NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

1. CONSOLIDATED FINANCIAL STATEMENTS

The accompanying consolidated financial statements have been prepared by Gibraltar Industries, Inc. (the Company) without audit. In the opinion of management, all adjustments (consisting of normal recurring adjustments and accruals) necessary to present fairly the financial position at March 31, 2014 and December 31, 2013, the results of operations, comprehensive income, and cash flows for the three months ended March 31, 2014 and 2013, and the statement of shareholders' equity for the three months ended March 31, 2014 have been included therein in accordance with U.S. Securities and Exchange Commission (SEC) rules and regulations and prepared using the same accounting principles as are used for our annual audited financial statements.

Certain information and footnote disclosures, including significant accounting policies normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America, have been condensed or omitted in accordance with the prescribed SEC rules. It is suggested that these consolidated financial statements be read in conjunction with the consolidated financial statements and footnotes included in the Company's Annual Report for the year ended December 31, 2013 as filed on Form 10-K.

The consolidated balance sheet at December 31, 2013 has been derived from the audited consolidated financial statements at that date, but does not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements.

The results of operations for the three month period ended March 31, 2014 are not necessarily indicative of the results to be expected for the full year. The Company is subject to seasonal fluctuations in our businesses primarily due to reduced activity in the first and fourth quarters for the industries which we serve due to inclement weather.

2. INVENTORIES

Inventories consist of the following (in thousands):

	March 31, 2014	December 31, 2013
Raw material	\$ 54,830	\$ 52,751
Work-in-process	11,310	11,100
Finished goods	61,060	57,301
Total inventories	\$ 127,200	\$ 121,152

3. ACQUISITIONS

In September 2013, the Company purchased the assets of a domestic designer and distributor of solar-powered roof and attic ventilation products. The results of this acquisition have been included in the Company's consolidated

financial results since the date of acquisition (included in the Company's Residential Products segment). The fair value of the aggregate purchase consideration for the assets acquired was \$7,454,000. As part of the purchase agreement, the Company is required to pay additional consideration, or an earn-out provision, based on the acquired business's EBITDA through the last day of the twenty-fourth month following the closing date of the acquisition. The Company expects to make payments of additional consideration through the end of 2015. The purchase agreement does not provide for a limit of the amount of additional consideration. The Company recorded a payable of \$2,322,000 to reflect the fair value of the Company's obligation at the date of the acquisition. Adjustments to this payable are and will be reflected in the Company's Statement of Operations. The fair value of the Company's obligation was \$1,891,000 as of March 31, 2014, which resulted in \$27,000 of expense recorded in SG&A during the three months ended March 31, 2014.

The purchase price for the acquisition was allocated to the assets acquired and liabilities assumed based upon their respective fair values. The excess consideration was recorded as goodwill and totaled \$2,466,000, all of which is deductible for tax purposes. Goodwill represents future economic benefits arising from other assets acquired that could not be individually identified including growth opportunities and increased presence in the building products markets.

Table of Contents

The allocation of purchase consideration to the assets acquired and liabilities assumed during 2013 are as follows (in thousands):

Working capital	\$ 2,665
Property, plant, and equipment	153
Acquired intangible assets	2,170
Goodwill	2,466
Fair value of purchase consideration	\$ 7,454

The intangible assets acquired in this acquisition consisted of the following (in thousands):

	Fair Value	Estimated Useful Life
Trademarks	\$ 640	Indefinite
Technology	260	15 Years
Customer relationships	1,130	15 Years
Non-compete agreements	140	5 Years
Total	\$ 2,170	

The 2013 acquisition was financed through cash on hand. The Company incurred certain acquisition-related costs composed of legal and consulting fees of \$2,000 and \$117,000 for the three months ended March 31, 2014 and 2013, respectively. All acquisition-related costs were recognized as a component of selling, general, and administrative expenses in the consolidated statement of operations. The Company also recognized additional cost of sales of \$206,000 and \$203,000 for the three months ended March 31, 2014 and 2013, respectively, related to the sale of inventory at fair value as a result of allocating the purchase price of the recent acquisitions.

4. GOODWILL AND RELATED INTANGIBLE ASSETS**Goodwill**

The changes in the carrying amount of goodwill for the three months ended March 31, 2014 are as follows (in thousands):

	Residential Products	Industrial and Infrastructure Products	Total
Balance as of December 31, 2013	\$ 195,520	\$ 145,654	\$ 341,174
Foreign currency translation		(232)	(232)

Balance as of March 31, 2014	\$ 195,520	\$ 145,422	\$ 340,942
------------------------------	------------	------------	------------

The goodwill balances as of March 31, 2014 and December 31, 2013 are net of accumulated impairment losses of \$150,965,000.

Table of Contents**Acquired Intangible Assets**

Acquired intangible assets consist of the following (in thousands):

	March 31, 2014		December 31, 2013		
	Gross Carrying Amount	Accumulated Amortization	Gross Carrying Amount	Accumulated Amortization	Estimated Life
Indefinite-lived intangible assets:					
Trademarks	\$ 45,744	\$	\$ 45,724	\$	Indefinite
Finite-lived intangible assets:					
Trademarks	3,950	1,525	3,989	1,420	2 to 15 Years
Unpatented technology	24,690	7,428	24,690	6,980	5 to 20 Years
Customer relationships	54,129	29,750	54,171	28,926	5 to 16 Years
Non-compete agreements	1,937	1,453	1,937	1,408	4 to 10 Years
Backlog	1,330	1,330	1,330	1,330	1 to 2 Years
	86,036	41,486	86,117	40,064	
Total acquired intangible assets	\$ 131,780	\$ 41,486	\$ 131,841	\$ 40,064	

The Company incurred \$1,439,000 and \$1,719,000 of acquired intangible asset amortization expense for the three months ended March 31, 2014 and 2013, respectively.

