artists and songwriters. This has enabled us to accumulate over decades a large and varied portfolio of recorded music and music publishing assets that generate stable and recurring cash flows.

Stable, Highly Diversified Revenue Base. Our revenue base is derived primarily from relatively stable and recurring sources such as our music publishing library, our catalog of recorded music and new releases from our existing base of established artists. In any given year, we believe that less than 10% of our total revenues depend on artists without established track records, with each of these artists typically representing less than 1% of our revenues. We have built a large and diverse catalog of recordings and compositions that covers a wide breadth of musical styles and are a significant player in each of our major geographic regions.

Table of Contents

High Cash Flow Business Model. We generate relatively high levels of cash flow from operations as a result of our highly variable cost structure, our minimal capital requirements and our ability to adjust the timing and amount of much of our spending. Through our recent restructuring effort, we have substantially streamlined our cost structure. In addition, outsourcing arrangements entered into in October 2003 with Cinram International Inc. (Cinram) have significantly reduced our exposure to fixed costs and are expected to continue to reduce our future capital expenditure requirements.

Well Positioned For Growth in Digital Distribution and Emerging Technologies. For the one-year period ended January 2, 2005, our market share of digital recorded music track sales in the U.S. as measured by SoundScan was higher than our overall recorded music album market share in the U.S., which we believe reflects the relative strength of our content and in particular our catalog content. In addition, we are highly focused on several new media initiatives: supporting existing and new online services in the U.S. and abroad, working with legitimate P2P providers, influencing the evolution of new mobile phone services and formats and simplifying the clearance of all of our content for digital distribution.

Proven and Committed Management Team. We are led by an experienced senior management team with an average of approximately 20 years of entertainment industry expertise. Edgar Bronfman, Jr. is our Chairman of the Board and Chief Executive Officer. Mr. Bronfman, while President and CEO of The Seagram Company Ltd. (Seagram), oversaw the merger of Universal Music Group (Universal) and PolyGram N.V. (PolyGram), and successfully managed the combined business, the world's then largest recorded music company.

Strong Equity Sponsorship. Thomas H. Lee Partners, L.P. and its affiliates (THL), Bain Capital and its affiliates (Bain Capital), and Providence Equity Partners Inc. and its affiliates (Providence Equity) are each leading private equity firms with established track records of successful investments and extensive experience in managing investments in entertainment and media assets and Music Capital Partners, L.P. (Music Capital) and together with THL and Bain Capital and Providence Equity, the Investor Group) brings significant and directly relevant management experience in the music industry.

Business Strategy

We intend to increase revenues, operating income and cash flow through the following business strategies:

Attract, Develop and Retain Established and Emerging Recording Artists and Songwriters. A critical element of our strategy is to continue to find, develop and retain recording artists and songwriters who achieve long-term profitable success. We believe our relative size, the strength of our management team, our ability to respond to industry and consumer trends and challenges, our diverse array of genres, our large catalog of hit releases and our valuable music publishing library will help us continue to successfully build our roster of artists and songwriters.

Maximize the Value of Our Music Assets. Our Recorded Music business focuses on marketing our artists and catalog in new ways to retain existing fans of established artists and to generate new demand for our proven hits. Our Music Publishing business seeks to capitalize on the growing demand for the use of musical compositions in media products such as videogames, commercials, other musical works (such as authorized sampling), films, DVDs, mobile phone ring tones and Internet and wireless streaming and downloads by marketing and promoting our libraries to producers of these media in new and innovative ways.

Edgar Filing: Warner Music Group Corp. - Form S-4/A

Focus on Continued Management of Our Cost Structure. Immediately following the acquisition by Acquisition Corp. of substantially all of Time Warner's music division on March 1, 2004, we commenced a broad-based restructuring plan (the Restructuring Plan). We intend to continue to maintain a disciplined approach to cost management in our business, and to pursue additional cost savings. We have completed

Table of Contents

substantially all of the Restructuring Plan with annualized cost savings of approximately \$250 million of which approximately \$202 million has been reflected in our statement of operations through March 31, 2005. We project the one-time costs associated with the Restructuring Plan to be \$225 million to \$250 million, of which approximately \$165 million has been paid through March 31, 2005. This projection is substantially less than the \$310 million original estimate. We expect to pay a majority of the remaining costs in 2005 and 2006. There are still significant risks associated with the Restructuring Plan. See **Risk Factors** and **Business**.

Invest in Accordance with an Improved Asset Allocation Strategy. Our new management has undertaken a rigorous company-wide initiative in conjunction with outside consultants in order to enhance our financial performance through developing a more targeted approach to investments. Implementing the results of this study, we will primarily seek to invest in lines of business, geographic locations and individual projects where we believe we can optimize our return on capital.

Develop and Optimize Our Physical Distribution Channel Strategies. We will continue to develop innovative programs with our physical distribution channel partners in order to implement forward-looking strategies for our mutual benefit. We will invest to meet the needs of our partners to create more efficient collaboration, such as direct-to-retail distribution strategies and vendor managed inventory.

Capitalize on Digital Distribution and Emerging Technologies. We believe new technology formats should represent a fast-growing and high-margin channel for the distribution and exploitation of our music. In particular, new and emerging third-party digital distribution outlets are not only reasonably priced, but also offer a superior customer experience to illegal alternatives, as they are easy to use, offer uncorrupted song files and integrate seamlessly with increasingly popular portable music players such as the Apple iPod, the Dell Digital Jukebox and the iRiver iHP. In addition, as networks and phone handsets become more sophisticated, our music is increasingly becoming available through mobile and other wireless service providers as ring tones, ringback tones and audio and music video downloads.

Contain Digital Piracy. We, along with the rest of the music industry, are actively combating piracy through technological innovation, litigation, education and the promotion of legislation both in the U.S. and internationally.

Recent Developments

Return of Capital and Dividend on Preferred. In September 2004, we returned \$342 million of capital (the **Return of Capital**) to the Investor Group and paid a dividend of \$8 million on the preferred equity of Holdings held by the Investor Group (the **Dividend on Preferred**). The Return of Capital and Dividend on Preferred were funded out of our cash balance and not from the incurrence of additional debt. We obtained an amendment to Acquisition Corp.'s senior secured credit agreement to provide for the Return of Capital and Dividend on Preferred.

Debt Incurrence and Payment to Investor Group. On December 23, 2004, we incurred approximately \$700 million of new debt, consisting of \$250 million of Floating Rate Notes due 2011 (the **Holdings Floating Rate Notes**), \$200 million of Floating Rate Senior PIK Notes due 2014 (the **Holdings PIK Notes**) and \$250 million in gross proceeds of the 9.5% Senior Discount Notes due 2014 described herein (the **Holdings Discount Notes**) (with aggregate principal amount at maturity of \$396.8 million) (collectively, the **Original Holdings Notes**). The proceeds from the issuance of the Original Holdings Notes were used to fund a return of approximately \$681 million to Holdings' shareholders and the shareholders of Parent (the **Holdings Payment to Investor Group**) and along with the offering of the Original Holdings Notes, the **Holdings Refinancing**) through a combination of dividends on our preferred stock and repurchases of our common and preferred stock. Of the total of \$681 million, approximately \$209 million was used to redeem our remaining shares of cumulative preferred stock,

Table of Contents

including \$9 million of accrued dividends, and approximately \$472 million was used to pay a return of capital to Parent, of which all but \$50 million was distributed to its shareholders in December 2004. Parent distributed \$43 million of such \$50 million to the Investor Group on March 28, 2005 and distributed the remaining \$7 million to the Investor Group on May 9, 2005. We previously obtained an amendment to Acquisition Corp.'s senior secured credit agreement to provide for the Holdings' Payment to Investor Group, including the distribution of the remaining \$50 million to the Investor Group.

Parent IPO, Concurrent Transactions and Redemption of Portion of Original Holdings Notes. On May 13, 2005, Parent consummated the initial public offering of its common stock (the offering of common stock by Parent and the use of proceeds therefrom including the repayment of a portion of the Original Holding Notes as described below, collectively, the Initial Public Offering). In connection with such Initial Public Offering, Parent terminated its management agreement and paid a \$73 million termination fee to the Investor Group. Parent also purchased from an affiliate of Time Warner Inc. their Three-Year Warrants for an aggregate purchase price of approximately \$138 million. Parent also paid, or expects to pay, approximately \$33 million in special one-time bonuses consisting of (a) approximately \$20 million to holders of restricted stock and stock options to make employees whole for certain unfavorable tax consequences, (b) approximately \$3 million to holders of stock options representing an adjustment for outstanding options as a result of a special cash dividend on Parent's capital stock and (c) approximately \$10 million to substantially all of our employees who will have no equity participation in Parent.

Prior to the Initial Public Offering, Parent converted all of its outstanding Class L Common Stock into shares of Class A Common Stock on a one-for-one basis, renamed all of its outstanding Class A common stock common stock and enacted a 1,139 for 1 split of its common stock. Together, these transactions are referred to in this prospectus as the Recapitalization.

In addition, concurrent with the Initial Public Offering, an amendment to Acquisition Corp.'s senior secured credit facility was obtained to, among other things, increase the size of the term loan available. Concurrent with the Initial Public Offering, we used a portion of our cash on hand, plus the proceeds from \$250 million of new term loan borrowings under Acquisition Corp.'s new amendment to its senior secured credit facility to pay a dividend of \$320 million to Parent, which was used to repay \$8.5 million of remaining promissory notes, to pay the \$73 million termination fee, to pay \$100.5 million in cash dividends to shareholders of Parent (including approximately \$7 million relating to the holders of unvested shares of restricted stock, which will be paid at a later date), to pay approximately \$33 million in special one-time bonuses and to pay approximately \$138 million for the repurchase of the Three-Year Warrants. We refer to the \$250 million of new term loan borrowings, the termination of the management agreement, the purchase of the Three-Year Warrants, the payment of the special one-time bonuses and dividends of approximately \$109 million declared prior to Parent's Initial Public Offering, collectively, as the Concurrent Transactions.

On May 16, 2005 Holdings received a capital contribution from Parent of \$517 million. Holdings used the proceeds from such capital contribution to redeem all of the Holdings Floating Rate Notes and Holdings PIK Notes, and 35% of the aggregate principal amount at maturity of the Holdings Discount Notes on June 15, 2005. In addition Parent recently entered into a guarantee whereby it agreed to guarantee the payments of Holdings on the remaining outstanding notes of Holdings. The outstanding notes and guarantee by Parent are being registered hereby.

New Chief Financial Officer. In December 2004, we announced that Michael D. Fleisher had been named as our permanent Chief Financial Officer. He replaced Michael Ward who was our acting Chief Financial Officer while we conducted a search to fill the position on a permanent basis. See Management.

New Head of Warner/Chappell Music. On February 17, 2005, Acquisition Corp. announced that Les Bider, Chairman and CEO of its music-publishing arm, Warner/Chappell Music, Inc., had decided to step down following the appointment of a successor and a transition period. Mr. Bider had been CEO of Warner/Chappell Music since

Table of Contents

1987. On May 28, 2005, Richard Blackstone began to serve as Chairman and CEO of Warner/Chappell Music, Inc. as Mr. Bider's successor. Mr. Blackstone had previously been President and Chief Executive Officer of Zomba Music Publishing. Mr. Blackstone has 15 years of experience in the music publishing industry. See Management.

New Joint Venture. On April 8, 2005, we entered into an agreement with an affiliate of Sean P. Diddy Combs to form Bad Boy Records LLC, a joint venture in recorded music owned 50% by us and 50% by the affiliate. We purchased our 50% membership interest in Bad Boy Records LLC for approximately \$30 million in cash. The joint venture includes catalog and roster artists such as Notorious B.I.G., Mario Winans, M.A.S.E., Carl Thomas, B5 and P. Diddy. Mr. Combs will be the CEO of the joint venture and will supervise its staff and day-to-day operations. We will provide funding, marketing, promotion and certain back-office services for the joint venture.

Parent was incorporated under Delaware law on November 21, 2003. Holdings was incorporated under Delaware law on November 20, 2003. Our principal executive offices are located at 75 Rockefeller Plaza, New York, NY 10019. Our telephone number is (212) 275-2000.

Table of Contents

Summary of the Terms of Exchange Offer

On December 23, 2004, Holdings completed a private offering of the Original Holdings Notes, of which approximately \$258 million aggregate principal amount at maturity of 9.5% Senior Discount Notes due 2014 remain outstanding. References to the notes in this prospectus are references to both such outstanding notes and the exchange notes offered hereby.

General

In connection with the private offering, Holdings entered into a registration rights agreement with Banc of America Securities LLC, Deutsche Bank Securities Inc. and Goldman, Sachs & Co. (collectively, the initial purchasers) the initial purchasers of the outstanding notes in which Holdings agreed, among other things, to deliver this prospectus to you and to use its reasonable best efforts complete the exchange offer for the outstanding notes within 270 days after the date of issuance of the outstanding notes.

You are entitled to exchange in the exchange offer your outstanding notes for exchange notes, which are identical in all material respects to the outstanding notes except:

the exchange notes have been registered under the Securities Act of 1933, as amended, which we refer to as the Securities Act ;

the exchange notes are not entitled to certain registration rights which are applicable to the outstanding notes under the registration rights agreement; and

certain additional interest rate provisions are no longer applicable.

The Exchange Offer

Holdings is offering to exchange up to:

\$257,927,000 aggregate principal amount at maturity of its 9.5% Senior Discount Notes due 2014, which have been registered under the Securities Act, for a like aggregate principal amount at maturity of the outstanding 9.5% Senior Discount Notes due 2014.

You may only exchange outstanding notes in denominations of \$1,000 and integral multiples of \$1,000.

Subject to the satisfaction or waiver of specified conditions, Holdings will exchange the exchange notes for all outstanding notes that are validly tendered and not validly withdrawn prior to the expiration of the exchange offer. Holdings will cause the exchange to be effected promptly after the expiration of the exchange offer.

Upon completion of the exchange offer, there may be no market for the outstanding notes and you may have difficulty selling them.

Edgar Filing: Warner Music Group Corp. - Form S-4/A

Resales

Based on interpretations by the staff of the Securities and Exchange Commission, or the SEC, set forth in no-action letters issued to third parties referred to below, Holdings believes that you may resell or otherwise transfer exchange notes issued in the exchange offer

7

Table of Contents

without complying with the registration and prospectus delivery requirements of the Securities Act, if:

- (1) you are acquiring the exchange notes in the ordinary course of your business.
- (2) you do not have an arrangement or understanding with any person to participate in a distribution of the exchange notes;
- (3) you are not an affiliate of Holdings within the meaning of Rule 405 under the Securities Act; and
- (4) you are not engaged in, and do not intend to engage in, a distribution of the exchange notes.

If you are not acquiring the exchange notes in the ordinary course of your business, or if you are engaging in, intend to engage in, or have any arrangement or understanding with any person to participate in, a distribution of the exchange notes, or if you are an affiliate of Holdings, then:

- (1) you cannot rely on the position of the staff of the SEC enunciated in Morgan Stanley & Co., Inc. (available June 5, 1991), *Exxon Capital Holdings Corporation* (available May 13, 1988), as interpreted in the SEC's letter to *Shearman & Sterling* dated July 2, 1993, or similar no-action letters; and
- (2) in the absence of an exception from the position of the SEC stated in (1) above, you must comply with the registration and prospectus delivery requirements of the Securities Act in connection with any resale or other transfer of the exchange notes.

If you are a broker-dealer and receive exchange notes for your own account in exchange for outstanding notes that you acquired as a result of market-making or other trading activities, you must acknowledge that you will deliver a prospectus, as required by law, in connection with any resale or other transfer of the exchange notes that you receive in the exchange offer. See Plan of Distribution.

Expiration Dates

The exchange offer will expire at 12:00 a.m. midnight, New York City time, on August 29, 2005, unless extended by Holdings. Holdings does not currently intend to extend the expiration date of the exchange offer.

Withdrawal

You may withdraw the tender of your outstanding notes at any time prior to the expiration date of the exchange offer. Holdings will return to you any of your outstanding notes that are not accepted for any reason for exchange, without expense to you, promptly after the expiration or termination of the exchange offer.

Conditions to the Exchange Offer

The exchange offer is subject to customary conditions, which Holdings may assert or waive. See The Exchange Offer Conditions to the Exchange Offer.

Table of Contents

Procedures for Tendering Outstanding Notes If you wish to participate in the exchange offer, you must complete, sign and date the accompanying letter of transmittal, or a facsimile of the letter of transmittal, according to the instructions contained in this prospectus and the letter of transmittal. You must then mail or otherwise deliver the letter of transmittal, or a facsimile of the letter of transmittal, together with the outstanding notes and any other required documents, to the exchange agent at the address set forth on the cover page of the letter of transmittal. If you hold outstanding notes through The Depository Trust Company, or DTC, and wish to participate in the exchange offer, you must comply with the Automated Tender Offer Program procedures of DTC, by which you will agree to be bound by the letter of transmittal. By signing, or agreeing to be bound by, the letter of transmittal, you will represent to us that, among other things:

- (1) you are acquiring the exchange notes in the ordinary course of your business;
- (2) you do not have an arrangement or understanding with any person to participate in a distribution of the exchange notes;
- (3) you are not an affiliate of Holdings within the meaning of Rule 405 under the Securities Act; and
- (4) you are not engaged in, and do not intend to engage in, a distribution of the exchange notes.

If you are a broker-dealer and receive exchange notes for your own account in exchange for outstanding notes that you acquired as a result of market-making or other trading activities, you must represent to us that you will deliver a prospectus, as required by law, in connection with any resale or other transfer of such exchange notes.

If you are not acquiring the exchange notes in the ordinary course of your business, or if you are engaged in, or intend to engage in, or have an arrangement or understanding with any person to participate in, a distribution of the exchange notes, or if you are an affiliate of Holdings, then you cannot rely on the applicable positions and interpretations of the staff of the SEC and you must comply with the registration and prospectus delivery requirements of the Securities Act in connection with any resale or other transfer of the exchange notes.

Special Procedures for Beneficial Owners If you are a beneficial owner of outstanding notes that are held in the name of a broker, dealer, commercial bank, trust company or other nominee, and you wish to tender those outstanding notes in the exchange offer, you should contact such person promptly and instruct such person to tender those outstanding notes on your behalf.

Guaranteed Delivery Procedures If you wish to tender your outstanding notes and your outstanding notes are not immediately available or you cannot deliver your

Table of Contents

outstanding notes, the letter of transmittal and any other documents required by the letter of transmittal or you cannot comply with the DTC procedures for book-entry transfer prior to the expiration date, then you must tender your outstanding notes according to the guaranteed delivery procedures set forth in this prospectus under The Exchange Offer Guaranteed Delivery Procedures.

Effect on Holders of Outstanding Notes

In connection with the sale of the outstanding notes, Holdings entered into a registration rights agreement with the initial purchasers of the outstanding notes that grants the holders of outstanding notes registration rights. By making the exchange offer, Holdings will have fulfilled most of its obligations under the registration rights agreement. Accordingly, Holdings will not be obligated to pay additional interest as described in the registration rights agreement. If you do not tender your outstanding notes in the exchange offer, you will continue to be entitled to all the rights and limitations applicable to the outstanding notes as set forth in the indenture, except Holdings will not have any further obligation to you to provide for the registration of the outstanding notes under the registration rights agreement and Holdings will not be obligated to pay additional interest as described in the registration rights agreement, except in certain limited circumstances. See Exchange Offer; Registration Rights.

To the extent that outstanding notes are tendered and accepted in the exchange offer, the trading market for outstanding notes could be adversely affected.

Consequences of Failure to Exchange

All untendered outstanding notes will continue to be subject to the restrictions on transfer set forth in the outstanding notes and in the indenture. In general, the outstanding notes may not be offered or sold, unless registered under the Securities Act, except pursuant to an exemption from, or in a transaction not subject to, the Securities Act and applicable state securities laws. Holdings does not currently anticipate that it will register the outstanding notes under the Securities Act.

Material Income Tax Considerations

The exchange of outstanding notes for exchange notes in the exchange offer will not be a taxable event for United States federal income tax purposes. See Material U.S. Federal Income Tax Consequences.

Use of Proceeds

Holdings will not receive any cash proceeds from the issuance of exchange notes in the exchange offer.

Exchange Agent

Wells Fargo Bank, National Association whose address and telephone number is set forth in the section captioned The Exchange Offer Exchange Agent of this prospectus, is the exchange agent for the exchange offer for the outstanding notes.

Table of Contents

Summary of the Terms of the Exchange Notes

In this prospectus, the term "outstanding notes" refers to the outstanding \$257,927,000 aggregate principal amount at maturity of 9.5% Senior Discount Notes due 2014 issued in the private offering; the term "exchange notes" refers to the aggregate principal amount at maturity of Holdings' 9.5% Senior Discount Notes due 2014 as registered under the Securities Act of 1933, as amended (the "Securities Act"); and the term "notes" refers to both the outstanding notes and the exchange notes. The terms of the exchange notes will be identical in all material respects to the terms of the outstanding notes, except that the exchange notes will not contain terms with respect to transfer restrictions or additional interest upon a failure to fulfill certain of Holdings' obligations under the registration rights agreement. The exchange notes will evidence the same debt as the outstanding notes. The exchange notes will be governed by the same indenture under which the outstanding notes were issued, and the exchange notes and the outstanding notes will constitute a single class and series of notes for all purposes under the indenture. The following summary is not intended to be a complete description of the terms of the notes. For a more detailed description of the notes, see "Description of Notes."

Issuer	WMG Holdings Corp.
Notes Offered	\$257,927,000 aggregate principal amount at maturity of 9.5% Senior Discount Notes due 2014. As of March 31, 2005, the accreted value of the notes was \$167 million.
Maturity	December 15, 2014.
Original Issue Discount on the Discount Notes	The outstanding notes were offered with original issue discount for U.S. federal income tax purposes. Thus, although cash interest will not be payable on the notes prior to June 15, 2010, interest will accrue from the issue date of the notes based on the yield to maturity of the notes and will generally be included as interest income (including for periods ending prior to December 15, 2009) for U.S. federal income tax purposes in advance of receipt of the cash payments to which the income is attributable.
Ranking	<p>The outstanding notes are, and the exchange notes will be, senior unsecured obligations of Holdings and will:</p> <p style="padding-left: 40px;">rank equally in right of payment to all of Holdings' unsecured senior indebtedness;</p> <p style="padding-left: 40px;">rank senior in right of payment to any of Holdings' future senior subordinated unsecured indebtedness and future subordinated unsecured indebtedness; and</p> <p style="padding-left: 40px;">be effectively subordinated in right of payment to all of Holdings' existing and future secured debt (including Holdings' guarantee of \$1,188 million of borrowings under Acquisition Corp.'s senior credit facilities as of March 31, 2005 and the additional \$250 million of borrowings as of May 13, 2005 under Acquisition Corp.'s amended senior secured credit facility as described under "Management's Discussion and Analysis of Financial Condition and Results of Operations - Liquidity"), to the extent of the value</p>

Table of Contents

of the assets securing such debt, and will be structurally subordinated to all obligations of each of Holdings' existing and future subsidiaries (including Acquisition Corp.'s \$465 million of 7³/₈% senior subordinated notes due 2014, £100 million of 8¹/₈% senior subordinated notes due 2014, \$1,188 million of borrowings under its senior credit facilities as of March 31, 2005 and the additional \$250 million of borrowings as of May 13, 2005 under Acquisition Corp.'s amended senior secured credit facility as described under Management's Discussion and Analysis of Financial Condition and Results of Operations - Liquidity).

As of March 31, 2005:

Holdings had approximately \$1,188 million of senior indebtedness (other than the notes), all of which represented the secured guarantee by Holdings of borrowings by Acquisition Corp. under its senior credit facility. This amount does not include the guarantee by Holdings of the remaining \$250 million of additional borrowings available under Acquisition Corp.'s revolving credit facility or the additional \$250 million of new term loan borrowings under Acquisition Corp.'s senior secured credit facility, which was amended in May 2005 as part of the Concurrent Transactions. The guarantee by Holdings of borrowings under the credit facility is secured by a pledge of all the stock it owns in Acquisition Corp. and thus is effectively senior to the notes to the extent of the assets securing such guarantee;

Holdings would not have had any senior subordinated indebtedness; and

Holdings would not have had any subordinated indebtedness.

As of March 31, 2005, Holdings' subsidiary, Acquisition Corp., had \$1,188 million of debt outstanding under its credit agreement and an additional \$250 million available under its revolving credit facility, plus \$465 million of 7³/₈% senior subordinated notes due 2014 and £100 million of 8¹/₈% senior subordinated notes due 2014, all of which would be structurally senior to the notes. In addition, on May 13, 2005, we borrowed an additional \$250 million under the amended Acquisition Corp. senior secured credit facility as described under Management's Discussion and Analysis of Financial Condition and Results of Operations - Liquidity.

Guarantee

Parent has unconditionally guaranteed the outstanding notes, and will unconditionally guarantee the exchange notes, on an unsecured, senior basis.

Optional Redemption

Prior to December 15, 2009, Holdings may redeem some or all of the notes at a price equal to 100% of the accreted value of the notes plus a make whole premium as set forth under Description of Notes - Optional Redemption.

Table of Contents

Additionally, Holdings may redeem the notes, in whole or in part, at any time on or after December 15, 2009 at the redemption prices set forth under Description of Notes Optional Redemption.

Optional Redemption After Certain Equity Offerings

At any time (which may be more than once) before December 15, 2007, Holdings may choose to redeem up to 35% of the notes with proceeds that it or one of its parent companies raises in one or more equity offerings, as long as:

Holdings pays 109.5% of the accreted value of the notes, plus accrued and unpaid interest;

Holdings redeems the notes within 90 days of completing the equity offering; and

at least 65% of the aggregate principal amount at maturity of the notes issued remains outstanding afterwards.

