**Item 1.01 Entry into a Material Definitive Agreement.**

On December 29, 2005, the board of directors of AmSouth Bancorporation (the Company) approved the acceleration of vesting of all outstanding unvested stock options previously awarded to employees and directors. This acceleration is effective as of December 29, 2005. The Company will adopt Financial Accounting Standards Board Statement No. 123 (revised 2004), *Share-Based Payment* (SFAS 123R), effective January 1, 2006. The purpose of the acceleration is to eliminate future non-cash compensation expense the Company would otherwise be required to recognize in its statement of income with respect to these options. The Company has placed a restriction on executive management and directors that would prevent the sale of any stock obtained through exercise of an accelerated option prior to the date the option would have otherwise vested under the terms of the original option agreement. The Company believes that all of the above actions are in the best interests of both the Company and its shareholders.

As a result of the acceleration, options to purchase approximately 15.7 million shares of common stock, with a range of exercise prices between \$19.31 and \$27.91 will become immediately exercisable. It is anticipated that the accelerated vesting of these options will reduce non-cash compensation expense in future periods by approximately \$21.0 million (pre-tax), which includes approximately \$16.0 million (pre-tax), or approximately \$.03 per share, in 2006. Of the 15.7 million options that became exercisable as a result of the acceleration of vesting, 3,088,714 are held by executive management and 114,338 are held by directors. The closing price for the Company's common stock quoted on the New York Stock Exchange on December 29, 2005 was \$26.48.

The Company will record a one-time charge in the fourth quarter of 2005 of approximately \$2.0 million as a result of the accelerated vesting.

**SIGNATURES**