Amortization expense related to acquired intangible assets for the remainder of fiscal 2014 and the next five years thereafter is estimated as follows (in thousands):

2014	\$ 4,276
2015	\$ 5,578
2016	\$ 5,243
2017	\$ 4,882
2018	\$ 4,320
2019	\$ 2,172

5. RELATED PARTY TRANSACTIONS

A member of the Company's Board of Directors, Gerald S. Lippes, is a partner in a law firm that provides legal services to the Company. At March 31, 2014 and December 31, 2013, the Company had \$159,000 and \$296,000, respectively, recorded in accounts payable for amounts due to this law firm. For the three months ended March 31, 2014 and 2013, the Company incurred the following costs for legal services from this firm, including services provided in connection with the note refinancing and classified as debt issuance costs (in thousands):

2014 2013

Edgar Filing: GIBRALTAR INDUSTRIES, INC. - Form 10-Q

Selling, general, and administrative expense	\$ 220	\$ 304
Capitalized as deferred financing costs		208
Total related-party legal costs	\$ 220	\$ 512

Effective September 30, 2013, Henning N. Kornbrekke, the former President and Chief Operating Officer, retired and entered into a consulting agreement with the Company. Through this agreement, he will serve as a consultant to the Company through December 2014 for a monetary fee of \$10,000 per month.

Table of Contents**6. LONG-TERM DEBT**

Long-term debt consists of the following (in thousands):

	March 31, 2014	December 31, 2013
Senior Subordinated 6.25% Notes	\$ 210,000	\$ 210,000
Other debt	4,005	4,007
Total debt	214,005	214,007
Less current maturities	405	409
Total long-term debt	\$ 213,600	\$ 213,598

Borrowings under the Senior Credit Agreement are secured by the trade receivables, inventory, personal property, equipment, and certain real property of the Company's significant domestic subsidiaries. The Senior Credit Agreement is also guaranteed by each of the Company's significant domestic subsidiaries. The Senior Credit Agreement provides for a revolving credit facility and letters of credit in an aggregate amount that does not exceed the lesser of (i) \$200 million and (ii) a borrowing base determined by reference to the trade receivables, inventories, and property, plant, and equipment of the Company's significant domestic subsidiaries. The Company can request additional financing from the banks to increase the revolving credit facility to \$250 million under the terms of the Senior Credit Agreement.

The terms of the Senior Credit Agreement provide that the revolving credit facility will terminate on October 10, 2016. Interest rates on the revolving credit facility are based on the London Interbank Offering Rate (LIBOR) plus an additional margin of 2.0% to 2.5%. In addition, the revolving credit facility is subject to an annual commitment fee calculated as 0.375% of the daily average undrawn balance.

Standby letters of credit of \$12,868,000 have been issued under the Senior Credit Agreement to third parties on behalf of the Company as of March 31, 2014. These letters of credit reduce the amount otherwise available under the revolving credit facility. As of March 31, 2014, based upon the Company's current borrowing base calculation, the Company had \$116,712,000 of availability under the revolving credit facility.

On a trailing four-quarter basis, the Senior Credit Agreement includes a single financial covenant that requires the Company to maintain a minimum fixed charge coverage ratio of 1.25 to 1.00 at the end of each quarter. As of March 31, 2014, the Company was in compliance with this financial covenant. The Senior Credit Agreement contains other provisions and events of default that are customary for similar agreements and may limit the Company's ability to take various actions.

On January 31, 2013, the Company issued \$210 million of 6.25% Senior Subordinated Notes (6.25% Notes) due February 1, 2021. In connection with the issuance of the 6.25% Notes, the Company initiated a tender offer for the purchase of the outstanding \$204 million of 8% Senior Subordinated Notes (8% Notes). Simultaneously with the closing of the sale of the 6.25% Notes, the Company purchased tendered notes or called for redemption of all of the remaining 8% Notes that were not purchased. In connection with the redemption and tender offer, the Company satisfied and discharged its obligations under the 8% Notes during the first quarter of 2013. The Company recorded a charge of approximately \$7,166,000 in the first quarter of 2013, including \$3,702,000 for the prepayment premium

paid to holders of the 8% Notes, \$2,199,000 to write-off deferred financing fees and \$1,265,000 for the unamortized original issue discount related to the 8% Notes. In connection with the issuance of the 6.25% Notes, the Company paid \$3,755,000 in placement and other fees which are recorded as deferred financing costs and included in other assets.

Table of Contents**7. ACCUMULATED OTHER COMPREHENSIVE INCOME**

The cumulative balance of each component of accumulated other comprehensive loss, net of tax, is as follows (in thousands):

	Foreign Currency Translation Adjustment	Minimum Pension Liability Adjustment	Unamortized Post- Retirement Health Care Costs	Accumulated Other Comprehensive Loss
Balance as of December 31, 2013	\$ (2,201)	\$ 45	\$ (1,429)	\$ (3,585)
Current period change	(904)	2	19	(883)
Balance as of March 31, 2014	\$ (3,105)	\$ 47	\$ (1,410)	\$ (4,468)

8. EQUITY-BASED COMPENSATION

Equity-based payments to employees and directors, including grants of stock options, restricted stock units, and restricted stock, are recognized in the statements of operations based on the grant-date fair value of the award. The Company uses the straight-line method of attributing the value of stock-based compensation expense over the vesting periods. Stock compensation expense recognized during the period is based on the value of the portion of equity-based awards that is ultimately expected to vest during the period. Vesting requirements vary for directors, executives, and key employees with a vesting period that typically equals four years with graded vesting.

The Gibraltar Industries, Inc. 2005 Equity Incentive Plan (the Plan) is an incentive compensation plan that allows the Company to grant equity-based incentive compensation awards to eligible participants to provide them an additional incentive to promote the business of the Company, to increase their proprietary interest in the success of the Company, and to encourage them to remain in the Company's employ. Awards under the plan may be in the form of options, restricted shares, restricted units, performance shares, performance stock units, and rights. The Plan provides for the issuance of up to 3,000,000 shares of common stock. Of the total number of shares of common stock issuable under the Plan, the aggregate number of shares which may be issued in connection with grants of incentive stock options and rights cannot exceed 900,000 shares. Vesting terms and award life are governed by the award document.

