NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

(1) Interim Financial Statements

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with the rules and regulations of the United States Securities and Exchange Commission (SEC). Accordingly, certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) have been omitted pursuant to the SEC rules and regulations. The accompanying unaudited condensed consolidated financial statements reflect, in the opinion of management, all adjustments necessary to present fairly the financial position and results of operations for the periods indicated.

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with GAAP and include the consolidated accounts of Beasley Broadcast Group, Inc. (the Company) and its wholly-owned subsidiaries. All significant inter-company balances and transactions have been eliminated in consolidation.

The condensed consolidated balance sheet as of December 31, 2008 has been derived from the Company's audited consolidated financial statements for the fiscal year ended December 31, 2008. The financial statements and related notes included in this report should be read in conjunction with the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2008.

Certain amounts previously reported in the 2008 condensed consolidated financial statements have been reclassified to conform to the 2009 presentation.

Results of the first quarter of 2009 are not necessarily indicative of results for the full year.

(2) Recent Accounting Pronouncements

On January 1, 2009, the Company adopted the provisions of Statement of Financial Accounting Standards (SFAS) 141 (revised 2007), *Business Combinations* which replaces SFAS 141, *Business Combinations*. SFAS 141(R) requires an acquirer to recognize the assets acquired, the liabilities assumed, and any noncontrolling interest in the acquiree at the acquisition date, measured at their fair values as of that date. SFAS 141(R) also requires the acquirer in a business combination achieved in stages to recognize the identifiable assets and liabilities, as well as the noncontrolling interest in the acquiree, at the full amounts of their fair values. SFAS 141(R) applies to all transactions or other events in which an entity obtains control of one or more businesses. The adoption of SFAS 141(R) did not have an impact on the Company's results of operations or financial position but may have an impact on accounting for future business combinations.

On January 1, 2009, the Company adopted the provisions of FASB Staff Position (FSP) 142-3, *Determination of the Useful Life of Intangible Assets*, which amends the factors that should be considered in developing renewal or extension assumptions used to determine the useful life of a recognized intangible asset under SFAS 142, *Goodwill and Other Intangible Assets*. The intent of this FSP is to improve the consistency between the useful life of a recognized intangible asset under SFAS 142 and the period of expected cash flows used to measure the fair value of the asset under SFAS 141 (revised 2007), and other U.S. generally accepted accounting principles. The adoption of FSP 142-3 did not have an impact on the Company's results of operations or financial position but may have an impact on accounting for future acquisitions.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

(3) Long-Term Debt

Long-term debt is comprised of the following:

	December 31, 2008	March 31, 2009
Credit facility:		
Revolving credit loan	\$ 55,500,000	\$ 55,500,000
Term loan	119,000,000	118,000,000
	174,500,000	173,500,000
Less current installments	(4,462,500)	(5,900,000)
	\$ 170,037,500	\$ 167,600,000

On March 13, 2009, the Company amended its credit facility. As of March 31, 2009, the credit facility consists of a revolving credit loan with a maximum commitment of \$65.0 million and a term loan with a remaining balance of \$118.0 million. The revolving credit loan includes a \$7.5 million sub-limit for letters of credit which may not be increased. At the Company's election, the revolving credit loan and term loan may bear interest at either the base rate or LIBOR plus a margin that is determined by the Company's debt to operating cash flow ratio. The base rate is equal to the higher of the prime rate, the federal funds effective rate, or the one month LIBOR quoted rate plus 1.0%. Interest on base rate loans is payable quarterly through maturity. Interest on LIBOR loans is payable on the last day of the selected LIBOR period and, if the selected period is longer than three months, every three months after the beginning of the LIBOR period. The revolving credit loan and term loan carried interest, based on LIBOR, at 4.1955% and 4.8075% as of December 31, 2008 and March 31, 2009, respectively, and mature on June 30, 2015. The scheduled reductions in the amount available under the revolving credit loan may require principal repayments if the outstanding balance at that time exceeds the maximum amount available under the revolving credit loan. In connection with the amended credit facility, the Company recorded a \$0.5 million loss on extinguishment of long-term debt during the first quarter of 2009.

As of March 31, 2009, the Company had \$9.5 million in remaining commitments available under the revolving credit loan of its credit facility.

