Report of Independent Registered Public Accounting Firm

To the Administrative Committee of

The Progressive 401(k) Plan

We have audited the accompanying Statement of Net Assets Available for Benefits of The Progressive 401(k) Plan as of December 31, 2012 and 2011, and the related Statement of Changes in Net Assets Available for Benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Plan is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2012 and 2011, and the changes in net assets available for benefits for the years then ended, in conformity with accounting principles generally accepted in the United States of America.

Our audit was performed for the purpose of forming an opinion on the basic financial statements taken as a whole. The accompanying Schedule H- Schedule of assets held for investment purposes at end of year as of December 31, 2012, is presented for the purpose of additional analysis and is not a required part of the basic financial statements, but is supplemental information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

1 Description of the Plan, Continued

Notes Receivable from Participants:

Participants may borrow up to 50% of their total vested account balance from a minimum of \$1,000 up to a maximum of \$50,000. Two loans may be outstanding at one time. The highest outstanding balance for prior loans plus any new loans may not exceed \$50,000 in a 12-month period. Loan repayment periods are up to four years. The loans are secured by the balance in the participant's account and bear interest at the same rate throughout the life of the loan.

At the beginning of each calendar quarter, the interest rate applied to new loans during that quarter is set at 1% above the prime rate. This interest rate remains constant over the life of the loan. Principal and interest are paid through bi-weekly payroll deductions. A \$35 loan initiation fee and a quarterly maintenance fee of \$3.75 will be deducted from the participant's account for each new loan.

Loan repayments may be suspended for up to (1) year in case of an approved leave of absence. Loans to participants on a leave of absence due to a Qualified Military Leave, will be automatically suspended for the period of the Qualified Military Leave.

Participants who terminate employment at the time a loan is outstanding may arrange with the Administrator to continue to repay the loan by method of automatic or electronic withdrawals or debits from a financial institution known as ACH debits.

Self-Directed Retirement Plan (discontinued effective January 1, 2009)

Edgar Filing: PROGRESSIVE CORP/OH/ - Form 11-K

The accompanying financial statements have been prepared on an accrual basis of accounting in accordance with generally accepted accounting principles (GAAP).

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported and the accompanying notes. Actual results could differ from those estimates.

The Progressive 401(k) Plan

December 31, 2012 and 2011

2 Summary of Significant Accounting Policies, Continued

Investment Valuation and Income Recognition:

At the close of business on June 14, 2011, the Vanguard Total International Stock Index Fund-Investor Class was frozen to new contributions and exchanges in. This fund was liquidated and proceeds were invested in the Vanguard Total International Stock Index Fund-Institutional Class.

Effective February 10, 2012, the Vanguard Target Retirement 2005 Fund merged into the Vanguard Target Retirement Income Fund.

The fair value of investments in wrap contracts is determined using a discounted cash flow model which considers recent fee bids from recognized dealers, discount rate and the duration of the underlying portfolio of securities. The dealers may consider the following in the bid process: size of the portfolio, performance of the underlying portfolio, and the fair value to contract value ratio. For purposes of benefit responsive withdrawals, investments in wrap contracts are valued at contract value, which could be more or less than fair value. These investment contracts provide for benefit responsive withdrawals at contract value including those instances when, in connection with wrap contracts, underlying investment securities are sold to fund normal benefit payments prior to the maturity of such contracts.

The Fidelity Managed Income Portfolio II investment objective is to seek preservation of capital and a competitive level of income over time. To achieve its investment objective, the Portfolio invests in underlying assets (typically fixed-income securities or bond funds and may include derivative instruments such as futures contracts and swap agreements) and maintains a wrapper contract issued by a third-party. Fidelity Management Trust Company (FMTC) seeks to minimize the exposure of the Portfolio to credit risk through, among other means, diversification of the wrap contracts across an approved group of issuers. The Portfolio's ability to receive amounts due pursuant to these contracts is dependent upon the issuers' ability to meet their financial obligations.

The Progressive 401(k) Plan

December 31, 2012 and 2011

2 Summary of Significant Accounting Policies, Continued

Investment Valuation and Income Recognition, Continued:

The investment contract and fixed income security commitments are backed solely by the financial resources of the issuer. Participant withdrawals and exchanges are paid at book value (principle and interest accrued to date) during the term of the contract. However, withdrawals prompted by certain events (e.g., an employer-initiated event such as a layoff, sale of a division, Plan termination, etc.) may be paid at market value, which may be less than book value. The portfolio strives to maintain a \$1 unit price, but cannot guarantee that it will be able to do so, and its yield will fluctuate.

The fair value of the Fidelity Managed Income Portfolio II investment contract at December 31, 2012 and 2011, was \$184,735,942 and \$179,994,825, respectively. The average yield was 1.73% and 1.92% and the crediting interest rate was 1.28% and 1.60% for 2012 and 2011, respectively. The crediting rate for this investment contract is reset annually by the issuer but cannot be less than zero.

The investment in The Progressive Corporation Stock Fund is valued at the last reported trade price on the New York Stock Exchange on the last business day of the year. Investments in the Brokerage Accounts are valued at quoted market prices, which represent the net asset value of shares held by the Plan at year-end.