Unless Holdings issues additional notes, Holdings will not be able to redeem any of the notes pursuant to this provision.

See Description of Notes Optional Redemption.

Change of Control Offer

Upon the occurrence of a change in control, you will have the right, as holders of the notes, to require Holdings to repurchase some or all of your notes at 101% (100% in certain circumstances) of their accreted value plus accrued interest. See Description of Notes Change of Control.

Holdings may not be able to pay you the required price for notes you present to it at the time of a change of control, because:

Holdings may not have enough funds at that time; or

terms of its debt may prevent it from paying.

Asset Sale Proceeds

If Holdings or its restricted subsidiaries engage in asset sales, Holdings generally must either invest the net cash proceeds from such sales in its business within a period of time, prepay subsidiary debt or bank debt or make an offer to purchase a principal amount of the notes equal to the excess net cash proceeds. The purchase price of the notes will be 100% of their accreted value plus accrued and unpaid interest.

Certain Indenture Provisions

The indenture governing the notes contains covenants limiting Holdings ability and the ability of most or all of its subsidiaries to:

Edgar Filing: Warner Music Group Corp. - Form S-4/A

incur additional debt or issue certain preferred shares;

pay dividends on or make distributions in respect of their capital stock or make other restricted payments;

make certain investments;

sell certain assets;

create liens on certain debt without securing the notes;

Table of Contents

consolidate, merge, sell or otherwise dispose of all or substantially all of their assets;

enter into certain transactions with their affiliates; and

designate their subsidiaries as unrestricted subsidiaries.

These covenants are subject to a number of important limitations and exceptions. See Description of Notes.

Absence of Public Market

The exchange notes will generally be freely transferable (subject to certain restrictions discussed in Exchange Offer; Registration Rights) but will be a new issue of securities for which there will not initially be a market. Accordingly, there can be no assurance as to the development or liquidity of any market for the exchange notes. The initial purchasers in the private offering of the outstanding notes have advised us that they currently intend to make a market for the exchange notes, as permitted by applicable laws and regulations. However, they are not obligated to do so and may discontinue any such market making activities at any time without notice. We do not intend to apply for a listing of the exchange notes on any securities exchange or automated dealer quotation system.

Listing

As noted above, Holdings does not intend to apply for a listing of the exchange notes on any securities exchange or automated dealer quotation system. The exchange notes are expected to trade in the over-the-counter market.

Use of Proceeds

Holdings will not receive any cash proceeds from the exchange offer. For a description of the use of proceeds from the private offering of the outstanding notes, see Use of Proceeds .

Risk Factors

See Risk Factors for a description of some of the risks you should consider before deciding to participate in the exchange offer.

Table of Contents**SUMMARY HISTORICAL AND PRO FORMA FINANCIAL AND OTHER DATA**

Holdings, the issuer of the outstanding notes, is a holding company that conducts substantially all of its business operations through its only asset and wholly owned subsidiary, Acquisition Corp. Holdings is a wholly owned subsidiary of Parent. Parent has fully and unconditionally guaranteed the outstanding notes and will fully and unconditionally guarantee the exchange notes. Accordingly, we have presented the financial information of Parent. See Supplementary Information Condensed Consolidating Financial Statements to Parent's audited historical financial statements and unaudited interim financial statements, included elsewhere in this prospectus, for Holdings financial information on a stand-alone basis.

The following table sets forth Parent's summary historical and pro forma financial and other data as of the dates and for the periods indicated. Parent's summary balance sheet data as of September 30, 2004 and November 30, 2003 and the statement of operations and other data for each of (i) the seven months ended September 30, 2004, (ii) the three months ended February 29, 2004 and, (iii) the years ended November 30, 2003 and 2002 have been derived from Parent's audited financial statements included elsewhere in this prospectus. Parent's summary balance sheet data as of March 31, 2005 and the statement of operations and other data for each of the (i) ten months ended September 30, 2003, (ii) the five months ended February 29, 2004, (iii) the one month ended March 31, 2004 and the six months ended March 31, 2005 have been derived from Parent's unaudited financial statements included elsewhere in this prospectus. Parent's balance sheet data as of November 30, 2002 is derived from Parent's audited financial statements that are not included in this prospectus. Parent's summary historical balance sheet data as of September 30, 2003 and Parent's summary historical financial data as of and for each of the two years ended November 30, 2001 and 2000 have been derived from Parent's unaudited financial statements that are not included in this prospectus.

The comparability of Parent's summary historical financial data has been affected by a number of significant events and transactions. These include the Acquisition (as defined below) in 2004, a related change in Parent's fiscal year to September 30 from November 30, which was enacted in 2004, and the acquisition of Time Warner by AOL in 2001 (the AOL Time Warner Merger). Due to the change in Parent's year-end, financial information for 2004 is a transition period and reflects a shortened ten-month period ended September 30, 2004. This period is also separated into pre-acquisition and post-acquisition periods as a result of the change in accounting basis that occurred relating to the Acquisition. For all periods prior to the Acquisition, the music and publishing businesses formerly owned by Time Warner are referred to as Old WMG or the Predecessor. For all periods subsequent to the Acquisition, the business is referred to as the Company or the Successor. In addition, summary historical financial data for 2000 does not reflect the pushdown of a portion of the purchase price relating to the AOL Time Warner Merger that occurred in 2001 to Parent's financial statements.

Parent's summary unaudited pro forma financial data for the twelve months ended September 30, 2004 give effect, in the manner described under Pro Forma Consolidated Condensed Financial Statements and the notes thereto, to (i) the acquisition of the business by Acquisition Corp. effective as of March 1, 2004 (the Acquisition) and the borrowings under the senior secured credit facility and bridge loan and an initial capital investment by the Investor Group (the Original Financing), (ii) the use of the proceeds from the issuance of Acquisition Corp.'s \$465 million 7³/₈% senior subordinated notes due 2014 (the dollar notes) and £100 million/8% senior subordinated notes due 2014 (the sterling notes), and collectively with the dollar notes the Acquisition Corp. Notes), additional borrowings under the senior secured credit facility and cash on hand to repay or return certain amounts incurred in connection with the Original Financing (the Refinancing), (iii) our CD and DVD manufacturing, packaging and physical distribution agreements (the Cinram Agreements) with Cinram, (iv) the Holdings Refinancing, (v) the Recapitalization and the Initial Public Offering and (vi) the Concurrent Transactions as if they all occurred as of October 1, 2003. The summary pro forma financial data are presented for informational purposes only and are not necessarily indicative of Parent's financial position or results of operations that would have occurred had the transactions been consummated as of the dates indicated. In addition, the summary pro forma combined financial data are not necessarily indicative of Parent's future financial condition or operating results.

Table of Contents

The following Parent unaudited pro forma consolidated condensed statement of operations for the six months ended March 31, 2005 gives effect to (i) the Holdings Refinancing, (ii) the Initial Public Offering and (iii) the Concurrent Transactions, as of October 1, 2003. All financial effects resulting from the Acquisition and the Original Financing, the Cinram Agreements and the Refinancing are already reflected in Parent's historical statement of operations for the six months ended March 31, 2005, and accordingly, no pro forma adjustments to the statement of operations for such period are necessary.

You should read the information contained in this table in conjunction with Pro Forma Consolidated Condensed Financial Statements, Selected Historical Consolidated Financial and Other Data, Capitalization, Management's Discussion and Analysis of Financial Condition and Results of Operations, The Transactions and Parent's historical financial statements and the accompanying notes thereto included elsewhere in this prospectus.

- (1) Audited, except for other Financial Data.
(2) See Pro Forma Consolidated Condensed Financial Statements.
(3) We evaluate segment and consolidated performance based on several factors, of which the primary measure is operating income (loss) before non-cash depreciation of tangible assets, non-cash amortization of intangible assets and non-cash impairment charges to reduce the carrying value of goodwill and intangible assets (which we refer to as OIBDA). See Use of OIBDA under Management's Discussion and Analysis of Financial Condition and Results of Operations elsewhere herein. Note that OIBDA is different from Adjusted EBITDA as defined in Management's Discussion and Analysis of Financial Condition and Results of Operations Financial Condition and Liquidity Covenant Compliance, which is presented on a consolidated and combined basis therein as a covenant compliance measure. The following is a reconciliation of operating income, which is a GAAP measure of our operating results, to OIBDA.

Table of Contents

(4) For purposes of calculating the earnings to fixed charges, earnings represent income (loss) before income taxes plus fixed charges. Fixed charges consist of interest expense and one-third of rental expense under operating leases (the portion that has been deemed by management to be representative of the interest factor). In periods where earnings were insufficient to cover fixed charges, the deficiency of earnings over fixed charges has been disclosed. Pretax earnings for 2002 and 2003 have been reduced by a \$1.5 billion and \$1.0 billion, respectively, non-cash charge to reduce the carrying value of our goodwill and other intangible assets. Accordingly, because this charge was non-cash, it is not indicative of our ability to cover our fixed charges with pretax earnings. Excluding the non-cash impairment charge for 2002 and 2003 on a historical basis, and the twelve months ended September 30, 2004 on a pro forma basis, would result in a deficiency of earnings over fixed charges of \$70 million in 2002, \$298 million in 2003 and \$207 for the twelve months ended September 30, 2004. In addition, deficiency of earnings over fixed charges in each period includes significant non-cash amortization expenses on intangible assets of \$93 million, \$178 million, \$93 million, \$104 million, \$15 million, \$97 million, \$56 million, \$201 million, \$242 million, \$182 million, \$821 million and \$240 million in each of the pro forma six months ended March 31, 2005, pro forma twelve months ended September 30, 2004, the six months ended March 31, 2005, the seven months ended September 30, 2004, the one month ended March 31, 2004, the five months ended February 29, 2005, the three months ended February 29, 2004, the ten months ended September 30, 2003 and fiscal 2003, 2002, 2001 and 2000, respectively.

Table of Contents

RISK FACTORS

You should carefully consider the risk factors set forth below as well as the other information contained in this prospectus before participating in the exchange offer. Any of the following risks could materially and adversely affect our business, financial condition or results of operations. In such a case, you may lose all or part of your original investment.

Risks Related to the Exchange Offer

If you choose not to exchange your outstanding notes in the exchange offer, the transfer restrictions currently applicable to your outstanding notes will remain in force and the market price of your outstanding notes could decline.

If you do not exchange your outstanding notes for exchange notes in the exchange offer, then you will continue to be subject to the transfer restrictions on the outstanding notes as set forth in the offering memorandum distributed in connection with the private offering of the outstanding notes. In general, the outstanding notes may not be offered or sold unless they are registered or exempt from registration under the Securities Act and applicable state securities laws. Except as required by the registration rights agreement, Holdings does not intend to register resales of the outstanding notes under the Securities Act. You should refer to Prospectus Summary Summary of the Terms of the Exchange Offer and The Exchange Offer for information about how to tender your outstanding notes.

The tender of outstanding notes under the exchange offer will reduce the principal amount of the outstanding notes outstanding, which may have an adverse effect upon and increase the volatility of, the market price of the outstanding notes due to reduction in liquidity.

Risks Related to the Business

Increased costs associated with corporate governance compliance may significantly affect our results of operations.

The Sarbanes-Oxley Act of 2002 and our being subject to the Securities Exchange Act of 1934, as amended, will require changes in some of our corporate governance and securities disclosure and compliance practices, and will require a review of our internal control procedures. For example, we will be required to implement disclosure controls, which currently need to be improved. We expect these developments to increase our legal compliance and financial reporting costs. In addition, they could make it more difficult for us to attract and retain qualified members of our board of directors, or qualified executive officers. Finally, director and officer liability insurance for public companies like us has become more difficult and more expensive to obtain, and we may be required to accept reduced coverage or incur higher costs to obtain coverage that is satisfactory to us and our officers or directors. We are presently evaluating and monitoring regulatory developments and cannot estimate the timing or magnitude or additional costs we may incur as a result.

Our internal controls over financial reporting may not be adequate and our independent auditors may not be able to certify as to their adequacy, which could have a significant and adverse effect on our business and reputation.

We are evaluating our internal controls over financial reporting in order to allow management to report on, and our independent auditors to attest to, our internal controls over financial reporting, as required by Section 404 of the Sarbanes-Oxley Act of 2002 and rules and regulations of the SEC thereunder, which we refer to as Section 404. Section 404 requires a reporting company such as ours to, among other things, annually review and disclose its internal controls over financial reporting, and evaluate and disclose changes in its internal controls over financial reporting quarterly. We will be required to comply with Section 404 as of September 30, 2006. We

Table of Contents

are currently performing the system and process evaluation and testing required (and any necessary remediation) in an effort to comply with management certification and auditor attestation requirements of Section 404. In the course of our ongoing evaluation, we have identified areas of our internal controls requiring improvement, and plan to design enhanced processes and controls to address these and any other issues that might be identified through this review. As a result, we expect to incur additional expenses and diversion of management's time. We cannot be certain as to the timing of completion of our evaluation, testing and remediation actions or the impact of the same on our operations and may not be able to ensure that the process is effective or that the internal controls are or will be effective in a timely manner. If we are not able to implement the requirements of Section 404 in a timely manner or with adequate compliance, our independent auditors may not be able to certify as to the effectiveness of our internal control over financial reporting and we may be subject to sanctions or investigation by regulatory authorities, such as the Securities and Exchange Commission. As a result, there could be an adverse reaction in the financial markets due to a loss of confidence in the reliability of our financial statements. In addition, we may be required to incur costs in improving our internal control system and the hiring of additional personnel. Any such action could adversely affect our results.

Our outside auditors have identified weaknesses in our internal controls that could affect our ability to ensure timely and reliable financial reports.

In addition to our evaluation of internal controls under Section 404 of the Sarbanes-Oxley Act and any areas requiring improvement that we identify as part of that process, in connection with the most recent audit of Acquisition Corp., and subsequently Parent, our outside auditors identified a number of significant deficiencies that together constitute material weaknesses in our internal controls. A material weakness, as defined by the Public Company Accounting Oversight Board, is a significant deficiency that by itself, or in combination with other significant deficiencies, results in more than a remote likelihood that a material misstatement of the annual or interim financial statements will not be prevented or detected.

During the transition from a subsidiary of a multinational company to a stand alone entity, our outside auditors advised the audit committee of our board of directors and our management that numerous entity level controls were limited or not in place, including the need for a permanent chief financial officer (who we have since hired) and additional skilled accounting and SEC experienced personnel to enhance the accounting department both domestically and internationally, the need to develop a tax group, the need to establish our own internal audit department, the need to considerably enhance our documentation of our systems and controls, and the need to develop and implement a formal code of conduct. In addition, our outside auditors noted that our domestic operations currently use different royalty systems, which has created certain complexities in reconciling royalty expense and payables. While we recognize that additional staff is needed to cope with current requirements in royalty processing until a new system can be developed, we may not be able to hire and train additional staff. Finally, our auditors noted that our overall controls at our print business are significantly deficient. In December 2004, we entered into a definitive agreement to sell our print business to Alfred Publishing and the sale was consummated on May 31, 2005.

We have already taken a number of actions to begin to address the items identified including:

recently hiring a permanent chief financial officer;

establishing an audit committee and appointing an independent director who is a financial expert as the chair of the committee;

outsourcing our internal audit functions and hiring a director of internal audit;

hiring external resources to lead our Section 404 evaluation efforts;

Edgar Filing: Warner Music Group Corp. - Form S-4/A

adopting a new code of conduct and hiring outside consultants to assist in the implementation of the new code of conduct;

hiring additional outside resources to assist our internal personnel with royalties accounting and SEC reporting;

Table of Contents

hiring other accounting and SEC experienced personnel to enhance the accounting department;

hiring a director of taxation and other tax department members; and

entering into a joint venture with Universal Music Group, Exigen Group and Lightspeed Venture Partners to build a new uniform royalty system for all U.S. operations.

While we have begun to take actions to address the items identified, additional measures will be necessary and these measures along with other measures we expect to take to improve our internal controls may not be sufficient to address the issues identified by our outside auditors or ensure that our internal controls are effective. If we are unable to provide reliable and timely financial reports our business and prospects could suffer material adverse effects and our share price could be adversely affected.

The recorded music industry has been declining and may continue to decline, which may adversely affect our prospects and our results of operations.

Illegal downloading of music from the Internet, CD-R piracy, industrial piracy, economic recession, bankruptcies of record wholesalers and retailers and growing competition for consumer discretionary spending and retail shelf space may all be contributing to a declining recorded music industry. Additionally, the period of growth in recorded music sales driven by the introduction and penetration of the CD format has ended. While DVD-Audio, DualDisc and downloadable digital files are thought to represent potential new avenues for growth, no significant new legitimate audio format has yet emerged to take the place of the CD. The value of worldwide sales fell as the music industry witnessed a decline of 4.9% from 1999 to 2000, 5.7% from 2000 to 2001, 6.7% from 2001 to 2002, 7.6% from 2002 to 2003. Although we believe that the recorded music industry should improve as evidenced by the year-over-year growth in U.S. music physical unit sales in 2004 and the performance in overall (physical and digital) music unit sales globally in 2004, the industry may relapse into a period of decline as witnessed from 1999 to 2003. We cannot assure you as to the timing or the extent of any improvement in the industry or that the evidence of improvement in 2004 based upon U.S. sales through the one-year period ending January 2, 2005 and global sales in the first half of 2004 will continue. For example, as of July 3, 2005, year-to-date U.S. recorded music sales (excluding sales of digital tracks) are down approximately 7.1% year-over-year. A declining recorded music industry is likely to lead to reduced levels of revenue and operating income generated by our Recorded Music business. Additionally, a declining recorded music industry is also likely to have a negative impact on our Music Publishing business, which generates a significant portion of its revenues from mechanical royalties, primarily from the sale of music in CD and other recorded music formats.

There may be downward pressure on our pricing and our profit margins.

There are a variety of factors which could cause us to reduce our prices and erode our profit margins. They are, among others, increased price competition among record companies resulting from the Universal and Sony BMG recorded music duopoly, price competition from the sale of motion pictures in DVD-Video format and videogames, the ever greater price negotiating leverage of mass merchandisers and big box retailers, the increased costs of doing business with mass merchandisers and big box retailers as a result of complying with operating procedures that are unique to their needs and the adoption by record companies of initially lower-margin formats such as DualDisc and DVD-Audio. See Risk Factors We may be materially and adversely affected by the formation of Sony BMG Music Entertainment.

Our prospects and financial results may be adversely affected if we fail to identify, sign and retain artists and songwriters and by the existence or absence of superstar releases and by local economic conditions in the countries in which we operate.

We are dependent on identifying, signing and retaining artists with long-term potential, whose debut albums are well received on release, whose subsequent albums are anticipated by consumers and whose music will continue to generate sales as part of our catalog for years to come. The competition among record companies for

Table of Contents

such talent is intense. Competition among record companies to sell records is also intense and the marketing expenditures necessary to compete have increased as well. We are also dependent on signing and retaining songwriters who will write the hit songs of today and the classics of tomorrow under terms that are economically attractive to us. Our competitive position is dependent on our continuing ability to attract and develop talent whose work can achieve a high degree of public acceptance. Our financial results may be adversely affected if we are unable to identify, sign and retain such artists and songwriters under terms that are economically attractive to us. Our financial results may also be affected by the existence or absence of superstar artist releases during a particular period. Some music industry observers believe that the number of superstar acts with long-term appeal, both in terms of catalog sales and future releases, has declined in recent years. Additionally, our financial results are generally affected by the general economic and retail environment of the countries in which we operate, as well as the appeal of our recorded music catalog and our music publishing library.

We may have difficulty addressing the threats to our business associated with home copying and Internet downloading.

The combined effect of the decreasing cost of electronic and computer equipment and related technology such as CD burners and the conversion of music into digital formats have made it easier for consumers to create unauthorized copies of our recordings in the form of, for example, CDs and MP3 files. A substantial portion of our revenue comes from the sale of audio products that are potentially subject to unauthorized consumer copying and widespread dissemination on the Internet without an economic return to us. We are working to control this problem through litigation, by lobbying governments for new, stronger copyright protection laws and more stringent enforcement of current laws and by establishing legitimate new media business models. We cannot give any assurances that such measures will be effective. For instance, the Inducing Infringement of Copyrights Act of 2004 introduced in the Senate on June 22, 2004 was not enacted in 2004. If we fail to obtain appropriate relief through the judicial process or the complete enforcement of judicial decisions issued in our favor (or if judicial decisions are not in our favor, such as in the original decisions in the recent file-sharing cases in the U.S., *Metro-Goldwyn-Mayer Studios, Inc. et al vs. Grokster Ltd. et al*), if we are unsuccessful in our efforts to lobby governments to enact and enforce stronger legal penalties for copyright infringement or if we fail to develop effective means of protecting our intellectual property (whether copyrights or other rights such as patents, trademarks and trade secrets) or entertainment-related products or services, our results of operations, financial position and prospects may suffer. On March 29, 2005, the U.S. Supreme Court heard the appeal of the decision of the U.S. Court of Appeals for the 9th Circuit in the Grokster case. The issue to be decided by the Supreme Court was the liability of file sharing software developers and vendors for the copyright infringement that takes place on their services. Both the district court and the Ninth Circuit had found that Grokster and Streamcast could not be found contributorily and vicariously liable for the copyright infringement committed by the users of their services. On June 27, 2005, the U.S. Supreme Court held that one who distributes a device with the object of promoting its use to infringe copyright, as shown by clear expression or other affirmative steps taken to foster infringement, going beyond mere distribution with knowledge of third-party action, is liable for the resulting acts of infringement by third parties using the device, regardless of the lawful uses of the device. The U.S. Supreme Court sent the case back to the trial court so that the trial process can determine whether the defendant companies intentionally encouraged infringement.

Organized industrial piracy may lead to decreased sales.

The global organized commercial pirate trade is a significant threat to the music industry. Worldwide, industrial pirated music (which encompasses unauthorized physical copies manufactured for sale but does not include Internet downloads or home CD burning) is estimated to have generated over \$4.6 billion in revenues in 2004, according to IFPI. IFPI estimates that 1.2 billion pirated units were manufactured in 2004. According to IFPI estimates, approximately 34% of all music CDs sold worldwide in 2004 were pirated. Unauthorized copies and piracy contributed to the decrease in the volume of legitimate sales and put pressure on the price of legitimate sales. They have had, and may continue to have, an adverse effect on our business.

Table of Contents

Our Restructuring Plan may not be successful and may adversely affect our business.

The scope of our Restructuring Plan is broad and significant and may cause losses to our business that we cannot predict. At the time of the Acquisition, we had identified up to \$277 million of annualized cost savings to be achieved within 18 months and had identified approximately \$310 million of associated restructuring charges. Although we have now implemented annualized cost savings of approximately \$250 million and expect the actual charges to be between \$225 million and \$250 million, we cannot assure you that:

we will actually achieve all such identified savings;

we will implement all measures needed to achieve such savings; and

the costs to implement our Restructuring Plan will not exceed our identified costs due to, among other things, higher than expected costs related to staff reductions or consolidation of our operations.

The primary challenge we face in realizing the cost savings in our Restructuring Plan is avoiding increased costs required to support our ongoing operations. Specifically, a variety of factors could cause us not to achieve the benefits of the restructuring, or could result in harm to our business, including, among others, the following:

higher than expected retention costs for employees that will be retained;

increased operating costs or other unexpected costs associated with supporting the business and meeting financial objectives such as revenue growth;

loss of revenues and market share due to, among other things, a diminished ability to attract and hire desirable talent;

unexpected loss of artists or key employees; and

loss of revenues and market share due to, among other things, a lack of sufficient resources to promote records and albums, and a lack of sufficient resources to attract new artists.

If we fail to successfully implement the remainder of the Restructuring Plan, including our cost-saving measures, our results of operations and financial position may suffer. In addition, we cannot predict the extent to which our Restructuring Plan may adversely affect our business.

Our involvement in intellectual property litigation could adversely affect our business.

Our business is highly dependent upon intellectual property, a field that has encountered increasing litigation in recent years. If we are alleged to infringe the intellectual property rights of a third party, any litigation to defend the claim could be costly and would divert the time and resources

Edgar Filing: Warner Music Group Corp. - Form S-4/A

of management, regardless of the merits of the claim. There can be no assurance that we would prevail in any such litigation. If we were to lose a litigation relating to intellectual property, we could be forced to pay monetary damages and to cease the sale of certain products or the use of certain technology. Any of the foregoing may adversely affect our business.

The recorded music industry is under investigation by Eliot Spitzer, the Attorney General for the State of New York, regarding its practices in promoting its records to radio stations.

On September 7, 2004, November 22, 2004 and March 31, 2005, Eliot Spitzer, the Attorney General of the State of New York, served us with requests for information in the form of subpoenas duces tecum in connection with an industry-wide investigation of the relationship between music companies and radio stations, including the use of independent promoters and accounting for any such payments. In response to the Attorney General's subpoenas, we have been producing documents and have substantially completed our production. We also understand that this investigation has been expanded to include companies that own radio stations. The investigation is pursuant to New York Executive Law §63(12) and New York General Business Law §349, both of which are consumer fraud statutes. On July 25, 2005, Sony BMG Music Entertainment (Sony BMG) reached a settlement with the Attorney General. As part of such settlement, Sony BMG agreed to make \$10 million in charitable payments and to abide by a list of permissible and impermissible promotional activities. Commissioner Adelstein of the Federal Communications Commission has subsequently called for an

Table of Contents

investigation into the same or related subject matter. While it is too soon to predict the outcome of this investigation and the FCC announcement on us, the investigation by Spitzer, the FCC announcement and these recent developments have the potential to result in changes in the manner in which the recorded music industry promotes its records or financial penalties, which could adversely affect our business, including our brand value.

Due to the nature of our business, our results of operations and cash flows may fluctuate significantly from period to period.

