The following table sets forth the Canada/U.S. exchange rates on the last day of the periods indicated as well as the high, low and average rates for such periods. The high, low and average exchange rates for each period were identified or calculated from spot rates in effect on each trading day during the relevant period. The interest rate payable on each series of notes will be subject to adjustments from time to time if the ratings from Moody's or S&P (or, in either case if applicable, any Substitute Rating Agency) with respect to the notes are decreased, as described under the heading "Description of the Notes - Interest Rate Adjustment."

Additional Issues

We may, from time to time, without notice to or the consent of holders of the notes, create and issue additional notes ranking equally with the notes offered hereby in all respects (or in all respects except for the payment of interest accruing prior to the issue date of the new notes or except for the first payment of interest following the issue date of the new notes). These covenants are subject to important exceptions and qualifications which are described under the caption "Description of Debt Securities" in the accompanying prospectus.

Additional Amounts

We will make payments on the notes without withholding or deduction for Canadian taxes unless required to be withheld or deducted by law or the interpretation or administration thereof in which case, subject to certain exemptions, we will pay such additional amounts as may be necessary so that the net amount received by holders of the notes after such withholding or deduction will not be less than the amount that such holders would have received in the absence of such withholding or deduction. However, no additional amounts will be payable in excess of the additional amounts that would be payable if the holder was a resident of the United States for the purposes of the Canada-U.S. Income Tax Convention (1980), as amended. Any net proceeds that are not applied immediately to fund such contributions will be invested in short-term marketable securities.

Governing Law

The notes and the indenture governing the notes will be governed by the laws of the State of New York.

CANADIAN PACIFIC RAILWAY COMPANY

We are one of Canada's oldest corporations. From our inception over 125 years ago, we have developed into a fully-integrated and technologically advanced Class I railway (a railroad earning a minimum of US\$378.8 million in revenues annually) providing rail and intermodal freight transportation services over an approximate 14,700 mile network serving the principal business centres of Canada, from Montreal, Quebec to Vancouver, British Columbia, and the U.S. Midwest and Northeast regions.

We are a wholly-owned subsidiary of CPRL, a publicly-traded corporation whose common shares are listed on the Toronto Stock Exchange and the New York Stock Exchange.

USE OF PROCEEDS

We estimate that the net proceeds to us from this offering will be approximately US\$485.5 million, after deducting the underwriting commission and after deducting estimated expenses of the offering of approximately US\$14.5 million. The net proceeds received by us from the sale of the notes will be used to fund a voluntary prepayment of future pension contributions to our Canadian defined benefit pension plan. Any net proceeds that are not applied immediately to fund such contributions will be invested in short-term marketable securities.

We intend to access debt markets, other than the U.S. public market, to fund additional voluntary pre-payments of future pension contributions. Any additional debt offerings will depend on capital market conditions and may occur at any time. There is no assurance that any additional debt offerings will be completed.

Table of Contents**CONSOLIDATED CAPITALIZATION**

The following table summarizes CPRL's cash and cash equivalents and consolidated capitalization at September 30, 2011, and as adjusted to give effect to the issuance of the notes offered by this prospectus supplement and the application of the proceeds of the sale of the notes as described under "Use of Proceeds". You should read this table together with the unaudited consolidated financial statements of CPRL for the nine months ended September 30, 2011 incorporated by reference in this prospectus supplement. In the "As Adjusted" column, the U.S. dollar amount of the notes offered hereby has been converted to Canadian dollars using the Bank of Canada noon buying rate of US\$0.9626 per \$1.00 at September 30, 2011.

Table of Contents**EARNINGS COVERAGE**

The earnings coverage ratios set out below have been prepared and included in this prospectus supplement in accordance with Canadian disclosure requirements. These ratios do not purport to be indicative of earnings coverage ratios for any future periods.

For further information regarding earnings coverage, reference is made to Earnings Coverage in the accompanying prospectus.

The following earnings coverage ratios of CPRL are calculated on a consolidated basis for the twelve-month period ended December 31, 2010 based on audited financial information and for the twelve-month period ended September 30, 2011 based on unaudited financial information. In calculating the ratios, the interest expense has been adjusted to give effect to the issuance of the notes offered hereby.

	Twelve Months Ended December 31, 2010	Twelve Months Ended September 30, 2011
Earnings coverage on long-term debt ⁽¹⁾⁽²⁾	4.0x	3.4x

Notes:

- (1) Earnings coverage is equal to income before interest expense and income tax expense, divided by interest expense on all debt plus the amount of interest that has been capitalized during the period.
- (2) The earnings coverage ratios have been calculated excluding carrying charges for the long-term debt maturing within one year reflected as current liabilities in CPRL's consolidated balance sheets as at December 31, 2010 and September 30, 2011, respectively. If such long-term debt maturing within one year had been classified in their entirety as long-term debt for purposes of calculating earnings coverage ratios, the entire amount of the annual carrying charges for such long-term debt maturing within one year would have been reflected in the calculation of CPRL's earnings coverage ratios. For the twelve-month period ended December 31, 2010, earnings coverage on long-term debt would have been 3.6x. For the twelve-month period ended September 30, 2011, earnings coverage on long-term debt would have been 3.2x.

DESCRIPTION OF THE NOTES

The following description of the terms of the notes supplements the description set forth in the prospectus and should be read in conjunction with Description of Debt Securities in the prospectus. In addition, such description is qualified in its entirety by reference to the Indenture under which the notes are to be issued, referred to in the prospectus. Capitalized terms used but not defined in the prospectus supplement have the meanings ascribed to them in the prospectus. In this section only, Canadian Pacific Railway, us, we or our refer to Canadian Pacific Railway Company without any of its subsidiaries through which it operates.

General

The notes will be our direct unsecured obligations. The 2022 notes initially will be issued in an aggregate principal amount of US\$250 million and the 2042 notes initially will be issued in an aggregate principal amount of US\$250 million. The 2022 notes will mature on January 15, 2022 and the 2042 notes will mature on January 15, 2042. The 2022 notes will bear interest at the rate of 4.500% per year and the 2042 notes will bear interest at the rate of 5.750% per year, in each case subject to adjustment as described herein. Interest will be payable on the 2022 notes from December 1, 2011, or from the most recent date to which interest has been paid or provided for, payable semi-annually on January 15 and July 15 of each year, commencing July 15, 2012 to the persons in whose names the notes are registered at the close of business on the next preceding January 1 or July 1, respectively. Interest will be payable on the 2042 notes from December 1, 2011, or from the most recent date to which interest has been paid or provided for, payable semi-annually on January 15 and July 15 of each year, commencing July 15, 2012 to the persons in whose names the notes are registered at the close of business on the next preceding January 1 or July 1, respectively.

Payment of principal, premium, if any, and interest on the notes will be made in United States dollars.

The 2022 notes and the 2042 notes will each constitute a separate series of securities under the indenture.

Edgar Filing: CANADIAN PACIFIC RAILWAY CO/NEW - Form SUPPL

We may, from time to time, without notice to or the consent of holders of notes, create and issue additional notes under the Indenture in addition to the aggregate principal amount of notes offered hereby. Such additional

notes will rank equally with the 2022 notes or the 2042 notes, as applicable, offered hereby in all respects (or in all respects except for the payment of interest accruing prior to the issue date of the new notes or except for the first payment of interest following the issue date of the new notes) so that the new notes may be consolidated and form a single series with the 2022 notes or the 2042 notes, as applicable, offered hereby, and have the same terms as to status, redemption and otherwise as the 2022 notes or the 2042 notes, as applicable, offered hereby. In the event that additional notes are issued, we will prepare a new prospectus supplement, provided that if the additional notes are not fungible with the notes of the applicable series for U.S. federal income tax purposes, the additional notes will have a new CUSIP number.

Other than the protections which may otherwise be afforded holders of the notes as a result of the operation of the covenants described in this prospectus supplement and under "Description of Debt Securities" in the accompanying prospectus, there are no covenants or other provisions in the Indenture or the notes limiting our ability to seek additional sources of financing, pay dividends or otherwise engage in other capital transactions that might increase our leverage and decrease the amount of assets available to service our debt.

The provisions of the Indenture relating to the payment of additional amounts in respect of Canadian withholding taxes in certain circumstances (described under the caption "Description of Debt Securities - Additional Amounts" in the accompanying prospectus) and the provisions of the Indenture relating to the redemption of debt securities in the event of specified changes in Canadian withholding tax law on or after the date of this prospectus supplement (described under the caption "Description of Debt Securities - Tax Redemption" in the accompanying prospectus) will apply to the notes.

The notes will not be entitled to the benefits of any sinking fund.

Optional Redemption

The notes of either series will be redeemable in whole or in part at any time at our option, at redemption prices equal to the greater of (1) 100% of the principal amount of the notes being redeemed and (2) the sum of the present values of the remaining scheduled payments of principal and interest thereon (exclusive of interest accrued to the date of redemption) discounted to the redemption date on a semi-annual basis at the Treasury Yield plus 45 basis points in the case of the 2022 notes and plus 45 basis points in the case of the 2042 notes, in either case, together with accrued and unpaid interest to the date of redemption. Interest will be calculated on the basis of a 360-day year consisting of twelve 30-day months.

Holders of notes to be redeemed will receive notice thereof by first class mail at least 30 and not more than 60 days prior to the date fixed for redemption.

Unless we default in the payment of the redemption price, from and after the redemption date, interest will cease to accrue on the notes or the portions thereof called for redemption.

Treasury Yield means, with respect to any redemption date, the rate per annum equal to the semi-annual equivalent yield to maturity or interpolated (on a day count basis) of the Comparable Treasury Issue, assuming a price for the Comparable Treasury Issue (expressed as a percentage of its principal amount) equal to the Comparable Treasury Price for that redemption date.

Comparable Treasury Issue means the United States Treasury security or securities selected by an Independent Investment Banker as having an actual or interpolated maturity comparable to the remaining term of the notes to be redeemed that would be utilized, at the time of selection and in accordance with customary financial practice, in pricing new issues of corporate debt securities of comparable maturity to the remaining term of the notes.