The credit facility is secured by substantially all of the Company's assets and is guaranteed jointly and severally by all of the Company's subsidiaries. The guarantees were issued to the Company's lenders for repayment of the outstanding balance of the credit facility. If the Company defaulted under the terms of the credit facility, the subsidiaries may have been required to perform under their guarantees. The maximum amount of undiscounted payments the subsidiaries would have had to make in the event of default was \$173.5 million. The guarantees for the revolving credit loan and term loan expire on June 30, 2015.

As of March 31, 2009, the scheduled repayments of the amended credit facility for the remainder of 2009, the next four years, and thereafter are as follows:

	Revolving credit loan	Term loan	Total credit facility
2009	\$ 4,425,000	\$ 4,425,000	\$ 4,425,000
2010		5,900,000	5,900,000
2011		8,555,000	8,555,000
2012		9,440,000	9,440,000
2013	5,819,792	11,210,000	17,029,792
Thereafter	49,680,208	78,470,000	128,150,208
Total	\$ 55,500,000	\$ 118,000,000	\$ 173,500,000

BEASLEY BROADCAST GROUP, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

The Company must pay a quarterly unused commitment fee equal to 0.5% of the unused portion of the revolving credit loan. The Company paid unused commitment fees of approximately \$38,000 and \$37,000 for the three months ended March 31, 2008 and 2009, respectively.

The Company is required to satisfy financial covenants, which require it to maintain specified financial ratios and to comply with financial tests, such as ratios for maximum consolidated total debt, minimum interest coverage and minimum fixed charges. As of March 31, 2009, these financial covenants included:

Maximum Consolidated Total Debt Ratio. As of March 31, 2009, the Company's consolidated total debt must not have exceeded 7.5 times its consolidated operating cash flow for the four quarters then ending (as those terms are defined in the credit agreement). On the last day of each fiscal quarter for the period from April 1, 2009 to June 30, 2010, the maximum ratio will remain at 7.5, however, on the last day of each fiscal quarter for the period from July 1, 2010 through December 31, 2010, the maximum ratio will decrease to 5.25 times and on the last day of each fiscal quarter for all periods after January 1, 2011, the maximum ratio will decrease to 4.75 times.

Minimum Interest Coverage Ratio. The Company's consolidated operating cash flow for the four quarters ending on the last day of each quarter must not have been less than 2.0 times the amount of its consolidated cash interest expense for such four quarter period.

Minimum Fixed Charge Ratio. The Company's consolidated operating cash flow for any four consecutive quarters must not be less than 1.1 times the amount of its consolidated fixed charges for such four quarter period. Fixed charges include cash paid for interest, income taxes, capital expenditures, scheduled principal repayments, dividends, and agency and commitment fees.

Failure to comply with these financial covenants, scheduled interest payments, scheduled principal repayments, or any other terms of its credit facility could result in the acceleration of the maturity of its outstanding debt. The Company believes that it will have sufficient liquidity and capital resources to permit it to meet its financial obligations for at least the next twelve months.

As of March 31, 2009, management of the Company believed it was in compliance with applicable financial covenants.

(4) Stock-Based Compensation

The Beasley Broadcast Group, Inc. 2007 Equity Incentive Award Plan (the "2007 Plan") permits the Company to issue up to 4.0 million shares of Class A common stock. The 2007 Plan allows for eligible employees, directors and certain consultants of the Company to receive shares of restricted stock, stock options or other stock-based awards. The restricted stock awards that have been granted under the 2007 Plan generally vest over three to five years of service.

A summary of restricted stock activity under the 2007 Plan is presented below:

	Shares	Weighted-Average Grant-Date Fair Value
Unvested as of January 1, 2009	122,333	\$ 5.12
Granted	90,000	1.11

-------------------------------	---------	----	------

BEASLEY BROADCAST GROUP, INC.**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)**

As of March 31, 2009, there was \$0.2 million of total unrecognized compensation cost related to restricted stock granted under the 2007 Plan. That cost is expected to be recognized over a weighted-average period of 1.9 years.

The 2000 Equity Plan of Beasley Broadcast Group, Inc. (the 2000 Plan) was terminated upon adoption of the 2007 Plan, except with respect to outstanding awards. The restricted stock and stock option awards that have been granted under the 2000 Plan generally vest over three to five years of service. However, some stock option awards contain performance-related provisions that may delay vesting beyond five years but no longer than seven years after the date of grant. Stock options expire ten years from the date of grant. No new awards will be granted under the 2000 Plan.