Our net sales, operating income and profitability, like those of other companies in the music business, are largely affected by the number and quality of albums that we release, our release schedule, and, more importantly, the consumer demand for these releases. We also make advance payments to recording artists and songwriters, which impact our operating cash flows. The timing of album releases and advance payments is largely based on business and other considerations and is made without regard to the timing of the release of our financial results. We report results of operations quarterly and our results of operations and cash flows in any reporting period may be materially affected by the timing of releases and advance payments, which may result in significant fluctuations from period to period.

Our operating results fluctuate on a seasonal and quarterly basis, and, in the event we do not generate sufficient net sales in our first fiscal quarter, we may not be able to meet our debt service and other obligations, including those under the Acquisition Corp. Notes and the notes.

Our business is seasonal. For the twelve months ended March 31, 2005, we derived approximately 83% of our revenues from our Recorded Music business. In the recorded music business, purchases are heavily weighted towards the last three months of the calendar year which represent our first quarter under our new September 30 fiscal year. Historically, we have realized approximately 35% of recorded music net sales worldwide during the last three months of the calendar year, making those three months (i.e., our new first fiscal quarter) material to our full-year performance. We realized 35% of recorded music calendar year net sales during the last three months of 2004. This sales seasonality affects our operating cash flow from quarter to quarter. We cannot assure you that our recorded music net sales for the last three months of any calendar year will continue to be sufficient to meet our obligations or that they will be higher than such net sales for our other quarters. In the event that we do not derive sufficient recorded music net sales in such last three months, we may not be able to meet our debt service under the notes or the guarantee and our other obligations.

We may be unable to compete successfully in the highly competitive markets in which we operate and we may suffer reduced profits as a result.

The industry in which we operate is highly competitive, is based on consumer preferences and is rapidly changing. Additionally, the music industry requires substantial human and capital resources. We compete with other recorded music companies and music publishers to identify and sign new recording artists and songwriters who subsequently achieve long-term success and to renew agreements with established artists and songwriters. In addition, our competitors may from time to time reduce their prices in an effort to expand market share and introduce new services, or improve the quality of their products or services. We may lose business if we are unable to sign successful artists or songwriters or to match the prices or the quality of products and services, offered by our competitors. Our Music Publishing business competes not only with other music publishing companies, but also with songwriters who publish their own works. Our Recorded Music business is to a large extent dependent on technological developments, including access to and selection and viability of new technologies, and is subject to potential pressure from competitors as a result of their technological developments. For example, our Recorded Music business may be adversely affected by technological developments that facilitate the piracy of music, such as Internet peer-to-peer file-sharing and CD-R activity; by its inability to enforce our intellectual property rights in digital environments; and by its failure to develop a successful business model applicable to a digital online environment. It also faces competition from other forms

Table of Contents

of entertainment and leisure activities, such as cable and satellite television, pre-recorded films on videocassettes and DVD, the Internet and computer and videogames.

Our business operations in some countries subject us to trends, developments or other events in foreign countries which may affect us adversely.

We are a global company with strong local presences, which have become increasingly important as the popularity of music originating from a country's own language and culture has increased in recent years. Our mix of national and international recording artists and songwriters provides a significant degree of diversification for our music portfolio. However, our creative content does not necessarily enjoy universal appeal. As a result, our results can be affected not only by general industry trends, but also by trends, developments or other events in individual countries, including:

limited legal protection and enforcement of intellectual property rights;

restrictions on the repatriation of capital;

differences and unexpected changes in regulatory environment, including environmental, health and safety, local planning, zoning and labor laws, rules and regulations;

varying tax regimes which could adversely affect our results of operations or cash flows, including regulations relating to transfer pricing and withholding taxes on remittances and other payments by subsidiaries and joint ventures;

exposure to different legal standards and enforcement mechanisms and the associated cost of compliance;

difficulties in attracting and retaining qualified management and employees or rationalizing our workforce;

tariffs, duties, export controls and other trade barriers;

longer accounts receivable settlement cycles and difficulties in collecting accounts receivable;

recessionary trends, inflation and instability of the financial markets;

higher interest rates; and

political instability.

Edgar Filing: Warner Music Group Corp. - Form S-4/A

We may not be able to insure or hedge against these risks, and we may not be able to ensure compliance with all of the applicable regulations without incurring additional costs. Furthermore, financing may not be available in countries with less than investment-grade sovereign credit ratings. As a result, it may be difficult to create or maintain profit-making operations in developing countries.

In addition, our results can be affected by trends, developments and other events in individual countries. There can be no assurance that in the future other country-specific trends, developments or other events will not have such a significant adverse effect on our business, results of operations or financial condition.

Our business may be adversely affected by competitive market conditions and we may not be able to execute our business strategy.

We intend to increase revenues and cash flow through a business strategy which requires us to, among other things, continue to maximize the value of our music assets, significantly reduce costs to maximize flexibility and adjust to new realities of the market, continue to act to contain digital piracy and capitalize on digital distribution and emerging technologies.

Each of these initiatives requires sustained management focus, organization and coordination over significant periods of time. Each of these initiatives also requires success in building relationships with third parties and in anticipating and keeping up with technological developments and consumer preferences. The

Table of Contents

results of the strategy and the success of our implementation of this strategy will not be known for some time in the future. If we are unable to implement the strategy successfully or properly react to changes in market conditions, our financial condition, results of operations and cash flows could be adversely affected.

Our ability to operate effectively could be impaired if we fail to attract and retain our executive officers.

Our success depends, in part, upon the continuing contributions of our executive officers. Although we have employment agreements with our executive officers, there is no guarantee that they will not leave. The loss of the services of any of our executive officers or the failure to attract other executive officers could have a material adverse effect on our business or our business prospects. See Management and Prospectus Summary Recent Developments New Chief Financial Officer and Prospectus Summary Recent Developments New Head of Warner/Chappell Music.

Legitimate channels for digital distribution of our creative content are a recent development, and their impact on our business is unclear and may be adverse.

We have positioned ourselves to take advantage of the Internet and wireless as a sales distribution channel and believe that the development of legitimate channels for digital music distribution holds promise for us in the future. However, legitimate channels for digital distribution are a recent development and we cannot predict their impact on our business. Any legitimate digital distribution channel that does develop may result in lower or less profitable sales for us than comparable physical sales. In addition, if piracy continues unabated and legitimate digital distribution channels fail to gain consumer acceptance, our results of operations could be harmed.

A significant portion of our music publishing revenues is subject to rate regulation either by government entities or by local third-party collection societies throughout the world, which may limit our profitability.

Mechanical royalties and performance royalties are the two largest sources of income to our Music Publishing business and mechanical royalties are a significant expense to our Recorded Music business. In the U.S., mechanical rates are set pursuant to industry negotiations contemplated by the U.S. Copyright Act and performance rates are set by performing rights societies and subject to challenge by performing rights licensees. Outside the U.S., mechanical and performance rates are typically negotiated on an industry-wide basis. The mechanical and performance rates set pursuant to such processes may adversely affect us by limiting our ability to increase the profitability of our Music Publishing business. If the mechanical rates are set too high it may also adversely affect us by limiting our ability to increase the profitability of our Recorded Music business.

Unfavorable currency exchange rate fluctuations could adversely affect our results of operations.

The reporting currency for our financial statements is the U.S. dollar. We have substantial assets, liabilities, revenues and costs denominated in currencies other than U.S. dollars. To prepare our consolidated financial statements, we must translate those assets, liabilities, revenues and expenses into U.S. dollars at then-applicable exchange rates. Consequently, increases and decreases in the value of the U.S. dollar versus other currencies will affect the amount of these items in our consolidated financial statements, even if their value has not changed in their original currency. These translations could result in significant changes to our results of operations from period to period. For the six months ended March 31, 2005, approximately 54% of our revenues related to operations in foreign territories. See Note 23 to Parent's historical financial

Edgar Filing: Warner Music Group Corp. - Form S-4/A

statements and the accompanying notes included elsewhere in this prospectus. From time to time, we enter into foreign exchange contracts to hedge the risk of unfavorable foreign currency exchange rate movements. As of March 31, 2005, we have hedged our material foreign currency exposures related to royalty payments remitted between our foreign affiliates and our U.S. affiliates for the balance of the fiscal year.

We may not have full control and ability to direct the operations we conduct through joint ventures.

We currently have interests in a number of joint ventures and may in the future enter into further joint ventures as a means of conducting our business. In addition, we structure certain of our relationships with

Table of Contents

recording artists and songwriters as joint ventures. We may not be able to fully control the operations and the assets of our joint ventures, and we may not be able to make major decisions or may not be able to take timely actions with respect to our joint ventures unless our joint venture partners agree.

The enactment of legislation limiting the terms by which an individual can be bound under a personal services contract could impair our ability to retain the services of key artists.

California Labor Code Section 2855 (Section 2855) limits the duration of time any individual can be bound under a contract for personal services to a maximum of seven years. In 1987, Subsection (b) was added, which provides a limited exception to Section 2855 for recording contracts, creating a damages remedy for record companies. Legislation was introduced in California to repeal Subsection (b) and then withdrawn. Legislation was introduced in New York to create a statute similar to Section 2855, which did not advance. There is no assurance that New York, California or any other state will not reintroduce or introduce similar legislation in the future. In fact, legislation similar to Section 2855 has recently been introduced in the New York Assembly. The repeal of Subsection (b) of Section 2855 and/or the passage of legislation similar to Section 2855 by other states could materially affect our results of operations and financial position.

We face a potential loss of catalog if it is determined that recording artists have a right to recapture rights in their recordings under the U.S. Copyright Act.

The U.S. Copyright Act provides authors (or their heirs) a right to terminate licenses or assignments of rights in their copyrighted works. This right does not apply to works that are works made for hire . Since the effective date of U.S. copyrightability for sound recordings (February 15, 1972), virtually all of our agreements with recording artists provide that such recording artists render services under an employment-for-hire relationship. A termination right exists under the U.S. Copyright Act for musical compositions that are not works made for hire . If any of our commercially available recordings were determined not to be works made for hire , then the recording artists (or their heirs) could have the right to terminate the rights they granted to us, generally during a five-year period starting at the end of 35 years from the date of a post-1977 license or assignment (or, in the case of a pre-1978 grant in a pre-1978 recording, generally during a five-year period starting either at the end of 56 years from the date of copyright or on January 1, 1978, whichever is later). A termination of rights could have an adverse effect on our Recorded Music business. From time to time, authors (or their heirs) can terminate our rights in musical compositions. However, we believe the effect of those terminations is already reflected in the financial results of our Music Publishing business.

If we acquire or invest in other businesses, we will face certain risks inherent in such transactions.

We may acquire, make investments in, or enter into strategic alliances or joint ventures with, companies engaged in businesses that are similar or complementary to ours. If we make such acquisitions or investments or enter into strategic alliances, we will face certain risks inherent in such transactions. For example, gaining regulatory approval for significant acquisitions or investments could be a lengthy process and there can be no assurance of a successful outcome. We could face difficulties in managing and integrating newly acquired operations. Additionally, such transactions would divert management resources and may result in the loss of artists or songwriters from our rosters. We cannot assure you that if we make any future acquisitions, investments, strategic alliances or joint ventures that they will be completed in a timely manner, that they will be structured or financed in a way that will enhance our creditworthiness or that they will meet our strategic objectives or otherwise be successful. Failure to effectively manage any of these transactions could result in material increases in costs or reductions in expected revenues, or both.

We are controlled by entities that may have conflicts of interest with us or you in the future.

The Investor Group controls a majority of Parent's capital stock on a fully diluted basis. In addition, representatives of the Investor Group occupy substantially all of the seats on Parent's board of directors and

Table of Contents

pursuant to the stockholders agreement, will have the right to appoint all of the independent directors to Parent's board. As a result, the Investor Group has the ability to control our policies and operations, including the appointment of management, the entering into of mergers, acquisitions, sales of assets, divestitures and other extraordinary transactions, future issuances of our common stock or other securities, the payments of dividends, if any, on our common stock, the incurrence of debt by us and the amendment of our certificate of incorporation and bylaws. The Investor Group will have the ability to prevent any transaction that requires the approval of Parent's board of directors or the stockholders regardless of whether or not other members of Parent's board of directors or stockholders believe that any such transaction is in their own best interests. For example, the Investor Group could cause us to make acquisitions that increase our indebtedness or to sell revenue-generating assets. Additionally, the Investor Group is in the business of making investments in companies and may from time to time acquire and hold interests in businesses that compete directly or indirectly with us. The Investor Group may also pursue acquisition opportunities that may be complementary to our business, and, as a result, those acquisition opportunities may not be available to us. So long as the Investor Group continues to meet certain ownership thresholds, the Investor Group will be entitled to nominate a majority of Parent's board of directors. In addition, so long as the Investor Group continues to own a significant amount of Parent's equity, even if such amount is less than 50%, they will continue to be able to strongly influence or effectively control our decisions.

Our reliance on one company for the manufacturing, packaging and physical distribution of our products in North America and Europe could have an adverse impact on our ability to meet our manufacturing, packaging and physical distribution requirements.

Cinram is currently our exclusive supplier of manufacturing, packaging and physical distribution services in North America and most of Europe. Accordingly, our continued ability to meet our manufacturing, packaging and physical distribution requirements in those territories depends largely on Cinram's continued successful operation in accordance with the service level requirements mandated by us in our service agreements. If, for any reason, Cinram were to fail to meet contractually required service levels, we would have difficulty satisfying our commitments to our wholesale and retail customers, which could have an adverse impact on our revenues. Even though our agreements with Cinram give us a right to terminate based upon failure to meet mandated service levels, and there are several capable substitute suppliers, it might be difficult for us to switch to substitute suppliers for any such services, particularly in the short-term, and the delay and transition time associated with finding substitute suppliers could itself have an adverse impact on our revenues. In addition, our agreements with Cinram begin to expire in the next two years, beginning in 2006. If we are unable to negotiate renewals of these agreements we would have to switch to substitute suppliers. Further, pricing negotiated with Cinram in future agreements may be more or less favorable than the existing agreements.

We may be materially and adversely affected by the separation of our business from Time Warner.

As a result of the Acquisition, we are an independent entity. We cannot assure you that our separation from Time Warner will progress smoothly, which could materially and adversely impact our results. In the past, we have relied on contractual arrangements which required Time Warner and its affiliates to provide some services such as critical transitional services and shared arrangements to us such as tax, treasury, benefits and information technology, most of which expired as of December 31, 2004. We have replaced the majority of these services and arrangements and are in the process of replacing any remaining services and arrangements that we will still need as an independent entity. The new services and arrangements we have put in place may not operate as effectively or cost effectively as those we previously received from Time Warner and we may not be able to replace any remaining services and arrangements on terms and conditions, including service levels and cost, as favorable as those we have received from Time Warner.

We may be materially and adversely affected by the formation of Sony BMG Music Entertainment.

In August 2004 Sony Music Entertainment (Sony) and Bertelsmann Music Group (BMG) merged their recorded music businesses to form Sony BMG Music Entertainment. As a result, the recorded music market now

Table of Contents

consists of four major players (Universal, Sony BMG, EMI Recorded Music (EMI) and us) rather than five (Universal, Sony, BMG, EMI and us). Prior to the formation of Sony BMG, there was one disproportionately large major, Universal, with approximately 25% market share and four other majors relatively equal in size with market shares ranging between 11% and 14%. Now there are two majors with global market shares exceeding 20%, Universal and Sony BMG, and two significantly smaller majors, EMI and us each with less than 15% of the market. There is a threat that the change in the competitive landscape caused by the new Universal and Sony BMG duopoly could drive up the costs of artist signings and the costs of marketing and promoting records to our detriment.

Risks Related to the Notes

Holdings and Parent (through its guarantee) are the sole obligors of the notes and Holdings subsidiaries do not guarantee Holdings obligations under the notes and do not have any obligation with respect to the notes; the notes are structurally subordinated to the debt and liabilities of Holdings subsidiaries and are effectively subordinated to Holdings secured debt.

Holdings and Parent have no operations of their own and derive all of their revenues and cash flow from their subsidiaries. Holdings subsidiaries are separate and distinct legal entities and have no obligation, contingent or otherwise, to pay amounts due under the notes or to make any funds available to pay those amounts, whether by dividend, distribution, loan or other payments.

The notes are structurally subordinated to all debt and liabilities of Parent s and Holdings subsidiaries, including those of Acquisition Corp. Acquisition Corp. also has joint ventures and subsidiaries in which it owns less than 100% of the equity so that, in addition to the structurally senior claims of creditors of those entities, the equity interests of its joint venture partners or other shareholders in any dividend or other distribution made by these entities would need to be satisfied on a proportionate basis with Holdings. These joint ventures and less-than-wholly-owned subsidiaries may also be subject to restrictions on their ability to distribute cash to us in their financing or other agreements, and, as a result, we may not be able to access their cash flow to service our debt obligations, including in respect of the notes. In the event of a bankruptcy, liquidation or reorganization or similar proceeding relating to Holdings subsidiaries, you will participate with all other holders of Holdings indebtedness in the assets remaining after Holdings subsidiaries have paid all of their debt and liabilities. In any of these cases, Holdings subsidiaries may not have sufficient funds to make payments to Holdings, and you may receive less, ratably, than the holders of debt of Holdings subsidiaries and other liabilities. As of March 31, 2005, Holdings subsidiaries had \$1.842 billion (based on the exchange rate for pounds sterling on March 31, 2005) of indebtedness (which would not have included availability under the \$250 million revolving portion of Acquisition Corp. s senior secured credit facility nor the additional \$250 million of new term loan borrowings as of May 13, 2005 under the amended Acquisition Corp. senior secured credit facility as described under Management s Discussion and Analysis of Financial Condition and Results of Operations Liquidity), all of which would be structurally senior to the notes.

In addition, holders of secured debt of Holdings will have claims that are prior to your claims as holders of the notes to the extent of the value of the assets securing that other debt. Notably, the notes will be effectively subordinated to Holdings secured guarantee of Acquisition Corp. s debt under the senior credit facility to the extent of the value of the collateral. In the event of a bankruptcy, liquidation or reorganization or similar proceeding relating to us, holders of secured debt will have a prior claim to the assets that constitute their collateral. Additionally, the indentures governing the notes and the indebtedness of our subsidiaries and the senior credit facility permit Holdings and/or its subsidiaries to incur additional indebtedness, including secured indebtedness, under certain circumstances, and do not restrict Parent from incurring additional debt. As of March 31, 2005, Holdings subsidiaries had \$1.188 billion of senior secured indebtedness (all of which would have been indebtedness under Acquisition Corp. s senior secured credit facility and which would not have included availability under the \$250 million revolving portion of Acquisition Corp. s senior secured credit facility nor the additional \$250 million of new term loan borrowings under the amended Acquisition Corp. senior secured credit

Table of Contents

facility as described under Management's Discussion and Analysis of Financial Condition and Results of Operations Liquidity).

If Holdings or its subsidiaries have their debt accelerated, Holdings may not be able to repay such indebtedness or the notes. Parent and Holdings' assets and their subsidiaries' assets may not be sufficient to fully repay the notes and other indebtedness. See Description of Other Indebtedness.

Our substantial leverage on a consolidated basis could adversely affect our ability to raise additional capital to fund our operations, limit our ability to react to changes in the economy or our industry and prevent us from meeting our obligations under our indebtedness.

We are highly leveraged. As of March 31, 2005, our total consolidated indebtedness was \$2.55 billion. In addition, on May 13, 2005, we borrowed an additional \$250 million under the amended Acquisition Corp. senior secured credit facility as described under Management's Discussion and Analysis Financial Condition and Results of Operations Liquidity. We currently have an additional \$250 million available for borrowing under the revolving portion of Acquisition Corp.'s senior secured credit facility (less \$4 million of outstanding letters of credit). Further, on June 15, 2005 we redeemed \$541 million of Holdings Notes. After giving effect to these events, our total consolidated indebtedness as of March 31, 2005 on a *pro forma* basis would have been \$2.26 billion. See Capitalization for additional information.

Our high degree of leverage could have important consequences for you, including:

making it more difficult for us and our subsidiaries to make payments on indebtedness;

increasing our vulnerability to general economic and industry conditions;

requiring a substantial portion of cash flow from operations to be dedicated to the payment of principal and interest on indebtedness, therefore reducing our ability to use our cash flow to fund our operations, capital expenditures and future business opportunities;

exposing us to the risk of increased interest rates as certain of the borrowings of our subsidiaries, including borrowings under Acquisition Corp.'s senior secured credit facility, will be at variable rates of interest;

limiting our ability and the ability of our subsidiaries to obtain additional financing for working capital, capital expenditures, product development, debt service requirements, acquisitions and general corporate or other purposes; and

limiting our ability to adjust to changing market conditions and placing us at a competitive disadvantage compared to our competitors who are less highly leveraged.

We and our subsidiaries may be able to incur substantial additional indebtedness in the future, subject, in the case of Holdings and its subsidiaries, to the restrictions contained in Acquisition Corp.'s senior secured credit facility and the indentures relating to the Acquisition Corp. Notes and the notes. If new indebtedness is added to our current debt levels, the related risks that we and our subsidiaries now face could intensify.

Holdings and Parent may not have access to the cash flow and other assets of their subsidiaries that may be needed to make payment on the notes and guarantee.

Holdings and Parent's operations are conducted through their subsidiaries and their ability to make payments are dependent on the earnings and the distribution of funds from their subsidiaries. However, none of their subsidiaries is obligated to make funds available to Holdings or Parent for payment on the notes or the guarantee. Further, the terms of the indenture governing the 7³/₈% senior subordinated notes due 2014 and the 8¹/₈% senior subordinated notes due 2014 of Acquisition Corp. significantly restrict Acquisition Corp. and their other subsidiaries from paying dividends and otherwise transferring assets to Holdings and Parent. For example,

Table of Contents

the ability of Acquisition Corp. to make such payments is governed by a formula based on 50% of its consolidated net income (which, as defined in the indenture governing Acquisition Corp. Notes, excludes goodwill impairment charges and any after-tax extraordinary, unusual or nonrecurring gains and losses) accruing from June 1, 2004. In addition, as a condition to making such payments to Holdings or Parent based on such formula, Acquisition Corp. must have an Adjusted EBITDA to interest expense ratio of at least 2.0 to 1 after giving effect to any such payments. Acquisition Corp. may also make a dividend to Holdings or Parent prior to April 15, 2009 if, immediately after giving pro forma effect to such restricted payment and any indebtedness incurred to finance such restricted payment, its net indebtedness to Adjusted EBITDA ratio would not exceed 3.75 to 1 and its net senior indebtedness to Adjusted EBITDA ratio would not exceed 2.50 to 1. Notwithstanding such restrictions, such indenture permits an aggregate of \$45.0 million of such payments to be made whether or not there is availability under the formula or the conditions to its use are met. Acquisition Corp.'s senior secured credit agreement permits Holdings to pay interest in cash on its indebtedness (including the notes) up to a maximum amount of \$35 million in any fiscal year for the next five years. Thereafter, the credit agreement will permit Holdings to pay in cash interest when due that is then required to be paid in cash, assuming there has been no event of default under the credit agreement. Furthermore, Holdings' subsidiaries will be permitted under the terms of the senior credit facilities and other indebtedness to incur additional indebtedness that may restrict or prohibit the making of distributions, the payment of dividends or the making of loans by such subsidiaries to Holdings or Parent.

The agreements governing the current and future indebtedness of Holdings and Parent's subsidiaries may not permit their subsidiaries to provide Holdings and Parent with sufficient dividends, distributions or loans to fund scheduled interest and principal payments on these notes when due or on the guarantee if due. See Description of Other Indebtedness.

Our subsidiaries may not be able to generate sufficient cash to service all of their and our indebtedness, including the notes, and may be forced to take other actions to satisfy their and our obligations under such indebtedness, which may not be successful.

Our subsidiaries' ability to make scheduled payments on or to refinance their and our debt obligations depends on our subsidiaries' financial condition and operating performance, which is subject to prevailing economic and competitive conditions and to certain financial, business and other factors beyond their and our control. Our subsidiaries may not be able to maintain a level of cash flows from operating activities sufficient to permit them and us to pay the principal, premium, if any, and interest on their and our indebtedness, including the notes.

If our subsidiaries' cash flows and capital resources are insufficient to fund our and their debt service obligations, we and our subsidiaries may be forced to reduce or delay investments in recording artists, and songwriters capital expenditures, or to sell assets, seek additional capital or restructure or refinance our indebtedness, including the notes. These alternative measures may not be successful and may not permit us or our subsidiaries to meet our and their scheduled debt service obligations. In the absence of such operating results and resources, we and they could face substantial liquidity problems and might be required to dispose of material assets or operations to meet our and their debt service and other obligations. The senior secured credit facility, the indenture governing the notes and our subsidiaries' existing indenture restrict our subsidiaries' ability to dispose of assets and use the proceeds from the disposition. Our subsidiaries may not be able to consummate those dispositions or to obtain the proceeds which we could realize from them and these proceeds may not be adequate to meet any debt service obligations then due.

U.S. persons will be required to pay U.S. Federal income tax on accrual of original issue discount on the notes even if Holdings does not pay cash interest.

The original notes were, and the exchange notes will be, issued at a substantial discount from their principal amount at maturity. Although cash interest will not accrue on the notes prior to December 15, 2009, and there

Table of Contents

will be no periodic payments of cash interest on the notes prior to December 15, 2009, original issue discount (the difference between the stated redemption price at maturity and the issue price of the notes) will accrue from the issue date of the outstanding notes. Consequently, purchasers of the notes generally will be required to include amounts in gross income for United States federal income tax purposes in advance of their receipt of the cash payments to which the income is attributable. Such amounts in the aggregate will be equal to the difference between the stated redemption price at maturity (inclusive of stated interest on the notes) and the issue price of the notes.