Restricted Stock Units

The following table provides the number of restricted stock units (that will convert to shares upon vesting), that were issued during the three months ended March 31 along with the weighted average grant date fair value of each award:

	2014		2013	
	Number of Awards	Weighted Average Grant Date Fair Value	Number of Awards	Weighted Average Grant Date Fair Value
Restricted stock units	88,755	\$ 18.42	72,165	\$ 16.50

Performance Stock Units

In January 2012, the Company awarded 295,000 performance stock units with a grant date fair value of \$4,152,000. As of March 31, 2014, 280,000 of the originally awarded performance stock units remained outstanding after forfeitures. The final number of performance stock units earned was based on the Company's total stockholder returns relative to the S&P Small Cap 600 Index for the calendar year of 2012. During the performance period, the participants earned 58.3% of target, aggregating 163,200 performance stock units compared to the target of 280,000 awards.

In January 2013, the Company awarded 304,000 performance stock units with a grant date fair value of \$4,123,000. As of March 31, 2014, 246,000 of the originally awarded performance stock units remained outstanding after forfeitures. The final number of performance stock units earned was determined based on the Company's actual return on invested capital (ROIC) for 2013 relative to the improved ROIC targeted for the performance period ending December 31, 2013. During the performance period, the participants earned 50% of target, aggregating 123,000 performance stock units compared to the target of 246,000 awards.

Table of Contents

In January 2014, the Company awarded 212,000 performance stock units with a grant date fair value of \$3,914,000, all of which remain outstanding as of March 31, 2014. The final number of performance stock units earned will be determined based on the Company's actual return on invested capital (ROIC) for 2014.

The cost of the 2012, 2013 and 2014 performance stock awards will be recognized over the requisite vesting period, which ranges between one year and three years, depending on the date a participant turns 60 and completes 5 years of service. After the vesting period, any performance stock units earned will convert to cash based on the trailing 90-day closing price of the Company's common stock as of December 31, 2014, 2015 and 2016 and be payable to participants in January 2015, 2016 and 2017, respectively.

The following table summarizes the compensation expense recognized for the performance stock units for the three months ended March 31 (in thousands):

	2014	2013
Performance stock unit compensation expense	\$ 1,137	\$ 1,501

Management Stock Purchase Plan

The Management Stock Purchase Plan (MSPP) is an integral component of the Plan and provides participants the ability to defer a portion of their salary, their annual bonus under the Management Incentive Compensation Plan, and Directors' fees. The deferral is converted to restricted stock units and credited to an account together with a company-match in restricted stock units equal to a percentage of the deferral amount. The account is converted to cash at the trailing 200-day average closing price of the Company's stock and payable to the participants upon a termination of their service to the Company. The matching portion vests only if the participant has reached their sixtieth (60th) birthday. If a participant terminates their service to the Company prior to age sixty (60), the match is forfeited. Upon termination, the account is converted to a cash account that accrues interest at 2% over the then current ten-year U.S. Treasury note rate. The account is then paid out in either one lump sum, or in five or ten equal annual cash installments at the participant's election.

The fair value of restricted stock units held in the MSPP equals the trailing 200-day average closing price of the Company's common stock as of the last day of the period. During the three months ended March 31, 2014 and 2013, 108,043 and 183,178 restricted stock units, respectively, including the company-match, were credited to participant accounts. At March 31, 2014 and December 31, 2013, the value of the restricted stock units in the MSPP was \$16.20 and \$15.97 per unit, respectively. At March 31, 2014 and December 31, 2013, 722,931 and 614,888 restricted stock units, including the company-match, were credited to participant accounts including 62,133 and 47,268, respectively, of unvested restricted stock units. The Company made disbursements of \$395,000 and \$531,000 out of the MSPP during the three months ended March 31, 2014 and 2013, respectively.

9. FAIR VALUE MEASUREMENTS

FASB Accounting Standards Codification (ASC) Topic 820, Fair Value Measurements and Disclosures, defines fair value, sets out a framework for measuring fair value, and requires certain disclosures about fair value measurements. A fair value measurement assumes that the transaction to sell an asset or transfer a liability occurs in the principal market for the asset or liability. Fair value is defined based upon an exit price model.

FASB ASC Topic 820 establishes a valuation hierarchy for disclosure of the inputs used to measure fair value. This hierarchy prioritizes the inputs into three broad levels as follows. Level 1 inputs are quoted prices (unadjusted) in

active markets for identical assets or liabilities. Level 2 inputs are quoted prices for similar assets and liabilities in active markets or inputs that are observable for the asset or liability, either directly or indirectly through market corroboration, for substantially the full term of the financial instrument. Level 3 inputs are unobservable inputs based on the Company's assumptions used to measure assets and liabilities at fair value. A financial asset or liability's classification within the hierarchy is determined based on the lowest level input that is significant to the fair value measurement.

Table of Contents

As described in Note 3 of the consolidated financial statements, the Company acquired the assets of one business during the year ended December 31, 2013. The estimated fair values allocated to the assets acquired and liabilities assumed relied upon fair value measurements based in part on Level 3 inputs. The valuation techniques used to assign fair values to inventory, property, plant and equipment, and intangible assets included the cost approach, market approach, relief-from-royalty approach, and other income approaches. The valuation techniques relied on a number of inputs which included the cost and condition of the property, plant and equipment, forecasted net sales and incomes, and royalty rates. In addition, the Company has a contingent consideration liability related to the earn-out provision for the 2013 acquisition discussed in Note 3 which is recorded at fair value on a recurring basis each reporting period. A discounted cash flow analysis, which takes into account a discount rate, forecasted EBITDA of the acquired business and the Company's estimate of the probability of the acquired business achieving the forecasted EBITDA is used to determine the fair value of this liability at each reporting period until the liability will be settled in 2015. The fair value of this liability is determined using Level 3 inputs. The fair value of this liability is sensitive primarily to changes in the forecasted EBITDA of the acquired business. As of March 31, 2014 and December 31, 2013, the fair value of the contingent consideration liability was \$1,891,000 and \$1,864,000, respectively.