Independent Investment Banker means one of the Reference Treasury Dealers selected by us or, if such firm is unwilling or unable to select the Comparable Treasury Issue, an independent investment banking institution of national standing in the United States appointed by us.

Comparable Treasury Price means (1) the average of the Reference Treasury Dealer Quotations for such redemption date, after excluding the highest and lowest of such Reference Treasury Dealer Quotations, or (2) if

Table of Contents

the Independent Investment Banker is provided fewer than four such Reference Treasury Dealer Quotations, the average of all such Reference Treasury Dealer Quotations.

Reference Treasury Dealer Quotations means, with respect to each Reference Treasury Dealer and any redemption date, the average, as determined by the Independent Investment Banker, of the bid and asked prices for the Comparable Treasury Issue (expressed in each case as a percentage of its principal amount) quoted in writing to the Trustee by such Reference Treasury Dealer at 3:30 p.m. New York time on the third business day preceding such redemption date.

Reference Treasury Dealers means J.P. Morgan Securities LLC or its affiliates which are primary U.S. government securities dealers, and their respective successors, plus four others which are primary U.S. Government securities dealers and their respective successors; provided, however, that if any of the foregoing ceases to be a primary U.S. government securities dealer in The City of New York (a Primary Treasury Dealer), we will substitute therefor another Primary Treasury Dealer.

Change of Control

If a Change of Control Triggering Event (as defined below) occurs, unless we have exercised our right to redeem the notes of the applicable series as described above, holders of notes of such series will have the right to require us to repurchase all or any part equal to US\$2,000 or an integral multiple of US\$1,000 in excess thereof of the notes pursuant to the offer described below (the Change of Control Offer). In the Change of Control Offer, we will be required to offer payment in cash equal to 101% of the aggregate principal amount of notes repurchased plus accrued and unpaid interest, if any, on the notes repurchased, to the date of purchase (the Change of Control Payment). Within 30 days following any Change of Control Triggering Event, we will be required to mail a notice to holders of notes describing the transaction or transactions that constitute the Change of Control Triggering Event and offering to repurchase the notes on the date specified in the notice, which date will be no earlier than 30 days and no later than 60 days from the date such notice is mailed (the Change of Control Payment Date), pursuant to the procedures described in such notice. We must comply with the requirements of Rule 14e-1 under the Exchange Act, and any other securities laws and regulations thereunder to the extent those laws and regulations are applicable in connection with the repurchase of the senior notes as a result of a Change of Control Triggering Event. To the extent that the provisions of any securities laws or regulations conflict with the Change of Control provisions of the Indenture, we will be required to comply with the applicable securities laws and regulations and will not be deemed to have breached our obligations under the Change of Control provisions of the Indenture by virtue of such conflicts.

On the Change of Control Payment Date, we will be required to:

accept for payment all notes or portions of notes properly tendered pursuant to the Change of Control Offer;

deposit with the paying agent an amount equal to the Change of Control Payment in respect of all notes or portions of notes properly tendered; and

deliver or cause to be delivered to the Trustee the notes properly accepted together with an officers' certificate stating the aggregate principal amount of notes or portions of notes being purchased.

For purposes of the foregoing discussion of a repurchase at the option of holders of notes, the following definitions are applicable:

Below Investment Grade Rating Event means the notes of a series are rated below an Investment Grade Rating by at least two out of three of the Rating Agencies (as defined below), if there are three Rating Agencies, or all of the Rating Agencies, if there are less than three Rating Agencies, (the Required Threshold) on any date from the date of the public notice of an arrangement or transaction that could result in a Change of Control until the end of the 60-day period following public notice of the occurrence of the Change of Control, which 60-day period shall be extended if, by the end of the 60-day period, the rating of the notes is under publicly announced consideration for a possible downgrade by such number of Rating Agencies which, together with the Rating Agencies which have already lowered their ratings on the notes as aforesaid, would aggregate in number the Required Threshold,

Table of Contents

such extension to continue for so long as consideration for a possible downgrade continues by such number of Rating Agencies which, together with the Rating Agencies which have already lowered their ratings on the notes as aforesaid, would aggregate in number the Required Threshold.

Change of Control means the occurrence of any of the following: (1) the direct or indirect sale, transfer, conveyance or other disposition (other than by way of merger or amalgamation), in one or a series of related transactions, of all or substantially all of the properties or assets of us and our subsidiaries taken as a whole to any person (as such term is used in Section 13(d) of the Exchange Act) other than us, CPRL or any of our or its subsidiaries; (2) the consummation of any transaction (including, without limitation, any merger or amalgamation) the result of which is that any person (as such term is used in Section 13(d) of the Exchange Act) becomes the beneficial owner, directly or indirectly, of more than 50% of the then outstanding number of CPRL's voting shares; or (3) the first day on which a majority of the members of CPRL's Board of Directors are not Continuing Directors.

Change of Control Triggering Event means the occurrence of both a Change of Control and a Below Investment Grade Rating Event.

Continuing Directors means, as of any date of determination, any member of the Board of Directors of CPRL who (1) was a member of such Board of Directors on the date of the issuance of the notes; or (2) was nominated for election or elected to such Board of Directors with the approval of a majority of the Continuing Directors who were members of such Board of Directors at the time of such nomination or election (either by a specific vote or by approval of CPRL's proxy statement in which such member was named as a nominee for election as a director, without objection to such nomination).

DBRS means DBRS Limited.

Investment Grade Rating means a rating equal to or higher than BBB (low) (or the equivalent) by DBRS, Baa3 (or the equivalent) by Moody's and BBB- (or the equivalent) by S&P.

Moody's means Moody's Investors Service, Inc.

Rating Agencies means (1) each of DBRS, Moody's and S&P; and (2) if one or more of DBRS, Moody's or S&P ceases to rate the notes or fails to make a rating of the notes publicly available for any reason outside of our control, a nationally recognized statistical rating organization within the meaning of Rule 15c3-1(c)(2)(vi)(F) under the Exchange Act, as amended, selected by us (by a resolution of our Board of Directors) as a replacement agency for one or more of DBRS, Moody's or S&P, as the case may be, or if a replacement agency is not selected, the remaining such agencies providing publicly available ratings of the notes.

S&P means Standard & Poor's, a Division of The McGraw-Hill Companies, Inc.

Interest Rate Adjustment

The interest rate payable on each series of notes will be subject to adjustments from time to time if Moody's Investors Service, Inc. (Moody's) (or, if applicable, any Substitute Rating Agency (as defined below)) or Standard & Poor's Ratings Services, a division of The McGraw-Hill Companies, Inc. (S&P) (or, if applicable, any Substitute Rating Agency) downgrades (or subsequently upgrades) the debt rating assigned to such series of notes, as set forth below.

Table of Contents

If the ratings from Moody's or S&P (or, in either case if applicable, any Substitute Rating Agency) with respect to the notes (each, a Rating Agency, and collectively, the Rating Agencies) is decreased to a rating set forth in the immediately following table with respect to that Rating Agency, the per annum interest rate on the 2022 notes or the 2042 notes will increase from that set forth on the cover page of this prospectus supplement by the percentage set forth opposite that rating:

Rating Level	Rating Agency		Percentage
	Moody's*	S&P*	
1	Ba1	BB+	0.250%
2	Ba2	BB	0.500%
3	Ba3	BB-	0.750%
4	B1 or below	B+ or below	1.000%

* Including the equivalent ratings of any Substitute Rating Agency

If at any time the interest rate on any series of notes has been adjusted upward as a result of a decrease in a rating by a Rating Agency and that Rating Agency subsequently increases its rating with respect to such series of notes to any of the threshold ratings set forth above, the per annum interest rate on that series of notes will be decreased such that the per annum interest rate equals the interest rate set forth on the cover page of this prospectus supplement plus the percentage set forth opposite the rating in effect immediately following the increase in the table above; provided that if Moody's or any Substitute Rating Agency subsequently increases its rating of any series of notes to Baa3 (or its equivalent if with respect to any Substitute Rating Agency) or higher and S&P or any Substitute Rating Agency subsequently increases its rating of any series of notes to BBB- (or its equivalent if with respect to any Substitute Rating Agency) or higher, the interest rate on that series of notes will be decreased to the per annum interest rate on that series of notes set forth on the cover page of this prospectus supplement.

No adjustment in the interest rate of any series of notes shall be made solely as a result of a Rating Agency ceasing to provide a rating. If at any time less than two Rating Agencies provide a rating of any series of notes, we will use our commercially reasonable efforts to obtain a rating of that series of notes from another nationally recognized statistical rating organization, to the extent one exists, and if another nationally recognized statistical rating organization rates that series of notes (such organization, as certified by a resolution of our board of directors, a Substitute Rating Agency), for purposes of determining any increase or decrease in the per annum interest rate on that series of notes pursuant to the table above (a) such Substitute Rating Agency will be substituted for the last Rating Agency to provide a rating of that series of notes but which has since ceased to provide such rating, (b) the relative ratings scale used by such Substitute Rating Agency to assign ratings to senior unsecured debt will be determined in good faith by an independent investment banking institution of national standing appointed by us and, for purposes of determining the applicable ratings included in the table above with respect to such Substitute Rating Agency, such ratings shall be deemed to be the equivalent ratings used by Moody's and S&P in such table and (c) the per annum interest rate on that series of notes will increase or decrease, as the case may be, such that the interest rate equals the interest rate set forth on the cover page of this prospectus supplement plus the appropriate percentage, if any, set forth opposite the rating from such Substitute Rating Agency in the table above (taking into account the provisions of clause (b) above). For so long as (i) only one Rating Agency provides a rating of any series of notes, any increase or decrease in the interest rate of that series of notes necessitated by a reduction or increase in the rating by that Rating Agency shall be twice the applicable percentage set forth in the table above and (ii) no Rating Agency provides a rating of any series of notes, the interest rate on that series of notes will increase to, or remain at, as the case may be, 2.000% above the interest rate set forth on the cover page of this prospectus supplement.