Our debt agreements contain restrictions that limit our flexibility in operating our business.

Acquisition Corp.'s senior secured credit agreement, the indenture governing Acquisition Corp.'s existing notes, and the indenture governing the notes contain various covenants that limit Holdings and its restricted subsidiaries' ability to engage in specified types of transactions. These covenants limit Holdings and its restricted subsidiaries' ability to, among other things:

incur additional indebtedness or issue certain preferred shares;

pay dividends on or make distributions in respect of their capital stock or make other restricted payments;

make certain investments;

sell certain assets;

create liens on certain indebtedness without securing the notes;

consolidate, merge, sell or otherwise dispose of all or substantially all of their assets;

enter into certain transactions with their affiliates; and

designate their subsidiaries as unrestricted subsidiaries.

In addition, under the senior secured credit agreement, Acquisition Corp. is required to satisfy and maintain specified financial ratios and other financial condition tests. Its ability to meet those financial ratios and tests can be affected by events beyond its and our control, and we cannot assure you that it will meet those ratios and tests. A breach of any of these covenants could result in a default under the senior secured credit agreement. Upon the occurrence of an event of default under the senior secured credit agreement, the lenders could elect to declare all amounts outstanding under the senior secured credit agreement to be immediately due and payable and terminate all commitments to extend further credit. If we were unable to repay those amounts, the lenders under the senior secured credit agreement could proceed against the collateral granted to them to secure that indebtedness. Holdings and its subsidiaries have pledged a significant portion of their assets as collateral under the senior secured credit agreement. If the lenders under the senior secured credit agreement accelerate the repayment of borrowings, we cannot assure you that we will have sufficient assets to repay the senior secured credit agreement and the Acquisition Corp. Notes, as well as our unsecured indebtedness, including the notes.

If Holdings or its subsidiaries default on its and their obligations to pay Holdings and their indebtedness, Holdings may not be able to make payments on the notes.

Any default under the agreements governing Holdings or its subsidiaries' indebtedness, including a default under Acquisition Corp.'s senior credit facility that is not waived by the required lenders, and the remedies sought by the holders of such indebtedness, could make Holdings unable to pay principal, premium, if any, and interest on the notes and substantially decrease the market value of the notes. If Holdings or they are unable to generate sufficient cash flow and are otherwise unable to obtain funds necessary to meet required payments of principal, premium, if any, and interest on Holdings or their indebtedness, or if Holdings or they otherwise fail to comply with the various covenants, including financial and operating covenants, in the instruments governing Holdings or their indebtedness (including covenants in Acquisition Corp.'s senior credit facility and the

Table of Contents

indentures governing the Acquisition Corp. Notes and the notes), Holdings or they could be in default under the terms of the agreements governing such indebtedness, including Acquisition Corp.'s senior credit facility and the indentures. In the event of such default, the holders of such indebtedness could elect to declare all the funds borrowed thereunder to be due and payable, together with accrued and unpaid interest, the lenders under Acquisition Corp.'s senior credit facility could elect to terminate their commitments thereunder, cease making further loans and institute foreclosure proceedings against Holdings and its subsidiaries assets, and Holdings could be forced into bankruptcy or liquidation. If Holdings or its subsidiaries' operating performance declines Holdings may in the future need to obtain waivers from the required lenders under Acquisition Corp.'s senior credit facility to avoid being in default. If Holdings breaches its covenants under Acquisition Corp.'s senior credit facility and seeks a waiver, Holdings may not be able to obtain a waiver from the required lenders. If this occurs, Holdings would be in default under Acquisition Corp.'s senior credit facility, the lenders could exercise their rights, as described above, and Holdings could be forced into bankruptcy or liquidation.

Holdings may not be able to repurchase the notes upon a change of control.

Upon the occurrence of specific kinds of change of control events, Holdings will be required to offer to repurchase all outstanding notes at 101% (or, in certain cases, 100%) of their principal amount plus accrued and unpaid interest. The source of funds for any such purchase of the notes will be Holdings' available cash or cash generated from the operations of Holdings' subsidiaries or other sources, including borrowings, sales of assets or sales of equity. Holdings may not be able to repurchase the notes upon a change of control because Holdings or its subsidiaries may not have sufficient financial resources to purchase all of the notes that are tendered upon a change of control. Further, Holdings is contractually restricted under the terms of our senior secured credit facility from repurchasing all of the notes tendered by holders upon a change of control. Accordingly, Holdings may not be able to satisfy its obligations to purchase the notes unless it is able to refinance or obtain waivers under our senior secured credit facility. Holdings' failure to repurchase the notes upon a change of control would cause a default under the indentures and a cross-default under the senior secured credit facility. The senior secured credit agreement also provides that a change of control will be a default that permits lenders to accelerate the maturity of borrowings thereunder. Any of Holdings' future debt agreements may contain similar provisions.

Certain corporate events may not trigger a change of control event in which case Holdings will not be required to repurchase your notes.

The indentures governing the notes and the Acquisition Corp. Notes permit Holdings and its subsidiaries to engage in certain important corporate events, such as leveraged recapitalizations, that would increase indebtedness but would not constitute a Change of Control. If either Holdings or its subsidiaries effected a leveraged recapitalization or other such non-change in control transaction that resulted in an increase in indebtedness, Holdings' ability to make payments on the notes would be adversely affected. However, Holdings would not be required to make an offer to repurchase the notes, and you might be required to continue to hold your notes, despite Holdings' decreased ability to meet its obligations under the notes.

Federal and state fraudulent transfer laws may permit a court to void the notes and the guarantee by Parent, and, if that occurs, you may not receive any payments on the notes.

The issuance of the notes and the guarantee by Parent may be subject to review under federal and state fraudulent transfer and conveyance statutes. While the relevant laws may vary from state to state, under such laws the payment of consideration will be a fraudulent conveyance if (1) Holdings paid the consideration with the intent of hindering, delaying or defrauding creditors or (2) Holdings or the guarantor, as applicable, received less than reasonably equivalent value or fair consideration in return for issuing either the notes or the guarantee, and, in the case of (2) only, one of the following is also true:

Holdings or the guarantor was insolvent or rendered insolvent by reason of the incurrence of the indebtedness; or

payment of the consideration left Holdings or the guarantor with an unreasonably small amount of capital to carry on the business; or

Table of Contents

Holdings or the guarantor intended to, or believed that it would, incur debts beyond its ability to pay as they mature.

If a court were to find that the issuance of the notes or the guarantee was a fraudulent conveyance, the court could void the payment obligations under the notes or such guarantee or further subordinate the notes or such guarantee to presently existing and future indebtedness of Holdings or the guarantor, or require the holders of the notes to repay any amounts received with respect to the notes or such guarantee. In the event of a finding that a fraudulent conveyance occurred, you may not receive any repayment on the notes. Further, the voidance of the notes could result in an event of default with respect to our and our subsidiaries' other debt that could result in acceleration of such debt.

Your ability to transfer the exchange notes may be limited by the absence of an active trading market, and there is no assurance that any active trading market will develop for the exchange notes.

The exchange notes are a new issue of securities for which there is no established public market. We do not intend to apply for listing of the exchange notes on a securities exchange. The initial purchasers have advised us that they intend to make a market in the exchange notes, as permitted by applicable laws and regulations; however, the initial purchasers are not obligated to make a market, and they may discontinue their market-making activities at any time without notice. Therefore, we cannot assure you that an active market for the exchange notes will develop or, if developed, that it will continue. Historically, the market for non-investment grade debt has been subject to disruptions that have caused substantial volatility in the prices of securities similar to the exchange notes. We cannot assure you that the market, if any, for the exchange notes will be free from similar disruptions or that any such disruptions may not adversely affect the prices at which you may sell your exchange notes. In addition, subsequent to their initial issuance, the exchange notes may trade at a discount from their initial offering price, depending upon prevailing interest rates, the market for similar notes, our performance and other factors.

Table of Contents

SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS

All statements other than statements of historical facts included in this prospectus, including, without limitation, statements regarding our future financial position, business strategy, budgets, projected costs, savings and plans and objectives of management for future operations, are forward-looking statements. In addition, forward-looking statements generally can be identified by the use of forward-looking terminology such as may, will, expect, intend, estimate, anticipate, believe or continue or the negative thereof or variations thereon or similar terminology. Although we believe that the expectations reflected in such forward-looking statements are reasonable, we can give no assurance that such expectations will prove to have been correct. Important factors that could cause actual results to differ materially from our expectations (cautionary statements) are disclosed under Risk Factors and elsewhere in this prospectus, including, without limitation, in conjunction with the forward-looking statements included in this prospectus. All subsequent written and oral forward-looking statements attributable to us, or persons acting on our behalf, are expressly qualified in their entirety by the cautionary statements.

There are a number of risks and uncertainties that could cause our actual results to differ materially from the forward-looking statements contained in this prospectus. As stated elsewhere in this prospectus, such risks, uncertainties and other important factors include, among others:

the impact of our substantial leverage on our ability to raise additional capital to fund our operations, on our ability to react to changes in the economy or our industry and on our ability to meet our obligations under our indebtedness;

the continued decline in the global recorded music industry and the rate of overall decline in the music industry;

our ability to continue to identify, sign and retain desirable talent at manageable costs;

the threat posed to our business by piracy of music by means of home CD-R activity and Internet peer-to-peer file-sharing;

the significant threat posed to our business and the music industry by organized industrial piracy;

the impact of the Restructuring Plan on our business (including our ability to generate revenues and attract desirable talent);

the popular demand for particular recording artists and/or songwriters and albums and the timely completion of albums by major recording artists and/or songwriters;

the diversity and quality of our portfolio of songwriters;

the diversity and quality of our album releases;

significant fluctuations in our results of operations and cash flows due to the nature of our business;

our involvement in intellectual property litigation;

the possible downward pressure on our pricing and profit margins;

the seasonal and cyclical nature of recorded music sales;

our ability to continue to enforce our intellectual property rights in digital environments;

the ability to develop a successful business model applicable to a digital environment;

the ability to maintain product pricing in a competitive environment;

Table of Contents

the impact of heightened and intensive competition in the recorded music and music publishing businesses and our inability to execute our business strategy;

risks associated with our non-U.S. operations, including limited legal protections of our intellectual property rights and restrictions on the repatriation of capital;

the possible unexpected loss of artists and key employees and our market share as a result of the Restructuring Plan;

the impact of legitimate music distribution on the Internet or the introduction of other new music distribution formats;

the impact of rate regulations on our Music Publishing business;

risks associated with the fluctuations in foreign currency exchange rates;

our ability and the ability of our joint venture partners to operate our existing joint ventures satisfactorily;

the enactment of legislation limiting the terms by which an individual can be bound under a personal services contract could impair our ability to retain the services of key artists;

potential loss of catalog if it is determined that recording artists have a right to recapture recordings under the U.S. Copyright Act;

changes in law and government regulations;

legal or other developments related to pending litigation or the industry-wide investigation of the relationship between music companies and radio stations by the Attorney General of the State of New York;

trends that affect the end uses of our musical compositions (which include uses in broadcast radio and television, film and advertising businesses);

the growth of other products that compete for the disposable income of consumers;

risks inherent in relying on one supplier for manufacturing, packaging and distribution services in North America and Europe;

risks inherent in our acquiring or investing in other businesses;

the possibility that our owners' interests will conflict with ours or yours;

our ability to act as a stand-alone company;

Edgar Filing: Warner Music Group Corp. - Form S-4/A

increased costs and diversion of resources associated with complying with the internal control reporting or other requirements of Sarbanes-Oxley;

weaknesses in our internal controls that could affect our ability to ensure timely and reliable financial reports;

the effects associated with the formation of Sony BMG Music Entertainment;

failure to attract and retain key personnel; and

the other factors set forth under Risk Factors.

All forward-looking statements attributable to us or persons acting on our behalf apply only as of the date of this prospectus and are expressly qualified in their entirety by the cautionary statements included in this prospectus. We undertake no obligation to publicly update or revise forward-looking statements to reflect events or circumstances after the date made or to reflect the occurrence of unanticipated events.

Table of Contents

USE OF PROCEEDS

The exchange offer is intended to satisfy Holdings' obligations under the registration rights agreement that Holdings entered into in connection with the private offering of the outstanding notes. Holdings will not receive any cash proceeds from the issuance of the exchange notes in the exchange offer. As consideration for issuing the exchange notes as contemplated in this prospectus, Holdings will receive in exchange a like principal amount of outstanding notes, the terms of which are identical in all material respects to the exchange notes, except that the exchange notes will not contain terms with respect to transfer restrictions or additional interest upon a failure to fulfill certain of our obligations under the registration rights agreement. The net proceeds from the private offering, approximately \$680.7 million, were returned to the Investor Group through a combination of dividends and repurchases of common and preferred stock. We refer to this application of the net proceeds from the private offering as the Payment to Investor Group. The outstanding notes that are surrendered in exchange for the exchange notes will be retired and cancelled and cannot be reissued. As a result, the issuance of the exchange notes will not result in any increase or decrease in our capitalization.

Table of Contents**CAPITALIZATION**

The following table sets forth the cash and equivalents and capitalization of Parent as of March 31, 2005 on (i) an actual basis and (ii) pro forma for the Initial Public Offering, (including the use of proceeds therefrom for the repayment of a portion of the Original Holdings Notes), the Recapitalization, and the Concurrent Transactions (including the additional \$250 million of borrowings under Acquisition Corp.'s senior secured credit facility), as if they had all occurred as of March 31, 2005. The information should be read in conjunction with The Transactions, Pro Forma Combined Condensed Financial Data, Management's Discussion and Analysis of Financial Condition and Results of Operations and Parent's historical combined financial statements and accompanying notes thereto appearing elsewhere in this prospectus.

The following table reflects the cash and equivalents and capitalization of Parent on a consolidated basis.

	As of March 31, 2005	
	Actual	Pro Forma
(unaudited, in millions)		
Cash and equivalents	\$ 447	\$ 284
Debt:		
Revolving credit facility(1)	\$	\$
Term loan(2)	1,188	1,438
Acquisition Corp. Notes(3)	654	654
Holdings Floating Rate Notes	250	
Holdings Discount Notes(4)	257	167
Holdings PIK Notes(5)	201	
Total debt	\$ 2,550	\$ 2,259
Shareholders' equity:		
Common Stock, at par \$0.001 per share, 500 million shares authorized and approximately 143 million shares issued and outstanding(6); preferred stock par value \$0.001 per share, 100 million shares authorized, no shares issued and outstanding	\$	\$
Additional paid-in capital	57	558
Accumulated deficit	(198)	(449)
Accumulated other comprehensive earnings	4	4
Total shareholders' (deficit) equity	\$ (137)	\$ 113
Total capitalization	\$ 2,413	\$ 2,329

(1) Acquisition Corp. currently has no borrowings under the \$250 million revolving portion of Acquisition Corp.'s senior secured credit facility but has issued \$4 million in letters of credit under such agreement. See Management's Discussion and Analysis of Financial Condition and Results of Operations and Description of Indebtedness - Senior Secured Credit Facility.

(2) Acquisition Corp. has obtained an amendment to its senior secured credit facility to, among other things, increase the term loan borrowings thereunder by an additional \$250 million. As a result, the total amount of the new facility has increased to \$1,438 million. See Description of Indebtedness and Prospectus Summary - Recent Developments - Parent IPO, Concurrent Transactions and Redemption of Portion of Original Holdings Notes.

(3) Includes \$465 million aggregate principal amount of the dollar notes and the U.S. dollar equivalent, as of March 31, 2005, of the £100 million aggregate principal amount of the sterling notes of our wholly owned subsidiary, Acquisition Corp. See Description of

Edgar Filing: Warner Music Group Corp. - Form S-4/A

Indebtedness.

- (4) Represents the accreted value as of March 31, 2005 of the \$396.81 million (\$257.93 million, as adjusted) aggregate principal amount at maturity of the Holdings Discount Notes. See Description of Indebtedness.
- (5) Represents the outstanding amount due as of March 31, 2005 with respect to the \$200 million Holdings PIK Notes, including accrued PIK interest on such Holdings PIK Notes, less unamortized discount. See Description of Indebtedness.
- (6) Amount does not include shares reserved for issuance pursuant to any stock option agreements.

Table of Contents

THE TRANSACTIONS

The following is, among other things, a summary of the Acquisition and certain terms of the purchase agreement, dated as of November 24, 2003, as amended on March 1, 2004, between Time Warner and Acquisition Corp. The following summary is qualified in its entirety by reference to the purchase agreement.

In addition to the purchase agreement, at the closing of the Acquisition, the parties entered into agreements governing certain relationships between and among the parties after the closing of the Acquisition. These agreements include a stockholders agreement, a seller services agreement, a purchaser services agreement, and a management agreement. See **Certain Relationships and Related Party Transactions** for descriptions of these agreements.

The Acquisition

On March 1, 2004, Acquisition Corp., a subsidiary of Holdings, acquired substantially all of Time Warner's music division (the **Acquisition**). The initial purchase price for the Acquisition was \$2.595 billion (subject to customary post-closing adjustments), consisting of \$2.560 billion in cash and \$35 million in non-cash consideration in the form of warrants issued to Historic TW Inc. (**Historic TW**).

On November 15, 2004, Acquisition Corp. and Time Warner made certain Section 338(h)(10) elections under the Internal Revenue Code, which, for tax purposes, increased the cost basis of our domestic net assets and will allow us to deduct the associated annual depreciation and amortization expenses.

The Financing and the Refinancing

We financed the Acquisition, related fees and expenses and a portion of our identified restructuring costs through our Original Financing of (i) \$1.15 billion of borrowings under the term loan portion of Acquisition Corp.'s senior secured credit facility, which, in addition to the term loan facility, includes a \$250 million revolving credit facility, (ii) borrowings under a \$500 million senior subordinated bridge loan facility and (iii) a \$1.25 billion aggregate initial capital investment by the Investor Group. See **Description of Indebtedness**.

For the Refinancing we applied the proceeds from the offering of the Acquisition Corp. Notes, an additional \$50 million of borrowings under the term loan portion of the senior secured credit facility plus available cash on hand, to (i) repay all amounts outstanding under the senior subordinated bridge loan facility plus accrued and unpaid interest, (ii) return a portion of the initial capital investment by the Investor Group and (iii) pay fees and expenses (the **Refinancing**, and together with the Original Financing and the Acquisition, the **Transactions**).

The following table sets forth the sources and uses of funds as if the Refinancing had occurred on March 1, 2004 simultaneously with the Acquisition and the Original Financing:

Sources

Uses

Edgar Filing: Warner Music Group Corp. - Form S-4/A

<u> </u> (in millions)		<u> </u> (in millions)

			<u> </u>

(1) The revolving credit facility provides for borrowings of up to \$250 million.

(2) Excludes warrants issued to Time Warner valued at approximately \$35 million. Total consideration includes purchase price adjustments and interest to Time Warner.

Table of Contents

- (3) Includes the U.S. dollar equivalent of Acquisition Corp.'s sterling notes, based on the exchange rate as of the date of issuance of the sterling notes.
- (4) Approximately \$67 million of the purchase price adjustments for the Acquisition relates primarily to cash that Time Warner swept from our balance sheet after December 1, 2003 (the day at which the Investor Group began receiving the economic benefit of our business), net of the existing cash balance as of November 30, 2003. Approximately \$5 million was an adjustment for negotiations in the tax structuring process between signing and closing of the Acquisition. Pursuant to the terms of the purchase agreement between the Investor Group and Time Warner, the purchase consideration is subject to certain adjustments, generally based on changes in the financial position of Old WMG between the date the purchase agreement was signed and the date the transaction closed. The parties recently agreed to the terms of final settlement. The purchase price was originally reduced by approximately \$24 million on a preliminary basis to reflect a reimbursement by Time Warner to the Investor Group of a portion of the purchase consideration already agreed upon by the parties. Pursuant to the terms of the final settlement agreement, Time Warner agreed to pay Acquisition Corp. an amount of approximately \$12 million in final settlement with respect to these adjustments.
- (5) In exchange for an arrangement in which the economic benefit of the acquired business accrued to the Investor Group as of December 1, 2003, we agreed to pay interest to Time Warner on the cash purchase price between December 1, 2003 and the closing of the Acquisition.
- (6) This amount includes commitment, placement, financial advisory and other transaction fees as well as legal, accounting and other professional fees.

Warrants

A portion of the consideration paid to Time Warner by us was in the form of two warrants, the Three-Year Warrants and the MMT Warrants in Parent and Holdings that were issued to Historic TW. In connection with the Initial Public Offering, the Three-Year Warrants, which gave Historic TW the right to purchase Parent's common stock, were repurchased by Parent for an aggregate purchase price of approximately \$138 million. Upon such repurchase, the Three-Year Warrants were deemed to have been exercised and the MMT Warrants expired.

Representations and Warranties; Indemnification

The purchase agreement contains customary representations and warranties of Time Warner and of Acquisition Corp., including representations and warranties of Time Warner regarding organization, authorization, non-contravention, governmental consents, capital stock of the companies, subsidiaries, financial statements, absence of certain changes, no undisclosed material liabilities, material contracts, compliance with laws and court orders, litigation, title to real property, sufficiency of the acquired assets, intellectual property rights, licenses and permits, tax matters, employee plans, environmental compliance and brokers. Acquisition Corp.'s right to obtain indemnification from Time Warner, and the right of Time Warner to obtain indemnification from Acquisition Corp., for any breach of these respective representations and warranties is generally limited to an aggregate amount of losses in excess of approximately \$26 million, subject to a cap equal to approximately \$260 million. The representations and warranties contained in the purchase agreement, with certain exceptions, expire eighteen months after the closing date of the acquisition.

Other Provisions

No-Solicit; No-Hire

Subject to certain exceptions, for two years after March 1, 2004, Time Warner and its affiliates may not solicit or employ any employee who was employed in our businesses immediately before the closing.

Employee Matters and Pension

For one year after March 1, 2004, we agreed to provide Acquisition Corp. s employees with base salary, bonus and other cash-based compensation opportunities based on targets Acquisition Corp. established and severance benefits that are no less favorable than provided to the employees of Time Warner s music division

Table of Contents

immediately prior to the Acquisition. In addition, Acquisition Corp. has agreed to be responsible for funding of pension benefit obligations of up to \$25 million subsequent to the date of the purchase agreement for current and former employees of the business under non-U.S.-based defined benefit pension plans maintained by Time Warner or any of its subsidiaries. Acquisition Corp. has also otherwise agreed to be responsible for any employment-related liabilities attributable to current and former employees of the business under Time Warner benefit plans other than any U.S. defined benefit pension plan, U.S. retiree medical plan, non-qualified deferred compensation plan or severance plan covering individuals who were not employees of the business as of November 24, 2003.

Use of Names and Logos

Acquisition Corp. has agreed to license from two subsidiaries of Time Warner, on a royalty free basis pursuant to trademark license agreements, certain trademarks and service marks used in the business. The terms of the licenses, subject to provisions providing for termination for cause, is in perpetuity with respect to the marks WARNER, WARNER MUSIC, and a W logo and fifteen years from February 29, 2004 with respect to WARNER BROS. RECORDS, WARNER BROS. PUBLICATIONS, and WB & Shield designs.

The Investor Group

With in excess of \$35 billion under management in the aggregate, THL, Bain Capital and Providence Equity have considerable private equity investment experience and a long history of working and investing together. These firms, in particular, have a deep knowledge of the global media and entertainment industry with recent investments in media, entertainment, publishing and cable television.

In addition, Edgar Bronfman, Jr., an investor through Music Capital and our Chairman of the Board and Chief Executive Officer, has significant and directly relevant management experience in the music industry. From 1994 to 2000, Mr. Bronfman served as President and CEO of Seagram. During his tenure as CEO of Seagram, he consummated \$85 billion in transactions, transformed the company into one of the world's leading media and communications companies and supervised the creation of the world's largest music company in 1998 through the merger of Universal and PolyGram.

THL is a private equity firm founded in 1974 that currently manages several private equity funds with aggregate capital commitments of approximately \$14 billion. THL has invested in more than 80 businesses and is currently investing from Thomas H. Lee Equity Fund V, an equity fund with over \$6.1 billion of committed capital. Recent media-related investments include ProSiebenSAT.1 Media, the largest private television network in Germany, Houghton Mifflin Company, a leading educational publisher, American Media and TransWestern Publishing. THL has more than 20 investment professionals based in Boston.

Bain Capital is a private investment firm that manages several pools of capital including private equity, venture capital, high-yield assets, mezzanine capital and public equity with over \$16 billion in assets under management. Since its inception in 1984, the firm has raised seven private equity funds and made private equity investments and add-on acquisitions in over 250 companies around the world, in a variety of sectors, including media and entertainment. Recent media-related investments include ProSiebenSAT.1 Media, Houghton Mifflin Company, Artisan Entertainment and Loew's Cineplex Entertainment Corporation. Bain Capital has more than 160 investment professionals, with its headquarters in Boston and additional offices in New York, London and Munich.

Edgar Filing: Warner Music Group Corp. - Form S-4/A

Providence Equity is a private investment firm specializing in equity investments in media and communications companies. The principals of Providence manage funds with over \$9.0 billion in equity commitments, including Providence Equity Partners V, a \$4.25 billion private equity fund, and have invested in more than 80 companies operating in over 20 countries since the firm's inception in 1990. Current and previous areas of investment include cable television content and distribution, wireless and wireline telephony, publishing, radio and television broadcasting and other media and communications sectors. Recent investments include PanAmSat Holding Corporation, Kabel Deutschland (Germany's largest cable operator), Mountain States Cable, Casema, F&W Publications and ProSiebenSAT.1 Media.

Table of Contents

Ownership and Corporate Structure

The chart below summarizes our ownership and corporate structure as of March 31, 2005 after giving effect to the Initial Public Offering of Parent, and the Concurrent Transactions.