A summary of restricted stock activity under the 2000 Plan is presented below:

	Shares	Weighted-Average Grant-Date Fair Value
Unvested as of January 1, 2009	269,815	\$ 6.95
Granted		
Vested	(4,417)	7.28
Forfeited		
Unvested as of March 31, 2009	265,398	\$ 6.40

As of March 31, 2009, there was \$1.0 million of total unrecognized compensation cost related to restricted stock granted under the 2000 Plan. That cost is expected to be recognized over a weighted-average period of 1.3 years.

A summary of stock option activity under the 2000 Plan is presented below:

	Shares	Weighted-Average Exercise Price	Weighted-Average Remaining Contractual Term	Aggregate Intrinsic Value
Outstanding as of January 1, 2009	2,549,084	\$ 15.26		
Granted				
Exercised				
Forfeited				
Outstanding as of March 31, 2009	2,549,084	\$ 15.26	1.2	
Exercisable as of March 31, 2009	2,473,917	\$ 15.25	1.0	

(5) Income Taxes

The Company's effective tax rate was approximately 43% for the period presented in 2008 and 47% for the period presented in 2009, which differ from the federal statutory rate of 34% due to the effect of state income taxes and certain of the Company's expenses that are not deductible.

Edgar Filing: BEASLEY BROADCAST GROUP INC - Form 10-Q

for tax purposes. The effective tax rate also includes additional tax expense in 2008 and expected additional tax expense in 2009 from the vesting of restricted stock in 2008 and 2009 at stock prices lower than the grant-date stock prices of those awards.

BEASLEY BROADCAST GROUP, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

(6) Financial Instruments

The carrying amount of notes receivable from related parties with a fixed rate of interest of 6.0% was \$3.6 million as of March 31, 2009, compared with a fair value of \$3.9 million based on current market interest rates.

The carrying amount of long-term debt, including the current installments, was \$173.5 million as of March 31, 2009 and approximated fair value due to the variable interest rate, which is based on current market rates.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

You should read the following discussion together with the financial statements and related notes included elsewhere in this report. The results discussed below are not necessarily indicative of the results to be expected in any future periods. This report contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. All statements other than statements of historical fact are forward-looking statements for purposes of federal and state securities laws, including any projections of earnings, revenues or other financial items; any statements of the plans, strategies and objectives of management for future operations; any statements concerning proposed new services or developments; any statements regarding future economic conditions or performance; any statements of belief; and any statements of assumptions underlying any of the foregoing. Forward-looking statements may include the words may, will, estimate, intend, continue, believe, expect or anticipate and other similar words. Such forward-looking statements may be contained in Management's Discussion and Analysis of Financial Condition and Results of Operations, among other places. Although we believe that the expectations reflected in any of our forward-looking statements are reasonable, actual results could differ materially from those projected or assumed in any of our forward-looking statements. Our future financial condition and results of operations, as well as any forward-looking statements, are subject to change and to inherent risks and uncertainties, such as unforeseen events that would cause us to broadcast commercial-free for any period of time and changes in the radio broadcasting industry generally. We do not intend, and undertake no obligation, to update any forward-looking statement. Key risks to our company are described in our annual report on Form 10-K, filed with the Securities and Exchange Commission on March 27, 2009.

General

We are a radio broadcasting company whose primary business is acquiring, developing, and operating radio stations throughout the United States. We own and operate 44 radio stations in the following markets: Miami-Fort Lauderdale, FL, Philadelphia, PA, Wilmington, DE, Las Vegas, NV, Fort Myers-Naples, FL, Fayetteville, NC, Greenville-New Bern-Jacksonville, NC, Augusta, GA, West Palm Beach-Boca Raton, FL, Atlanta, GA and Boston, MA. We refer to each group of radio stations that we own in each radio market as a market cluster.

Recent Developments

On March 13, 2009, our credit facility was amended to, among other things, reduce the maximum commitment under the revolving credit loan, increase the interest rate margin, revise certain financial covenants, reduce the aggregate dollar amount of Company shares we are able to repurchase, and reduce the amount of dividends we are able to pay on our common stock.

We continue to be impacted by deteriorating general economic conditions, which have caused a downturn in the advertising industry. The decreased demand for advertising has negatively impacted our revenues. We expect the current environment to continue for some time and for our revenues to be adversely impacted during that time. We will continue to review our operating costs and expenses in non-essential areas in response to the expected decrease in revenues.