Each adjustment required by any decrease or increase in a rating set forth above, whether occasioned by the action of Moody's, S&P or any Substitute Rating Agency, shall be made independent of (and in addition to) any and all other adjustments. In no event shall (1) the per annum interest rate on any series of notes be reduced

Table of Contents

below the interest rate set forth on the cover page of this prospectus supplement with respect to such series or (2) the per annum interest rate on any series of notes exceed a rate that is 2.000% above the interest rate set forth on the cover page of this prospectus supplement with respect to such series of note.

Any interest rate increase or decrease described above will take effect on the next business day after the rating change has occurred.

The interest rates on any series of notes will permanently cease to be subject to any adjustment described above (notwithstanding any subsequent decrease in the ratings by any Rating Agency) if that series of notes becomes rated A3 (or its equivalent) or higher by Moody's (or any Substitute Rating Agency) and A- (or its equivalent) or higher by S&P (or any Substitute Rating Agency), or one of those ratings if only rated by one Rating Agency, in each case with a stable or positive outlook.

Book-Entry System

The notes will be represented by fully registered global notes, without interest coupons and will be deposited upon issuance with the Trustee as custodian for The Depository Trust Company (DTC) in New York, New York, and registered in the name of DTC or its nominee, in each case, for credit to an account of a direct or indirect participant as described below. The provisions set forth under Description of Debt Securities Debt Securities in Global Form in the accompanying prospectus will be applicable to the notes. Except as set forth below, the global notes may be transferred, in whole and not in part, only to another nominee of DTC or to a successor of DTC or its nominee. Except as described under Description of Debt Securities Debt Securities in Global Form in the accompanying prospectus, owners of beneficial interests in the registered global notes will not be entitled to receive notes in definitive form and will not be considered holders of notes under the Indenture.

Transfers of beneficial interests in the global notes are subject to the applicable rules and procedures of DTC and its direct or indirect participants, which may change.

Certain Book-Entry Procedures for the Global Notes

All interests in global notes will be subject to the operations and procedures of DTC, Euroclear and Clearstream Luxembourg. The descriptions of the operations and procedures of DTC, Euroclear and Clearstream Luxembourg set forth below are provided solely as a matter of convenience. These operations and procedures are solely within the control of the respective settlement systems and are subject to change by them from time to time. We obtained the information in this section and elsewhere in this prospectus supplement concerning DTC, Euroclear and Clearstream Luxembourg and their respective book-entry systems from sources that we believe are reliable, but we take no responsibility for the accuracy of any of this information, and investors are urged to contact the relevant system or its participants directly to discuss these matters.

DTC. DTC is a limited-purpose trust company organized under the New York Banking Law, a banking organization within the meaning of the New York Banking Law, a member of the Federal Reserve System, a clearing corporation within the meaning of the New York Uniform Commercial Code, and a clearing agency registered pursuant to the provisions of Section 17A of the Exchange Act. DTC also facilitates the post-trade settlement among direct participants of sales and other securities transactions in deposited securities, through electronic computerized book-entry transfers and pledges between direct participants' accounts. This eliminates the need for physical movement of securities certificates. Direct participants include both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, clearing corporations, and certain other organizations. DTC is a wholly-owned subsidiary of The Depository Trust & Clearing Corporation (DTCC). DTCC is the holding company for DTC, National Securities Clearing Corporation and Fixed Income Clearing Corporation, all of which are registered clearing agencies. DTCC is owned by the users of its regulated subsidiaries. Access to the DTC system is also available to others such as both U.S. and non-U.S. securities brokers and dealers, banks, trust

companies, and clearing corporations that clear through or maintain a custodial relationship with a direct participant, either directly or indirectly. The DTC Rules applicable to its Participants are on file with the Securities and Exchange Commission.

Clearstream Luxembourg. Clearstream Luxembourg is incorporated under the laws of Luxembourg as a professional depository. Clearstream Luxembourg holds securities for its participating organizations (Clearstream Luxembourg Participants) and facilitates the clearance and settlement of securities transactions between Clearstream Luxembourg Participants through electronic book-entry changes in accounts of Clearstream Luxembourg Participants, thereby eliminating the need for physical movement of certificates. Clearstream Luxembourg provides Clearstream Luxembourg Participants with, among other things, services for safekeeping, administration, clearance and establishment of internationally traded securities and securities lending and borrowing. Clearstream Luxembourg Participants are recognized financial institutions around the world, including underwriters, securities brokers and dealers, banks, trust companies, clearing corporations and certain other organizations, and may include the underwriters. Indirect access to Clearstream Luxembourg is also available to others, such as banks, brokers, dealers and trust companies that clear through or maintain a custodial relationship with a Clearstream Luxembourg Participants either directly or indirectly.

Distributions with respect to notes held beneficially through Clearstream Luxembourg will be credited to cash accounts of Clearstream Luxembourg Participants in accordance with its rules and procedures to the extent received by the U.S. Depository for Clearstream Luxembourg.

Euroclear. Euroclear was created in 1968 to hold securities for participants of Euroclear (Euroclear Participants) and to clear and settle transactions between Euroclear Participants through simultaneous electronic book-entry delivery against payment, thereby eliminating the need for physical movement of certificates and any risk from lack of simultaneous transfers of securities and cash. Euroclear includes various other services, including securities lending and borrowing and interfaces with domestic markets in several markets in several countries. Euroclear is operated by Euroclear Bank S.A./N.V. (the Euroclear Operator), under contract with Euroclear Clearance Systems S.C., a Belgian cooperative corporation (the Cooperative). All operations are conducted by the Euroclear Operator, and all Euroclear securities clearance accounts and Euroclear cash accounts are accounts with the Euroclear Operator, not the Cooperative. The Cooperative establishes policy for Euroclear on behalf of Euroclear Participants. Euroclear Participants include banks (including central banks), securities brokers and dealers and other professional financial intermediaries and may include the underwriters. Indirect access to Euroclear is also available to other firms that clear through or maintain a custodial relationship with a Euroclear Participant, either directly or indirectly.

The Euroclear Operator is regulated and examined by the Belgian Banking Commission.

Distributions of principal and interest with respect to notes held through Euroclear or Clearstream Luxembourg will be credited to the cash accounts of Euroclear or Clearstream Luxembourg participants in accordance with the relevant system s rules and procedures, to the extent received by such system s depository.

Links have been established among DTC, Clearstream Luxembourg and Euroclear to facilitate the initial issuance of the notes and cross-market transfers of the notes associated with secondary market trading. DTC will be linked indirectly to Clearstream Luxembourg and Euroclear through the DTC accounts of their respective U.S. depositories.

Book-Entry Procedures. Purchases of notes under the DTC system must be made by or through direct participants, which will receive a credit for the notes on DTC s records. The ownership interest of each actual purchaser of each note (beneficial owner) is in turn to be recorded on the direct and indirect participants records. Beneficial owners will not receive written confirmation from DTC of their purchase. Beneficial owners are, however, expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the direct or indirect participant through which the beneficial owner entered into the transaction. Transfers of ownership interests in the global notes are to be accomplished by entries made

Table of Contents

on the books of direct and indirect participants acting on behalf of beneficial owners. Beneficial owners will not receive certificates representing their ownership interests in the global notes, except in the event that use of the book-entry system for the notes is discontinued.

The deposit of the global notes with DTC and their registration in the name of Cede & Co. do not effect any change in beneficial ownership. DTC has no knowledge of the actual beneficial owners of the global notes; DTC's records reflect only the identity of the direct participants to whose accounts such securities are credited, which may or may not be the beneficial owners. The direct and indirect participants will remain responsible for keeping account of their holdings on behalf of their customers.

Conveyance of notices and other communications by DTC to direct participants, by direct participants to indirect participants, and by direct and indirect participants to beneficial owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

None of DTC, Cede & Co., or any other DTC nominee will consent or vote with respect to the global notes unless authorized by a direct participant in accordance with DTC's procedures. Under its usual procedures, DTC mails an omnibus proxy to us as soon as possible after the record date. The omnibus proxy assigns Cede & Co.'s consenting or voting rights to those direct participants to whose accounts the securities are credited on the record date. These participants are identified in a listing attached to the omnibus proxy.

Principal and interest payments on the global notes will be made to Cede & Co., or such other nominee as may be requested by an authorized representative of DTC. DTC's practice is to credit direct participants' accounts upon DTC's receipt of funds and corresponding detail information from us, on the applicable payment date in accordance with their respective holdings shown on DTC's records. Payments by participants to beneficial owners will be governed by standing instructions and customary practices, as is the case with notes held for the accounts of customers in bearer form or registered in street name. These payments will be the responsibility of these participants and not of DTC or its nominee, us, the Trustee, or any other agent or party, subject to any statutory or regulatory requirements that may be in effect from time to time. Payment of principal and interest to Cede & Co., or any other nominee as may be requested by an authorized representative of DTC, is our responsibility. Disbursement of the payments to direct participants is the responsibility of DTC, and disbursement of the payments to the beneficial owners is the responsibility of the direct or indirect participants.

We will send any redemption notices to DTC. If less than all of the notes of a series are being redeemed, DTC's practice is to determine by lot the amount of the interest of each direct participant in the issue to be redeemed.

A beneficial owner must give any required notice of its election to have its notes repurchased through the participant through which it holds its beneficial interest in the global notes to the applicable trustee or tender agent. The beneficial owner shall effect delivery of its notes by causing the direct participant to transfer its interest in the securities on DTC's records. The requirement for physical delivery of notes in connection with an optional tender or a mandatory purchase will be deemed satisfied when the ownership rights in the securities are transferred by the direct participant on DTC's records and followed by a book-entry credit of tendered notes to the applicable trustee or agent's DTC account.

Transfers between participants in DTC will be effected in accordance with DTC's procedures, and will be settled in same-day funds. Transfers between participants in Euroclear or Clearstream Luxembourg will be effected in the ordinary way in accordance with their respective rules and operating procedures.