-
- (1) We currently have no borrowings outstanding under the revolving portion of Acquisition Corp.'s senior secured credit facility but Acquisition Corp. has issued \$4 million of letters of credit under such agreement. Borrowings under the senior secured credit facility and the senior secured term loan facility are guaranteed by Holdings.
 - (2) On May 13, 2005, Acquisition Corp. borrowed an additional \$250 million under the amendment to the Acquisition Corp. senior secured credit facility as described under Management's Discussion and Analysis of Financial Condition and Results of Operations Liquidity .
 - (3) Includes the U.S. dollar equivalent of Acquisition Corp.'s sterling notes, based on the exchange rate as of March 31, 2005.
 - (4) Only wholly owned U.S. subsidiaries that guarantee the senior secured credit facility guarantee the Acquisition Corp. Notes. Such guarantees are on a senior subordinated basis. The outstanding notes are, and exchange notes will be, guaranteed only by Parent, but pursuant to the indenture governing the notes, will be guaranteed by any wholly owned U.S. subsidiary that subsequently guarantees indebtedness of Holdings.

Table of Contents

PRO FORMA CONSOLIDATED CONDENSED FINANCIAL STATEMENTS

Holdings, the issuer of the outstanding notes, is a holding company that conducts substantially all of its business operations through its only asset and wholly owned subsidiary, Acquisition Corp. Holdings is a wholly owned subsidiary of Parent. Parent has fully and unconditionally guaranteed the outstanding notes and will fully and unconditionally guarantee the exchange notes. Accordingly, we have presented the financial information of Parent. See Supplementary Information Condensed Consolidating Financial Statements to Parent's audited historical financial statements and unaudited interim financial statements, included elsewhere in this prospectus, for Holdings financial information on a stand-alone basis.

The following Parent unaudited pro forma consolidated condensed balance sheet as of March 31, 2005 gives effect to the Holdings Refinancing (to the extent not already reflected), the Initial Public Offering and the Concurrent Transactions as if they had occurred as of that date. All financial effects resulting from the Acquisition and the Original Financing, the Cinram Agreements and the Refinancing are already reflected in Parent's historical balance sheet as of March 31, 2005, and accordingly, no pro forma adjustments to the balance sheet are necessary.

The following Parent unaudited pro forma consolidated condensed statement of operations for the twelve months ended September 30, 2004 gives effect to (i) the Acquisition and the Original Financing, (ii) the Cinram Agreements, (iii) the Refinancing, (iv) the Holdings Refinancing, (v) the Initial Public Offering and (vi) the Concurrent Transactions as if they occurred as of October 1, 2003. Because Parent presented a shortened ten-month, transition period in the historical financial statements relating to its change in fiscal year that was enacted in 2004, the Parent unaudited pro forma consolidated condensed statement of operations has been further adjusted to present a full consecutive twelve month period ended September 30, 2004 in order to provide more meaningful information to the users of our financial information.

The following Parent unaudited pro forma consolidated condensed statement of operations for the six months ended March 31, 2005 gives effect to (i) the Holdings Refinancing, (ii) the Initial Public Offering and (iii) the Concurrent Transactions, as of October 1, 2003. All financial effects resulting from the Acquisition and the Original Financing, the Cinram Agreements and the Refinancing are already reflected in Parent's historical statement of operations for the six months ended March 31, 2005, and accordingly, no pro forma adjustments to the statement of operations for such period are necessary.

The Parent pro forma consolidated condensed financial statements have been derived from, and should be read in conjunction with, Parent's historical audited and interim unaudited financial statements, including the notes thereto, included elsewhere herein. The Parent pro forma consolidated condensed financial statements are presented for informational purposes only and are not necessarily indicative of Parent's financial position or results of operations that would have occurred had the events been consummated as of the dates indicated. In addition, the Parent pro forma consolidated condensed financial statements are not necessarily indicative of Parent's future financial condition or operating results.

The Acquisition and the Original Financing

Pro forma adjustments for the Acquisition and the Original Financing reflect the purchase of substantially all of Time Warner's music division effective on March 1, 2004 for an aggregate purchase price of \$2.649 billion, including \$78 million of direct acquisition costs (excluding financing fees) and a \$24 million reduction in the purchase price, which was subsequently settled for \$12 million. The consideration exchanged consisted of \$2.560 billion of cash and \$35 million of non-cash consideration in the form of warrants that give Historic TW the right to purchase common stock of Parent under certain conditions. The terms of the warrants are described elsewhere herein.

Edgar Filing: Warner Music Group Corp. - Form S-4/A

The cash portion of the Acquisition, including \$78 million of direct acquisition costs, was financed by a \$1.250 billion initial capital investment by the Investor Group and aggregate borrowings of \$1.388 billion under the term loan portion of Acquisition Corp.'s senior secured credit facility and under Acquisition Corp.'s former senior subordinated bridge loan facility. We incurred \$262 million of additional indebtedness under the term loan portion of the senior secured credit facility to pay certain financing-related fees, as well as to fund future working capital requirements that included a portion of the anticipated costs to restructure the business.

Table of Contents

Restructuring Plan

We have conducted a detailed assessment of our existing cost structure. As a result of this assessment, we have identified substantial cost-reduction opportunities in our business, the majority of which are associated with headcount reductions from the consolidation of operations and the streamlining of corporate and label overhead. We have completed substantially all of the Restructuring Plan with approximately \$250 million of annualized cost savings, of which approximately \$202 million has been reflected in our statement of operations through March 31, 2005. We project the one-time costs associated with our restructuring to be \$225 million to \$250 million, of which approximately \$165 million has been paid through March 31, 2005. We expect to pay a majority of the remaining costs in 2005 and 2006. Because there are still significant risks associated with the Restructuring Plan, we have not given pro forma effect to any cost savings or incremental one-time costs that have not already been reflected in the historical financial statements of Parent. See Risk Factors.

Purchase Price Allocation

The Acquisition was accounted for under the purchase method of accounting for business combinations. Accordingly, the estimated cost to acquire such assets was allocated to our underlying net assets in proportion to their respective fair values. Most of the valuations and other studies which provide the basis for such an allocation have been completed; however, we are still waiting for certain information in order to finalize the purchase price allocation, including a final settlement of terms with Time Warner. As more fully described in the notes to the Parent pro forma condensed financial statements, a preliminary allocation of the excess of cost over the book value of net tangible assets has been made to identifiable intangible assets in the amounts of \$1.216 billion to recorded music catalog, \$808 million to music publishing copyrights, \$978 million to goodwill and \$110 million to trademarks.

The Cinram Agreements

Prior to the end of October 2003, we purchased manufacturing, packaging and physical distribution services from affiliates of Time Warner that were under the common control of Time Warner and our management. Pricing for such services was not negotiated on an arm's-length basis and did not reflect market rates. At the end of October 2003, Time Warner sold its CD and DVD manufacturing, packaging and physical distribution operations to Cinram. As part of the sale, we and Time Warner entered into long-term arrangements with Cinram under which Cinram provides manufacturing, packaging and physical distribution services for our products in the U.S. and Europe. Accordingly, the Parent pro forma consolidated condensed statement of operations for the twelve month period ended September 30, 2004 has been adjusted to reflect the more favorable market-based rates negotiated on an arm's-length basis under the Cinram Agreements for the October 2003 period in which the Cinram Agreements were not in effect.

The Refinancing

Pro forma adjustments for the Refinancing reflect the interest-related effects relating to the issuance of approximately \$654 million principal amount of the Acquisition Corp. Notes, an additional \$50 million of borrowings under the term loan portion of Acquisition Corp.'s senior secured credit facility plus available cash on hand to (i) repay all \$500 million in borrowings under Acquisition Corp.'s senior subordinated bridge loan facility and (ii) redeem a portion of the preferred stock in Holdings held by the Investor Group in the amount of \$202 million, including accrued dividends of \$2 million.

The Holdings Refinancing

Pro forma adjustments for the Holdings Refinancing reflect (i) the interest-related effects relating to the issuance by Holdings of \$847 million aggregate principal amount at maturity of the Original Holdings Notes on December 23, 2004 and the use of the \$681 million of proceeds therefrom, net of \$15 million of debt issuance costs, to redeem the remaining preferred stock in Holdings in the amount of \$209 million, including accrued dividends of \$9 million, and to pay a dividend on Parent's Class L Common Stock of \$422 million and (ii) the payment of an aggregate of \$50 million in dividends on Parent's Class L Common Stock using the proceeds from the offering of the Original Holdings Notes,

Table of Contents

of which \$43 million was paid on March 28, 2005 and the remaining \$7 million distributed to the Investor Group on May 9, 2005.

The Initial Public Offering

Pro forma adjustments for the Initial Public Offering reflect (i) the issuance of 32,600,000 shares of Parent's common stock and (ii) the use of all \$517 million of the net proceeds from the issuance of common stock plus an amount of cash on hand to repay all outstanding Holdings Floating Rate Notes, all outstanding Holdings PIK Notes and 35% of the outstanding aggregate principal amount at maturity of Holdings Discount Notes, including redemption premiums and interest obligations through the redemption date of June 15, 2005. The pro forma adjustments also reflect the Recapitalization.

Concurrent Transactions

Pro forma adjustments for the Concurrent Transactions reflect the effect of obtaining the new amendment to Acquisition Corp.'s senior secured credit facility, including the incurrence of \$250 million of additional borrowings. Pro forma adjustments also reflect the use of the \$247 million of net proceeds therefrom, plus \$99 million of available cash on hand (i) to pay approximately \$138 million to Historic TW to repurchase the Three-Year Warrants, (ii) to pay \$73 million to terminate the management services agreement with the Investor Group, (iii) to pay an \$8.5 million dividend in satisfaction of the remaining liquidation preference on Parent's Class L Common Stock, (iv) to pay a \$100.5 million dividend to the holders of Parent's Class L Common Stock and Class A Common Stock, including approximately \$7 million relating to the holders of unvested shares of restricted stock which will be paid at a later date when, and if, such restricted shares vest, and (v) to pay one-time special bonuses of approximately \$33 million to management and employees of Parent, consisting of (a) approximately \$20 million to be paid to holders of restricted stock and stock options to make employees whole for certain unfavorable tax consequences, (b) approximately \$3 million to be paid to holders of stock options representing an adjustment for outstanding options as a result of the special cash dividend on Parent's Class L and Class A Common Stock and (c) approximately \$10 million to substantially all of our employees who will have no equity participation in Parent.

Interest Rate Sensitivity

As of March 31, 2005, on a pro forma basis after giving effect to (i) the use of \$517 million of the net proceeds from the issuance of Parent's common stock and \$57 million of available cash on hand to repay all outstanding Holdings Floating Rate Notes, all outstanding Holdings PIK Notes and 35% of outstanding Holdings Discount Notes, and (ii) the Concurrent Transactions, including the \$250 million of new term loan borrowings under Acquisition Corp.'s new amendment to its senior secured credit facility, Parent would have had \$541 million of funded variable-rate indebtedness, net of the effect of \$897 million notional amount of interest-rate swaps that effectively convert a portion of our variable-rate indebtedness to fixed-rate indebtedness. As such, we are sensitive to changes in interest rates. For each 0.25% increase or decrease in interest rates, our interest expense and net loss each would increase or decrease, respectively, by approximately \$1 million.

Non-cash, Stock-based Compensation Expense

As further described in Management's Discussion and Analysis of Financial Condition and Results of Operations Factors Affecting Results of Operations and Financial Condition, Parent's board recently approved certain changes to the terms of previously granted stock options. For accounting purposes, these changes constituted a modification of the terms of the grants. Accordingly, we will be required to remeasure the aggregate compensation expense relating to such grants. Based on our preliminary analysis, we expect our aggregate non-cash compensation

Edgar Filing: Warner Music Group Corp. - Form S-4/A

expense to increase to approximately \$34 million for all awards granted as of April 14, 2005, which will be recognized over the vesting period of such awards. Such amount of non-cash compensation expense is expected to be recognized in the following manner: \$15 million in fiscal 2005, \$10 million in fiscal 2006, \$6 million in fiscal 2007 and \$3 million in fiscal 2008. This compares to previously recorded non-cash, stock-based compensation expense included in Parent's pro forma consolidated condensed statements of operations of \$1 million for the twelve months ended September 30, 2004 and \$9 million for the six months ended March 31, 2005.

- (2) Reflects a decrease in equity of \$7 million and a corresponding decrease in cash and equivalents related to the payment of a dividend on Parent's Class L Common Stock using the remaining proceeds from the Holdings Refinancing. Such amount was paid on May 9, 2005.

Table of Contents

WARNER MUSIC GROUP CORP.

NOTES TO THE PRO FORMA CONSOLIDATED CONDENSED BALANCE SHEET

(3) Pro forma adjustments to record the Initial Public Offering as of March 31, 2005 reflect:

a decrease in long-term debt of \$541 million consisting of (i) the redemption of all \$200 million principal amount of Holdings PIK Notes, which had a carrying value of \$196 million as of March 31, 2005 after considering \$4 million of unamortized original issuance discount, along with additional accrued PIK Notes of \$5 million (ii) the redemption of all \$250 million of Holdings Floating Rate Notes and (iii) the redemption of \$90 million accreted principal amount of Holdings Discount Notes as of March 31, 2005.

a decrease in other noncurrent assets of \$12 million relating to the write off of a portion of the debt issuance costs relating to the Holdings Notes that were redeemed using a portion of the proceeds from the Initial Public Offering.

a net decrease in cash and equivalents of \$57 million consisting of (i) net proceeds raised of \$517 million from the issuance of 32.6 million shares of our common stock to the public and (ii) the use of \$517 million from the proceeds of our initial public offering plus an amount of cash on hand to redeem a portion of the Holdings Notes. The aggregate \$574 million redemption cost for the Holdings Notes, including redemption premiums and interest obligations, includes \$209 million to redeem all of the Holdings PIK Notes, \$265 million to redeem all of the Holdings Floating Rate Notes and \$100 million to redeem 35% of the outstanding Holdings Discount Notes.

a net increase in shareholders' equity of \$472 million consisting of (i) a \$517 million increase in shareholders' equity relating to the issuance of 32.6 million shares of our common stock to the public, after deducting stock issuance costs of \$37 million, (ii) a \$29 million aggregate decrease in shareholders' equity relating to the payment of debt redemption premiums and unaccrued interest obligations through the redemption date relating to the Holdings' debt as of March 31, 2005 and (iii) a \$16 million decrease in shareholders' equity relating to the write off of \$12 million of debt issuance costs and \$4 million of unamortized original issue discount relating to the Holdings Notes that were redeemed using a portion of the proceeds from the Initial Public Offering.

Of the \$29 million of redemption premium and unaccrued interest obligations through the redemption date noted above, \$4 million relates to the redemption of all \$200 million principal amount of the Holdings PIK Notes, \$15 million relates to the redemption of all \$250 million of the Holdings Floating Rate Notes and \$10 million relates to the redemption of \$90 million accreted principal amount of the Holdings Discount Notes as of March 31, 2005.

The Recapitalization, which includes (i) the conversion of all outstanding shares of Parent's Class L Common Stock into shares of Class A Common Stock, (ii) the renaming of all outstanding shares of Parent's Class A Common Stock as common stock, which eliminated Parent's authorized Class L Common Stock and Class A Common Stock and (iii) a 1,139 for 1 split of Parent's common stock, had no effect on the pro forma consolidated condensed balance sheet as of March 31, 2005. This is because all such effects are limited to reclassifications within shareholders' equity.

(4) Pro forma adjustments to record the Concurrent Transactions as of March 31, 2005 reflect:

Edgar Filing: Warner Music Group Corp. - Form S-4/A

an increase in long-term debt of \$250 million to reflect the incurrence of additional borrowings under Acquisition Corp. s new amendment to its senior secured credit facility.

an increase in non-current assets of \$3 million relating to the debt issuance costs incurred in connection with the \$250 million additional borrowings under Acquisition Corp. s new amendment to its senior secured credit facility.

Table of Contents

a decrease in other current liabilities of \$138 million relating to the repurchase of the Three-Year Warrants held by Historic TW. Such amount represents the recorded value of the liability as of March 31, 2005,

an increase in other noncurrent liabilities of approximately \$7 million relating to the portion of the \$100.5 million dividend that would be paid at a later date to holders of record of unvested shares of restricted stock when, and if, such restricted shares vest,

a net decrease in shareholders' equity of \$215 million consisting of (i) a \$73 million decrease relating to the one-time charge incurred in connection with the payment to terminate the management services agreement with the Investor Group, (ii) a \$33 million decrease relating to the one-time charge incurred in connection with the one-time special bonuses to be paid to management and employees of Warner Music Group, (iii) an \$8.5 million decrease relating to a dividend paid in satisfaction of the remaining liquidation preference on Parent's Class L Common Stock and (iv) a \$100.5 million decrease relating to a dividend paid to all of Parent's shareholders existing immediately prior the Initial Public Offering,

a net decrease in cash and equivalents of \$99 million consisting of (i) \$247 million of net proceeds received from additional borrowings under Acquisitions Corp.'s senior secured credit facility, net of \$3 million of debt issuance costs, (ii) the payment of \$138 million to Historic TW to repurchase the Three-Year Warrants, (iii) the payment of \$73 million to terminate the management services agreement with the Investors, (iv) the payment of an \$8.5 million dividend in satisfaction of the remaining liquidation preference on Parent's Class L Common Stock, (v) the payment of \$100.5 million of dividends, of which approximately \$7 million relating to the holders of unvested shares of restricted stock will be paid at a later date when, and if, such restricted shares vest and (vi) the payment of approximately \$33 million of one-time special bonuses to management and employees of Acquisition Corp.

- (2) Reflects the historical operating results for the pre-acquisition, two-month period ended November 30, 2003 of Warner Music Group Corp.

- (3) Reflects pro forma adjustments to exclude the historical, pre-acquisition operating results relating to assets and liabilities that were not acquired or assumed by us in the Acquisition. Such adjustments consist of (i) the elimination of \$15 million of interest income on cash and equivalents that were not acquired, (ii) the elimination of \$10 million of interest expense on debt, capital lease and intercompany

Edgar Filing: Warner Music Group Corp. - Form S-4/A

obligations that were not assumed, (iii) the elimination of \$1 million of net, income on equity-method investees that were not acquired, (iv) the elimination of \$1 million of revenues and \$2 million of distribution costs relating to the sale of our physical distribution operations to Cinram, and (v) the elimination of \$423 million of tax expense relating to the write-off of a deferred tax asset for net operating losses that was only available to us while we remained a member of the Time Warner consolidated tax return.

No tax benefit has been provided on the aggregate pro forma decrease in pretax income due to the uncertainty of realization of Holdings U.S.-based deferred tax assets.

Table of Contents

(4) Pro forma adjustments to record the Acquisition and the Original Financing for the twelve months ended September 30, 2004 reflect:

an increase in interest expense of \$40 million for the five-month period ended February 29, 2004 consisting of (i) a \$19 million increase relating to \$1.15 billion of borrowings under the term loan portion of our senior secured credit facility used to fund a portion of the cash purchase price and other transaction costs at a variable interest rate of 3.90% per annum based on three-month LIBOR rates for the five-month period ended February 29, 2004 plus a margin of 2.75%, (ii) a \$16 million increase relating to \$500 million of borrowings under Acquisition Corp.'s senior subordinated bridge loan facility used to fund a portion of the cash purchase price at an interest rate of 7.5% per annum and (iii) a \$5 million increase relating to the amortization of \$78 million of financing-related fees using a weighted-average life of 7 years paid in connection with the senior secured credit facility and senior subordinated bridge loan facility;

an increase in selling, general and administrative expenses of \$4 million for the five-month, pre-acquisition period ended February 29, 2004 relating to the \$10 million annual management advisory fees paid to the Investor Group under the management services agreement described elsewhere herein;

an increase in minority interest in the amount of \$26 million to reflect aggregate annual preferred dividends of \$40 million based on the original liquidation preference of \$400 million and a dividend rate of 10% per annum on Holdings' preferred shares held by the Investor Group;

a net decrease in amortization expense of intangible assets in the amount of \$23 million for the five-month, pre-acquisition period ended February 29, 2004 consisting of (i) the elimination of \$97 million of historical amortization expense which more than offset (ii) an increase in amortization expense of \$74 million relating to the new values allocated on a preliminary basis to our finite-lived identifiable intangible assets. The pro forma adjustment for the new amortization expense was calculated as follows:

	Allocated Value	Weighted-Average Useful Life	Annual Amortization Expense	Pro Forma Adjustments For the Five-Month, Pre-Acquisition Period Ended February 29, 2004
<u>Intangible Assets Acquired</u>	<u>(millions)</u>	<u>(years)</u>	<u>(millions)</u>	<u>(millions)</u>
<i>Finite-Lived Intangible Assets:</i>

	<u>\$ 2,039</u>		<u>\$ 178</u>	<u>\$ 74</u>
<i>Indefinite-Lived Intangible Assets:</i>				
Trademarks	\$ 100	Indefinite		
Goodwill	978	Indefinite		

Edgar Filing: Warner Music Group Corp. - Form S-4/A

	\$ 1,078		
Total intangible assets	\$ 3,117	\$ 178	\$ 74

No tax benefit has been provided on the aggregate pro forma decrease in pretax income due to the uncertainty of realization of Parent's U.S.-based deferred tax assets.

- (5) Reflects pro forma adjustments to decrease cost of revenues in the amount of \$5 million for the October 2003 period in which the more favorable, market-based pricing arrangements under the third-party Cinram Agreements for manufacturing, packaging and physical distribution services were not in effect.

No tax provision has been provided on the pro forma increase in pretax income arising from this adjustment. This is because this adjustment, when taken in combination with the other pro forma adjustments described

Table of Contents

herein, still results in an aggregate net pretax loss for the Company. Accordingly, no tax benefit has been provided on the aggregate pro forma adjustments to pretax loss due to the uncertainty of realization of the Parent's U.S.-based deferred tax assets.

(6) Pro forma adjustments to record the Refinancing for the twelve months ended September 30, 2004 reflect:

a net increase in interest expense of \$8 million and the elimination of a \$6 million loss incurred on the repayment of the bridge loan. The pro forma adjustment to interest expense is calculated as follows:

Description	Annual Interest Expense(a)	Amount of Interest	Pro Forma Adjustment
		Expense in Historical Operating Results	
(in millions)			
Issuance of \$465 million principal amount of U.S. dollar notes at a fixed interest rate of 7.375% per annum	\$ 34	\$ 16	\$ 18
Issuance of £100 million principal amount of sterling notes at a fixed interest rate of 8.125% per annum, which has been translated at a U.S. Dollar equivalent rate of \$1.80 per British Pound	15	7	8
Additional \$50 million of borrowings under the term loan portion of Acquisition Corp.'s senior secured credit facility at a variable interest rate of 4.01% per annum	2	1	1
Amortization of \$34 million of debt issuance costs arising from the issuance of the Acquisition Corp. Notes over a weighted average life of 10 years	3	2	1
	<u>\$ 54</u>	<u>\$ 26</u>	<u>\$ 28</u>
Elimination of pro forma interest expense relating to the repayment of \$500 million of borrowings under Acquisition Corp.'s senior subordinated bridge facility			<u>(20)</u>
			<u>\$ 8</u>

(a) With respect to variable-rate debt, interest expense is based upon underlying three-month LIBOR rates for the twelve months ended September 30, 2004.

a decrease in minority interest expense of \$20 million resulting from the redemption of half of the shares of Holdings preferred stock that had a liquidation preference of \$200 million and a dividend rate of 10% per annum.

Tax benefits of \$2 million have been provided at a 30% tax rate on the \$8 million pro forma decrease in international pretax income relating to Acquisition Corp.'s sterling notes. However, no tax provision has been provided on the pro forma increase in U.S.-based pretax income relating to minority interest expense. This is because this adjustment, when taken in combination with the other pro forma adjustments described herein, still results in an aggregate net pretax loss for the Company. Accordingly, no tax benefit has been provided on the aggregate pro forma adjustments to U.S.-based pretax loss due to the uncertainty of realization of Parent's U.S.-based deferred tax assets.

Edgar Filing: Warner Music Group Corp. - Form S-4/A

(7) Pro forma adjustments to record the Holdings Refinancing for the twelve months ended September 30, 2004 reflect:

an increase in interest expense of \$64 million consisting of (i) an \$18 million increase relating to the issuance of \$250 million principal amount of Holdings Floating Rate Notes at a variable interest rate of 7.085% based on three-month LIBOR rates plus a margin of 4.375%, (ii) a \$24 million increase relating to the issuance of \$397 million principal amount at maturity of Holdings Discount Notes (\$250

Table of Contents

million of proceeds after the original issuance discount) at a fixed interest rate of 9.5%, (iii) a \$20 million increase relating to the issuance of \$200 million principal amount of Holdings PIK Notes at a variable interest rate of 9.73% based on six-month LIBOR rates plus a margin of 7% and accretion of original issue discount, and (iv) a \$2 million increase relating to the amortization of \$15 million of debt issuance costs over a weighted-average period of 9 years.

a decrease in minority interest expense of \$20 million resulting from the redemption of the remaining shares of Holdings preferred stock that had a liquidation preference of \$200 million and a dividend rate of 10% per annum.

No tax benefit has been provided on the aggregate pro forma decrease in U.S.-based pretax income arising from the Holdings Refinancing due to the uncertainty of realization of Parent's U.S.-based deferred tax assets.

(8) Pro forma adjustments to record the Initial Public Offering for the twelve months ended September 30, 2004 reflect:

an aggregate decrease in interest expense of \$48 million consisting of (i) a \$20 million decrease relating to the redemption of all \$200 million principal amount of Holdings PIK Notes at a variable interest rate of 9.75% based on six-month LIBOR rates plus a margin of 7%, (ii) an \$18 million decrease relating to the redemption of all \$250 million of Holdings Floating Rate Notes at a variable interest rate of 7.09% based on three-month LIBOR rates plus a margin of 4.375%, (iii) an \$8 million decrease relating to the redemption of \$88 million accreted principal amount of Holdings Discount Notes as of March 31, 2005 at a fixed interest rate of 9.5% and (iv) a \$2 million decrease relating to the amortization of \$16 million of allocable deferred financing costs and original issuance discount that was being amortized over a weighted-average period of 9 years.