The Plan presents in the Statement of Changes in Net Assets Available for Benefits the net appreciation (depreciation) in the fair value of its investments, which consists of the realized gains or losses and the unrealized appreciation (depreciation) on those investments.

Investment securities are exposed to various risks such as interest rate, market and credit risks. Market values of securities fluctuate based on the magnitude of changing market conditions; significant changes in market conditions could materially affect the Plan's investments.

Security transactions in The Progressive Corporation Stock Fund are recorded on a trade date basis. All other security transactions are recorded on a settlement date basis. The use of a transaction or trade date basis would not have a material effect on the overall statements of net assets available for benefits or changes in net assets available for benefits as of December 31, 2012 or 2011.

The fair value of the wrapper investment is calculated by discounting the related cash flows based on current yields of similar instruments with comparable durations.

Realized gains and losses on the sale of securities are determined based on the average cost of the securities sold from the Trust's assets. Realized gains and losses on the distribution of Company Common Shares are determined based on the historical cost of the shares distributed.

Dividend income is recorded on the ex-dividend date. Interest and other income are recorded as earned on an accrual basis.

The Progressive 401(k) Plan

2 Summary of Significant Accounting Policies, Continued

Fair Value:

As defined in FASB ASC 820, Fair Value Measurements, fair value is the price that would be received to sell an asset, or paid to transfer a liability, in an orderly transaction between market participants at the measurement date. The accounting guidance establishes a framework for measuring fair value, establishes a fair value hierarchy based on inputs used to measure fair value, and expands disclosure about fair value measurements.

The Plan has categorized its financial instruments, based on the degree of subjectivity inherent in the valuation technique, into a fair value hierarchy of three levels, as follows:

Level 1: Inputs are unadjusted, quoted prices in active markets for identical instruments at the measurement date (e.g., U.S. Government securities and active exchange-traded equity securities).

Level 2: Inputs (other than quoted prices included within Level 1) that are observable for the instrument either directly or indirectly (e.g., certain common/collective trusts and unitized investment funds). This includes: (i) quoted prices for similar instruments in active markets, (ii) quoted prices for identical or similar instruments in markets that are not active, (iii) inputs other than quoted prices that are observable for the instruments, and (iv) inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3: Inputs that are unobservable. Unobservable inputs reflect the Plan's subjective evaluation about the assumptions market participants would use in pricing the financial instrument (e.g., certain structured securities and privately held investments).

December 31, 2012 and 2011

2 Summary of Significant Accounting Policies, Continued

Funding:

Participant and employer contributions are funded on a bi-weekly basis generally coincident with the pay date.

Expenses:

Administrative expenses of the Plan, including trust management, legal and other fees, are paid by the Company and are not expenses paid by the Plan. Investment management fees are expenses of the Plan, but are netted against investment income. Transaction fees for loan initiation, quarterly loan maintenance, exchanges of Company stock and short-term fund trading are paid from assets in participant accounts.

Risks and Uncertainties:

The Plan provides for several investment options, which are subject to various risks, such as interest rate, credit, foreign currency exchange rate and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the amounts reported in the Statement of Net Assets Available for Benefits.

3 Participant Accounts

Each participant's account is credited with the participant's contributions and Company match, Company SDRP contributions prior to January 1, 2009 and an allocation of earnings. Allocations are based on the portion of each participant's account balance to the total account balances for all participants. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Certain Plan investment choices are Fidelity mutual funds managed by Fidelity Management & Research Company (FMR Co.). Fidelity Management Trust Company (FMTC) is the current trustee and along with FMR Co. is a subsidiary of FMR Corp. These transactions, therefore, qualify as related party transactions.

6 Income Tax Status

The Plan obtained its latest determination letter on June 6, 2002, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements. On December 7, 2009, the Plan applied for an updated determination letter.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken uncertain tax positions that more-likely-than-not would not be sustained upon examination by applicable taxing authorities. The Plan administrator has analyzed tax positions taken by the Plan and has concluded that, as of December 31, 2012, there are no uncertain tax positions taken, or expected to be taken, that would require recognition of a liability or that would require disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions. However, currently no audits for any tax periods are in progress. The Plan administrator believes that the Plan is no longer subject to income tax examinations for years prior to December 31, 2009.

7 Plan Termination

8 Recent Accounting Pronouncements

In May 2011, the FASB issued ASU 2011-04 to improve the consistency of fair value measurement and disclosure requirements between U.S. GAAP and International Financial Reporting Standards (IFRS). As a result, the wording used to describe many of the requirements in U.S. GAAP for measuring fair value and for disclosing information about fair value measurements changed. Further, ASU 2011-04 provides additional disclosure requirements surrounding Level 3 fair value measurements, the uses of nonfinancial assets in certain circumstances and identification of the level in the fair value hierarchy used for assets and liabilities which are not recorded at fair value, but where fair value is disclosed. The pronouncement had no effect on the financial statements.

9 Subsequent Events

Management evaluates events occurring subsequent to the date of the financial statements in determining the accounting for and disclosure of transactions and events that affect the financial statements.