The Company's financial instruments primarily consist of cash and cash equivalents, accounts receivable, accounts payable, and long-term debt. The carrying values for our financial instruments approximate fair value with the exception, at times, of long-term debt. At March 31, 2014, the fair value of outstanding debt was \$227,524,000 compared to its carrying value of \$214,005,000. The fair value of the Company's Senior Subordinated 6.25% Notes was estimated based on quoted market prices, a Level 1 input.

10. DISCONTINUED OPERATIONS

For certain divestiture transactions, the Company has agreed to indemnify the buyer for various liabilities that may arise after the disposal date, subject to limits of time and amount. As of March 31, 2014, the Company has a contingent liability recorded for environmental remediation related to a discontinued operation. Management does not believe that the outcome of this claim, or other claims, would significantly affect the Company's financial condition or results of operation.

11. EXIT ACTIVITY COSTS AND ASSET IMPAIRMENTS

The Company focuses on being the low-cost provider of its products by reducing operating costs and implementing lean manufacturing initiatives, which have in part led to the consolidation of facilities and product lines. During 2013, the Company consolidated two facilities in this effort, and also identified two other facilities to close or consolidate. During this process in 2014, the Company incurred \$83,000 of asset impairment charges along with exit activity costs, including contract termination costs, severance costs, and other moving and closing costs, and expects to incur approximately \$700,000 of additional costs related to these efforts. If future opportunities for cost savings are identified, other facility consolidations and closings will be considered.

The following table provides a summary of exit activity costs and asset impairments incurred by segment during the three months ended March 31 (in thousands):

	2014	2013
Residential Products	\$ 327	\$ 29
Industrial and Infrastructure Products	102	
Corporate		

Total exit activity costs and asset impairments \$ 429 \$ 29

The following table provides a summary of where the exit activity costs and asset impairments were recorded in the statement of operations for the three months ended March 31 (in thousands):

	2014	2013
Cost of sales	\$ 325	\$ 29
Selling, general, and administrative expense	104	
Total exit activity costs and asset impairments	\$ 429	\$ 29

Table of Contents

The following table reconciles the beginning and ending liability for exit activity costs relating to the Company's facility consolidation efforts (in thousands):

	2014	2013
Balance as of January 1	\$ 1,092	\$ 1,323
Exit activity costs recognized	346	29
Cash payments	(536)	(315)
Balance as of March 31	\$ 902	\$ 1,037

12. INCOME TAXES

The following table summarizes the provision for income taxes for continuing operations for the three months ended March 31 and the applicable effective tax rates (in thousands):

	2014	2013
Benefit of income taxes	\$ 1,251	\$ 2,255
Effective tax rate	37.5%	38.2%

The Company's provision for income taxes in interim periods is computed by applying forecasted annual effective tax rates to income or loss before income taxes for the interim period. In addition, non-recurring or discrete items, including interest on prior year tax liabilities, are recorded during the period in which they occur. To the extent that actual income or loss before taxes for the full year differs from the forecast estimates applied at the end of the most recent interim period, the actual tax rate recognized for the year ending December 31, 2014 could be materially different from the forecasted rate used for the three months ended March 31, 2014.

The effective tax rates for the first quarter of 2014 and 2013 exceeded the U.S. federal statutory rate of 35% due to state taxes partially offset by deductible permanent differences.

13. NET EARNINGS PER SHARE

Basic earnings per share is based on the weighted average number of common shares outstanding. Diluted earnings per share is based on the weighted average number of common shares outstanding, as well as dilutive potential common shares which, in the Company's case, comprise of shares issuable under its equity compensation plans described in Note 8 of the consolidated financial statements. The treasury stock method is used to calculate dilutive shares, which reduces the gross number of dilutive shares by the number of shares purchasable from the proceeds of the options assumed to be exercised and the unrecognized expense related to the restricted stock and restricted stock unit awards assumed to have vested.

The following table sets forth the computation of basic and diluted loss per share for the three months ended March 31 (in thousands):

2014	2013
------	------

Edgar Filing: GIBRALTAR INDUSTRIES, INC. - Form 10-Q

Numerator:		
Loss from continuing operations	\$ (2,086)	\$ (3,643)
Loss from discontinued operations		(4)
Net loss available to common shareholders	\$ (2,086)	\$ (3,647)
Denominator for basic earnings per share:		
Weighted average shares outstanding	31,034	30,877
Denominator for diluted earnings per share:		
Weighted average shares outstanding	31,034	30,877
Common stock options and restricted stock		
Weighted average shares and conversions	31,034	30,877

Table of Contents

For the three months ended March 31, 2014 and 2013, all stock options, unvested restricted stock, and unvested restricted stock units were anti-dilutive and, therefore, not included in the dilutive loss per share calculation. The number of weighted average stock options, unvested restricted stock, and unvested restricted stock units that were not included in the dilutive loss per share calculation because the effect would have been anti-dilutive was 209,000 and 182,000 shares for the three months ended March 31, 2014 and 2013, respectively.

14. SEGMENT INFORMATION

The Company is organized into two reportable segments on the basis of the production process and products and services provided by each segment, identified as follows:

- (i) Residential Products, which primarily includes roof and foundation ventilation products, mail and package storage products, rain dispersion products and roofing accessories; and
- (ii) Industrial and Infrastructure Products, which primarily includes fabricated bar grating, expanded and perforated metal, expansion joints and structural bearings.

When determining the reportable segments, the Company aggregated several operating segments based on their similar economic and operating characteristics.

The following table sets for the reconciliation of sales to earnings before income taxes by segment for the three months ended March 31 (in thousands):

	2014	2013
Net sales:		
Residential Products	\$ 86,983	\$ 89,664
Industrial and Infrastructure Products	104,346	107,467
Less: Intersegment sales	(297)	(330)
	104,049	107,137
Total consolidated net sales	\$ 191,032	\$ 196,801
Income (loss) from operations:		
Residential Products	\$ 2,093	\$ 6,638
Industrial and Infrastructure Products	3,108	6,327
Unallocated Corporate Expenses	(4,868)	(7,769)
Total operating profit	\$ 333	\$ 5,196

15. SUPPLEMENTAL FINANCIAL INFORMATION

The following information sets forth the consolidating summary financial statements of the issuer (Gibraltar Industries, Inc.) and guarantors, which guarantee the Senior Subordinated 6.25% Notes due February 1, 2021, and the

non-guarantors. The guarantors are 100% owned subsidiaries of the issuer and the guarantees are full, unconditional, joint and several.