No tax provision has been provided on the pro forma increase in U.S.-based pretax income. This is because this adjustment, when taken in combination with the other pro forma adjustments described herein, still results in an aggregate net pretax loss for Parent. Accordingly, no tax benefit has been provided on the aggregate pro forma adjustment to U.S.-based pretax loss due to the uncertainty of realization of Parent's U.S.-based deferred tax assets.

In addition, the pro forma consolidated condensed statement of operations excludes \$52 million of one-time, pretax charges because they have no continuing impact on our operations. Such charges consist of (i) \$16 million to write off debt issuance costs and unamortized original issuance discount relating to the Holdings Notes that were redeemed using a portion of the proceeds from the Initial Public Offering and (ii) \$36 million to redeem a portion of the Original Holdings Notes, representing the aggregate redemption price (including redemption premiums and interest obligations through the redemption date thereon) in excess of the carrying value of the corresponding portion of the Original Holdings Notes as of March 31, 2005.

(9) Pro forma adjustments to record the Concurrent Transactions for the twelve months ended September 30, 2004 reflect:

a net decrease in interest expense of \$1 million consisting of (i) an increase in interest expense of \$9 million relating to the incurrence of \$250 million of additional term loan borrowings under Acquisition Corp.'s new amendment to its senior secured credit facility at a variable interest rate of 3.76% per annum based on three-month LIBOR rates plus a margin of 2.5% and (ii) a cumulative decrease in interest expense of \$10 million relating to an average 71 basis point reduction in the applicable credit margin on the \$1.441 billion pro forma, weighted-average term loan borrowings during the period under Acquisition Corp.'s new amendment to the senior secured credit agreement.

the elimination of a \$120 million unrealized loss on warrants resulting from the repurchase of the Three-Year Warrants held by Historic TW.

Edgar Filing: Warner Music Group Corp. - Form S-4/A

No tax provision has been provided on the pro forma increase in U.S.-based pretax income. This is because this adjustment, when taken in combination with the other pro forma adjustments described herein, still results in an aggregate net pretax loss for Parent. Accordingly, no tax benefit has been provided on the

Because the Company recognized a pro forma net loss for the twelve months ended September 30, 2004, the effects from the exercise of any outstanding stock options or the vestiture of shares of restricted stock, during such period would have been antidilutive. Accordingly, they have not been included in the presentation of diluted net income (loss) per common share.

WARNER MUSIC GROUP CORP.

NOTES TO THE PRO FORMA CONSOLIDATED CONDENSED STATEMENT OF OPERATIONS

(11) Reflects Parent's historical operating results for the six months ended March 31, 2005.

(12) Pro forma adjustments to record the Holdings Refinancing for the six months ended March 31, 2005 reflect:

an increase in interest expense of \$15 million consisting of (i) a \$4 million increase relating to the issuance of \$250 million principal amount of Holdings Floating Rate Notes at a variable interest rate of 6.675% based on three-month LIBOR rates plus a margin of 4.375%, (ii) a \$6 million increase relating to the issuance of \$397 million principal amount at maturity of Holdings Discount Notes (\$250 million of proceeds after the original issuance discount) at a fixed interest rate of 9.5%, (iii) a \$5 million increase relating to the issuance of \$200 million principal amount of Holdings PIK Notes at a variable interest rate of 9.48% based on six-month LIBOR rates plus a margin of 7% and accretion of original issuance discount, (iv) a \$1 million increase relating to the amortization of \$15 million of debt issuance costs over a weighted-average period of 9 years and (v) a \$1 million decrease relating to the amount of interest expense included in our historical operating results that was already considered in the adjustments above,

a decrease in minority interest expense of \$5 million resulting from the redemption of the remaining shares of Holdings preferred stock that had a liquidation preference of \$200 million and a dividend rate of 10% per annum.

No tax benefit has been provided on the aggregate pro forma decrease in U.S.-based pretax income arising from the Holdings Refinancing due to the uncertainty of realization of U.S.-based deferred tax assets.

(13) Pro forma adjustments to record the Initial Public Offering for the six months ended March 31, 2005 reflect:

an aggregate decrease in interest expense of \$24 million consisting of (i) a \$10 million decrease relating to the redemption of all \$200 million principal amount of Holdings PIK Notes at a variable interest rate of 9.68% based on six-month LIBOR rates plus a margin of 7%, (ii) a \$9 million decrease relating to the redemption of all \$250 million of Holdings Floating Rate Notes at a variable interest rate of 6.85% based on three-month LIBOR rates plus a margin of 4.375%, (iii) a \$4 million decrease relating to the redemption of \$90 million accreted principal amount of Holdings Discount Notes as of March 31, 2005 at a fixed interest rate of 9.5% and (iv) a \$1 million decrease relating to the amortization of \$16 million of allocable deferred financing costs and original issuance discount that was being amortized over a weighted-average period of 9 years.

No tax provision has been provided on the pro forma increase in U.S.-based pretax income. This is because this adjustment, when taken in combination with the other pro forma adjustments described herein and additional projected pretax losses for fiscal 2005, results in an aggregate net pretax loss for the Company. Accordingly, no tax benefit has been provided on the aggregate pro forma adjustment to U.S.-based pretax income due to the uncertainty of realization of Warner Music Group Corp.'s U.S.-based deferred tax assets.

In addition, the pro forma consolidated condensed statement of operations excludes \$45 million of one-time, pretax charges because they have no continuing impact on our operations. Such charges consist of (i) \$16 million to write off debt issuance costs and unamortized original issuance discount relating to the Holdings Notes that will be redeemed using a portion of the proceeds from the Initial Public Offering and (ii) \$29 million to redeem a portion of the Holdings Notes, representing the aggregate redemption price (including redemption premiums and

Edgar Filing: Warner Music Group Corp. - Form S-4/A

interest obligations through the anticipated redemption date thereon) in excess of the carrying value of the corresponding portion of the Holdings Notes as of March 31, 2005.

(14) Pro forma adjustments to record the Concurrent Transactions for the six months ended March 31, 2005 reflect:

a net increase in interest expense of \$1 million consisting of (i) an increase in interest expense of \$6 million relating to the incurrence of \$250 million of additional term loan borrowings under Acquisition

Table of Contents

Corp. s senior secured credit facility at a variable interest rate of 4.97% per annum based on three-month LIBOR rates plus a margin of 2.5%, and (ii) a cumulative decrease in interest expense of \$5 million relating to an average 71 basis point reduction in the average applicable credit margin on \$1.441 billion pro forma, weighted-average term loan borrowings during the period under our proposed amendment to the senior secured credit agreement,

the elimination of the \$17 million of unrealized gain on warrants resulting from the assumed repurchase of the Three-Year Warrants held by Historic TW.

No tax provision has been provided on the pro forma increase in U.S.-based pretax income. This is because this adjustment, when taken in combination with the other pro forma adjustments described herein and additional projected pretax losses for fiscal 2005, results in an aggregate net pretax loss for Parent. Accordingly, no tax benefit has been provided on the aggregate pro forma adjustments to U.S.-based pretax income due to the uncertainty of realization of Warner Music Group Corp. s U.S.-based deferred tax assets.

In addition, the pro forma consolidated condensed statement of operations excludes a net \$106 million one-time, pretax charge because it has no continuing impact on our operations. Such charge consists of (i) a \$73 million charge relating to the termination of the management services agreement and (ii) a \$33 million charge relating to the payment of one-time, special bonuses to management and employees of Acquisition Corp.

- (15) Pro forma basic earnings (loss) per common share is computed by dividing earnings (loss) available to common stockholders by the weighted average number of common shares outstanding during the period. Pro forma diluted earnings per common share is computed by dividing earnings (loss) available to common stockholders by the sum of weighted average common shares outstanding plus dilutive common shares for the period. Pro forma basic and diluted common shares also include the number of shares from the Initial Public Offering whose proceeds were used for the repayment of debt.

In connection with the Initial Public Offering, the Company (i) converted all of the outstanding shares of Class L Common Stock into shares of Class A Common Stock, (ii) renamed all of the outstanding shares of Class A Common Stock as common stock, which had the effect of eliminating from Parent s authorized capital stock the Class L Common Stock and Class A Common Stock and (iii) authorized a 1,139 for 1 split of our common stock. Pro forma basic and diluted net income (loss) per common share has been computed after giving effect to the above transactions.

Table of Contents

The following table sets forth the computation of pro forma basic and diluted net income (loss) per share (in millions, except per share amounts):

	Six Months Ended
	March 31, 2005

Basic and diluted pro forma net income per common share:	
Numerator:	
Net income	\$ 35
Denominator:	
Weighted average common shares outstanding	115.5
Less: Weighted average unvested common shares subject to repurchase or cancellation	(7.9)
Add: Shares from the Initial Public Offering whose proceeds would be used for the repayment of debt(1)	32.6

Denominator for basic calculation	140.2
Effect for dilutive securities:	
Add: Weighted average stock options and unvested common shares subject to repurchase or cancellation	12.0

Denominator for diluted calculation	152.2

Pro forma net income per common share basic	\$ 0.25

Pro forma net income per common share diluted	\$ 0.23

(1) Calculated as \$517 million of proceeds to be used in the redemption of debt, including redemption premiums and accrued interest thereon through the date of redemption, divided by the offering proceeds of \$15.85 per share, net of issuance costs and expenses.

Table of Contents

SELECTED HISTORICAL CONSOLIDATED FINANCIAL AND OTHER DATA

Holdings, the issuer of the outstanding notes, is a holding company that conducts substantially all of its business operations through its only asset and wholly owned subsidiary, Acquisition Corp. Holdings is a wholly owned subsidiary of Parent. Parent has fully and unconditionally guaranteed the outstanding notes and will fully and unconditionally guarantee the exchange notes. Accordingly, we have presented the financial information of Parent. See Supplementary Information Condensed Consolidating Financial Statements to Parent's audited historical financial statements and unaudited interim financial statements, included elsewhere in this prospectus, for Holdings financial information on a stand-alone basis.

Parent's summary balance sheet data as of September 30, 2004 and November 30, 2003 and the statement of operations and other data for each of (i) the seven months ended September 30, 2004, (ii) the three months ended February 29, 2004 and, (iii) the years ended November 30, 2003 and 2002 have been derived from Parent's audited financial statements included elsewhere in this prospectus. Parent's summary balance sheet data as of March 31, 2005 and the statement of operations and other data for each of the (i) ten months ended September 30, 2003, (ii) the five months ended February 29, 2004, (iii) the one month ended March 31, 2004 (iv) and the six months ended March 31, 2005 have been derived from Parent's unaudited financial statements included elsewhere in this prospectus. Parent's balance sheet data as of November 30, 2002 is derived from Parent's audited financial statements that are not included in this prospectus. Parent's summary historical balance sheet data as of September 30, 2003 and Parent's summary historical financial data as of and for each of the two years ended November 30, 2001 and 2000 have been derived from Parent's unaudited financial statements that are not included in this prospectus.

The comparability of Parent's selected historical financial data has been affected by a number of significant events and transactions. These include the Acquisition in 2004, a change in Parent's fiscal year to September 30 from November 30, which was enacted in 2004, and the AOL Time Warner Merger in 2001. For all periods prior to the Acquisition, the music and publishing businesses formerly owned by Time Warner are referred to as Old WMG or the Predecessor. For all periods subsequent to the Acquisition, the business is referred to as the Company or the Successor. Due to the change in Parent's year end, financial information for 2004 reflects a shortened ten-month period ended September 30, 2004 and is separated into two pre-acquisition and post-acquisition periods as a result of the change in accounting basis that occurred relating to the Acquisition. In addition, summary historical financial data for 2000 does not reflect the pushdown of a portion of the purchase price relating to the AOL Time Warner Merger that occurred in 2001 to our financial statements.

The following table sets forth Parent's selected historical financial and other data as of the dates and for the periods indicated.

(1) Audited, except for Other Financial Data.

(2) We evaluate segment and consolidated performance based on several factors, of which the primary measure is operating income (loss) before non-cash depreciation of tangible assets, non-cash amortization of intangible assets and non-cash impairment charges to reduce the carrying value of goodwill and intangible assets (which we refer to as OIBDA). See Use of OIBDA under Management s Discussion and Analysis of Financial Condition and Results of Operations elsewhere herein. Note that OIBDA is different from Adjusted EBITDA as defined in Management s Discussion and Analysis of Financial Condition and Results of Operations Financial Condition and Liquidity Covenant Compliance , which is presented on a consolidated and combined basis therein as a covenant compliance measure. The following is a reconciliation of operating income, which is a GAAP measure of our operating results, to OIBDA

	Historical										
	Predecessor					Successor

(3) For purposes of calculating the earnings to fixed charges, earnings represent income (loss) before income taxes plus fixed charges. Fixed charges consist of interest expense and one-third of rental expense under operating leases (the portion that has been deemed by management to be representative of the interest factor). In periods where earnings were insufficient to cover fixed charges, the deficiency of earnings over fixed charges has been disclosed. Pretax earnings for 2002 and 2003 have been reduced by a \$1.5 billion and \$1.0 billion, respectively, non-cash charge to reduce the carrying value of our goodwill and other intangible assets. Accordingly, because this charge was non-cash, it is not indicative of our ability to cover our fixed charges with pretax earnings. Excluding the non-cash impairment charge for 2002 and 2003 on a historical basis, and the twelve months ended September 30, 2004 on a pro forma basis, would result in a deficiency of earnings over fixed charges of \$70 million in 2002, \$298 million in 2003 and \$207 for the twelve months ended September 30, 2004. In addition, deficiency of earnings over fixed charges in each period includes significant non-cash amortization expenses on intangible assets of \$93 million, \$178 million, \$93 million, \$104 million, \$15 million, \$97 million, \$56 million, \$201 million, \$242 million, \$182 million, \$821 million and \$240 million in each of the pro forma six months ended March 31, 2005, pro forma twelve months ended September 30, 2004, the six months ended March 31, 2005, the seven months ended September 30, 2004, the one month ended March 31, 2004, the five months ended February 29, 2005, the three months ended February 29, 2004, the ten months ended September 30, 2003 and fiscal 2003, 2002, 2001 and 2000, respectively.

**MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL
CONDITION AND RESULTS OF OPERATIONS**

The following discussion and analysis of Parent's results of operations and financial condition includes periods prior to the consummation of the Transactions. Accordingly, the discussion and analysis of operating results for historical periods prior to 2004 does not reflect the significant impact that the Transactions have had on Parent, including significantly increased financing costs. You should read the following discussion of Parent's results of operations and financial condition with the Pro Forma Consolidated Condensed Financial Statements, Selected Historical Consolidated Financial and Other Data and the Parent audited historical and Parent unaudited interim financial statements included elsewhere in this prospectus. This discussion contains forward-looking statements and involves numerous risks and uncertainties, including, but not limited to, those described in the Risk Factors section of this registration statement. Actual results may differ materially from those contained in any forward-looking statements.

Holdings, the issuer of the outstanding notes, is a holding company that conducts substantially all of its business operations through its only asset and wholly owned subsidiary, Acquisition Corp. Holdings is a wholly owned subsidiary of Parent. Parent has fully and unconditionally guaranteed the outstanding notes and will fully and unconditionally guarantee the exchange notes. Accordingly, we have presented the financial information of Parent. See Supplementary Information Condensed Consolidating Financial Statements to Parent's audited historical financial statements and unaudited interim financial statements, included elsewhere in this prospectus, for Holdings financial information on a stand-alone basis.

INTRODUCTION

Management's discussion and analysis of results of operations and financial condition (MD&A) is provided as a supplement to the Parent audited and unaudited interim financial statements and footnotes included elsewhere herein to help provide an understanding of our financial condition, changes in financial condition and results of our operations. MD&A is organized as follows:

Overview. This section provides a general description of our businesses, as well as recent developments that we believe are important in understanding our results of operations and financial condition and in anticipating future trends.

Results of operations. This section provides an analysis of our results of operations for the six months ended March 31, 2005 and 2004, the ten months ended September 30, 2004 and 2003 and the years ended November 30, 2003 and 2002. This analysis is presented on both a consolidated and segmental basis.

Financial condition and liquidity. This section provides an analysis of our cash flows for the six months ended March 31, 2005 and 2004 and the ten months ended September 30, 2004 and 2003, as well as a discussion of our financial condition and liquidity as of March 31, 2005 and September 30, 2004. The discussion of our financial condition and liquidity includes (i) a summary of our outstanding debt and commitments (both firm and contingent) that existed as of September 30, 2004, (ii) our available financial capacity under the revolving credit portion of Acquisition Corp.'s senior secured credit facility and (iii) a summary of our key debt compliance measures, consisting of leverage and interest coverage ratios under Acquisition Corp.'s senior secured credit facility.

Market risk management. This section discusses how we manage exposure to potential losses arising from adverse changes in interest rates and foreign currency exchange rates.

Edgar Filing: Warner Music Group Corp. - Form S-4/A

Critical accounting policies. This section discusses accounting policies considered to be important to our financial condition and results of operations, and which require significant judgment and estimates on the part of management in their application. In addition, all of our significant accounting policies, including our critical accounting policies, are summarized in Notes 3 and 4 to our audited financial statements included elsewhere herein.

Table of Contents

Use of OIBDA

We evaluate our operating performance based on several factors, including our primary financial measure of operating income (loss) before non-cash depreciation of tangible assets, non-cash amortization of intangible assets and non-cash impairment charges to reduce the carrying value of goodwill and other intangible assets (which we refer to as OIBDA). We consider OIBDA to be an important indicator of the operational strengths and performance of our businesses, including the ability to provide cash flows to service debt. However, a limitation of the use of OIBDA as a performance measure is that it does not reflect the periodic costs of certain capitalized tangible and intangible assets used in generating revenues in our businesses. Accordingly, OIBDA should be considered in addition to, not as a substitute for, operating income (loss), net income (loss) and other measures of financial performance reported in accordance with U.S. GAAP.

Change in Fiscal Year and Basis of Presentation

In 2004, in connection with the Acquisition, we changed our fiscal year-end to September 30 from November 30. As such, financial information for 2004 is presented for the six-month and ten-month transition periods ended March 31, 2004 and September 30, 2004 and is separated into pre-acquisition and post-acquisition periods as a result of the change in accounting basis that occurred relating to the Acquisition. That is, we have presented our operating results and cash flows separately for each of the pre-acquisition, three-month and five-month periods ended February 29, 2004 and the post-acquisition, and one month ended March 31, 2004 and seven-month period ended September 30, 2004.

The split presentation mentioned above is required under GAAP in situations when a change in accounting basis occurs. This is because the new accounting basis requires that the historical carrying value of assets acquired and liabilities assumed be adjusted to fair value, which may yield results that are not strictly comparable on a period-to-period basis due to the different, and sometimes higher, cost basis associated with the allocation of the purchase price.

We believe that this split presentation may impede the ability of users of our financial information to understand our operating and cash flow performance. Consequently, in order to enhance an analysis of our operating results and cash flows, we have presented our operating results and cash flows on a combined basis for the full six-month and ten-month periods ended March 31, 2004 and September 30, 2004. This combined presentation for the six-month period ended March 31, 2004 simply represents the mathematical addition of the pre-acquisition, five-month period ended February 29, 2004 and the post-acquisition, one-month period ended March 31, 2004. This combined presentation for the ten-month period ended September 30, 2004 simply represents the mathematical addition of the pre-acquisition, three-month period ended February 29, 2004 and the post-acquisition, seven-month period ended September 30, 2004. The combined basis is not intended to represent what our operating results would have been had the Acquisition occurred at the beginning of the periods. A reconciliation showing the mathematical combination of our operating results for such periods is included herein.

Though we believe that the combined presentation is most meaningful for the six months ended March 31, 2004 and ten months ended September 30, 2004, it is not in conformity with GAAP. As such, we have supplemented our historical operating results for the periods, as appropriate, with pro forma financial information and have further highlighted in our discussions that follow any significant effects from the Acquisition to facilitate an understanding of a comparison of our operating results from period-to-period.

In order to enhance comparability, the combined financial information for the ten-month period ended September 30, 2004 has been supplemented by the presentation of unaudited financial information for the comparative ten-month period ended September 30, 2003. Based on how the Company's closing schedule occurred in 2003, the 2003 period consists of 43 weeks, as compared to 44 weeks contained in the ten-month period ended September 30, 2004.

Table of Contents

OVERVIEW

Description of Business

We are one of the world's major music companies. Effective as of March 1, 2004, substantially all of Time Warner Inc.'s music division was acquired from Time Warner by us for approximately \$2.6 billion. During the six months ended March 31, 2005 and the ten months ended September 30, 2004, we reported revenues of \$1.855 billion and \$2.548 billion, respectively, operating income of \$157 million and \$7 million, respectively, OIBDA of \$278 million and \$219 million, respectively and net income (loss) of \$40 million and \$(270) million, respectively.

We classify our business interests into two fundamental areas: Recorded Music and Music Publishing. A brief description of those operations is presented below.

Our business is seasonal. Therefore, operating results for the six months ended March 31, 2005 are not necessarily indicative of the results that may be expected for the year ended September 30, 2005.

Recorded Music Operations

Our Recorded Music business consists of the discovery and development of artists and the related marketing, distribution and licensing of recorded music produced by such artists. In the U.S., our operations are conducted principally through our major record labels Warner Bros. Records Inc. and The Atlantic Records Group. Internationally, our Recorded Music operations are conducted through our Warner Music International division (WMI) which includes various subsidiaries, affiliates and non-affiliated licensees in more than 50 countries.

Our Recorded Music operations also include a catalog division named Warner Strategic Marketing (WSM). WSM specializes in marketing our music catalog through compilations and reissues of previously released music and video titles, as well as in the licensing of recordings to/from third parties for various uses, including film and television soundtracks.

Our principal Recorded Music distribution operations include Warner-Elektra-Atlantic Corporation (WEA Corp.), which primarily markets and sells music products to retailers and wholesale distributors in the U.S.; a 90% interest in Alternative Distribution Alliance, an independent distribution company; various distribution centers and ventures operated internationally; and an 80% interest in Word Entertainment, whose distribution operations specialize in the distribution of music products in the Christian retail marketplace.

Our principal recorded music revenue sources are sales of CDs, digital downloads and other recorded music products and license fees received for the ancillary uses of our recorded music catalog.

The principal costs associated with our Recorded Music operations are as follows:

Edgar Filing: Warner Music Group Corp. - Form S-4/A

artist and repertoire costs the costs associated with (i) signing and developing artists, (ii) creating master recordings in the studio, (iii) creating artwork for album covers and liner notes and (iv) paying royalties to artists, producers, songwriters, other copyright holders and trade unions;

manufacturing, packaging and distribution costs the costs to manufacture and distribute product to wholesale and retail distribution outlets;

marketing and promotion costs the costs associated with the promotion of artists and recorded music products, including costs to produce music videos for promotional purposes and artist tour support; and

administration costs the costs associated with general overhead and other administrative costs, as well as costs associated with anti-piracy initiatives.

During the six months ended March 31, 2005 and ten months ended September 30, 2004, our Recorded Music segment reported revenues of \$1,561 million and \$2.059 billion, respectively, OIBDA of \$266 million and \$158 million, respectively, and operating income of \$182 million and \$15 million, respectively.

Table of Contents

Music Publishing Operations

Our Music Publishing operations include Warner/Chappell Music, Inc. and its wholly owned subsidiaries, and certain other music publishing affiliates of the Company. We own or control the rights to more than one million musical compositions, including numerous pop music hits, American standards, folk songs and motion picture and theatrical compositions. Our Music Publishing operations also include Warner Bros. Publications (WBP), which markets printed versions of our music throughout the world. On December 15, 2004, we entered into a definitive agreement to sell WBP to Alfred Publishing. The sale was closed on May 31, 2005. The sale is not expected to have a material effect on our future operating results and financial condition.

Publishing revenues are derived from four main royalty sources:

Mechanical: the licensor receives royalties with respect to compositions embodied in recordings sold in any format or configuration, including singles, albums, CDs, digital downloads and mobile phone ring tones.

Performance: the licensor receives royalties if the composition is performed publicly (e.g., broadcast radio and television, movie theater, concert, nightclub or Internet and wireless streaming).

Synchronization: the licensor receives royalties or fees for the right to use the composition in combination with visual images (e.g., in films, television commercials and programs and videogames).

Other: the licensor receives royalties from other uses such as stage productions and printed sheet music.

The principal costs associated with our Music Publishing operations are as follows:

repertoire costs the costs associated with (i) signing and developing songwriters and (ii) paying royalties to songwriters, co-publishers and other copyright holders in connection with income generated from the exploitation of their copyrighted works;

manufacturing, packaging and distribution costs the costs to manufacture and distribute sheet music and songbooks to retail distribution outlets and schools; and

administration costs the costs associated with general overhead and other administrative costs.

During the six months ended March 31, 2005 and the ten months ended September 30, 2004, our Music Publishing segment reported revenues of \$309 million and \$505 million, respectively, OIBDA of \$71 million and \$125 million, respectively, and operating income of \$42 million and \$70 million, respectively.