Financial Statement Presentation

The following discussion provides a brief description of certain key items that appear in our financial statements and general factors that impact these items.

Net Revenue. Our net revenue is primarily derived from the sale of advertising airtime to local and national advertisers. Net revenue is gross revenue less agency commissions, generally 15% of gross revenue. Local revenue generally consists of advertising airtime sales to advertisers in a radio station's local market either directly to the advertiser or through the advertiser's agency. National revenue generally consists of advertising airtime sales to agencies purchasing advertising for multiple markets. National sales are generally facilitated by our national representation firm, which serves as our agent in these transactions.

The advertising rates that we are able to charge and the number of advertisements that we can broadcast without jeopardizing listener levels generally determine our net revenue. Advertising rates are primarily based on the following factors:

a radio station's audience share in the demographic groups targeted by advertisers as measured principally by quarterly reports issued by the Arbitron Ratings Company;

the number of radio stations, as well as other forms of media, in the market competing for the attention of the same demographic groups;

the supply of, and demand for, radio advertising time; and

the size of the market.

Our net revenue is affected by general economic conditions, competition and our ability to improve operations at our market clusters. Seasonal revenue fluctuations are also common in the radio broadcasting industry and are primarily due to variations in advertising expenditures by local and national advertisers. Our revenues are typically lowest in the first calendar quarter of the year.

We use trade sales agreements to reduce cash paid for operating costs and expenses by exchanging advertising airtime for goods or services; however, we endeavor to minimize trade revenue in order to maximize cash revenue from our available airtime.

Operating Costs and Expenses. Our operating costs and expenses consist primarily of (1) programming, engineering, and promotional expenses, reported as cost of services, and selling, general and administrative expenses incurred at our radio stations, (2) general and administrative expenses, including compensation and other expenses, incurred at our corporate offices, and (3) depreciation and amortization. We strive to control our operating expenses by centralizing certain functions at our corporate offices and consolidating certain functions in each of our market clusters.

Income Taxes. Our effective tax rate was approximately 43% for the period presented in 2008 and 47% for the period presented in 2009, which differ from the federal statutory rate of 34% due to the effect of state income taxes and certain of our expenses that are not deductible for tax purposes. The effective tax rate also includes additional tax expense in 2008 and expected additional tax expense in 2009 from the vesting of restricted stock in 2008 and 2009 at stock prices lower than the grant-date stock prices of those awards.

Critical Accounting Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires us to make estimates and assumptions that affect reported amounts and related disclosures. We consider an accounting estimate to be critical if:

it requires assumptions to be made that were uncertain at the time the estimate was made; and

changes in the estimate or different estimates that could have been selected could have a material impact on our results of operations or financial condition.

Our critical accounting estimates are described in Item 7 of our annual report on Form 10-K for the year ended December 31, 2008. There have been no material changes to our critical accounting estimates during the first quarter of 2009.

Recent Accounting Pronouncements

On January 1, 2009, we adopted the provisions of Statement of Financial Accounting Standards (SFAS) 141 (revised 2007), *Business Combinations* which replaces SFAS 141, *Business Combinations*. SFAS 141(R) requires an acquirer to recognize the assets acquired, the liabilities assumed, and any noncontrolling interest in

the acquiree at the acquisition date, measured at their fair values as of that date. SFAS 141(R) also requires the acquirer in a business combination achieved in stages to recognize the identifiable assets and liabilities, as well as the noncontrolling interest in the acquiree, at the full amounts of their fair values. SFAS 141(R) applies to all transactions or other events in which an entity obtains control of one or more businesses. The adoption of SFAS 141(R) did not have an impact on our results of operations or financial position but may have an impact on accounting for future business combinations.

On January 1, 2009, we adopted the provisions of FASB Staff Position (FSP) 142-3, *Determination of the Useful Life of Intangible Assets*, which amends the factors that should be considered in developing renewal or extension assumptions used to determine the useful life of a recognized intangible asset under SFAS 142, *Goodwill and Other Intangible Assets*. The intent of this FSP is to improve the consistency between the useful life of a recognized intangible asset under SFAS 142 and the period of expected cash flows used to measure the fair value of the asset under SFAS 141 (revised 2007), and other U.S. generally accepted accounting principles. The adoption of FSP 142-3 did not have an impact on our results of operations or financial position but may have an impact on accounting for future acquisitions.