Investments in subsidiaries are accounted for by the parent using the equity method of accounting. The guarantor subsidiaries and non-guarantor subsidiaries are presented on a combined basis. The principal elimination entries eliminate investments in subsidiaries and intercompany balances and transactions.

Table of Contents**Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations**

Certain information set forth herein includes statements that express our opinions, expectations, beliefs, plans, objectives, assumptions or projections regarding future events or future results and, therefore, are or may be deemed to be, forward-looking statements. These forward-looking statements can generally be identified by the use of forward-looking terminology, including the terms believes, anticipates, expects, estimates, seeks, projects, intends, plans, may, will or should or, in each case, their negative or other variations or comparable terminology. These forward-looking statements include all matters that are not historical facts. They include statements regarding our intentions, beliefs or current expectations concerning, among other things, our results of operations, financial condition, liquidity, prospects, growth, competition, strategies and the industry in which we operate. By their nature, forward-looking statements involve risks and uncertainties because they relate to events and depend on circumstances that may or may not occur in the future. We believe that these risks and uncertainties include, but are not limited to, those described in the Risk Factors disclosed in our Annual Report on Form 10-K. Although we base these forward-looking statements on assumptions that we believe are reasonable when made, we caution you that forward-looking statements are not guarantees of future performance and that our actual results of operations, financial condition and liquidity and the development of the industries in which we operate may differ materially from those made in or suggested by the forward-looking statements contained herein. In addition, even if our results of operations, financial condition and liquidity and the development of the industries in which we operate are consistent with the forward-looking statements contained in this quarterly report, those results or developments may not be indicative of results or developments in subsequent periods. Given these risks and uncertainties, you are cautioned not to place undue reliance on these forward-looking statements. Any forward-looking statements that we make herein speak only as of the date of those statements, and we undertake no obligation to update those statements or to publicly announce the results of any revisions to any of those statements to reflect future events or developments. Comparisons of results for current and any prior periods are not intended to express any future trends or indications of future performance, unless expressed as such, and should only be viewed as historical data.

Overview

Gibraltar is a leading manufacturer and distributor of products that provide structural and architectural enhancements for residential homes, low-rise retail, other commercial and professional buildings, industrial plants, bridges and a wide-variety of other structures. These products include roof and foundation ventilation products, mail and package storage products, rain dispersion products and roofing accessories, fabricated bar grating, expanded and perforated metal, plus expansion joints and structural bearings for roadways and bridges.

We serve customers primarily throughout North America and Europe, and, to a lesser extent, in Asia, Africa, Australia, and Central and South America. Our customers include major home improvement retailers, wholesalers, and industrial distributors and contractors. As of March 31, 2014, we operated 43 facilities in 23 states, Canada, England, and Germany, giving us a base of operations to provide customer support, delivery, service and quality to a number of regional and national customers and providing us with manufacturing and distribution efficiencies in North America, as well as a presence in the European market.

The Company operates and reports its results in the following two operating segments, entitled Residential Products and Industrial and Infrastructure Products .

Our Residential Products segment focuses on the new residential housing construction and residential repair and remodeling activity. Its products are sold through major retail home centers, building material wholesalers, buying groups, roofing distributors, and residential contractors.

Our Industrial and Infrastructure Products segment focuses on a variety of markets including discrete and process manufacturing, highway and bridge construction markets, energy and power generation. This segment's products are distributed through industrial, commercial and transportation contractors, industrial distributors and original equipment manufacturers.

Table of Contents

Our strategy is to position Gibraltar as a low-cost provider and market share leader in product areas that offer the opportunity for sales growth and margin enhancement over the long-term. We focus on operational excellence including lean initiatives throughout the Company to position Gibraltar as our customers' low-cost provider of the products we offer. We continuously seek to improve our on-time delivery, quality, and service to position Gibraltar as a preferred supplier to our customers. We also strive to develop new products, enter new markets, expand market share in the residential markets, and further penetrate domestic and international industrial and infrastructure markets to strengthen our product leadership positions.

The end markets served by our business are subject to economic conditions that are influenced by but are not limited to interest rates, commodity costs, demand for residential construction, the level of non-residential construction and infrastructure projects and demand for related repair and remodeling. Current end market conditions overall are equivalent to those in 2013 and 2012, as the Company was still impacted by historically low levels of activity in its core markets. Although unevenly improving over the past few years, many economic indicators, such as residential housing starts, non-residential construction starts, industrial shipments and home repair and remodeling activity, continue to remain at levels well below long-term averages.

In response to these market conditions, we have restructured our operations, including the closing and consolidation of facilities, resulting in reductions in employees and overhead costs, and managed the business to generate cash. Investments in ERP systems have enabled us to react better to fluctuations in commodity costs and customer demand, thus improving margins, along with curtailing our investments in inventory. We have used these positive cash flows to maintain lower levels of debt and improve our liquidity position.

Results of Operations*Three Months Ended March 31, 2014 Compared to the Three Months Ended March 31, 2013*

The following table sets forth selected data from our statements of operations and the related percentage of net sales for the three months ended March 31 (in thousands):

	2014		2013	
Net sales	\$ 191,032	100.0%	\$ 196,801	100.0%
Cost of sales	161,168	84.4%	160,624	81.6%
Gross profit	29,864	15.6%	36,177	18.4%
Selling, general, and administrative expense	29,531	15.4%	30,981	15.8%
Income from operations	333	0.2%	5,196	2.6%
Interest expense	3,640	1.9%	11,160	5.6%
Other expense (income)	30	0.0%	(66)	0.0%
Loss before taxes	(3,337)	(1.7)%	(5,898)	(3.0)%
Benefit of income taxes	(1,251)	(0.6)%	(2,255)	(1.1)%
Loss from continuing operations	(2,086)	(1.1)%	(3,643)	(1.9)%
Loss from discontinued operations		0.0%	(4)	0.0%

Edgar Filing: GIBRALTAR INDUSTRIES, INC. - Form 10-Q

Net loss \$ (2,086) (1.1)% \$ (3,647) (1.9)%

The following table sets forth the Company's net sales by reportable segment for the three months ended March 31 (in thousands):

	2014	2013	Total Change
Net sales:			
Residential Products	\$ 86,983	\$ 89,664	\$ (2,681)
Industrial and Infrastructure Products	104,346	107,467	(3,121)
Less: Intersegment sales	(297)	(330)	33
	104,049	107,137	(3,088)
Consolidated	\$ 191,032	\$ 196,801	\$ (5,769)

Table of Contents

Net sales decreased by \$5.8 million, or 2.9%, to \$191.0 million for the three months ended March 31, 2014 from net sales of \$196.8 million for the three months ended March 31, 2013. The decrease was the result of a 2.1% decrease in volume along with a 1.0% decrease in pricing to customers.

