**Item 8.01. Other Events.**

On February 20, 2008, Multimedia Games, Inc. (the "Multimedia") issued a press release reporting Multimedia's total player terminal installed base and product mix as of January 31, 2008 and providing updates on certain markets served by Multimedia and the amounts outstanding under Multimedia's \$150 million bank credit facility.

The press release includes statements regarding Multimedia's (i) expectation that its tribal customers in California will remove a majority of Multimedia's Reel Time Bingo units in California in the quarter ending March 31, 2008 in response to the recent passage of two state referenda permitting increases in the number of authorized Class III games that designated tribes, including Multimedia's tribal customers, may operate in the state and (ii) expectation that Multimedia will gain approval for the placement of its Class III units in the California tribal gaming market in May 2008 with initial placements in June 2008.

The first table in the press release incorrectly states the number of "Total Class II & Other" units and "Total Units" as of January 31, 2008. The correct number of "Total Class II & Other" units as of January 31, 2008 was 3,799 and the correct number of "Total Units" as of January 31, 2008 was 14,419.

The full text of the press release is attached to this Current Report on Form 8-K as Exhibit 99.1. A notation has been made in the attached copy of the press release to indicate the correct unit numbers.

**Cautionary Language**

The foregoing portions of this Current Report on Form 8-K contains forward-looking statements based on Multimedia's current expectations. The word "expects" and similar words and phrases as they relate to Multimedia are intended to identify such forward-looking statements. These forward-looking statements reflect the current views and assumptions of Multimedia, and are subject to various risks and uncertainties that could cause actual results to differ materially from expectations. These risks and uncertainties include, but are not limited to, the risks that for regulatory, competitive or other reasons more than a majority, including up to all, of Multimedia's Reel Time Bingo units in California are removed during the quarter ending March 31, 2008 or thereafter and Multimedia is unsuccessful in placing Class III Units in California on the schedule or in the amounts it expects. Other important risks and uncertainties that may affect Multimedia's business and operations are detailed from time to time in the "Certain Risks" and "Risk Factors" sections and elsewhere in Multimedia's filings with the Securities and Exchange Commission. In addition, additional cautionary statements regarding other forward-looking statements contained in the text of the press release can be found at the end of the press release. Multimedia disclaims any intention or obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.
