Forward-Looking Statements

Some of the statements on the Website and in the documents contained on the Website may contain forward-looking statements, including, but not limited to, statements related to Horizon Pharma's offer to exchange its ordinary shares for all issued and outstanding shares of Depomed's stock and the potential strategic and financial benefits thereof, the future financial performance and prospects of each of Horizon Pharma and Depomed, Horizon Pharma's business strategy and plans, and other statements that are not historical facts.

These forward-looking statements are based on Horizon Pharma's current expectations and inherently involve significant risks and uncertainties. Actual results and the timing of events could differ materially from those anticipated in such forward-looking statements as a result of these risks and uncertainties, which include, without limitation, risks that the conditions to the exchange offer will not be satisfied, Horizon Pharma will ultimately not pursue a transaction with Depomed or Depomed will reject engaging in any transaction with Horizon Pharma; if the conditions of the exchange offer are satisfied and/or a transaction is negotiated between Horizon Pharma and Depomed, risks related to Horizon Pharma's ability to complete the acquisition on the proposed terms; the possibility that competing offers will be made; risks associated with business combination transactions, such as the risk that the businesses will not be integrated successfully, that such integration may be more difficult, time-consuming or costly than expected or that the expected benefits of the acquisition will not be realized; risks related to future opportunities and plans for the combined company, including uncertainty of the expected financial performance and results of the combined company following completion of the proposed acquisition; disruption from the proposed acquisition, making it more difficult to conduct business as usual or maintain relationships with customers, employees or suppliers; and the possibility that if the combined company does not achieve the perceived benefits of the proposed acquisition as rapidly or to the extent anticipated by financial analysts or investors, the market price of Horizon Pharma's shares could decline, as well as other risks related to the Horizon Pharma and Depomed's businesses, including the ability to grow sales and revenues from existing products; competition, including potential generic competition; the ability to protect intellectual property and defend patents; regulatory obligations and oversight; and those risks detailed from time-to-time under the caption "Risk Factors" and elsewhere in Horizon Pharma's and Depomed's respective filings and reports with the U.S. Securities and Exchange Commission (the "SEC"). Horizon Pharma undertakes no duty or obligation to update any forward-looking statements contained in this presentation as a result of new information, except as required by applicable law or regulation.

Note Regarding Use of Non-GAAP Financial Measures

Some of the documents contained on the Website may contain certain financial measures such as adjusted EBITDA, or earnings before interest, taxes, depreciation and amortization, pro forma net sales adjusted for sales of certain products pre-acquisition and adjusted net income that include adjustments to GAAP figures. Adjustments to GAAP figures as well as EBITDA exclude acquisition transaction related expenses, loss on debt extinguishment, as well as non-cash items such as share-based compensation, depreciation and amortization, royalty accretion, non-cash interest expense, and other non-cash adjustments. Certain other special items or substantive events may also be included in the non-GAAP adjustments periodically when their magnitude is significant within the periods incurred. In the case of pro forma net sales, the figures exclude net sales of orphan and oncology products and include net sales attributed to other companies that marketed certain products prior to their acquisition by Horizon Pharma or Depomed, as applicable.

Horizon Pharma believes that these non-GAAP financial measures, when considered together with the GAAP figures, can enhance an overall understanding of Horizon Pharma's and Depomed's financial performance. The non-GAAP financial measures are included with the intent of providing investors with a more complete understanding of Horizon Pharma's operational results, trends and expectations, including in relation to Depomed. In addition, these non-GAAP financial measures are among the indicators Horizon Pharma's management uses for planning and forecasting purposes and measuring Horizon Pharma's performance. These non-GAAP financial measures should be considered in addition to, and not as a substitute for, or superior to, financial measures calculated in accordance with GAAP. The non-GAAP financial measures used by Horizon Pharma may be calculated differently from, and therefore may not be comparable to, non-GAAP financial measures used by other companies. Horizon Pharma has not provided a reconciliation of adjusted EBITDA or adjusted net income outlook for future periods to a net income (loss) outlook because certain items that are a component of net income (loss) but not part of adjusted EBITDA and/or adjusted net income, such as the gain (loss) on derivative revaluation associated with convertible senior notes, stock compensation, acquisition related expenses and certain purchase accounting items such as intangibles and step-up inventory, cannot be reasonably projected, either due to the significant impact of changes in Horizon Pharma's or Depomed's stock price on share-based compensation, the variability associated with acquisition related expenses due to timing and other factors.