Net sales in our Residential Products segment decreased 3.0%, or \$2.7 million to \$87.0 million in the first quarter of 2014 compared to \$89.7 million in the first quarter of 2013. The decrease was a result of a 2.0% decrease in volume along with a 1.3% decrease in pricing to customers, slightly offset by a 0.3% increase due to sales generated by an acquisition completed in 2013. The Company experienced decreased demand from residential new construction as well as repair and remodeling activity, primarily due to particularly harsh and prolonged winter weather conditions experienced in the first quarter for this year. The lower selling prices were primarily the result of a decline in commodity costs for aluminum and meeting selective competitive situations.

Net sales in our Industrial and Infrastructure Products segment decreased 2.9%, or \$3.1 million to \$104.3 million in the first quarter of 2014 compared to \$107.5 million in the first quarter of 2013. The decrease was primarily the result of a 2.2% decrease in volume, primarily to the transportation infrastructure market. Pricing to customers decreased 0.7%, the result of meeting selective competitive situations.

Our gross margin decreased to 15.6% for the three months ended March 31, 2014 compared to 18.4% for the three months ended March 31, 2013. Both segments were impacted by lower volumes, an unfavorable mix of products with lower margins as compared to the prior year, and less favorable alignment of material costs to customer selling prices. Increased costs for resins in our Residential Products segment also contributed to the margin compression. Competitive pressures on pricing and increased steel costs in our industrial markets contributed to the margin compression in our Industrial and Infrastructure Products segment.

Selling, general, and administrative expenses (SG&A) decreased by \$1.5 million, or 4.7%, to \$29.5 million for the three months ended March 31, 2014 from \$31.0 million for the three months ended March 31, 2013. The \$1.5 million decrease was largely the result of a \$2.5 million decrease in equity based compensation expense as compared to the first quarter of 2013, the result of the lower degree of change in the Company's stock price during the first quarter of 2014. SG&A expenses as a percentage of net sales decreased to 15.4% in the first quarter of 2014 compared to 15.8% in 2013.

The following table sets forth the Company's income from operations and income from operations as a percentage of net sales by reportable segment for the three months ended March 31 (in thousands):

	2014	2013	Total Change
Income from operations:			
Residential Products	\$ 2,093	\$ 6,638	\$ (4,545)
Industrial and Infrastructure Products	3,108	6,327	(3,219)
Unallocated Corporate Expenses	(4,868)	(7,769)	2,901
Consolidated	\$ 333	\$ 5,196	\$ (4,863)

	2014	2013	Total Change
--	------	------	-----------------

Income from operations as a percentage of sales:			
Residential Products	2.4%	7.4%	(5.0)
Industrial and Infrastructure Products	3.0%	5.9%	(2.9)
Consolidated	0.2%	2.6%	(2.4)

Our Residential Products segment generated an operating margin of 2.4% during the first quarter of 2014 compared to an operating margin of 7.4% during the first quarter of 2013. The decrease in operating margin included the effects of lower sales volume, less favorable alignment of material costs to customer selling prices and a less favorable product mix as compared to the first quarter of 2013.

Table of Contents

Our Industrial and Infrastructure Products segment generated an operating margin of 3.0% during the first quarter of 2014 compared to an operating margin of 5.9% during the first quarter of 2013. The decrease in operating margin included the effects of a less favorable product mix, lower shipments to the transportation infrastructure market as compared to the first quarter of 2013 along with raw material cost inflation not recovered through pricing.

Corporate expenses decreased \$2.9 million, or 37.3% from \$7.8 million for the first quarter of 2013 to \$4.9 million for the first quarter of 2014. The decrease was primarily the result of a decrease in equity based compensation expense of \$2.4 million from prior year, the result of lower degree of change in the Company's stock price during the first quarter of 2014.

Interest expense decreased by \$7.5 million to \$3.6 million for the three months ended March 31, 2014 compared to \$11.1 million for the three months ended March 31, 2013. The significant decrease in expense from the first quarter of the prior year resulted from costs associated with the tender and redemption of the \$204 million of 8% Senior Subordinated Notes (8% Notes) on January 31, 2013. In connection with this transaction in 2013, the Company recorded a charge of approximately \$7.2 million, which included \$3.7 million for the prepayment premium paid to holders of the 8% Notes, \$2.2 million to write-off deferred financing fees and \$1.3 million for the unamortized original issue discount related to the 8% Notes in the quarter ended March 31, 2013. In addition, this transaction resulted in lower interest expense of approximately \$0.3 million for the quarter ended March 31, 2014, due to the lower coupon rate on the 6.25% Notes as compared to the 8% Notes. During the three months ended March 31, 2014 and 2013, no amounts were outstanding under our revolving credit facility.

We recognized benefits from income taxes of \$1.3 million and \$2.3 million, and effective tax rates of 37.5% and 38.2%, for the three months ended March 31, 2014 and 2013, respectively. The effective tax rates for the first quarter of 2014 and 2013 exceeded the U.S. federal statutory rate of 35% due to state taxes partially offset by deductible permanent differences.