Three Months Ended March 31, 2009 Compared to the Three Months Ended March 31, 2008

The following summary table presents a comparison of our results of operations for the three months ended March 31, 2008 and 2009 with respect to certain of our key financial measures. These changes illustrated in the table are discussed in greater detail below. This section should be read in conjunction with the condensed consolidated financial statements and notes to condensed consolidated financial statements included in Item 1 of this report.

	Three months ended March 31,		Change	
	2008	2009	\$	%
Net revenue	\$ 29,367,381	\$ 22,563,868	\$ (6,803,513)	(23.2)%
Cost of services	9,338,074	7,875,526	(1,462,548)	(15.7)
Selling, general and administrative expenses	11,964,503	9,311,272	(2,653,231)	(22.2)
Corporate general and administrative expenses	2,521,262	2,139,135	(382,127)	(15.2)
Interest expense	2,674,605	2,015,665	(658,940)	(24.6)
Loss on extinguishment of long-term debt		525,000	525,000	NM
Net income	1,186,788	7,944	(1,178,844)	(99.3)

Net Revenue. The \$6.8 million decrease in net revenue during the three months ended March 31, 2009 was primarily due to the downturn in the advertising industry as a result of general economic conditions. Net revenue decreased at ten of our eleven market clusters and was comparable to 2008 at the remaining market cluster. Net revenue decreased \$1.8 million at our Miami-Fort Lauderdale market cluster, \$1.5 million at our Philadelphia market cluster, \$1.0 million at our Las Vegas market cluster, \$0.6 million at our Fort Myers-Naples market cluster, \$0.7 million at our Greenville-New Bern-Jacksonville market cluster, \$0.5 million at our Fayetteville market cluster, and \$0.3 million at our Augusta market cluster.

Cost of Services. The \$1.5 million decrease in cost of services during the three months ended March 31, 2009 was primarily due to cost containment measures in response to the decrease in net revenue. Cost of services decreased at all of our market clusters including a decrease of \$0.6 million at our Miami-Fort Lauderdale market cluster.

Selling, General and Administrative Expenses. The \$2.7 million decrease in selling, general and administrative expenses during the three months ended March 31, 2009 was primarily due to a decrease in sales commissions resulting from the decrease in net revenue and cost containment measures. Selling, general and administrative expenses decreased at nine of our eleven market clusters and were comparable to 2008 at the two remaining market clusters. Selling, general and administrative expenses decreased \$0.9 million at our Miami-Fort

Lauderdale market cluster, \$0.4 million at our Philadelphia market cluster, \$0.3 million at our Las Vegas market cluster, \$0.3 million at our Fort Myers-Naples market cluster, and \$0.3 million at our Fayetteville market cluster.

Corporate General and Administrative Expenses. The \$0.4 million decrease in corporate general and administrative expenses during the three months ended March 31, 2009 was primarily due to a decrease in stock-based compensation expense and cost containment measures.

Interest Expense. The \$0.7 million decrease in interest expense during the three months ended March 31, 2009 was primarily due to a decrease in our borrowing costs and voluntary repayments of borrowings under our credit facility.

Loss on Extinguishment of Long-Term Debt. In connection with an amendment to our credit facility during the first quarter of 2009, we recorded a \$0.5 million loss on extinguishment of long-term debt during the three months ended March 31, 2009.

Net Income. As a result of the factors described above, net income for the three months ended March 31, 2009 was approximately \$8,000 compared to a net income of \$1.2 million for the three months ended March 31, 2008.

Liquidity and Capital Resources

Overview. Our primary source of liquidity is internally generated cash flow. Our primary liquidity needs have been, and for the next twelve months and thereafter are expected to continue to be, for working capital, debt service, and other general corporate purposes, including capital expenditures. Historically, our capital expenditures have not been significant. In addition to property and equipment associated with radio station acquisitions, our capital expenditures have generally been, and are expected to continue to be, related to the maintenance of our studio and office space and the technological improvement, including upgrades necessary to broadcast HD Radio, and maintenance of our broadcasting towers and equipment. We have also purchased or constructed office and studio space in some of our markets to facilitate the consolidation of our operations.