Cross-market transfers between the participants in DTC, on the one hand, and Euroclear or Clearstream Luxembourg participants, on the other hand, will be effected through DTC in accordance with DTC's rules on behalf of Euroclear or Clearstream Luxembourg, as the case may be, by its respective depository; however, those cross-market transactions will require delivery of instructions to Euroclear or Clearstream Luxembourg, as the case may be, by the counterparty in that system in accordance with the rules and procedures and within the

Table of Contents

established deadlines (Brussels time) of that system. Euroclear or Clearstream Luxembourg, as the case may be, will, if the transaction meets its settlement requirements, deliver instructions to its respective depository to take action to effect final settlement on its behalf by delivering or receiving interests in the relevant global notes in DTC, and making or receiving payment in accordance with normal procedures for same-day funds settlement applicable to DTC. Euroclear participants and Clearstream Luxembourg participants may not deliver instructions directly to the depositories for Euroclear or Clearstream Luxembourg.

Because of time zone differences, the securities account of a Euroclear or Clearstream Luxembourg participant purchasing an interest in a global note from a participant in DTC will be credited, and any such crediting will be reported to the relevant Euroclear or Clearstream Luxembourg participant, during the securities settlement processing day (which must be a business day for Euroclear and Clearstream Luxembourg) immediately following the settlement date of DTC. DTC has advised us that cash received in Euroclear or Clearstream Luxembourg as a result of sales of interest in a global note by or through a Euroclear or Clearstream Luxembourg participant to a participant in DTC will be received with value on the settlement date of DTC but will be available in the relevant Euroclear or Clearstream Luxembourg cash account only as of the business day for Euroclear or Clearstream Luxembourg following DTC's settlement date.

Although we understand that DTC, Euroclear and Clearstream Luxembourg have agreed to the foregoing procedures to facilitate transfers of interests in the global notes among participants in DTC, Euroclear and Clearstream Luxembourg, they are under no obligation to perform or to continue to perform those procedures, and those procedures may be discontinued at any time. Neither we nor the Trustee will have any responsibility for the performance by DTC, Euroclear or Clearstream Luxembourg or their respective participants or indirect participants of their respective obligations under the rules and procedures governing their operations.

Same-Day Settlement and Payment

We will make payments in respect of the notes represented by the global notes (including principal and interest) by wire transfer of immediately available funds to the accounts specified by the global note holder. We will make all payments of principal and interest with respect to notes in definitive form by wire transfer of immediately available funds to the accounts specified by the holders of the notes in definitive form or, if no such account is specified, by mailing a check to each such holder's registered address. The notes represented by the global notes are expected to trade in DTC's Same-Day Funds Settlement System.

Because of time zone differences, the securities account of a Euroclear or Clearstream Luxembourg participant purchasing an interest in a global note from a participant in DTC will be credited, and any such crediting will be reported to the relevant Euroclear or Clearstream Luxembourg participant, during the securities settlement processing day (which must be a business day for Euroclear and Clearstream Luxembourg) immediately following the settlement date of DTC. DTC has advised us that cash received in Euroclear or Clearstream Luxembourg as a result of sales of interests in a global note by or through a Euroclear or Clearstream Luxembourg participant to a participant in DTC will be received with value on the settlement date of DTC but will be available in the relevant Euroclear or Clearstream Luxembourg cash account only as of the business day for Euroclear or Clearstream Luxembourg following DTC's settlement date.

None of us, any underwriter or agent, the Trustee or any applicable paying agent will have any responsibility or liability for any aspect of the records relating to or payments made on account of beneficial interests in a global note, or for maintaining, supervising or reviewing any records.

DTC may discontinue providing its services as securities depository with respect to the notes at any time by giving reasonable notice to us or the Trustee. Under such circumstances, in the event that a successor securities depository is not obtained, notes in definitive form are required to be printed and delivered to each holder.

We may decide to discontinue use of the system of book-entry transfers through DTC (or a successor securities depository). In that event, notes in definitive form will be printed and delivered.

MATERIAL INCOME TAX CONSIDERATIONS

United States

The following summary is a discussion of material U.S. federal income tax consequences of the acquisition, ownership and disposition of the notes by a U.S. Holder, as defined below, that acquires the notes pursuant to this offering at the issue price, as defined below. This discussion is not a complete analysis or description of all of the possible tax consequences of such transactions and does not address all tax considerations that might be relevant to particular holders in light of their personal circumstances or to persons that are subject to special tax rules. In particular, the information set forth below deals only with holders that hold the notes as capital assets for U.S. federal income tax purposes (generally, property held for investment). This description of material U.S. federal income tax consequences does not address the tax treatment of special classes of holders, such as:

financial institutions,

regulated investment companies,

real estate investment trusts,

partnership or other pass-through entities (or investors in such entities),

tax-exempt entities,

insurance companies,

persons holding the notes as part of a hedging, integrated, or conversion transaction, constructive sale or straddle,

U.S. expatriates,

persons whose functional currency is not the U.S. Dollar,

persons carrying on a trade or business in Canada through a permanent establishment,

persons subject to the alternative minimum tax, and

dealers or traders in securities or currencies.

This summary does not address U.S. federal estate and gift tax consequences or tax consequences under any state, local or foreign laws.

The following discussion is based upon the Internal Revenue Code of 1986, as amended (the Code), the Treasury Regulations promulgated under the Code, U.S. judicial decisions and administrative pronouncements. All of the preceding authorities are subject to change, possibly with

Edgar Filing: CANADIAN PACIFIC RAILWAY CO/NEW - Form SUPPL

retroactive effect, which may result in U.S. federal income tax consequences different from those discussed below. We have not requested, and will not request, a ruling from the U.S. Internal Revenue Service (the "IRS") with respect to any of the U.S. federal income tax consequences described below. As a result, there can be no assurance that the IRS or a court considering these issues will not disagree with or challenge any of the conclusions we have reached and describe herein.

For purposes of this discussion, a "U.S. Holder" is a beneficial owner of notes that is (1) an individual who is a citizen or a resident alien of the United States as determined for U.S. federal income tax purposes, (2) a corporation (or other entity treated as a corporation for U.S. federal income tax purposes) created or organized in or under the laws of the United States, any state thereof, or the District of Columbia, (3) an estate the income of which is subject to U.S. federal income taxation regardless of its source, or (4) a trust (A) if a court within the United States is able to exercise primary supervision over its administration and one or more U.S. persons have authority to control all substantial decisions of the trust, or (B) that has a valid election in effect under applicable Treasury Regulations to be treated as a U.S. person.

If a partnership or other pass-through entity holds the notes, the tax treatment of a partner (or other owner) will generally depend upon the status of the partner (or other owner) and the activities of the entity. If a U.S.

Table of Contents

Holder is a partner (or other owner) of a pass-through entity that holds, or is considering the acquisition of, notes, such a U.S. Holder should consult their own tax advisor regarding the tax consequences of acquiring, owning and disposing of notes.

The following discussion is for general information only and is not intended to be, nor should it be construed to be, legal or tax advice to any holder or prospective holder of notes, and no representation with respect to the U.S. federal income tax consequences to any such holder or prospective holder is given. **We urge prospective holders to consult their own tax advisor regarding the application of U.S. federal, state and local tax laws, as well as any applicable foreign tax laws, to their particular situation.**

Payments of Interest

Each payment of interest on a note will be taxable as foreign source ordinary interest income at the time it accrues or is received, in accordance with a U.S. Holder's method of accounting for U.S. federal income tax purposes. The interest will be foreign source income, which may be relevant to a U.S. Holder in calculating the foreign tax credit limitation. The rules governing foreign tax credits are complex and, therefore, a U.S. Holder should consult their own tax advisors regarding the availability of foreign tax credits in their particular circumstances.

In certain circumstances (see Description of Notes Change of Control and Description of Notes Registration Rights), we may be obligated to pay amounts in excess of stated interest or principal on the notes. It is possible that our obligation to make additional payments on the notes could implicate the provisions of Treasury Regulations relating to contingent payment debt instruments. According to Treasury Regulations, the possibility that any such payments would be made will not cause the notes to be treated as contingent payment debt instruments if there is only a remote chance as of the date the notes are issued that such payments will be made. We intend to take the position that the likelihood that we will be obligated to make any such payments is remote. This determination is binding on a U.S. Holder unless such holder discloses its contrary position in the manner required by applicable Treasury Regulations. Our determination is not, however, binding on the IRS and if the IRS were to challenge this determination, a U.S. Holder may be required to accrue additional interest income on its notes and to treat as ordinary income rather than as capital gain any income realized on the sale or other disposition of a note before the resolution of the contingency. Under the intended treatment, if we pay a premium pursuant to the change of control provisions, U.S. Holders will be required to recognize such amounts as capital gain. The remaining discussion assumes the correctness of this treatment. Additional amounts paid pursuant to the obligations described under Description of Debt Securities Additional Amounts in the accompanying prospectus would be treated as ordinary income.

Interest Rate Adjustment

Under certain circumstances, the interest rate payable on the notes may be increased. See Description of the Notes Interest Rate Adjustment. Our obligation to pay such additional interest may implicate the provisions of the Treasury Regulations relating to contingent payment debt instruments. Under these regulations, however, a contingency will not cause a debt instrument to be treated as a contingent payment debt instrument if, as of the issue date, such contingency is remote or incidental, or, if the debt instrument provides for alternative payment schedules applicable upon the occurrence of a contingency, if the timing and amount of the payments that comprise each payment schedule are known as of the issue date and one of such schedules, including the stated payment schedule, is significantly more likely than not to apply. We intend to take the position, based on the foregoing regulations, that the foregoing contingency should not cause the notes to be contingent payment debt instruments. Our determination is not, however, binding on the IRS, which could challenge this position. If such challenge were successful, a U.S. Holder might be required to accrue income on the notes in excess of stated interest, and to treat as ordinary income rather than capital gain any income realized on the taxable disposition of a note before the resolution of the contingencies. In the event a contingent payment actually occurs, it would affect the amount and timing of the income that a U.S. Holder will recognize. The remaining discussion assumes the correctness of this treatment.

