For Immediate Release

Bennett Environmental Inc. Accepts Resignation of President and CEO and Offers Thanks for a Job Well Done

Oakville, Ontario, July 6, 2006 Bennett Environmental Inc. (TSX: BEV, AMEX:BEL) announced today that Al Bulckaert, President and CEO, offered his resignation as President and CEO and member of the Board of Directors to the Chairman and Board of Directors of Bennett Environmental. After discussion the Chairman accepted the resignation.

In offering his resignation, Mr. Bulckaert stated that with most, if not all, of the problems left by past management having now been resolved and with a new and independent Board of Directors being proposed to the shareholders, this is an appropriate time for me to step aside and pursue other challenges and opportunities. Mr. Bulckaert will continue to be available to the Company during a transition phase to assist the Board and Management with the transfer of his responsibilities.

On behalf of the Board of Directors, Mr. Williams, Chairman, thanked Al for his diligent efforts over the past two and half years. Further, Mr. Williams commented that Mr. Bulckaert has many achievements to be proud of, and all accomplished in a short period of time. Achievements like settling the Class Action Law Suit, resolving issues between the Company and the OSC, the recent restatement of the Company's financial statements and finally, the acquisition of Trans-Cycle Industries. These achievements have left the Company in a much stronger position.

The Human Resources and Compensation Committee will begin a search for a new President and CEO and in the meantime, the Board of Directors has established the Office of the Chief Executive Officer which will carry out the President and CEO's responsibilities on an interim basis until a new CEO is appointed. The Office of the Chief Executive Officer consists of David Williams, Chairman of the Board of Directors and Andrew Boulanger, Chief Financial Officer. The office of the CEO will be focused on improving profitability of Bennett Environmental.