Prior to March 13, 2009, our credit facility permitted us to repurchase up to \$50.0 million of our common stock and on June 10, 2004, our board of directors authorized us to repurchase up to \$25.0 million of our Class A common stock over a one-year period from the date of authorization, which was extended on May 12, 2005 for one additional year. On May 24, 2006, our board of directors authorized us to increase the remaining balance under our previous authorization from \$21.3 million to \$25.0 million and to extend the repurchase period to May 23, 2007. Effective May 24, 2007, our board of directors authorized the extension of the repurchase period for one additional year. Effective May 24, 2008, our board of directors authorized the extension of the repurchase period for one additional year. Effective March 13, 2009, our credit facility prohibits us from repurchasing additional shares of our common stock until our consolidated total debt is less than 5.00 times our consolidated operating cash flow at which time we are permitted to repurchase up to an aggregate of \$10.0 million of our common stock. We are permitted to repurchase up to \$0.5 million of our common stock per year in connection with vesting of restricted stock. From June 10, 2004 to May 4, 2009, we repurchased 2.6 million shares of our Class A common stock for an aggregate \$13.8 million.

Prior to March 13, 2009, our credit facility permitted us to pay cash dividends on our common stock in an amount up to an aggregate of \$10.0 million per year. Effective March 13, 2009, our credit facility prohibits us from paying cash dividends on our common stock until our consolidated total debt is less than 5.00 times our consolidated operating cash flow at which time we are permitted to pay cash dividends in an amount up to an aggregate of \$5.0 million per year.

We expect to provide for future liquidity needs through one or a combination of the following sources of liquidity:

internally generated cash flow;

our credit facility;

additional borrowings, other than under our existing credit facility, to the extent permitted thereunder; and

additional equity offerings.

We believe that we will have sufficient liquidity and capital resources to permit us to provide for our liquidity requirements and meet our financial obligations for the next twelve months. However, continuation or worsening of the economic downturn in the United States or in the markets we serve, poor financial results, unanticipated acquisition opportunities or unanticipated expenses could give rise to defaults under our credit facility, additional debt servicing requirements or other additional financing or liquidity requirements sooner than we expect and we may not secure financing when needed or on acceptable terms.

Our ability to reduce our total debt ratio, as defined by our credit facility, by increasing operating cash flow and/or decreasing long-term debt will determine how much, if any, of the remaining commitments under the revolving portion of our credit facility will be available to us in the future. Continuation or worsening of the economic downturn in the United States or in the markets we serve, poor financial results or unanticipated expenses could result in our failure to maintain or lower our total leverage ratio and we may not be permitted to make any additional borrowings under the revolving portion of our credit facility.

The following summary table presents a comparison of our capital resources for the three months ended March 31, 2008 and 2009 with respect to certain of our key measures affecting our liquidity. The changes set forth in the table are discussed in greater detail below. This section should be read in conjunction with the condensed consolidated financial statements and notes to condensed consolidated financial statements included in Item 1 of this report.

	Three months ended March 31,	
	2008	2009
Net cash provided by operating activities	\$ 4,704,338	\$ 3,124,794
Net cash used in investing activities	(459,671)	(154,225)
Net cash used in financing activities	(5,767,629)	(1,921,692)
Net increase (decrease) in cash and cash equivalents	\$ (1,522,962)	\$ 1,048,877

Net Cash Provided By Operating Activities. Net cash provided by operating activities decreased by \$1.6 million during the three months ended March 31, 2009 compared to the same period in 2008 primarily due to a \$5.5 million decrease in cash receipts from the sale of advertising airtime. This decrease was partially offset by a \$2.9 million decrease in cash paid for station operating expenses, and a \$0.8 million decrease in cash paid for interest.

Net Cash Used In Investing Activities. Net cash used in investing activities in the three months ended March 31, 2009 was primarily due to cash payments for capital expenditures of \$0.2 million. Net cash used in investing activities for the same period in 2008 was primarily due to cash payments for capital expenditures of \$0.5 million.

Net Cash Used In Financing Activities. Net cash used in financing activities in the three months ended March 31, 2009 was primarily due to voluntary repayments of \$1.0 million of borrowings under our credit facility, and payments of \$0.9 million of loan fees related to the amended credit facility. Net cash used in financing activities for the same period in 2008 was primarily due to voluntary repayments of \$3.8 million of borrowings under our credit facility, cash dividends of \$1.5 million, and \$0.6 million for repurchases of our Class A common stock.