Table of Contents

Original Issue Discount

A note with a term that exceeds one year will be treated as issued with original issue discount (OID) if the stated redemption price at maturity of the note exceeds its issue price by more than the de minimis amount. OID will be treated as de minimis if it is less than 1/4 of 1 percent of the stated redemption price at maturity multiplied by the number of complete years from the issue date of the note to its maturity. A note's issue price generally is the first price at which a substantial amount of notes included in the issue of which the note is a part is sold to persons other than bond houses, brokers, or similar persons or organizations acting in the capacity of underwriters, placement agents or wholesalers. The stated redemption price at maturity of a note is the total of all payments provided by the note that are not payments of qualified stated interest. Generally, an interest payment on a note is qualified stated interest if it is one of a series of stated interest payments on a note that are unconditionally payable at least annually at a single fixed rate, with certain exceptions for lower rates paid during some periods, applied to the outstanding principal amount of the note.

It is not expected that the notes will be issued with OID. If, however, the stated redemption price of a note exceeds its issue price by more than a de minimis amount, a U.S. Holder will be required to treat such excess amount as OID, which is treated for U.S. federal income tax purposes as accruing over the term of the note as interest income in accordance with a constant yield method based on a compounding of interest before the receipt of cash payments attributable to this income. A U.S. Holder's adjusted tax basis in a note would be increased by the amount of any OID included in gross income. In compliance with Treasury Regulations, if we determine that the notes have OID, we will provide certain information to the IRS and/or U.S. Holders that is relevant to determining the amount of OID in each accrual period.

Sale, Exchange, Retirement or Other Taxable Disposition of the Notes

A U.S. Holder will generally recognize capital gain or loss upon the sale, exchange, retirement or other taxable disposition of notes in an amount equal to the difference between (i) the amount of cash plus the fair market value of any property received (other than any amounts attributable to accrued but unpaid stated interest, which will be taxable as ordinary interest income to the extent not previously included in income), and (ii) the adjusted tax basis in the notes at the time of sale, exchange, retirement or other taxable disposition. A U.S. Holder's adjusted tax basis in the notes will generally be the amount paid for the notes increased by the amount of any OID previously included in income and decreased by the amount of any payments (other than payments of qualified stated interest) on the notes. Any capital gain or loss will be long-term capital gain or loss if at the time of the sale, exchange, retirement or other taxable disposition of the notes, the U.S. Holder has held the notes for more than one year. Long-term capital gain of non-corporate U.S. Holders, including individual U.S. Holders, is generally taxed at reduced rates. The gain or loss will generally be treated as U.S. source gain or loss. The deductibility of capital losses is subject to limitations.

New Legislation

Newly enacted legislation requires certain U.S. Holders who are individuals, estates or trusts to pay a 3.8 percent tax on, among other things, interest income and capital gains from the sale or other disposition of notes for taxable years beginning after December 31, 2012.

Information Reporting and Backup Withholding

In general, backup withholding and information reporting requirements apply to certain payments to U.S. Holders of principal of, and interest on, a note, and the receipt of proceeds on the sale or other disposition (including a retirement or redemption) of a note before maturity, in each case when made within the U.S. or through certain U.S. intermediaries, if a U.S. Holder: fails to furnish its taxpayer identification number, fails to certify that such number is correct, fails to certify that such U.S. Holder is not subject to backup withholding, or otherwise fails to comply with the applicable requirements of the backup withholding rules.

Table of Contents

U.S. Holders, including corporations, are generally not subject to backup withholding and information reporting requirements provided their exemptions from backup withholding and information reporting are properly established. Backup withholding is not an additional tax. Any amounts withheld under the backup withholding rules from a payment to a U.S. Holder will be allowed as a credit against such holder's U.S. federal income tax liability and may entitle the U.S. Holder to a refund, provided that the required information is furnished to the IRS in a timely manner. U.S. Holders should consult their tax advisors regarding the application of backup withholding, the availability of an exemption from backup withholding and the procedure for obtaining such an exemption, if available.

Further, United States return disclosure obligations (and related penalties for failure to disclose) have been imposed on United States individuals who hold certain specified foreign financial assets in excess of \$50,000. The definition of specified foreign financial asset includes not only financial accounts maintained in foreign financial institutions, but also generally includes the notes (subject to certain exceptions, including an exception for notes held in accounts maintained by domestic financial institutions). U.S. Holders are urged to consult their tax advisors regarding the effect, if any, of such U.S. federal income tax legislation on their ownership and disposition of notes.

Canada

The following describes the principal Canadian federal income tax considerations as of the date of this prospectus supplement, generally applicable to a purchaser of notes (a Non-Resident Holder) who, for the purposes of the *Income Tax Act* (Canada) (the ITA) at all relevant times, is not, and is not deemed to be, resident in Canada, does not use or hold and is not deemed to use or hold the notes in carrying on a business in Canada, deals at arm's length with us, is not an authorized foreign bank and is not an insurer that carries on an insurance business in Canada and elsewhere.

This summary takes into account the current provisions of the ITA and the regulations passed pursuant to the ITA (the ITA Regulations) in force as of the date of this prospectus supplement, and proposals to amend the ITA and ITA Regulations publicly announced prior to the date of this prospectus supplement by the federal Minister of Finance and the current published administrative practices of the Canada Revenue Agency. This description is not exhaustive of all Canadian federal income tax considerations and does not anticipate any changes in law whether by legislative, government or judicial action other than the passage of such publicly announced proposed amendments to the ITA or ITA Regulations, nor does it take into account provincial, territorial or foreign tax considerations which may differ from the Canadian federal income tax considerations described in this prospectus supplement.

This summary is not intended to be, nor should it be construed to be, legal or tax advice to any particular holder of notes. Prospective holders should consult their own Canadian tax advisors with respect to the Canadian income tax considerations associated with their participation in this offering.

Pursuant to the ITA, interest paid or credited or deemed to be paid or credited by us on the notes as the case may be, to a Non-Resident Holder will be exempt from Canadian withholding tax. No other taxes on income (including taxable capital gains) will be payable pursuant to the ITA by a Non-Resident Holder in respect of the acquisition, ownership or disposition of the notes.

The underwriters are offering the notes subject to their acceptance of the notes from us and subject to prior sale. The underwriting agreement provides that the obligations of the several underwriters to pay for and accept delivery of the notes offered by this prospectus supplement are subject to certain conditions. The underwriters are obligated to take and pay for all of the notes offered by this prospectus supplement if any such notes are taken.

The underwriters initially propose to offer the notes to the public at the public offering price that appears on the cover page of this prospectus supplement. In addition, the underwriters initially propose to offer the notes to certain dealers at prices that represent a concession not in excess of 0.400% of the principal amount of the 2022 notes and 0.500% of the principal amount of the 2042 notes. Any underwriter may allow, and any such dealer may reallow, a concession not in excess of 0.250% and 0.250% of the principal amount of the 2022 notes and the 2042 notes, respectively, of the principal amount of the notes to certain other dealers. After the initial offering of the notes, the underwriters may from time to time vary the offering prices and other selling terms. The underwriters may offer and sell notes through certain of their affiliates.

The following table shows the underwriting discount that we will pay to the underwriters in connection with the offering of the notes:

	Paid by us
Per 2022 Note	0.650%
Per 2042 Note	0.875%
 Total	 US\$ 3,812,500

Expenses associated with this offering to be paid by us, other than underwriting discounts, are estimated to be approximately US\$0.75 million.

We have also agreed to indemnify the underwriters against certain liabilities, including liabilities under the Securities Act, or to contribute to payments which the underwriters may be required to make in respect of any such liabilities.

The notes are a new issue of securities, and there is currently no established trading market for the notes. We do not intend to apply for the notes to be listed on any securities exchange or to arrange for the notes to be quoted on any quotation system. The underwriters have advised us that they intend to make a market in the notes,

Table of Contents

but they are not obligated to do so. The underwriters may discontinue any market making in the notes at any time at their sole discretion. Accordingly, we cannot assure you that a liquid trading market will develop for the notes, that you will be able to sell your notes at a particular time or that the prices you receive when you sell will be favorable.

In connection with the offering of the notes, the underwriters may engage in transactions that stabilize, maintain or otherwise affect the prices of the notes. Specifically, the underwriters may overallocate in connection with the offering of the notes, creating syndicate short positions. In addition, the underwriters may bid for and purchase notes in the open market to cover syndicate short positions or to stabilize the prices of the notes. Finally, the underwriting syndicate may reclaim selling concessions allowed for distributing the notes in the offering of the notes, if the syndicate repurchases previously distributed notes in syndicate covering transactions, stabilization transactions or otherwise. Any of these activities may stabilize or maintain the market prices of the notes above independent market levels. The underwriters are not required to engage in any of these activities, and may end any of them at any time.

From time to time in the ordinary course of their respective businesses, certain of the underwriters and their affiliates have engaged in and may in the future engage in commercial banking, derivatives and/or financial advisory, investment banking and other commercial transactions and services with us and our affiliates for which they have received or will receive customary fees and commissions. Also, certain of the underwriters are affiliates of banks which are lenders to us and to which we are currently indebted. As a consequence of their participation in the offering, the underwriters affiliated with such banks will be entitled to share in the underwriting commission relating to the offering of the notes. The decision to distribute the notes hereunder and the determinations of the terms of the offering were made through negotiations between us and the underwriters.

USE OF PROCEEDS

Unless otherwise indicated in an applicable prospectus supplement relating to a series of debt securities, we will use the net proceeds we receive from the sale of the debt securities for general corporate purposes, which may include financing our capital expenditure program and working capital requirements. We may also use such proceeds for the repayment of indebtedness or to provide funding to CPRL for its general corporate purposes. The amount of net proceeds to be used for any such purpose will be set forth in the applicable prospectus supplement. We may, from time to time, issue debt instruments and incur additional indebtedness other than through the issue of debt securities pursuant to this prospectus.