Outlook

Based on an increase in recent incoming order rates and the positive trends we expect in the majority of our other end markets, we believe the challenges we faced in the first quarter will prove to be temporary. As a result, we continue to expect Gibraltar will deliver sales growth between 4% and 7% in 2014. We expect this growth will be led by momentum in residential demand, bolstered by improving demand for centralized postal products, while increases in demand for our industrial and infrastructure products should be favorable for the year but weighted toward the second half.

At the same time, our continuing operational initiatives position Gibraltar for another year of bottom-line improvement in 2014. With margin expansion on full-year sales growth, we expect earnings per share for 2014 in the range of \$0.73 to \$0.87, which compares to a net loss per share of \$0.18 reported for 2013. In the short term, we continue to expect our results for the second quarter of 2014 to be favorable both sequentially and year-over-year led by seasonally stronger residential construction activity, bolstered by improving order rates for our residential products, with equivalent results in our industrial and transportation infrastructure markets.

Liquidity and Capital Resources

General

Our principal capital requirements are to fund our operations with working capital, the purchase of capital improvements for our business and facilities, and to fund acquisitions. We will continue to invest in growth

opportunities as appropriate while continuing to focus on working capital efficiency and profit improvement opportunities to minimize the cash invested to operate our business. During the first quarter of 2014, we invested cash in our working capital to meet the upcoming higher seasonal demand from our customers as noted below in the Cash Flows section of Item 2 of this Quarterly Report on Form 10-Q.

Table of Contents

As of March 31, 2014, our liquidity of \$195 million consisted of \$78 million of cash and \$117 million of availability under our revolving credit facility. We believe this liquidity, together with the cash expected to be generated from operations, should be sufficient to fund working capital needs and future growth. We continue to search for strategic acquisitions; and a larger acquisition may require additional borrowings and/or the issuance of our common stock.

Our Senior Credit Agreement provides the Company with liquidity and capital resources for use by our U.S. operations. Historically, our foreign operations have generated cash flow from operations sufficient to invest in working capital and fund their capital improvements. As of March 31, 2014, our foreign subsidiaries held \$20.6 million of cash. We believe cash held by our foreign subsidiaries provides our foreign operations with the necessary liquidity to meet future obligations and allows the foreign business units to reinvest in their operations. These cash resources could eventually be used to grow our business internationally through transactions similar to our 2012 acquisition of a Western Canadian bar grating business. Repatriation of this cash for domestic purposes could result in significant tax consequences.

Over the long-term, we expect that future obligations, including strategic business opportunities such as acquisitions, may be financed through a number of sources, including internally available cash, availability under our revolving credit facility, new debt financing, the issuance of equity securities, or any combination of the above. Any potential acquisitions are evaluated on the basis of our ability to enhance our existing products, operations, or capabilities, as well as provide access to new products, markets, and customers, and improve shareholder value.

These expectations are forward-looking statements based upon currently available information and may change if conditions in the credit and equity markets deteriorate or other circumstances change. To the extent that operating cash flows are lower than current levels, or sources of financing are not available or available at acceptable terms, our future liquidity may be adversely affected.

Cash Flows

The following table sets forth selected cash flow data for the three months ended March 31 (in thousands):

	2014	2013
Cash (used in) provided by:		
Operating activities of continuing operations	\$ (14,626)	\$ (12,687)
Investing activities of continuing operations	(3,919)	(1,852)
Financing activities of continuing operations	46	(2,317)
Discontinued operations		(7)
Effect of exchange rate changes	(354)	(877)
Net decrease in cash and cash equivalents	\$ (18,853)	\$ (17,740)

During the three months ended March 31, 2014, net cash used in continuing operations totaled \$14.6 million, primarily driven by a \$20.6 million investment in working capital and by a net loss from continuing operations of \$2.1 million partially offset by non-cash charges including depreciation, amortization, and stock compensation of \$8.0 million. Net cash used in operating activities for the three months ended March 31, 2013 was \$12.7 million primarily driven by a \$24.8 million investment in working capital and by a net loss from continuing operations of \$3.6 million partially offset by \$7.2 million loss on early note redemption and non-cash charges including depreciation, amortization, and stock compensation of \$8.6 million.

Table of Contents

During the three months ended March 31, 2014, the Company invested \$20.6 million in working capital to fund growth in sales and inventory to meet demand in our seasonally strongest periods. Cash invested in working capital and other net assets included \$17.1 million and \$6.3 million increases in accounts receivable and inventory, respectively, partially offset by a \$13.1 million increase in accounts payable. The increase in accounts receivable was a result of increased sales volume. Inventory and accounts payable increased due to increased manufacturing activity. The increased sales volume and manufacturing activity were a direct result of the seasonality of customer order levels that impact our business. The increase in other current assets and other assets of \$2.2 million was due to the recording of a benefit for income taxes for the first quarter. The decrease in accrued expenses and other non-current liabilities of \$8.0 million was largely the result of performance-based incentive compensation awards earned in 2013 that were paid during the first quarter of 2014 and the timing of interest payments made on the long term debt during the first quarter. These decreases were partially offset by increases in equity compensation awards treated as liability awards.

Net cash used in investing activities of continuing operations for the three months ended March 31, 2014 of \$3.9 million was primarily due to capital expenditures. Net cash used in investing activities of continuing operations for the three months ended March 31, 2013 of \$1.9 million was also primarily due to capital expenditures.

Net cash provided by financing activities from continuing operations for the three months ended March 31, 2014, of less than \$0.1 million was the primarily result of the offset between the purchase of treasury stock of \$0.4 million and the proceeds from the issuance of common stock of \$0.4 million. Net cash used in financing activities from continuing operations for the three months ended March 31, 2013, of \$2.3 million was the result of redemption of the \$204 million 8% Senior Subordinated Notes (8% Notes) along with \$3.7 million payment of note redemption fees and \$3.7 million for payments of deferred financing fees. These cash outflows were offset by proceeds from the issuance of the \$210.0 million 6.25% Senior Subordinated Notes (6.25% Notes).