Credit Facility. As of April 30, 2009, the outstanding balance of our credit facility was \$173.0 million. As of March 31, 2009, the credit facility consists of a revolving credit loan with a maximum commitment of \$65.0 million and a term loan of \$118.0 million. The revolving credit loan includes a \$7.5 million sub-limit for letters of credit which may not be increased. At our election, the revolving credit loan and term loan may bear interest at either the base rate or LIBOR plus a margin that is determined by our debt to operating cash flow ratio. The base rate is equal to the higher of the prime rate, the federal funds effective rate, or the one month LIBOR quoted rate plus 1.0%. Interest on base rate loans is payable quarterly through maturity. Interest on LIBOR loans is payable on the last day of the selected LIBOR period and, if the selected period is longer than three months, every three months after the beginning of the LIBOR period. The revolving credit loan and term loan carried interest, based on LIBOR, at 4.1955% and 4.8075% as of December 31, 2008 and March 31, 2009, respectively, and mature on June 30, 2015. The scheduled reductions in the amount available under the revolving credit loan may require principal repayments if the outstanding balance at that time exceeds the maximum amount available under the revolving credit loan. In connection with the amended credit facility, we recorded a \$0.5 million loss on extinguishment of long-term debt during the first quarter of 2009.

As of March 31, 2009, we had \$9.5 million in remaining commitments available under the revolving credit loan of our credit facility.

As of March 31, 2009, our credit facility is secured by substantially all of our assets and is guaranteed jointly and severally by the Company and all of our subsidiaries. The guarantees were issued to our lenders for repayment of the outstanding balance of the credit facility. If we default under the terms of the credit facility, our subsidiaries may have been required to perform under their guarantees. The maximum amount of undiscounted payments the subsidiaries would have to make in the event of default is \$173.5 million. The guarantees for the revolving credit loan and term loan expire on June 30, 2015.

As of March 31, 2009, the scheduled repayments of the amended credit facility for the remainder of 2009, the next four years, and thereafter are as follows:

	Revolving credit loan	Term loan	Total credit facility
2009	\$	\$ 4,425,000	\$ 4,425,000
2010		5,900,000	5,900,000
2011		8,555,000	8,555,000
2012		9,440,000	9,440,000
2013	5,819,792	11,210,000	17,029,792
Thereafter	49,680,208	78,470,000	128,150,208
Total	\$ 55,500,000	\$ 118,000,000	\$ 173,500,000

We must pay a quarterly unused commitment fee equal to 0.5% of the unused portion of the revolving credit loan. We paid unused commitment fees of approximately \$38,000 for the three months ended March 31, 2009.

We are required to satisfy financial covenants, which require us to maintain specified financial ratios and to comply with financial tests, such as ratios for maximum consolidated total debt, minimum interest coverage and minimum fixed charges. As of March 31, 2009, these financial covenants included:

Maximum Consolidated Total Debt Ratio. As of March 31, 2009, our consolidated total debt must not have exceeded 7.5 times our consolidated operating cash flow for the four quarters then ending (as those terms are defined in the credit agreement). On the last day of each fiscal quarter for the period from April 1, 2009 to June 30, 2010, the maximum ratio will remain at 7.5, however, on the last day of each fiscal quarter for the period from July 1, 2010 through December 31, 2010, the maximum ratio will decrease to 5.25 times and on the last day of each fiscal quarter for all periods after January 1, 2011, the maximum ratio will decrease to 4.75 times.

Minimum Interest Coverage Ratio. Our consolidated operating cash flow for the four quarters ending on the last day of each quarter must not have been less than 2.0 times the amount of our consolidated cash interest expense for such four quarter period.

Minimum Fixed Charge Ratio. Our consolidated operating cash flow for any four consecutive quarters must not be less than 1.1 times the amount of our consolidated fixed charges for such four quarter period. Fixed charges include cash paid for interest, income taxes, capital expenditures, scheduled principal repayments, dividends, and agency and commitment fees.

Failure to comply with these financial covenants, to make scheduled interest payments or scheduled principal repayments, or to comply with any other terms of our credit facility could result in the acceleration of the maturity of our debt outstanding thereunder, which could have a material adverse effect on our business or results of operations.