DESCRIPTION OF DEBT SECURITIES

In this section only, we, us or our refer only to Canadian Pacific Railway Company without any of its subsidiaries through which it operates.

The following description sets forth certain general terms and provisions of the debt securities. The particular terms and provisions of the series of debt securities offered by any prospectus supplement, and the extent to which the general terms and provisions described below may apply thereto, will be described in the applicable prospectus supplement, which may provide information that is different from this prospectus.

The debt securities will be issued under a trust indenture (the Indenture) dated May 8, 2007 entered into between us and The Bank of New York, as trustee (the Trustee). The form of the Indenture has been filed with the SEC. Debt securities may also be issued under new indentures between us and a trustee or trustees as will be discussed in a prospectus supplement for such debt securities. The following statements with respect to the Indenture and the Securities (as hereinafter defined) are brief summaries of the material provisions of the Indenture. However, it is the Indenture, and not this summary, that governs your rights as a holder of the Securities. Wherever particular sections or defined terms of the Indenture are referred to, these sections or defined terms are incorporated herein by reference as part of the statement made, and the statement is qualified in its entirety by this reference. The term Securities, as used under this caption, refers to all securities issued under the Indenture, including the debt securities. Prospective investors should rely on information in the applicable prospectus supplement if it is different from the following information.

General

The Indenture does not limit the aggregate principal amount of Securities (which may include debentures, notes and other evidences of indebtedness) which may be issued thereunder, and Securities may be issued thereunder from time to time in one or more series and may be denominated and payable in foreign currencies. The Securities offered pursuant to this prospectus will be issued in an amount up to US\$1,500,000,000 or the equivalent in other currency or units based on other foreign currencies. The Indenture also permits us to increase the principal amount of any series of Securities previously issued and to issue that increased principal amount.

The applicable prospectus supplement will set forth certain terms relating to the debt securities offered thereby (the Offered Securities), including the following:

the specific designation of the Offered Securities;

any limit on the aggregate principal amount of the Offered Securities;

the extent and manner, if any, to which payment on or in respect of the Offered Securities will be senior or will be subordinated to the prior payment of our other liabilities and obligations;

the percentage or percentages of principal amount at which the Offered Securities will be issued;

the date or dates, if any, on which the Offered Securities will mature and the portion (if less than all of the principal amount) of the Offered Securities to be payable upon declaration of acceleration of maturity;

the rate or rates (which may be fixed or variable) at which the Offered Securities will bear interest, if any, the date or dates from which that interest will accrue and on which that interest will be payable and the regular record dates for any interest payable on the Offered Securities;

any mandatory or optional redemption or sinking fund provisions, including the period or periods within which, the price or prices at which and the terms and conditions upon which the Offered Securities may be redeemed or purchased at our option or otherwise;

whether the Offered Securities will be issuable in registered form or bearer form or both, and, if issuable in bearer form, the restrictions as to the offer, sale and delivery of the Offered Securities in bearer form and as to exchanges between registered and bearer form;

whether the Offered Securities will be issuable in the form of one or more global securities and, if so, the identity of the depository for those global securities;

the denominations in which any of the Offered Securities which are in registered form will be issuable, if other than denominations of US\$1,000 and any multiple thereof, and the denominations in which any of the Offered Securities which are in bearer form will be issuable, if other than the denomination of US\$1,000;

each office or agency where the principal of and any premium and interest on the Offered Securities will be payable, and each office or agency where the Offered Securities may be presented for registration of transfer or exchange;

if other than United States dollars, the foreign currency or the units based on or relating to foreign currencies in which the Offered Securities are denominated and/or in which the payment of the principal of and any premium and interest on the Offered Securities will or may be payable;

whether and under what circumstances we will pay Additional Amounts on the Offered Securities of such series in respect of certain taxes (and the terms of any such payment) and, if so, whether we will have the option to redeem the Offered Securities of such series rather than pay the Additional Amounts (and the terms of any such option);

any index pursuant to which the amount of payments of principal of and any premium and interest on the Offered Securities will or may be determined;

any applicable Canadian and U.S. federal income tax considerations; and

any other terms of the Offered Securities, including covenants and Events of Default relating solely to the Offered Securities or any covenants or Events of Default generally applicable to the Securities which are not to apply to the Offered Securities.

Unless otherwise indicated in the applicable prospectus supplement, the Indenture does not afford the holders the right to tender Securities to us for repurchase, or provide for any increase in the rate or rates of interest per annum at which the Securities will bear interest.

Securities may be issued under the Indenture bearing no interest and may be offered and sold at a discount below their stated principal amount. The Canadian and U.S. federal income tax consequences and other special considerations applicable to those discounted Securities or other Securities offered and sold at par which are treated as having been issued at a discount for Canadian and/or U.S. federal income tax purposes will be described in the prospectus supplement relating thereto.

Ranking

Unless otherwise indicated in the applicable prospectus supplement, the debt securities will be our unsecured obligations and will rank pari passu with all our other unsecured and unsubordinated debt from time to time outstanding and pari passu with other Securities issued under the Indenture. We conduct a substantial portion of our business through corporate and partnership subsidiaries. The debt securities will be

structurally subordinated to all existing and future liabilities, including trade payables and other indebtedness, of any of our corporate or partnership subsidiaries.

Debt Securities in Global Form

Unless otherwise indicated in the applicable prospectus supplement, debt securities of a particular series will be issued in the form of one or more global securities which will be registered in the name of and be deposited with a depository, or its nominee, each of which will be identified in the prospectus supplement relating to that series. Unless

Table of Contents

and until exchanged, in whole or in part, for Securities in definitive form, a global security may not be transferred except as a whole by the depository for a global security to a nominee of that depository, by a nominee of that depository to that depository or another nominee of that depository or by that depository or any nominee of that depository to a successor of that depository or a nominee of a successor of that depository.

The specific terms of the depository arrangement with respect to any portion of a particular series of Securities to be represented by a global security will be described in the prospectus supplement relating to that series. We anticipate that the following provisions will apply to all depository arrangements.

Upon the issuance of a global security, the depository therefor or its nominee will credit, on its book entry and registration system, the respective principal amounts of the Securities represented by that global security to the accounts of those persons having accounts with that depository or its nominee (participants) as shall be designated by the underwriters, investment dealers or agents participating in the distribution of those Securities or by us if those Securities are offered and sold directly by us. Ownership of beneficial interests in a global security will be limited to participants or persons that may hold beneficial interests through participants. Ownership of beneficial interests in a global security will be shown on, and the transfer of the ownership of those beneficial interests will be effected only through, records maintained by the depository therefor or its nominee (with respect to beneficial interests of participants) or by participants or persons that hold through participants (with respect to interests of persons other than participants). The laws of some states in the United States require certain purchasers of securities to take physical delivery thereof in definitive form. These depository arrangements and these laws may impair the ability to transfer beneficial interests in a global security.

So long as the depository for a global security or its nominee is the registered owner thereof, that depository or its nominee, as the case may be, will be considered the sole owner or holder of the Securities represented by that global security for all purposes under the Indenture. Except as provided below, owners of beneficial interests in a global security will not be entitled to have Securities of the series represented by that global security registered in their names, will not receive or be entitled to receive physical delivery of Securities of that series in definitive form and will not be considered the owners or holders of those Securities under the Indenture.

Principal, premium, if any, and interest payments on a global security registered in the name of a Depository or its nominee will be made to that depository or nominee, as the case may be, as the registered owner of that global security. None of us, the Trustee or any paying agent for Securities of the series represented by that global security will have any responsibility or liability for any aspect of the records relating to or payments made on account of beneficial interests in that global security or for maintaining, supervising or reviewing any records relating to those beneficial interests.

We expect that the depository for a global security or its nominee, upon receipt of any payment of principal, premium or interest, will immediately credit participants accounts with payments in amounts proportionate to their respective beneficial interests in the principal amount of that global security as shown on the records of that depository or its nominee. We also expect that payments by participants to owners of beneficial interests in that global security held through those participants will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers registered in street name , and will be the responsibility of those participants.

If the depository for a global security representing Securities of a particular series is at any time unwilling or unable to continue as depository, or if the depository is no longer eligible to continue as depository, and a successor depository is not appointed by us within 90 days, or if an Event of Default described in clauses (a) or (b) of the first sentence under Events of Default below with respect to a particular series of Securities has occurred and is continuing, we will issue securities of that series in definitive form in exchange for that global security. In addition, we may at any time and in our sole discretion determine not to have the Securities of a particular series represented by one or more global securities and, in that event, will issue securities of that series in definitive form in exchange for all of the global securities representing securities of that series.

Debt Securities in Definitive Form

If indicated in the applicable prospectus supplement, the Securities may be issued in fully registered form without coupons and in denominations of US\$1,000 or any integral multiple thereof. Securities may be presented for exchange

and debt securities may be presented for registration of transfer in the manner, at the places and, subject to the restrictions set forth in the Indenture and in the applicable prospectus supplement, without service charge, but upon payment of any taxes or other governmental charges due in connection therewith. We have appointed the Trustee as Security Registrar. Securities in bearer form and the coupons appertaining thereto, if any, will be transferable by delivery.

Unless otherwise indicated in the applicable prospectus supplement, payment of the principal of and any premium and interest on Securities (other than a global security) will be made at the office or agency of the Trustee at 101 Barclay Street, 21st Floor West, New York, New York, 10286, except that, at our option, payment of any interest may be made (a) by cheque mailed to the address of the Person entitled thereto as that Person's address will appear in the Security Register or (b) by wire transfer to an account maintained by the Person entitled thereto as specified in the Security Register.