Factors Affecting Results of Operations and Financial Condition

Market Factors

Over the past four years, the recorded music industry has been unstable, which has adversely affected our operating results. The industry-wide decline can be attributed primarily to digital piracy. Other drivers of this decline are the overall recessionary economic environment, bankruptcies of record retailers and wholesalers, growing competition for consumer discretionary spending and retail shelf space, and the maturation of the CD format which has slowed the historical growth pattern of recorded music sales. While potential new formats for selling recorded music product have been created, including the legal downloading of digital music using the Internet and DVD-Audio formats, significant revenue streams from these new markets have yet to emerge. Accordingly, although we believe that the recorded music industry should continue to improve as evidenced by the year-over-year growth in U.S. music physical unit sales in 2004, the flat performance in overall (physical and digital) music unit sales globally in 2004 and the best year-on-year trend in global music sales for five years according to IFPI, the industry may relapse into a period of decline, as witnessed from 1999 to 2003, which would continue to negatively affect operating results. For example, as of July 3, 2005, year-to-date U.S. recorded music sales (excluding sales of digital tracks) are down approximately 7.1% year-over-year. In addition, a declining recorded music industry could continue to have an adverse impact on the music publishing business. This is because our music publishing business generates a significant portion of its revenues from mechanical royalties received from the sale of music in recorded music formats such as the CD.

Table of Contents

Due in part to the development of the new channels mentioned above and ongoing anti-piracy initiatives, we believe that the recorded music industry is positioned to improve over the coming years. However, the industry may relapse into a period of decline. In addition, there can be no assurances as to the timing or the extent of any improvement in the industry. Accordingly, we have executed a number of cost-saving initiatives over the past few years in an attempt to realign our cost structure with the changing economics of the industry. These initiatives have included significant headcount reductions, exiting certain leased facilities in an effort to consolidate locations and the sale of our manufacturing, packaging and physical distribution operations.

We have conducted a detailed assessment of our existing cost structure. As a result of this assessment, we have identified substantial cost-reduction opportunities in our business, the majority of which are associated with headcount reductions from the consolidation of operations and the streamlining of corporate and label overhead. We have completed substantially all of the Restructuring Plan with approximately \$250 million of annualized cost savings, of which approximately \$202 million has been reflected in our statement of operations through March 31, 2005. We project the one-time costs associated with our restructuring to be \$225 million to \$250 million, of which approximately \$165 million has been paid through March 31, 2005. There are still significant risks associated with the Restructuring Plan. See Risk Factors.

Transactions with Time Warner and its Affiliates

As previously described, prior to March 1, 2004, Old WMG was owned and operated by Time Warner. As such, in the normal course of conducting our business, Old WMG had various commercial and financing arrangements with Time Warner and its affiliates. In particular, Old WMG purchased manufacturing packaging and physical distribution services from affiliates of Time Warner, and Time Warner funded its operating and capital requirements. See Note 21 to Parent's audited financial statements included elsewhere herein for a summary of the principal transactions between us and Time Warner and its affiliates.

Time Warner sold its CD and DVD manufacturing, packaging and physical distribution operations to Cinram at the end of October 2003. Prior to the sale, these operations were under the control of Time Warner and our management. As such, pricing for such services was not negotiated on an arm's-length basis and did not reflect market rates. As part of the sale, Time Warner and Old WMG entered into long-term arrangements with Cinram. Under these arrangements, Cinram will provide manufacturing, packaging and physical distribution services for our products in the U.S. and Europe at favorable, market-based rates that were negotiated on an arm's-length basis.

With respect to the financing arrangements with Time Warner, all cash received or paid by Old WMG was included in, or funded by, clearing accounts or shared international cash pools within Time Warner's centralized cash management system. Some of those arrangements were interest-bearing and others were not. Accordingly, historical net interest expense is not representative of the amounts incurred by us under our new leveraged capital structure created in connection with the Acquisition.

Future Charges and Payments Relating to Executive Compensation

Primarily in 2004, but also to a limited extent in 2005, we sold shares of restricted stock and granted options to various employees to assist us in recruiting, retaining and motivating key employees. We subsequently determined that certain shares of restricted stock may have been sold at prices below fair market value on the applicable date of sale and certain options may have had exercise prices below fair market value on the applicable date of grant.

Edgar Filing: Warner Music Group Corp. - Form S-4/A

As a result, certain U.S. employee holders of restricted stock who made elections under Section 83(b) of the Internal Revenue Code will be subject to additional ordinary income tax to the extent of the fair market value of the restricted stock received over the purchase price they paid for such stock. In other cases, certain employees who did not make such an election will be subject to higher taxes on their restricted shares at the time of vesting than would have been the case had they purchased the shares for fair market value. In addition, under the provisions of the American Jobs Creation Act of 2004, signed into law October 22, 2004, U.S. employee option

Table of Contents

holders whose options vest with exercise prices below fair market value on the date of grant are subject to significant penalties under new Section 409A of the Internal Revenue Code. IRS Notice 2005-1 provides transitional guidance on the application of Section 409A which, among other things, permits options with exercise prices below the fair market value of the underlying stock on the date of grant to be amended or replaced with new options having an exercise price at least equal to the fair market value on the grant date. Non-U.S. employee holders of restricted stock or options may be subject to similar or other related issues. In order for us to address these issues, including implementing the changes permitted by Notice 2005-1, on April 11, 2005, our compensation committee, based on a re-assessment of fair market values on the applicable dates, approved the actions described below.

Restricted Stock. The Company is authorized to pay each employee who purchased restricted stock on or after May 1, 2004 at prices that may have been below fair market value on the date of purchase a cash bonus. The cash bonus payable to those employees who made a Section 83(b) election will be an amount equal to the tax liability incurred by the employee as of the date of purchase based on any difference between the re-determined purchase date fair market value and the amount originally paid by the employee, plus an amount necessary to pay the taxes on the bonus. The bonus that would be payable to each of those employees who did not make a Section 83(b) election or the applicable foreign equivalent would be an amount reflecting an estimate of the additional tax which would be payable by the employee at the time the restricted stock is scheduled to vest due to that taxable amount being subject to ordinary income rather than capital gains tax rates, and assuming that the re-determined value of the stock remains constant over the vesting period, adjusted down to reflect a present value discount based on the earliest possible vesting dates. We would also pay these employees an amount necessary to pay the taxes on the bonus. This resulted in approximately \$10 million, which was expensed in the third fiscal quarter of 2005.

Options. We granted stock options to employees to purchase an aggregate of 5,304,116 shares after the Recapitalization with a weighted average exercise price of \$1.62. The exercise prices of these options are expected to be adjusted to prices equal to the applicable re-determined fair market values of the common stock on the applicable dates of the respective grants. To compensate the grantees for the loss of value represented by this adjustment to the option exercise prices, we expect to pay each affected employee a cash bonus in an amount equal to the excess of the adjusted aggregate exercise price of the employee's options over the original aggregate exercise price of the employee's options, adjusted down to reflect a present value discount based on the earliest possible exercise dates. This resulted in \$9 million, which was expensed in the third fiscal quarter of 2005.

Non-cash, Stock-based Compensation Expense. As a result of the aforementioned changes approved by our compensation committee, we have determined that a modification of the terms of our previously granted stock options has occurred for accounting purposes. Accordingly, we will be required to remeasure the aggregate compensation expense relating to such grants. Based on our preliminary analysis, we expect our aggregate non-cash compensation expense to increase to approximately \$34 million for all awards granted as of April 14, 2005, which will be recognized over the vesting period of such awards. Such amount of non-cash compensation expense is expected to be recognized in the following manner: \$15 million in fiscal 2005, \$10 million in fiscal 2006, \$6 million in fiscal 2007 and \$3 million in fiscal 2008. This compares to previously recorded non-cash, stock-based compensation expense of \$1 million for the seven months ended September 30, 2004 and \$9 million for the six months ended March 31, 2005.

Option Adjustments as a Result of Dividend to Investor Group

In connection with the \$100.5 million cash dividend we declared to the holders of our common stock prior to the Initial Public Offering, consisting of the Investor Group and certain members of management, we are making an adjustment to all options outstanding at the time of declaration of the dividend. The adjustment consists of a cash make-whole payment consisting of an amount equal to the pro rata amount that would have been received per share had all outstanding options been exercised at the time of the declaration of the dividend

Table of Contents

adjusted down to reflect a present value discount based on the earliest possible exercise dates. This payment to holders of unvested options resulted in additional compensation expense of approximately \$3.0 million in the third fiscal quarter of 2005.

Employee Bonus Plan

Our board has approved a special one-time bonus that will be payable upon consummation of our Initial Public Offering to all or substantially all of our employees, excluding senior management and any employees that have, or to whom we plan to grant, an equity participation in our company. The amount of the award granted to an employee equated approximately 4% of the employee's annual salary. The aggregate amount of the bonuses did not exceed \$10.0 million.

Termination of Management/Monitoring Agreement

In connection with the Acquisition, the Company entered into a management monitoring agreement (the *Management Agreement*) with the Investor Group for ongoing consulting and management advisory services. Under the Management Agreement, the Company and its subsidiaries WMG Holdings Corp. and WMG Acquisition Corp. were required to pay the Investor Group an aggregate annual fee of \$10 million per year (the *Periodic Fees*) in consideration for ongoing consulting and management advisory services. In addition, in the case of future services provided in connection with any future acquisition, disposition, or financing transactions involving the Company or its subsidiaries, the Management Agreement required the Company, WMG Holdings Corp. and WMG Acquisition Corp. to pay the Investor Group an aggregate fee of one percent of the gross transaction value of each such transaction (*Subsequent Fees*). The Management Agreement also requires the Company, WMG Holdings Corp. and WMG Acquisition Corp. to pay the reasonable expenses of the Investor Group in connection with, and indemnify them for liabilities arising from, the Management Agreement, the Acquisition and any related transactions, their equity investment in Parent, WMG Holdings Corp. and WMG Acquisition Corp., their operations, and the services they provide to the Parent, WMG Holdings Corp. and WMG Acquisition Corp.

The Management Agreement provided that it would continue in full force and effect until December 30, 2014, provided, however, that the Investor Group could cause the agreement to terminate any time upon agreement of the Investor Group. In the event of the termination of the Management Agreement, Parent or any of its subsidiaries were required under the terms of the agreement to pay each of the Investor Group (x) any unpaid portion of the Periodic Fees, any Subsequent Fees and any expenses due with respect to periods prior to the date of termination plus (y) the net present value (using a discount rate equal to the then yield on U.S. Treasury Securities of like maturity) of the Periodic Fees that would have been payable with respect to the period from the date of termination until December 30, 2014.

Concurrently with Parent's Initial Public Offering, we terminated the Management Agreement, other than with respect to reimbursement and indemnification provisions, for a fee of approximately \$73 million payable to the Investor Group. The termination fee was paid in May 2005 using a portion of the cash on hand and proceeds from the \$250 million new term loan borrowings under Acquisition Corp.'s new amendment to the senior secured credit facility.

Table of Contents**RESULTS OF OPERATIONS****Six Months Ended March 31, 2005 Compared to Six Months Ended March 31, 2004**

Consolidated Pro Forma Results

Edgar Filing: Warner Music Group Corp. - Form S-4/A

As previously discussed, the Acquisition occurred effective as of March 1, 2004. Accordingly, our operating results for the five-month period ended February 29, 2004 do not reflect the significant effects of the Transactions. Had the Transactions occurred on October 1, 2003, our pro forma results for the six months ended March 31, 2004 would have been as follows:

	Pro Forma
	Six Months Ended
	March 31, 2004
	(in millions, unaudited)
Revenue	\$ 1,912
OIBDA	201
Impairment of goodwill and other intangible assets	(1,019)
Depreciation and amortization	(126)
Operating income (loss)	(944)
Interest expense, net	(64)
Net income (loss)	(803)

Table of Contents

A discussion of our consolidated historical results for the six-month periods ended March 31, 2005 and 2004 follows:

Consolidated Historical Results

Revenues

Our revenues decreased to \$1.855 billion for the six months ended March 31, 2005, compared to \$1.913 billion for the six months ended March 31, 2004. The decrease was largely driven by a \$59 million decrease in Recorded Music revenues, offset by a \$1 million increase in Music Publishing revenues. Recorded Music revenues benefited from a \$63 million favorable impact of foreign currency exchange rates, and an approximate \$51 million increase in revenues from digital sales of Recorded Music product relating to the development and increased consumer usage of legal, online distribution channels for the music industry and an approximate \$10 million increase in physical revenues by our independent distribution company. For the six months ended March 31, 2005, digital sales of Recorded Music product of \$51 million represented approximately 3% of total Recorded Music revenue. These benefits were more than offset by a decline in physical worldwide music sales of \$176 million due to the continuing industry-wide impact of piracy, lower sales volume associated with a fewer number of key commercial releases that sold in excess of one million units and the effects from our cost-savings initiative to consolidate two of our U.S. record labels. Substantially all of the decline in physical worldwide music sales resulted from lower unit sales volume.

Music Publishing revenues benefited from a \$12 million favorable impact of foreign currency exchange rates, which was offset by a \$14 million decrease in mechanical and performance revenues principally related to the industry-wide decline in sales of physical recorded music product and a lower number of top-performing songs in comparison to the comparable period in the prior year, offset in part by increased royalties of \$9 million from sales in newer formats, such as music DVDs and mobile phone ring tones. Synchronization royalties increased by \$4 million due to favorable market opportunities and continued increases in sales in newer formats, such as music DVDs. Print revenues declined by approximately \$4 million, which was due, in part, to the shifting of focus to selling the business, and that sale was closed on May 31, 2005.

See **Business Segment Results** presented hereinafter for a discussion of revenues by business segment.

Cost of revenues

Our cost of revenues decreased to \$981 million for the six months ended March 31, 2005, compared to \$1.036 billion for the six months ended March 31, 2004. Expressed as a percentage of revenues, cost of revenues was approximately 53% and 54% for the six months ended March 31, 2005 and 2004, respectively. The decrease in cost of revenues principally relates to approximately \$17 million of lower manufacturing costs due, in part, to lower sales volume and lower pricing under the new Cinram agreements that went into effect in late October 2003, approximately \$80 million of lower artist and repertoire-related costs associated with our lower sales volume and lower artist advance write-offs, and cost savings associated with the restructuring plan that was implemented in 2004 in connection with the Acquisition. These cost reductions were partially offset by an approximate \$42 million unfavorable impact of foreign currency exchange rates.

Selling, general and administrative expenses

Edgar Filing: Warner Music Group Corp. - Form S-4/A

Our selling, general and administrative expenses were \$624 million for the six months ended March 31, 2005, compared to \$707 million for the six months ended March 31, 2004. Expressed as a percentage of revenues, selling, general and administrative expenses were approximately 34% for the six months ended March 31, 2005, compared with 37% for the six months ended March 31, 2004. Selling, general and administrative expenses decreased due to a decrease of \$91 million in sales and marketing costs as a result of our cost-saving initiatives and headcount reductions, as well as a decrease in depreciation expense of \$9 million related to lower capital spending requirements and lower depreciation of software development costs. These decreases were offset by an approximate \$21 million unfavorable impact of foreign currency exchange rates, approximately \$5 million of management and advisory fees paid to the Investor Group, and \$28 million of higher corporate expenses as discussed further below, including higher costs associated with operating as an independent company.

Table of Contents**Reconciliation of Consolidated Historical OIBDA to Operating Income (Loss) and Net Income (Loss)**

As previously described, we use OIBDA as our primary measure of financial performance. The following table reconciles OIBDA to operating income (loss) and further provides the components from operating income (loss) to net income (loss) for purposes of the discussion that follows:

	<u>Successor</u>	<u>Combined</u>	<u>Successor</u>	<u>Predecessor</u>
	Six Months Ended March 31, 2005	Six Months Ended March 31, 2004	One Month Ended March 31, 2004	Five Months Ended February 29, 2004
	(unaudited)	(unaudited)	(unaudited)	(unaudited)
	(in millions)			
OIBDA	\$ 278	\$ 199	\$ 24	\$ 175
Depreciation expense:	(28)	(37)	(6)	(31)
Amortization expense	(93)	(112)	(15)	(97)
Impairment of goodwill and other intangible assets		(1,019)		(1,019)
Operating income (loss)	157	(969)	3	(972)
Interest expense, net	(90)	(12)	(10)	(2)
Net investment-related losses		(9)		(9)
Equity in the losses of equity-method investees, net	(1)	(12)	(1)	(11)
Deal related transaction and other costs		(63)		(63)
Unrealized gain on warrants	17			
Other income (expense), net	4	(7)		(7)
Minority interest expense	(5)	(3)	(3)	
Income (loss) before income taxes	82	(1,075)	(11)	(1,064)
Income tax expense	(42)	(119)	1	(120)
Net income (loss)	\$ 40	\$ (1,194)	\$ (10)	\$ (1,184)

OIBDA

Our OIBDA increased to \$278 million for the six months ended March 31, 2005, compared to \$199 million for the six months ended March 31, 2004. Expressed as a percentage of revenue, total OIBDA margin was 15% and 10% for the six months ended March 31, 2005 and 2004, respectively. The increase related to a \$108 million increase in Recorded Music OIBDA, offset by a \$1 million decrease in Music Publishing OIBDA and a \$28 million increase in corporate expenses.

Edgar Filing: Warner Music Group Corp. - Form S-4/A

Recorded Music OIBDA benefited principally from lower marketing and overhead costs associated with our cost-savings initiatives, approximately \$17 million of lower manufacturing costs due, in part, to lower sales volume and lower pricing under the new Cinram agreement that went into effect in late October 2003, a \$10 million favorable impact from foreign currency exchange rates and approximately \$70 million of lower artist and repertoire-related costs associated with our lower sales volume and lower artist advance write-offs. These benefits more than offset the loss of margin contributions related to lower worldwide recorded music sales. Music Publishing OIBDA benefited principally from lower overhead costs associated with our cost-savings initiatives and a \$2 million favorable impact from foreign currency exchange rates, but was more than offset by a loss of margin contributions related to the aggregate decline in mechanical, performance and print revenues.

Corporate expenses increased by \$28 million due to higher costs associated with operating as an independent company and a change in the allocation of corporate-related costs. Certain corporate related costs were allocated in 2003 to Time Warner's former CD and DVD manufacturing and printing operations because such operations were managed by Old WMG. Such operations were sold by Time Warner in October 2003, and accordingly, such costs were no longer allocable. The incrementally higher level of costs was partially offset by lower overhead costs associated with our cost-savings initiatives. See Business Segment Results presented hereinafter for a discussion of OIBDA by business segment.

Table of Contents

Depreciation expense

Our depreciation expense decreased to \$28 million for the six months ended March 31, 2005, compared to \$37 million for the six months ended March 31, 2004. The decrease principally related to lower capital spending requirements and lower depreciation of software development costs.

Amortization expense

Our amortization expense decreased to \$93 million for the six months ended March 31, 2005, compared to \$112 million for the six months ended March 31, 2004. The decrease related to the new basis of accounting recorded in connection with the Acquisition, which resulted in a lower revaluation of the historical cost bases of our identifiable intangible assets.

Operating income (loss)

Our operating income increased to \$157 million for the six months ended March 31, 2005, compared to an operating loss of \$969 million for the six months ended March 31, 2004. The improvement in operating income related to a \$79 million increase in OIBDA, a \$9 million decrease in depreciation expense, a \$19 million decrease in amortization expense and the absence of the 2003 impairment charge of \$1.019 billion. See Business Segment Results presented hereinafter for a discussion of operating income (loss) by business segment.

Interest expense, net

Our net interest expense increased to \$90 million in the six months ended March 31, 2005, compared to \$12 million for the six months ended March 31, 2004. The increase primarily related to the approximately \$1.8 billion of debt issued in March 2004 in connection with the capitalization of the Company and the approximately \$696 million of debt issued by Holdings in December 2004.

Net investment-related losses

We did not recognize any investment-related losses for the six months ended March 31, 2005. However, for the six months ended March 31, 2004, we recognized \$9 million of net investment-related losses principally related to reductions in carrying values of certain equity-method investments.

Equity in the losses of equity-method investees, net

Edgar Filing: Warner Music Group Corp. - Form S-4/A

Our equity in the losses of equity-method investees was \$1 million for the six months ended March 31, 2005, compared to \$12 million for the six months ended March 31, 2004. The lower losses principally related to the fact that certain of our former loss-generating investees, such as our former interest in MusicNet, were retained by Time Warner and were not part of the assets acquired.

Deal-related transaction and other costs

We did not recognize any deal-related transaction costs for the six months ended March 31, 2005. However for the six months ended March 31, 2004, we recognized \$63 million of deal-related transaction and other costs. These costs primarily related to transaction costs associated with the prior pursuit of other strategic ventures or dispositions of Old WMG's business in 2003 by Time Warner that did not occur, losses incurred in connection with the probable pension curtailment that ultimately occurred, and losses related to certain executive contractual obligations triggered upon closing of the Acquisition.

Unrealized gain on warrants

We recognized a \$17 million unrealized gain on the stock warrants issued to Time Warner in connection with the Acquisition for the six months ended March 31, 2005. There was no change in the value of the stock warrants during the post-acquisition one-month period ended March 31, 2004, included in the comparable period. Further, because the five-month period ended February 29, 2004 was pre-Acquisition, the stock warrants were

Table of Contents

not outstanding and no comparable charge was recognized for that period. In connection with the Company's Initial Public Offering, the Company repurchased the three-year warrants at a cost of approximately \$138 million, which approximated fair value at that date.

Minority interest expense

We recognized minority interest expense of \$3 million for the six months ended March 31, 2004. This expense related to dividends for the one month ended March 31, 2004 on preferred stock of Holdings that was held directly by the Investor Group and was issued in connection with the initial funding of the purchase price for the Acquisition effective March 1, 2004. Because the six-month period ended March 31, 2004 included pre-Acquisition periods related to the five months ended February 29, 2004, the subsidiary preferred stock was not outstanding and no charge for minority expense was recognized for that period. The preferred stock was fully repaid in December 2004 from the proceeds of the Holdings Notes. As such, the comparable charge recognized during the six months ended March 31, 2005 relates to the dividends for the period from October 1, 2004 to the date of repayment.

Income tax expense

We incurred income tax expense of \$42 million and \$119 million for the six months ended March 31, 2005 and 2004, respectively. The income tax provisions are not entirely comparable due to the changes in our tax profile relating to the closing of the Acquisition. In particular, prior to the closing of the Acquisition, we were a member of the Time Warner consolidated tax return and were able to recognize U.S.-based deferred tax benefits on domestic-source net operating losses incurred. However, upon the closing of the Acquisition, our membership in the Time Warner consolidated tax group terminated along with our ability to recognize similar, U.S.-based, deferred tax benefits. Accordingly, the income tax expense in 2004 primarily relates to the tax provisions on foreign-source income. There was no offsetting income tax benefit on domestic-source losses recognized in 2004 due to the uncertainty of realization of those deferred tax assets.

Net income (loss)

We recognized net income of \$40 million for the six months ended March 31, 2005, compared to a net loss of \$1.194 billion for the six months ended March 31, 2004. As described more fully above, the improvement in 2005 related principally to the \$1.126 billion increase in operating income (including \$28 million of lower depreciation and amortization expense) primarily relating to the absence of the \$1.019 billion impairment charge and \$63 million of deal-related transaction and other costs recognized in 2004. These benefits were offset, in part, by \$78 million of higher net interest costs recognized in 2005.

Table of Contents**Business Segment Results**

Revenue, OIBDA and operating income (loss) by business segment are as follows:

	<u>Successor</u>	<u>Combined</u>	<u>Successor</u>	<u>Predecessor</u>

OIBDA(1)	(59)	(31)	(3)	(28)
Operating income (loss)(1)	(67)	(39)	(4)	(35)
Total				
Revenue	1,855	1,913	245	1,668
OIBDA(1)	278	199	24	175
Operating income (loss)(1)	\$ 157	\$ (969)	\$ 3	\$ (972)

(1) OIBDA and operating income for the six months ended March 31, 2005 have each been reduced by \$8 million of restructuring costs. Of such amount, \$7 million relates to Recorded Music and \$1 million relates to Corporate.

Recorded Music

Recorded Music revenues decreased to \$1.561 billion for the six months ended March 31, 2005, compared to \$1.620 billion for the six months ended March 31, 2004. Recorded Music revenues benefited from a \$63 million favorable impact of foreign currency exchange rates, and an approximate \$51 million increase in revenues from digital sales of Recorded Music product relating to the development and increased consumer usage of legal, online distribution channels for the music industry and an approximate \$10 million increase in physical revenues by our independent distribution company. For the six months ended March 31, 2005 digital sales of Recorded Music product was \$51 million. These benefits were more than offset by a decline in physical worldwide music sales of \$176 million due to the continuing industry-wide impact of piracy, lower sales volume associated with a fewer number of key commercial releases that sold in excess of one million units and the effects from our cost-savings initiative to consolidate two of our U.S. record labels. Substantially all of the decline in physical worldwide music sales resulted from lower unit sales volume.

Edgar Filing: Warner Music Group Corp. - Form S-4/A

Recorded Music OIBDA increased to \$266 million for the three months ended March 31, 2005, compared to \$158 million for the three months ended March 31, 2004. Expressed as a percentage of revenue, Recorded Music OIBDA margin was 17% and 10% for the six months ended March 31, 2005 and 2004, respectively. The \$108 million increase in OIBDA benefited principally from lower marketing and overhead costs associated with our cost-savings initiatives, approximately \$17 million of lower manufacturing costs due, in part, to lower sales volume and lower pricing under the new Cinram agreement that went into effect in late October 2003, a \$10 million favorable impact from foreign currency exchange rates and approximately \$70 million of lower artist and repertoire- related costs associated with our lower sales volume and lower artist advance write-offs. These benefits more than offset the loss of margin contributions related to lower worldwide recorded music sales.