As of March 31, 2009, we were in compliance with all applicable financial covenants under our credit facility. As of March 31, 2009, as calculated pursuant to the terms of our credit agreement, our consolidated total debt ratio was 6.70 times consolidated operating cash flow, our interest coverage ratio was 3.29 times interest expense, and our fixed charge coverage ratio was 2.17 times fixed charges.

The credit facility also contains other customary restrictive covenants. These covenants limit our ability to: incur additional indebtedness and liens; enter into certain investments or joint ventures; consolidate, merge or effect asset sales; enter sale and lease-back transactions; sell or discount accounts receivable; enter into transactions with affiliates or stockholders; or change the nature of our business.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

Market risk is the risk of loss arising from adverse changes in market rates and prices such as interest rates, foreign currency exchange rates and commodity prices. Our primary exposure to market risk is interest rate risk associated with our credit facility. As of March 31, 2009, all of our long-term debt bears interest at variable rates. Accordingly, our earnings are affected by changes in interest rates. Assuming the current level of borrowings at variable rates and assuming a one-percentage point increase in the current interest rate under these borrowings, we estimate that our annualized interest expense would increase by \$0.6 million and our net income would decrease by \$0.4 million. In the event of an adverse change in interest rates, management may take actions to mitigate our exposure. However, due to the uncertainty of the actions that would be taken and their possible effects, this interest rate analysis assumes no such actions. Further, the analysis does not consider the effects of the change in the level of overall economic activity that could exist in such an environment.

As of March 31, 2009, we are a party to three interest rate swap agreements with a \$110.0 million notional amount. The swap agreements expire from March to September 2011. As of March 31, 2009, the fair value of the swap agreements was a liability of \$4.6 million.

ITEM 4. CONTROLS AND PROCEDURES.

Under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, we have evaluated the effectiveness of our disclosure controls and procedures pursuant to Exchange Act Rule 13a-15(b) as of the end of the period covered by this report. Based on that evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that these disclosure controls and procedures are effective. There were no changes in our internal control over financial reporting during the quarter ended March 31, 2009 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II OTHER INFORMATION**ITEM 1. LEGAL PROCEEDINGS.**

We currently and from time to time are involved in litigation and are the subject of threats of litigation that are incidental to the conduct of our business. These include indecency claims and related proceedings at the FCC as well as claims and threatened claims by private third parties. However, we are not a party to any lawsuit or other proceedings, or the subject of any threatened lawsuit or other proceedings, which, in the opinion of management, is likely to have a material adverse effect on our financial condition or results of operations.

ITEM 1A. RISK FACTORS.

The risks affecting our Company are described in Item 1A of our Annual Report on Form 10-K for the year ended December 31, 2008. There have been no material changes to the risks affecting our Company during the first quarter of 2009.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS.

The following table presents information with respect to purchases we made of our Class A common stock during the three months ended March 31, 2009.

Period	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Program	Approximate Dollar Value That May Yet Be Purchased Under the Program
January 1 31, 2009		\$		\$ 16,344,732
February 1 28, 2009	28,250	2.16		16,344,732
March 1 31, 2009				16,344,732
Total	28,250			

On July 29, 2004, we announced that at a meeting on June 10, 2004, our board of directors authorized us to repurchase up to \$25.0 million of our Class A common stock over a period of one year from the date of authorization. On May 12, 2005, our board of directors authorized a one-year extension of the repurchase period to June 9, 2006. On May 24, 2006, our board of directors authorized us to increase the remaining balance under our previous authorization from \$21.3 million to \$25.0 million and to extend the repurchase period to May 23, 2007. Effective May 24, 2007, our board of directors authorized the extension of the repurchase period for one additional year. Effective May 24, 2008, our board of directors authorized the extension of the repurchase period for one additional year. Effective March 13, 2009, our amended credit facility prohibits us from repurchasing additional shares of our common stock until our consolidated total debt is less than 5.00 times our consolidated operating cash flow at which time we are permitted to repurchase up to an aggregate of \$10.0 million of our common stock. We are permitted to repurchase up to \$0.5 million of our common stock per year in connection with vesting of restricted stock. In connection with the vesting of restricted stock under our 2000 Equity Plan, 250 shares of our Class A common stock were surrendered to us in February to fund withholding taxes payable. In connection with the vesting of restricted stock under our 2007 Equity Plan, 28,000 shares of our Class A common stock were surrendered to us in February to fund withholding taxes payable.