Negative Pledge

The Indenture provides that no holder of the Securities of any series will have any right to institute any proceeding with respect to the Indenture or for any remedy thereunder, unless (a) that holder shall have previously given to the

Table of Contents

Trustee written notice of a continuing Event of Default with respect to the Securities of that series, (b) the holders of not less than 25% in aggregate principal amount of the Securities of all affected series then outstanding shall have made written request, and provided reasonable indemnity, to the Trustee to institute that proceeding, (c) the Trustee shall not have received from the holders of a majority in aggregate principal amount of the Securities of all affected series then outstanding a direction inconsistent with that request and (d) the Trustee shall have failed to institute that proceeding within 60 days after that notification, request and offer of indemnity. However, the holder of any Security will have an absolute right to receive payment of the principal of and any premium and interest on that Security on or after the due dates expressed in that Security and to institute suit for the enforcement of any of these payments. The Indenture requires us to furnish to the Trustee annually an officers' certificate as to our compliance with certain covenants, conditions or other requirements contained in the Indenture and as to any non-compliance therewith.

The Indenture provides that the Trustee may withhold notice to the holders of the Securities of one or more series of any default affecting those series (except defaults as to payment of principal or interest) if it, in good faith, considers that withholding to be in the best interests of the holders of the Securities of those series.

Additional Amounts

All payments made by us under or with respect to the debt securities will be made free and clear of and without withholding or deduction for or on account of any present or future tax, duty, levy, impost, assessment or other governmental charge (including penalties, interest and other liabilities related thereto) imposed or levied by or on behalf of the Government of Canada or of any province or territory thereof or by any authority or agency therein or thereof having power to tax (hereinafter "Canadian Taxes"), unless we are required to withhold or deduct Canadian Taxes by law or by the interpretation or administration thereof. If we are so required to withhold or deduct any amount for or on account of Canadian Taxes from any payment made under or with respect to the debt securities, we will pay as additional interest such additional amounts ("Additional Amounts") as may be necessary so that the net amount received by each holder after such withholding or deduction (and after deducting any Canadian Taxes on such Additional Amounts) will not be less than the amount the holder would have received if such Canadian Taxes had not been withheld or deducted. However, no Additional Amounts will be payable with respect to a payment made to a holder (such holder, an "Excluded Holder") in respect of the beneficial owner thereof:

- (a) with which we do not deal at arm's length (within the meaning of the *Income Tax Act* (Canada)) at the time of making such payment;
- (b) which is subject to such Canadian Taxes by reason of the holder being a resident, domicile or national of, or engaged in business or maintaining a permanent establishment or other physical presence in or otherwise having some connection with Canada or any province or territory thereof otherwise than by the mere holding of debt securities or the receipt of payments thereunder; or
- (c) which is subject to such Canadian Taxes by reason of the holder's failure to comply with any certification, identification, information, documentation or other reporting requirements if compliance is required by law, regulation, administrative practice or an applicable treaty as a precondition to exemption from, or a reduction in the rate of deduction or withholding of, such Canadian Taxes.

We will also:

- (a) make such withholding or deduction; and
- (b) remit the full amount deducted or withheld to the relevant authority in accordance with applicable law.

We will furnish to the holders of the debt securities, within 30 days after the date the payment of any Canadian Taxes is due pursuant to applicable law, certified copies of tax receipts or other documents evidencing such payment by us.

We will indemnify and hold harmless each holder (other than an Excluded Holder) and upon written request reimburse each such holder for the amount of:

- (a) any Canadian Taxes so levied or imposed and paid by such holder as a result of payments made under or with respect to the debt securities;
- (b) any liability (including penalties, interest and expenses) arising therefrom or with respect thereto; and

- 14 -

Table of Contents

- (c) any Canadian Taxes imposed with respect to any reimbursement under clause (a) or (b) above, but excluding any such Canadian Taxes on such holder's net income.

In any event, no Additional Amounts or indemnity will be payable in excess of the Additional Amounts or indemnity which would be required if the holder of the debt security was a resident of the United States for purposes of and entitled to the benefits of the Canada-U.S. Tax Convention (1980), as amended.

Wherever in the Indenture there is mentioned, in any context, the payment of principal (and premium, if any), interest or any other amount payable under or with respect to a Security, such mention shall be deemed to include mention of the payment of Additional Amounts to the extent that, in such context, Additional Amounts are, were or would be payable in respect thereof.

Tax Redemption

The debt securities will be subject to redemption in whole, but not in part, at our option, at any time, on not less than 30 nor more than 60 days prior written notice, at 100% of the principal amount, together with accrued interest thereon to the redemption date, in the event we determine that it is probable that we have become or would become obligated to pay, on the next date on which any amount would be payable with respect to the debt securities, any Additional Amounts as a result of an amendment to or change in the laws (including any regulations promulgated thereunder) of Canada (or any political subdivision or taxing authority thereof or therein), or any amendment to or change in any official position regarding the application or interpretation of such laws or regulations, which change is announced or becomes effective on or after the date of this prospectus.

Modification and Waiver

The Indenture permits us and the Trustee to enter into supplemental indentures without the consent of the holders of the Securities to, among other things: (a) secure the Securities of one or more series, (b) evidence the assumption by the Successor of our covenants and obligations, under the Indenture and the Securities then outstanding, (c) add covenants or Events of Default for the benefit of the holders of one or more series of the Securities or surrender any right or power conferred upon us by the Indenture, (d) cure any ambiguity or correct or supplement any defective provision in the Indenture which correction will not be prejudicial to the interests of the holders of the Securities in any material respect, (e) establish the form and terms of the Securities of any series, (f) evidence the acceptance of appointment by a successor Trustee, and (g) make any other modifications which will not be prejudicial to the interests of the holders of the Securities in any material respect.

The Indenture also permits us and the Trustee, with the consent of the holders of a majority in aggregate principal amount of the Securities of each series then outstanding and affected (voting as one class), to add any provisions to, or change in any manner or eliminate any of the provisions of, the Indenture or modify in any manner the rights of the holders of the Securities of each such affected series; provided, however, that we and the Trustee may not, among other things, without the consent of the holder of each Security then outstanding and affected thereby: (a) change the stated maturity of the principal amount of, or any installment of the principal of or the interest on, that Security; (b) reduce the principal amount of or the rate of interest on or any premium payable upon the redemption of that Security; (c) reduce the amount of principal of an original issue discount Security payable upon acceleration of the maturity thereof; (d) change the place or currency of payment of the principal of or any premium or interest on that Security; (e) impair the right to institute suit for the enforcement of payment of this kind with respect to that Security on or after the stated maturity thereof; or (f) reduce the percentage in principal amount of the outstanding Securities of the affected series, the consent of whose holders is required for modification or amendment of the Indenture, or for any waiver with respect to defaults, breaches, Events of Default or declarations of acceleration.

The holders of a majority in aggregate principal amount of the Securities of all series at the time outstanding with respect to which a default or breach or an Event of Default shall have occurred and be continuing (voting as one class) may on behalf of the holders of all such affected Securities waive any past default or breach or Event of Default and its consequences, except a default in the payment of the principal of or premium or interest on any Security of any series or an Event of Default in respect of a covenant or provision of the Indenture or of any Security which cannot be modified or amended without the consent of the holder of each Security affected.

Table of Contents**Defeasance**

The Indenture provides that, at our option, we will be discharged from any and all obligations with respect to the Securities of any series (except for certain obligations to execute and deliver definitive Securities of that series, to register the transfer or exchange of the Securities of that series, to replace mutilated, destroyed, lost or stolen Securities of that series, to maintain paying agencies, to compensate and indemnify the Trustee and to maintain the trust described below) (hereinafter called a "defeasance") upon the irrevocable deposit with the Trustee, in trust, of money, and/or securities of the government which issued the currency in which the Securities of that series are payable or securities backed by the full faith and credit of that government which, through the payment of the principal thereof and the interest thereon in accordance with their terms, will provide money, in an amount sufficient to pay all the principal of and any premium and interest on the Securities of that series on the stated maturity of those payments in accordance with the terms of the Securities of that series. Such a defeasance may be effected only if, among other things, (a) we have delivered to the Trustee an opinion of counsel (who may be our independent counsel) stating that we have received from, or there has been published by, the Internal Revenue Service a ruling or there has been a change in the applicable laws or regulations, in either case to the effect that the holders of the Securities of that series will not recognize income, gain or loss for United States federal income tax purposes as a result of that defeasance and will be subject to United States federal income tax on the same amounts, in the same manner and at the same times as would have been the case if that defeasance had not occurred, and (b) we have delivered to the Trustee an opinion of counsel in Canada (who may be our independent counsel) or a ruling from the Canada Revenue Agency to the effect that the holders of the Securities of that series will not recognize income, gain or loss for Canadian federal or provincial income or other Canadian tax purposes as a result of that defeasance and will be subject to Canadian federal or provincial income and other Canadian tax on the same amounts, in the same manner and at the same times as would have been the case if that defeasance had not occurred (and for the purposes of such opinion, such Canadian counsel shall assume that holders of the Securities include holders who are not resident in Canada). In addition, we may obtain a discharge of the Indenture with respect to the Securities of all series issued under the Indenture by depositing with the Trustee, in trust, an amount of money and government securities as shall be sufficient to pay, at stated maturity or upon redemption, all of those Securities, provided that those Securities are by their terms to become due and payable within one year or are to be called for redemption within one year.