Senior Credit Agreement and Senior Subordinated Notes

Borrowings under the Senior Credit Agreement are secured by the trade receivables, inventory, personal property and equipment, and certain real property of the Company's significant domestic subsidiaries. The Senior Credit Agreement provides for a revolving credit facility and letters of credit in an aggregate amount that does not exceed the lesser of (i) \$200 million or (ii) a borrowing base determined by reference to the trade receivables, inventories, and property, plant, and equipment of the Company's significant domestic subsidiaries. The Senior Credit Agreement provides the Company with more flexibility by allowing for Gibraltar to request additional financing from the banks to increase the revolving credit facility to \$250 million.

The Senior Credit Agreement is currently committed through October 10, 2016. Only one financial covenant is contained within the 2011 Senior Credit Agreement, which requires the Company to maintain a fixed charge ratio (as defined in the Senior Credit Agreement) of 1.25 to 1.00 or higher on a trailing four-quarter basis.

Borrowings under the Senior Credit Agreement bear interest at a variable interest rate based upon the London Interbank Offered Rate (LIBOR) plus an additional margin of 2.0% to 2.5% on the revolving credit facility based on the amount of availability under the revolving credit facility. The revolving credit facility also carries an annual facility fee of 0.375% on the undrawn portion of the facility and fees on outstanding letters of credit which are payable quarterly. During the three months ended and as of March 31, 2014, no amounts were outstanding on the revolving credit facility. We had outstanding letters of credit of \$12.9 million as of March 31, 2014.

The Company issued \$210.0 million of the 6.25% Notes in January 2013 which are due February 1, 2021. Provisions of the 6.25% Notes include, without limitation, restrictions on indebtedness, liens, and distributions from restricted subsidiaries, asset sales, affiliate transactions, dividends, and other restricted payments. Dividend payments are

subject to annual limits of the greater of \$0.25 per share or \$25 million. The 6.25% Notes are redeemable at the option of the Company, in whole or in part, at any time on or after February 1, 2017, at the redemption price (as defined in the Senior Subordinated 6.25% Notes Indenture). The redemption prices are 103.13% and 101.56% of the principal amount thereof if the redemption occurs during the 12-month periods beginning February 1, of the years 2017 and 2018, respectively, and 100% of the principal amount thereof on and after February 1, 2019, in each case plus accrued and unpaid interest to the applicable redemption date. In addition,

Table of Contents

prior to February 1, 2016, the Company may redeem up to 35% of the aggregate principal amount of the Notes with the net cash proceeds of certain equity offerings by the Company at a redemption price of 106.25% of the principal amount thereof, plus accrued and unpaid interest to the redemption date. In the event of a Change in Control (as defined in the Senior Subordinated 6.25% Notes Indenture), each holder of the 6.25% Notes may require the Company to repurchase all or a portion of such holder's 6.25% Notes at a purchase price equal to 101% of the principal amount thereof.

Each of our significant domestic subsidiaries has guaranteed the obligations under the Senior Credit Agreement. The Senior Credit Agreement contains other provisions and events of default that are customary for similar agreements and may limit our ability to take various actions. The Senior Subordinated 6.25% Notes Indenture also contains provisions that limit additional borrowings based on the Company's consolidated interest coverage ratio.

Off Balance Sheet Financing Arrangements

We have no off-balance sheet arrangements, other than operating leases, that have or are reasonable likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures, or capital resources that is material to investors.

Contractual Obligations

Our contractual obligations have not changed materially from the disclosures included in Item 7 of the Company's Annual Report on Form 10-K for the year ended December 31, 2013.

Critical Accounting Policies

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make decisions based upon estimates, assumptions, and factors it considers relevant to the circumstances. Such decisions include the selection of applicable principles and the use of judgment in their application, the results of which could differ from those anticipated.

Our most critical accounting policies include the valuation of accounts receivable; valuation of inventory; allocation of purchase price of acquisitions; assessment of recoverability of depreciable and amortizable long-lived assets, goodwill, and other indefinite-lived intangible assets; and accounting for income taxes and deferred tax assets and liabilities, which are described in Item 7 of the Company's Annual Report on Form 10-K for the year ended December 31, 2013.

There have been no changes in critical accounting policies in the current year.

Related Party Transactions

A member of our Board of Directors, Gerald S. Lippes, is a partner in a law firm that provides legal services to Gibraltar. For the three months ended March 31, 2014 and 2013, the Company incurred expense of \$0.2 million and \$0.5 million, respectively, for legal services from this firm. At March 31, 2014 and December 31, 2013, the Company had \$0.2 million and \$0.3 million, respectively, recorded in accounts payable for amounts due to this law firm.

Effective September 30, 2013, Henning N. Kornbrekke, the former President and Chief Operating Officer, retired and entered into a consulting agreement with the Company. Through this agreement, he will serve as a consultant to the Company through December 2014 for a monetary fee of \$10,000 per month.

Table of Contents

Recent Accounting Pronouncements

The Financial Accounting Standards Board has not issued any Accounting Standards Updates that are applicable to Gibraltar since our Annual Report on Form 10-K was filed for the year ended December 31, 2013.

Item 3. Qualitative and Quantitative Disclosures About Market Risk

In the ordinary course of business, the Company is exposed to various market risk factors, including changes in general economic conditions, competition, and raw materials pricing and availability. In addition, the Company is exposed to other financial market risks, primarily related to its long-term debt and foreign operations. There have been no material changes to the Company's exposure to market risk since December 31, 2013.

Item 4. Controls and Procedures

(a) Evaluation of Disclosure Controls and Procedures

The Company maintains a system of disclosure controls and procedures (as defined in Rule 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934). The Company's Chairman of the Board and Chief Executive Officer, and Senior Vice President and Chief Financial Officer evaluated the effectiveness of the Company's disclosure controls as of the end of the period covered in this report. Based upon that evaluation and the definition of disclosure controls and procedures contained in Rule 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, the Company's Chairman of the Board and Chief Executive Officer, and Senior Vice President and Chief Financial Officer have concluded that as of the end of such period the Company's disclosure controls and procedures were effective.

(b) Changes in Internal Control over Financial Reporting

There have been no changes in the Company's internal control over financial reporting (as defined by Rule 13a-15(f)) that occurred during the period covered by this Quarterly Report on Form 10-Q that have materially affected the Company's internal control over financial reporting.