Table of Contents

Recorded Music operating income improved to \$182 million for the six months ended March 31, 2005, compared to a loss of \$960 million for the six months ended March 31, 2004. Recorded Music operating income (loss) included the following components:

	<u>Successor</u>	<u>Combined</u>	<u>Successor</u>	<u>Predecessor</u>
	Six Months Ended March 31, 2005	Six Months Ended March 31, 2004	One Month Ended March 31, 2004	Five Months Ended February 29, 2004
	(unaudited)	(unaudited)	(unaudited)	(unaudited)
	(in millions)			
OIBDA	\$ 266	\$ 158	\$ 12	\$ 146
Depreciation and amortization	(84)	(99)	(14)	(85)
Impairment of intangible assets		(1,019)		(1,019)
Operating income (loss)	<u>\$ 182</u>	<u>\$ (960)</u>	<u>\$ (2)</u>	<u>\$ (958)</u>

The \$1.142 billion improvement in operating income primarily related to the absence of the 2004 impairment charge, which reduced the carrying value of our goodwill and other intangible assets by \$1.019 billion, a decrease in depreciation and amortization of \$15 million, and the \$108 million improvement in OIBDA discussed above. The decrease in depreciation and amortization expense principally relates to \$7 million of lower amortization expense resulting from a lower revaluation of the historical cost bases of our identifiable intangible assets in connection with the allocation of purchase price as part of the Acquisition.

Music Publishing

Music Publishing revenues increased to \$309 million for the six months ended March 31, 2005, compared to \$308 million for the six months ended March 31, 2004. Revenues benefited from a \$12 million favorable impact of foreign currency exchange rates, which was offset by a \$14 million decrease in mechanical and performance revenues principally related to the industry-wide decline in sales of physical recorded music product and a lower number of top-performing songs in comparison to the comparable period in the prior year, offset in part by increased royalties of \$9 million from sales in newer formats, such as music DVDs and mobile phone ring tones. Synchronization royalties increased by \$4 million due to favorable market opportunities and continued increases in sales in newer formats, such as music DVDs. For the six months ended March 31, 2005 revenues from digital sales in Music Publishing was \$10 million. Print revenues declined by approximately \$4 million, which was due, in part, to the shifting of focus to selling the business, and that sale was closed on May 31, 2005.

Music Publishing OIBDA decreased to \$71 million for the six months ended March 31, 2005, compared to \$72 million in the six months ended March 31, 2004. OIBDA benefited principally from lower overhead costs associated with our cost-savings initiatives and a \$2 million favorable impact from foreign currency exchange rates, but was more than offset by a loss of margin contributions related to the aggregate decline in mechanical, performance and print revenues.

Edgar Filing: Warner Music Group Corp. - Form S-4/A

Music Publishing operating income increased to \$42 million in the six months ended March 31, 2005, compared to \$30 million in the six months ended March 31, 2004. Music Publishing operating income includes the following components:

	Successor	Combined	Successor	Predecessor
Six Months Ended March 31, 2005	Six Months Ended March 31, 2005	Six Months Ended March 31, 2004	One Month Ended March 31, 2004	Five Months Ended February 29, 2004
	(unaudited)	(unaudited)	(unaudited)	(unaudited)
	(in millions)			
OIBDA	\$ 71	\$ 72	\$ 15	\$ 57
Depreciation and amortization	(29)	(42)	(6)	(36)
Operating income (loss)	\$ 42	\$ 30	\$ 9	\$ 21

The \$12 million increase in operating income primarily related to a \$13 million decrease in depreciation and amortization expense, offset by the \$1 million decrease in OIBDA discussed above. The decrease in depreciation

Table of Contents

and amortization expense principally relates to \$12 million of lower amortization expense resulting from a lower revaluation of the historical cost bases of our identifiable intangible assets in connection with the allocation of purchase price as part of the Acquisition.

Corporate Expenses

Corporate expenses before depreciation and amortization expense increased to \$59 million for the six months ended March 31, 2005, compared to \$31 million for the six months ended March 31, 2004. Corporate expenses increased due to higher costs associated with operating as an independent company and a change in the allocation of corporate-related costs. Certain corporate-related costs were allocated in 2004 to Time Warner's former CD and DVD manufacturing and printing operations because such operations were managed by Old WMG. Such operations were sold by Time Warner in October 2003, and accordingly, such costs were no longer allocable. The incrementally higher level of costs was partially offset by lower overhead costs associated with our cost-savings initiatives. Corporate depreciation and amortization expense was \$8 million for each of the six-month periods ended March 31, 2005 and 2004.

Ten Months Ended September 30, 2004 Compared to Ten Months Ended September 30, 2003

The following table summarizes our historical results of operations. The financial data for the seven months ended September 30, 2004 and the three months ended February 29, 2004 have been derived from Parent's audited financial statements included elsewhere herein. The financial data for the ten months ended September 30, 2003 are unaudited and are derived from Parent's audited financial statements included elsewhere herein. See "Change in Fiscal Year and Basis of Presentation" presented earlier herein for a discussion of the use of financial information for the combined ten-month period ended September 30, 2004.

Table of Contents***Consolidated Pro Forma Results***

As previously discussed, the above table presents our historical operating results separately for each of the pre-acquisition, three-month period ended February 29, 2004 and the post-acquisition, seven-month period ended September 30, 2004. As such, it does not reflect all of the significant effects of the Transactions on our operating results for the entire combined ten-month period ended September 30, 2004. Had the Transactions occurred on December 1, 2003, our pro forma results for the ten months ended September 30, 2004 would have been as follows:

	Pro Forma
	Ten Months
	Ended
	September 30,
	2004
	(in millions,
	unaudited)
Revenue	\$ 2,548
OIBDA	217
Depreciation and amortization	(201)
Operating income	16
Interest expense, net	(112)
Net income (loss)	(286)

A discussion of our consolidated historical results follows.

Consolidated Historical Results***Revenues***

Our revenues increased to \$2.548 billion for the ten months ended September 30, 2004, compared to \$2.487 billion for the ten months ended September 30, 2003. The increase was largely driven by a \$20 million increase in Recorded Music revenues and a \$38 million increase in Music Publishing revenues.

Recorded Music revenues benefited principally from a \$110 million favorable impact of foreign currency exchange rates, and an approximate \$30 million increase in revenues from digital sales of Recorded Music product relating to the development and increased consumer usage of legal, online distribution channels for the music industry. These benefits more than offset a decline in physical worldwide music sales due to the continuing industry-wide impact of piracy, lower sales volume associated with a fewer number of key commercial releases that sold in excess of one million units and the effects from our cost-savings initiative to consolidate two of our U.S. record labels. Substantially all of the decline in physical worldwide music sales resulted from lower unit sales volume.

Edgar Filing: Warner Music Group Corp. - Form S-4/A

Music Publishing revenues benefited principally from a \$33 million favorable impact of foreign currency exchange rates and an aggregate \$15 million increase in mechanical, performance and synchronization royalties. These benefits more than offset a \$10 million decline in revenues from the sale of print-related products partially relating to the closure of certain of our smaller print operations in connection with our cost-savings initiatives.

See **Business Segment Results** presented hereinafter for a discussion of revenues by business segment.

Cost of revenues

Our cost of revenues decreased to \$1.359 billion for the ten months ended September 30, 2004, compared to \$1.449 billion for the ten months ended September 30, 2003. Expressed as a percentage of revenues, cost of revenues was approximately 53% for the ten months ended September 30, 2004, compared to 58% for the ten months ended September 30, 2003. The decrease in cost of revenues principally related to approximately \$98 million of lower manufacturing costs due, in part, to lower pricing under the new Cinram agreements that went

Table of Contents

into effect in October 2003, approximately \$88 million of lower artist and repertoire-related costs associated with our lower sales volume and cost savings associated with our restructuring plan that was implemented in 2004 in connection with the Acquisition. These cost reductions were partially offset by an approximate \$90 million unfavorable impact of foreign currency exchange rates.

Selling, general and administrative expenses

Our selling, general and administrative expenses were \$996 million for the ten months ended September 30, 2004, compared to \$995 million for the ten months ended September 30, 2003. Expressed as a percentage of revenues, selling, general and administrative expenses were approximately 39% for the ten months ended September 30, 2004, compared with 40% for the ten months ended September 30, 2003. Selling, general and administrative expenses increased as a result of an approximate \$50 million unfavorable impact of foreign currency exchange rates, approximately \$6 million of management advisory fees paid to the Investor Group and \$43 million of higher corporate expenses as discussed further below, including higher costs associated with operating as an independent company. These increases were offset by decreases due to lower marketing and divisional overhead costs associated with our cost-savings initiatives.

Restructuring costs

We recognized \$26 million of restructuring-related costs in the ten months ended September 30, 2004, compared to \$27 million of restructuring-related costs in the ten months ended September 30, 2003. The restructuring costs in 2004 principally related to costs associated with the implementation of a cost-savings incentive compensation plan designed to incentivize management to reduce operating costs. The restructuring costs in 2003 principally related to reductions in worldwide headcount, costs to exit certain leased facilities, and costs associated with the restructuring of U.S. and Canadian distribution operations.

Reconciliation of Consolidated Historical OIBDA to Operating Income (Loss) and Net Loss

As previously described, we use OIBDA as our primary measure of financial performance. The following table reconciles OIBDA to operating income (loss), and further provides the components from operating income (loss) to net loss for purposes of the discussion that follows (in millions):

	<u>Successor</u>	<u>Predecessor</u>	<u>Combined</u>	<u>Predecessor</u>

Table of Contents

OIBDA

Our OIBDA increased to \$219 million for the ten months ended September 30, 2004, compared to \$75 million for the ten months ended September 30, 2003. The increase related to a \$150 million increase in Recorded Music OIBDA and a \$37 million increase in Music Publishing OIBDA, offset in part by a \$43 million increase in Corporate expenses.

Recorded Music OIBDA benefited principally from lower marketing and overhead costs associated with our cost-savings initiatives, approximately \$94 million of lower manufacturing costs due, in part, to lower pricing under the new Cinram agreements that went into effect in October 2003, a \$1 million favorable impact from foreign currency exchange rates and the absence of a \$12 million loss on the sale of physical distribution assets recognized in 2003. These benefits more than offset the loss of margin contributions related to lower worldwide recorded music sales.

Music Publishing OIBDA benefited principally from lower overhead costs associated with our cost-savings initiatives, approximately \$18 million of lower advance write-offs and a \$4 million favorable impact from foreign currency exchange rates.

Corporate expenses increased due to higher costs associated with operating as an independent company and a change in the allocation of corporate-related costs. As discussed in Note 19 to Parent's audited financial statements, \$47 million of corporate-related costs were allocated in 2003 to Time Warner's former CD and DVD manufacturing and printing operations because such operations were managed by Old WMG. Such operations were sold by Time Warner in October 2003, and accordingly, such costs were no longer allocable. The incrementally higher level of costs was partially offset by lower overhead costs associated with our cost-savings initiatives.

See **Business Segment Results** presented hereinafter for a discussion of OIBDA by business segment.

Depreciation expense

Our depreciation expense decreased to \$52 million for the ten months ended September 30, 2004, compared to \$71 million for the ten months ended September 30, 2003. The decrease principally related to lower capital spending requirements and lower depreciation of software development costs.

Amortization expense

Our amortization expense decreased to \$160 million for the ten months ended September 30, 2004, compared to \$201 million for the ten months ended September 30, 2003. The decrease related to the new basis of accounting recorded in connection with the Acquisition, which resulted in a lower revaluation of the historical cost bases of our identifiable intangible assets.

Operating income (loss)

Our operating income increased to \$7 million for the ten months ended September 30, 2004, compared to an operating loss of \$197 million for the ten months ended September 30, 2003. The improvement in operating income related to a \$144 million increase in OIBDA, a \$19 million decrease in depreciation expense, and a \$41 million decrease in amortization expense, all as previously described above. See Business Segment Results presented hereinafter for a discussion of operating income (loss) by business segment.

Interest expense, net

Our net interest expense increased to \$82 million for the ten months ended September 30, 2004, compared to \$5 million for the ten months ended September 30, 2003. The increase primarily related to the approximately \$1.8 billion of debt issued in 2004 in connection with the capitalization of the Company.

Table of Contents

Net investment-related losses

We did not recognize any investment-related losses for the ten months ended September 30, 2004. However, for the ten months ended September 30, 2003, we recognized \$17 million of net investment-related losses. These losses principally related to reductions in the carrying values of certain equity-method investments.

Equity in the losses of equity-method investees, net

Our equity in the losses of equity-method investees was \$4 million for the ten months ended September 30, 2004, compared to \$32 million in the ten months ended September 30, 2003. The lower losses partially related to the fact that certain of our former loss-generating investees, such as our former interest in MusicNet, were retained by Time Warner and were not part of the assets acquired.

Deal-related transaction costs

We did not recognize any deal-related transaction costs for the ten months ended September 30, 2004. However, for the ten months ended September 30, 2003, we recognized \$7 million of deal-related transaction costs. These costs primarily related to transaction costs associated with the prior pursuit of other strategic ventures or dispositions of Old WMG's businesses in 2003 by Time Warner that did not occur.

Loss on repayment of bridge loan

We recognized a \$6 million loss during the ten months ended September 30, 2004 to write off the carrying value of the unamortized debt issuance costs related to our bridge loan which we repaid in April 2004.

Unrealized loss on warrants

We recognized a \$120 million unrealized loss on stock warrants issued to Historic TW in connection with the Acquisition for the ten months ended September 30, 2004. Because the ten-month period ended September 30, 2003 was pre-Acquisition, the stock warrants were not outstanding and no comparable charge was recognized for that period.

Other expense, net

We recognized other expense, net, of \$4 million for the ten months ended September 30, 2004, compared to other expense, net, of \$10 million for the ten months ended September 30, 2003. The \$4 million of costs in 2004 relate to unfavorable foreign currency exchange rate movements

Edgar Filing: Warner Music Group Corp. - Form S-4/A

associated with intercompany receivables and payables that are not of a long-term investment nature, and as such, are required to be reported in the statement of operations in accordance with GAAP. The \$10 million of costs in 2003 primarily related to losses on foreign currency exchange contracts that were used by Time Warner to hedge exposures to changes in foreign currency exchange rates. As discussed in Note 21 to Parent's audited financial statements included elsewhere herein, we are in the process of evaluating our hedging practices and no significant foreign exchange contracts were entered into in 2004.

Minority interest expense

We recognized minority interest expense of \$14 million for the ten months ended September 30, 2004. This expense related to dividends on preferred stock of Holdings that was held directly by the Investor Group and was issued in connection with the initial funding of the purchase price for the Acquisition. Because the ten-month period ended September 30, 2003 was pre-Acquisition, the subsidiary preferred stock was not outstanding and no comparable charge was recognized for that period.

Table of Contents*Income tax benefit (expense)*

We provided income tax expense of \$47 million for the ten months ended September 30, 2004, compared to an income tax benefit of \$67 million for the ten months ended September 30, 2003. The income tax provisions and benefits are not entirely comparable due to the changes in our tax profile relating to the closing of the Acquisition. In particular, prior to the closing of the Acquisition, we were a member of the Time Warner consolidated tax return and were able to recognize U.S.-based deferred tax benefits on domestic-source net operating losses incurred. However, upon the closing of the Acquisition, our membership in the Time Warner consolidated tax group terminated along with our ability to recognize similar, U.S.-based deferred tax benefits. Accordingly, the income tax expense in 2004 primarily related to the tax provisions on foreign-source income. There was no offsetting income tax benefit on domestic-source losses recognized in 2004 due to the uncertainty of realization of those deferred tax assets.

Net loss

We recognized a net loss of \$270 million for the ten months ended September 30, 2004, compared to a net loss of \$201 million for the ten months ended September 30, 2003. As described more fully above, the higher net loss in 2004 principally related to \$14 million of higher minority interest charges, \$77 million of higher net interest costs, a \$114 million higher income tax provision associated with the improvement in pretax losses and \$120 million of unrealized losses on the warrants. These losses were offset, in part, by a \$204 million increase in operating income (including \$60 million of lower depreciation and amortization expense) and \$45 million of lower investment-related losses.

Business Segment Results

Revenue, OIBDA and operating income (loss) by business segment are as follows (in millions):

	<u>Successor</u>	<u>Predecessor</u>	<u>Combined</u>	<u>Predecessor</u>

Operating income (loss)(1)	18	(11)	7	(197)

- (1) OIBDA and operating income for the ten months ended September 30, 2004 have each been reduced by \$26 million of restructuring costs. Of such amount, \$17 million related to Recorded Music, \$1 million related to Music Publishing, and \$8 million related to Corporate. For the ten months ended September 30, 2003, OIBDA and operating income (loss) have each been reduced by \$39 million of losses related to restructuring costs and the loss on the sale of physical distribution assets. Of such amount, \$36 million related to Recorded Music and \$3 million related to Music Publishing.

Table of Contents

Recorded Music

Recorded Music revenues increased to \$2.059 billion for the ten months ended September 30, 2004, compared to \$2.039 billion for the ten months ended September 30, 2003. Revenues benefited principally from a \$110 million favorable impact of foreign currency exchange rates and an approximate \$30 million increase in revenues from digital sales of recorded music product relating to the development and increased consumer usage of legal, online distribution channels for the music industry. These benefits more than offset a decline in physical worldwide music sales due to the continuing industry-wide impact of piracy, lower sales volume associated with a fewer number of key commercial releases that sold in excess of one million units and the effects from our cost-savings initiative to consolidate two of our U.S. record labels. Substantially all of the decline in physical worldwide music sales resulted from lower unit sales volume.

Recorded Music OIBDA increased to \$158 million for the ten months ended September 30, 2004, compared to \$8 million for the ten months ended September 30, 2003. The \$150 million increase in OIBDA principally related to lower marketing and overhead costs associated with our cost-savings initiatives, approximately \$94 million of lower manufacturing costs due, in part, to lower pricing under the new Cinram agreements that went into effect in October 2003, a \$1 million favorable impact from foreign currency exchange rates and the absence of \$12 million loss on the sale of physical distribution assets recognized in 2003. These benefits more than offset the loss of margin contributions related to lower worldwide recorded music sales.

Recorded Music operating income improved to \$15 million for the ten months ended September 30, 2004, compared to a loss of \$181 million for the ten months ended September 30, 2003. Recorded Music operating loss included the following components (in millions):

	<u>Successor</u>	<u>Predecessor</u>	<u>Combined</u>	<u>Predecessor</u>
	Seven Months	Three Months	Ten Months	Ten Months
	Ended September 30, 2004	Ended February 29, 2004	Ended September 30, 2004	Ended September 30, 2003
	(audited)	(audited)	(unaudited)	(unaudited)
OIBDA	\$ 120	\$ 38	\$ 158	\$ 8
Depreciation and amortization	(96)	(47)	(143)	(189)
Operating income (loss)	\$ 24	\$ (9)	\$ 15	\$ (181)

The \$196 million improvement in operating loss primarily related to the \$150 million improvement in OIBDA discussed above and a \$46 million decrease in depreciation and amortization expense. The decrease in depreciation and amortization expense principally related to \$29 million of lower amortization resulting from a lower revaluation of the historical cost bases of our identifiable intangible assets in connection with the allocation of purchase price as part of the Acquisition. In addition, depreciation expense declined by \$17 million principally relating to lower capital spending requirements and lower depreciation of software development costs.

Music Publishing

Edgar Filing: Warner Music Group Corp. - Form S-4/A

Music Publishing revenues increased to \$505 million for the ten months ended September 30, 2004, compared to \$467 million for the ten months ended September 30, 2003. Revenues benefited principally from a \$33 million favorable impact of foreign currency exchange rates, and an aggregate \$15 million increase in mechanical, performance and synchronization royalties. These benefits more than offset a \$10 million decline in revenues from the sale of print-related products partially relating to the closure of certain of our smaller print operations in connection with our cost-savings initiatives.

The aggregate \$15 million increase in royalties noted above consisted of a \$4 million increase in mechanical royalties, a \$6 million increase in synchronization royalties and a \$5 million increase in performance royalties. Mechanical and synchronization royalties increased as a result of our breadth and number of top-performing

Table of Contents

songs, as well as an increase in sales in newer formats, such as music DVDs and mobile phone ring tones. Performance revenues increased due in large part to an increase in media channels.

Music Publishing OIBDA increased to \$125 million for the ten months ended September 30, 2004, compared to \$88 million for the ten months ended September 30, 2003. The \$37 million increase in OIBDA principally related to lower overhead costs associated with our cost-saving initiatives, approximately \$18 million of lower advance write-offs and a \$4 million favorable impact from foreign currency exchange rates.

Music Publishing operating income increased to \$70 million in the ten months ended September 30, 2004, compared to \$19 million in the ten months ended September 30, 2003. Music Publishing operating income includes the following components (in millions):

	<u>Successor</u>	<u>Predecessor</u>	<u>Combined</u>	<u>Predecessor</u>
	Seven Months	Three Months	Ten Months	Ten Months
	Ended September 30, 2004	Ended February 29, 2004	Ended September 30, 2004	Ended September 30, 2003
	(audited)	(audited)	(unaudited)	(unaudited)
OIBDA	\$ 87	\$ 38	\$ 125	\$ 88
Depreciation and amortization	(34)	(21)	(55)	(69)
Operating income	\$ 53	\$ 17	\$ 70	\$ 19

The \$51 million increase in operating income primarily related to a \$14 million decrease in depreciation and amortization expense, and the \$37 million increase in OIBDA discussed above. The decrease in depreciation and amortization expense principally related to \$12 million of lower amortization expense resulting from a lower revaluation of the historical cost bases of our identifiable intangible assets in connection with the allocation of purchase price as part of the Acquisition.

Corporate expenses

Corporate expenses before depreciation and amortization expense increased to \$64 million for the ten months ended September 30, 2004, compared to \$21 million for the ten months ended September 30, 2003. Corporate expenses increased due to higher costs associated with operating as an independent company and a change in the allocation of corporate-related costs. As discussed in Note 21 to Parent's audited financial statements, \$47 million of corporate-related costs were allocated in 2003 to Time Warner's former CD and DVD manufacturing and printing operations because such operations were managed by Old WMG. Such operations were sold by Time Warner in October 2003, and accordingly, such costs were no longer allocable. The incrementally higher level of costs was partially offset by lower overhead costs associated with our cost-savings initiatives.

Corporate depreciation and amortization expense was \$14 million in each period.

Table of Contents**Year Ended November 30, 2003 Compared to Year Ended November 30, 2002**

Cumulative effect of accounting change		(4,796)
Net loss	\$ (1,353)	\$ (6,026)

(1) Includes depreciation expense of: \$86 million and \$67 million for the years ended 2003 and 2002.

Combined Historical Results*Revenues*

Edgar Filing: Warner Music Group Corp. - Form S-4/A

Our revenues increased to \$3.376 billion for the year ended November 30, 2003, compared to \$3.290 billion for the year ended November 30, 2002. The increase was driven by an \$87 million increase in Recorded Music revenues, whereas our Music Publishing revenues were flat.

Recorded Music revenues benefited principally from a \$178 million favorable impact of foreign currency exchange rates. This benefit more than offset a decline in physical worldwide music sales largely due to the industry-wide impact of piracy. Substantially all of the decline in physical worldwide music sales resulted from lower unit sales volume.

Music Publishing revenues also benefited principally from a \$62 million favorable impact of foreign currency exchange rates, an \$11 million increase in performance royalties and a \$7 million increase in synchronization royalties, which offset a \$66 million decline in mechanical revenues relating largely to lower mechanical royalties received from the decline in industry-wide recorded music product sales. See Business Segment Results presented hereinafter for a discussion of revenues by business segment.

Table of Contents

Cost of revenues

Our cost of revenues increased to \$1.940 billion for the year ended November 30, 2003, compared to \$1.873 billion for the year ended November 30, 2002. Expressed as a percentage of revenues, cost of revenues were approximately 57% in both years. The increase in cost of revenues related principally to an \$88 million increase in manufacturing costs, offset by an approximate \$20 million decrease in licensing and artist and repertoire-related costs.

Selling, general and administrative expenses

Our selling, general and administrative expenses increased marginally to \$1.286 billion for the year ended November 30, 2003, compared to \$1.282 billion for the year ended November 30, 2002. Expressed as a percentage of revenues, selling, general and administrative expenses were approximately 38% in 2003, compared to 39% in 2002. The marginal increase in selling, general and administrative expenses related principally to a \$23 million increase in distribution costs, which offset lower marketing and overhead costs associated with our cost-savings initiatives.

Restructuring (costs) income, net

We recognized \$35 million of restructuring-related costs for the year ended November 30, 2003, compared to \$5 million of income for the year ended November 30, 2002. The restructuring costs in 2003 principally related to reductions in worldwide headcount, costs to exit certain leased facilities and costs associated with the restructuring of our U.S. and Canadian distribution operations. The income recognized in 2002 related to the reversal of a \$12 million restructuring liability recognized in a prior period due primarily to the planned action not ultimately occurring. This amount was partially offset by approximately \$7 million of restructuring charges recognized in 2002 relating principally to reductions in worldwide headcount and other restructuring initiatives.

Reconciliation of Combined Historical OIBDA to Operating Loss and Net Loss

As previously described, we use OIBDA as our primary measure of financial performance. The following table reconciles OIBDA to operating loss and further provides the components from operating loss to net loss for purposes of the discussion that follows:

	Years Ended November 30,	
	2003	2002
	(in millions)	
OIBDA	\$ 189	\$ 207
Depreciation expense	(86)	(67)
Amortization expense	(242)	(182)
Impairment of goodwill and other intangible assets	(1,019)	(1,500)

Edgar Filing: Warner Music Group Corp. - Form S-4/A

Operating loss	(1,158)	(1,542)
Interest expense, net	(5)	(23)
Net investment-related gains (losses)	(26)	42
Equity in the losses of equity-method investees, net	(41)	(42)
Deal-related transaction and other costs	(70)	
Other expense, net	(17)	(5)
	<u> </u>	<u> </u>
Loss before income taxes and cumulative effect of accounting change	(1,317)	(1,570)
Income tax benefit (expense)	(36)
