Our Offer for CF

We are determined to acquire CF, creating significant value for both CF and Agrium stockholders

Our \$85.20 offer for CF is a 55% premium to their unaffected stock price, adjusting for net cash, well above precedent transactions since credit crisis

Cash or stock election provides opportunity to receive 24% ownership in Agrium's broader, more balanced portfolio of products and reinvest significant cash portion

Our bid provides far superior value for CF stockholders compared with any alternative articulated by CF, including remaining independent or paying a premium for Terra

CF's reliance on short-lived peak 2008 nitrogen and phosphate prices for current and future valuations is unrealistic and irrelevant

Current nitrogen and phosphate prices are NOT at the bottom of the cycle

A return to cyclical commodity lows as seen pre-2004 would yield substantially lower EBITDA for CF