The Indenture also provides that we may omit to comply with the restrictive covenants described under the caption "Negative Pledge" and certain other covenants and no Event of Default shall arise with respect to the Securities of that series by reason of this failure to comply (hereinafter called a "covenant defeasance"), upon the irrevocable deposit with the Trustee, in trust, of money and/or securities of the government which issued the currency in which the Securities of that series are payable or securities backed by the full faith and credit of that government which, through the payment of the principal thereof and the interest thereon in accordance with their terms, will provide money, in an amount sufficient to pay all the principal of and any premium and interest on the Securities of that series on the stated maturity of those payments in accordance with the terms of the Securities of that series. Our other obligations with respect to the Securities of that series would remain in full force and effect. A covenant defeasance may be effected only if, among other things, (a) we have delivered to the Trustee an opinion of counsel (who may be our independent counsel) to the effect that the holders of Securities of that series will not recognize income, gain or loss for United States federal income tax purposes as a result of the covenant defeasance and will be subject to United States federal income tax on the same amounts, in the same manner and at the same times as would have been the case if that covenant defeasance had not occurred, and (b) we have delivered to the Trustee an opinion of counsel in Canada (who may be our independent counsel) or a ruling from the Canada Revenue Agency to the effect that the holders of the Securities of that series will not recognize income, gain or loss for Canadian federal or provincial income or other Canadian tax purposes as a result of that defeasance and will be subject to Canadian federal or provincial income and other Canadian tax on the same amounts, in the same manner and at the same times as would have been the case if that defeasance had not occurred (and for the purposes of such opinion, such Canadian counsel shall assume that holders of the Securities include holders who are not resident in Canada).

In the event that we exercise our option to effect a covenant defeasance with respect to the Securities of any series and the Securities of that series are thereafter declared due and payable because of the occurrence of another Event of Default, the amount of money and securities on deposit with the Trustee would be sufficient to pay the amounts due on the Securities of that series at their respective stated maturities, but may not be sufficient to pay the amounts due on the Securities of that series at the time of the acceleration resulting from that Event of Default. However, we would remain liable for this deficiency.

We have designated CT Corporation System, 111 Eighth Avenue, 13th Floor, New York, New York, 10011 as our authorized agent for service of process in the United States in any action, suit or proceeding arising out of or relating to the Indenture or the Securities and for actions brought under federal or state securities law in any federal or state court located in the Borough of Manhattan, New York, New York and irrevocably submit to the non-exclusive jurisdiction of any such court.

Governing Law

The Indenture and the Securities will be governed by and construed in accordance with the laws of the State of New York.

Enforceability of Judgments

We are incorporated and governed by the laws of Canada. A substantial portion of our assets are located outside the United States and some or all of the directors and officers and some or all of the experts named herein are residents of Canada. As a result, it may be difficult for investors to effect service within the United States upon us and upon those directors, officers and experts, or to realize in the United States upon judgments of courts of the United States predicated upon our civil liability and the civil liability of our directors, officers or experts. We have also been advised by Macleod Dixon LLP that there is some doubt as to the enforceability in Canada by a court in original actions, or in actions to enforce judgments of United States courts, of liabilities predicated upon United States federal securities laws.

PLAN OF DISTRIBUTION

We may sell the debt securities to or through underwriters or dealers. We may also sell the debt securities to one or more other purchasers directly or through agents.

The applicable prospectus supplement will set forth the terms of the offering, including the name or names of any underwriters or agents, the purchase price or prices of the debt securities to be offered, the proceeds to us from the sale of the debt securities to be offered, any initial public offering price, any underwriting discount or commission and any discounts, concessions or commissions allowed or reallocated or paid by any underwriter to other dealers. Any initial public offering price and any discounts, concessions or commissions allowed or reallocated or paid to dealers may be changed from time to time.

The debt securities may be sold from time to time in one or more transactions at a fixed price or fixed prices, which may be changed, or at market prices prevailing at the time of sale, at prices related to these prevailing market prices or at negotiated prices.

If so indicated in the applicable prospectus supplement, we may authorize dealers or other persons acting as our agents to solicit offers by certain institutions to purchase the debt securities directly from us pursuant to contracts providing for payment and delivery on a future date. These contracts will be subject only to the conditions set forth in the applicable prospectus supplement or supplements, which will also set forth the commission payable for solicitation of these contracts.

Underwriters, dealers and agents who participate in the distribution of the debt securities may be entitled under agreements to be entered into with us to indemnification by us against certain liabilities, including liabilities under the U.S. Securities Act of 1933, as amended, or to contribution with respect to payments which those underwriters, dealers or agents may be required to make in respect thereof. Those underwriters, dealers and agents may be customers of, engage in transactions with or perform services for us in the ordinary course of business.

Each series of the debt securities will be a new issue of securities with no established trading market. Unless otherwise specified in an applicable prospectus supplement relating to a series of debt securities, the debt securities will not be listed on any securities exchange or on any automated dealer quotation system. Some broker-dealers may make a market in the debt securities, but they will not be obligated to do so and may discontinue any market-making activities at any time without notice. No assurance can be given as to the liquidity of the trading market for the debt

securities of any series or that an active public market for the debt securities of any series will develop. If an active public trading market for the debt securities of any series does not develop, the market price and liquidity of such series of debt securities may be adversely affected.

EARNINGS COVERAGE

The following consolidated earnings coverage ratios of CPRL are calculated for the twelve-month period ended December 31, 2010 based on audited consolidated financial statements and for the twelve-month period ended March 31, 2011 based on unaudited consolidated interim financial statements. The earnings coverage ratios set out below do not purport to be indicative of earnings coverage ratios for any future periods. These coverage ratios do not give effect to the issuance of securities that may be issued pursuant to this prospectus and any applicable pricing supplement or other prospectus supplement, since the aggregate principal amounts and the terms of such securities are not presently known.

	Twelve Months Ended December 31, 2010	Twelve Months Ended March 31, 2011
Earnings coverage on long-term debt ⁽¹⁾⁽²⁾	4.5x	4.1x

Notes:

- (1) Earnings coverage is equal to income before interest expense and income tax expense, divided by interest expense on all debt plus the amount of interest that has been capitalized during the period.
- (2) The earnings coverage ratios have been calculated excluding carrying charges for the \$281.7 million and \$279.8 million in long-term debt maturing within one year reflected as current liabilities in CPRL's consolidated balance sheets as at December 31, 2010 and March 31, 2011, respectively. If such long-term debt maturing within one year had been classified in its entirety as long-term debt for purposes of calculated earnings coverage ratios, the entire amount of the annual carrying charges for such long-term debt maturing within one year would have been reflected in the calculation of CPRL's earnings coverage ratios. For the twelve-month period ended December 31, 2010, earnings coverage on long-term debt would have been 4.0x. For the twelve-month period ended March 31, 2011, earnings coverage on long-term debt would have been 3.7x.

CPRL's interest expense requirements, including interest capitalized during the period, amounted to approximately \$293.5 million for the twelve-month period ended December 31, 2010 and approximately \$281.8 million for the twelve-month period ended March 31, 2011.

If we offer debt securities having a term to maturity in excess of one year under this prospectus and a prospectus supplement, the prospectus supplement will include earnings coverage ratios giving effect to the issuance of such securities.

CERTAIN INCOME TAX CONSIDERATIONS

The applicable prospectus supplement will describe the material Canadian federal income tax consequences to investors of purchasing, owning and disposing of debt securities, including, in the case of an investor who is not a resident of Canada, whether payments of principal, premium, if any, and interest will be subject to Canadian non-resident withholding tax.

The applicable prospectus supplement will also describe certain U.S. federal income tax consequences of the purchase, ownership and disposition of the debt securities by an investor who is a United States person, including, to the extent applicable, certain relevant U.S. federal income tax rules pertaining to capital gains and ordinary income treatment, original issue discount, backup withholding and the foreign tax credit, and any consequences relating to debt securities payable in a currency other than U.S. dollars, issued at an original discount for U.S. federal income tax purposes or containing early redemption provisions or other special terms.

RISK FACTORS

In addition to the risk factors set forth below, additional risk factors relating to our business are discussed in the AIF and MD&A, which risk factors are incorporated herein by reference. Prospective purchasers of the debt securities should consider carefully the risk factors set forth

If any event arising from these risks occurs, our or CPRL's business, prospects, financial condition, results of operations or cash flows, or your investment in the debt securities could be materially adversely affected.

There can be no assurance as to the liquidity of the trading market for the debt securities or that a trading market for the debt securities will develop.

There is no public market for the debt securities and, unless otherwise specified in the applicable prospectus supplement, we do not intend to apply for listing of the debt securities on any securities exchanges. If the debt securities are traded after their initial issue, they may trade at a discount from their initial offering prices depending on prevailing interest rates, the market for similar securities and other factors, including general economic conditions and our financial condition. There can be no assurance as to the liquidity of the trading market for the debt securities or that a trading market for the debt securities will develop.

Credit ratings may not reflect all risks of an investment in the debt securities and may change.

Credit ratings may not reflect all risks associated with an investment in the debt securities. Any credit ratings applied to the debt securities are an assessment of our ability to pay our obligations. Consequently, real or anticipated changes in the credit ratings will generally affect the market value of the debt securities. The credit ratings, however, may not reflect the potential impact of risks related to structure, market or other factors discussed herein on the value of the debt securities. There is no assurance that any credit rating assigned to the debt securities will remain in effect for any given period of time or that any rating will not be lowered or withdrawn entirely by the relevant rating agency.

Changes in interest rates may cause the value of the debt securities to decline.

Prevailing interest rates will affect the market price or value of the debt securities. The market price or value of the debt securities may decline as prevailing interest rates for comparable debt instruments rise, and increase as prevailing interest rates for comparable debt instruments decline.

The debt securities will be effectively subordinated to certain indebtedness of our corporate and partnership subsidiaries.

Unless otherwise provided with respect to a series of debt securities, the debt securities will be our unsubordinated and unsecured obligation and will rank equally with all of our other unsecured, unsubordinated obligations. We conduct a substantial portion of our business through corporate and partnership subsidiaries. Our obligations under the debt securities will be structurally subordinate to all existing and future indebtedness and liabilities, including trade payables, of any of our corporate and partnership subsidiaries.

LEGAL MATTERS

Unless otherwise specified in the applicable prospectus supplement relating to a series of debt securities, certain legal matters will be passed upon for us by Macleod Dixon LLP, Calgary, Alberta, and by Paul, Weiss, Rifkind, Wharton & Garrison LLP, New York, New York. In addition, certain legal matters relating to United States law will be passed upon for the underwriters, dealers or agents by Davis Polk & Wardwell LLP, New York, New York.
