#### **Security Valuation**

The Fund s securities are valued on the basis of readily available market quotations or, lacking such quotations, at fair value as determined under policies approved by and under the general oversight of the Board of Trustees. In determining fair value, all relevant qualitative and quantitative factors available are considered. These factors are subject to change over time and are reviewed periodically. The fund may use fair value pricing instead of market quotations to value one or more securities if the Fund believes that, because of special circumstances, doing so would more accurately reflect the prices the Fund expects to realize on the current sale of those securities. Further, because of the inherent uncertainty of valuation, those estimated values may differ significantly from quoted or published values or from the values that would have been used had a ready market for the investments existed, and the differences could be material.

#### **Securities Lending**

The Fund lends its securities to approved brokers to earn additional income and receives cash and U.S. government securities as collateral against the loans. Cash collateral received is invested in a money market pooled account by the Fund s lending agent. Collateral is maintained over the life of the loan in an amount not less than 100% of the value of loaned securities. At March 31, 2006, the market value of the securities on loan to broker-dealers was \$24,422 for which the Fund received collateral of \$24,934 in cash. Such collateral is in the possession of the Fund s custodian. The cash was invested in the State Street Navigator Securities Lending Prime Portfolio and is included in the Fund s portfolio of investments. As with other extensions of credit, the Fund may bear the risk of delay in recovery or even loss of rights to the collateral should the borrower of the securities fail financially.

Other information regarding the Fund is available in the Fund s most recent Report to Shareholders. This information is available on the Securities and Exchange Commission s website (www.sec.gov).
